STERLING FINANCIAL CORP /PA/
Form 425
January 29, 2008

Filed by The PNC Financial Services Group, Inc.

Pursuant to Rule 425 under the Securities Act of 1933 and

deemed filed pursuant to Rule 14a-12 of the Securities Exchange Act of 1934

Subject Company: Sterling Financial Corporation

Commission File No. 000-16276

On January 29, 2008, Richard J. Johnson, Chief Financial Officer of The PNC Financial Services Group, Inc. (the Corporation), gave a presentation to investors at the 2008 Citigroup Financial Services Conference in New York, New York. This presentation was accompanied by a series of electronic slides that included information pertaining to the financial results and business strategies of the Corporation. A copy of these slides and related material were posted on PNC s website on Tuesday, January 29, 2008 and are set forth below:

The PNC Financial Services Group, Inc.
Citigroup
Financial Services Conference 2008
New York
January 29, 2008

This
presentation
contains
forward-looking
statements
regarding
our

outlook
or
expectations
relating
to
PNC s
future
business,
operations,
financial
condition,
financial
performance
and
asset
quality.
Forward-looking
statements
are
necessarily
subject
to
numerous
assumptions,
risks
and
uncertainties,
which
change
over
time.
The
forward-looking
statements
in
this
presentation
are
qualified
by
the
factors
affecting
forward-looking
statements
identified
in
the
more
detailed

Cautionary Statement included in the Appendix, which is included in the version of the presentation materials posted on our corporate website at www.pnc.com/investorevents. We provide greater detail regarding these factors in our 2006 Form 10-K, including in the Risk Factors and Risk Management sections, and in our third quarter 2007

Form 10-Q and other SEC reports (accessible on the SEC s website at www.sec.gov and on or through our corporate website at www.pnc.com/secfilings). Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation speak only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements. In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following types of adjustments: (1) 2006 and earlier periods reflect the impact of the deconsolidation of BlackRock by adjusting as if we had recorded our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting 2006 periods, as applicable, to exclude the impact of the third quarter 2006 gain on the BlackRock/MLIM transaction and losses on the repositioning of PNC s securities and mortgage loan portfolios; (3) adjusting fourth quarter 2006 and the 2007 periods to exclude the net mark-to-market adjustments on PNC s remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with the company s transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting all 2007 and 2006 periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; (5) adjusting 2007 periods, as applicable, for the fourth quarter 2007 Visa litigation charge; and (6) adjusting, as appropriate, for the tax impact of these adjustments. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement and balance sheet. We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments for the periods discussed, this is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we may also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets. This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified therein or in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at www.pnc.com under About PNC Investor Relations.

Cautionary Statement Regarding
Forward-Looking Information
Appendix
We
make
statements
in

this
presentation,
and
we
may
from
time
to
time
make
other
statements,
regarding
our
outlook
or
expectations
for
earnings,
revenues,
expenses
and/or
other
matters
regarding
or
affecting
PNC
that
are
forward-looking
statements
within
the
meaning
of
the
Private
Securities
Litigation
Reform
Act.
Forward-looking
statements
are
typically
identified
by
words
such

as believe, expect, anticipate, intend, outlook, estimate, forecast, will, project and other similar words and expressions. Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made. We do not assume any duty and do not undertake to update our forward-looking statements. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those that we anticipated in our forward-looking statements, and future results could differ materially from our historical performance. Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding some of these factors in our Form 10-K for the year ended December 31, 2006, including in the Risk Factors and Risk Management sections of that report, and in our third quarter 2007 Form 10-Q and other SEC reports. Our forward-looking statements may also be subject to other risks and uncertainties, including those that we may discuss elsewhere in this presentation or in our filings with the SEC, accessible on the SEC s website at www.sec.gov and on or through our corporate website at www.pnc.com/secfilings. Our businesses and financial results are affected by business and economic conditions, both generally and specifically in the principal markets in which we operate. In particular, our businesses and financial results may be impacted by:

Changes in interest rates and valuations in the debt, equity and other financial markets.

Disruptions in the liquidity and other functioning

of financial markets, including such disruptions in the markets for real estate and other assets commonly securing financial products.
 Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.
 Changes in our customers , suppliers and other counterparties performance in general and

their creditworthiness in particular.

Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors.

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly by affecting our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock long-term incentive plan (LTIP) programs, as our LTIP liability is adjusted quarterly (marked-to-market) based on changes in BlackRock s common stock price and the number of remaining committed shares, and we recognize gain or loss on such shares at such times as shares are transferred for payouts under the LTIP programs.

Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, which can affect market share, deposits and revenues.

Our ability to implement our business initiatives and strategies could affect our financial performance over the next several years.

Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or results of operations or our competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention, our ability to attract and retain management, liquidity, and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of legal proceedings or regulatory and other governmental inquiries; (b) increased litigation risk from recent regulatory and other governmental developments; (c) the results of the regulatory examination process, our failure to satisfy the requirements of agreements with governmental agencies, and regulators future use of supervisory and enforcement tools; (d) legislative and regulatory reforms, including changes to laws and regulations involving tax, pension, education lending, and the protection of confidential customer information; and (e) changes in accounting policies and principles.

Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through the effective use of third-party insurance, derivatives, and capital management techniques.

Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs and to meet competitive demands.

The adequacy of our

intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual property claimed by others, can impact our business and operating results.

Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities, either as a result of the impact on the economy and capital and other financial markets generally or on us or on our customers, suppliers or other counterparties specifically. Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance relating to our equity interest in BlackRock, Inc. are discussed in

We
grow
our
business
from
time
to
time
by
acquiring
other
financial
services
companies,
including
our

pending Sterling Financial Corporation (Sterling) acquisition. Acquisitions in general present us with risks in addition to those presented by the nature of the business acquired. In particular, acquisitions may be substantially more expensive to complete (including as a result of costs incurred in connection with the integration of the acquired company) and the anticipated benefits (including anticipated cost savings and strategic gains) may be significantly harder or take longer to achieve than expected. In some cases, acquisitions involve our entry into new businesses or new geographic or other markets, and these situations also present risks resulting from our inexperience in these new areas. As a regulated financial institution, our pursuit of attractive acquisition opportunities could be negatively impacted due to regulatory delays or other regulatory issues. Regulatory and/or legal issues related to the pre-acquisition operations of an acquired business may cause reputational harm to PNC following the acquisition and integration

of
the
acquired
business
into
ours
and
may
result
in
additional
future
costs
arising

acquires credit and debit card transactions through Visa U.S.A. Inc. card association or its affiliates (Visa). In October 2007, Visa completed a restructuring and issued shares of Visa Inc. common stock to its financial institution members in contemplation of its initial public offering (IPO) currently anticipated in the first quarter of 2008 (the Visa Reorganization). As part of the Visa Reorganization, we received our proportionate share of a class of Visa Inc. common stock allocated to the U.S. members. Visa expects that a portion of these shares will be redeemed for cash out of the proceeds of the IPO. The

U.S. members are obligated to indemnify Visa for judgments and settlements related to specified litigation. Visa will set aside a portion of the proceeds from the IPO in an escrow account
for the benefit of the U.S. member financial institutions to fund the expenses of the litigation as well as the members' proportio

December 31, 2007
September 30, 2007
December 31, 2006
December 31, 2007

(a) Includes the impact of the gain recognized in connection with PNC's transfer of

BlackRock shares to satisfy a portion of our BlackRock LTIP shares obligation and the net mark-to-market adjustment on our remaining BlackRock LTIP shares obligation, as applicable.

In accordance with GAAP, we recorded a liability and operating expense totaling $82 million before taxes in the fourth quarter of 2007 representing our estimate of the fair value of our indemnification obligation for potential losses arising from this litigation. Our estimate is based on publicly available information and other information made available to all of the affected Visa members and does not reflect any direct knowledge of the relative strengths and weaknesses of the litigation still pending or the status of any on-going settlement discussions. We believe that the IPO will be completed and cash will be available through the escrow to satisfy litigation settlements. In addition, based on estimates provided by Visa regarding its planned IPO, we believe that our ownership interest in Visa has a value significantly in excess of our indemnification liability. Our Visa shares will not generally be transferable until they can be converted into shares of the publicly traded class of stock, which cannot happen until the later of three years after the IPO or settlement of all of the specified litigation.

(c) In addition to integration costs related to recent or pending PNC acquisitions reflected in the 2007 periods, the first three quarters of 2007 and all 2006 periods include BlackRock/MLIM integration costs. BlackRock/MLIM integration costs recognized by PNC in the first three quarters of 2007 and the fourth quarter of 2006 were included in noninterest income as

a
