Settlement

The issuer expects that delivery of the notes will be made against payment therefor on or about May 20, 2010, which will be the twelfth business day following the date of pricing of the notes (this settlement cycle being referred to as T+12). Under Rule 15c6-1 of the SEC under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next eight succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+12, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.
