BT GROUP PLC

RESULTS FOR THE THIRD QUARTER AND NINE MONTHS TO 31 DECEMBER 2015

BT Group plc (BT.L) today announced its results for the third quarter and nine months to 31 December 2015.

	Third quarter to 31 December 2015		Nine months to 31 December 2015	
	£m	Change	£m	Change
Revenue ¹	4,594	3%	13,253	0%
Change in underlying revenue ² excluding transit		4.7%		2.3%
EBITDA ¹	1,613	3%	4,504	1%
Profit before tax				
- adjusted ¹	928	14%	2,328	9%
- reported	862	24%	2,136	18%
Earnings per share				
- adjusted ¹	9.0p	13%	22.7p	6%
- reported	9.5p	38%	21.9p	21%
Normalised free cash flow ³	904	£(4)m	1,579	£16m
Net debt			5,021	£(1,181)m

Gavin Patterson, Chief Executive, commenting on the results, said:

"This is a strong set of results with good numbers across the board. Revenue⁴ was up 4.7% this quarter, our best result for more than seven years. We are making good progress towards our goal of sustainable profitable revenue growth.

"BT Consumer had a standout quarter, increasing its overall line base for the first time in well over a decade and capturing 71% of new broadband customers. Good customer growth in broadband, TV and mobile helped to grow ARPU by 7%. Customers like what we're offering, whether that's superfast broadband, Champions League football or mobile data bundles. BT Global Services also did well with good revenue growth in continental Europe and Asia.

"These are exciting times at BT. We have completed our acquisition of EE, the UK's best mobile network provider, and are confident that we'll deliver the anticipated cost and revenue synergies. EE will become a separate consumer-focused line of business within the group. We're also creating a new organisation to better serve our

business and public sector customers in the UK, combining BT Business with EE's business division and parts of BT Global Services' UK operations. BT Global Services will focus on serving multinational companies and major customers outside the UK.

"Service continues to be a priority. Our engineers have worked tirelessly over the festive period to restore service after some of the worst flooding on record. We're investing to improve service and are creating a further 1,000 contact centre jobs in the UK, to help us meet our commitment to answer more than 80% of consumer customer calls from within the UK by the end of this year.

"Fibre is underpinning the growth at Openreach with almost half a million premises taking up the service this quarter via dozens of service providers. The fibre market is highly competitive and growing all the time, which is great news for the UK economy. Our superfast fibre broadband network is available to well over 24m homes and businesses. We will help take fibre coverage to 95% of the country by the end of 2017, with plans to go even further. Our G.fast trials are progressing well. The UK is poised to take the important journey from superfast to ultrafast broadband and BT is well placed to lead the charge."

Key points for the third quarter:

- Underlying revenue² excluding transit up 4.7%, our best result for more than seven years
 - EBITDA¹ up 3%
 - Record Openreach fibre broadband net additions of 494,000
 - 71% share of UK broadband market⁵ growth
 - Consumer line growth of 6,000; the first increase in over a decade
 - Now more than 300,000 BT Mobile customers
- 2015/16 outlook for standalone BT: EBITDA and cash flow reaffirmed; revenue⁴ growth expected to be 1% to 2%

Notes:

1. The commentary focuses on the trading results on an adjusted basis, which is a non-GAAP measure, being before specific items. Unless otherwise stated, revenue, operating costs, earnings before interest, tax, depreciation and amortisation (EBITDA), operating profit, profit before tax, net finance expense, earnings per share (EPS) and normalised free cash flow are measured before specific items. This is consistent with the way that financial performance is measured by management and reported to the Board and the Operating Committee and assists in providing a meaningful analysis of the trading results of the group. The directors believe that presentation of the group's results in this way is relevant to the understanding of the group's financial performance as specific items are those that in management's judgement need to be disclosed by virtue of their size, nature or incidence. In determining whether an event or transaction is specific, management considers quantitative as well as qualitative factors such as the frequency or predictability of occurrence. Specific items may not be comparable with similarly titled measures used by other companies. Reported revenue, reported operating costs, reported EBITDA, reported operating profit, reported profit before tax, reported net finance expense, reported EPS and reported free cash flow

are the equivalent unadjusted or statutory measures.

2. Trends in underlying revenue, trends in underlying operating costs, and underlying EBITDA are non-GAAP measures which seek to reflect the underlying performance of the group that will contribute to long-term sustainable growth and as such exclude the impact of acquisitions and disposals, foreign exchange movements and any specific items. We focus on the trends in underlying revenue and underlying operating costs excluding transit as transit traffic is low-margin and is significantly affected by reductions in mobile termination rates.
