RISK FACTORS

An investment in our common stock involves a high degree of risk. You should consider carefully the following information about these risks, as well as the other information included in this prospectus, before you decide to purchase our common stock. Furthermore, you should also note that there may be additional risks and uncertainties not presently known to us, or that we currently deem immaterial, which may also impair our business, results of operations and financial condition.

We may experience operating losses if we cannot sustain our current sales volume.

In fiscal 2002 and prior to fiscal 2000, we had net losses for the previous four years. While we had net income of \$2.3, \$4.3, and \$15.8 million for fiscal 2000, 2001, and 2003, respectively, we cannot assure you that we will not have a loss for the current fiscal year which will end on January 3, 2005. Our prior years' losses were primarily caused by impairment charges related to lower restaurant sales at certain restaurants during those periods, and those losses may occur again if we are unable to sustain our current level of sales.

Our available cash is limited by our debt service obligations.

At December 29, 2003, we had outstanding long term debt and capital lease obligations of approximately \$28.0 million, pursuant to which we are required to make principal, interest and lease payments. During fiscal 2003, we paid \$2.6 million in interest on our long term debt. Our debt service and capital lease obligations limit our available cash flow.

Our debt and lease agreements contain financial covenants.

We are subject to certain restrictive financial and non-financial covenants under certain of our debt and lease agreements, including EBITDA and a Fixed Charge Coverage ratio. Though we were in compliance with all financial and non-financial covenants at December 29, 2003, if we are unable to make the required interest payments or to comply with the provisions of our debt covenants, our creditors may accelerate the due date of our debt and foreclose upon the operating assets we used to secure these obligations. Any such actions would adversely affect our operations and strain our cash flow.

We may incur substantial liability arising from lawsuits to which we are a party.

We are parties to the litigation described in Item 8. Note 12(d) Commitments and Contingencies Litigation, contained in the audited financial statements filed in connection with our 2003 Form 10-K which is incorporated herein by reference. Although we cannot determine at this time the outcome of the lawsuits to which we are a party, if the result in one or more of the cases is adverse to us, the potential liability could be material. In addition, we believe that the costs of defending these actions could be significant. The litigation matters include disputes with our franchisees and include claims of fraud and violations of state franchise laws, and a securities class action.

There are many risks associated with the food services industry.

The food service industry is affected by changes in consumer tastes, national, regional, and local economic conditions, demographic trends, traffic patterns and the type, number, and location of competing restaurants. Food service chains can also be adversely affected by publicity resulting from food quality, illness, injury or other health concerns (including food-borne illness claims) stemming from one store or a limited number of stores. Claims relating to foreign objects or food-borne illness are common in the food services industry and a number of such claims may exist at any given time. Dependence on frequent deliveries of produce and supplies also subjects food service businesses such as ours to the risk that shortages or interruptions in supply caused by adverse weather or other conditions could adversely affect the availability, quality, and cost of ingredients. In addition, material changes in, or our failure to comply with, applicable federal, state, and local government regulations, and factors such as inflation, increased food, labor, and employee benefits costs, regional weather conditions and the availability of an adequate number of experienced managers and hourly employees may also adversely affect the food service industry in general and our results of operations and financial condition in particular.

The quick-service restaurant industry is intensely competitive and our operating results may be adversely affected by our need to adjust our operations to meet this competition.

There is intense competition in the quick-service restaurant industry which has adversely affected us. We expect to continue to experience intense competition, especially from the major chains, which have substantially greater financial resources and longer operating histories than us, and dominate the quick-service restaurant industry. We compete primarily on the basis of food quality, price and speed of service. A significant change in pricing or other marketing strategies by one or more of our competitors could have a material adverse impact on our sales, earnings and growth. In order to compete with each other, all of the major quick-service chains have increasingly offered selected food items and combination meals at discounted prices. We anticipate that the major quick-service hamburger chains will continue to offer promotions of value priced, many specifically targeting the \$.99 price point at which we sell many of our products. As a result, we cannot rely on low prices to give us a competitive advantage.

Our growth strategy is dependent upon franchisees.

As of December 29, 2003, approximately 222 of our restaurants were operated by us, and approximately 562 were operated by franchisees. Our growth strategy will continue to be heavily dependent upon the opening of new stores owned by franchisees, and the manner in which they operate and develop their restaurants to promote and develop our concepts and our reputation for quality food and speed of service. The opening and success of stores is dependent on a number of factors, including the availability of suitable sites, the negotiation of acceptable lease or purchase terms for such sites, permitting and regulatory compliance, the ability to hire and train qualified personnel, the financial and other capabilities of our franchisees and area developers, and general economic and business conditions. Many of these factors are beyond our control or the control of our franchisees and area developers.

We may be harmed by actions taken by our franchisees that are outside of our control.

Franchisees are generally independent operators and are not our employees. We provide training and support to franchisees, but the quality of franchised store operations may be diminished by any number of factors beyond our control. Consequently, area developers and individual franchisees may not successfully operate stores in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other store personnel. If they do not, our image and reputation may suffer, and systemwide sales could decline.

The ability to attract and retain highly qualified personnel is extremely important and our failure to do so could adversely affect us.

We are heavily dependent upon the services of our officers and key management involved in restaurant operations, marketing, finance, purchasing, expansion, human resources and administration. The loss of any of these individuals could have a material adverse effect on our business and results of operations. Other than our Chief Executive Officer and Vice-President of Operations, we currently do not have employment agreements with any of our employees. Our success is also dependent upon our franchisees' ability to attract and maintain a sufficient number of qualified managers and other restaurant employees. Qualified individuals needed to fill these positions are in short supply in some geographic areas. The inability to recruit and retain such individuals may result in higher employee turnover in existing restaurants, which could have a material adverse effect on our business and results of operations.

Our resources may be strained by implementing our business strategy.

Edgar Filing: CHECKERS DRIVE IN RESTAURANTS INC /DE - Form S-3

Our growth strategy may place a strain on our management, financial and other resources. To manage our growth effectively, we must maintain the level of quality and service at our existing and future restaurants. We must also continue to enhance our operations, financial and management systems and locate, hire, train and retain experienced and dedicated operating personnel, particularly restaurant managers. We may not be able to effectively manage any one or more of these aspects of our expansion. Failure to do so could have a material adverse effect on our business and results of operations.

If we are not able to anticipate and react to our food and labor costs, our profitability could be adversely affected.

Our stores' operating costs consist principally of food and labor costs. Our profitability is dependent in part on our ability to anticipate and react to changes in food and labor costs. Various factors beyond our control, including adverse weather conditions and governmental regulation, may affect our food costs. We may not be able to anticipate and react to changing food costs, whether through purchasing practices, menu composition or menu price adjustment in the future. In the event that food or labor price increases cause us to increase our menu prices, we face the risk that our customers will choose our competitors if their prices are lower. Failure to react to changing food costs, or retaining customers if we are forced to raise menu prices, could have a material adverse effect on our business and results of operations.

Our ability to develop new franchised stores and to enforce contractual rights against franchisees may be adversely affected by franchise laws and regulations, which could cause our franchise revenues to decline and adversely affect our growth strategy.

As a franchisor, we are subject to regulation by both the Federal Trade Commission and state laws regulating the offer and sale of franchises. Our failure to obtain or maintain approvals to sell franchises would cause us to lose franchise revenues. If we are unable to sell new franchises, we will not be able to accomplish our growth strategy. In addition, state laws that regulate substantive aspects of our relationships with franchisees may limit our ability to terminate or otherwise resolve conflicts with our franchisees. Because we plan to grow primarily through franchising, any impairment of our ability to develop new franchised stores will negatively affect us and our growth strategy more than if we planned to develop additional company stores.

Our quarterly results may fluctuate and could fall below expectations of securities analysts and investors, resulting in a decline in our stock price.

Our quarterly and yearly results have varied in the past, and we believe that our quarterly operating results will vary in the future. For this reason, you should not rely upon our quarterly operating results as indications of future performance. In some future periods, our operating results may fall below the expectations of securities analysts and investors. This could cause the trading price of our common stock to fall. Factors such as seasonality and unanticipated increases in labor, food, insurance or other operating costs may cause our quarterly results to fluctuate.

You should not rely on our comparable store sales as an indication of our future results of operations because they may fluctuate significantly.

A number of factors have historically affected, and will continue to affect, our comparable store sales results. Such factors include unusually strong sales performance by new stores (operated at least one year), competition, regional and national economic conditions, consumer trends, and our ability to execute our business strategy effectively. Significant fluctuations could result in lower than planned sales, adversely impacting our profitability goals and straining cash flow.

Future sales of shares of our common stock could decrease its market price.

As of February 23, 2004, we had 12,049,356 shares of our common stock outstanding and grants of options and warrants outstanding to purchase 2,242,555 shares of our common stock. Possible or actual sales of any of these shares under Rule 144 or otherwise, may in the future

decrease the price of shares of our common stock.

Our largest stockholder still have a significant influence on matters to put a vote.

The percentage interest held by our largest shareholders may have significant influence on elections of directors and other matters put to a vote of stockholders. Ownership percentages of such large shareholders can be found under the heading SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT in the Company's most recent Proxy Statement.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this prospectus constitute forward-looking statements which we believe are within the meaning of the Securities Act of 1933, as amended. Also, when we use words such as believes, expects, anticipates or similar expressions, we are making forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. Some of the risks that should be considered include:

- (i) The fact that we compete with numerous well established competitors who have substantially greater financial resources and longer operating histories than us, which enables them to engage in heavy and sustained discounting as well as substantial advertising and promotion. While this competition is already intense, if it increases, it could have an even greater adverse impact on revenues and profitability of company owned and franchise restaurants.

- (ii) The fact that we anticipate the need to continue the improvement in same restaurant sales if we are to achieve improved profitability. Sales increases will depend, among other things, on the success of our advertising and promotion efforts and the success of other operating and training initiatives, all of which are speculative.

We may also be negatively impacted by other factors common to the restaurant industry such as changes in consumer eating habits; consumer perceptions of food safety; consumer acceptance of new products; consumer purchase frequency; increases in the costs of food; paper, labor, health care, workers compensation or energy; an inadequate number of available hourly paid employees; and/or decreases in the availability of affordable capital resources; development and operating costs. Other factors which may negatively impact the Company include, among others, adverse publicity; general economic and business conditions including the threat of terrorism and war which may cause disruptions to the economy and create uncertainties which may affect our business; availability, locations, and terms of sites for restaurant development; changes in business strategy or development plans; quality of management; availability, terms and deployment of capital; the results of financing efforts; business abilities and judgment of personnel; availability of qualified personnel; changes in, or failure to comply with, government regulations; continued NASDAQ listing; weather conditions; construction schedules, results of existing and future litigation and other factors referenced in this Prospectus.

Item 15. Indemnification of Officers and Directors.

Section 145(a) of the General Corporation Law of the State of Delaware provides that a Delaware corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no cause to believe his conduct was unlawful.

Section 145(b) provides that a Delaware corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted under similar standards, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the court in which such action or suit was brought shall determine that despite the adjudication of liability, such person is fairly and reasonably entitled to be indemnified for such expenses which the court shall deem proper.

Section 145 further provides that to the extent a present or former director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsections (a) and (b) or in the defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith; that indemnification provided for by Section 145 shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and that the corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise against any liability asserted against him or incurred by him in any such capacity or arising out of his status as such whether or not the corporation would have the power to indemnify him against such liabilities under such Section 145.

Checkers By-Laws provide that Checkers shall indemnify certain persons, including officers, directors, employees and agents, to the fullest extent permitted by the General Corporation Law of the State of Delaware. Checkers has also entered into an indemnification agreement with its directors and certain executive officers. The company's directors and officers are insured against losses arising from any claim against them as such for wrongful acts or omissions, subject to certain limitations.

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement;

Edgar Filing: CHECKERS DRIVE IN RESTAURANTS INC /DE - Form S-3

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that the undertakings set forth in paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes, that for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report on Form 10-K pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising out of the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that, in the opinion of the Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense in any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act will be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus will be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time will be deemed to be the initial *bona fide* offering thereof.
