**MINERA ANDES PAYS OFF OUTSTANDING**

**MACQUARIE LOAN OF US\$17.5 MILLION**

SPOKANE, WASHINGTON March 16, 2009 Minera Andes Inc. (the Corporation or Minera Andes, TSX: MAI and US OTC: MNEAF) announces that it has repaid in full the Corporation's indebtedness to Macquarie Bank Limited (Macquarie), of Australia. The aggregate indebtedness was US\$17.5 million, which consisted of a loan of US\$7.5 million due on or about March 7, 2009, and a loan of US\$10 million due in September 2009. The Corporation no longer has any bank debt.

With the repayment of the indebtedness to Macquarie and the payment of US\$11.3 million to satisfy the cash call made in respect of the Corporation's 49% interest in the producing San José gold/silver mine operated by Minera Santa Cruz, S.A., the Corporation has met its current financial obligations. As previously announced San José is forecast to produce approximately 7.5 million ounces of silver and 95,000 ounces of gold in 2009.

Allen V. Ambrose, President and CEO of Minera Andes said, "We are pleased to report that, with the completion of the private placements of C\$40 million from Rob McEwen, we have paid off our bank debt and cleaned up our balance sheet. With the company's financial condition improved, management will be able to focus on increasing shareholder value by increasing its exploration drilling activities on its high potential 100 percent owned prospects in the San Cruz province of southern Argentina.

The funds for the payment of the cash call and repayment of the indebtedness to Macquarie were obtained via private placements with Mr. Robert R. McEwen, a director of Minera Andes and the company's largest shareholder. Mr. McEwen purchased 40 million shares of Minera Andes for C\$40 million (C\$1.00 per share). The details of the private placements with Mr. McEwen have been the subject of previous news releases by Minera Andes.

Minera Andes is a gold, silver and copper exploration company working in Argentina. The Corporation holds approximately 304,000 acres of mineral exploration land in Argentina. Minera Andes holds a 49 percent interest in the San José Project, an operating gold and silver mine. Minera Andes is also exploring the Los Azules copper project in San Juan province, where an exploration program has defined a resource and a preliminary assessment has been completed. Other exploration properties, primarily silver and gold, are being evaluated in southern Argentina. The corporation presently has 230,518,851 common shares issued and outstanding.
