Set forth below are several non-GAAP financial measures that are included in the attached press release together with the most directly comparable GAAP financial measure.

For the three months ended September 30, 2011, Net Loss Attributable to Common Stockholders was \$8.1 million, or \$0.03 per diluted share. In our press release referred to above, we disclose Funds From Operations, or FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), as adjusted for acquisition costs and impairment losses, to be \$26.5 million, or \$0.10 per diluted common share and unit for the three months ended September 30, 2011. For the three months ended September 30, 2010, Net Loss Attributable to Common Stockholders was \$8.7 million, or \$0.04 per diluted common share. For the three months ended September 30, 2010, FFO, as adjusted for acquisition costs and impairment losses was \$21.6 million, or \$0.09 per diluted common share and unit.

For the nine months ended September 30, 2011, Net Loss Attributable to Common Stockholders was \$25.1 million, or \$0.11 per diluted share. In our press release referred to above, we disclose FFO, as adjusted for acquisition costs, impairment losses and debt modification costs, to be \$76.7 million, or \$0.29 per diluted common share and unit for the nine months ended September 30, 2011. For the nine months ended September 30, 2010, Net Loss Attributable to Common Stockholders was \$26.6 million, or \$0.13 per diluted common share. For the nine months ended September 30, 2010, FFO, as adjusted for acquisition costs, impairment losses and debt modification costs was \$69.1 million, or \$0.29 per diluted common share and unit.

The table below provides the change in our loss from continuing operations during the periods presented in our press release and supplemental information; amounts are not restated for current period discontinued operations (in thousands):

	Consolidated operating data, as previously reported, for the three months ended:				
	September 30, 2010	December 31, 2010	March 31, 2011	June 30, 2011	September 30, 2011
Loss from continuing operations	\$ (8,836)	\$ (12,146)	\$ (9,803)	\$ (9,614)	\$ (9,142)
	Consolidated operating data, as previously reported, for the three months ended:				
	September 30, 2009	December 31, 2009	March 31, 2010	June 30, 2010	September 30, 2010
Loss from continuing operations	\$ (18,088)	\$ (3,811)	\$ (7,704)	\$ (11,490)	\$ (8,836)
Change in loss from continuing operations	51.0%	(218.7)%	(27.2)%	16.3%	(3.5)%

Our percentage of debt to total assets was 45.3% and 44.5% at September 30, 2011 and December 31, 2010, respectively. In our press release referred to above, we disclose that the percentage of net debt to book value of gross assets, less cash and accumulated depreciation and amortization, was 37.1% and 36.8%, for the same periods. We believe that this percentage, calculated using debt, reduced for existing cash balances and mortgage premiums, net and total assets, excluding cash and accumulated depreciation and amortization, is a useful supplemental measure of our leverage. The market value of real estate assets often does not decline in the formulaic manner in which depreciation and amortization accrues with respect to those assets for GAAP accounting purposes. Accordingly, we believe that providing a supplemental

measure of our leverage, reduced for existing cash balances, based on the book value of our total assets, excluding existing cash balances and the cumulative effect of these depreciation and amortization accruals, provides investors with a useful supplemental measure of our leverage.
