**Item 7.01. Regulation FD Disclosure.**

On March 5, 2015, The ExOne Company (NASDAQ: XONE) issued a press release announcing the upcoming availability of its largest 3D printing system, the Exerial . The Exerial system demonstrates a considerable evolution in ExOne s machine portfolio as the new printer allows customers to engage with the indirect printing technology for industrial series production, beyond the rapid prototyping and small batch production for which the company s other systems are currently being used. ExOne will formally debut the Exerial machine at the GIFA International Foundry Trade Fair in Düsseldorf, Germany, on June 16-20, 2015.

A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference.

The information in this Current Report and the exhibit hereto are being furnished and shall not be deemed filed for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. The information in this Current Report and exhibit hereto shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended.
