NEWS RELEASE

The Hartford Announces Agreement With Allianz SE To Repurchase Junior Subordinated Debentures and Warrants

Hartford, Conn., April 2, 2012 The Hartford (NYSE: HIG) today announced it has entered into a purchase agreement with Allianz SE (together with certain of its affiliates, Allianz) to repurchase certain securities. The Hartford will repurchase, for aggregate consideration of approximately \$2.425 billion, all outstanding 10% fixed-to-floating rate junior subordinated debentures due 2068, with an aggregate principal amount of \$1.75 billion and all outstanding warrants entitling Allianz to purchase 69,351,806 shares of the company's common stock. The repurchases are expected to close on April 17, 2012.

The Hartford's agreement with Allianz, along with its planned financing of the debenture repurchase through the issuance of senior notes and junior subordinated debt, are designed to provide The Hartford with additional financial flexibility and an improved capital structure. These transactions are expected to reduce The Hartford's anticipated annual interest expense by replacing high interest coupon debt with lower coupon debt. In addition, the transactions are intended to result in a better balance between The Hartford's senior and subordinated debt.

The repurchase of the debentures is contingent on a successful consent solicitation to terminate a related replacement capital covenant entered into for the benefit of the holders of the company's outstanding 6.1% senior notes due 2041, or being otherwise permitted by the replacement capital covenant. The company intends to commence a consent solicitation from the holders of the 2041 notes.

The warrants will be repurchased for \$300 million as part of the company's existing \$500 million equity repurchase program. The company intends to complete on a timely basis the remaining authorization of approximately \$106 million.

The warrants and debentures were initially issued to Allianz in 2008. After giving effect to the repurchases, Allianz will hold approximately 5% of the company's outstanding common stock.

While the company expects to close the repurchases on April 17, 2012, the debenture repurchase may be deferred in certain circumstances at the option of the company with the payment of certain additional interest.

For additional information regarding the purchase agreement, please see the company's Current Report on Form 8-K filed today with the Securities and Exchange Commission (SEC).
