(1) The attached summary financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). The attached summary financial statements are unaudited. To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents Gilat's EBITDA before the impact of non-cash share-based payment charges, depreciation and amortization, other income, impairment of goodwill, restructuring cost, and other costs related to acquisition transactions. Non-GAAP presentations of net income, EBITDA and earnings per share are provided to enhance the understanding of the Company's historical financial performance and comparability between periods.

(2) Operating income before depreciation, amortization, non-cash stock option expenses as per ASC 718 (formerly SFAS 123(R)), impairment of goodwill, restructuring cost and other costs related to acquisition transactions ('EBITDA') is presented because it is a measure commonly used and is presented solely in order to improve the understanding of the Company's operating results and to provide further perspective on these results. EBITDA, however, should not be considered as an alternative to operating income or net income for the period as an indicator of the operating performance of the Company.

Similarly, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results. Reconciliation between the Company's Operating income and EBITDA is presented in the attached summary financial statements.
