VERSO PAPER CORP. AND VERSO PAPER HOLDINGS LLC

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2012, AND DECEMBER 31, 2011, AND FOR THE THREE-MONTH AND NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2012 AND 2011

1. BACKGROUND AND BASIS OF PRESENTATION

Within our organization, Verso Paper Corp. is the ultimate parent entity and the sole member of Verso Paper Finance Holdings One LLC, which is the sole member of Verso Paper Finance Holdings LLC, which is the sole member of Verso Paper Holdings LLC. As used in this report, the term "Verso Paper" refers to Verso Paper Corp.; the term "Verso Finance" refers to Verso Paper Finance Holdings LLC; the term "Verso Holdings" refers to Verso Paper Holdings LLC; and the term for any such entity includes its direct and indirect subsidiaries when referring to the entity's consolidated financial condition or results. Unless otherwise noted, references to "Verso," "we," "us," and "our" refer collectively to Verso Paper and Verso Holdings. Other than Verso Paper's common stock transactions, Verso Finance's debt obligation and related financing costs and interest expense, Verso Holdings' loan to Verso Finance, and the debt obligation of Verso Holdings' consolidated variable interest entity to Verso Finance, the assets, liabilities, income, expenses and cash flows presented for all periods represent those of Verso Holdings in all material respects. Unless otherwise noted, the information provided pertains to both Verso Paper and Verso Holdings.

We operate in the following three market segments: coated papers; hardwood market pulp; and other, consisting of specialty papers. Our core business platform is as a producer of coated freesheet and coated groundwood papers. Our products are used primarily in media and marketing applications, including catalogs, magazines, and commercial printing applications such as high-end advertising brochures, annual reports, and direct-mail advertising.

This report contains the unaudited condensed consolidated financial statements of Verso Paper and Verso Holdings as of September 30, 2012, and for the three-month and nine-month periods ended September 30, 2012 and 2011. The December 31, 2011, condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required annually by accounting principles generally accepted in the United States of America, or "GAAP." In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments that are necessary for the fair presentation of Verso Paper's and Verso Holdings' respective financial conditions, results of operations, and cash flows for the interim periods presented. Except as disclosed in the notes to the unaudited condensed consolidated financial statements, such adjustments are of a normal, recurring nature. Variable interest entities for which Verso Paper or Verso Holdings is the primary beneficiary are consolidated. Intercompany balances and transactions are eliminated in consolidation. The results of operations and cash flows for the interim periods presented may not necessarily be indicative of full-year results. It is suggested that these financial statements be read in conjunction with the audited consolidated financial statements and notes thereto of Verso Paper and Verso Holdings contained in their respective Annual Reports on Form 10-K for the year ended December 31, 2011.

2. RECENT ACCOUNTING DEVELOPMENTS

ASC Topic 220, Comprehensive Income. Accounting Standards Update, or "ASU," No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, changes the existing guidance on the presentation of comprehensive income. Entities have the option of presenting the components of net income and other comprehensive income in either a single continuous statement of comprehensive income or in two separate but consecutive statements. Entities no longer have the option of presenting the components of other comprehensive income within the statement of changes in stockholders' equity. ASU No. 2011-05 is effective on a retrospective basis for fiscal years, and interim periods within those years, beginning after December 15, 2011, which for us was the first quarter of 2012. In December 2011, the Financial Accounting Standards Board, or "FASB," issued ASU No. 2011-12, Comprehensive Income – Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05, which defers changes in ASU No. 2011-05 that related to the presentation of reclassification adjustments. The adoption of the remaining guidance provided in ASU No. 2011-05 will result in a change to our current presentation of comprehensive income but will have no impact on our financial condition, results of operations, or cash flows.

ASC Topic 820, Fair Value Measurements and Disclosures. ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, provides clarifying guidance on how to measure fair value and additional disclosure requirements. The update does not extend the use of fair value accounting, but does provide guidance on how it should be applied where it is already required or permitted under current GAAP. ASU No. 2011-04 is effective for annual and interim periods beginning after December 15, 2011, which for us was January 1, 2012, and had no impact on our consolidated financial statements.

Other new accounting pronouncements issued but not effective until after September 30, 2012, are not expected to have a significant effect on our consolidated financial statements.

3. SUPPLEMENTAL FINANCIAL STATEMENT INFORMATION

Earnings Per Share — Verso Paper computes earnings per share by dividing net income or net loss attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing net income or net loss by the weighted average number of shares outstanding, after giving effect to potentially dilutive common share equivalents outstanding during the period. Potentially dilutive common share equivalents are not included in the computation of diluted earnings per share if they are anti-dilutive.

The following table provides a reconciliation of basic and diluted loss per common share of Verso Paper:

	VERSO PAPER			
	Three Months Ended September 30,		Nine Months Ended September 30,	
(In thousands, except per share data)	2012	2011	2012	2011

Diluted loss per share	$ (1.98)	$ (0.01)	$ (3.77)	$ (1.32)

In accordance with ASC Topic 260, Earnings Per Share, unvested restricted stock awards issued by Verso Paper contain nonforfeitable rights to dividends and qualify as participating securities. No dividends have been declared or paid in 2012 or 2011.

For the three-month and nine-month periods ended September 30, 2012, respectively, 3,679,944 and 2,745,067 weighted average potentially dilutive shares from stock options with weighted average exercise prices per share of $2.61 and $3.00, respectively, were excluded from the diluted earnings per share calculation due to the antidilutive effect such shares would have on net loss per common share. For the three-month and nine-month periods ended September 30, 2011, respectively, 1,783,615 and 1,710,141 weighted average potentially dilutive shares from stock options with weighted average exercise prices per share of $3.90 and $3.80, respectively, were excluded from the diluted earnings per share calculation due to the antidilutive effect such shares would have on net loss per common share.

Inventories and Replacement Parts and Other Supplies — Inventory values include all costs directly associated with manufacturing products: materials, labor, and manufacturing overhead. These values are presented at the lower of cost or market. Costs of raw materials, work-in-progress, and finished goods are determined using the first-in, first-out method. Replacement parts and other supplies are stated using the average cost method and are reflected in Inventories and Intangibles and other assets on the accompanying condensed consolidated balance sheets (see also Note 4).

Inventories by major category include the following:

(Dollars in thousands)	September 30, 2012	December 31, 2011
Raw materials	$29,808	$27,953
Woodyard logs	7,166	5,931
Work-in-process	12,725	19,120
Finished goods	64,502	87,585
Replacement parts and other supplies	26,784	26,287
Inventories	$140,985	$166,876

During the nine months ended September 30, 2012, raw materials inventories with a carrying value of $3.7 million, work-in-process inventories with a carrying value of $1.2 million, and finished goods inventories with a carrying value of $3.3 million were reduced to their fair value of $0, due to fire loss.

In the third quarter of 2012, we completed a comprehensive assessment of the damage resulting from the fire and explosion at our paper mill in Sartell, Minnesota, and announced the decision to permanently close the mill. As a result of the closure, we recorded an inventory impairment charge of $5.6 million, which is included in Restructuring and other charges on our accompanying condensed consolidated statements of operations (see also Note 10).

Asset Retirement Obligations — In accordance with ASC Topic 410, Asset Retirement and Environmental Obligations, a liability and an asset are recorded equal to the present value of the estimated costs associated with the retirement of long-lived assets where a legal or contractual obligation exists. The liability is accreted over time, and the asset is depreciated over its useful life. Our asset retirement obligations under this standard relate to closure and post-closure costs for landfills. Revisions to the liability could occur due to changes in the estimated costs or timing of closure or possible new federal or state regulations affecting the closure.

On September 30, 2012, we had $0.8 million of restricted cash included in Intangibles and other assets in the accompanying condensed consolidated balance sheet related to an asset retirement obligation in the state of Michigan. This cash deposit is required by the state and may only be used for the future closure of a landfill.

The following table presents an analysis related to our asset retirement obligations included in Other liabilities in the accompanying condensed consolidated balance sheets:

(Dollars in thousands)	Nine Months Ended September 30, 2012	2011
Asset retirement obligations, January 1	$ 11,233	$ 13,660
Accretion expense	614	607
Settlement of existing liabilities	(383)	(1,120)
Adjustment to existing liabilities	419	(1,619)
Asset retirement obligations, September 30	$ 11,883	$ 11,528

In addition to the above obligations, we may be required to remove certain materials from our facilities or to remediate them in accordance with current regulations that govern the handling of certain hazardous or potentially hazardous materials. At this time, any such obligations have an indeterminate settlement date, and we believe that adequate information does not exist to reasonably estimate any such potential obligations. Accordingly, we will record a liability for such remediation when sufficient information becomes available to estimate the obligation.

Property, Plant, and Equipment — Property, plant, and equipment is stated at cost, net of accumulated depreciation. Interest is capitalized on projects meeting certain criteria and is included in the cost of the assets. The capitalized interest is depreciated over the same useful lives as the related assets. Expenditures for major repairs and improvements are capitalized, whereas normal repairs and maintenance are expensed as incurred. For the three-month and nine-month periods ended September 30, 2012, interest costs of $1.4 million and $3.2 million, respectively, were capitalized. For the three-month and nine-month periods ended September 30, 2011, interest costs of $1.5 million and $2.9 million, respectively, were capitalized.

Depreciation is computed using the straight-line method over the assets' estimated useful lives. Depreciation expense was $28.1 million and $90.6 million for the three-month and nine-month periods ended September 30, 2012, respectively, compared to $30.6 million and $92.7 million for the three-month and nine-month periods ended September 30, 2011, respectively.

During the nine months ended September 30, 2012, fixed assets with a carrying value of $6.4 million were reduced to a fair value of $0, due to fire loss.

As of September 30, 2012, we have received $40 million in advances from our insurance provider related to the charges incurred as a result of the fire. As of September 30, 2012, the net of cash advances received and deferred expenses incurred of $11.3 million is included in Accrued liabilities on our accompanying condensed consolidated balance sheet. Subsequent to September 30, we reached a settlement agreement with our insurance provider for property and business losses resulting from the fire and received additional proceeds of $44 million in the fourth quarter of 2012.

In the third quarter of 2012, we completed a comprehensive assessment of the damage resulting from the fire and explosion at our paper mill in Sartell, Minnesota, and announced the decision to permanently close the mill. As a result of the closure, we recorded a fixed asset impairment charge of $66.8 million, which is included in Restructuring and other charges on our accompanying condensed consolidated statements of operations (see also Note 10).

4. INTANGIBLES AND OTHER ASSETS

Intangibles and other assets consist of the following:

Intangibles and other assets	$ 87,596	$ 80,035	$ 110,902	$ 102,950

Certain previously reported amounts have been reclassified to agree with current presentation.

In the third quarter of 2012, we completed a comprehensive assessment of the damage resulting from the fire and explosion at our paper mill in Sartell, Minnesota, and announced the decision to permanently close the mill. As a result of the closure, we performed an interim impairment analysis of our trademarks, which resulted in an impairment charge of $3.4 million, based on a projected reduction of revenues primarily as a result of a reduction in production capacity. The trademarks impairment charge is included in Restructuring and other charges on our accompanying condensed consolidated statements of operations (see also Note 10).

Amortization expense of intangibles was $0.2 million and $0.7 million for the three-month and nine-month periods ended September 30, 2012, respectively, compared to $0.3 million and $0.8 million for the three-month and nine-month periods ended September 30, 2011, respectively.

The estimated future amortization expense for intangible assets over the next five years is as follows:

(Dollars in thousands)	
2012	$ 229
2013	815
2014	715
2015	615

Revolving Credit Facilities. On May 4, 2012, Verso Holdings entered into new revolving credit facilities consisting of a $150.0 million asset-based loan facility, or “ABL Facility,” and a $50.0 million cash-flow facility, or “Cash Flow Facility.” The revolving credit facilities were used to repay the outstanding indebtedness under the existing $200.0 million revolving credit facility and will be used to provide ongoing working capital and for other general corporate purposes. In connection with the revolving credit facilities, debt issuance costs of approximately $9.3 million were deferred and will be amortized over the life of the credit facilities. The indebtedness under the revolving credit facilities bears interest at a floating rate based on a margin over a base rate or eurocurrency rate. As of September 30, 2012, the weighted-average interest rate on outstanding advances was 2.54%. Verso Holdings is required to pay commitment fees to the lenders in respect of unutilized commitments under the revolving credit facilities and other customary fees. The indebtedness under the ABL Facility and related guarantees are secured by first-priority security interests, subject to permitted liens, in substantially all of Verso Holdings’, Verso Finance’s, and the subsidiary guarantors’ inventory and accounts receivable, or “ABL Priority Collateral,” and second-priority security interests, subject to permitted liens, in substantially all of their other assets, or “Notes Priority Collateral.” The indebtedness under the Cash Flow Facility and related guarantees are secured, pari passu with the 11.75% senior secured notes due 2019 and related guarantees, by first-priority security interests in the Notes Priority Collateral and second-priority security interests in the ABL Priority Collateral. The revolving credit facilities will mature on May 4, 2017, unless, on any of the dates that is 91 days prior to the earliest scheduled maturity of any of the second priority senior secured floating rate notes due 2014, the 11.38% senior subordinated notes, or the senior unsecured term loan, an aggregate principal amount in excess of $100.0 million of indebtedness under such existing second-lien notes, subordinated notes or senior unsecured term loan, as applicable, is outstanding, in which case the revolving credit facilities will mature on such earlier date. The ABL Facility had $35.0 million outstanding, $43.3 million in letters of credit issued, and $71.7 million available for future borrowing as of September 30, 2012. The Cash Flow Facility had no outstanding balance, no letters of credit issued, and $50.0 million available for future borrowing as of September 30, 2012.

11.5% Senior Secured Notes due 2014. On March 21, 2012, Verso Holdings repurchased and retired $270.6 million aggregate principal amount of 11.5% senior secured notes due 2014 and recognized a loss of $29.9 million, which is included in Other income (loss), net on our accompanying condensed consolidated statements of operations, on the early retirement of the notes, including the write-off of unamortized debt issuance costs and unamortized discount related to the notes. On April 30, 2012, Verso Holdings redeemed the remaining outstanding $44.4 million aggregate principal amount of the notes and recognized a loss of $4.6 million, which is included in Other income (loss), net on our accompanying condensed consolidated statements of operations, on the early retirement of the notes, including the write-off of unamortized debt issuance costs and unamortized discount related to the notes. Following these transactions, there are no outstanding 11.5% senior secured notes due 2014.

11.75% Senior Secured Notes due 2019. On March 21, 2012, Verso Holdings issued $345.0 million aggregate principal amount of 11.75% senior secured notes due 2019. The notes bear interest, payable semi-annually, at the rate of 11.75% per year. The notes are guaranteed jointly and severally by each of Verso Holdings’ subsidiaries, subject to certain exceptions, and the notes and guarantees are senior secured obligations of Verso Holdings and the guarantors, respectively. The indebtedness under the notes and related guarantees are secured, pari passu with the Cash Flow Facility and related guarantees, by first-priority security interests in the Notes Priority Collateral and second-priority security interests in the ABL Priority Collateral. The notes will mature on January 15, 2019.

Verso Holdings used $332.0 million of net proceeds from the notes issuance, after deducting the discount, underwriting fees and offering expenses, along with $0.6 million of available cash, to repurchase and retire $270.6 million and to redeem $44.4 million aggregate principal amount of its 11.5% senior secured notes due 2014. Debt issuance costs of approximately $10.1 million were deferred and will be amortized over the life of the notes.

11.75% Secured Notes due 2019. On May 11, 2012, Verso Holdings issued $271.6 million aggregate principal amount of 11.75% secured notes due 2019. The notes bear interest, payable semi-annually, at the rate of 11.75% per year. The notes are guaranteed jointly and severally by each of Verso Holdings' subsidiaries, subject to certain exceptions, and the notes and guarantees are senior secured obligations of Verso Holdings and the guarantors, respectively. The notes and related guarantees are secured by security interests, subject to permitted liens, in substantially all of Verso Holdings' and the guarantors' tangible and intangible assets. The security interests securing the notes rank junior to those securing the obligations under the ABL Facility, the Cash Flow Facility, and the 11.75% senior secured notes due 2019 and rank senior to those securing the 8.75% second priority senior secured notes due 2019. The notes will mature on January 15, 2019.

Verso Holdings issued the notes pursuant to two separate exchange offers whereby it (a) issued $166.9 million aggregate principal amount of the notes and paid $5.0 million in cash in exchange for $166.9 million aggregate principal amount of its second priority senior secured floating rate notes due 2014 and (b) issued $104.7 million aggregate principal amount of the notes and paid $17.3 million in cash in exchange for $157.5 million aggregate principal amount of its 11.38% senior subordinated notes due 2016. Verso Holdings recognized a total gain of $26.3 million, net of the write-off of unamortized debt issuance costs, from the exchanges, which is included in Other income (loss), net on our accompanying condensed consolidated statements of operations. Following the exchanges, $13.3 million aggregate principal amount of the second priority senior secured floating rate notes and $142.5 million aggregate principal amount of the 11.38% senior subordinated notes remain outstanding. Debt issuance costs of approximately $5.4 million were deferred and will be amortized over the life of the notes.

Senior Unsecured Term Loan. Verso Finance, the parent entity of Verso Holdings, had $89.2 million outstanding on its senior unsecured term loan as of September 30, 2012. The loan allows Verso Finance to pay interest either in cash or in kind through the accumulation of the outstanding principal amount. The loan bears interest, payable quarterly, at a rate equal to LIBOR plus 6.25% per year on interest paid in cash and LIBOR plus 7.00% per year for interest paid in kind, or "PIK," and added to the principal balance. As of September 30, 2012, the weighted-average interest rate on the loan was 6.67% per year. Verso Finance elected to exercise the PIK option for $4.5 million and $4.1 million of interest payments due in the first nine months of 2012 and 2011, respectively. The loan will mature on February 1, 2013. As of September 30, 2012, the loan is included in Current maturities of long-term debt on the accompanying condensed consolidated balance sheet.

As of September 30, 2012, we were in compliance with the covenants in our debt agreements.

6. RETIREMENT PLANS

We maintain defined benefit pension plans that provide retirement benefits for current hourly employees at the Androscoggin and Bucksport mills, and prior hourly employees at the Sartell mill who were hired prior to July 1, 2004. After June 30, 2004, certain employees who are not eligible to participate in the pension plans receive an additional company contribution to their accounts under our 401(k) savings plan. The pension plans provide defined benefits based on years of credited service times a specified flat dollar benefit rate.

During the third quarter of 2012, a curtailment loss of $0.6 million, representing amortization of prior service costs, was recognized in Restructuring and other charges on the consolidated statements of operations due to a reduction in headcount associated with the closure of the Sartell mill.

The following table summarizes the components of net periodic benefit cost for the three-month and nine-month periods ended September 30, 2012 and 2011:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Dollars in thousands)	2012	2011	2012	2011
Components of net periodic benefit cost:				
Service cost	$ 1,771	$ 1,674	$ 5,312	$ 5,021
Interest cost	719	631	2,157	1,892
Expected return on plan assets	(697)	(645)	(2,093)	(1,934)
Amortization of actuarial loss	368	99	1,106	296
Amortization of prior service cost	196	293	588	881
Curtailment	572	-	572	-
Net periodic benefit cost	$ 2,929	$ 2,052	$ 7,642	$ 6,156

We make contributions that are sufficient to fully fund our actuarially determined costs, generally equal to the minimum amounts required by the Employee Retirement Income Security Act, or “ERISA.” For the three months and nine months ended September 30, 2012, we made contributions of $6.7 million and $10.7 million, respectively, to the pension plans. For the three months and nine months ended September 30, 2011, we made contributions of $4.5 million and $7.8 million, respectively, to the pension plans. New legislation, titled Moving Ahead for Progress in the 21st Century, or “MAP-21,” has the effect of spreading the expected funding requirements over a longer period of time. This relief has had an immediate impact of reducing our estimated minimum funding requirement by $0.4 million for 2012. We plan to make no additional contributions to the pension plans during the remainder of 2012. After the enactment of MAP-21, our required contribution to the pension plan during 2013 will be $0.4 million for the 2012 plan year and $0 for the 2013 plan year.

ASC Topic 820 provides a common definition of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions used to value the assets or liabilities (see Note 8 – Fair Value of Financial Instruments for more detail).

The following table sets forth by level, within the fair value hierarchy, the pension plans' assets at fair value as of September 30, 2012, and December 31, 2011.

7. DERIVATIVE INSTRUMENTS AND HEDGES

In the normal course of business, we utilize derivative contracts as part of our risk management strategy to manage our exposure to market fluctuations in energy prices and interest rates. These instruments are subject to credit and market risks in excess of the amount recorded on the balance sheet in accordance with GAAP. Controls and monitoring procedures for these instruments have been established and are routinely reevaluated. Credit risk represents the potential loss that may occur because a party to a transaction fails to perform according to the terms of the contract. The measure of credit exposure is the replacement cost of contracts with a positive fair value. We manage credit risk by entering into financial instrument transactions only through approved counterparties. Market risk represents the potential loss due to the decrease in the value of a financial instrument caused primarily by changes in commodity prices. We manage market risk by establishing and monitoring limits on the types and degree of risk that may be undertaken.

Derivative instruments are recorded on the balance sheet as other assets or other liabilities measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models may be applied. For a cash flow hedge accounted for under ASC Topic 815, changes in the fair value of the derivative instrument, to the extent that it is effective, are recorded in Accumulated other comprehensive loss and are subsequently reclassified to earnings as the hedged transaction impacts net income. Any ineffective portion of a cash flow hedge is recognized currently in earnings. For hedges that are entered into as economic hedges, but not accounted for under ASC Topic 815, changes in the fair value of the derivative instrument are recorded in Cost of products sold in the current period. Cash flows from derivative contracts are reported as operating activities on the consolidated statements of cash flows. We enter into fixed-price energy swaps as hedges designed to mitigate the risk of changes in commodity prices for forecasted future purchase commitments. These fixed-price swaps involve the exchange of net cash settlements, based on changes in the price of the underlying commodity index compared to the fixed price offering, at specified intervals without the exchange of any underlying principal.

Historically, we designated our energy hedging relationships as cash flow hedges under ASC Topic 815 with net gains or losses attributable to effective hedging recorded in Accumulated other comprehensive loss and any ineffectiveness recognized in Cost of products sold. One of the requirements that must be evaluated when determining whether a contract qualifies for hedge accounting treatment is whether or not the contract is deemed effective. A contract is deemed effective if the change in the fair value of the derivative contract offsets, within a specified range, the change in the anticipated cash flows of the hedged transaction. The effectiveness of a hedging relationship must be tested at inception and quarterly thereafter. If the relationship fails this test at any time, hedge accounting treatment must be discontinued prospectively. The requirements necessary to apply hedge accounting are complex and must be documented at the inception as well as throughout the term of the contract. If we fail to accurately document these requirements, the contact is not eligible for hedge accounting treatment. The accompanying financial statements reflect the discontinuation of hedge accounting for certain contracts that failed to qualify for hedge accounting. Additionally, effective April 1, 2012, management elected to de-designate the remaining energy swaps that had previously been designated as cash flow hedges and to discontinue hedge accounting prospectively. As a result, all gains and losses from changes in the fair value of our derivative contracts subsequent to March 31, 2012, are recognized immediately in Cost of products sold. Prior to March 31, 2012, to the extent the hedge was effective, the change in fair value was deferred through Accumulated other comprehensive loss. The amount in Accumulated other comprehensive loss at the time a contract is de-designated is reclassified into Cost of products sold when the contract settles, or sooner if management determines that the forecasted transaction is probable of not occurring. Energy swaps continue to be utilized as economic hedges designed to mitigate the risk of changes in commodity prices for future energy purchase commitments.

The following table presents information about the volume and fair value amounts of our derivative instruments:

(1) Loss reclassified from Accumulated OCI to earnings and gain (loss) recognized on derivatives is included in Cost of products sold.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

We use fair value measurements for the initial recording of certain assets and liabilities, periodic remeasurement of certain assets and liabilities, and disclosures. Fair value is generally defined as the exit price at which an asset or liability could be exchanged in a current transaction between willing, unrelated parties, other than in a forced or liquidation sale.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1:	Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
Level 2:	Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
Level 3:	Unobservable inputs reflecting management's own assumption about the inputs used in pricing the asset or liability at the measurement date.

The following table summarizes the balances of assets and liabilities measured at fair value on a recurring basis:

(Dollars in thousands)	Total	Level 1	Level 2	Level 3

9. RELATED PARTY TRANSACTIONS

Management Agreement — In connection with the acquisition of our business from International Paper Company on August 1, 2006, we entered into a management agreement with certain affiliates of Apollo Management, L.P., or “Apollo,” relating to the provision of certain financial and strategic advisory services and consulting services, which will expire on August 1, 2018. Under the management agreement, at any time prior to the expiration of the agreement, Apollo has the right to act, in return for additional fees to be mutually agreed by the parties to the management agreement, as our financial advisor or investment banker for any merger, acquisition, disposition, financing or the like if we decide to engage someone to fill such role. In the event that we are not able to come to an agreement with Apollo in connection with such role, at the closing of any merger, acquisition, disposition or financing or any similar transaction, we have agreed to pay Apollo a fee equal to 1% of the aggregate enterprise value (including the aggregate value of equity securities, warrants, rights and options acquired or retained; indebtedness acquired, assumed or refinanced; and any other consideration or compensation paid in connection with such transaction). We agreed to indemnify Apollo and its affiliates and their directors, officers and representatives for losses relating to the services contemplated by the management agreement and the engagement of affiliates of Apollo pursuant to, and the performance by them of the services contemplated by, the management agreement.

Distributions to Verso Finance — Verso Finance has a senior unsecured term loan which matures on February 1, 2013. The loan allows Verso Finance to pay interest either in cash or in kind through the accumulation of the outstanding principal amount. Verso Finance elected to exercise the PIK option for $4.5 million and $4.1 million of interest payments due in the first nine months of 2012 and 2011, respectively. Verso Finance has no independent operations; consequently, all cash flows used to service its remaining debt obligation will need to be received via distributions from Verso Holdings. Verso Holdings made negligible distributions on behalf of Verso Finance for the nine months ended September 30, 2012, and made no distributions for the same period in 2011. Verso Holdings has no obligation to make distributions to Verso Finance.

Verso Quinnesec Renewable Energy Project — On December 29, 2010, Verso Quinnesec REP LLC, an indirect, wholly-owned subsidiary of Verso Holdings, entered into a financing transaction with Chase NMTC Verso Investment Fund, LLC, or the "Investment Fund," a consolidated variable interest entity (see Note 11 – New Market Tax Credit Entities). Under this arrangement, Verso Holdings loaned $23.3 million to Verso Finance at an interest rate of 6.5% per year and with a maturity of December 29, 2040, and Verso Finance, in turn, loaned the funds on similar terms to the Investment Fund. The Investment Fund then contributed the loan proceeds to certain community development entities, which, in turn, loaned the funds on similar terms to Verso Quinnesec REP LLC as partial financing for the renewable energy project at our mill in Quinnesec, Michigan. As of both September 30, 2012, and December 31, 2011, Verso Holdings had a $23.3 million long-term receivable due from Verso Finance, representing these funds and accrued interest receivable of $0.1 million, while the Investment Fund had an outstanding loan of $23.3 million due to Verso Finance and accrued interest payable of $0.1 million. In addition, for the three-month and nine-month periods ended September 30, 2012 and 2011, Verso Holdings recognized interest income from Verso Finance of $0.3 million and $1.1 million, respectively, and the Investment Fund recognized interest expense to Verso Finance of $0.3 million and $1.1 million, respectively.

Verso Paper — As of September 30, 2012 and December 31, 2011, Verso Holdings had $0.7 million and $0.9 million, respectively, in current payables due to Verso Paper. Verso Holdings has made distributions to pay expenses on behalf of Verso Paper. Distributions for the nine months ended September 30, 2012, were negligible. No distributions were made for the nine months ended September 30, 2011.

10. RESTRUCTURING AND OTHER CHARGES

In the third quarter of 2012, we completed a comprehensive assessment of the damage resulting from the fire and explosion at our paper mill in Sartell, Minnesota, and announced the decision to permanently close the mill. The permanent closure of the Sartell mill reduced our annual coated groundwood paper capacity by 180,000 tons, or approximately 20%, and eliminated approximately 35,000 tons annually of supercalendered paper capacity. In conjunction with the closure, our workforce was reduced by approximately 265 employees. In 2011, we permanently shut down a paper machine at our mill in Bucksport, Maine, and two paper machines at the Sartell mill, thereby reducing our annual coated groundwood paper capacity by 193,000 tons.

The following table details the changes in our restructuring reserve liabilities associated with both the mill closure and the paper machine shutdowns during the nine months ended September 30, 2012, which are included in Accrued liabilities on our accompanying condensed consolidated balance sheets:

(Dollars in thousands)		Nine Months Ended September 30, 2012	
Balance of reserve at December 31, 2011	$	10,763	
Severance and benefit costs		15,107	
Severance and benefit payments		(20,082	)
Other miscellaneous costs and payments		2,052	
Balance of reserve at September 30, 2012	$	7,840	

The following table details the charges incurred related primarily to the mill closure as included in Restructuring and other charges on our accompanying condensed consolidated statements of operations for the three-month and nine-month periods ended September 30, 2012:

(Dollars in thousands)	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2012
Property and equipment impairment	$66,760	$66,760
Severance and benefit costs	16,209	16,274
Write-off of spare parts and inventory	5,558	5,330
Trademark impairment	3,358	3,358
Write-off of purchase obligations and commitments	2,439	2,439
Other miscellaneous costs	2,694	2,836
Total restructuring costs	$97,018	$96,997

Severance and benefit costs incurred in excess of severance and benefits costs accrued consist primarily of $0.6 million of pension curtailment and $0.5 million other charges, which were expensed as incurred.

We expect to incur approximately $10 million of additional restructuring charges over the next 12 months related to the closure of the Sartell mill. There were no restructuring and other charges for the three-month and nine-month periods ended September 30, 2011.

11. NEW MARKET TAX CREDIT ENTITIES

In December 2010, we entered into a financing transaction with Chase Community Equity, LLC, or “Chase,” related to a $43 million renewable energy project at our mill in Quinnesec, Michigan, in which Chase made a capital contribution and Verso Finance made a loan to Chase NMTC Verso Investment Fund, LLC, or the “Investment Fund,” under a qualified New Markets Tax Credit, or “NMTC,” program. The NMTC program was provided for in the Community Renewal Tax Relief Act of 2000, or the “Act,” and is intended to induce capital investment in qualified lower income communities. The Act permits taxpayers to claim credits against their Federal income taxes for up to 39% of qualified investments in the equity of community development entities, or “CDEs.” CDEs are privately managed investment institutions that are certified to make qualified low-income community investments, or “QLICIs.”

In connection with the financing, Verso Holdings loaned $23.3 million to Verso Finance at an interest rate of 6.5% per year and with a maturity of December 29, 2040, and Verso Finance, in turn, loaned the funds on similar terms to the Investment Fund. The Investment Fund then contributed the loan proceeds to certain CDEs, which, in turn, loaned the funds on similar terms to Verso Quinnesec REP LLC, our indirect, wholly-owned subsidiary. The proceeds of the loans from the CDEs (including loans representing the capital contribution made by Chase, net of syndication fees) were used to partially fund the renewable energy project.

In December 2010, Chase also contributed $9.0 million to the Investment Fund and, by virtue of such contribution, is entitled to substantially all of the benefits derived from the NMTCs. This transaction includes a put/call provision whereby we may be obligated or entitled to repurchase Chase’s interest. We believe that Chase will exercise the put option in December 2017 at the end of the recapture period. The value attributed to the put/call is de minimis. The NMTC is subject to 100% recapture for a period of seven years as provided in the Internal Revenue Code. We are required to be in compliance with various regulations and contractual provisions that apply to the NMTC arrangement. Non-compliance with applicable requirements could result in projected tax benefits not being realized and, therefore, could require us to indemnify Chase for any loss or recapture of NMTCs related to the financing until such time as our obligation to deliver tax benefits is relieved. We do not anticipate any credit recaptures will be required in connection with this arrangement.

We have determined that the Investment Fund is a variable interest entity, or "VIE." The ongoing activities of the Investment Fund – collecting and remitting interest and fees and NMTC compliance – were all considered in the initial design and are not expected to significantly affect economic performance throughout the life of the Investment Fund. Management considered the contractual arrangements that obligate us to deliver tax benefits and provide various other guarantees to the structure; Chase's lack of a material interest in the underling economics of the project; and the fact that we are obligated to absorb losses of the Investment Fund. We concluded that we are the primary beneficiary and consolidated the Investment Fund, as a VIE, in accordance with the accounting standard for consolidation. Chase's contribution, net of syndication fees, is included in Other liabilities in the accompanying condensed consolidated balance sheets. Direct costs incurred in structuring the financing arrangement are deferred and will be recognized as expense over the term of the loans. Incremental costs to maintain the structure during the compliance period are recognized as incurred.

The following table summarizes the impact of the VIE consolidated by Verso Holdings as of September 30, 2012, and December 31, 2011:

	VERSO PAPER		VERSO HOLDINGS

Amounts presented in the condensed consolidated balance sheets and the table above are adjusted for intercompany eliminations.

12. COMMITMENTS AND CONTINGENCIES

Bucksport Energy LLC — At our mill in Bucksport, Maine, we have a joint ownership interest with Bucksport Energy LLC, an unrelated third party, in a cogeneration power plant producing steam and electricity that was built in 2000. Each co-owner owns an undivided proportional share of the plant's assets, and we account for this investment under the proportional consolidation method. We own 28% of the steam and electricity produced by the plant. We may purchase our remaining electrical needs from the plant at market rates. We are obligated to purchase the remaining 72% of the steam output from the plant at fuel cost plus a contractually fixed fee per unit of steam. Power generation and operating expenses are divided on the same basis as ownership. As of September 30, 2012, we had $0.4 million of restricted cash which may be used only to fund the ongoing energy operations of this investment included in Intangibles and other assets in the accompanying condensed consolidated balance sheets.

Thilmany, LLC — We are a party to a long-term supply agreement with Thilmany, LLC, or "Thilmany," for the manufacture of specialty paper products on paper machine no. 5 at our Androscoggin mill in Jay, Maine. The agreement, which expires on June 1, 2017, requires Thilmany to pay us a variable charge for the paper purchased and a fixed charge for the availability of the paper machine. We are responsible for the machine's routine maintenance, and Thilmany is responsible for any capital expenditures specific to the machine. Thilmany has the right to terminate the agreement if certain events occur.

General Litigation — We are involved from time to time in legal proceedings incidental to the conduct of our business. We do not believe that any liability that may result from these proceedings will have a material adverse effect on our financial statements.

13. INFORMATION BY INDUSTRY SEGMENT

Our reporting segments correspond to the following three market segments in which we operate: coated papers, including coated groundwood and coated freesheet; hardwood market pulp; and other, consisting of specialty papers. We operate primarily in one geographic segment, North America. Our products are used primarily in media and marketing applications, including catalogs, magazines, and commercial printing applications such as high-end advertising brochures, annual reports, and direct-mail advertising. Our assets are utilized across segments in our integrated mill system and are not identified by segment or reviewed by management on a segment basis.

The following table summarizes the industry segment data for the three-month and nine-month periods ended September 30, 2012 and 2011:

14. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

Presented below are Verso Holdings' consolidating balance sheets, statements of operations, statements of comprehensive income, and statements of cash flows, as required by Rule 3-10 of Regulation S-X of the Securities Exchange Act of 1934, as amended. The consolidating financial statements have been prepared from Verso Holdings' financial information on the same basis of accounting as the consolidated financial statements. Investments in our subsidiaries are accounted for under the equity method. Accordingly, the entries necessary to consolidate Verso Holdings' subsidiaries that guaranteed the obligations under the debt securities described below are reflected in the Eliminations column.

Verso Holdings, or the "Parent Issuer," and its direct, 100% owned subsidiary, Verso Paper Inc., or the "Subsidiary Issuer," are the issuers of the 11.75% senior secured notes due 2019, the 11.75% secured notes due 2019, the 8.75% second priority senior secured notes due 2019, the second priority senior secured floating rate notes due 2014, and the 11.38% senior subordinated notes due 2016, or collectively, the "Notes." The Notes are jointly and severally guaranteed on a full and unconditional basis by the Parent Issuer's direct and indirect, 100% owned subsidiaries, excluding the Subsidiary Issuer, Bucksport Leasing LLC, and Verso Quinnesec REP LLC, or collectively, the "Guarantor Subsidiaries." Chase NMTC Verso Investment Fund, LLC, a consolidated VIE of Verso Holdings, is a "Non-Guarantor Affiliate."
