

SURREY BANCORP  
Form 10-Q  
May 14, 2012

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
for the quarterly period ended March 31, 2012

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE EXCHANGE ACT  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_

COMMISSION FILE NO. 000-50313

SURREY BANCORP

(Exact name of registrant as specified in its charter)

**North Carolina**  
(State or other jurisdiction of incorporation

**59-3772016**  
(IRS Employer Identification No.)

or organization)

**145 North Renfro Street, Mount Airy, NC 27030**

(Address of principal executive offices)

**(336) 783-3900**

(Registrant's telephone number)

Edgar Filing: SURREY BANCORP - Form 10-Q

Check whether the registrant: (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes [ X ] No [ ]

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes [ X ] No [ ]

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer [ ]

Accelerated filer [ ]

Non-accelerated filer [ ]

Smaller reporting company [ X ]

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes [ ] No [ X ]

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practical date:

On May 7, 2012 there were 3,542,984 common shares issued and outstanding.

**SURREY BANCORP**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**NOTE 1. BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and therefore, do not include all disclosures required by generally accepted accounting principles for a complete presentation of financial statements. In the opinion of management, the consolidated financial statements contain all adjustments necessary to present fairly the financial condition of Surrey Bancorp, (the Company), as of March 31, 2012, the results of operations for the three months ended March 31, 2012 and 2011, and its changes in stockholders' equity, comprehensive income and cash flows for the three months ended March 31, 2012 and 2011. The results of operations for the three months ended March 31, 2012, are not necessarily indicative of the results expected for the full year. These consolidated financial statements should be read in conjunction with the Company's audited financial statements and related disclosures for the year ended December 31, 2011, included in the Company's Form 10-K. The balance sheet at December 31, 2011, has been taken from the audited financial statements at that date.

***Organization***

Surrey Bancorp began operation on May 1, 2003 and was created for the purpose of acquiring all the outstanding shares of common stock of Surrey Bank & Trust. Stockholders of the bank received six shares of Surrey Bancorp common stock for every five shares of Surrey Bank & Trust common stock owned. The Company is subject to regulation by the Federal Reserve.

Surrey Bank & Trust (the Bank) was organized and incorporated under the laws of the State of North Carolina on July 15, 1996 and commenced operations on July 22, 1996. The Bank currently serves Surry County, North Carolina and Patrick County, Virginia and surrounding areas through five banking offices. As a state chartered bank, which is not a member of the Federal Reserve, the Bank is subject to regulation by the State of North Carolina Banking Commission and the Federal Deposit Insurance Corporation.

Surrey Investment Services, Inc., (Subsidiary) was organized and incorporated under the laws of the State of North Carolina on February 10, 1998. The subsidiary provides insurance services through SB&T Insurance and investment advice and brokerage services through LPL Financial.

On July 31, 2000, Surrey Bank & Trust formed Freedom Finance, LLC, a subsidiary operation specializing in the purchase of sales finance contracts from local automobile dealers.

The accounting and reporting policies of the Company, the Bank, and its subsidiaries follow generally accepted accounting principles and general practices within the financial services industry. Following is a summary of the more significant policies.

***Critical Accounting Policies***

The notes to the audited consolidated financial statements for the year ended December 31, 2011 contain a summary of the significant accounting policies. The Company believes our policies with respect to the methodology for the determination of the allowance for loan losses, and asset impairment judgments, including the recoverability of intangible assets involve a higher degree of complexity and require management to make difficult and subjective judgments which often require assumptions or estimates about highly uncertain matters. Changes in these judgments, assumptions or estimates could cause reported results to differ materially. These critical policies and their application are periodically reviewed with the Audit Committee and our Board of Directors. See our Annual Report for full details on critical accounting policies.

***Principles of Consolidation***

The consolidated financial statements include the accounts of the Company, the Bank and the subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

---

**SURREY BANCORP**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1. BASIS OF PRESENTATION, CONTINUED**

*Presentation of Cash Flows*

For purposes of reporting cash flows, cash and cash equivalents includes cash and amounts due from depository institutions (including cash items in process of collection). Overnight interest bearing deposits and federal funds sold are shown separately. Federal funds purchased are shown with securities sold under agreements to repurchase.

*Investment Securities*

Investments classified as available for sale are intended to be held for indefinite periods of time and include those securities that management may employ as part of asset/liability strategy or that may be sold in response to changes in interest rates, prepayments, regulatory capital requirements or similar factors. These securities are carried at fair value and are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments or significant other observable inputs.

Investment securities classified as held to maturity are those debt securities that the Bank has the ability and intent to hold to maturity. Accordingly, these securities are carried at cost adjusted for amortization of premiums and accretion of discount, computed by the interest-method over their contractual lives. At March 31, 2012 and December 31, 2011, the Bank had no investments classified as held to maturity.

*Loans Held for Sale*

The Bank originates and holds Small Business Administration (SBA) and United States Department of Agriculture (USDA) guaranteed loans in its portfolio in the normal course of business. Occasionally, the Bank sells the guaranteed portions of these loans into the secondary market. The loans are generally variable rate loans, which eliminates the market risk to the Bank and are therefore carried at cost. The Bank recognizes gains on the sale of the guaranteed portion upon the consummation of the transaction. The Bank plans to continue to originate guaranteed loans for sales, however no such loans were funded at March 31, 2012 and December 31, 2011.

*Loans Receivable*

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding principal amount adjusted for any charge-offs, the allowance for loan losses, and any deferred fees or cost on originated loans and unamortized premiums or discounts on purchased loans.

Loan origination fees and certain direct origination costs are capitalized and recognized as an adjustment of the yield of the related loan using the interest method. Discounts and premiums on any purchased residential real estate loans are amortized to income using the interest method over the remaining period to contractual maturity, adjusted for anticipated prepayments. Discounts and premiums on any purchased consumer loans are recognized over the expected lives of the loans using methods that approximate the interest method.

Interest is accrued and credited to income based on the principal amount outstanding. The accrual of interest on impaired loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due. When the interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received. Payments received on nonaccrual loans are first applied to principal and any residual amounts are then applied to interest. When facts and circumstances indicate the borrower has regained the ability to meet the required payments, the loan is returned to accrual status. Past due loans are determined on the basis of contractual terms.

---

SURREY BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**NOTE 1. BASIS OF PRESENTATION, CONTINUED**

*Allowance for Loan Losses*

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectability of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are classified as impaired. For loans that are classified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. The general component covers non-impaired loans and is based on historical loss experience adjusted for qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, the Company does not separately identify individual consumer and residential loans for impairment disclosures.

*Recent Accounting Pronouncements*

The following is a summary of recent authoritative pronouncements:

In September 2011, the Intangibles topic was amended to permit an entity to consider qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. These amendments were effective for the Company on January 1, 2012.

In April 2011, the criteria used to determine effective control of transferred assets in the Transfers and Servicing topic of the ASC was amended by ASU 2011-03. The requirement for the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms and the collateral maintenance implementation guidance related to that criterion were removed from the assessment of effective control. The other criteria to assess effective control were not changed. The amendments were effective for the Company on January 1, 2012 and had no effect on the financial statements.

**SURREY BANCORP**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1. BASIS OF PRESENTATION, CONTINUED**

*Recent Accounting Pronouncements, continued*

ASU 2011-04 was issued in May 2011 to amend the Fair Value Measurement topic of the ASC by clarifying the application of existing fair value measurement and disclosure requirements and by changing particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. The amendments were effective for the Company beginning January 1, 2012 and have been included in Note 8.

The Comprehensive Income topic of the ASC was amended in June 2011. The amendment eliminates the option to present other comprehensive income as a part of the statement of changes in stockholders' equity and requires consecutive presentation of the statement of net income and other comprehensive income. The amendments were applicable to the Company on January 1, 2012 and have been applied retrospectively. In December 2011, the topic was further amended to defer the effective date of presenting reclassification adjustments from other comprehensive income to net income on the face of the financial statements. Companies should continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect prior to the amendments while FASB redeliberates future requirements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

*Subsequent Events*

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. Management has reviewed events occurring through the date the financial statements were issued and no subsequent events have occurred requiring accrual or disclosure.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 2. SECURITIES

Debt and equity securities have been classified in the balance sheets according to management's intent. The amortized costs of securities available for sale and their approximate fair values at March 31, 2012 and December 31, 2011 follow:

	XXXXXXXXXX Amortized Cost	XXXXXXXXXX Unrealized Gains	XXXXXXXXXX Unrealized Losses	XXXXXXXXXX Fair Value
<b>March 31, 2012</b>				
Government-sponsored enterprises	\$ 2,000,000	\$ 800	\$ 3,695	\$ 1,997,105
Mortgage-backed securities	47,808	1,488	-	49,296
Corporate bonds	550,000	-	101,750	448,250
	\$ 2,597,808	\$ 2,288	\$ 105,445	\$ 2,494,651
<b>December 31, 2011</b>				
Government-sponsored enterprises	\$ 2,000,374	\$ 4,311	\$ -	\$ 2,004,685
Mortgage-backed securities	49,298	1,443	-	50,741
Corporate bonds	550,000	-	99,000	451,000
	\$ 2,599,672	\$ 5,754	\$ 99,000	\$ 2,506,426

At March 31, 2012 and December 31, 2011, substantially all government-sponsored enterprises securities were pledged as collateral on public deposits and for other purposes as required or permitted by law. The mortgage-backed securities were pledged to the Federal Home Loan Bank.

Maturities of mortgage-backed bonds are stated based on contractual maturities. Actual maturities of these bonds may vary as the underlying mortgages are prepaid. The scheduled maturities of securities (all available for sale) at March 31, 2012, were as follows:

	XXXXXXXXXX Amortized Cost	XXXXXXXXXX Fair Value
Due in one year or less	\$ -	\$ -
Due after one year through five years	2,000,000	1,997,105
Due after five years through ten years	583,993	483,283
Due after ten years	13,815	14,263
	\$ 2,597,808	\$ 2,494,651

The following table shows investments' gross unrealized losses and fair value, aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position, at March 31, 2012 and December 31, 2011. These unrealized losses on investment securities are a result of volatility in interest rates and primarily relate to corporate bonds issued by other banks at March 31, 2012 and December 31, 2011.

## SURREY BANCORP

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**NOTE 2. SECURITIES, CONTINUED**

Management considers the nature of the investment, the underlying causes of the decline in the market value and the severity and duration of the decline in market value in determining if impairment is other than temporary. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Based upon this evaluation, there are two securities in the portfolio with unrealized losses for a period greater than 12 months. We have analyzed each individual security for Other Than Temporary Impairment ( OTTI ) purposes by reviewing delinquencies, loan-to-value ratios, and credit quality and concluded that all unrealized losses presented in the tables above are not related to an issuer's financial condition but are due to changes in the level of interest rates and no declines are deemed to be other than temporary in nature.

The Company had no gross realized gains or losses from the sales of investment securities for the three month periods ended March 31, 2012 and 2011.

**NOTE 3. EARNINGS PER SHARE**

Basic earnings per share for the three months ended March 31, 2012 and 2011 were calculated by dividing net income available to common stockholders by the weighted average number of shares outstanding during the period.

The computation of diluted earnings per share is similar to the computation of basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if dilutive potential common shares had been issued. The numerator is adjusted for any changes in income or loss that would result from the assumed conversion of those potential common shares. The potential dilutive shares are represented by common stock options and by the Series A and D convertible preferred stock. Each share of the Series A preferred is convertible into 2.2955 shares of common stock. Each share of Series D preferred is convertible into 1.10 shares of common stock.

**NOTE 4. COMMITMENTS AND LETTERS OF CREDIT**

At March 31, 2012, the Company had commitments to extend credit, including unused lines of credit of approximately \$33,888,000. Letters of credit totaling \$1,232,886 were outstanding.

**NOTE 5. LOANS**

The major components of loans in the balance sheets at March 31, 2012 and December 31, 2011 are below.

	XXXXXXXXXXXXX 2012	XXXXXXXXXXXXX 2011
Commercial	\$ 78,907,056	\$ 73,756,422
Real estate:		
Construction and land development	5,653,390	6,213,443
Residential, 1-4 families	37,943,451	39,499,189
Residential, 5 or more families	2,170,552	2,214,365
Farmland	2,377,137	2,722,872
Nonfarm, nonresidential	47,357,267	47,867,333

Edgar Filing: SURREY BANCORP - Form 10-Q

Agricultural	27,605	29,493
Consumer, net of discounts of \$22,742 in 2012 and \$21,742 in 2011	6,858,601	7,041,846
	181,295,059	179,344,963
Deferred loan origination costs, net of (fees)	27,496	(18,176)
	181,322,555	179,326,787
Allowance for loan losses	(3,901,758)	(3,880,581)
	\$ 177,420,797	\$ 175,446,206

## SURREY BANCORP

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 5. LOANS, CONTINUED

Residential, 1-4 family loans pledged as collateral against FHLB advances approximated \$18,295,000 and \$19,112,000 at March 31, 2012 and December 31, 2011, respectively.

## NOTE 6. ALLOWANCE FOR LOAN LOSSES

The activity of the allowance for loan losses by loan components during the three months ending March 31, 2012 and 2011 was as follows:

***Credit Quality Indicators:***

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. Loans classified as substandard or special mention are reviewed quarterly by the Company for further impairment or improvement to determine if appropriately classified. All other loans greater than \$500,000, commercial lines greater than \$250,000 and personal lines of credit greater than \$100,000, and unsecured loans greater than \$100,000 are specifically reviewed at least annually to determine the appropriate loan grading. In addition, during the renewal process of any loan, as well as when a loan becomes past due, the Company will evaluate the loan grade.

## NOTE 6. ALLOWANCE FOR LOAN LOSSES, CONTINUED

Loans excluded from the scope of the annual review process above are generally classified as pass credits until: (a) they become past due; (b) management becomes aware of deterioration in the credit worthiness of the borrower; or (c) the customer contacts the Company for a modification. In these circumstances, the loan is specifically evaluated for potential classification as to special mention, substandard or even charged off. The Company uses the following definitions for risk ratings:

**Special Mention.** Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

**Substandard.** Loans classified as substandard are inadequately protected by the current net worth and payment capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

**Doubtful.** Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans by credit quality indicator are provided in the following table.

	xxxxxxxxxxxx	xxxxxxxxxxxx	xxxxxxxxxxxx	xxxxxxxxxxxx	xxxxxxxxxxxx
	Total	Pass Credits	Special Mention	Substandard	Doubtful
<b>March 31, 2012</b>

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 7. TROUBLED DEBT RESTRUCTURINGS

As a result of adopting the amendments in ASU 2011-02, the Bank reassessed all restructurings that occurred on or after the beginning of the fiscal year of adoption (January 1, 2011) to determine whether they are considered troubled debt restructurings (TDRs) under the amended guidance. The Bank identified no TDRs for which the allowance for loan losses had previously been measured under a general allowance methodology. For the quarters ended March 31, 2012 and 2011, the following table presents loans modified during the period that were considered to be troubled debt restructurings.

	For the three months ended March 31, 2012			For the three months ended March 31, 2011		
	Number of Contracts	Pre- Modification Outstanding Recorded Investment	Post- Modification Outstanding Recorded Investment	Number of Contracts	Pre- Modification Outstanding Recorded Investment	Post- Modification Outstanding Recorded Investment
Troubled Debt Restructurings						
Construction and development	1	\$ 237,883	\$ 237,883	1	\$ 15,929	\$ 15,929
1-4 Family residential	1	113,743	116,438	-	-	-
Nonfarm, nonresidential	1	96,028	96,028	5	1,494,263	1,331,531
Commercial and industrial	1	266,702	266,702	5	481,706	307,218

During the three months ended March 31, 2012, the Bank modified four loans that were considered to be troubled debt restructurings. The terms for these loans were extended.

During the three months ended March 31, 2012, no loans that had previously been restructured were in default.

In the determination of the allowance for loan losses, management considers troubled debt restructurings and subsequent defaults in these restructurings by adjusting the loan grades of such loans, which figure into the environmental factors associated with the allowance. Defaults resulting in charge-offs affect the historical loss experience ratios which are a component of the allowance calculation. Additionally, specific reserves may be established on restructured loans evaluated individually.

---

**SURREY BANCORP**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 8. FAIR VALUE**

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Securities available for sale, trading securities and derivatives, if present, are recorded at fair value on a recurring basis. Additionally, from time to time, the Company may be required to record at fair value other assets on a nonrecurring basis, such as loans held for sale, loans held for investment and certain other assets. These nonrecurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets.

***Fair Value Hierarchy***

Under the Fair Value Measurements and Disclosures Topic of the FASB ASC, the Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Following is a description of valuation methodologies used for assets and liabilities recorded at fair value.

***Investment Securities Available for Sale***

Investment securities available for sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include mortgage-backed securities issued by government sponsored entities, municipal bonds and corporate debt securities. Securities classified as Level 3 include asset-backed securities in less liquid markets.

***Loans***

The Company does not record loans at fair value on a recurring basis. However, from time to time, a loan is considered impaired and an allowance for loan losses is established. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Once a loan is identified as individually impaired, management measures impairment in accordance with the Receivables Topic of the FASB ASC. The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans. At March 31, 2012 substantially all of the total impaired loans were evaluated based on the fair value of the collateral. In accordance with the Fair Value and Measurement Topic of the FASB ASC, impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When the fair value of the collateral is based on an observable market price or a current appraised value, the Company records the impaired loan as nonrecurring Level 2. When an appraised value is not available or

## Edgar Filing: SURREY BANCORP - Form 10-Q

management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the impaired loan as nonrecurring Level 3.

## SURREY BANCORP

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 8. FAIR VALUE, CONTINUED

*Servicing Assets*

A valuation of loan servicing rights is performed on an individual basis due to the small number of loans serviced. Loans are evaluated on a discounted earnings basis to determine the present value of future earnings. The present value of the future earnings is the estimated market value for the loan, calculated using consensus assumptions that a first party purchaser would utilize in evaluating a potential acquisition of the servicing. As such, the Company classifies loan servicing rights as Level 3.

*Foreclosed Assets*

Foreclosed assets are adjusted to fair value upon transfer of the loans to foreclosed assets. Subsequently, foreclosed assets are carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price or a current appraised value, the Company records the foreclosed asset as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the foreclosed asset as nonrecurring Level 3.

*Assets and Liabilities Recorded at Fair Value on a Recurring Basis*

The table below presents the recorded amount of assets and liabilities measured at fair value on a recurring basis.

	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX

## NOTE 8. FAIR VALUE, CONTINUED

Changes in Level 3 assets and liabilities measured at fair value on a recurring basis for the three month period ended March 31, 2012 and 2011, was \$1,512 and \$732, respectively, which was amortized to other income.

*Assets and Liabilities Recorded at Fair Value on a Nonrecurring Basis*

The Company may be required, from time to time, to measure certain assets or liabilities at fair value on a nonrecurring basis in accordance with U.S. generally accepted accounting principles. These include assets and liabilities that are measured at the lower of cost or market that were recognized at fair value below cost at the end of the period. Assets and liabilities measured at fair value on a nonrecurring basis are included in the table below.

	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX

*Financial Instruments*

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

*Cash and due from banks:* The carrying amounts reported in the balance sheet for cash and due from banks approximate their fair values.

## Edgar Filing: SURREY BANCORP - Form 10-Q

*Interest-bearing deposits with banks:* Fair values for time deposits are estimated using a discounted cash flow analysis that applies interest rates currently being offered on certificates to a schedule of aggregated contractual maturities on such time deposits.

*Federal funds sold:* Due to the short-term nature of these assets, the carrying value approximates fair value.

*Securities:* Fair values for securities, excluding restricted equity securities, are based on quoted market prices, where available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. The carrying values of restricted equity securities approximate fair values.

## SURREY BANCORP

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 8. FAIR VALUE, CONTINUED

*Loans receivable:* For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying amounts. The fair values for other loans are estimated using discounted cash flow analysis, based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Loan fair value estimates include judgments regarding future expected loss experience and risk characteristics. The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows.

*Bank owned life insurance:* The carrying amount reported in the balance sheet approximates the fair value as it represents the cash surrender value of the life insurance.

*Deposit liabilities:* The fair values disclosed for demand and savings deposits are, by definition, equal to the amount payable on demand at the reporting date. The fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated contractual maturities on such time deposits.

*Federal funds purchased, securities sold under agreements to repurchase and short-term debt:* The carrying amounts of federal funds purchased, securities sold under agreements to repurchase and short-term debt approximate their fair values.

*Long-term debt:* The fair value of long-term debt is estimated using a discounted cash flow calculation that applies interest rates currently available on similar instruments.

*Other liabilities:* For fixed-rate loan commitments, fair value considers the difference between current levels of interest rates and the committed rates. The carrying amounts of other liabilities approximate fair value.

The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments as of March 31, 2012 and December 31, 2011. This table excludes financial instruments for which the carrying amount approximates fair value.

	XXXXXXXXXX	XXXXXXXXXX	XXXXXXXXXX	XXXXXXXXXX	XXXXXXXXXX

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Introduction**

This discussion, analysis and related financial information are presented to explain the significant factors which affected Surrey Bancorp's financial condition and results of operations for the three months ending March 31, 2012 and 2011. This discussion should be read in conjunction with the financial statements and related notes contained within this report.

Surrey Bancorp ( Company ) is a North Carolina corporation, located in Mount Airy, North Carolina. The Company was incorporated on February 6, 2003, and began business on May 1, 2003.

Surrey Bank & Trust ( Bank ) is a North Carolina state chartered bank, located in Mount Airy, North Carolina. The Bank was chartered on July 15, 1996, and began operations on July 22, 1996. The Bank has two operating subsidiaries: Surrey Investment Services, Inc. and Freedom Finance, LLC.

Effective June 5, 1998, the Bank became a member of the Federal Home Loan Bank.

**Highlights**

Certain information contained in this discussion may include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are generally identified by phrases such as the Company expects, the Company believes or words of similar import. Such forward-looking statements involve known and unknown risks including, but not limited to, changes in general economic and business conditions, interest rate fluctuations, competition within and from outside the banking industry, new products and services in the banking industry, risk inherent in making loans such as repayment risks and fluctuating collateral values, problems with technology utilized by the Company, changing trends in customer profiles and changes in laws and regulations applicable to the Company. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reliable assumptions within the bounds of its knowledge of its business and operations, there can be no assurance that actual results, performance or achievements of the Company will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

Net income available for common stockholders for the three months ended March 31, 2012, was \$618,452 or \$0.16 per diluted share outstanding, compared to a \$506,963 or \$0.13 per diluted share outstanding, for the same period in 2011. Earnings for the three months ended March 31, 2012, are approximately 21.9% higher than for the same period in 2011. The increase results from an improved net interest margin and a reduction in the provision for loan losses. Net interest income increased from \$2,176,628 in the first quarter of 2011 to \$2,320,600 in 2012. A reduction in the cost of deposits from the first quarter of 2011 to 2012 contributed to the margin improvement. Asset yields decreased from 5.37% to 5.31% from 2011 to 2012 due to the change in earning asset mix from higher yielding loans to lower yielding deposits in other banks. The cost of funds continued to decrease from 1.24% in the first quarter of 2011 to 0.95% in the first quarter of 2012. The provision decreased from \$158,897 in the first quarter of 2011 to \$67,218 in 2012. This decrease is due to a reduction in net loan charge offs during the first quarter of 2012 compared to the first quarter of 2011. Net loan charge offs in the first quarter of 2011 amounted to \$2,193,796 compared to only \$46,041 in 2012. The large charge offs in 2011 reduced the amount of impaired loans requiring specific reserves and improved the overall credit quality of the loan portfolio. At March 31, 2012, the percentage of loans receiving pass credit risk grades was 97.9%, compared to 95.3% at March 31, 2011. The reserve was further impacted by an increase in loans carrying government guarantees. At March 31, 2012, the guaranteed portion of loans equaled 22.2% of total loans compared to 19.1% at March 31, 2011. Noninterest income increased 11.2% in 2012 primarily due to an increase in revenues from the Bank's insurance subsidiary. Noninterest expenses increased 7.1% from \$1,730,372 in the first quarter of 2011, to \$1,853,644 in 2012. This increase is primarily attributable to increased salaries and benefit costs, occupancy repair and maintenance costs, and expenses related to the charge off of overdrawn deposit accounts. Salaries and benefit cost increased as a result of normal salary adjustments. Foundation related repairs to the building housing the operations of Freedom Finance, LLC account for the increased occupancy cost. Deposit overdrafts of approximately \$70,000 were charged off in the first quarter of 2012 attributable to one commercial account. No such charge offs occurred in 2011.

---

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**

On March 31, 2012, Surrey Bancorp's assets totaled \$228,421,181 compared to \$224,727,764 on December 31, 2011. Net loans were \$177,420,797 compared to \$175,446,206 on December 31, 2011. This increase was primarily attributable to an increase in gross loans of approximately \$1,950,000. Commercial loans increased 6.9% during the three month period ended March 31, 2012; however real estate loans decreased over 3.9% leading to an overall increase in gross loans of 1.1%. Interest-bearing deposits with banks decreased from \$30,757,636 at December 31, 2011 to \$24,094,705 at March 31, 2012, due to an increase in deposits due from banks of approximately \$6,819,000. This increase resulted from changing our correspondent banking relationship for deposit clearings during the quarter to a correspondent that does not automatically sweep the account to overnight funds. In addition, deposit clearings at the end of March were above the bank's normal average.

Total deposits on March 31, 2012, were \$187,184,571 compared to \$183,938,376 at the end of 2011. This increase is attributable to increases in all primary deposit categories except certificates of deposit. Demand deposits increased 10.7% from 2011 totals, while savings deposits, including money market accounts, increased 19.6%. Certificates of deposit decreased 9.4% from December 31, 2011 totals.

Common stockholders' equity increased by \$618,892, or 2.35%, during the three months ended March 31, 2012. The increase is comprised of net income of \$664,057 and other stock based compensation of \$6,530. Decreases included the payment and accrual of preferred dividends of \$45,605 and adjustments to Accumulated Other Comprehensive Income of \$6,090. The net increase resulted in a common stock book value of \$7.63 per share, up from \$7.45 on December 31, 2011.

The book value per common share is calculated by taking total stockholders' equity, subtracting all preferred equity, and then dividing by the total number of common shares outstanding at the end of the reporting period.

Preferred stockholders' equity remained the same during the period ended March 31, 2012. Combined preferred and common stockholders' equity increased \$618,892, or 2.057%, for the three months ended March 31, 2012.

**Financial Condition, Liquidity and Capital Resources**

**Investments**

The Bank maintains a portfolio of securities as part of its asset/liability and liquidity management programs which emphasize effective yields and maturities to match its needs. The composition of the investment portfolio is examined periodically and appropriate realignments are initiated to meet liquidity and interest rate sensitivity needs for the Bank.

Available for sale securities are reported at fair value and consist of bonds, notes, debentures, and certain equity securities not classified as trading securities or as held to maturity securities.

Unrealized holding gains and losses, net of tax, on available for sale securities are reported as a net amount in a separate component of stockholders' equity. Realized gains and losses on the sale of available for sale securities are determined using the specific-identification method. Premiums and discounts are recognized in interest income using the interest method over the period to maturity or to call dates.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**

Declines in the fair value of individual held to maturity and available for sale securities below cost that are other than temporary are reflected as write-downs of the individual securities to fair value. Related write-downs are included in earnings as realized losses.

Investments in available for sale securities of \$2,494,651 consisted of U.S. Governmental Agency obligations with maturities ranging from 23 to 36 months, corporate bonds with maturities of 6.25 years to 6.50 years, that reprice quarterly, and GNMA adjustable rate mortgage securities, which adjust annually.

**Loans**

Net loans outstanding on March 31, 2012, were \$177,420,797 compared to \$175,446,206 on December 31, 2011. The Bank maintains a loan portfolio dominated by real estate and commercial loans diversified among various industries. Approximately 73.5% of the Bank's loans as of March 31, 2012, are fixed rate loans with 26.5% floating with the Bank's prime rate or other appropriate internal or external indices.

**Deposits**

Deposits on March 31, 2012, were \$187,184,571, compared to \$183,938,376 on December 31, 2011. The March total comes from a base of approximately 12,269 accounts compared to 12,126 accounts at December 31, 2011. Interest-bearing accounts represented 80.6% of March 31, 2012 period end deposits versus 83.3% at December 31, 2011.

**Federal Funds Purchased**

The Company had no federal funds purchased at March 31, 2012 or December 31, 2011. Federal funds purchased were not utilized due to the adequate liquidity resulting from the increase in deposits.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**
**Stockholders' Equity**

Surrey Bancorp and Surrey Bank & Trust are subject to various regulatory capital requirements administered by federal banking agencies. The Company and the Bank maintain strong capital positions which exceed all capital adequacy requirements of federal regulatory authorities. The Company's and the Bank's capital ratios are presented in the following table.

	<b>Ratio</b>	<b>Minimum Required For Capital Adequacy Purposes</b>
<b>March 31, 2012:</b>		
Total Capital		
(to Risk-Weighted Assets)		
Surrey Bancorp (Consolidated)	18.90%	8.0%
Surrey Bank & Trust	18.89%	8.0%

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED****Asset Quality**

The Company actively monitors delinquencies, nonperforming assets and potential problem loans. Unsecured loans past due more than 90 days are placed into nonaccrual status. Secured loans reach nonaccrual status when they surpass 120 days past due. When facts and circumstances indicate the borrower has regained the ability to meet the required payments, the loan is returned to accrual status.

Management reviews all criticized loans on a periodic basis for possible charge offs. Any unsecured loans that are 90 plus days past due must be charged off in full. If secured, a reserve equal to the potential loss will be established. Any charge off must be reported to the Board of Directors within 30 days. On a monthly basis, a management report of recovery actions is provided to the Board of Directors.

Nonperforming assets are detailed below.

	XXXXXXXXXX March 31, 2012	XXXXXXXXXX December 31, 2011
Nonaccrual loans	\$ 4,147,649	\$ 4,395,210
Loans past due 90 days and still accruing	51,459	49,881
Foreclosed assets	451,642	560,018
Total	\$ 4,650,750	\$ 5,005,109
Total assets	\$ 228,421,181	\$ 224,727,764
Ratio of nonperforming assets to total assets	2.04%	2.23%

At March 31, 2012, the Bank had loans totaling \$4,147,649 in nonaccrual status. The amount of loans over 90 days but less than 120 days past due equals \$2,064,214. Foreclosed assets at March 31, 2012 primarily include 1-4 family dwellings. Loans that were considered impaired but were still accruing interest at March 31, 2012, including troubled debt restructurings, totaled \$3,296,425. A loan is considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due under the contractual terms of the loan agreement. Specific reserves on nonaccrual and impaired loans totaled \$804,797 at quarter end, or 10.8% of the balances outstanding.

Nonaccrual and impaired loans still accruing are summarized below:

	XXXXXXXXXX March 31, 2012	XXXXXXXXXX December 31, 2011
Construction and development	\$ 91,428	\$ 92,504
1-4 family residential	804,834	705,326
Nonfarm, nonresidential	3,350,839	3,627,890
Commercial and industrial	3,191,164	3,160,174
Consumer	5,809	10,452
Total impaired and nonaccrual	\$ 7,444,074	\$ 7,596,346

At March 31, 2012, consumer loans totaling \$261,389 are included above that were not individually evaluated for impairment in the determination of the allowance for loan loss reserve (See Note 6). These loans are home equity loans collateralized by 1-4 family properties which are considered consumer loans. These loans are on non-accrual status at the end of the quarter and therefore considered impaired.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**

The loan portfolio is dominated by real estate and commercial loans. The general composition of the loan portfolio is as follows:

	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX
	March 31, 2012		December 31, 2011	
Construction and development	\$ 5,653,390	3.12%	\$ 6,213,443	3.46%
1-4 family residential	37,943,451	20.93%	39,499,189	22.02%
Multi-family	2,170,552	1.20%	2,214,365	1.23%
Farmland	2,377,137	1.31%	2,722,872	1.52%
Nonfarm, non-residential	47,357,267	26.12%	47,867,333	26.69%
Total real estate	95,501,797	52.68%	98,517,202	54.92%
Agricultural	27,605	0.02%	29,493	0.02%
Commercial and industrial	78,907,056	43.52%	73,756,422	41.13%
Consumer	6,858,601	3.78%	7,041,846	3.93%
Total loans	\$ 181,295,059	100.00%	\$ 179,344,963	100.00%

The concentrations represented above do not, based on management's assessment, expose the Bank to any unusual concentration risk. Based on the Bank's asset size, the only concentration that is above area peer group analysis is commercial and industrial loans. Management recognizes the inherent risk associated with commercial lending, including whether or not a borrower's actual results of operations will correspond to those projected by the borrower when the loan was funded; economic factors such as the number of housing starts and increases in interest rates, etc.; depression of collateral values; and completion of projects within the original cost and time estimates. The Bank mitigates some of that risk by actively seeking government guarantees on these loans. Collectively, the Bank has approximately \$50,594,000 in loans that carry government guarantees. The guaranteed portion of these loans amounts to \$40,268,000 at March 31, 2012. Loan guarantees by loan class are below:

	XXXXXXXXXXXX	XXXXXXXXXXXX	XXXXXXXXXXXX
	March 31, 2012	Guaranteed Portion Amount	Percentage
Construction and development	\$ 5,653,390	\$ -	-%
1-4 family residential	37,943,451	892,883	2.35%
Multi-family	2,170,552	22,446	1.03%
Farmland	2,377,137	456,255	19.19%
Nonfarm, non-residential	47,357,267	14,692,060	31.02%
Total real estate	95,501,797	16,063,644	16.82%
Agricultural	27,605	-	-%
Commercial and industrial	78,907,056	24,204,062	30.67%
Consumer	6,858,601	-	-%
Total loans	\$ 181,295,059	\$ 40,267,706	22.21%

Loans in higher risk categories, such as non-owner occupied nonfarm, non-residential property and commercial real estate construction represent a small segment of our loan portfolio. Commercial construction loans included in construction and development loans amounted to \$2,748,738 at March 31, 2012. Non-owner occupied nonfarm, non-residential properties included in nonfarm, non-residential loans above amounted to \$9,551,471 at March 31, 2012.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**

The consolidated provision for loan losses was \$67,218 for the first three months of 2012 compared to a provision of \$158,897 for the same period in 2011. The decrease in the loan loss provision is primarily attributable to a stabilization of impaired loans in 2012 and an improvement in credit quality. Net loan charge offs in the first quarter of 2011 amounted to \$2,193,796 compared to only \$46,041 in 2012. At March 31, 2012, the percentage of loans receiving pass credit risk grades was 97.9%, compared to 95.3% at March 31, 2011. The reserve was further impacted by an increase in loans carrying government guarantees. At March 31, 2012, the guaranteed portion of loans equaled 22.2% of total loans compared to 19.1% at March 31, 2011. Reserves for nonaccrual and impaired loans at March 31, 2012 amounted to \$804,796, compared to \$813,174 at December 31, 2011.

The reserve for loan losses on March 31, 2012, was \$3,901,758 or 2.15% of period end loans. This percentage is derived from total loans. Approximately \$50,594,000 of the total loans outstanding at March 31, 2012, are government guaranteed loans for which the Bank's exposure ranges from zero% to 49% of the outstanding balance. When the guaranteed portions of the loans are removed from the equation, the loan loss reserve is approximately 2.76% of outstanding loans, which was also the reserve percentage at December 31, 2011.

The level of reserve is established based upon management's evaluation of historical loss data and the effects of certain environmental factors on the loan portfolio. The historical loss portion of the reserve is computed using the average loss data from the past applied to its corresponding category of loans. However, historical losses only reflect a small portion of the Bank's loan loss reserve, although that portion did increase during the first three months of 2011 due to the effect of charged off loans. The environmental factors represent risk from external economic influences on the credit quality of the loan portfolio. These factors include the movement of interest rates, unemployment rates, past due and charge off trends, loan grading migrations, movement in collateral values and the Bank's exposure to certain loan concentrations. Positive or negative movements in any of these factors have an effect on the credit quality of the loan portfolio. As a result, management continues to actively monitor the Bank's asset quality affected by these environmental factors. The following table is a summary of loans past due at March 31, 2012 and December 31, 2011.

	XXXXXXXXXXXX March 31, 2012		XXXXXXXXXXXX December 31, 2011	
	30-89 Days	90 Days Plus	30-89 Days	90 Days Plus
Construction and development	\$ 2,343	\$ -	\$ 297,139	\$ -
1-4 family residential	904,879	304,957	699,287	72,774
Nonfarm, non-residential	462,600	-	217,968	-
Commercial and industrial	617,712	213,595	820,393	218,516
Consumer	222,924	34,502	399,815	15,790
Other loans	-	-	-	-
	\$ 2,210,458	\$ 553,054	\$ 2,434,602	\$ 307,080
Non-accrual loans included above	\$ 268,154	\$ 501,596	\$ 310,550	\$ 257,199
Guaranteed portion	\$ 532,562	\$ 100,398	\$ 422,069	\$ 33,407
Ratio to total loans	1.22%	0.31%	1.36%	0.17%
Ratio to total loans, net of guarantees	1.19%	0.32%	1.44%	0.19%

Past due loans are reviewed weekly and collection efforts assessed to determine potential problems arising in the loan portfolio. Proactive monitoring of past due accounts allows management to anticipate trends within the portfolio and make appropriate adjustments to collection efforts and to the allowance for loan losses. Collectively, past dues increased slightly from December 31, 2011 to March 31, 2012. The largest increases were in 1-4 family residential loans and nonfarm, non-residential loans. The increases in 1-4 family past dues are primarily attributable to two customers, which accounted for approximately \$335,000 of the 30-89 day past dues at March 31, 2012. Those customers were not past due at December 31, 2011. Approximately, \$155,000 of the non-farm, non-residential loans past due at March 31, 2012 were only 31 days late. Overall past dues increased approximately 0.8% from the end of 2011 to March 31, 2012. At March 31, 2012, the guaranteed portion of total past due loans equals 23% compared to 17% at December 31, 2011.

---

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, CONTINUED**

Management believes that its loan portfolio is sufficiently diversified such that a downturn in a particular market or industry will not have a significant impact on the loan portfolio or the Bank's financial condition. Management believes that its provision and reserve offer an adequate allowance for loan losses and provide an appropriate reserve for the loan portfolio. The Bank lends primarily in Surry County, North Carolina and Patrick Country, Virginia and surrounding counties.

**Interest Rate Sensitivity and Liquidity**

One of the principal duties of the Bank's Asset/Liability Committee is management of interest rate risk. The Bank utilizes quarterly asset/liability reports prepared by a regional correspondent bank to project the impact on net interest income that might occur with hypothetical interest rate changes. The committee monitors and manages asset and liability strategies and pricing.

Another function of the Asset/Liability Committee is maintaining adequate liquidity and planning for future liquidity needs. Having adequate liquidity means the ability to meet current funding needs, including deposit withdrawals and commitments, in an orderly manner without sacrificing earnings. The Bank funds its investing activities, including making loans and purchasing investments, by attracting deposits and utilizing short-term borrowings when necessary.

At March 31, 2012, the liquidity position of the Company was good, in management's opinion, with short-term liquid assets of \$33,892,763 compared to \$33,736,588 at December 31, 2011. Deposit increases of \$3,246,195 were offset by loan increases and an increased investment in Bank Owned Life Insurance (BOLI). To provide supplemental liquidity, the Bank has six unsecured lines of credit with correspondent banks totaling \$25,500,000. At March 31, 2012, there were no advances against these lines. Additionally, the Bank has a secured borrowing arrangement with the Federal Home Loan Bank (FHLB). The maximum credit available under this agreement approximates \$12,743,000 of which \$8,100,000 of advances had been taken down at March 31, 2012.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**  
Not Applicable as a Smaller Reporting Company .

**ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by the report, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15e. Based on the evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective. There have not been any changes in the Company's internal control over financial reporting that occurred during the Company's last quarter that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
