**Forward-Looking and Cautionary Statements**

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Among other things, these statements relate to our financial condition, results of operations and future business plans, operations, opportunities and prospects. In addition, we and our representatives may from time to time make written or oral forward-looking statements, including statements contained in other filings with the Securities and Exchange Commission and in our reports to stockholders. These forward-looking statements are generally identified by the words or phrases may, could, should, expect, anticipate, plan, believe, seek, estimate, predict, project or words of similar import. These forward-looking statements are based upon our current knowledge, assumptions about future events and involve risks and uncertainties that could cause our actual results, performance or achievements to be materially different from any anticipated results, prospects, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements are not guarantees of future performance. Many factors are beyond our ability to control or predict. You are accordingly cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date that we make them. We do not undertake to update any forward-looking statement that may be made from time to time by or on our behalf.

In our most recent Form 10-K, we have included risk factors and uncertainties that might cause differences between anticipated and actual future results. We have attempted to identify, in context, some of the factors that we currently believe may cause actual future experience and results to differ from our current expectations regarding the relevant matter or subject area. The operations and results of our software and systems integration businesses also may be subject to the effects of other risks and uncertainties, including, but not limited to:

a reduction in anticipated sales;

an inability to perform customer contracts at anticipated cost levels;

our ability to otherwise meet the operating goals established by our business plan;

market acceptance of our new software, technology and services offerings;

an economic downturn; and

changes in the competitive market place and/or customer requirements.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

EBITDA  
Non-GAAP Financial Measure: Explanation and Reconciliation of EBITDA  
EBITDA  
is  
a  
non-GAAP  
financial  
measure  
used  
by

management,  
lenders  
and  
certain  
investors  
as  
a  
supplemental  
measure  
in  
the  
evaluation  
of  
some  
aspects  
of  
a  
corporation's  
financial  
position  
and  
core  
operating  
performance.  
Investors  
sometimes  
use  
EBITDA  
as  
it  
allows  
for  
some  
level  
of  
comparability  
of  
profitability  
trends  
between  
those  
businesses  
differing  
as  
to  
capital  
structure  
and  
capital  
intensity

by removing the impacts of depreciation and amortization. EBITDA does not include changes in major working capital items such as receivables, inventory and payables, which can also indicate a significant need for, or source of, cash. Since decisions regarding capital investment and financing and changes in working capital components can

have  
a  
significant  
impact  
on  
cash  
flow,  
EBITDA  
is  
not  
a  
good  
indicator  
of  
a  
business's  
cash  
flows.  
We  
use  
EBITDA  
for  
evaluating  
the  
relative  
underlying  
performance  
of  
the  
Company's  
core  
operations  
and  
for  
planning  
purposes,  
including  
a  
review  
of  
this  
indicator  
and  
discussion  
of  
potential  
targets  
in  
the  
preparation

of  
annual  
operating  
budgets.  
We  
calculate  
EBITDA  
by  
adjusting  
net  
income  
or  
loss  
to  
exclude  
net  
interest  
expense,  
income  
tax  
expense  
or  
benefit  
and  
depreciation  
and  
amortization,  
thus  
the  
term  
"Earnings  
Before  
Interest,  
Taxes,  
Depreciation  
and  
Amortization"  
and  
the  
acronym  
"EBITDA."  
EBITDA  
is  
presented  
as  
additional  
information  
because  
management  
believes

it  
to  
be  
a  
useful  
supplemental  
analytic  
measure  
of  
financial  
performance  
of  
our  
core  
business,  
and  
as  
it  
is  
frequently  
requested  
by  
sophisticated  
investors.  
However,  
management  
recognizes  
it  
is  
no  
substitute  
for  
GAAP  
measures  
and  
should  
not  
be  
relied  
upon  
as  
an  
indicator  
of  
financial  
performance  
separate  
from  
GAAP  
measures

(as discussed further below). When evaluating EBITDA, investors should consider, among other things, increasing and decreasing trends in the measure and how it compares to levels of debt and interest expense, ongoing investing activities, other financing activities and changes in working capital needs. Moreover, this measure should not be construed

as  
an  
alternative  
to  
net  
income  
(as  
an  
indicator  
of  
operating  
performance)  
or  
cash  
flows  
(as  
a  
measure  
of  
liquidity)  
as  
determined  
in  
accordance  
with  
GAAP.  
While  
some  
investors  
use  
EBITDA  
to  
compare  
between  
companies  
with  
different  
investment  
and  
capital  
structures,  
all  
companies  
do  
not  
calculate  
EBITDA  
in  
the  
same

manner.  
Accordingly,  
the  
EBITDA  
presented  
below  
may  
not  
be  
comparable  
to  
similarly  
titled  
measures  
of  
other  
companies.  
A  
reconciliation  
of  
net  
income  
reported  
under  
GAAP  
to  
EBITDA
