Boulder Growth & Income Fund, Inc.**August 31, 2010 (Unaudited)****Note 1. Valuation and Investment Practices**

Portfolio Valuation: The net asset value of the Boulder Growth & Income Fund's (the Fund) common shares is determined by the Fund's co-administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund's net assets attributable to common stock by the number of common shares outstanding. The value of the Fund's net assets attributable to common shares is deemed to equal the value of the Fund's total assets less (i) the Fund's liabilities and (ii) the aggregate liquidation value of the outstanding Taxable Auction Market Preferred Stock. Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange or the NASDAQ Official Close Price on the day of valuation. In the absence of sales of listed securities and with respect to securities for which the most recent sale prices are not deemed to represent fair market value, and unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources. Investments for which market quotations are not readily available or do not otherwise accurately reflect the fair value of the investment are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are considered comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less at the time of purchase, are valued at amortized cost.

The Fund has adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) and follows the provisions of ASC 820, Fair Value Measurements and Disclosures (ASC 820). In accordance with ASC 820, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. Under certain circumstances, fair value may equal the mean between the bid and asked prices. ASC 820 established a three tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- i Level 1 Unadjusted quoted prices in active markets for identical investments
- i Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- i Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The Fund uses the value of investment securities, as of the end of each reporting period, in determining transfers in/out of Levels 1, 2 or 3. The following is a summary of the inputs used as of August 31, 2010 in valuing the Fund's investments carried at fair value:

Investments in Securities at Value*	Level 1	Level 2 - Significant Observable Inputs	Level 3 -	Total

* For detailed Industry descriptions, see the accompanying Portfolio of Investments.

Foreign Securities and Foreign Currency Translation: The Fund may invest a portion of its assets in foreign securities. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received.

New Investment Policy: Effective July 30, 2010, the Fund implemented a Board initiated and approved fundamental investment policy, which prohibits the Fund from investing more than 4% of its total assets (including leverage) in any single issuer at the time of purchase. The Fund's holdings as of July 30, 2010 were grandfathered into the policy and so any positions already greater than 4% of total assets are exempt from this limitation.

Restricted Securities: As of August 31, 2010, the Fund held securities that are considered restricted. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be revalued under methods approved by the Board of Directors as reflecting fair value. The Fund may invest, without limit, in restricted securities.

Issuer Description	Acquisition Date	Cost	2010 Market Value	August 31, 2010 Percentage of Net Assets Available to Common Stock and Preferred Shares
Ithan Creek Partners, L.P.	06/02/2008	\$5,000,000	\$6,303,738	3.0%

Use of Estimates: The preparation of financial statements is in accordance with generally accepted accounting principles in the United States of America, which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Unrealized Appreciation/ (Depreciation)

On August 31, 2010, based on cost of \$197,270,348 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$33,922,091 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$4,105,253, resulting in net unrealized appreciation of \$29,816,838.

Note 3. Recently Issued Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update Improving Disclosures about Fair Value Measurements that requires additional disclosures regarding fair value measurements. Certain required disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, and other required disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact it will have on its financial statement disclosures.

Item 2 - Controls and Procedures.

- (a) The Registrant's Principal Executive Officer and Principal Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.30a-3(c))) were effective as of a date within 90 days of the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as of the Evaluation Date.
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d))) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3 Exhibits.

- (a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as EX-99.CERT.
