Press Release

**Silicon Motion Technology Corporation Raises**

**Guidance for First Quarter 2007**

Tuesday March 20, 2007

TAIPEI, Taiwan, March 20 /Xinhua-PRNewswire-FirstCall/ Silicon Motion Technology Corporation (Nasdaq: SIMO; the Company ), a leading fabless semiconductor company that designs, develops, and markets universally compatible, high-performance, low-power semiconductor solutions for the multimedia consumer electronics market, today raised its top-line guidance for the first quarter of 2007.

In the fourth quarter 2006 earnings release dated February 1, 2007, the Company anticipated sales for the first quarter of 2007 to decrease 15% - 20% sequentially. Due to some unexpected strength in a few different areas, Management has revised its revenue forecast for the first quarter to US\$33.1M - US\$34.5M, which would be a sequential decline of only 3% - 7%. This compares to sequential declines of 32% and 35% in the first quarters of 2005 and 2006, respectively.

The revised guidance is largely the result of three factors: 1) Samsung beginning volume production of flash memory cards with Silicon Motion's controllers, 2) For the first time, China has become a strong end market for SD and micro SD controllers, and 3) Silicon Motion has a much broader product offering in Q1 '07 than it has had in past years and the new product lines are starting to gain market share.
