**Item 1.01 Entry into a Material Definitive Agreement**

On October 24, 2005, the Compensation Committee of the Board of Directors (the Board) of AsiaInfo Holdings, Inc. (the Company) approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under the Company's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The effective date of the acceleration was October 25, 2005.

The accelerated options have exercise prices ranging from \$3.35 to \$14.56 and a weighted average exercise price of \$5.28. As a condition of the acceleration, and to avoid any unintended personal benefits, the Company also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

The primary purpose of the accelerated vesting is to enable the Company to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of FASB Statement No. 123R, Share-Based Payment, (SFAS 123R) by the Company in fiscal 2006. The Company expects the acceleration to reduce the stock option expense it otherwise would be required to record beginning in fiscal 2006 by more than \$7.5 million on a pre-tax basis.
