We wanted to summarize the following items as you consider your vote:

AGENDA

DECLASSIFICATION OF BOARD OF DIRECTORS

Currently each class of directors stands for election every three years

Four to five directors terms expire each year

11 of the 14 directors are independent (external)

Our Proposal:

Terms for nominees elected at this annual meeting will expire in 2013 then be eligible for re-election annually

Nominees with terms expiring in 2011 or 2012 will serve the remainder of their terms then be eligible for re-election annually

Any new director appointed to the Board will stand for re-election annually

SHAREHOLDER PROPOSAL TO END SUPER-MAJORITY VOTES

By-Laws/Certificate now require 80% of outstanding shares to approve a few important governance/structure matters:

Changing number, class, removal, or nomination of directors, and general Board powers

Approving a merger or business combination that is not first approved by Board

If at least 2/3 of Board agrees any such change is advisable, then 80% super-majority shareholder vote is NOT required

Shareholder proposal seeks to eliminate By-Law/Certificate of Incorporation sections currently requiring super-majority 80% shareholder vote

SHAREHOLDER PROPOSAL TO END SUPER-MAJORITY VOTES

We believe higher voting level for key changes to the Company's corporate structure & governance best serves long-term interests of Corning and stockholders

Unlike others, Board has legal fiduciary duties to act in best interests of the Company and stockholders

Super-majority voting safeguards against a stockholder group acting in its self-interest to detriment of other stockholders

Higher voting test encourages potential acquirers to deal directly with the Board

Provides greater leverage to negotiate best possible return for stockholders
