Item 2.06. Material Impairments.

As described more fully in Exhibit 99.1 which is incorporated herein by reference, on December 20, 2010 Owens Corning announced that it has reached a definitive agreement with Boral Industries Ltd. to sell its Masonry Products business.

The divestiture will be in two stages. Owens Corning will sell a 50 percent stake in its Masonry Products business to a subsidiary of Boral Industries Ltd. (the Buyer) for \$45 million at closing. The Masonry Products business will then be operated jointly until early 2014. At that time, Owens Corning will sell its remaining 50 percent stake for \$45 million and may receive additional proceeds dependent upon the financial performance of the Masonry Products business in 2013.

The transaction is expected to close by December 31, 2010 and is subject to regulatory approval. At closing, the Buyer will assume operational control of the Masonry Products business. Owens Corning will record an impairment charge estimated to be \$115 million, which is primarily related to goodwill and other intangible assets assigned to the Masonry Products business in 2006 as part of fresh start accounting. Such impairment charge will be recorded in the fourth quarter 2010. The Company does not expect the impairment charge to result in material future cash expenditures.
