**Gilat Selected to Deploy Rural Telephony Network in Papua New Guinea
Network includes hub and 500 DialAw@y IP VSATs supporting telephony, IP, education and health applications**

Port Mosby, Papua New Guinea and Petah Tikva, Israel, June 16, 2004 Telikom Papua New Guinea (PNG) and Gilat Satellite Networks Ltd. (NASDAQ: GILTF) today announced that Gilat has been selected by Telikom PNG to provide a hub and 500 DialAw@y IP VSATs for rural telephony services across the island country. The network is expected to expand to 2,000 sites and will provide support for IP, education and health applications.

Dr. Florian Gubon, Chairman of the Board of Telikom PNG said, A satellite-based network was ideal in our situation due to the lack of existing infrastructure. There is huge demand for our services and we are very pleased with the development of the rural communities in the wake of this project, which is only the first stage. We look forward to benefiting from Gilat's experience as we move ahead with this important project.

Oded Sheshinski, Managing Director of Gilat Australia, said, We are proud to have been selected in this tender. We look forward to establishing a long-term relationship with Telikom PNG in which Gilat experience worldwide will contribute to turn this project into a profitable service across Papua New Guinea.

DialAw@y IP is one of the only VSAT products capable of providing high-speed Internet connectivity and toll-quality telephony service on a single, low-cost platform. Each unit supports a PC/LAN connection and up to six telephone channels. It is a low-cost solution for the fulfillment of Universal Service/Access Obligations, Public Call Office requirements and small office/home office (SOHO) requirements for bundled telephony and Internet access.

DialAw@y IP networks are rapidly deployed, highly scalable and field upgradeable. The remote equipment functions in extreme weather conditions, has a long lifespan and can be monitored from a distance. Ultra-low power consumption (less than 25W) enables the units to operate in remote locations that have minimal or no electricity, by incorporating a single-panel solar system or power generators.

About Telikom PNG Ltd.

Telecommunications in Papua New Guinea is the responsibility of Telikom PNG Limited, a 100% government owned company, which replaced the former PTC. Telikom PNG provides public telecommunication services in Papua New Guinea together with its subsidiaries. Telikom PNG provides a fixed network and cellular services through its wholly owned subsidiary, Pacific Mobile Communications Limited. Both companies have a monopoly in local, national and international fixed line and mobile. In addition to voice telephony services, other leased data circuits and Internet services are retailed to local service providers.

About Gilat Satellite Networks Ltd.

Gilat Satellite Networks Ltd., with its global subsidiaries Spacenet Inc., Gilat Latin America and rStar Corporation, is a leading provider of telecommunications solutions based on Very Small Aperture Terminal (VSAT) satellite network technology with close to 500,000 VSATs shipped worldwide. Gilat, headquartered in Petah Tikva, Israel, markets the SkyEdge Product Family which includes the SkyEdge Pro, SkyEdge IP, SkyEdge Call, SkyEdge DVB-RCS and SkyEdge Gateway.
