FORM 10-Q

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2010

OR

.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-15251

LABRANCHE & Co INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: LABRANCHE & CO INC - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

13-4064735
(I.R.S. Employer
Identification No.)

33 Whitehall Street, New York, New York 10004
(Address of principal executive offices) (Zip Code)

(212) 425-1144
(Registrant's telephone number, including area code)

Not Applicable
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares of the registrant's common stock outstanding as of August 3, 2010 was 42,029,498.

SUPPLEMENTAL SCHEDULE OF NON CASH INVESTING AND FINANCING ACTIVITIES:

On June 14, 2010, the Company exchanged its CBOE memberships with an adjusted basis of \$0.7 million for 160,000 shares of CBOE, Inc. common stock valued at \$4.7 million. The Company recognized a \$4.0 million gain from the exchange of the assets, which was a non-cash transaction.

- (1) Certain of the Company's June 30, 2009 balances have been adjusted to conform to the presentation in the current period. The accompanying notes are an integral part of these condensed consolidated financial statements.

Table of Contents**LaBRANCHE & CO INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

The condensed consolidated financial statements include the accounts of LaBranche & Co Inc., a Delaware corporation (the Holding Company), and its subsidiaries, LaBranche Structured Holdings, Inc., a Delaware corporation (LSHI), LaBranche & Co. LLC (LaBranche LLC), a New York limited liability company, LaBranche Financial Services, LLC, a New York limited liability company (LFS), LABDR Services, Inc., a Delaware corporation (LABDR), and LaBranche & Co. B.V., a Netherlands private limited liability company (BV). The Holding Company is the sole member of LaBranche LLC and LFS, the 100% stockholder of LSHI and LABDR and the sole owner of BV. LSHI is a holding company that is the sole member of LaBranche Structured Products, LLC, a New York limited liability company (LSP), and LaBranche Structured Products Specialists LLC, a New York limited liability company (LSPS), the 100% owner of LaBranche Structured Products Europe Limited, a United Kingdom single member private company (LSPE), and LaBranche Structured Products Hong Kong Limited, a Hong Kong single member private company (LSPH), and the sole stockholder of LaBranche Structured Products Direct, Inc., a New York corporation (LSPD) and collectively with the Holding Company, LaBranche LLC, LFS, LSHI, LABDR, BV, LSP, LSPS, LSPE, LSPD and LSPH, the Company). All material inter-company transactions have been eliminated in consolidation.

LSP is a registered broker-dealer and Financial Industry Regulatory Authority (FINRA) member firm that operates as a market-maker in options and Exchange Traded Funds (ETFs), engages in hedging activities related to its market-making operations and conducts principal trading activities in options, ETFs, structured notes, foreign currency securities and futures. LFS is a registered broker-dealer, FINRA member and a member of the New York Stock Exchange (NYSE) and other exchanges and primarily provides securities execution and brokerage services to institutional investors and professional traders, and is a market maker in over-the-counter, bulletin board and pink sheet securities. LSPS is a non-registered proprietary trading company that currently is inactive. It is anticipated that the Company will move some of its non-broker-dealer proprietary trading operations into LSPS, in the third quarter of 2010. LaBranche LLC is a registered broker-dealer that, until January 22, 2010, operated primarily as a Designated Market Maker (DMM) in equity securities and rights listed on the NYSE. On January 22, 2010, the Company sold its DMM business to Barclays Capital, Inc., a division of Barclays Bank Plc (Barclays). LSPE operates as a market-maker for ETFs traded on the London Stock Exchange and the Euroex and Euronext exchanges, and is registered as a broker-dealer with the United Kingdom's Financial Services Authority. LSPH is registered as a market-maker for ETFs in Hong Kong and is registered as a broker-dealer with Hong Kong's Securities and Futures Commission. LSPD is a registered broker-dealer and FINRA member firm that is primarily an institutional execution firm in equities and structured products. LABDR is an investment company with a minority ownership in a New Jersey aviation partnership. BV ceased operations on June 30, 2007 and is currently inactive.

On April 16, 2010, LSP and LFS submitted an application to FINRA to merge into one combined entity. The overall business to be conducted by the combined entity is not expected to be materially different than their operations as separate entities and as approved in the FINRA memberships to which each of LSP and LFS currently is a party. The Company will complete the merger as soon as reasonably practicable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of Presentation Sale of the DMM Business of LaBranche LLC***

On January 22, 2010, LaBranche LLC completed the sale of its DMM pursuant to an agreement dated January 13, 2010 and as amended January 22, 2010 by and among LaBranche LLC and Barclays.

Table of Contents

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 205-20, Discontinued Operations , the assets and liabilities of the DMM business of LaBranche LLC have been reclassified as held for sale in the consolidated statements of financial condition and its results have been reclassified as discontinued operations in the consolidated statements of operations and the consolidated statements of cash flows.

Cash and Cash Equivalents

Cash and cash equivalents include all demand deposits held in banks, highly liquid investments with original maturities of 90 days or less and currency positions that are being held in the prime brokerage account at the Company s clearing broker for its market-making operations. Certain portions of these balances are used to meet regulatory requirements (see Note 5).

Use of Estimates

Generally Accepted Accounting Principles (GAAP) requires management to make certain estimates and assumptions. In addition to the estimates we make in connection with fair value measurements, the use of estimates and assumptions is also important in determining provisions for potential losses that may arise from litigation and regulatory proceedings and tax audits. Actual results could differ from these estimates.

A substantial portion of the Company s compensation and benefits represents contractual incentive compensation and discretionary bonuses, which are determined at year end. The Company believes the most appropriate way to allocate estimated annual discretionary bonuses among interim periods is in proportion to the net revenues earned in such periods. In addition to the level of net revenues, overall compensation expense in any given year is also influenced by, among other factors, prevailing labor markets, business mix and the structure of the Company s share-based compensation programs.

Foreign Currency Translation

Assets and liabilities denominated in non-U.S. currencies are translated at rates of exchange prevailing on the date of the condensed consolidated statements of financial condition, and revenues and expenses are translated at average rates of exchange for the respective period. Gains or losses on translation of the financial statements of a non-U.S. operation, when the functional currency is other than the U.S. dollar, are included, net of taxes, in the condensed consolidated statements of changes in stockholders equity and comprehensive income (loss). Foreign currency gains or losses on the revaluation of transactions in nonfunctional currencies are included in the condensed consolidated statements of operations.

New Accounting Developments

Fair Value Measurements

On January 21, 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, Fair Value Measurements and Disclosures (ASC 820): Improving Disclosures about Fair Value Measurements, which provides guidance on how investment assets and liabilities are to be valued and disclosed. Specifically, the amendment requires reporting entities to disclose i) the input and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements, for Level 2 or Level 3 positions, ii) transfers between all levels (including Level 1 and Level 2) will be required to be disclosed on a gross basis as well as the reason for the transfers and iii) purchases, sales, issuances and settlements must be shown on a gross basis in the Level 3 rollforward rather than as one net number. The effective date of the ASU is for interim and annual periods beginning after December 15, 2009, however, the requirement to provide the Level 3 activity for purchases, sales, issuances and settlements on a gross basis will be effective for interim and annual periods beginning after December 15, 2010. At this time the Company is evaluating the implications of the amendment to ASC 820 and the impact to the financial statements.

Table of Contents

ASC 820 will allow investors to use the net asset value of investments in investment companies that do not have a readily determinable fair value if the investees have the attributes of investment companies and the net asset values are calculated consistent with the AICPA Audit and Accounting Guide, Investment Companies, which generally requires investments to be measured at fair value. This accounting principle was effective for the Company beginning in the first quarter of 2010. Adoption did not have a material effect on the Company's financial condition, results of operations or cash flows.

Transfers of Financial Assets

ASC 860, *Transfers and Servicing*, removes the concept of a qualifying special-purpose entity (QSPE) and removes the exception from applying to variable interest entities that are QSPEs. This statement also clarifies the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. This statement is effective for fiscal years beginning after November 15, 2009, and is effective for the Company's fiscal year beginning January 1, 2010. The Company adopted this pronouncement during the first quarter of 2010, and the adoption had no impact on the Company's financial position or results of operations.

Consolidation of Variable Interest Entities

ASC 810-10-25-38, *Consolidation*, amends the consolidation guidance for variable-interest entities (VIE) and requires an enterprise to qualitatively assess the determination of the primary beneficiary of a VIE based on whether the entity has the power to direct matters that most significantly impact the activities of the VIE, and had the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. ASC 810 is effective for the Company's fiscal year beginning January 1, 2010. The Company adopted this pronouncement during the first quarter of 2010, and the adoption had no impact on the Company's financial position or results of operations.

3. INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND FINANCIAL INFORMATION

The unaudited interim condensed consolidated financial information as of June 30, 2010 and for the three and six months ended June 30, 2010 and 2009 is presented in the accompanying condensed consolidated financial statements. The unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial information. The unaudited interim condensed consolidated financial information reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for such periods. The preparation of condensed consolidated financial statements in conformity with U.S.GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and assumptions. The unaudited interim condensed consolidated financial information as of June 30, 2010 should be read in conjunction with the audited consolidated financial statements and notes thereto as of December 31, 2009 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 filed with the Securities and Exchange Commission (SEC) on March 16, 2010 (the 2009 10-K). Results for the three and six months ended June 30, 2010 interim period are not necessarily indicative of results to be obtained for the full fiscal year.

Table of Contents

4. INCOME TAXES

The Company accounts for income taxes in accordance with ASC 740, Accounting for Income Taxes and Accounting for Uncertainty in Income Taxes. This statement requires the recognition of tax benefits or expenses based on the estimated future tax effects of temporary differences between the financial statement and tax bases of its assets and liabilities. Deferred tax assets and liabilities primarily relate to tax basis differences on unrealized gains on corporate equities and net operating loss carry-forwards. These temporary differences result in taxable or deductible amounts in future years and are measured using the tax rates and laws that are expected to be in effect when such differences reverse.

The Company's tax contingency reserve remains unchanged for the quarter ended June 30, 2010. The Company has a tax valuation allowance of \$3.6 million for state and local net operating losses established in the first quarter of 2010 which remains in the net deferred tax asset balance. The tax expense for the six month period ended June 30, 2010, includes a \$900,000 charge for income taxes from continuing operations which is comprised of the netting of a deferred tax valuation charge partially offset by a reduction to contingent liabilities due to the conclusion of an examination cycle. The discontinued operations current and deferred taxes included an additional tax benefit of \$3.8 million related to adjustments mainly for assets sold with the DMM business in the first quarter of 2010.

Table of Contents

The components of the (benefit) for income taxes reflected on the condensed consolidated statements of operations are set forth below (000 s omitted):

Edgar Filing: LABRANCHE & CO INC - Form 10-Q

The foreign taxes represent taxes payable to the United Kingdom for LSPE, which is the single member private equity company in the UK that has been considered a controlled foreign corporation since January 1, 2008.

The Company filed a refund claim to carry back tax losses from 2009 to 2008 and prior years in the amount of \$9.7 million of which \$9.0 million was received in April 2010 and the balance in May 2010.

5. CAPITAL AND NET LIQUID ASSET REQUIREMENTS

As a registered broker-dealer and FINRA member firm, LSP is subject to SEC Rule 15c3-1, as adopted and administered by the SEC and FINRA. LSP is required to maintain minimum net capital, as defined, equivalent to the greater of \$100,000 or $\frac{1}{15}$ of aggregate indebtedness, as defined. As of June 30, 2010 and December 31, 2009, LSP's net capital, as defined, was \$38.3 million and \$85.7 million, respectively, which exceeded minimum requirements by \$37.8 million and \$82.8 million, respectively. LSP's aggregate indebtedness to net capital ratio on those dates was 0.19 to 1 and 0.51 to 1, respectively. The net capital reduction is mainly attributable to trading losses and increased regulatory capital charges on gross foreign currency positions which will be decreased in future periods. In July 2010, LSP distributed \$10 million to LaBranche Structured Holdings, Inc. in the form of a dividend. A component of the net capital reduction was regulatory capital charges on gross foreign currency positions which will be decreased in future periods.

Table of Contents

As a registered broker-dealer and member firm of the NYSE and FINRA, LFS is subject to SEC Rule 15c3-1, as adopted and administered by the SEC and the NYSE. Under the alternative method permitted by this rule, the minimum required net capital is equal to the greater of \$1.0 million or 2.0% of aggregate debit items, as defined. As of June 30, 2010 and December 31, 2009, LFS net capital, as defined, was \$6.9 million and \$26.1 million, respectively, which exceeded minimum requirements by \$5.9 million and \$25.1 million, respectively. In January 2010, LFS distributed \$15 million to the Holding Company in the form of a dividend.

LSP and LFS submitted an application to FINRA to merge into one combined entity as disclosed in Note 1. It is anticipated that, upon completion of the proposed merger, the combined entity's net capital requirement as a FINRA member firm and registered broker-dealer will be equivalent to the greater of \$1.0 million or 2.0% of aggregate debit items, as defined. The Company expects that the combined entity will have sufficient capital resources to meet and exceed these capital requirements.

LaBranche LLC, as a DMM until January 22, 2010, and member of the NYSE, is subject to the provisions of SEC Rule 15c3-1, as adopted and administered by the SEC and NYSE. LaBranche LLC was required to maintain minimum net capital, as defined, equivalent to the greater of \$100,000 or $\frac{1}{15}$ of aggregate indebtedness, as defined.

As of June 30, 2010 and December 31, 2009, LaBranche LLC's net capital, as defined under SEC Rule 15c3-1, was \$0.9 million and \$91.9 million, respectively, which exceeded the minimum requirements by \$0.8 million and \$90.9 million, respectively. LaBranche LLC's aggregate indebtedness to net capital ratio on those dates was 7.31 to 1 and 0.02 to 1. During 2010, LaBranche LLC distributed \$117 million to the Holding Company in the form of a dividend.

The NYSE generally requires its DMM firms to maintain a minimum dollar regulatory capital amount in order to establish that they can meet, with their own Net Liquid Assets (NLA), their position requirement. As of December 31, 2009, when LaBranche LLC was still a DMM firm, its NYSE minimum required dollar amount of NLA, as defined, was \$70.2 million and its actual NLA, as defined, was \$85.3 million. As of December 31, 2009, LaBranche LLC's actual NLA exceeded the NLA requirement, thus satisfying its NLA requirement as of that date. Upon completion of the sale of the DMM business on January 22, 2010, LaBranche LLC is no longer subject to the NLA requirement.

As a registered broker-dealer and NYSE/Amex member firm, LSPD is subject to SEC Rule 15c3-1, as adopted and administered by the SEC. LSPD is required to maintain minimum net capital, as defined, equivalent to the greater of \$5,000 or $\frac{1}{15}$ of aggregate indebtedness, as defined. As of June 30, 2010 and December 31, 2009, LSPD's net capital, as defined, was \$0.3 million and \$2.4 million, respectively, which exceeded its minimum requirements by \$0.3 million and \$2.4 million, respectively. In January 2010, LSPD distributed \$2.0 million to its parent in the form of a dividend.

As a registered broker dealer in the United Kingdom, LSPE is subject to the capital adequacy and capital resources as managed and monitored in accordance with the regulatory capital requirements of the Financial Services Authority (FSA) in the United Kingdom. In calculating regulatory capital, the Company's capital consists wholly of Tier 1 capital. Tier 1 capital is the core measure of a Company's financial strength from a regulator's point of view. It consists of the type of financial capital considered the most reliable and liquid, primarily Shareholder's Equity. As of June 30, 2010, Tier 1 capital, as defined, was \$56.5 million which exceeded the total variable capital requirement by \$8.9 million. At December 31, 2009, Tier 1 capital, as defined, was \$49.6 million which exceeded the total variable capital requirement by \$3.2 million. In both April and July 2009, LSPE received approximately \$5 million of share capital from its parent.

Table of Contents

As a registered corporation under the Hong Kong Securities and Futures Ordinance, LSPH is subject to the capital requirements of the Hong Kong Securities and Futures (Financial Resources) Rules (FRR). The minimum paid-up share capital requirement is HKD 5,000,000 (\$0.6 million at June 30, 2010 and December 31, 2009) and the minimum liquid capital requirement is the higher of HKD 3,000,000 (\$0.4 million at June 30, 2010 and December 31, 2009) and the variable required liquid capital as defined in the FRR. The Company monitors its compliance with the requirements of the FRR on a daily basis. As of June 30, 2010, LSPH's liquid capital, as defined was \$0.8 million, which exceeded its minimum requirements by \$0.5 million. As of December 31, 2009, LSPH's liquid capital, as defined was \$0.4 million, which exceeded its minimum requirements by \$0.1 million. In January and June 2010 and January and August 2009, LSPH received \$0.5 million, \$0.5 million, \$1 million and \$0.6 million, respectively, of share capital from its parent to increase the company's regulatory capital above the minimum requirement. In July 2010, LSPH received share capital of \$2.6 million from its parent to increase the company's regulatory capital.

6. INCOME (LOSS) PER SHARE

The computations of basic and diluted income (loss) per share are set forth below (000's omitted, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Numerator for basic and diluted (loss) income per common share — net (loss) income	\$ (15,102)	\$ 13,313	\$ (13,718)	\$ (16,427)
Denominator for basic (loss) income per common share — weighted-average number of common shares outstanding	42,677	55,394	45,592	56,883
Dilutive shares:				
Restricted stock units		142		
Denominator for diluted (loss) income per common share — weighted-average number of common shares outstanding	42,677	55,536	45,592	56,883
Basic net (loss) income per common share:				
Continuing operations	\$ (0.35)	\$ 0.14	\$ (0.38)	\$ (0.46)
Discontinued operations	\$	\$ 0.10	\$ 0.08	\$ 0.17
Total operations	\$ (0.35)	\$ 0.24	\$ (0.30)	\$ (0.29)
Diluted net (loss) income per common share:				
Continuing operations	\$ (0.35)	\$ 0.14	\$ (0.38)	\$ (0.46)
Discontinued operations	\$	\$ 0.10	\$ 0.08	\$ 0.17
Total operations	\$ (0.35)	\$ 0.24	\$ (0.30)	\$ (0.29)

Options to purchase an aggregate of 230,000 and 945,000 shares of common stock were outstanding at June 30, 2010 and 2009, respectively, but were not included in the computation of diluted (loss) income per share because the options' exercise prices were greater than the market price of the Company's common stock. For the quarter and six months ended June 30, 2010 and the six months ended June 30, 2009, 202,817, 202,954 and 206,151 potentially dilutive shares represented by restricted stock units were not included in the computation of diluted net loss per share because to do so would be anti-dilutive as the Company had a net losses.

On January 29, 2010, the Company commenced a tender offer to purchase up to 15,000,000 shares of its outstanding common stock, at a price of \$4.60 per share. On March 1, 2010, the tender offer expired and the Company repurchased an aggregate of 8,539,667 shares of common stock at a price of \$4.60 per share plus transaction costs, for a total tender price of \$39.6 million. The Company repurchased an aggregate of 676,067 shares of its outstanding common stock for the six months ended June 30, 2010, for a total price of \$3.2 million or an average price of \$4.76 per share. Following the tender offer and other repurchases in the first and second quarters of 2010, the Company had 42,511,727 million shares of common stock outstanding as of June 30, 2010.

Table of Contents

7. EMPLOYEE INCENTIVE PLANS

ASC 505 and 718, Share Based Payments requires compensation costs related to share-based payment transactions to be recognized in the financial statements over the period that an employee provides service in exchange for the award.

The following disclosures are also being provided pursuant to the requirements of ASC 505 and 718:

The Company has sponsored one share-based employee incentive plan the LaBranche & Co Inc. Equity Incentive Plan (the Old Plan), which provided for grants of incentive stock options, nonqualified stock options, restricted shares of common stock, restricted stock units (RSUs), unrestricted shares and stock appreciation rights.

The Old Plan terminated in August 2009. The rights of any person who received an option grant or grant of restricted stock units under the Old Plan that are currently outstanding were not affected by reason of the termination of the Old Plan and will continue in accordance with the terms of the award agreement (as then in effect or thereafter amended) regarding those options or restricted stock units. On January 14, 2010 the Company's Board of Directors approved a new equity incentive plan, the LaBranche & Co Inc. 2010 Equity Incentive Plan (the 2010 Plan). On May 7, 2010, the Company's Board of Directors amended the 2010 Plan to disallow re-pricing of options granted under the 2010 Plan without the prior approval of the Company's stockholders and to reduce the number of shares available for issuance under the 2010 Plan from 4,500,000 shares to 2,000,000 shares. The 2010 Plan, as so amended, was approved by the stockholders of the Company at the Company's 2010 annual meeting of stockholders, on May 18, 2010.

The fair value of the restricted stock awards granted under the Old Plan was determined by using the closing price of the Company's common stock on the respective dates on which the awards are granted. Similarly, any restricted stock awards to be granted under the new 2010 Plan will be determined by using the closing price of the Company's common stock on the respective dates on which the awards are granted. Under both the Old Plan and the 2010 Plan, the grant date is determined to be the date the compensation committee of the Board of Directors approved the grant, except in circumstances where the approval by the compensation committee is contingent upon a future event, such as the negotiation and execution of an employment agreement, in which case the grant date would be the date the condition is satisfied. Amortization of compensation costs for grants awarded under the Old Plan recognized during the three and six months ended June 30, 2010 was approximately \$0.3 million and \$0.6 million, respectively, compared to approximately \$0.9 million and \$1.9 million respectively for the same periods in 2009. The only grants of common stock made under the 2010 Plan were the automatic grant of 65,743 shares of the Company's common stock to the Company's independent directors in June 2010 for attendance of Board and committee meetings in 2009. There was no amortization of compensation costs in the second quarter of 2010 for these grants because they were not subject to any vesting provisions. During the first quarter of 2010, the Company reevaluated the forfeiture rate used to calculate share based payments due to the departure of personnel who had been granted restricted stock units that had not vested prior to their departure. The change in the forfeiture rate resulted in a benefit net of taxes of \$1.1 million for the six months ended June 30, 2010. The tax benefit realized in the Condensed Consolidated Statements of Operations for the Plan was approximately \$0.1 million and \$0.2 million, respectively for three and six months ended June 30, 2010, excluding the amount recorded for the change in the forfeiture rate, compared to \$0.4 million and \$0.8 million, respectively for the same periods in 2009.

Unrecognized compensation cost related to the Company's non-vested stock options and restricted stock unit awards totaled \$0.5 million, at fair value, at June 30, 2010 and \$1.4 million at December 31, 2009. The cost of these non-vested awards is generally expected to be recognized over a period of approximately three years.

ASC 505 and 718 generally requires share-based awards granted to retirement-eligible employees to be expensed immediately. The Company did not grant any share-based awards prior to our adoption of ASC 505 and 718 to retirement-eligible employees or those with non-substantive non-compete agreements. In addition, no grants of any stock options or RSUs were changed or amended after the Company's adoption of ASC 505 and 718 to reflect retirement eligibility or non-compete agreements.

Table of Contents

The total number of shares of the Company's common stock that can be issued under the 2010 Plan through the 2010 Plan's termination date cannot exceed 2,000,000 shares. The total number of shares of the Company's common stock that could have been issued under the Old Plan through the Old Plan's termination date could not exceed 7,687,500 shares. As of August 24, 2009 (the date the Old Plan terminated) 4,253,595 shares remained available for grant under the Old Plan. Due to the termination of the Old Plan on August 24, 2009, there were no shares available for grant under the Old Plan as of June 30, 2010.

Restricted Stock Units

All of the RSUs outstanding as of June 30, 2010 and 2009 require future service as a condition to the delivery of the underlying shares of common stock on their respective vesting dates. The RSUs were granted under the Company's Old Plan and vest over varying numbers of years. An employee who received RSUs under the Old Plan does not have any ownership rights with respect to the underlying shares until the shares vest pursuant to the terms of the RSU agreement. In all cases, delivery of the underlying shares of common stock is conditioned on the grantees satisfying certain requirements outlined in the agreements. Generally, the RSUs become fully vested if the grantee's employment with the Company terminates by reason of death or disability prior to vesting. The grantee forfeits the unvested portion of the RSUs upon the termination of employment for any reason other than death or disability. When delivering the underlying shares of stock to employees, the Company generally issues new shares of common stock, as opposed to reissuing treasury shares.

The following table provides information about grants of RSUs:

	Number of Shares	Weighted Average Price per Share
RSUs Outstanding as of December 31, 2009	642,345	\$ 4.30
Granted		
Vested	(27,497)	8.99
Forfeited	(124,663)	4.93
RSUs Outstanding as of March 31, 2010	490,185	\$ 3.88
Granted		
Vested	(163,395)	3.88
Forfeited		
RSUs Outstanding as of June 30, 2010	326,790	\$ 3.88

Under ASC 505 and 718, the Company is required to estimate forfeitures of RSUs for purposes of determining the Company's share-based award expense. Applying ASC 505 and 718 as of June 30, 2010, for purposes of determining share-based award expense, RSUs with respect to 311,802 shares of the Company's common stock were expected to vest based on shares issued of 490,185, with a weighted average price of \$3.88 per share.

Stock Options

As of June 30, 2010, all stock options granted to employees were fully vested and exercisable. In general, all stock options expire on the tenth anniversary of grant, although they may be subject to earlier termination or cancellation in certain circumstances under the Old Plan and the stock option agreement, such as death, disability or other termination of employment prior to the tenth anniversary of grant. The dilutive effect, if any, of the Company's outstanding stock options is included in Weighted Average Common Shares Outstanding Diluted on the Condensed Consolidated Statements of Operations.

Table of Contents

The following table provides information about options to purchase the Company's common stock:

	Number of Shares	Weighted Average Exercise Price per Share
Options Outstanding as of December 31, 2009	325,000	\$ 35.23
Options Granted		
Options Exercised		
Options Forfeited	(95,000)	35.79
Options Outstanding as of March 31, 2010	230,000	\$ 35.00
Options Granted		
Options Exercised		
Options Forfeited		
Options Outstanding as of June 30, 2010	230,000	\$ 35.00
Options Exercisable as of:		
March 31, 2010	230,000	\$ 35.00
June 30, 2010	230,000	\$ 35.00

The following table summarizes information about stock options outstanding and exercisable as of June 30, 2010:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Number of Shares	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price per Share	Number of Shares	Weighted Average Exercise Price per Share
\$31.00 - \$40.99	230,000	1.55	\$ 35.00	230,000	\$ 35.00

No options were exercised during the three and six months ended June 30, 2010 and 2009. The options are due to expire January 17, 2012.

8. BUSINESS SEGMENTS

Segment information is presented in accordance with ASC 280, Disclosures About Segments of an Enterprise and Related Information. The Company's business segments are based upon the nature of the financial services provided, their revenue source and the Company's management organization.

The Company's Market-Making segment operates as a market-maker in equities, options and ETFs on several exchanges, engages in hedging activities related to its market-making operations and conducts principal trading activities in options, ETFs, structured notes, foreign currency securities and futures. The Market-Making segment currently includes the operations of the subsidiaries of LSH (LSP, LSPS, LSPE, LSPH and LSPD). Due to the sale of the DMM operations of LaBranche LLC on January 22, 2010, the Market Making segment excludes the operations of the DMM, and includes only the net earnings from continuing operations. In addition, for comparative purposes, the Market Making segment is reported with LaBranche LLC's DMM operations in a supplemental schedule in the Results of Operations section of the MD&A, entitled Market-Making Segment Operating Results including Discontinued Operations.

The Company's Institutional Brokerage segment provides mainly securities execution and brokerage services to institutional investors and professional traders, and currently includes the operations of LFS and, through June 2010, included the leveraged loan operations of the Holding Company. LFS also is a market-maker in over-the-counter, bulletin board and pink sheet securities serving as a liquidity provider in those securities. LFS ceased trading leveraged loan and fixed income trading products in June of 2010. Effective April 2010, the LFS commenced trading in options agency products.

Table of Contents

The Company's Other segment is comprised primarily of unallocated corporate administrative expenses, including professional and legal costs, unallocated revenues (primarily interest income) and elimination entries. This segment also includes the investment entity, LABDR, and the inactive company, BV.

Revenues and expenses directly associated with each segment are included in determining its operating results. Other expenses, including corporate overhead, which are not directly attributable to a particular segment, generally are allocated to each segment based on its resource usage levels or other appropriate measures. Certain administrative expenses, corporate overhead expenses and other sources of revenues are not specifically allocated by management when reviewing the Company's segments' performance, and appear in the Other segment. Selected financial information for each segment is set forth below (000's omitted):

(1) Certain of the Company's June 30, 2009 balances have been adjusted to conform to the presentation in the current period.

9. NYSE EURONEXT, INC. POSITION

As of June 30, 2010, the Company, through its subsidiaries, holds approximately 1.1 million NYX shares.

The Company has accounted for its investment in NYX as corporate equities at fair value pursuant to ASC 820 at June 30, 2010. At June 30, 2010, the NYSE closing market price for the NYX shares was \$27.63 per share as

Table of Contents

compared to the closing price of NYX shares at March 31, 2010 which was \$29.61 per share. This resulted in the Company's recognition of a pre-tax loss of \$2.2 million for the three months ended June 30, 2010, which is included in net gain (loss) on trading in the Company's condensed consolidated statements of operations.

On June 28, 2010, the quarterly dividend of \$0.30 per share was paid to shareholders of record of NYSE Euronext as of the close of business on June 11, 2010. The aggregate dividend payment with respect to the Company's NYX shares was \$0.3 million and \$0.9 million, respectively for the quarters ended June 30, 2010 and 2009, respectively.

10. FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Company adopted ASC 820, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 applies only to fair value measurements already required or permitted by other accounting standards and does not impose requirements for additional fair value measures. The Company's adoption of ASC 820 did not have a material impact on its financial condition or results of operations.

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The Company's financial instruments owned and financial instruments sold, but not yet purchased are recorded at fair value on a recurring basis.

ASC 820 outlines a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (which are considered level 1 measurements) and the lowest priority to unobservable inputs (which are considered level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices for similar instruments in active markets, quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Such valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques.

Table of Contents

The following table represents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of the dates presented (000's omitted):

June 30, 2010**(unaudited)**

	Level 1	Level 2	Level 3	Netting and Collateral	Total
ASSETS:					
Financial instruments owned, at fair value:					
Corporate equities, not readily marketable	\$	\$ 4,935	\$	\$	\$ 4,935

Total financial instruments sold, not yet purchased, at fair value	\$ 2,567,480	\$ 722	\$	\$ (78,331)	\$ 2,489,871

For positions with the same counterparty that cross over levels of the Fair Value hierarchy, both counterparty netting and cash collateral netting are included in the column titles Netting and Collateral. For contracts with the same counterparty, counterparty netting among positions classified within the same level is included within that level.

The fair value of our financial instruments was determined from a variety of sources as follows:

For corporate equities and ETFs, fair value was determined by the closing price of the primary exchanges and was included in Level 1 for those that are actively traded. Those classified in Level 2 represent those not actively traded with quoted market prices.

Table of Contents

For government and corporate bonds, the primary source for pricing fixed income instruments is derived from our clearing broker who determines prices through various third party pricing services. The Company confirms these values using independent observable sources. When pricing cannot be confirmed the positions will be valued using broker quotes and included in Level 2.

For options, the fair values are based on the NBBO mid-point average.

For investment partnerships holding securities actively traded, fair value was based on the net asset value and included in Level 2.

The valuation for the Company's level 3 assets is based on the estimated payout determined by the bankruptcy court as of June 30, 2010.

The following table represents the Company's level 3 assets (000's omitted):

	June 30, 2010 (unaudited)
Beginning balance, January 1, 2010	\$
Transfers into level 3 (1)	150
Total gains or losses (realized/unrealized), included in earnings	366
Ending balance, June 30, 2010	\$ 516

(1) Transferred from level 2 to level 3 because of lack of observable market data due to little market activity for this security.

The Company has elected to offset fair value amounts recognized for cash collateral receivables against fair value amounts recognized for net derivative positions executed with the same counterparty under the same master netting arrangement. At June 30, 2010 and December 31, 2009, the Company offset cash collateral receivables of \$93.1 million and \$18.2 million, respectively, against its net derivative positions.

Derivatives Trading Activities

The following table (000's omitted) sets forth by major product type the firm's gains/(losses) related to derivatives trading activities for the three months ended June 30, 2010 in accordance with ASC 815. These gains/(losses) are not representative of the firm's individual business unit results because many of the firm's trading strategies utilize financial instruments across various product types. Accordingly, gains or losses in one product type frequently offset gains or losses in other product types. The gains/(losses) set forth below are included in Net gain (loss) on trading in the condensed consolidated statements of operations.

Type of Instrument	Three Months Ended June 30, 2010	Six Months Ended June 30, 2010
Options	\$ (64,491)	\$ (16,288)
Forwards	20,980	15,424
Futures	35,447	11,678
Total	\$ (8,064)	\$ 10,814

Table of Contents

The Company enters into various transactions involving derivatives and off balance sheet financial instruments. These financial instruments include forwards and foreign exchange contracts, exchange traded and over-the-counter option, that derive their value from underlying assets, indices, reference rates or a combination of these factors. Derivative transactions are entered into for trading purposes.

Fair value for exchange-traded derivatives is based on quoted market prices. Fair value of forwards and options contracts are recorded in either financial instruments owned or financial instruments sold, not yet purchased. Open equity in futures transactions are recorded as receivables from and payables to broker-dealers or clearing brokers as applicable. The Company's derivatives trading activities exposes it to certain risks, such as price and interest rate fluctuations, volatility risk, credit risk, foreign currency movements and changes in the liquidity of markets.

The Company's traders purchase and sell futures, options, the stocks underlying certain ETFs and options positions, U.S. Government securities and foreign currencies in an attempt to hedge market and foreign currency risk. Certain members of management, including the Company's chief risk officer, who oversee the Company's options, futures and ETFs market making activities are responsible for monitoring these risks. Furthermore, the Company's aggregate risk in connection with its options, futures and ETFs trading is under constant evaluation by certain members of management and the Company's traders, and all significant trading strategies and positions are closely monitored.

Corporate Equities, Not Readily Marketable

Prior to June 14, 2010, the Company owned two CBOE memberships out of a total of 930 memberships on the CBOE. The Company had accounted for its investment in these memberships at the adjusted cost method since inception. On June 14, 2010, the CBOE went from a membership to a publically traded company whereby each membership was exchanged for 80,000 restricted shares of the newly formed public company CBOE Inc. In addition, immediately prior to the public offering, each CBOE membership was entitled to a \$1.25 dividend for each share issued. The Company received a \$0.2 million dividend with respect to its 2 memberships on June 21, 2010.

ASC 845 provides guidance on accounting for non-monetary transactions. In general, the accounting for non-monetary transactions should be based on fair market value of the assets involved. Thus, the cost of a non-monetary asset acquired in exchange for another non-monetary asset is the fair market value of the asset surrendered to obtain it, and a gain or loss shall be recognized on the exchange. Based on this guidance, the Company valued the shares of the CBOE stock received in exchange for our memberships at fair value, which was deemed to be the value of the shares on the first day trading commenced for the CBOE stock, or \$29.00 per share. Based on this price, the Company recognized a gain of \$4.0 million on the exchange of their CBOE memberships for CBOE stock net of a valuation allowance due to the restrictions on the transfer of the CBOE stock.

The Company accounts for its continuing investment in the CBOE stock as restricted stock and reflected at the estimated fair market value of such restricted shares pursuant to ASC820. At June 30, 2010, the NASDAQ closing price for the CBOE stock was \$32.55 per share. As a result the company recognized an unrealized gain of \$0.3 million, which includes a valuation allowance of approximately 5.25%, due to the stock restrictions. The CBOE stock received is subject to restrictions up to a one year from the exchange date on June 14, 2010 of which the restrictions will expire on one-half of the stock (approximately 80,000 shares) in six months from the exchange date and the other half of the stock will have restrictions expire in one year from the exchange date.

11. CONTINGENCIES

There have been no material new developments in the Company's legal proceedings since the March 16, 2010 filing of its Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 10-K) and the May 10, 2010 filing of its Quarterly Report on Form 10-Q for the quarter ended March 31, 2010 (the First Quarter 10-Q), except as follows:

NYSE Regulation proceeding against LSP and former trader. On June 11, 2010, NYSE Regulation, Inc.'s Division of Enforcement (NYSE Regulation), on behalf of NYSE Amex, LLC (NYSE Amex) and NYSE Arca Equities, Inc. (NYSE Arca), commenced a proceeding against LSP and LSP's former head of options trading alleging, during the period from March 2005 through July 2007, violations of Regulation SHO Rule 203(b)(1), by allegedly effecting short sales of threshold securities without first locating shares to borrow, allegedly in improper reliance upon Regulation SHO's market maker exemption from locate requirements; Regulation SHO Rule 203(b)(3), by allegedly entering closing transactions that failed to properly close out fail-to-deliver positions in the threshold securities; and Part 224 of the Federal Reserve Board Rules (Regulation X), by allegedly causing LSP's clearing firm to improperly extend LSP's good faith margin as a market maker. NYSE Regulation also alleges, during the period from September 18, 2008 to October 8, 2008, violations of Section 12(k)(4) of the Securities Exchange Act of 1934 and the Securities and Exchange Commission's September 18, 2008 Emergency Order that banned the short selling of securities of financial services companies, by improperly relying on an exemption that would enable short sales of the common stock of financial services companies. NYSE Regulation also alleges, during both of these time periods, violations of AMEX Rule 320 and NYSE Arca Rule 6.18(b), by allegedly failing to supervise these trading activities to comply with the rules alleged to have been violated.

On July 27, 2010, the Respondents filed a Joint Answer with NYSE Amex and NYSE Arca denying all allegations and asserting defenses.

The Company believes that the claims asserted against it and its operating subsidiaries in the pending proceedings described in the 2009 10-K, the First Quarter 10-Q and above are without merit, and the Company denies all allegations of wrongdoing. There can be no assurance, however, as to the outcome or timing of the resolution of these proceedings. Therefore, the Company is unable to estimate the amount or potential range of any loss that may arise out of these proceedings. The range of possible resolutions could include determinations and judgments against the Company or settlements that could require substantial payments by the Company that could have a material adverse effect on the Company's financial condition, results of operations and cash flows.

In addition to the proceedings described in the 2009 10-K, the First Quarter 10-Q and above, the Company and its operating subsidiaries have been the target, from time to time, of various claims, lawsuits and regulatory inquiries in the ordinary course of their respective businesses. While the ultimate outcome of those claims and lawsuits which are currently pending cannot be predicted with certainty, the Company believes, based on its understanding of the facts of these proceedings, that their ultimate resolution will not, in the aggregate, have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Table of Contents**12. DISCONTINUED OPERATIONS**

On January 22, 2010, LaBranche LLC sold its DMM operations on the NYSE for \$25.0 million, plus an additional \$7.0 million for the value of its DMM inventory positions as of the closing date of the transaction. The assets sold included LaBranche LLC's stock listing rights, its DMM inventory positions and a portion of its fixed assets related to computer equipment and software development. At December 31, 2009, the assets and liabilities related to the sale were included on the consolidated statement of financial condition as held for sale. After the sale, LaBranche LLC retained all cash and other non-DMM assets, including its NYX shares. As a result of this sale, at December 31, 2009, LaBranche LLC recognized a non-cash impairment charge related to its intangible assets of \$87.6 million related to the DMM business. As a result of this impairment at December 31, 2009, the Company did not recognize any gain or loss on the disposition of the DMM operations in 2010. The operating results of the DMM business, which were formerly included in the Market-Making segment, are summarized as follows (000's omitted):

	For The Three		For The Six Months	
	Months		Ended June 30,	
	2010	2009	2010 (1)	2009
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Revenues, net of interest expense	\$	\$ 14,505	\$ 1,777	\$ 24,776
Total expenses		5,327	2,129	9,436
Income (loss) before provision for income taxes		9,178	(352)	15,340
Provision (benefit) for income taxes		3,441	(4,019)	5,678
Income from discontinued operations	\$	\$ 5,737	\$ 3,667	\$ 9,662

(1) 2010 revenues through January 22, 2010 only.

13. SHORT-TERM DEBT

As of June 30, 2010, the Company had no remaining debt. On February 15, 2010 the Company redeemed of all its remaining outstanding 11% Senior Notes due 2012, in the aggregate principal amount of \$189.3 million, at the redemption price of 102.75% plus accrued and unpaid interest.

As of December 31, 2009, short-term debt of the Company was comprised of the \$189.3 million in its outstanding Senior Notes, at the interest rate of 11% per annum.

As a result of the redemption there was no interest expense for the three months ended June 30, 2010. For the second quarter of 2009, the Company's expense related to the Senior Notes totaled \$5.4 million, including the amortized debt issuance costs for the for the Senior Notes.

14. SUBSEQUENT EVENTS**Stock Repurchase**

In July and to date in August 2010, the Company repurchased an aggregate of 482,229 shares of its outstanding common stock at total price of \$1.8 million, or an average price of \$3.75 per share. Management continues to monitor opportunities to repurchase stock. These purchases were in addition to purchases made in the second quarter of 2010 by the Company of an aggregate of 643,867 shares of its common stock in connection with the previously-announced repurchase authorization by its board of directors.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Unless the context otherwise requires, the Company or we shall mean LaBranche & Co Inc. and its wholly-owned subsidiaries.

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 (the 2009 10-K) and our Condensed Consolidated Financial Statements and the Notes thereto contained in this report.

Executive Overview

In the second quarter of 2010, we reported a GAAP net loss of \$15.1 million, or \$0.35 cents per share. By comparison, we reported GAAP net income for the first quarter of 2010 and the second quarter of 2009 of \$1.4 million and \$13.3 million, respectively. The income reported for the second quarter of 2009 was materially influenced by the unrealized gain in the fair value of our shares of NYSE Euronext, Inc. common stock (the NYX shares), whereas the results for the first and second quarters of 2010 were not materially impacted.

Our poor results in the second quarter of 2010 were primarily attributable to the performance of our equity options market-making division. These results outweighed the positive results at the rest of our company's businesses and have led to our making significant adjustments in that division, including extensive reductions of our equity option positions and changes in personnel in our options trading group. Our principle trading revenues showed a loss of approximately \$4.8 million but this number does not fully reflect other large trading costs, including inventory financing, and exchange, clearing and brokerage fees incurred in the options business. While we have said in recent disclosures that we expected our earnings to be more volatile in our current structure than it was in the past, we have now determined that this sort of volatility is not acceptable to us. Until it appears that we can expect a return that justifies our trading costs, we will keep our overall options position much smaller. Our balance sheet as of the end of the second quarter of 2010 is significantly lower than it was at December 31, 2009, primarily due to our significantly-reduced positions.

Some of the options market making strategies we employed in the second quarter were not successful. These unsuccessful results were magnified by two unusual events in the second quarter. First, our options market-making group experienced significant losses making a market in the options of a large financial services firm that was the subject of negative news on the day of its expiring options in April. Second, after the so-called "flash crash" in May, the pricing of some of our options positions caused the Company to lose additional money. The nature of the flash crash was such that the volumes that normally would have accompanied such a large percentage move in the market did not occur. This may have reduced the opportunities to offset some of the losses we incurred in the flash crash. This has led us to make adjustments in our equity options trading strategy, including, as noted above, an extensive reduction of our equity options positions and changes in personnel in our options trading group. We are evaluating what the continued changes in market structure mean to our approach in trading equity options. Although our equity options positions have been significantly reduced, we are still active in the options markets and will continue to hold equity options positions. If we determine to implement further significant reductions of these positions, those reductions could take several months to achieve.

Other aspects of our business performed better than our equity options business, and we will focus on those businesses. Our foreign currency options trading unit performed well in the second quarter of 2010, as did our international structured products division. In addition, due to our continued cost reduction initiatives, the cost structure at our institutional brokerage division is much better suited to the current environment than it has been in the past, and we believe that gives us more flexibility. In July 2010, we stopped offering leveraged loan and fixed income product agency execution services because we did not achieve the expected revenue levels that we believed would benefit our company. In the second quarter, however, we diversified our institutional brokerage business by beginning to offer specialized interdealer broker services to our customers in equity and index options and hired additional

Table of Contents

trading personnel to conduct this business. In light of these changes, we continue to believe that we offer a competitive, high-touch execution platform for our institutional clients and we continue to make markets in over-the-counter and bulleting board securities.

On April 16, 2010, we submitted an application to FINRA, on behalf of LaBranche Structured Products, LLC (LSP) and LaBranche Financial Services, LLC (LFS) to merge into one combined entity. We believe that the combined entity of LSP and LFS will enable us to more efficiently use our capital by aggregating the capital resources of LSP and LFS into one firm and by enabling us to continue to reduce additional redundancies and expenses. Other than the efficiencies we expect to gain by this proposed merger, the overall business to be conducted by the combined entity is not expected to be materially different than LSP's and LFS' operations have been as separate entities. We will complete the merger as soon as reasonably practicable.

We continue to have a very liquid balance sheet, which is emphasized by having no intangible assets or long-term debt, and we believe we have more than sufficient cash to maintain our continuing business operations. We believe that the changes discussed above, as well as the changes to our corporate structure and operations in the first quarter of 2010, have been designed to preserve or increase our capital and also give us the flexibility to enter new businesses and consider other opportunities as they arise. At June 30, 2010, our liquid assets of approximately \$215.7 million were primarily comprised of cash, net receivables and payables from brokers and dealers and net financial instruments owned. Our book equity value at June 30, 2010 was approximately \$261.2 million, and we had approximately 42.5 million shares outstanding.

Regulation G Reconciliation of Non-GAAP Financial Measures

In evaluating the Company's financial performance, management reviews results from continuing operations excluding non-operating items. Pro-forma earnings per share is a non-GAAP (generally accepted accounting principles) performance measure, but the Company believes that it is useful to assist investors in gaining an understanding of the trends and operating results for our continuing business. Pro-forma earnings per share should be viewed in addition to, and not in lieu of, the Company's reported results under U.S. GAAP.

Commencing in the first quarter of 2010, the Company is no longer adjusting its GAAP revenues to give pro forma effect to gains/losses in its NYX shares due to the fact that the Company sold approximately 2.0 million of its 3.1 million previously-owned NYX shares, leaving the Company with approximately 1.1 million NYX shares. Therefore, the adjustments that reflected the loss in the Company's NYX shares that were made in the Company's earnings release for the second quarter of 2009 have been removed from this Regulation G reconciliation of non-GAAP financial measures. In the earnings release for the second quarter of 2009, the Company had adjusted reported revenues by a pre-tax gain of \$29.3 million and a pre-tax loss of \$33.2 million for the three and six months ended June 30, 2009, respectively, to reflect the change in fair value of the Company's NYX shares in those periods. These adjustment amounts are removed in this earnings release to enable the reader to compare similar measures in each period.

Table of Contents

The following is a reconciliation of U.S. GAAP results from continuing operations to our pro-forma results from continuing operations for the periods presented (000's omitted):

	Three Months Ended June 30,					
	2010		2009		Pro forma	
	Amounts as reported	(1) Adjustments	Pro forma amounts	Amounts as reported	(1) Adjustments	Pro forma amounts
Revenues, net of interest expense, from continuing operations	\$ (6,481)	\$	(6,481)	\$ 39,325	\$	39,325
Total expenses	17,166		17,166	28,074	1,038	29,112
(Loss) income before (benefit) provision for income taxes	(23,647)		(23,647)	11,251	(1,038)	10,213
(Benefit) provision for income taxes	(8,545)		(8,545)	3,675	(415)	3,260
(Loss) income from continuing operations	\$ (15,102)	\$	(15,102)	\$ 7,576	\$ (623)	\$ 6,953
Basic per share	\$ (0.35)	\$	(0.35)	\$ 0.14	\$ (0.01)	\$ 0.13
Diluted per share	\$ (0.35)	\$	(0.35)	\$ 0.14	\$ (0.01)	\$ 0.13

	Six Months Ended June 30,					
	2010		2009		Pro forma	
	Amounts as reported	(1) Adjustments	Pro forma amounts	Amounts as reported	(1) Adjustments	Pro forma amounts
Revenues, net of interest expense, from continuing operations	\$ 20,033	\$	(20,033)	\$ 2,104	\$	2,104
Total expenses	47,512	(7,192)	40,320	46,621	1,038	47,659
(Loss) income before (benefit) provision for income taxes	(27,479)	7,192	(20,287)	(44,517)	(1,038)	(45,555)
(Benefit) provision for income taxes	(10,094)	2,877	(7,217)	(18,428)	(415)	(18,843)
(Loss) income from continuing operations	\$ (17,385)	\$ 4,315	\$ (13,070)	\$ (26,089)	\$ (623)	\$ (26,712)
Basic per share	\$ (0.38)	\$ 0.09	\$ (0.29)	\$ (0.46)	\$ (0.01)	\$ (0.47)
Diluted per share	\$ (0.38)	\$ 0.09	\$ (0.29)	\$ (0.46)	\$ (0.01)	\$ (0.47)

(1) Expense adjustment reflects the (income) expense associated with early extinguishment of the Company's debt in accounting period.
Reconciliation of Earnings Release to Form 10-Q

Subsequent to the issuance of our July 20, 2010 earnings release for the second quarter of 2010, the CBOE Stock Exchange, LLC (CBSX), an exchange entity in which we have an ownership interest of approximately 9.7%, informed us that they have recorded an impairment charge that impacted the net equity of that entity. We utilize the equity method of accounting to value our investment in CBSX in our financials at each period end. As such, our share of the CBSX's impairment charge, using the equity method, is \$1.1 million, net of taxes, and this amount is included in the loss reported in our June 30, 2010 statement of operations in the Other line item in the Revenues section. As a result of this charge, our net loss for the second quarter of 2010 increases to \$15.1 million, or \$0.35 per share, and the net loss from continuing operations for the six months ended June 30, 2010 has increased to \$17.4 million, or \$0.38 per share.

New Accounting Developments

Edgar Filing: LABRANCHE & CO INC - Form 10-Q

See Note 2 to the condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for information regarding New Accounting Developments.

Critical Accounting Estimates

Financial Instruments

Financial instruments owned, at fair value and Financial instruments sold, but not yet purchased, at fair value are reported in our condensed consolidated financial statements, at fair value, on a recurring basis. Pursuant to ASC 820, the fair value of a financial instrument is defined as the amount that would be received to sell an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants at the measurement date.

Edgar Filing: LABRANCHE & CO INC - Form 10-Q

We have adopted Statement of Financial Accounting Standards, or ASC 820 Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 outlines a fair value hierarchy that is used to determine the value to be reported. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (which are considered level 1 measurements) and the lowest priority to unobservable inputs (which are considered level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Table of Contents

- Level 2 Quoted prices for similar instruments in active markets, quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Such valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques.

Non-Marketable Securities

The measurement of non-marketable securities is a critical accounting estimate. Investments in non-marketable securities consist of investments in equity securities of private companies, restricted stock of public companies and limited liability company interests of service provider entities and therefore are included in other assets or financial instruments owned in the condensed consolidated statements of financial condition due to the nature of business in which we have an investment. Certain investments in non-marketable securities are initially carried at cost, unless there are third-party transactions evidencing a change in value. For certain other investments in non-marketable securities, we adjust their carrying value by applying the equity method of accounting pursuant to ASC 325. Under the equity method the investor recognizes its share of the earnings and losses of an investee in the periods for which they are reported by the investee in its financial statements. These assets included in other assets represent limited liability companies that are service providers and whose value is affected by nonfinancial components. In addition, if and when available, management considers other relevant factors relating to non-marketable securities in estimating their value, such as the financial performance of the entity, its cash flow forecasts, trends within that entity's industry and any specific rights associated with our investment such as conversion features among others.

Non-marketable investments are tested for potential impairment whenever events or changes in circumstances suggest that such investment's carrying value may be impaired.

Use of Estimates

The use of accounting principles generally accepted in the United States of America requires management to make certain estimates. In addition to the estimates we make in connection with fair value measurements and the accounting for goodwill and identifiable intangible assets, the use of estimates is also important in determining provisions for potential losses that may arise from litigation, regulatory proceedings and tax audits.

We estimate and provide for potential losses that may arise out of litigation, regulatory proceedings and tax audits to the extent that such losses are probable and can be estimated, in accordance with ASC 450, Accounting for Contingencies and ASC 740, Accounting for Uncertainty in Income Taxes. Significant judgment is required in making these estimates and our final liabilities may ultimately be materially different. Our total liability in respect of litigation and regulatory proceedings is determined on a case-by-case basis and represents an estimate of probable losses after considering, among other factors, the progress of each case or proceeding, our experience and the experience of others in similar cases or proceedings, and the opinions and views of legal counsel. Given the inherent difficulty of predicting the outcome of our litigation and regulatory matters, particularly in cases or proceedings in which substantial or indeterminate damages or fines are sought, we cannot estimate losses or ranges of losses for cases or proceedings where there is only a reasonable possibility that a loss may be incurred. See Legal Proceedings in Part II, Item 1 of this Quarterly Report on Form 10-Q for information on our judicial, regulatory and arbitration proceedings.

Table of Contents**Completed Purchases of Outstanding Indebtedness**

As of June 30, 2010, we have no outstanding indebtedness. On February 15, 2010 (the Redemption Date), we fully redeemed and cancelled all of our remaining outstanding public indebtedness pursuant to the optional redemption provisions of the indenture governing our public debt.

Stock Purchases and Completed Tender Offer

On January 29, 2010, we commenced a tender offer to purchase up to 15,000,000 shares of our outstanding common stock, at a price of \$4.60 per share. On March 1, 2010, the tender offer expired and we repurchased an aggregate of 8,539,667 shares of common stock, at a price of \$4.60 per share, for a total tender price of \$39.3 million. The repurchase of the shares tendered, combined with the 11,603,036 shares repurchased by us pursuant to board-authorized plans, has resulted in our repurchasing an aggregate of 20,142,703 shares of our common stock, constituting an aggregate of 32.5% of our shares that were outstanding before any repurchases were made under our repurchase programs. For the six months ended June 30, 2010 we have repurchased, including the tender offer shares, a total of 9,215,734 treasury shares which is 14.9% of our shares that were outstanding before any repurchases were made under our repurchase programs. As of June 30, 2010, we had approximately \$57.2 million in board-authorized repurchases remaining under our repurchase program. Refer to footnote #14 of the Financial Statements for the number of shares of our common stock that we repurchased subsequent to June 30, 2010.

Revenues from our Market-Making segment from continuing operations consist primarily of net gains and losses resulting from our market-making activities in ETFs, and options, futures, the net gains and losses resulting from trading of foreign currencies, futures and equities underlying the rights, ETFs and options for which we act as market-maker.

Net gain (loss) on trading represents trading gains net of trading losses and certain exchange imposed trading activity fees, where applicable, and are earned by us when we act as principal buying and selling stocks, rights, options, ETFs and futures as well as the aggregate gains/(losses) generated from other investments not derived specifically from market-making activities.

Other revenue at our Market-Making segment consists primarily of miscellaneous receipts not derived specifically from market-making activities.

Inventory financing costs is comprised mainly of interest expense relating to positions taken in connection with our options, futures and ETFs market-making operations.

Table of Contents**Three Months Ended June 30, 2010 Compared to June 30, 2009**

Net loss on trading in the second quarter of 2010 of \$7.3 million, compared to a net gain on trading of \$38.6 million in the second quarter of 2009, was primarily attributable to the unsuccessful results of some of our options market making strategies. The losses from the options trading more than offset the trading gains from foreign currency options trading activity and foreign based ETF market making activities. In addition, the second quarter 2010 net loss on trading included an unrealized pre-tax loss on our NYX shares of \$2.2 million which represents a decrease in the fair value of the NYX shares since March 31, 2010 versus a \$29.3 million unrealized pre-tax gain in the fair value of our NYX shares in the second quarter of 2009.

Other revenues decreased primarily as a result of reduced trading interest income and reduced dividend income from NYX shares due the sale of approximately 1.8 million shares of that position in the fourth quarter of 2009 and the first quarter 2010.

Inventory financing decreased primarily as a result of a decrease in our positions and lower rates relating to margin interest.

Six Months Ended June 30, 2010 Compared to June 30, 2009

Net gain on trading increased by \$14.7 million to \$20.2 million in the first six months of 2010 from \$5.5 million in the first six months of 2009, mainly attributable to the increase in revenues from our options market-making and foreign currency trading activity during the first six months of 2010. Net gain on principal transactions was mainly attributable to our foreign ETF market-making and foreign currency trading activity during the first six months of 2010 partly offset by losses from our domestic options market making activity. By comparison, the first six months of 2009 the trading gains from the foreign ETF market making were only partly offset by losses from our domestic options market making activity. The options market-making business during the first six months of 2009 generated a loss when our options market-making business experienced a period of transition and turnover in senior management.

Other revenues decreased primarily as a result of reduced trading interest income and reduced dividend income from NYX shares due the sale of approximately 1.8 million shares of that position in the fourth quarter of 2009 and first quarter 2010.

Inventory financing decreased primarily as a result of a decrease in our positions and lower rates relating to margin interest.
