## GOLDEN ENTERPRISES, INC. AND SUBSIDIARY

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. The accompanying unaudited condensed consolidated financial statements of Golden Enterprises, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 to Regulation S-X. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal, recurring accruals) necessary for a fair presentation have been included. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for year ended June 1, 2012 which can be found on our website at [www.goldenflake.com/financial.html](http://www.goldenflake.com/financial.html).
2. The consolidated results of operations for the thirteen weeks ended August 31, 2012 are not necessarily indicative of the results to be expected for the fifty-two week fiscal year ending May 31, 2013.
3. The following tables summarize the prepaid assets accounts at August 31, 2012 and June 1, 2012.

	August 31, 2012	June 1, 2012
Truck shop supplies	\$ 512,406	\$ 576,673
Insurance deposit	82,959	82,959
Prepaid marketplace spending	175,470	227,382
Deferred advertising fees	1,063,125	-
Prepaid insurance	207,944	159,941
Prepaid taxes/licenses	105,402	168,110
Prepaid dues/supplies	881,644	499,905
Other	52,508	39,904
	\$ 3,081,458	\$ 1,754,874

4. The principal raw materials used in the manufacture of the Company's snack food products are potatoes, corn, pork skin pellets, vegetable oils, and seasoning. The principal supplies used are flexible film, cartons, trays, boxes, and bags. These raw materials and supplies are generally available in adequate quantities in the open market from sources in the United States and are generally contracted up to a year in advance.
5. Inventories are stated at the lower of cost or market. Cost is computed on the first-in, first-out method.

6. The following table provides a reconciliation of the denominator used in computing basic earnings per share to the denominator used in computing diluted earnings per share for the thirteen weeks ended August 31, 2012 and September 2, 2011:

	Thirteen Weeks Ended August 31, 2012	Thirteen Weeks Ended September 2, 2011
Weighted average number of common shares used in computing basic earnings per share	11,734,632	11,734,632
Effect of dilutive stock options	0	0
Weighted average number of common shares and dilutive potential common stock used in computing dilutive earnings per share	11,734,632	11,734,632
Stock options excluded from the above reconciliation because they are anti-dilutive	0	329,000

7. The Company has a letter of credit in the amount of \$1,900,000 outstanding at August 31, 2012 compared to \$2,000,000 outstanding at September 2, 2011. The letter of credit supports the Company's commercial self-insurance program.

8. The Company has a line-of-credit agreement with a local bank that permits borrowing up to \$3,000,000. The line-of-credit is subject to the Company's continued credit worthiness and compliance with the terms and conditions of the loan agreement. The Company's line-of-credit debt as of August 31, 2012 was \$732,283 with an interest rate of 3.50%, leaving the Company with \$2,267,717 of credit availability. The Company's line-of-credit debt as of June 1, 2012 was \$1,293,698 with an interest rate of 3.50%, leaving the Company with \$1,706,302 of credit availability.

9. The Company has a note payable with a balance of \$6,000,000 as of August 31, 2012. The loan was established as a construction loan in March 2009 to help fund the construction of a process water treatment facility. In September 2009, the note converted to a 10-year fixed-rate note at 4.25% for \$4,000,000. In March 2011, the loan was modified by taking the remaining balance of \$3,532,700 and adding another \$2,900,000 to finance the purchase and implementation of a new Enterprise Resource Planning computer software system. At that time, the interest rate on the loan was adjusted to 3.52% and the terms were re-established at 15 years for the repayment of the loan. The Company has been making monthly payments on the note and intends to repay it at the earliest practicable date, as there are no prepayment penalties.

10. The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables.

The Company maintains deposit relationships with high credit quality financial institutions. The Company's trade receivables result primarily from its snack food operations and reflect a broad customer base, primarily large grocery store chains located in the Southeastern United States. The Company routinely assesses the financial strength of its

customers. As a consequence, concentrations of credit risk are limited.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying condensed consolidated balance sheet of Golden Enterprises, Inc. and subsidiary as of August 31, 2012, and the related condensed consolidated statements of income for the thirteen week periods ended August 31, 2012 and September 2, 2011, and the related condensed statements of cash flows for the thirteen week periods ending August 31, 2012 and September 2, 2011. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the Public Company Accounting Oversight Board (United States). A review of interim financial statements consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet as of June 1, 2012 and the related consolidated statements of income, changes in stockholders' equity and cash flows for the fiscal year then ended (not presented herein), and in our report dated August 2, 2012 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 1, 2012, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

DUDLEY, HOPTON-JONES, SIMS & FREEMAN PLLP

Birmingham, Alabama  
October 4, 2012

ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis of our financial condition and results of operations are based upon the condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. This discussion should be read in conjunction with our recent SEC filings, including Form 10-K for the year ended June 1, 2012. The preparation of these financial statements requires us to make estimates and judgments about future events that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosures. Future events and their effects cannot be determined with absolute certainty. Therefore, management's determination of estimates and judgments about the carrying values of assets and liabilities requires the exercise of judgment in the selection and application of assumptions based on various factors, including historical experience, current and expected economic conditions and other factors believed to be reasonable under the circumstances. We routinely evaluate our estimates including those considered significant and discussed in detail in Form 10-K for the year ended June 1, 2012. Actual results may differ from these estimates under different assumptions or conditions and such differences may be material.

Overview

The Company manufactures and distributes a full line of high quality salted snack items, such as potato chips, tortilla chips, corn chips, fried pork skins, baked and fried cheese curls, onion rings, and puff corn. The products are all packaged in flexible bags or other suitable wrapping material. The Company also sells canned dips, pretzels, peanut butter crackers, cheese crackers, dried meat products, and nuts packaged by other manufacturers using the Golden Flake label.

No single product or product line accounts for more than 50% of the Company's sales, which affords some protection against loss of volume due to a crop failure of major agricultural raw materials or failure to procure an adequate supply of pork skin pellets. Raw materials used in manufacturing and processing the Company's snack food products are purchased on the open market and under contract through brokers and directly from growers. A large part of the raw materials used by the Company consists of farm commodities which are subject to precipitous changes in supply and price. Weather varies from season to season and directly affects both the quality and supply of farm commodities available. The Company has no control of the agricultural aspects and its profits are affected accordingly.

The Company sells its products through its own sales organization and independent distributors to commercial establishments that sell food products primarily in the Southeastern United States. The products are distributed through the independent distributors and route representatives who are supplied with selling inventory by the Company's trucking fleet. All of the route representatives are employees of the Company and use the Company's direct-store delivery system.

Liquidity and Capital Resources

At August 31, 2012 and June 1, 2012, working capital was \$6,420,239 and \$6,005,479, respectively.

The Company did not purchase shares of treasury stock this quarter. The Company's current ratio was 1.48 to 1.00 at August 31, 2012 compared to 1.43 to 1.00 at June 1, 2012.

## Accounts Receivable and Allowance for Doubtful Accounts

At August 31, 2012 and June 1, 2012 the Company had accounts receivables in the amount of \$10,012,249 and \$10,566,073 respectively, net of an allowance for doubtful accounts of \$70,000.

## Other Commitments

Available cash, cash from operations and available credit under the line-of-credit are expected to be sufficient to meet anticipated cash expenditures and normal operating requirements for the foreseeable future.

## Operating Results

For the thirteen weeks ended August 31, 2012, net sales increased 4.3% from the thirteen weeks ended September 2, 2012. This year's first quarter cost of sales was 50.6% of net sales compared to 51.9% for last year's first quarter. This year's first quarter, selling, general and administrative expenses were 46.0% of net sales compared to 44.9% for last year's first quarter.

The following tables compare manufactured products to resale products:

## Manufactured Products-Resale Products

	Thirteen Weeks Ended August 31, 2012			Thirteen Weeks Ended September 2, 2011		
			%			%
Sales						
Manufactured Products	\$ 27,290,219		78.7 %	\$ 25,727,780		77.4 %
Resale Products	7,393,236		21.3 %	7,517,410		22.6 %
Total	\$ 34,683,455		100.0 %	\$ 33,245,190		100.0 %
Gross Margin			%			%
Manufactured Products	\$ 14,563,639		53.4 %	\$ 13,421,183		52.2 %
Resale Products	2,563,377		34.7 %	2,582,389		34.4 %
Total	\$ 17,127,016		49.4 %	\$ 16,003,572		48.1 %

The Company's gain on sale of assets for the thirteen weeks ended August 31, 2012 in the amount of \$19,409 was from the sale of used transportation equipment.

For last year's thirteen weeks, the gain on sale of assets was \$84,342 from i) the sale of property in Pensacola, Florida to Verizon Wireless Personal Communications LP for \$74,950 and ii) the sale of used transportation equipment for \$9,392.

The Company's effective tax rate for the thirteen weeks was 42.9% compared to 37.5% for the last year's thirteen weeks.

## Market Risk

The principal market risks (i.e., the risk of loss arising from adverse changes in market rates and prices), to which the Company is exposed, are interest rates on its cash equivalents and bank loans, fuel costs, and commodity prices affecting the cost of its raw materials.

The Company is subject to market risk with respect to commodities because its ability to recover increased costs through higher pricing may be limited by the competitive environment in which it operates. The Company purchases its raw materials on the open market and under contract through brokers or directly from growers. Future contracts have been used occasionally to hedge immaterial amounts of commodity purchases, but none are presently being used.

## Inflation

Certain costs and expenses of the Company are affected by inflation. The Company's prices for its products over the past several years have remained relatively flat. The Company will contend with the effect of further inflation through efficient purchasing, improved manufacturing methods, pricing, and by monitoring and controlling expenses.

## Environmental Matters

Golden Flake's waste water treatment plant is an environmentally-friendly way to dispose of process water at the Birmingham plant. The treatment plant has allowed Golden Flake to release the processing water into a neighboring creek which has improved the flow of water in the creek and has positively impacted the environment in the area surrounding the plant. This treatment plant has also helped to reduce expenses associated with sewer charges by the elimination of the disposal of process water through the public sewer system.

## Subsequent Event

Not applicable.

## Forward-Looking Statements

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those forward-looking statements. Factors that may cause actual results to differ materially include, but are not limited to, price competition, industry consolidation, raw material costs, and effectiveness of sales and marketing activities, as described in the Company's filings with the Securities and Exchange Commission.

## ITEM 3

### QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Pursuant to Item 305(e) of Regulation S-K (Section 229.305(e)) the Company is not required to provide the Information under this item, as it is a "Smaller Reporting Company" as defined by Rule 229.10(f)(1).

## ITEM 4

### MINE SAFETY DISCLOSURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures provided reasonable assurance that the disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and in accumulating and communicating such information to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the Company's internal control over financial reporting to determine whether any changes occurred during the Company's first fiscal quarter ended August 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Based on that evaluation, there has been no such change during the period covered by this report.
