ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Financial Condition**

The Company's consolidated assets increased approximately \$19.4 million, or 12.6% to \$172.4 million at June 30, 2003 compared to \$153.0 million at September 30, 2002.

Securities available-for-sale increased \$6.3 million. During the nine-month period since September 30, 2002, the Company purchased \$24.8 million in government agency-backed bonds and mortgage-backed securities while selling securities classified as available-for-sale totaling \$13.1 million which provided a net gain on the sales of \$48,000. The Company received an additional \$4.7 million in principal repayments during the period. Securities held-to-maturity increased a net \$4.5 million due to the purchase of government agency securities totaling \$7.5 million offset by the call and maturities of \$3.0 million in government agency bonds.

Loans receivable increased by \$3.8 million to \$117.2 million at June 30, 2003 from \$113.3 million at September 30, 2002. Net loans for Citizens increased by \$11.3 million, which was offset by a net decrease in loans for First Financial of \$7.5 million. The increase in loans by Citizens was primarily commercial loans and loans secured by real estate and reflects their success in gaining acceptance in their market area, while the decrease in net loans for First Financial was due to less demand in their market and loans refinanced and placed with other lending institutions.

Deposits increased \$17.4 million, or 14.3% to \$139.4 million at June 30, 2003 from \$121.9 million at September 30, 2002. Certificate of deposits accounted for \$13.0 million of the \$17.4 million increase in deposits since September 30, 2002. This increase reflects the competitively priced product lines within the local market areas for First Financial and Citizens, respectively.

Other liabilities increased \$1.6 million, to \$2.1 million at June 30, 2003 from \$464,000 at September 30, 2002. The share funding of approximately \$1.8 million for the Dutch Auction was completed on or about July 1, 2003.

Table of Contents

stock at a total cost of \$1,915,000. The total cost of common shares purchased by the Company for the nine-month period ended June 30, 2003 amounts to \$1,992,358. Additional decreases to stockholders' equity included dividends declared of \$375,000, a decrease in the net unrealized appreciation on investment securities available-for-sale of \$267,000, offset in part by net income of \$876,000, plus an increase of \$174,000 due to the release of ESOP shares during the nine-month period ended June 30, 2003.

Results of Operations for the Three Months Ended June 30, 2003 and 2002

Net Income

Net income increased by \$69,000 for the three months period ended June 30, 2003 compared to the same period in 2002. Net interest income increased \$129,000, non-interest income increased \$110,000, which were offset in part by an increase of \$89,000 in non-interest expense, an increase of \$11,000 in the provision for loan losses, an increase of \$31,000 in income tax expense, plus a decrease of \$39,000 for the minority ownership's share of Citizens' operations.

Net Interest Income

Net interest income for the three months ended June 30, 2003 was \$1.1 million. The increase in net interest income of \$129,000 in the quarter ended June 30, 2003 compared to the same period in 2002 was due to an increase in interest income of \$128,000, plus a decrease in interest expense of \$1,000. Interest income in the 2003 period was \$2.2 million with an average yield of 5.56% compared to \$2.1 million with an average yield of 6.16% in the 2002 period. Interest expense in the 2003 period was \$1.1 million with an average rate paid of 3.11% compared to \$1.1 million with an average rate paid of 3.88% in the 2002 period.

Interest Income

Interest income was \$2.2 million, or 5.56% of average interest-earning assets for the three months ended June 30, 2003 compared to \$2.1 million, or 6.16% of average interest-earning assets, for the same period in 2002. The increase in interest income of \$128,000 was due to an increase in the average balance of interest-earning assets in 2003 compared to 2002 offset in part by the reduction in the average yield earned in 2003 compared to 2002. The average balance of interest-earning assets was \$159.3 million in the three-month period ended June 30, 2003 compared to \$135.4 million for this same period in 2002.

Interest Expense

Interest expense was \$1.1 million, or 3.11% of average interest-bearing liabilities for the three months ended June 30, 2003 as compared to \$1.1 million, or 3.88% of average interest-bearing liabilities for the same period in 2002. The increase in interest expense of \$1,000 was due to the increase in the average balance of interest-bearing liabilities in 2003 compared to 2002, which includes the \$5.0 million subordinated debentures issued in March of 2003, offset by the reduction in the average rate paid on interest-bearing liabilities for this period. The average balance of interest-bearing liabilities was \$144.2 million in the three-month period ended June 30, 2003 compared to \$115.6 million for the same period in

2002.

Provision for Loan Losses

The provision for loan losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimate of the losses inherent in the portfolio based on:

Historical experience;

Volume;

Table of Contents

Type of lending conducted by the Banks;

Industry standards;

The level and status of past due and non-performing loans;

The general economic conditions in the Bank's lending areas;

Other factors affecting the collectibility of the loans in the portfolio.

For the three months ended June 30, 2003, the provision for loan losses increased by \$11,000 to \$60,000 compared to \$49,000 for the same period in 2002. The provision in 2003 of \$60,000 was primarily related to the continued growth of Citizens' loan portfolio, which increased by a net \$4.2 million during the three-month period ended June 30, 2003. The loan portfolio for First Financial decreased by a net \$519,000 in this same period.

The allowance for loan losses is maintained at a level that represents management's best estimates of losses in the loan portfolio at the balance sheet date. However, there can be no assurance that the allowance for losses will be adequate to cover losses, which may be realized in the future and that additional provisions for losses will not be required.

Non-Interest Income

Non-interest income was \$241,000 and \$131,000 for the quarters ended June 30, 2003 and 2002, respectively. Other non-interest income increased by \$107,000 to \$154,000 in 2003, primarily due to the income of \$47,000 recognized on the equity investment in Independence Bancorp of New Albany which was acquired in December 2002, plus a gain on the sale of investment securities classified as available-for-sale totaling \$29,000.

Non-Interest Expense

Non-interest expense increased approximately \$89,000, or 10.9% to \$906,000 for the three-month period ended June 30, 2003 compared to \$817,000 for the same period in 2002. Other non-interest expense increased \$53,000 and occupancy expenses increased \$28,000 in the 2003 period compared to the 2002 period. The increase in these expense categories are primarily due to increases experienced by Citizens due to their growth.

Income Taxes

Edgar Filing: HARRODSBURG FIRST FINANCIAL BANCORP INC - Form 10QSB

The increase in net interest income of \$341,000 in the nine month period ended June 30, 2003 compared to the same period in 2002 was due to a decrease in interest expense of \$394,000, offset by a decrease in interest income of \$53,000. The decrease in interest income of \$53,000 was due to the reduced yields earned in the nine months ended June 30, 2003 compared to the same period in 2002, offset in part by an increase in the average balance of interest-earning assets in 2003 compared to 2002. The average balance of interest-earning assets was \$153.3 million in the nine-month period ended June 30, 2003 compared to \$135.8 million for this same period in 2002.

The average balance of interest-bearing liabilities was \$135.3 million in the nine month period ended June 30, 2003 compared to \$114.9 million for the same period in 2002.

Provision for Loan Losses

The provision for loan losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimate of the losses inherent in the portfolio based on:

Historical experience;

Volume;

Type of lending conducted by the Banks;

Industry standards;

The level and status of past due and non-performing loans;

The general economic conditions in the Bank's lending areas;

Other factors affecting the collectibility of the loans in the portfolio.

For the nine months ended June 30, 2003, the provision for loan losses decreased by \$48,000 to \$151,000 compared to \$199,000 for the same period in 2002. The provision in 2003 of \$151,000 was related to the continued growth of Citizens' loan portfolio, which increased by a net \$11.3 million during the nine-month period ended June 30, 2003. The loan portfolio for First Financial decreased by a net \$7.5 million in this same period.

The allowance for loan losses is maintained at a level that represents management's best estimates of losses in the loan portfolio at the balance sheet date. However, there can be no assurance that the allowance for losses will be adequate to cover losses, which may be realized in the future and that additional provisions for losses will not be required.

Other non-interest expense increased \$150,000 due to a \$61,000 increase in legal and accounting expenses incurred in connection with the investment in Independence Bancorp of New Albany and in compliance with regulatory requirements, writeoff of \$20,000 in core deposit intangible assets related to the Independence investment and \$32,000 in costs associated with the growth of Citizens.

Payments received on a non-accrual loan are either applied to the outstanding principal balance or recorded as interest income, or both, depending on assessment of the collectibility of the loan.

²Other non-performing assets represent property acquired by the Bank through foreclosure or repossessions accounted for as a foreclosure in-substance. This property is carried at the fair market of the property value, net of selling expenses.

The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) required each federal banking agency to implement prompt corrective actions for institutions that it regulates. In response to this requirement, OTS and the FDIC implemented regulations requiring banks to meet specified capital requirements. The rules provide that a savings bank is well capitalized if its total risk-based capital ratio is 10% or greater, its Tier 1 risk-based capital ratio is 6% or greater, its leverage capital ratio is 5% or greater and the institution is not subject to a capital directive. Under this regulation, the Banks were deemed to be well capitalized as of June 30, 2003 and September 30, 2002. There are no conditions or events since those notifications that management believes would change its classifications.

Liquidity

The liquidity of the Company depends primarily on the dividends paid to it by First Financial and Citizens. The payment of cash dividends by the Banks on their common stocks is limited by regulations of the OTS and the FDIC, which are tied to their level of compliance with their regulatory capital requirements.

The Bank s primary sources of funds are deposits and proceeds from principal and interest payments of loans. Additional sources of liquidity are advances from the FHLB of Cincinnati and other borrowings, such as Federal Funds purchased. At June 30, 2003, First Financial and Citizens had advances from the FHLB totaling \$1.0 million and \$1.2 million, respectively. First Financial and Citizens utilize FHLB borrowings during periods when management of the Banks believe that such borrowings provide a lower cost source of funds than deposit accounts and the Banks desire liquidity in order to help expand their lending operations.

The Company s operating activities produced positive cash flows for the nine-month periods ended June 30, 2003 and 2002.

The Company s most liquid assets are cash and cash-equivalents, which include investments in highly liquid, short-term investments. At June 30, 2003 and September 30, 2002, cash and cash equivalents totaled \$13.9 million and \$9.6 million, respectively.

At June 30, 2003, the Banks had \$84.1 million in certificates of deposits due within one year and \$25.4 million due between one and three years. Management believes, based on past experience, that the Banks will retain much of the deposits or replace them with new deposits. At June 30, 2003, the Banks had \$740,000 in outstanding commitments to originate mortgages, plus approved, but unused home equity and commercial lines of credit totaling \$5.8 million and available construction loan draws of \$2.1 million. The Banks intend to fund these commitments with short-term investments and proceeds from loan repayments.
