Dear Shareholder (s)

You will have seen a great deal of press coverage recently of the proposal we made in early November to the Board of Rio Tinto to combine BHP Billiton and Rio Tinto. Extensive consultations with the shareholders and stakeholders of both Rio Tinto and BHP Billiton since that time have indicated a clear understanding of the logic of the combination.

On 6 February 2008 we formalised that proposal by making an offer to Rio Tinto shareholders to combine with BHP Billiton by offering 3.4 BHP Billiton shares for each Rio Tinto share.

Bringing these two great companies together will provide a unique opportunity to unlock value for both BHP Billiton and Rio Tinto shareholders. The two companies each have:

- outstanding portfolios of large-scale, low-cost, long-life assets that are highly complementary
- common strategies
- a similar asset mix and quality
- a shared commitment to health, safety and the environment; and
- a similar heritage, culture and values.

The combination would be without comparison in the natural resources industry and would position the combined company to meet the demands of customers, including in both China and India.

In reaching the decision to make an offer for Rio Tinto, your Board was focussed on the creation of value for BHP Billiton shareholders and I am pleased to say that your Board is convinced that BHP Billiton will derive enhanced earnings from:

- a strengthened asset portfolio
- superior future growth options
- greater exposure to quality assets in the resources sector; and
- a pro rata share in the unique and significant value unlocked by the combination.

Edgar Filing: RIO TINTO PLC - Form 425

The offers we have made are subject to pre-conditions relating to merger control and necessary regulatory approvals in a number of jurisdictions and this process will take some time. We will work closely and constructively with all key regulators to assist with their review.

Your Board is satisfied that the offer we have made is both compelling and responsible and, very importantly, is value enhancing for you. We have been patient and disciplined to date and will continue to be so.
