*Words such as believe, anticipate, expect, intend, seek, will, plan, could, may, project, goal, target, and similar expressions often identify forward-looking statements but are not the only way we identify these statements. Because such statements involve risks and uncertainties, actual results may differ materially from the results currently expected. Factors that could cause such differences include, but are not limited to:*

*Uncertainties about the degree of growth in the number of consumers using wireless personal communications services and in the number of residents;*

*The risks associated with the implementation of a third-generation network and business strategy, including risks relating to the operations of new systems and technologies, substantial expenditures required and potential unanticipated costs, uncertainties regarding the adequacy of suppliers on whom we must rely to provide both network and consumer equipment and consumer acceptance of the products and services to be offered;*

*The impact of existing and new competitors in the market in which we compete, including competitors that may offer less expensive products and services, desirable or innovative products, technological substitutes, or have extensive resources or better financing;*

*The introduction or popularity of new products and services, including prepaid phone products, which could increase churn;*

## Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

*The effects of vigorous competition in the market in which we operate and for more valuable customers, which may decrease prices charged, increase churn and change the customer mix, profitability and average revenue per user;*

*The availability and cost of capital and the consequences of increased leverage;*

*The risks and costs associated with the need to acquire additional spectrum for current and future services;*

*The risks associated with technological requirements, technology substitution and changes and other technological developments;*

*Fluctuations in exchange rates;*

*The results of litigation filed or to be filed against us; and*

*The possibility of the market in which we compete being impacted by changes in political, economic or other factors, such as monetary policy, legal and regulatory changes or other external factors over which we have no control;*
