### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

# 1. ORGANIZATION AND BASIS OF PRESENTATION

U.S. Concrete, Inc., a Delaware corporation, provides ready-mixed concrete and related products and services to the construction industry in several major markets in the United States. U.S. Concrete is a holding company and conducts its businesses through its consolidated subsidiaries.

U.S. Concrete commenced operations in May 1999 when it acquired six operating businesses in three major markets in the United States. Since then, U.S. Concrete has acquired an additional 23 operating businesses, in these and seven additional markets in the United States, and intends to acquire additional companies to expand its operations.

The consolidated financial statements include the accounts of U.S. Concrete and its subsidiaries and have been prepared by U.S. Concrete, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Some information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the SEC s rules and regulations, although U.S. Concrete believes that the disclosures made are adequate to make the information presented not misleading. You should read these unaudited condensed consolidated financial statements together with the consolidated financial statements and related notes in the U.S. Concrete s annual report on Form 10-K for the year ended December 31, 2003. In the opinion of U.S. Concrete, all adjustments necessary to present fairly the information in its unaudited condensed consolidated financial statements have been included. Operating results for the three-month period ended March 31, 2004 are not necessarily indicative of the results for 2004.

The preparation of financial statements and accompanying notes in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates.

U.S. Concrete has made reclassifications to some amounts in the prior-period presentations to conform to the current-period presentation. Those reclassifications did not impact U.S. Concrete s consolidated financial position, results of operations or cash flows.

# 2. SIGNIFICANT ACCOUNTING POLICIES

U.S. Concrete has not changed its accounting policies since December 31, 2003. For a description of these policies, refer to note 1 of the consolidated financial statements in U.S. Concrete s annual report on Form 10-K for 2003.

# 3. STOCK-BASED COMPENSATION

U.S. Concrete accounts for its stock-based compensation plans under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees. Its consolidated statement of operations does not reflect any stock-based employee compensation cost for its stock option plans if options granted under these plans have an exercise price equal to the market value of the underlying common stock on the date of grant.

The following table illustrates the pro forma effect on net loss and loss per share as if U.S. Concrete had applied the fair value recognition provisions of SFAS No.123, Accounting for Stock-Based Compensation, as amended, related to its stock-based compensation plans for the three months ended March 31, 2004 and 2003 (in thousands, except per share amounts).

# 5. DEBT

A summary of debt is as follows (in thousands):

	March 31, 2004	December 31, 2003
Senior secured credit facility due 2009	\$	\$
8 <sup>3</sup> /8% senior subordinated notes due 2014	200,000	
Refinanced debt		155,000
Other	13	39
	200,013	155,039
Less: current maturities	(13)	(13,610)
	\$ 200,000	\$ 141,429

Annual maturities of debt are \$13,000 in 2004, none for 2005, 2006, 2007, and 2008 and \$200 million thereafter.

On March 12, 2004, U.S. Concrete entered into a new senior secured credit facility, which initially provided a revolving credit facility of up to \$100 million and a term loan facility of up to \$25 million. U.S. Concrete initially borrowed \$44 million under the revolving credit facility and

\$20 million under the term loan facility, all of which it prepaid on March 31, 2004 with the proceeds from its issuance on that date of the 8 <sup>3</sup>/8% senior subordinated notes described below. U.S. Concrete used the borrowings under its new credit facility to retire debt outstanding under its prior senior credit facility and to pay related transaction fees. The commitments under the revolving credit facility were subsequently increased to \$105 million, with borrowings limited based on a portion of the net amounts of eligible accounts receivable, inventory and mixer trucks. The revolving credit facility matures in March 2009. Borrowings under the revolving credit facility will bear annual interest at the Eurodollar-based rate (LIBOR) plus 2.75% or the domestic rate plus 1.25%. The interest rate margins will vary inversely with the amount of unused borrowing capacity available under the facility. All commitments under the term loan facility were terminated following repayment of the initial \$20 million borrowing under that facility. Commitment fees at an annual rate of 0.375% are to be paid on the unused portion of the revolving credit facility.

The credit agreement relating to the new facility provides that the administrative agent may, on the bases specified, reduce the amount of the available credit from time to time. At March 31, 2004, the amount of U.S. Concrete savailable credit under the revolving credit facility was approximately \$63.8 million, net of outstanding letters of credit of \$1.2 million.

U.S. Concrete s subsidiaries have fully and unconditionally guaranteed the repayment of all amounts owing under the senior secured credit facility, on a joint and several basis. In addition, U.S. Concrete collateralized the facility with the capital stock of its subsidiaries, excluding minor subsidiaries without operations or material assets, and substantially all the assets of those subsidiaries, excluding most of the assets of the aggregate quarry in Northern New Jersey. The credit agreement contains covenants restricting, among other things, prepayment or redemption of subordinated notes, distributions, dividends and repurchases of capital stock and other equity interests, acquisitions and investments, mergers, asset sales other than in the ordinary course of business, indebtedness, liens, changes in business, changes to charter documents and affiliate transactions. The credit agreement limits capital expenditures to \$25 million in 2004 and, in each subsequent year, to 5% of consolidated revenues in the prior year. It will require U.S. Concrete to maintain a minimum fixed charge coverage ratio of 1.0 to 1.0 on a rolling 12-month basis if the available credit under the credit facility falls below \$15 million. The credit agreement provides that change of control events would constitute events of default under the agreement.

At March 31, 2004, no borrowings were outstanding under the credit facility; however, \$1.2 million of the facility was utilized to support letters of credit.

# 5. DEBT (continued)

On March 31, 2004, U.S. Concrete issued and sold \$200 million of 8 3/8% senior subordinated notes due April 1, 2014. Interest on these notes is payable semiannually on October 1 and April 1 of each year. U.S. Concrete used the net proceeds of this financing to redeem its prior senior subordinated notes and prepay the outstanding debt under its new credit facility. U.S. Concrete paid \$122.5 million to redeem its prior senior subordinated notes, including a prepayment premium of \$25.9 million, plus all accrued and unpaid interest through the redemption date of \$1.6 million.

During the three months ended March 31, 2004, as a result of the March 2004 refinancing, U.S. Concrete recognized an ordinary loss on early extinguishment of debt of \$28.8 million, which consisted of \$25.9 million in premium payments to holders of the redeemed senior subordinated notes and a write-off of \$2.9 million of debt issuance costs associated with all the debt repaid.

All the subsidiaries of U.S. Concrete, excluding minor subsidiaries, have jointly and severally and fully and unconditionally guaranteed the repayment of the 8
