**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

1. The consolidated balance sheet of Graco Inc. and Subsidiaries (the Company) as of March 30, 2012 and the related statements of earnings for the thirteen weeks ended March 30, 2012 and April 1, 2011, and cash flows for the thirteen weeks ended March 30, 2012 and April 1, 2011 have been prepared by the Company and have not been audited.

In the opinion of management, these consolidated financial statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position of Graco Inc. and Subsidiaries as of March 30, 2012, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company's 2011 Annual Report on Form 10-K.

The results of operations for interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

10. The Company accounts for all derivatives, including those embedded in other contracts, as either assets or liabilities and measures those financial instruments at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation.

As part of its risk management program, the Company may periodically use forward exchange contracts and interest rate swaps to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity. The Company does not hold or issue derivative financial instruments for trading purposes. All other contracts that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as, normal purchases or sales. The Company's policy is to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The Company periodically evaluates its monetary asset and liability positions denominated in foreign currencies. The Company enters into forward contracts or options, or borrows in various currencies, in order to hedge its net monetary positions. These instruments are recorded at current market values and the gains and losses are included in other expense (income), net. The notional amount of contracts outstanding

**Table of Contents**

as of March 30, 2012, totaled \$21 million. The Company believes it uses strong financial counterparts in these transactions and that the resulting credit risk under these hedging strategies is not significant.

The Company uses significant other observable inputs to value the derivative instruments used to hedge interest rate volatility and net monetary positions, including reference to market prices and financial models that incorporate relevant market assumptions. The fair market value and balance sheet classification of such instruments follows (in thousands):

	Balance Sheet Classification	Mar 30, 2012	Dec 30, 2011
Gain (loss) on foreign currency forward contracts			
Gains		\$ 206	\$ 218
Losses		(71)	(120)
Net	Accounts receivable	\$ 135	\$ 98

11. In April 2011, the Company entered into a definitive agreement to purchase the finishing business operations of Illinois Tool Works Inc. (ITW) in a \$650 million cash transaction. In May 2011, the Company entered into a credit agreement, providing for a \$450 million unsecured revolving credit facility that would be available to the Company upon closing of the transaction. The transaction was completed on April 2, 2012, with funding provided by available cash balances and borrowings of \$350 million under the new credit agreement. On March 27, 2012, the Company's \$250 million credit agreement was terminated in connection with the execution of the new \$450 million credit agreement.

The new credit agreement is with a syndicate of lenders and expires in March 2017. It provides up to \$450 million of committed credit, available for general corporate purposes, working capital needs, share repurchases and acquisitions. The Company may borrow up to \$50 million under the swingline portion of the facility for daily working capital needs. Loans denominated in U.S. Dollars bear interest, at the Company's option, at either a base rate or a LIBOR-based rate. Loans denominated in currencies other than U.S. Dollars bear interest at a LIBOR-based rate. The base rate is an annual rate equal to a margin ranging from 0% to 1%, depending on the Company's cash flow leverage ratio (debt to earnings before interest, taxes, depreciation, amortization and extraordinary, non-operating or non-cash charges and expenses), plus the highest of (i) the bank's prime rate, (ii) the federal funds rate plus 0.5%, or (iii) one-month LIBOR plus 1.5%. In general, LIBOR-based loans bear interest at LIBOR plus 1% to 2%, depending on the Company's cash flow leverage ratio. The Company is also required to pay a fee on the undrawn amount of the loan commitment at an annual rate ranging from 0.15 percent to 0.40 percent, depending on the Company's cash flow leverage ratio.

In 2011, the Company entered into a note agreement and sold \$300 million of unsecured notes with maturities ranging from 2018 to 2026. The notes have a carrying amount of \$300 million and an estimated fair value of \$330 million as of March 30, 2012. Estimated fair value is based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities. The notes are classified as level 2 within the fair value hierarchy.

**Table of Contents**

The Company's debt agreements require the Company to maintain certain financial ratios as to cash flow leverage and interest coverage. The Company is in compliance with all financial covenants of its debt agreements.

12. On April 2, 2012, the Company closed on its \$650 million acquisition of the ITW finishing businesses. The acquired businesses had sales of \$375 million in 2011 and will expand and complement the Company's Industrial segment. The acquisition added Gema<sup>®</sup>, a global leader in powder coating technology, which represented approximately one-third of the purchased business. The remaining two-thirds is a collection of industrial liquid finishing businesses, which the United States Federal Trade Commission (FTC) has ordered to be held separate from Gema and other Graco businesses while the FTC investigates and considers a settlement proposal from Graco. In compliance with the FTC's order, the industrial liquid finishing businesses will be run independently by existing management under the supervision of a trustee who reports directly to the FTC.

During the hold separate period, the Company will not have a controlling interest in the liquid finishing businesses. Consequently, the Company's investment in those businesses will be recorded at cost and their financial results will not be consolidated with those of the Company. Income will be recognized based on dividends received from current earnings.

At the completion of its review, the FTC will issue a final decision and order that will identify the products, businesses and/or assets that Graco will be required to divest. The Company will have 180 days following the issuance of the final decision and order to complete such divestiture.

**Table of Contents****Item 2.****GRACO INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF****FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Overview**

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid materials. Management classifies the Company's business into three reportable segments: Industrial, Contractor and Lubrication. Key strategies include developing and marketing new products, expanding distribution globally, opening new markets with technology and channel expansion and completing strategic acquisitions.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

**Results of Operations**

Net sales, net earnings and earnings per share were as follows (in millions except per share amounts and percentages):

	Thirteen Weeks Ended		
	Mar 30, 2012	Apr 1, 2011	% Change
Net Sales	\$ 234.1	\$ 217.7	8 %
Net Earnings	\$ 35.4	\$ 37.3	(5)%
Diluted Net Earnings per Common Share	\$ 0.58	\$ 0.61	(5)%

All segments and geographic regions had revenue growth over last year. Net earnings were 5 percent lower than last year as higher expenses (product development, acquisition-related and interest) more than offset the favorable effects of higher sales and strong gross margins. Changes in currency translation rates did not have a significant effect on consolidated results for the quarter.

**Table of Contents****Consolidated Results**

Sales by geographic area were as follows (in millions):

	Thirteen Weeks Ended	
	Mar 30, 2012	Apr 1, 2011
Americas <sup>1</sup>	\$ 126.0	\$ 115.6
Europe <sup>2</sup>	54.7	53.3
Asia Pacific	53.4	48.8
Consolidated	\$ 234.1	\$ 217.7

<sup>1</sup> North and South America, including the U.S.

<sup>2</sup> Europe, Africa and Middle East

First quarter sales increased 8 percent, including increases of 9 percent in the Americas, 3 percent in Europe (6 percent at consistent translation rates) and 10 percent in Asia Pacific (8 percent at consistent translation rates).

Gross profit margin, expressed as a percentage of sales, was 56 percent, slightly lower than the first quarter last year. The unfavorable effect of higher material costs was partially offset by realized price increases and improved efficiencies.

Total operating expenses increased \$7 million for the quarter, including \$4 million related to the acquisition of ITW's finishing businesses and a \$2 million increase in product development expense (headcount and project expenses).

The effective income tax rate of 34 1/2 percent for the quarter is higher than the rate for the first quarter last year due to the expiration of the federal R&D credit.

**Table of Contents****Segment Results**

Certain measurements of segment operations compared to last year are summarized below:

**Industrial**

	Thirteen Weeks Ended	
	Mar 30, 2012	Apr 1, 2011
Net sales (in millions)		
Americas	\$ 59.4	\$ 52.9
Europe	36.8	34.4
Asia Pacific	37.9	35.5
Total	\$ 134.1	\$ 122.8
Operating earnings as a percentage of net sales	36 %	37 %

Industrial segment sales increased 9 percent, with increases of 12 percent in the Americas, 7 percent in Europe (10 percent at consistent translation rates) and 7 percent in Asia Pacific (6 percent at consistent translation rates).

Operating margins remained strong while the segment's investments in product development and marketing continued.

**Contractor**

	Thirteen Weeks Ended	
	Mar 30, 2012	Apr 1, 2011
Net sales (in millions)		
Americas	\$ 46.3	\$ 44.9
Europe	15.9	16.7
Asia Pacific	9.8	8.6
Total	\$ 72.0	\$ 70.2
Operating earnings as a percentage of net sales	17 %	16 %

Contractor segment sales increased 3 percent with gains of 3 percent in the Americas and 13 percent in Asia Pacific (11 percent at consistent translation rates). Sales were down 4 percent in Europe (down 1 percent at consistent translation rates) compared to the first quarter of 2011.

Operating margin improved as marketing spending was lower due to heavy product launch and promotion expenses in 2011 that were not repeated in 2012.

**Table of Contents****Lubrication**

	Thirteen Weeks Ended	
	Mar 30, 2012	Apr 1, 2011
Net sales (in millions)		
Americas	\$ 20.3	\$ 17.8
Europe	1.9	2.2
Asia Pacific	5.8	4.6
<b>Total</b>	<b>\$ 28.0</b>	<b>\$ 24.6</b>
Operating earnings as a percentage of net sales	22 %	21 %

Lubrication segment sales increased 14 percent, with increases of 14 percent in the Americas and 25 percent in Asia Pacific. Sales decreased 14 percent in Europe, on a relatively small base.

Higher volume and expense leveraging contributed to improvement in operating earnings as a percentage of sales.

**Liquidity and Capital Resources**

Net cash provided by operating activities was \$23 million in 2012 and \$14 million in 2011. Increases in receivables and inventories moderated compared to the first quarter of last year.

Since the end of 2011, inventories increased by \$5 million to meet higher demand, and accounts receivable increased by \$21 million due to higher sales levels.

At March 30, 2012, the Company had various lines of credit totaling \$470 million, of which \$462 million was unused.

In April 2011, the Company entered into a definitive agreement to purchase the finishing business operations of Illinois Tool Works Inc. (ITW) in a \$650 million cash transaction. In May 2011, the Company entered into a credit agreement, providing for a \$450 million unsecured revolving credit facility that would be available to the Company upon closing of the transaction. The transaction was completed on April 2, 2012, with funding provided by available cash balances and borrowings of \$350 million under the new credit agreement. On March 27, 2012, the Company's \$250 million credit agreement was terminated in connection with the execution of the amendment to the new \$450 million credit agreement.

The new credit agreement is with a syndicate of lenders and expires in March 2017. It provides up to \$450 million of committed credit, available for general corporate purposes, working capital needs, share repurchases and acquisitions. The Company may borrow up to \$50 million under the swingline portion of the facility for daily working capital needs. Loans denominated in U.S. Dollars bear interest, at the Company's option, at either a base rate or a LIBOR-based rate. Loans denominated in currencies other than U.S. Dollars bear interest at a LIBOR-based rate. The base rate is an annual rate equal to a margin ranging from 0% to 1%, depending on the Company's cash flow leverage ratio (debt to earnings before interest, taxes, depreciation, amortization and extraordinary, non-operating or non-cash charges and expenses), plus the highest of (i) the bank's prime rate, (ii) the federal funds rate plus 0.5%, or

**Table of Contents**

(iii) one-month LIBOR plus 1.5%. In general, LIBOR-based loans bear interest at LIBOR plus 1% to 2%, depending on the Company's cash flow leverage ratio. The Company is also required to pay a fee on the undrawn amount of the loan commitment at an annual rate ranging from 0.15 percent to 0.40 percent, depending on the Company's cash flow leverage ratio. The agreement requires the Company to maintain certain financial ratios as to cash flow leverage and interest coverage.

Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2012, including the needs of the finishing businesses acquired in April 2012.

**Outlook**

Management remains optimistic that the Company will achieve growth in all geographies and business segments for the full-year 2012, but cautions that the Western European economies and select construction markets are challenging. The demand environment in the Americas continues to be favorable, if not resilient. While the Company has noted some weakening of industrial project activity in the Asia Pacific region recently, management believes that growth will continue throughout 2012. Management will be watching worldwide order trends closely throughout the year and expects that product launches scheduled for the second half of 2012 will help to counteract softness.

**SAFE HARBOR CAUTIONARY STATEMENT**

A forward-looking statement is any statement made in this report and other reports that the Company files periodically with the Securities and Exchange Commission, as well as in press or earnings releases, analyst briefings, conference calls and the Company's Overview report to shareholders, which reflects the Company's current thinking on market trends and the Company's future financial performance at the time they are made. All forecasts and projections are forward-looking statements. The Company undertakes no obligation to update these statements in light of new information or future events.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 by making cautionary statements concerning any forward-looking statements made by or on behalf of the Company. The Company cannot give any assurance that the results forecasted in any forward-looking statement will actually be achieved. Future results could differ materially from those expressed, due to the impact of changes in various factors. These risk factors include, but are not limited to: economic conditions in the United States and other major world economies, currency fluctuations, political instability, changes in laws and regulations, and changes in product demand. In addition, risk factors related to the Company's acquisition of the ITW finishing businesses include: to what extent or when the required regulatory approvals will be obtained, whether and when the Company will be able to realize the expected financial results and accretive effect of the transaction, how customers, competitors, suppliers and employees will react to the transaction, economic changes in global markets, the extent of the acquired businesses required to be divested, whether the Company will be able to find a suitable purchaser(s) and structure the divestiture on acceptable terms, and whether the Company will be able to complete a divestiture in a time frame that is satisfactory to the Federal Trade Commission. Please refer to Item 1A of, and Exhibit 99 to, the Company's Annual Report on Form 10-K for fiscal year 2011 and Item 1A of this Quarterly Report on Form 10-Q for a more comprehensive discussion of these and other risk factors.

Investors should realize that factors other than those identified above and in Item 1A and Exhibit 99 might prove important to the Company's future results. It is not possible for management to identify each and every factor that may have an impact on the Company's operations in the future as new factors can develop from time to time.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes related to market risk from the disclosures made in the Company's 2011 Annual Report on Form 10-K.

**Item 4. Controls and Procedures**

**Evaluation of disclosure controls and procedures**

As of the end of the fiscal quarter covered by this report, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures. This evaluation was done under the supervision and with the participation of the Company's President and Chief Executive Officer, the Chief Financial Officer, the Vice President and Controller, and the Vice President, General Counsel and Secretary. Based upon that evaluation, they concluded that the Company's disclosure controls and procedures are effective.

**Changes in internal controls**

During the quarter, there was no change in the Company's internal control over financial reporting that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1A. Risk Factors**

There have been no material changes to the Company's risk factors from those disclosed in the Company's 2011 Annual Report on Form 10-K, except for changes in the status of the previously proposed (now completed) acquisition, as described below:

**Acquisition - Our acquisition of the finishing business operations of Illinois Tool Works Inc. is subject to regulatory approvals and the expected benefits from the acquisition may not be fully realized.**

On April 2, 2012, the Company closed on its \$650 million acquisition of the Illinois Tool Works Inc. (ITW) finishing businesses. The acquisition added Gema<sup>®</sup>, a global leader in powder coating technology, which represented approximately one-third of the purchase. The remaining two-thirds of the acquisition is a collection of industrial liquid finishing businesses, which the United States Federal Trade Commission (FTC) has ordered to be held separate from Gema and other Graco businesses while the FTC investigates and considers a settlement proposal from Graco. In compliance with the FTC's order, the industrial liquid finishing businesses will be run independently by existing management under the supervision of a trustee who reports directly to the FTC.

At the completion of its review, the FTC will issue a final decision and order that will identify the products, businesses and/or assets that Graco will be required to divest. The Company will have 180 days following the issuance of the final decision and order to complete such divestiture.

We cannot predict to what extent or when the required regulatory approvals will be obtained. Additional risk factors include: the extent of the acquired businesses required to be divested, whether the Company will be able to find a suitable purchaser(s) and structure the divestiture on acceptable terms, and whether the Company will be able to complete a divestiture in a time frame that is satisfactory to the FTC.

Significant changes to our financial condition as a result of global economic changes or difficulties in the integration or addition of the newly acquired businesses, including how customers, competitors, suppliers and employees react to the transaction, may affect our ability to obtain the expected benefits from the transaction or to satisfy the financial covenants included in the terms of the financing arrangements.

**Table of Contents****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**  
**Issuer Purchases of Equity Securities**

On September 18, 2009, the Board of Directors authorized the Company to purchase up to 6,000,000 shares of its outstanding common stock, primarily through open-market transactions. The authorization expires on September 30, 2012.

In addition to shares purchased under the Board authorizations, the Company purchases shares of common stock held by employees who wish to tender owned shares to satisfy the exercise price or tax withholding on option exercises.
