Securities Commission. The bank is required to file periodic financial information for the year ending 31 December 2005 and this information is publicly available. Given that this information is available in the public domain, Grupo Financiero HSBC, S.A. de C.V. has elected to file this release.

Results are prepared in accordance with Mexican GAAP (generally accepted accounting principles), with figures denominated in Mexican pesos (MXN). Comparative figures are presented on a real basis, indexed to constant MXN as at 31 December 2005.

Grupo Financiero HSBC, S.A. de C.V. is an indirect, wholly-owned subsidiary of HSBC Holdings plc (HSBC). HSBC's 2005 results are scheduled for release on 6 March 2006. Those results will be released under International Financial Reporting Standards (IFRS) and will describe HSBC's North American results, including Grupo Financiero HSBC, S.A. de C.V., as well as HSBC's fully consolidated figures.

Commentary by Sandy Flockhart, CEO & Group General Manager

"Marking the three year anniversary of the Bital acquisition, I am very pleased with the progress being made. The combination of the knowledge, network and brand of the HSBC Group with the experience and capabilities of our Mexican colleagues has been a powerful driver for executing change and generating results in Mexico.

"HSBC continues to work towards being the number one financial services institution in Mexico. Numerous initiatives are underway to improve customer service and to strengthen the bank's product offerings to support the future financial requirements of our customers."

Overview

Grupo Financiero HSBC reported strong 2005 results, with net income of MXN4,981 million, an increase of 47.8 per cent over the previous year. This was due to robust revenue growth in HSBC Mexico, S.A. across all product categories. Net interest income, fees and trading all reached record levels during the year. This was coupled with strong performances in the insurance, Afore and Panama bank subsidiaries.

Growth of 28.3 per cent in net interest income, from MXN11,845 million to MXN15,193 million, was driven by higher deposit balances and widening spreads, strong loan growth, and higher average interest rates than in 2004. The net interest margin improved from prior year largely due to an increase in the bank's margin from 6.3 per cent in 2004 to 6.8 per cent in 2005.

Fees and commissions increased by 10.8 per cent over the previous year due to growth in credit cards, electronic banking, ATMs, membership programmes, commercial lending, Afore pension fund management, trade services and remittances. Trading results were excellent, up 49.3 per cent over 2004, benefiting from successful strategic positioning, higher customer volumes and the launch of new products on the back of enhanced treasury systems.

Administrative expenses grew 19.6 per cent (excluding the non-recurrent recovery of VAT received in 2004) as HSBC continued to invest heavily in its Mexican operations. Personnel costs increased due to additional headcount and variable compensation to support revenue growth and to improve customer service. Operating costs were driven by significant investment in systems and higher marketing expenses.

Loan impairment charges increased 9.4 per cent for the year, in line with robust lending growth and reflecting the high credit quality of new lending and

improved economic conditions. In the bank, the ratio of non-performing loans to total loans decreased to 2.7 per cent, compared with 3.0 per cent in the previous year, and the reserve coverage on non-performing loans was 168 per cent. The bank's capital adequacy ratio remains solid at 14.3 per cent at 31 December 2005.

By customer segment

The personal financial services division reported a solid performance due to higher deposit balances and widening spreads, strong loan growth and higher fee income. Fixed rate mortgage volumes increased 151 per cent over the previous year, driven mainly by the bank's low rate offer.

HSBC remains Mexico's market leader amongst banks in auto loans issued. A unique new internet-based product, 'Venta Directa', was launched during the year, enabling the direct sales of used cars between customers, using HSBC's financing and the website as the intermediary. HSBC is also the first Mexican bank to offer pre-approved personal loans through its ATMs, which helped grow balances by 109 per cent compared with 2004. Targeted customer campaigns drove record growth in credit cards, with balances 84 per cent higher and cards in circulation increasing by 80 per cent to 1.1 million cards.

HSBC's market share in customer deposits continued to increase, reaching record highs in 2005. This was accomplished while maintaining a cost of funds significantly below that of the market. The bank saw good growth of Tu Cuenta, an integrated package of financial services for a flat monthly fee. Since its launch in February, it has generated 611,000 accounts, averaging some 2,300 new customers per day. Mutual fund balances were up 58 per cent from the previous year, benefiting from an expanded product offering and increased cross sales to our extensive customer base. The HSBC D-2 fund is now the largest mutual fund for individual investors in Mexico, with assets of over MXN20 billion at year end.

The Afore pension funds business continued to perform strongly, with 394,000 new customers which led to a 50 per cent growth in fees. In the insurance company, growth in premiums was attributed to strong sales in packaged products in personal financial services (including mortgages, credit cards and Tu Cuenta) which have imbedded insurance components.

Fee income from international remittances rose 55 per cent due to the continued success of La Efectiva, HSBC's electronic remittance card. Monthly transactions now exceed one million, representing a market share among banks of approximately 20 per cent and a five-fold increase since acquisition. We continue to leverage HSBC's extensive branch network in the US to create growth opportunities.

In commercial banking, deposit balances grew by 38 per cent as a result of the expansion into the SME market. Loan balances rose by 21 per cent, principally in the services and commerce sectors due to the increase in new clients. Trade services increased its market share, generating revenue growth of 39 per cent over the previous year. The recently launched Estimulo combined loan and overdraft product for smaller companies has been very successful, with over 3,500 packages sold with an average cross-sale of 4.6 products.

The corporate, investment banking and markets division continued to strengthen its market position with lending growth of MXN11,890 million, or 90 per cent, over 2004, benefiting in part from HSBC's extensive international network for multinational companies. HSBC was officially appointed market maker in debt trading desk by the Central Bank and is now ranked third in the Mexican FX market. The installment of new treasury systems in early 2005 allowed HSBC to operate derivatives in Mexico, which has contributed strong earnings for the year.

HSBC's newly-formed Group Investment Banking Financing (GIBF) won mandates to arrange and underwrite the securitisation of mortgages and bridge loans. GIBF also underwrote and placed the company's first local bond issue for Petroleos Mexicanos and successfully sole lead arranged a 10-year MXN2 billion bond for the Inter-American Development Bank.
