1. Description of Business and Basis of Presentation:

References in this Quarterly Report on 10-Q to we, our, Mastech or the Company refer collectively to Mastech Holdings, Inc. and its wholly-owned operating subsidiaries, which are included in these Condensed Consolidated Financial Statements.

Description of Business

We are a provider of IT and brokerage operations staffing services to large and medium-sized organizations. Our IT staffing business delivers a broad range of services within Business Intelligence / Data Warehousing; Web Services; Enterprise Resource Planning & Customer Resource Management; and eBusiness Solutions segments. We provide our services across various industry verticals including: Automotive; Banking; Consumer Products; Education; Finance; Government; Healthcare; Insurance; Manufacturing; Pharmaceutical; Retail; Technology; Telecommunications; Transportation; and Utilities. Our brokerage operations staffing business provides services related to securities operations, such as trade reconciliation, general ledger balancing, and operations procedures and documentation.

Basis of Presentation

The accompanying Unaudited Condensed Consolidated Financial Statements (the Financial Statements) have been prepared by management in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and applicable rules and regulations of the Securities and Exchange Commission (the SEC). Accordingly, they do not include all of the information and disclosures required by U.S. GAAP for complete consolidated financial statements. In the opinion of management, all adjustments, consisting principally of normal recurring adjustments, considered necessary for a fair presentation have been included. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from these estimates. These financial statements should be read in conjunction with the Company's audited consolidated financial statements and accompanying notes for the year ended December 31, 2008, included in our Annual Report on Form 10-K filed with the SEC on March 19, 2009. Additionally, our operating results for the six months ended June 30, 2009 are not necessarily indicative of the results that can be expected for the year ending December 31, 2009 or for any other period.

Prior to our separation from iGATE Corporation (iGATE), our financial statements were prepared on a carve-out basis from iGATE's Consolidated Financial Statements using the historical results of operations, assets and liabilities attributable to iGATE's Professional Services business, including allocations of operating and income tax expenses from iGATE. Accordingly, historical financial statements, prior to September 30, 2008, represent the combined financial results of Mastech, Inc., Global Financial Services of Nevada, Inc., RPOworldwide, Inc., and Mastech Trademark Systems, Inc. All intercompany transactions and balances between entities included in our financial statements have been eliminated. Accordingly, the financial statements presented for the June 30, 2008 periods herein, may not reflect what our results of operations, financial position and cash flows would have been had the Company operated as an independent company.

Prior to our separation, iGATE historically provided certain corporate functions to the Company and costs associated with these functions have been allocated to the Company as disclosed herein in the notes to the Unaudited Condensed Consolidated Financial Statements. These functions included communications, insurance, benefit management, corporate finance and treasury, information technology, and regulatory compliance. The costs of such services allocated to the Company, based on methodologies deemed to be reasonable by management, may not be indicative of the actual expense that would have been incurred had the Company been operating as an independent company for the periods presented. The charges for such functions are included in selling, general and administrative expenses in the Condensed Consolidated Statements of Operations, herein. Additionally, prior to separation, the Company's operating results have been included in iGATE's consolidated U.S. tax return. Historically we have derived certain tax benefits as a result of being included in this consolidated tax return. As disclosed in the accompanying notes, as an independent company, we would not have access to such benefits and accordingly, our income tax expense would increase from the amounts reported in the Condensed Consolidated Statements of Operations, herein.

Overview:

We are a provider of IT and brokerage operations staffing services to large and medium-sized organizations. From July 1986 through September 2008, we conducted our business as subsidiaries of iGATE. We do not sell, lease or otherwise market computer software or hardware, and 100% of our revenue is derived from the sale of staffing services.

Our IT staffing business combines technical expertise with business process experience to deliver a broad range of services within Business Intelligence / Data Warehousing; Web Services; Enterprise Resource Planning & Customer Resource Management; and eBusiness Solutions segments. We provide our services across various industry verticals including: Automotive; Banking; Consumer Products; Education; Finance; Government; Healthcare; Insurance; Manufacturing; Pharmaceutical; Retail; Technology; Telecommunications; Transportation; and Utilities.

The Company operates as a single reportable segment in accordance with FAS-131. Accordingly, no segment related disclosures are presented. However, the Company tracks and evaluates its revenues and gross profits by four distinct sales channels: Wholesale IT; Retail IT; brokerage operations and Permanent Placements / Fees. Our wholesale IT channel consists of system integrators and other IT staffing firms with a need to supplement their abilities to attract highly-qualified temporary technical computer personnel. Our retail IT channel focuses on clients that are end-users of IT staffing services. Within the retail channel are end-user clients that have retained a third party to provide vendor management services, commonly known in the industry as Managed Service Providers. Our brokerage operations staffing business provides services related to securities operations, such as trade reconciliation, general ledger balancing and operations procedures and documentation. Permanent placement/fees essentially relate to revenues generated on direct hire assignments.

Recent Developments:

On April 28, 2009, the Company's Board of Directors received and accepted Steven J. Shangold's resignation as President and Chief Executive Officer and Director, effective April 28, 2009. Sunil Wadhvani served as the Company's Interim President and Chief Executive Officer while the Board of Directors searched for a permanent replacement. Effective July 20, 2009, Thomas B. Moran was appointed President and Chief Executive Officer and Director by the Company's Board of Directors.

Critical Accounting Policies:

Our critical accounting policies are described in Note 2 – Summary of Significant Accounting Policies of the notes to our audited Consolidated Financial Statements, included in our 2008 Annual Report on Form 10-K.

Economic Trends and Outlook:

Generally, our business outlook is highly correlated with general U.S. economic conditions. During periods of increasing employment and economic expansion, demand for our services tends to increase. During periods of contracting employment and slowing economic growth, demand for our services tends to decrease. As the economy has slowed during the last half of 2007, throughout 2008, and into 2009, we have seen less demand for our staffing services. We have also seen accelerating pricing pressures with respect to resources deployed, which has resulted in lower gross margins. We believe that this trend is likely to continue until economic growth in the U.S. rebounds.

Table of Contents

In addition to tracking general U.S. economic conditions, a large portion of our revenues are generated from a limited number of clients. Accordingly, our trends and outlook are impacted by the prospects and well-being of these specific clients. This account concentration factor may result in our results of operations deviating from the prevailing U.S. economic trends from time to time.

In recent years, a larger portion of our revenues have come from our wholesale IT sales channel which consists largely of strategic relationships with systems integrators and other staffing organizations. This channel tends to carry lower gross margins, but provides higher volume opportunities. Should this trend in our business mix continue it is likely that our overall gross margins will decline. Within our retail sales channel, many larger users of IT staffing services are employing Managed Service Providers (MSP) to manage their contractor spending in an effort to drive down overall costs. The impact of this shift towards the MSP model has been lower gross margins. Should this trend towards utilizing the MSP model continue, it is likely that our gross margins will be pressured in the future. Our belief, based on industry trends, is that a larger portion of our retail channel will consist of MSP clients going forward.

Results of Operations for the Three Months Ended June 30, 2009 as Compared to the Three Months Ended June 30, 2008:**Revenues:**

Revenues for the three months ended June 30, 2009 totaled \$17.7 million, compared to \$24.4 million for the corresponding three month period in 2008. This 27.7% year-over-year revenue decline reflects sluggish demand for IT staffing services, and the completion of a significant brokerage operations assignment in March, 2009.

Billable headcount at June 30, 2009 totaled 477 consultants compared to 619 consultants one-year earlier. In addition to a lower billable headcount base, pricing pressures on existing assignments continue to negatively impact revenues. During the three-month period ended June 30, 2009, our billable headcount declined by 15 consultants. This quarterly decline in billable headcount was considerably less than the declines experienced in both the corresponding 2008 period (a decline of 49 billable consultants) and the previous three months ended March 31, 2009 (a decline of 58 billable consultants).

Below is a tabular presentation of revenues by sales channel for the three months ended June 30, 2009 and 2008, respectively:

Revenues (Amounts in millions)	Three months ended June 30, 2009	Three months ended June 30, 2008
Wholesale IT Channel	\$ 9.1	\$ 12.1
Retail IT Channel	7.2	9.6
Brokerage Operations	1.3	2.6
Permanent Placements / Fees	0.1	0.1
Total revenues	\$ 17.7	\$ 24.4

Revenues from our wholesale IT channel declined by 24.8% for the three month period ended June 30, 2009 compared to the corresponding 2008 period, led by declines from many of our staffing clients. Retail IT channel revenues were down 25.0% during the three months ended June 30, 2009 compared to the period one year earlier, with significant declines at many of our financial services clients. Additionally, pricing pressures from MSP clients also contributed to the revenue reduction in this channel. Brokerage operations revenues were down approximately 50.0% for the 2009 period compared to a year earlier. This decline reflects the March 2009 completion of a major assignment. Permanent placement / fee revenues were approximately \$100,000 in both three month periods ended June 30, 2009 and 2008.

During the three months ended June 30, 2009, the company had three clients that exceeded 10% of total revenues (16.6%, 12.9% and 11.6%). During the three months ended June 30, 2008, the Company had two clients that exceeded 10% of total revenues (15.0% and 13.2%). For the three month periods ending June 30, 2009 and 2008, our top ten clients represented approximately 64% and 65% of total revenues, respectively.

Gross Margin:

Gross profit as a percentage of revenue declined slightly to 19.3% for the three month period ending June 30, 2009 compared to 19.5% for the three month period a year earlier. This gross margin performance reflects a favorable sales channel mix in the 2009 period compared to 2008, as well as the impact of initiatives to rationalize and adjust resource costs in response to prevailing economic conditions. These initiatives helped to mitigate the impact of client bill rate reductions on gross margins.

Edgar Filing: Mastech Holdings, Inc. - Form 10-Q

Below is a tabular presentation of gross margin by sales channel for the three months ended June 30, 2009 and 2008, respectively:

Table of Contents

	Three months ended June 30, 2009	Three months ended June 30, 2008
Gross Margin		
Wholesale IT Channel	18.1%	18.8%
Retail IT Channel	21.0	21.0
Brokerage Operations	14.1	15.5
Permanent Placements / Fees	100.0	100.0
Total gross margin	19.3%	19.5%

Wholesale IT channel gross margins decreased by 70 basis points for the three months ended June 30, 2009 compared to 2008 due largely to a negative one-time adjustment on a client contract. In our retail IT channel, gross margins were flat during the three months ended June 30, 2009, compared to 2008. Brokerage operations margins were down 140 basis points for the three months ended June 30, 2009 compared to the 2008 period, primarily due to lower pricing on new assignments.

Selling, General and Administrative (SG&A) Expenses:

SG&A expenses for the three months ended June 30, 2009 totaled \$3.0 million, or 16.8% of revenues compared to \$3.4 million or 13.8% of revenues for the three months ended June 30, 2008. Excluding severance expense of \$0.4 million incurred in the 2009 period, SG&A expenses would have approximated 14.8% of revenues. The \$0.4 million decline in SG&A expenses in the 2009 period compared to 2008 was due to the following:

Sales expense decreased by \$0.2 million due to lower management bonuses and marketing expenditures.

Recruiting expense decreased by \$0.4 million. Staff reductions related to lower activity levels and improved recruitment efficiencies were responsible for \$0.3 million of this favorable variance. The balance was largely due to lower bonuses and job board expenditures.

General and administrative expense was \$0.2 million higher in the 2009 period due to severance expenses associated with the Company's leadership change of \$0.4 million. Excluding severance expenses, the year-over-year variance would have been favorable by approximately \$0.2 million due to lower bonus expense and a reduction in support staff.

Other Income / (Expense) Components:

Other Income / (Expense) for the three months ended June 30, 2009 consisted of \$1,000 of interest income generated on excess cash balances; interest expense of \$5,000; and foreign exchange gains of \$1,000. For the three months ended June 30, 2008, Other Income / (Expense) consisted of interest income of \$14,000; a \$17,000 loss on our joint venture; and foreign exchange losses of \$6,000.

Income Tax Expense:

Income tax expense for the three months ended June 30, 2009 totaled \$175,000, representing an effective tax rate on pre-tax income of 40.6%, compared to \$287,000, which represented a 20.7% effective tax rate on pre-tax income for the three months ended June 30, 2008. As disclosed in the accompanying notes to our financial statements herein, prior to our separation, we historically derived certain tax benefits as a result of being included in our former parent's consolidated U.S. tax return. During the three months ended June 30, 2008, these benefits totaled \$242,000. Excluding these benefits, which would not be available to us as a stand-alone company, our effective tax rate would have been 38.2% for the three months ended June 30, 2008.

Results of Operations for the Six Months Ended June 30, 2009 as Compared to the Six Months Ended June 30, 2008:**Revenues:**

Revenues for the six months ended June 30, 2009 totaled \$38.2 million, compared to \$49.4 million for the corresponding six month period in 2008. This 22.6% year-over-year revenue decline reflects sluggish demand for IT staffing services, and the completion of a significant brokerage

Edgar Filing: Mastech Holdings, Inc. - Form 10-Q

operations assignment in March, 2009. During the first half of 2009 our billable headcount declined by 73 consultants compared to a decline of 48 consultants during the first six-months of 2008. Recessionary conditions in 2009 and slowing demand for IT services in 2008 impacted our consultant headcount during both periods. In addition to a lower billable headcount base, pricing pressures on existing assignments continued to adversely impact revenues during the 2009 period.

Below is a tabular presentation of revenues by sales channel for the six months ended June 30, 2009 and 2008, respectively:

Table of Contents

Revenues (Amounts in millions)	Six months ended June 30, 2009	Six months ended June 30, 2008
Wholesale IT Channel	\$ 18.4	\$ 24.2
Retail IT Channel	15.4	19.8
Brokerage Operations	4.3	5.2
Permanent Placements / Fees	0.1	0.2
Total revenues	\$ 38.2	\$ 49.4

Revenues from our wholesale IT channel declined by 24.0% for the six month period ended June 30, 2009 compared to the corresponding 2008 period, led by declines from many of our staffing clients. Retail IT channel revenues were down 22.2% during the six months ended June 30, 2009 compared to the period one year earlier, led by declines at our financial services clients. Additionally, pricing pressures contributed to the revenue declines in this channel. Brokerage operations revenues were down 17.3% for the first six months of 2009 compared to a year earlier. This decline reflects the March 2009 completion of a major assignment. Permanent placement / fee revenues were approximately \$100,000 lower in the 2009 period compared to 2008.

During the six months ended June 30, 2009, the Company had four clients that exceeded 10% of total revenues (16.2%, 11.7%, 11.2% and 10.5%). During the six months ended June 30, 2008, two clients exceeded 10% of total revenues (14.5% and 13.0%). For the first six months of 2009 and 2008, our top ten clients represented approximately 66% and 64% of total revenues, respectively.

Gross Margin:

Gross profit as a percentage of revenue was down to 19.0% for the six month period ending June 30, 2009 compared to 19.6% for the six month period a year earlier. This gross margin performance reflects some improvement in sales channel mix during the 2009 period compared to 2008, and reflects the impact of Company's initiatives to rationalize and adjust resource costs in response to prevailing economic conditions. These initiatives helped to mitigate the impact of client bill rate reductions on gross margins.

Below is a tabular presentation of gross margin by sales channel for the six months ended June 30, 2009 and 2008, respectively:

Gross Margin	Six months ended June 30, 2009	Six months ended June 30, 2008
Wholesale IT Channel	18.3%	18.6%
Retail IT Channel	20.3	21.0
Brokerage Operations	14.3	15.2
Permanent Placements / Fees	100.0	100.0
Total gross margin	19.0%	19.6%

Wholesale IT channel gross margins decreased by 30 basis points for the six months ended June 30, 2009 compared to 2008 due to a negative adjustment on a client contract, partially offset by a favorable client mix between integrator clients and lower-margin staffing clients. In our retail IT channel, gross margins were down by 70 basis points and largely reflects increasing pricing pressures, net of resource costs reductions. Brokerage operations margins were down 90 basis points for the six months ended June 30, 2009 compared to the 2008 period, due to lower pricing on new assignments and higher levels of reimbursable expense revenues during the 2009 period.

Selling, General and Administrative (SG&A) Expenses:

SG&A expenses for the six months ended June 30, 2009 totaled \$6.0 million, or 15.6% of revenues compared to \$7.3 million or 14.7% of revenues for the six months ended June 30, 2008. Excluding severance expenses, which were included in both periods, (\$0.4 million in 2009 and \$0.2 million in 2008), SG&A expenses would have approximated 14.7% and 14.3% of revenues in the 2009 and 2008 periods, respectively. The \$1.3 million decline in SG&A expenses in the first six months of 2009, compared to the first six months of 2008, was due to the following:

Edgar Filing: Mastech Holdings, Inc. - Form 10-Q

Sales expense decreased by \$0.5 million due to lower management bonuses, sales support salary costs and lower marketing expenditures.

Recruiting expense decreased by \$1.0 million. Staff reductions related to lower activity levels and improved recruitment efficiencies were responsible for \$0.6 million of this favorable variance. The balance of this variance was due to lower bonuses, commissions, H1-B processing fees and job board expenditures.

Table of Contents

General and administrative expense was \$0.2 million higher in the 2009 period to due higher severance expenses included in the 2009 period compared to 2008. Additionally, higher bad debt expense of \$0.1 million was essentially offset by lower management bonuses during the first six months of 2009.

Other Income / (Expense) Components:

Other Income / (Expense) for the six months ended June 30, 2009 consisted of \$3,000 of interest income generated on excess cash balances; a \$15,000 loss on a joint venture in which we had a 50% ownership interest; interest expense of \$10,000; and foreign exchange losses of \$8,000. For the six months ended June 30, 2008, Other Income / (Expense) consisted of interest income of \$28,000; a \$27,000 loss on our joint venture; and foreign exchange losses of \$6,000.

Income Tax Expense:

Income tax expense for the six months ended June 30, 2009 totaled \$511,000, representing an effective tax rate on pre-tax income of 40.5%, compared to \$361,000, which represented a 14.8% effective tax rate on pre-tax income for the six months ended June 30, 2008. As disclosed in the accompanying notes to our financial statements herein, prior to our separation, we historically derived certain tax benefits as a result of being included in our former parent's consolidated U.S. tax return. During the six months ended June 30, 2008, these benefits totaled \$574,000. Excluding these benefits, which would not be available to us as a stand-alone company, our effective tax rate would have been 38.4% for the six months ended June 30, 2008.

Liquidity and Capital Resources:

At June 30, 2009, we had \$6.9 million of cash and equivalents, no outstanding debt, and a tangible net worth of \$10.3 million. In addition to our cash balances, we have access to a revolving credit facility with \$10.0 million of maximum availability, under which our borrowing base was \$6.6 million as of June 30, 2009.

Historically, we have funded our business needs with cash generated from operating activities. Controlling our operating working capital levels by closely managing our accounts receivable balance is an important element of cash generation. At June 30, 2009, our accounts receivable days sales outstanding (DSOs) measurement was 42 days compared to 39 days at June 30, 2008. We expect cash provided by operating activities and our cash balances on hand to be adequate to fund our business needs during 2009.

Cash flows provided by operating activities:

Cash provided by operating activities for the six months ended June 30, 2009 totaled \$2.7 million compared to \$3.9 million during the six months ended June 30, 2008. Elements contributing to cash flows during the 2009 period included net income of \$0.8 million, non-cash charges of \$0.5 million, and reductions in operating working capital of approximately \$1.4 million. During the six months ended June 30, 2008, elements of cash flows included net income of \$2.1 million, non-cash charges of \$0.2 million, and reductions in operating working capital of \$1.6 million. The operating working capital reductions were largely driven by declines in trade receivables during both periods.

Cash flows (used in) investing activities:

Cash used in investing activities for the six months ended June 30, 2009 totaled \$106,000 compared to \$93,000 for the six month period a year earlier. Capital expenditures related to maintenance-type items accounted for most of both periods' cash needs. The 2009 period included a \$16,000 cash distribution from a joint venture which was discontinued in early 2009. The 2008 period included a \$25,000 equity investment in the aforementioned joint venture.

Cash flows provided by financing activities:

Prior to our separation from iGATE, our excess cash balances were transferred to our former parent on a regular basis and iGATE would fund our cash needs as required. During the six months ended June 30, 2008, we had net cash transfers from iGATE of \$2.7 million. During the 2009 period, the Company did not engage in any financing activities.

Contractual Obligations and Off-Balance Sheet Arrangements:

We do not have any off-balance sheet arrangements.

Edgar Filing: Mastech Holdings, Inc. - Form 10-Q

The Company rents certain office space and equipment under non-cancelable leases which provides for future minimum rental payments. In January 2009, the Company entered into a 64-month office lease agreement commencing May 1, 2009. The lease provides for approximately 11,000 square feet of office space at the Company's Pittsburgh, PA headquarters and commits the Company to future minimum rental payments of approximately \$1.0 million over term of the lease. This lease commitment is in addition to the company's other obligations under non-cancelable leases, which have not materially changed from the amounts disclosed in the Company's 2008 Annual Report on Form 10-K.

Inflation:

We do not believe that inflation had a significant impact on our results of operations for the periods presented. On an ongoing basis, we attempt to minimize any effects of inflation on our operating results by controlling operating costs and, whenever possible, seeking to insure that billing rates are adjusted periodically to reflect increases in costs due to inflation.

Seasonality:

Our operations are generally not affected by seasonal fluctuations. However, our consultants' billable hours are affected by national holidays and vacation policies. Accordingly, we generally have lower utilization rates and higher benefit costs during the fourth quarter.

Effect of Recent Accounting Pronouncements:

In June, 2009, FASB issued Statement No. 168, *The Hierarchy of Generally Accepted Accounting Principles* which supersedes FASB Statement No. 162 issued in May, 2008. This Statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company does not expect the adoption of this Statement will have a material impact on its consolidated financial statements.

In June, 2009, FASB issued Statement No. 167 to amend certain requirements of FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*. This Statement amends Interpretation 46(R) to replace the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which enterprise has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. This Statement shall be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The Company does not expect the adoption of this Statement will have a material impact on its consolidated financial statements.

In June, 2009, FASB issued Statement No. 166 *Accounting for Transfers of Financial Assets* to amend Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, in order to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement in transferred financial assets. This Statement must be applied as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. This Statement must be applied to transfers occurring on or after the effective date. The Company does not expect the adoption of this Statement will have a material impact on its consolidated financial statements.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Cash and cash equivalents are defined as cash and highly liquid investments with maturities of three months or less when purchased. Cash equivalents are stated at cost, which approximates market value.

Our cash flow and earnings are subject to fluctuations due to exchange rate variation. Foreign currency risk exists by nature of our global recruitment centers. However, exposure to currency risk is not viewed to be material and, accordingly, we do not have any exchange rate hedges in place.
