Notes to Unaudited Condensed Consolidated Financial Statements

(Tabular in thousands, except per share data)

General

1. Basis of Presentation

The condensed unaudited interim consolidated financial statements included herein have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”), for interim information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for reporting on Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for annual fiscal reporting periods. However, in the opinion of management, all adjustments consisting of normal, recurring adjustments considered necessary for a fair presentation of the financial position and results of operations have been included and management believes the disclosures that are made are adequate to make the information presented not misleading.

The results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of results that may be expected for the year ending December 31, 2016. The accompanying condensed unaudited interim consolidated financial statements should be read in conjunction with the 2015 audited financial statements and notes thereto, which are included in the Company’s Annual Report on Form 10-K filed for the year ended December 31, 2015 (“2015 Form 10-K”).

2. Presentation of Financial Statements

The condensed unaudited interim consolidated financial statements included herein include the accounts of Medifast, Inc. (the “Company”) and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

3. Recent Accounting Pronouncements

We have considered all new accounting pronouncements and have concluded that there are no new pronouncements that may have a material impact on our results of operations, financial condition, or cash flows, based on current information, except for:

ASU 2016-09, *Compensation- Stock Compensation (Topic 718): Improvements to Employee Share-Based Payable Accounting* allows for the simplification of accounting for stock compensation in relation to income taxes, classification of awards as equity or liabilities and classification on the statement of cash flows. The pronouncement is effective for fiscal years beginning after December 15, 2016. Management is currently evaluating the effect that the provisions of ASU 2016-09 will have on the Company's financial statements.

ASU 2016-02, *Leases (Topic 842)* requires the rights and obligations of all leased assets with a term greater than 12 months to be presented on the balance sheet. The pronouncement is effective for fiscal years beginning after December 15, 2018. Management is currently evaluating the effect that the provisions of ASU 2016-02 will have on the Company's financial statements.

ASU 2016-01, *Financial Instruments- Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, most notably requires the changes in fair value of equity investments to be recognized in net income. The pronouncement also requires the use of the exit price notion, the separate presentation of financial assets and liabilities by measurement category and form of asset, and the separate presentation in other comprehensive income of changes in fair value resulting from a change in the instrument-specific credit risk. The pronouncement is effective for fiscal years beginning after December 15, 2017. Based on the risk level of the Company's investment portfolio, Management does not expect the provision to have a material impact on the Company's financial statements.

ASU 2015-17, *Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes* requires the Company to classify all deferred tax assets and deferred tax liabilities as noncurrent. The pronouncement is effective for fiscal years beginning after December 15, 2016. The provision will result in a reclassification on the condensed consolidated balance sheet but is not expected to have any other material impacts on the Company's financial statements.

ASU 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*, requires the Company to recognize inventory at the lower of cost and net realizable value. Net realizable value is defined as the estimated selling price in the ordinary course of business less costs of completion, disposal, and transportation. The pronouncement is effective for fiscal years beginning after December 31, 2016. The provision is not expected to have a material impact on the Company's financial statements.

ASU 2015-09, *Revenue from Contracts with Customers (Topic 606)*, requires the Company to recognize revenue for the transfer of goods or services to customers for the amount the Company expects to be entitled to in exchange for

those goods or services. The Company will be required to identify the contract, identify the relevant performance obligations, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize the revenue when the entity satisfies a performance obligation. The provisions of this ASU are effective for interim and annual periods beginning after December 15, 2017. Management is still evaluating the effect that the provisions of ASU 2015-09 will have on the Company's financial statements but does not expect it to have a material impact.

4.

Revenue Recognition

Revenue is recognized net of discounts, rebates, promotional adjustments, price adjustments, and estimated returns and upon transfer of title and risk to the customer which primarily occurs at shipping (F.O.B. terms). Upon shipment, the Company has no further performance obligations and collection is reasonably assured as the majority of sales are paid for prior to shipping. Revenue from our Franchise Medifast Weight Control Centers is primarily generated from product sales.

5. Inventories

Inventories consist principally of packaged meal replacements held in the Company's warehouses. Inventory is stated at the lower of cost or market, utilizing the first-in, first-out method. The cost of finished goods includes the cost of raw materials, packaging supplies, direct and indirect labor and other indirect manufacturing costs. On a quarterly basis, management reviews inventory for unsalable or obsolete inventory.

Inventories consisted of the following as of:

| | June 30, 2016 | December 31, 2015 |
|--------------------------------|---------------|-------------------|
| Raw Materials | \$ 3,370 | \$ 3,666 |
| Packaging | 836 | 788 |
| Non-food Finished Goods | 561 | 635 |
| Finished Goods | 7,003 | 8,545 |
| Reserve for Obsolete Inventory | (406) | (299) |
| | \$ 11,364 | \$ 13,335 |

6. Earnings per Share

Basic earnings per share ("EPS") computations are calculated utilizing the weighted average number of shares of common stock outstanding during the periods presented. Diluted EPS is calculated utilizing the weighted average number of shares of common stock outstanding adjusted for the effect of dilutive common stock equivalents.

The following table sets forth the computation of basic and diluted EPS:

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|-----------------------------|----------|---------------------------|-----------|
| | 2016 | 2015 | 2016 | 2015 |

| EPS: | | | | |
| Basic earnings per share | | | | |
| Earnings per share from continuing operations | \$ 0.29 | \$ 0.48 | \$ 0.65 | \$ 0.85 |
| Earnings per share from discontinued operations | \$ - | \$ 0.03 | \$ - | \$ 0.03 |

| Earnings per share from discontinued operations | \$ - | \$ 0.03 | \$ - | \$ 0.04 |
| Earnings per share | \$ 0.29 | \$ 0.51 | \$ 0.64 | \$ 0.88 |

The calculation of diluted earnings per share excluded 87,986 and 54,375 antidilutive options outstanding for the three months ended June 30, 2016 and 2015, respectively, and 98,000 and 54,375 antidilutive options outstanding for the six months ended June 30, 2016 and 2015, respectively. EPS is computed independently for each of the quarters presented; accordingly, the sum of the quarterly earnings per common share may not equal the year-to-date total computed.

7.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

8.

Financial Instruments

Certain financial assets and liabilities are accounted for at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following fair value hierarchy prioritizes the inputs used to measure fair value:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value from the perspective of a market participant.

As of June 30, 2016 and 2015, gross unrealized losses related to individual securities that had been in a continuous loss position for 12 months or longer were not significant. The maturities of the Company's investment securities generally range up to 5 years for municipal bonds and for government and agency securities.

9. Shared-based Compensation

Stock Options:

The Company has issued non-qualified and incentive stock options to employees and nonemployee directors. The fair value of these options are estimated on the date of grant using the Black-Scholes option pricing model, which requires estimates of the expected term of the option, the expected volatility of the price of the Company's common stock, dividend yield and the risk-free interest rate. Options outstanding as of June 30, 2016 generally vest over a period of three years with an expiration term of ten years. The exercise price of these options ranges from \$24.26 to \$31.55. The expected volatility is based on the historical volatility of the Company's common stock over the period of time equivalent to the expected term for each award. Due to the Company's lack of option exercise history, the expected term is calculated using the simplified method defined as the midpoint between the vesting period and the contractual term of each award. The risk free interest rate is based on the U.S. Treasury yield curve in effect on the date of grant which most closely corresponds to the expected term of the option. The Company declared its first dividend in December 2015; and therefore, a dividend yield was not utilized in the Black-Scholes calculation for options granted prior to December 2015. The weighted average input assumptions used and resulting fair values were as follows:

| | |
|--------------------------|---------|
| | 2016 |
| Expected life (in years) | 6 |
| Risk-free interest rate | 1.11 % |
| Expected volatility | 42.22 % |
| Dividend yield | 3.56 % |

The following table summarizes the stock option activity:

| | Shares | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Life (Yrs) | Aggregate Intrinsic Value |
|----------------------------------|--------|------------------------------------|---|---------------------------------|
| Outstanding at December 31, 2015 | 98 | \$ 28.17 | | |
| Granted | 50 | 27.99 | | |
| Exercised | (12) | 25.64 | | |
| Forfeited | (6) | 29.87 | | |
| Expired | - | - | | |
| Outstanding at June 30, 2016 | 130 | \$ 28.22 | 8.70 | \$ 654 |
| Exerciseable at June 30, 2016 | 49 | \$ 27.45 | 7.82 | \$ 283 |

The weighted-average grant date fair value of options granted was \$7.91. The unrecognized compensation expense calculated under the fair value method for shares expected to vest as of June 30, 2016 was approximately \$0.7 million and is expected to be recognized over a weighted average period of 2.0 years. The Company received \$0.3 million in cash proceeds from the exercise of stock options during the three and six months ended June 30, 2016, and \$44 thousand in cash proceeds from the exercise of stock options during the three and six months ended June 30, 2015.

Restricted Stock:

The Company has issued restricted stock to employees and nonemployee directors generally with vesting terms up to five years after the date of grant. The fair value is equal to the market price of the Company's common stock on the date of grant. Expense for restricted stock is amortized ratably over the vesting period. The following table summarizes the restricted stock activity:

| | Shares | Weighted-Average Grant Date Fair Value |
|-------------------------------|--------|---|
| Unvested at December 31, 2015 | 264 | \$ 26.38 |
| Granted | 15 | 27.68 |
| Vested | (65) | 25.14 |

| | | |
|---------------------------|--------|-------|
| Forfeited | (39) | 26.43 |
| Unvested at June 30, 2016 | 175 \$ | 26.95 |

The total costs of the options and restricted stock awards charged against income during the three months ended June 30, 2016 and 2015 was \$668 thousand and \$575 thousand, respectively, and \$1.2 million and \$1.1 million for the six months ended June 30, 2016 and 2015, respectively. The Company accrued an additional \$137 thousand and \$129 thousand for performance-based restricted stock awards for the three months ended June 30, 2016 and 2015, respectively, and \$365 thousand and \$478 thousand for the six months ended June 30, 2016 and 2015, respectively. The cost of the 2016 performance awards will depend on management's achievement of pre-determined performance targets and the Company's fiscal 2016 performance and will be finalized and approved at the first Board of Directors meeting in 2017. The cost recognized during the quarter is based on the performance that management expects the Company will achieve as of June 30, 2016. The total income tax benefit recognized in the consolidated statements of income for these restricted stock awards was approximately \$225 thousand and \$203 thousand for the three months ended June 30, 2016 and 2015, respectively and \$395 thousand and \$390 thousand for the six months ended June 30, 2016 and 2015. The total tax benefit recognized in additional paid-in capital upon vesting of restricted stock awards and exercise of stock options for the three months ended June 30, 2016 and 2015 was \$9 thousand and \$165 thousand, respectively, and \$105 thousand and \$165 thousand for the six months ended June 30, 2016 and 2015, respectively. There was approximately \$3.0 million of total unrecognized compensation cost related to restricted stock awards as of June 30, 2016. The cost is expected to be recognized over a weighted-average period of approximately 1.8 years.

The Company incurred \$1.2 million in net restructuring costs in selling, general, and administrative expense associated with the departure of these four executives. During the second quarter of 2016, the Company incurred a \$6.1 million impairment charge in connection with the abandonment of software under development for the Take Shape For Life® business unit. The decision to abandon the software, which was determined in the final stages of the quarterly close process, was the result of an in depth analysis of proven alternatives available today in the market which are a better fit for our business going forward and the cost of these alternatives when compared to the ongoing development and maintenance of the abandoned software. The impairment charge was recorded for the full value of the asset and has been included as part of selling, general, and administrative expense on the condensed consolidated statements of income.

Special Note Regarding Forward-Looking Statements

This report contains information that may constitute “forward-looking statements.” Generally, the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “will,” and similar expressions identify forward-looking statements, which generally are not historical in nature. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future – including statements relating to future operating results- are forward-looking statements. Management believes that these forward-looking statements are reasonable as and when made. However, caution should be taken not to place undue reliance on any such forward-looking statements because such statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those in our Annual Report on Form 10-K for the year ended December 31, 2015 (the “Form 10-K”), and those described from time to time in our future reports filed with the Securities and Exchange Commission.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and related notes appearing elsewhere herein.

The Company’s product lines include weight loss, weight management, and healthy living meal replacements, snacks, hydration products, sports nutrition products, and vitamins. The Company’s business units are Take Shape For Life®, Medifast Direct, Franchise Medifast Weight Control Centers (“MWCC”) and Medifast Wholesale. Product sales accounted for 97% of our revenues for the six months ended June 30, 2016 and 2015; which consists primarily of meal replacement food sales. In the three months ended June 30, 2016, total revenue decreased to \$71.1 million compared to \$72.2 million in the three months ended June 30, 2015, a decrease of \$1.1 million or 1.5%. In the six months ended June 30, 2016, total revenue decreased to \$143.5 million compared to \$145.5 million in the six months ended June 30, 2015, a decrease of \$2.0 million or 1.4%. The decline for the periods was driven by reduced revenues in the Medifast Direct, Medifast Wholesale, and MWCC business units, partially offset by a revenue increase in the Take Shape For Life® business unit and a price increase for the Take Shape For Life, Medifast Direct, and Medifast Wholesale business units that took effect in April 2016. These revenue changes are further described in

the “Overview of Results of Operations” section.

For the six months ended June 30, 2016, the percentage of total revenue made up by each business unit was as follows:

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with GAAP. Our significant accounting policies are described in Note 2 of the consolidated financial statements included in the Form 10-K.

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial

statements, and the reported amounts of revenue and expenses during the reporting period. Management develops, and changes periodically, these estimates and assumptions based on historical experience and on various other factors that it believes to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. The accounting estimates we consider critical include revenue recognition, impairment of fixed assets and intangible assets, income taxes, reserves for returns, operating leases and clinic closure costs.

During the six months ended June 30, 2016, we did not make any material changes to our critical accounting policies.

The increase in revenue for Take Shape For Life® was driven by an increase in the number of active Health Coaches and revenue per Health Coach, as well as the pass-through of the price increase put in place in April of 2016. The number of active Health Coaches for the three months ended June 30, 2016 increased to 12,800 compared with 11,800 during the same period for 2015, an increase of 8%. The quarterly revenue per Health Coach increased 1% to \$4,479 for the three months ended June 30, 2016 compared to \$4,423 for

the three months ended June 30, 2015.

Medifast Direct revenue decreased 32% to \$9.3 million for the three months ended June 30, 2016 compared to \$13.7 million for the three months ended June 30, 2015 and decreased 28% to \$20.2 million for the six months ended June 30, 2016 compared to \$28.1 million for the six months ended June 30, 2015. Revenues in this business unit are driven primarily by targeted customer marketing and advertising as well as the direct response initiatives in place. Sales for the period were down in comparison to the same period for 2015 as new customer acquisition continued to be challenging, partially offset by a price increase effective April 2016. Medifast Direct advertising during the three months ended June 30, 2016 was down 61% to \$1.6 million compared to \$4.1 million for the three months ended June 30, 2015. Medifast Direct advertising during the six months ended June 30, 2016 was \$5.7 million compared to \$9.5 million for the six months ended June 30, 2015. The Company reduced advertising spending and only invested in initiatives that met distinct criteria in an effort to focus on determining the ideal media mix to optimize profitability.

MWCC revenue decreased 13%, with revenue of \$4.1 million for the three months ended June 30, 2016 compared to \$4.7 million for the same period of 2015 and decreased 10% with revenue of \$8.4 million for the six months ended June 30, 2016 compared to \$9.3 million for the same period of 2015. Fifty-seven franchise centers were in operation as of June 30, 2016 compared to 62 franchise centers as of June 30, 2015. The decrease in franchise centers over the 12 month period was the result of four centers closing. The decrease in revenue for the three and six months ended June 30, 2016 in comparison to the three and six months ended June 30, 2015 was primarily driven by fewer franchise centers in operation during the period partially offset by an increase in sales per center.

Medifast Wholesale revenue decreased \$1.2 million to \$0.3 million for the three months ended June 30, 2016 compared to \$1.5 million for the three months ended June 30, 2015 and decreased \$2.9 million to \$0.8 million for the six months ended June 30, 2016 compared to \$3.7 million for the six months ended June 30, 2015. The decrease for the period was due to the loss of certain accounts resulting from Medifast's enforcement of business partner compliance distribution requirements.

Costs of Sales: Cost of sales decreased \$1.1 million to \$17.9 million for the three months ended June 30, 2016 compared to the same period in 2015 and decreased \$1.5 million to \$37.1 million for the six months ended June 30, 2016 compared to the same period in 2015. The decrease in cost of sales for the periods was primarily due to decreased sales volumes and reduced shipping costs. As a percentage of sales, gross margin increased to 74.8% from 73.7% in the three months ended June 30, 2016 compared to the three months ended June 30, 2015, and increased to 74.2% from 73.5% in the six months ended June 30, 2016 compared to the six months ended June 30, 2015. The gross margin improvements for the quarter-to-date and year-to-date were primarily driven by the price increases implemented in March 2015 and April 2016.

Selling, General and Administrative Expenses: Selling, general and administrative expenses were \$48.2 million for the three months ended June 30, 2016, and increase of \$3.7 million, compared to \$44.5 million in the same period of 2015. As a percentage of sales, selling, general and administrative expenses increased to 67.8% for the three months ended June 30, 2016 versus 61.7% for the same period of 2015. The Company incurred a \$6.1 million impairment charge in connection with the abandonment of software under development for the Take Shape For Life® business unit in the three months ended June 30, 2016 and \$0.3 million in extraordinary legal and advisory expenses related to 13D filings in the three months ended June 30, 2015. The decision to abandon the software, which was determined in the final stages of the quarterly close process, was the result of an in depth analysis of proven alternatives available today in the market which are a better fit for our business going forward and the cost of these alternatives when compared to the ongoing development and maintenance of the abandoned software. Excluding those expenses, selling, general, and administrative costs would have been \$42.1 million, or 59.2% as a percentage of sales, and \$44.2 million, or 61.3% as a percentage of sales, for the three months ended June 30, 2016 and 2015, respectively. Take Shape For Life® commission expense, which is variable based upon product sales, increased by approximately \$2.1 million for the three months ended June 30, 2016 as compared to the same period of 2015, which is in line with the sales growth of 10% Take Shape For Life® experienced compared to the same period of the prior year.

Selling, general and administrative expenses were \$95.1 million for the six months ended June 30, 2016 compared to \$91.8 million in the same period of 2015. As a percentage of sales, selling, general and administrative expenses increased to 66.3% versus 63.1% in the same period of 2015. The Company incurred \$6.1 million in asset impairment costs and \$1.2 million in restructuring costs in the six months ended June 30, 2016 and \$2.1 million in extraordinary legal and advisory expenses related to 13D filings in the six months ended June 30, 2015. Excluding those expenses, selling, general, and administrative costs would have been \$87.8 million, or 61.2%, and \$89.7 million, or 61.6%, for the six months ended June 30, 2016 and 2015, respectively. Take Shape For Life® commission expense, which is variable based upon product sales, increased by approximately \$4.2 million for the six months ended June 30, 2016 as compared to the same period of 2015, which is in line with the sales growth of 9% Take Shape For Life® experienced compared to the prior year.

Salaries and benefits decreased by approximately \$0.7 million and \$0.2 million for the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015. The decrease in expenses for the three months ended June 30, 2016, was primarily driven by savings recognized as a result of the restructuring that took place during the first quarter of 2016. The Company announced the departure of three Executive Vice Presidents in an effort to re-align the Senior Leadership Team to reflect the changing needs of the business and to provide greater emphasis on the Company's key areas of focus, and also the resignation of the President and Chief Operating Officer. The Company incurred \$1.2 million in net restructuring costs in Selling, general, and administrative expense associated with the separation agreements for these four executives. This includes a \$0.2 million reversal of costs accrued in 2015 for deferred shares that were granted in connection with the 2015 bonus plan and were forfeited as a result of their departure. All expenses are expected to be paid within 12 months and the Company estimates that it will recognize \$2.2 million in future annual savings as a result of the restructuring.

The following table summarizes the severance accruals incurred as of June 30, 2016, excluding the reversal of prior year stock accrual:

| | |
|--|--------|
| Ending accrued balance as of December 31, 2015 | \$- |
| Charges incurred during the period | 1,343 |
| Payments during the period | (356) |
| Ending accrued balance as of June 30, 2016 | \$987 |

Sales and marketing expense decreased by \$2.9 million and \$4.0 million in the three and six months ended June 30, 2016, respectively, compared to the same periods in 2015. The \$2.9 million decrease for the three months ended June 30, 2016 compared to 2015 was primarily driven by reduced advertising spend, particularly for Medifast Direct. It was also impacted by increases in research and development costs and reduced spending in Take Shape For Life® based on a key event occurring earlier in the year in 2016 than in 2015. The \$4.0 million decrease for the six months ended June 30, 2016 compared to 2015 was primarily driven by reduced advertising spending, reduced production costs associated with the Company's 2016 television commercial as compared to 2015 production costs, and was partially offset by increases in research and development costs.

General expenses decreased \$0.4 million and \$2.1 for the three and six months ended June 30, 2016, respectively, in comparison to the same periods in 2015. The decrease in expense was primarily driven by \$0.3 million and \$2.1 in extraordinary expenses resulting from 13D filings incurred during the three and six months ended June 30, 2015, respectively. The Company reached a settlement agreement with Engaged Capital, LLC., a stockholder of the Company, during the first quarter of 2015 and additional expenses have not been incurred. The significant decrease in legal fees was partially offset by an increase in consulting expenses. Other expenses increased by \$5.6 million and \$5.5 million for the three and six months ended June 30, 2016, respectively. The significant increase for both periods was driven by the \$6.1 million impairment for the abandonment of the Take Shape For Life® software that was under development. This was partially offset by a decrease in depreciation expense for the periods.

Income taxes: In the three months ended June 30, 2016, the Company recorded \$1.7 million in income tax expense, an effective rate of 33.3%, compared to \$3.0 million in income tax expense, an effective rate of 33.8%, in the three months ended June 30, 2015. In the six months ended June 30, 2016, the Company recorded \$3.8 million in income tax expense, an effective rate of 33.1%, compared to \$5.4 million in income tax expense, an effective rate of 34.3%, in the six months ended June 30, 2015. The decrease in the effective tax rate for the three and six months ended June 30, 2016 in comparison to the three and six months ended June 30, 2015 was due to the increase in the domestic manufacturing deduction and a change in the tax law making certain research and development credits permanent. The Company anticipates a full year tax rate of approximately 33-34% in 2016.

Income from continuing operations: Income from continuing operations was \$3.4 million for the three months ended June 30, 2016 compared to \$5.8 million for the three months ended June 30, 2015, a decrease of \$2.4 million. Pre-tax profit as a percent of sales decreased to 7.2% in the three months ended June 30, 2016 compared to 12.2% in the three months ended June 30, 2015. Excluding the asset impairment and extraordinary legal expenses, income from continuing operations for the three months ended June 30, 2016 and 2015 would have been \$7.5 million, or \$0.63 per diluted share, and \$6.0 million, or \$0.50 per diluted share, respectively. Income from continuing operations was \$7.7 million for the six months ended June 30, 2016 compared to \$10.3 million for the six months ended June 30, 2015, a decrease of \$2.6 million. Pre-tax profit as a percent of sales decreased to 8.0% in the six months ended June 30, 2016 compared to 10.7% in the six months ended June 30, 2015. Excluding the asset impairment, restructuring charges, and extraordinary legal expenses, income from continuing operations for the six months ended June 30, 2016 and 2015 would have been, \$12.5 million, or \$1.05 per diluted share, and \$11.6 million, or \$0.96 per diluted share, respectively.

Income from discontinued operations: In 2014, the Company exited the MWCC corporate center model with the sale of 41 centers to existing franchise partners and the closure of the remaining 34 corporate centers. The Company had negligible income from discontinued operations for the three and six months ended June 30, 2016 and 2015.

Net income: Net income was \$3.4 million and \$7.7 million for the three and six months ended June 30, 2016 compared to \$6.2 million and \$10.7 million for the three and six months ended June 30, 2015. The year-over-year changes were driven by the factors described above in the explanations from continuing operations and income from discontinued operations.

Non-GAAP Financial Measures

In addition to providing results that are determined in accordance with GAAP, the Company provides certain non-GAAP financial measures. For the three months ended June 30, 2016 and 2015, the Company's non-GAAP financial measures of adjusted net income and adjusted diluted earnings per share exclude the impairment of the fixed asset incurred in the three months ended June 30, 2016 and the extraordinary legal and advisory expenses incurred in the three months ended June 30, 2015 in connection with the Schedule 13D filings. For the six months ended June 30, 2016 and 2015, the Company's non-GAAP financial measures of adjusted net income and adjusted diluted earnings per share also exclude the restructuring charges the Company incurred in the first quarter of 2016. These non-GAAP measures are being provided as pro-forma statements to provide information regarding expected future performance. The departed executives included in the restructuring were employed in 2015; and therefore, the 2016 results excluding these charges are not comparative to the 2015 results.

The reconciliations of these non-GAAP financial measures are as follows:

Excluding the impact of the \$6.1 million impairment charge, adjusted selling, general, and administrative expenses was \$42.1 million for the three months ended June 30, 2016. Excluding the impact of the \$0.3 million extraordinary legal expenses incurred in connection with the Schedule 13D filings, adjusted selling, general, and administrative expenses was \$44.2 million for the three months ended June 30, 2015. Excluding the impact of the \$6.1 million impairment charge and \$1.2 million restructuring charges, adjusted selling, general, and administrative expenses was \$87.9 million for the six months ended June 30, 2016. Excluding the impact of the \$2.1 million extraordinary legal expenses incurred in connection with the Schedule 13D filings, adjusted selling, general, and administrative expenses was \$89.7 million for the six months ended June 30, 2015. Adjusted income from operations was \$11.1 million and \$8.9 million for the three months ended June 30, 2016 and 2015, respectively. Adjusted income from operations was \$18.5 million and \$17.3 million for the six months ended June 30, 2016 and 2015, respectively. Adjusted income from continuing operations for the three and six months ended June 30, 2016 was \$7.5 million, or \$0.63 per share, and \$12.5 million, or \$1.05 per share, respectively, compared to \$6.0 million, or \$0.50 per share, and \$11.6 million, or \$0.96 per share, for the three and six months ended June 30, 2015, respectively.

Liquidity and Capital Resources

The Company had stockholders' equity of \$91.3 million and working capital of \$73.4 million at June 30, 2016 compared with \$88.6 million and \$64.5 million at December 31, 2015, respectively. The \$2.7 million net increase in stockholder's equity reflects \$7.7 million in 2016 net income offset by \$6.0 million used to declare dividends to stockholders as well as other equity transactions as outlined in the "Condensed Consolidated Statement of Changes in Stockholders' Equity" included in our consolidated financial statements. The dividend of \$0.25 per share to the Company's common stockholders was declared on June 15, 2016 and will be paid in the third quarter of 2016. While we intend to continue the dividend program and believe we will have sufficient liquidity to do so, we can provide no assurance we will be able to continue the declaration and payment of dividends. The Company's cash and cash equivalents position increased from \$42.0 million at December 31, 2015 to \$58.6 million at June 30, 2016.

In the six months ended June 30, 2016 the Company generated cash flow of \$19.0 million from continuing operations, partially attributable to \$7.7 million in income from continuing operations. Cash provided by operating activities of \$15.3 million primarily includes asset impairment of \$6.1 million, depreciation and amortization of \$3.0 million, a \$2.9 million decrease in prepaid income taxes, a \$2.0 million decrease in inventory, and share-based compensation of \$1.2 million. This was offset by cash used by operating activities of deferred income taxes of \$3.0 million, a \$0.6 million increase in prepaid expenses and other current assets, and a \$0.2 million decrease in accounts payable and accrued expenses.

Net cash used in operating activities from discontinued operations was \$0.3 million including a \$0.6 million decrease in accounts payable and accrued expenses and \$0.4 million decrease in accounts receivable.

In the six months ended June 30, 2016, net cash provided by investing activities from continuing operations was \$4.2 million, driven by \$26.7 million of cash generated by the sale of investment securities and \$0.7 million proceeds from the sale of property and equipment. This was offset by \$23.2 million in cash used by investing activities, consisting of \$22.4 million for the purchase of investment securities and \$0.8 million for the purchase of property and equipment.

In the six months ended June 30, 2016, financing activities from continuing operations used \$6.4 million in cash. The Company used \$5.9 for cash dividends paid to stockholders, \$0.7 million to repurchase shares of the Company's common stock to cover employee taxes, and \$0.1 million to repay capital leases. Options exercised by executives and directors provided \$0.3 million in cash and the Company realized a \$0.1 million cash benefit for excess tax benefits from share-based compensation. As of June 30, 2016, there are 847,567 shares of the Company's common stock eligible for repurchase under the repurchase authorization dated September 16, 2014.

In pursuing its business strategy, the Company may require additional cash for operating and investing activities. The Company expects future cash requirements, if any, to be funded from operating cash flow and financing activities.

The Company evaluates acquisitions from time to time as presented.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates and a decline in the stock market. The Company does not enter into derivatives, foreign exchange transactions or other financial instruments for trading or speculative purposes.

The Company is exposed to market risk related to changes in interest rates and market pricing impacting our investment portfolio. Its current investment policy is to maintain an investment portfolio consisting of municipal bonds, U.S. money market securities, and high-grade corporate securities, directly or through managed funds. Its cash is deposited in and invested through highly rated financial institutions in North America. Its marketable securities are subject to interest rate risk and market pricing risk and will fall in value if market interest rates increase or if market pricing decreases. If market interest rates were to increase and market pricing were to decrease immediately and uniformly by 10% from levels at June 30, 2016, it estimates that the fair value of its investment portfolio would decline by an immaterial amount and therefore it would not expect its operating results or cash flows to be affected to any significant degree by the effect of a change in market conditions on our investments.

There have been no material changes to our market risk exposure since December 31, 2015.

Item 4. Controls and Procedures

Management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of June 30, 2016. Our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported accurately and on a timely basis. Based on this evaluation performed in accordance with the criteria established in the 2013 Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, our management concluded that the Company’s disclosure controls and procedures are effective of the reasonable assurance level as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting:

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

Medifast Franchise Systems, Inc. v. Team Wellness, Inc., et al.

Medifast Franchise Systems, Inc. v. Team Wellness, Inc., et al. (case No. 14-03668 (D. Md.)) arose out of a number of Franchise and Development Agreements with Team Wellness, Inc. and Team Wellness Louisiana, LLC for the operation of Medifast Centers in the States of Alabama, Tennessee, and Louisiana. The primary owner and representative of the Team Wellness companies personally guaranteed the companies' obligations.

Team Wellness, Inc. failed to make payments required under the terms of a Loan Agreement that Team Wellness, Inc. had entered into with Bank of America and for which Medifast provided a limited guarantee. As a result, Medifast served Team Wellness, Inc. with a Notice of Default and Opportunity to Cure. After Team Wellness, Inc. failed to cure and pay the outstanding amounts, and was otherwise in default under the Franchise and Development Agreements, Medifast served Team Wellness, Inc. with a Notice of Termination. In addition, Medifast terminated Team Wellness Louisiana LLC's franchises, alleging that Team Wellness Louisiana LLC and its guarantor never disclosed to Medifast that RMS Management LLC was an owner of Team Wellness Louisiana LLC but rather represented to Medifast that the guarantor was the sole owner.

When the companies and the primary guarantor failed to pay the monies owed or comply with their post-termination obligations, Medifast filed a lawsuit on November 21, 2014 against the primary guarantor and the companies in the United States District Court for the District of Maryland (Medifast Franchise Systems, Inc. v. Team Wellness, Inc., et al., No. 14-03668 (D. Md.)) for breach of contract (nonpayment) and fraud (relating to Medifast's allegation that Team Wellness LLC and its guarantor failed to disclose that RMS Management LLC was an owner of Team Wellness Louisiana LLC). The complaint seeks damages, enforcement of the termination of the Franchise and Development Agreements, and an injunction ordering the defendants to comply with their post-termination obligations under the Franchise and Development Agreements. Medifast moved for a default judgment against the companies after they failed to answer the complaint. The court granted the motion on June 24, 2015. The Court's Order requires the companies to pay \$2,100,927.53 million to Medifast, which includes the following: outstanding royalties and receivables on food purchases in the amount of \$141,239.89, reimbursement for loan payments in the amount of \$1,892,834.44, and interest and fees on those loan payments in the amount of \$66,853.20. In addition, the court awarded Medifast its attorneys' fees and costs in the amount of \$45,231.05. The Court's Order also requires the companies to abide by their post-termination obligations under the Franchise Agreements, including that they cease using Medifast's confidential information. On April 21, 2016, the court granted Medifast's motion for summary judgment against the guarantor for nonpayment and fraud – the remaining counts in the complaint.

Jason Properties, LLC, et al. v. TransformU, et al.

Medifast granted franchise rights to operate 16 weight loss control Centers to franchisee TransformU, LLC (“TransformU”) in Virginia and Maryland in May and December, 2014. In connection with those transactions, Jason Properties, LLC (“Jason Properties”) assigned certain real estate leases and other liabilities in connection with the Centers, which were assumed by TransformU and guaranteed by TransformU’s principals, Ronald M. Fields, Jr. and James Smith. TransformU ceased operating the Centers, ceased paying fees pursuant to the governing franchise agreements, and ceased paying rent under the operative leases prior to the expiration of the lease terms.

On January 12, 2016, Medifast and Jason Properties filed suit against TransformU, Mr. Fields, and Mr. Smith in the United States District Court for the Eastern District of Virginia in a case entitled Jason Properties, LLC, et al. v. TransformU, et al., Case No. 1:16-cv-35 AHH/JFA alleging that TransformU and Messrs. Fields and Smith defaulted on their obligations pursuant to the above-mentioned agreements and seeking in excess of \$650,000 in damages. The action was dismissed with prejudice on February 5, 2016 by joint stipulation in accordance with the terms of a settlement agreement reached between the parties.

Other Matters

In addition to the above matters, the Company is, from time to time, subject to a variety of litigation and similar proceedings incidental to its business. Based upon the Company’s experience, current information and applicable law, it does not believe that these proceedings and claims will have a material adverse effect on its results of operations, financial position or liquidity.
