Information about the directors and executive officers of Yardville is set forth in its Annual Report on Form 10-K filed on March 30, 2007 for the year ended December 31, 2006, as amended by the Form 10-K/A filed on May 10, 2007. Additional information regarding the interests of such participants is included in the proxy statement/prospectus and the other relevant documents filed with the SEC.

Mercantile Acquisition

We completed our acquisition of Mercantile Bankshares Corporation (Mercantile) on March 2, 2007 and our financial results include Mercantile from that date. PNC issued approximately 53 million shares of common stock and paid approximately \$2.1 billion in cash as consideration for the acquisition, and accounted for the transaction under the purchase method. PNC converted the Mercantile banks' data onto PNC's financial and operational systems during September 2007.

BlackRock/MLIM Transaction

As further described in our Annual Report on Form 10-K for the year ended December 31, 2006, on September 29, 2006, Merrill Lynch contributed its investment management business (MLIM) to BlackRock, Inc. (BlackRock), formerly a majority-owned subsidiary of PNC, in exchange for 65 million shares of newly issued BlackRock common and preferred stock.

For the three months and nine months ended September 30, 2006 presented in this Financial Supplement, our Consolidated Income Statement reflects our former majority ownership interest in BlackRock. However, our Consolidated Income Statement for the quarters ended September 30, 2007, June 30, 2007, March 31, 2007, and December 31, 2006 and the nine months ended September 30, 2007 and our Consolidated Balance Sheet as of September 30, 2007, June 30, 2007, March 31, 2007, December 31, 2006 and September 30, 2006 reflect the September 29, 2006 deconsolidation of BlackRock's balance sheet amounts and recognize our approximate 34% ownership interest in BlackRock as of those dates as an investment accounted for under the equity method.

We have also provided, for information purposes only, adjusted results in this Financial Supplement to reflect BlackRock as if it had been accounted for under the equity method for all periods presented.

- (a) The effective tax rates are presented on a GAAP basis. The higher effective tax rates for the first nine months of 2006 and the third quarter of 2006 are primarily due to the third quarter 2006 gain on the BlackRock/MLIM transaction and a related \$57 million cumulative adjustment to deferred taxes recorded in the same quarter. The lower effective tax rate in the fourth quarter of 2006 was primarily due to a reduction in tax reserves for interest.

- (a) This schedule is provided for informational purposes only and reflects historical condensed consolidated financial information of PNC: (1) with amounts adjusted for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) adjusted in each case, as appropriate, for the tax impact. See the Appendix to this Financial Supplement for reconciliations of these amounts to the corresponding GAAP amounts for each of the periods presented. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement. Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results.

- (a) This summary also serves as a reconciliation of total earnings and revenue for all businesses to total consolidated net income and revenue. Our business information is presented based on our management accounting practices and our management structure. We refine our methodologies from time to time as our management accounting practices are enhanced and our businesses and management structure change.
- (b) Amounts for 2007 subsequent to March 2, 2007 include the impact of Mercantile.
- (c) We consider BlackRock to be a separate reportable business segment but have combined its results with Other for this presentation. Our Quarterly Report on Form 10-Q for the third quarter of 2007 will provide additional business segment disclosures for BlackRock. Generally, PNC's business segment earnings from BlackRock can be estimated by multiplying our current 33.7% ownership interest by BlackRock's reported GAAP earnings, less the additional income taxes recorded by PNC on those earnings. The effective tax rate on those earnings is typically less than PNC's consolidated effective tax rate due to the tax treatment of dividends received, if any, from BlackRock. PNC's effective tax rate on its earnings from BlackRock for the third quarter of 2007 was 23.9%.
- (d) Business revenue is presented on a taxable-equivalent basis. The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than a taxable investment. To provide more meaningful comparisons of yields and margins for all earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement. The following is a reconciliation of total consolidated revenue on a book (GAAP) basis to total consolidated revenue on a taxable-equivalent basis (in millions):

	September 30	June 30	March 31	December 31	September 30
	2007	2007	2007	2006	2006

Total consolidated revenue, taxable-equivalent basis	\$ 1,757	\$ 1,721	\$ 1,620	\$ 1,540	\$ 3,517

- (e) PFPC revenue represents the sum of servicing revenue and nonoperating income (expense) less debt financing costs. Prior period servicing revenue amounts have been reclassified to conform with the current period presentation.

- (a) Presented as of period-end for all periods presented, except for gains on sales of education loans which are for the three months ended and small business sweep checking amounts, which are average. Small business loans and on-balance sheet managed deposits data for periods prior to the three months ended September 30, 2007 was previously provided on an average basis.
- (b) This information excludes the impact of acquisitions between PNC's acquisition date and the date of conversion of the acquired companies data onto PNC's financial and operational systems because such information was not available prior to the conversion date. Therefore, information presented above as of and for the three months ended June 30, 2007 and March 31, 2007 excludes the impact of Mercantile, which PNC acquired effective March 2, 2007 and converted during September 2007.
- (c) Includes loans from acquired portfolios for which lien position and loan-to-value information was limited.
- (d) Represents the most recent FICO scores we have on file.

Efficiency, as reported (a)	63%	61%	58%	63%	33%
Efficiency, as adjusted (b)	59%	60%	60%	62%	62%

- (a) Calculated as noninterest expense divided by the sum of net interest income and noninterest income on the Consolidated Income Statement.
- (b) Calculated as PNC's efficiency ratio adjusted: (1) for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) in each case, as appropriate, adjusted for the tax impact. We have provided these adjusted amounts and reconciliations so that shareholders, investor analysts, regulators and others will be better able to evaluate the impact of these items on our as reported efficiency ratio for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation. Amounts used for these adjusted ratios are reconciled to amounts used in the PNC efficiency ratio as reported (GAAP basis).

Glossary of Terms

Accounting/administration net fund assets Net domestic and foreign fund investment assets for which we provide accounting and administration services. We do not include these assets on our Consolidated Balance Sheet.

Adjusted average total assets Primarily comprised of total average quarterly (or annual) assets plus (less) unrealized losses (gains) on available-for-sale debt securities, less goodwill and certain other intangible assets (net of eligible deferred taxes).

Annualized Adjusted to reflect a full year of activity.

Assets under management Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Basis point One hundredth of a percentage point.

Charge-off Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred to held for sale by reducing the carrying amount by the allowance for loan losses associated with such loan or if the market value is less than its carrying amount.

Common shareholders' equity to total assets Common shareholders' equity divided by total assets. Common shareholders' equity equals total shareholders' equity less the liquidation value of preferred stock.

Credit spread The difference in yield between debt issues of similar maturity. The excess of yield attributable to credit spread is often used as a measure of relative creditworthiness, with a reduction in the credit spread reflecting an improvement in the borrower's perceived creditworthiness.

Custody assets Investment assets held on behalf of clients under safekeeping arrangements. We do not include these assets on our Consolidated Balance Sheet. Investment assets held in custody at other institutions on our behalf are included in the appropriate asset categories on the Consolidated Balance Sheet as if physically held by us.

Derivatives Financial contracts whose value is derived from publicly traded securities, interest rates, currency exchange rates or market indices. Derivatives cover a wide assortment of financial contracts, including forward contracts, futures, options and swaps.

Duration of equity An estimate of the rate sensitivity of our economic value of equity. A negative duration of equity is associated with asset sensitivity (*i.e.*, positioned for rising interest rates), while a positive value implies liability sensitivity (*i.e.*, positioned for declining interest rates). For example, if the duration of equity is +1.5 years, the economic value of equity declines by 1.5% for each 100 basis point increase in interest rates.

Earning assets Assets that generate income, which include: federal funds sold; resale agreements; other short-term investments, including trading securities; loans held for sale; loans, net of unearned income; securities; and certain other assets.

Economic capital Represents the amount of resources that a business segment should hold to guard against potentially large losses that could cause insolvency. It is based on a measurement of economic risk, as opposed to risk as defined by regulatory bodies. The economic capital measurement process involves converting a risk distribution to the capital that is required to support the risk, consistent with our target credit rating. As such, economic risk serves as a common currency of risk that allows us to compare different risks on a similar basis.

Economic value of equity (EVE) The present value of the expected cash flows of our existing assets less the present value of the expected cash flows of our existing liabilities, plus the present value of the net cash flows of our existing off-balance sheet positions.

Effective duration A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off- balance sheet positions.

Efficiency Noninterest expense divided by the sum of net interest income (GAAP basis) and noninterest income.

Funds transfer pricing A management accounting methodology designed to recognize the net interest income effects of sources and uses of funds provided by the assets and liabilities of a business segment. We assign these balances LIBOR-based funding rates at origination that represent the interest cost for us to raise/invest funds with similar maturity and repricing structures.

Futures and forward contracts Contracts in which the buyer agrees to purchase and the seller agrees to deliver a specific financial instrument at a predetermined price or yield. May be settled either in cash or by delivery of the underlying financial instrument.

GAAP Accounting principles generally accepted in the United States of America.

Leverage ratio Tier 1 risk-based capital divided by adjusted average total assets.

Net interest income from loans and deposits A management accounting assessment, using funds transfer pricing methodology, of the net interest contribution from loans and deposits.

Net interest margin Annualized taxable-equivalent net interest income divided by average earning assets.

Nondiscretionary assets under administration Assets we hold for our customers/clients in a non-discretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Noninterest income to total revenue Noninterest income divided by the sum of net interest income (GAAP basis) and noninterest income.

Nonperforming assets Nonperforming assets include nonaccrual loans, troubled debt restructured loans, foreclosed assets and other assets. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans Nonperforming loans include loans to commercial, commercial real estate, equipment lease financing, consumer, and residential mortgage customers as well as troubled debt restructured loans. Nonperforming loans do not include loans held for sale or foreclosed and other assets. We do not accrue interest income on loans classified as nonperforming.

Notional amount A number of currency units, shares, or other units specified in a derivatives contract.

Operating leverage The period to period percentage change in total revenue (GAAP basis) less the percentage change in noninterest expense. A positive percentage indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative percentage implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

Recovery Cash proceeds received on a loan that we had previously charged off. We credit the amount received to the allowance for loan and lease losses.

Return on average capital Annualized net income divided by average capital.

Return on average assets Annualized net income divided by average assets.

Return on average common equity Annualized net income divided by average common shareholders' equity.

Risk-weighted assets Primarily computed by the assignment of specific risk-weights (as defined by The Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

Securitization The process of legally transforming financial assets into securities.

Tangible common equity ratio Period-end common shareholders' equity less goodwill and other intangible assets (net of eligible deferred taxes), and excluding mortgage servicing rights, divided by period-end assets less goodwill and other intangible assets (net of eligible deferred taxes), and excluding mortgage servicing rights.

Taxable-equivalent interest The interest income earned on certain assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all interest-earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement.

Tier 1 risk-based capital Tier 1 risk-based capital equals: total shareholders' equity, plus trust preferred capital securities, plus certain minority interests that are held by others; less goodwill and certain other intangible assets (net of eligible deferred taxes), less equity investments in nonfinancial companies and less net unrealized holding losses on available-for-sale equity securities. Net unrealized holding gains on available-for-sale equity securities, net unrealized holding gains (losses) on available-for-sale debt securities and net unrealized holding gains (losses) on cash flow hedge derivatives are excluded from total shareholders' equity for tier 1 risk-based capital purposes.

Tier 1 risk-based capital ratio Tier 1 risk-based capital divided by period-end risk-weighted assets.

Total fund assets serviced Total domestic and offshore fund investment assets for which we provide related processing services. We do not include these assets on our Consolidated Balance Sheet.

Total return swap A non-traditional swap where one party agrees to pay the other the total return of a defined underlying asset (*e.g.*, a loan), usually in return for receiving a stream of LIBOR-based cash flows. The total returns of the asset, including interest and any default shortfall, are passed through to the counterparty. The counterparty is therefore assuming the credit and economic risk of the underlying asset.

Total risk-based capital Tier 1 risk-based capital plus qualifying subordinated debt and trust preferred securities, other minority interest not qualified as tier 1, and the allowance for loan and lease losses, subject to certain limitations.

Total risk-based capital ratio Total risk-based capital divided by period-end risk-weighted assets.

Transaction deposits The sum of money market and interest-bearing demand deposits and demand and other noninterest-bearing deposits.

Yield curve A graph showing the relationship between the yields on financial instruments or market indices of the same credit quality with different maturities. For example, a normal or positive yield curve exists when long-term bonds have higher yields than short-term bonds. A flat yield curve exists when yields are the same for short-term and long-term bonds. A steep yield curve exists when yields on long-term bonds are significantly higher than on short-term bonds. An inverted or negative yield curve exists when short-term bonds have higher yields than long-term bonds.

Business Segment Descriptions

Retail Banking provides deposit, lending, brokerage, trust, investment management, and cash management services to approximately 2.9 million consumer and small business customers within our primary geographic markets. Our customers are serviced through 1,072 offices in our branch network, the call center located in Pittsburgh, and the Internet www.pncbank.com. The branch network is located primarily in Pennsylvania, New Jersey, Washington, D.C., Maryland, Virginia, Ohio, Kentucky and Delaware. Brokerage services are provided through PNC Investments, LLC, and J.J.B. Hilliard, W.L. Lyons, Inc. Retail Banking also serves as investment manager and trustee for employee benefit plans and charitable and endowment assets and provides nondiscretionary defined contribution plan services and investment options through its *Vested Interest*[®] product. These services are provided to individuals and corporations primarily within our primary geographic markets.

Corporate & Institutional Banking provides lending, treasury management, and capital markets-related products and services to mid-sized corporations, government entities, and selectively to large corporations. Lending products include secured and unsecured loans, letters of credit and equipment leases. Treasury management services include cash and investment management, receivables management, disbursement services, funds transfer services, information reporting, and global trade services. Capital markets-related products and services include foreign exchange, derivatives, loan syndications, mergers and acquisitions advisory and related services to middle-market companies, securities underwriting, and securities sales and trading. Corporate & Institutional Banking also provides commercial loan servicing, real estate advisory and technology solutions for the commercial real estate finance industry. Corporate & Institutional Banking provides products and services generally within our primary geographic markets, with certain products and services provided nationally.

BlackRock is one of the world's largest publicly traded investment management firms. The firm manages assets on behalf of institutions and individuals worldwide through a variety of equity, fixed income, cash management and alternative investment products. In addition, BlackRock provides BlackRock Solutions[®] investment system, risk management, and financial advisory services to a growing number of institutional investors. The firm has a major presence in key global markets, including the United States, Europe, Asia, Australia and the Middle East. At September 30, 2007, PNC's ownership interest in BlackRock was 33.7%.

PFPC is a leading full service provider of processing, technology and business solutions for the global investment industry. Securities services include custody, securities lending, and accounting and administration for funds registered under the 1940 Act and alternative investments. Investor services include transfer agency, managed accounts, subaccounting, and distribution. PFPC serviced \$2.5 trillion in total assets and 70 million shareholder accounts as of September 30, 2007 both domestically and internationally through its Ireland and Luxembourg operations.

- (a) These adjusted condensed consolidated income statement reconciliations are provided for informational purposes only and reflect historical condensed consolidated financial information of PNC (1) with amounts adjusted for the impact of certain specified items and (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented, in each case, as appropriate, adjusted for the tax impact. These reconciliations are from the reported GAAP amounts shown on page 2 of the Financial Supplement to the corresponding adjusted amounts shown on page 3 of the Financial Supplement. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of the deconsolidation on various components of our income statement. We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations, as a result of the following attributes. Integration costs can vary significantly from period to period depending on whether or not we have any such transaction pending or in process and depending on the nature of the transaction. Our BlackRock LTIP shares obligation results from an agreement entered into in 2002 and predominantly reflects the market price of BlackRock stock at specified times. We have provided information adjusted for the impact of the third quarter 2006 gain on the BlackRock/MLIM transaction due to the magnitude of that transaction, and have provided information adjusted for the impact of the third quarter 2006 securities portfolio rebalancing and mortgage loan portfolio repositioning losses due to the nature of those transactions. Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results. Our 2006 Form 10-K includes additional information regarding our accounting for the BlackRock/MLIM transaction and the BlackRock LTIP shares obligation. Our first and second quarter 2007 Form 10-Qs provide additional information regarding integration costs. The absence of other adjustments is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown.
- (b) Includes the impact of the following items on a pretax basis: \$72 million of acquisition and BlackRock/MLIM transaction integration costs and \$1 million net gain related to our BlackRock LTIP shares obligation.
- (c) Includes the impact of the following items, all on a pretax basis: \$2,078 million gain on BlackRock/MLIM transaction, \$196 million securities portfolio rebalancing loss, \$91 million of BlackRock/MLIM transaction integration costs, and \$48 million mortgage loan portfolio repositioning loss.
- (d) BlackRock investment revenue represents PNC's approximately 69% ownership interest in earnings of BlackRock for the nine months ended September 30, 2006, excluding pretax BlackRock/MLIM transaction integration costs totaling \$91 million. The income taxes amount represents additional income taxes recorded by PNC related to BlackRock earnings.

In
this
presentation,
we
will

to
help
illustrate
the
impact
of
the

of
certain
types
of
items.
Adjusted

applicable,
the
following
types
of
adjustments:
(1)
2006

reflect
the
impact
of
the
deconsolidation
of
BlackRock
by
adjusting
as
if
we
had
recorded
our
BlackRock
investment
on
the
equity
method
prior
to
its
deconsolidation;
(2)

adjusting
the
2006
periods
to
exclude
the
impact
of
the
third
quarter
2006
gain
on
the
BlackRock/MLIM
transaction
and
losses
on
the
repositioning
of
PNC's
securities
and
mortgage
loan
portfolios;
(3)
adjusting
fourth

and
the
2007
periods
to
exclude
the
net

adjustments
on
PNC's

and,
as
applicable,
the

and
(5)
adjusting,
as
appropriate,
for
the
tax

of
these
adjustments.
We
have
provided
these
adjusted
amounts
and
reconciliations
so
that
investors,

will
be
better

We
believe
that
information

be
useful
due
to
the
extent
to
which

these

activities
on
those
operations.
While
we
have

the
periods
discussed,
this
is
not
intended
to
imply
that
there
could
not
have

economic
conditions,
both
generally
and
specifically
in
the
principal
markets
in
which
we
operate.

In
particular,
our
businesses
and
financial
results
may
be
impacted
by

Changes in interest rates and valuations in the debt, equity and
other financial markets.

Disruptions
in
the
liquidity
and
other
functioning
of

financial
markets,
including
such
disruptions
in
the
markets
for
real
estate
and
other
assets
commonly securing financial products.

Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.

Changes
in
our
customers ,
suppliers
and
other
counterparties
performance
in
general
and
their
creditworthiness
in
particular.

Changes
in
customer
preferences
and
behavior,
whether
as
a
result
of
changing
business
and
economic
conditions
or
other

factors.

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly by affecting our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares

of
BlackRock
common
stock
to
help
fund
BlackRock
long-term
incentive
plan
(LTIP)
programs,
as
our
LTIP
liability
is
adjusted
quarterly
(marked-to-market)
based
on
changes
in
BlackRock s
common
stock
price
and
the
number
of
remaining
committed
shares,
and
we
recognize
gain
or
loss
on
such
shares
at
such
times
as
shares

are
transferred
for
payouts
under
the
LTIP
programs.

Competition
can
have
an
impact
on
customer
acquisition,
growth
and
retention,
as
well
as
on
our
credit
spreads
and
product
pricing,
which
can
affect
market
share, deposits and revenues.

Our
ability
to
implement
our
business
initiatives

and
strategies
could
affect
our
financial
performance
over
the
next
several
years.

Legal
and
regulatory
developments
could
have
an
impact
on
our
ability
to
operate
our
businesses
or
our
financial
condition
or
results
of
operations
or
our
competitive
position
or
reputation.
Reputational
impacts,
in
turn,
could
affect
matters
such
as

business
generation
and
retention,
our
ability
to
attract
and
retain
management,
liquidity
and
funding.

These
legal
and
regulatory
developments
could
include:

(a)
the
unfavorable
resolution
of
legal
proceedings
or
regulatory
and
other
governmental
inquiries;

(b)
increased
litigation
risk
from
recent
regulatory
and
other
governmental
developments;

(c)
the
results
of
the

regulatory
examination
process,
our
failure
to
satisfy
the
requirements
of
agreements
with
governmental
agencies,
and
regulators
future
use
of
supervisory
and
enforcement
tools;
(d)
legislative
and
regulatory
reforms,
including
changes
to
laws
and
regulations
involving
tax,
pension,
education
lending,
and
the
protection
of
confidential
customer
information;
and
(e)
changes
in

accounting
policies
and
principles.

Our
business
and
operating
results
are
affected
by
our
ability
to
identify
and
effectively
manage
risks
inherent
in
our
businesses,
including,
where
appropriate,
through
the
effective
use
of
third-party
insurance
and
capital
management
techniques.

Our
ability
to
anticipate
and
respond
to
technological
changes
can
have
an

impact
on
our
ability
to
respond
to
customer
needs
and
to
meet
competitive
demands.

The
adequacy
of
our
intellectual
property
protection,
and
the
extent
of
any
costs
associated
with
obtaining
rights
in
intellectual
property
claimed
by
others,
can
impact
our
business
and
operating
results.

Our
business
and
operating
results
can

also
be
affected
by
widespread
natural
disasters,
terrorist
activities
or
international
hostilities,
either
as
a
result
of
the
impact
on
the
economy
and
financial

markets
generally
or
on
us
or
on
our

We
grow
our
business
from
time
to
time
by
acquiring
other
financial
services
companies,
including
our
pending
Sterling
Financial
Corporation
(Sterling)
and
Yardville
National
Bancorp
(Yardville)
acquisitions.
Acquisitions
in
general
present
us
with
risks
other
than
those
presented
by
the
nature
of
the
business
acquired.
In
particular,
acquisitions

may
be
substantially
more
expensive
to
complete
(including
as
a
result
of
costs
incurred
in
connection
with
the
integration
of
the
acquired
company)
and
the
anticipated
benefits
(including
anticipated
cost
savings
and
strategic
gains)
may
be
significantly
harder
or
take
longer
to
achieve
than
expected.
In
some
cases,
acquisitions
involve

our
entry
into
new
businesses
or
new
geographic
or
other
markets,
and
these
situations
also
present
risks
resulting
from
our
inexperience
in
these
new
areas.
As
a
regulated
financial
institution,
our
pursuit
of
attractive
acquisition
opportunities
could
be
negatively
impacted
due
to
regulatory
delays
or
other
regulatory
issues.
Regulatory
and/or

legal
issues
related
to
the
pre-acquisition
operations
of
an
acquired
business
may
cause
reputational
harm
to
PNC
following
the
acquisition
and
integration
of
the
acquired
business
into
ours
and
may
result
in
additional
future
costs
arising
as a result of those issues.
