Dear CME Member and Class B-1 Shareholder,

Thank you for the support and encouragement you've provided during my six years on the CME Group Board. I'm requesting your vote to continue as one of your Class B-1 Share Directors. As an owner of five CME Group exchange memberships and 63,934 shares of CME Group Class A common stock, who actively makes markets on the CME, CBOT, NYMEX, and COMEX exchanges, you can be sure I'm fully engaged in our business and my interests are well aligned with yours. My 35+ years of membership and experience in many aspects of our industry should give you confidence that I have the necessary expertise to continue to be effective as one of your elected CME Group Board Members.

My office remains at 141 W. Jackson, where I am always accessible and open to the input of our membership. I continue to enjoy constructive working relationships with a broad cross-section of Exchange Members, Member Firms, CME Group employees, CME Group management, fellow Board Members, and Industry Associations. Please know, I always welcome your input, actively share your insights with our Board and management, and look forward to continuing to work together to secure our future success as Members and shareholders of CME Group.

I currently serve on the CME Group Board Risk Committee and the Audit Committee - two important governance committees. I'm Jeff Bernacchi. In 2009, I asked the members of the CME, to support me as a fresh voice on the CME Group, Board of Directors. You responded, and charged me with a responsibility that I've taken to heart. I have worked hard, and brought to our Board the perspective of a successful businessman, multiple membership owner, active trader, and shareholder at the corporate equity member level. I have actively shared our perspectives and not shied away from raising questions when it's been important to do so.

As the economy has endured a multi-year de-leveraging cycle, we have not been immune to fallout. The failure of MF Global is an event we don t want to see repeated. We are challenged to increase the level of trust in the safety of our markets. By listening to the concerns and needs of our members and market users, we can, and will, earn and increase this trust. This is not the first difficult period we ve emerged from, improved and stronger. We will do so again.

Despite the challenges we encountered in 2011, we saw progress in many parts of our international growth strategy and increased interest in CME membership from non-US sources. We are seeing accelerating growth in cleared volumes of interest rate swaps and credit default swaps.

I know that the success of the CME Group depends upon the success of all our groups of stakeholders. Customers, Shareholders, FCMs and brokers, Corporate Equity Members and proprietary trading groups, individual traders, both on the floor and off, lessors and lessees all must find value in their relationship with our exchanges. No one group can thrive if we don't all thrive.

William Hobert

Hello,

My name is Will Hobert and I am a candidate for a Class B-1 seat on the CME Group Board of Directors.

I am running on my nearly three decades of industry experience as an open outcry market maker, electronic options and futures trader, company founder, and owner of WH Trading. As managing Member of WH Trading, I oversee technology, risk management, operations and strategy development. Since founding WH Trading in 1994, the firm has grown to over 60 employees. WH Trading participates in a wide range of futures and options markets both on the CME Group floor and electronically on numerous exchanges worldwide. Like many market participants, we have developed in-house proprietary options and futures trading software and we benchmark the performance of our trading systems at the microsecond level.

I am running on my ability to adapt to changes in a dynamic trading industry and my resultant success as a proprietary firm owner. Over the last decade, CME Group has grown and advanced as technology has driven massive change in the trading industry and capital markets. Similarly, WH Trading has reinvented itself to adapt to the new trading landscape. As financial markets evolved and liquidity shifted from open outcry to the electronic trading screens, WH Trading, like CME Group, was forced to make the challenging transition from a trading firm to a technology firm. Over the last decade, I have guided WH Trading through a major expansion as we built an electronic, automated trading operation that has also served to enhance and grow our robust floor trading operation. However, the advancement of technology and the evolution of the financial markets is a never-ending process and in the coming decade one's ability to adapt to changes, some of which we cannot currently predict, will dictate survival and success. I know what it takes to survive and thrive amidst change, and as a Board member, I will tirelessly work to ensure that the Exchange and its members are best prepared for the next systemic change.

I am running because the Board of Directors needs a member who has a diverse trading background that includes open outcry, electronic, over the counter and options trading experience. I have traded on all of these execution venues and understand the issues, benefits and market structure implications associated with each. With options trading comprising approximately 20% of CME Group's overall volume, its members deserve a Board member who truly understands the critical issues, complex market structure and pressing problems facing options traders. My 25 years of option trading, risk management, and strategic planning would provide a necessary voice on the Board of Directors as open outcry, exchange matching engines and voice brokers all compete for options volume. Finally, WH Trading holds memberships at CME, CBOT, NYMEX and COMEX which has provided me with a holistic perspective of CME Group and the unique challenges and opportunities that face CME members.

I am running because I understand the importance of strong relationships. Over the past decade, I have worked to advocate on behalf of and preserve the interests of the trading industry. Annually, I travel to Washington, DC to advocate on behalf of CME Group where I have participated in informational sessions with SEC and CFTC commissioners, House and Senate Committees, and Congressional Leadership. This past May, I participated in a small intimate meeting with Speaker of the House John Boehner to ensure that CME Group's interests were represented and legislative priorities advanced. I understand the importance of strong relationships with Washington, DC. As a result, I was solicited to serve as a CME PAC Board of Director working to ensure that support is given to candidates to ensure their education and understanding of CME Group.

Should you have any questions, or would like to chat, please do not hesitate to reach out to me. Please visit willhobertcme.com to learn more about me and see instructions about how to cast your vote electronically.

Will Hobert

JEREMY PERLOW

CME MEMBER

CLASS B-1 SHAREHOLDER

NOMINEE FOR THE BOARD OF DIRECTORS

2015

To My Fellow Shareholders;

My name is Jeremy Perlow, (JAIR), and I am seeking your support in my first nomination to serve in the Class B-1 Board of Directors election. My combined experience as a veteran pit trader and my background in computer science make me a strong candidate to serve on the CME Group Board of Directors.

I am a second-generation member of CME Group, having established my seat in 1988 alongside my father, Leo R. Perlow. I have been an independent, open-outcry trader for over 27 years, and continue to participate in the floor's activity daily.

In addition to my history with CME Group, I have a diverse background in computer programming. I previously served on the CME's Technology and Communications Committee at the introduction of electronic trading and the launch of the Globex platform. I am proficient in computer technology and founded a business specializing in building and developing web-based applications. I have designed and programmed software and have extensive experience in all aspects of IT, including building computers, installing electronics, writing code and programming. When considering my election to the board, my ability in this area is a valuable asset.

While my expertise in technology is a reliable foundation for embracing the electronic trading platform, my first concern is to safeguard the principles traditionally upheld by our members. It is the responsibility of the Board of Directors to establish efficient monitoring capabilities, including management and auditing of high-frequency trading. Serving on the Board of Directors would allow direct involvement in creating, implementing and monitoring the guidelines designed to guarantee the safety and security of electronic trading. Although it is possible for the two methods of trading to successfully co-exist, my core belief is that human governance remains necessary to chaperone technology.

As we continue a strong momentum toward growth and expansion, the primary focus of CME Group is to distinguish the Exchange as a global pioneer by raising

brand awareness. Strengthening visibility through aggressive marketing and communications initiatives are crucial. My goal is to create long-term value and security for our clients, members, and shareholders.

CME Group has reduced the number of positions on the Board of Directors in 2014 and will likely continue to streamline. It is critical that Board Members possess more diversity, fresh, innovative ideas, and the integrity to execute the initiatives that will create positive change on behalf of all members, shareholders and participants of the Exchange. My priority as an elected Board Member would be to fulfill the responsibility of representing the interests of all stakeholders.

It is an honor to be nominated by my fellow members, and I value the opportunity to serve as your Class B-1 Director. I am committed to achieving our shared goals; maintaining transparency and integrity in the marketplace, initiating security guidelines and advancing CME Group toward the forefront of global branding.

I humbly ask for your vote in the upcoming Class B-1 Shareholders election and look forward to a prosperous future.

Respectfully,

Jeremy Jay Perlow (JAIR)

Please note that due to SEC filing regulations, I am regretfully unable to discuss campaign issues via email, but I encourage you to call me with any questions or comments at 312-420-3718. Thank you.

HOWARD SIEGEL

Chicago, IL 60604

Fellow Members and Class B-1 Shareholders,

I am running for re-election again, and I'd like your vote. I am grateful for the trust you have placed in me over the years.

Over my career at CME, I have dedicated myself to the operation of the Exchange as evidenced by my Board and functional committee service. Through this service and involvement, I have gained the knowledge and experience to effectively serve as a Class B-1 director and it further serves as confirmation of my commitment to the Exchange and the trading community.

Board Level: Compensation, Risk, Board Nominating, Strategic Steering and Marketing and Public Relations Advisory

Relating to Trading Floor Activities: Pit S&P 500, Booth Space Allocation, Floor Traders, S&P Review Committee, Equity Complex Design, Equity Indices, Broker Association Task Force, CUBS/TOPS Route, Equity Reconfiguration, Ad Hoc Equity Reconfiguration, Automated Trading Card, Floor Communications, Broker Association, Dual Trading, Equity Indices NASDAQ Split, Ad Hoc Trading Floor Transition Post CME/CBOT Merger

Relating to Electronic Trading: Globex Oversight, GFX Board

Relating to Membership: CME Membership, Gratuity Fund, Grievance, Nominating, Leasing, Electronic Transition, Ad Hoc to Review Class B Shareholders & Trading Privileges, FCM

Relating to Charitable Activities: CME Group Foundation Board member and Trustee of the Chicago Mercantile Exchange Trust

As a shareholder and member who remains an active trader and who has a son making his living in our markets, I share your concerns. Our floor population has been swept up by the winds of change much to the chagrin of most of us.

But along with the challenges have come opportunities. Over the years, CME Group and its trading community have been faced with new circumstances and change stemming from the individual markets as well as the macro economy. In response, we have evolved.

The opportunities for the exchange are obvious. Your Board and Management have spread CME Group's reach across the globe from Dubai to Brazil and from London to India to drive international growth.

The opportunities for the trading community are more obscure. We spend our careers settling into trading methods and habits that don't necessarily translate from the floor to the screens. I am not going to sugar coat it. Neither the exchange nor we as traders have any choice but to embrace the changing environment and adjust the way we do business. If making a living trading were easy, everyone would be doing it. We need to be resilient and benefit from the opportunities that were not available to us ten years ago. While many of the advantages of making markets on the floor are gone, information and access are greater than ever and allow even the smallest traders who have embraced the technology a more level playing field with the largest banks and institutions.

As a Board member, I will continue to do my best serving as your elected Class B-1 director and enhancing shareholder value both Class A and B.

Regards

Howard Siegel

ON OR AFTER APRIL 9, 2015, THE FOLLOWING MATERIALS WERE DISTRIBUTED OR MADE AVAILABLE TO CME GROUP INC. S CLASS B-2 SHAREHOLDERS:

Fellow Members and Class B-2 Shareholders,

I am asking for your votes to continue to be a member of the CME Group Board. CME Group has continued to grow and excel under a very competitive business environment. Regulation and competition over the last few years has forced the MERC to be nimble and proactive. Our success and generation of value for our shareholders have reflected our capabilities in taking those issues head on. CME Group has fostered a culture that provides technology and service to our ever broadening customer base in ways we hadn't foreseen years ago.

We are an International company nearly 30 percent of our total revenues generated from outside the United States. I would like to continue to foster this growth and to develop our product line and efficiencies on a worldwide basis that would add value to our shareholders.

I represent all our shareholders. I take my fiduciary responsibilities seriously and listen and respond to both members and shareholders. A major decision was made to close the futures pits this year. It was a difficult and sentimental decision based on my 30 plus year history on the trading floors. The last few years have seen an accelerated shift from the futures pits to electronic trading where approximately 80% of the volume is traded. I know this has many concerned about seat prices. I trust that as volume grows, the value of memberships will be driven by the price advantage that makes ownership desirable. I fully believe in letting the customer decide which venue they would like as long as it is economically feasible. The liquidity shift is hard to ignore. I am aware there is some functionality that individual market makers can uniquely provide and I have worked tirelessly to help in the transition for those members which provide liquid markets for CME Group. They will continue to be very important customers.

As a Board Member, I will continue to hold management accountable to our shareholders and members and make sure your concerns are heard and responded to. I am available at any time to listen to your issues and help with answers and solutions. I believe my experience in this industry, and my independence and rational decision making, make me a qualified Board Member worthy of your vote.

Sincerely,

Ronald A. Pankau (PAN)

Dear Fellow Class B-2 Shareholder:

Once again, I seek your support and vote for the election to the Board of Directors of CME Group Inc.

I have had the privileged opportunity to serve as your elected Class B-2 Board member for the past twelve years on the CME Group Board of Directors. The past few years have been challenging with only a mild recovery in the credit markets, regulatory and legislative issues, and excessive government regulations.

As we enter a new year, many of the global economic problems are still working their way through the system. As we go forward, I feel that we are well positioned to be the product of choice for institutions, speculators, funds, and investors. Our diverse product mix will allow CME Group to lead the way as the economy recovers.

Now is not the time to rest on our past laurels. It is the time for us to take stock of what we have accomplished and build from there. We need to address the following issues:

Principal Trading Groups (PTG) We need to continue to promote our ability to grow organically. PTGs accounted for a significant amount of the exchange's liquidity the past few years, but more growth is still needed.

Hedge and Mutual Funds We need to continue to market to hedge and mutual funds emphasizing our transparency and central counterparty clearing to restore confidence in the financial markets to their clients.

Global Positioning Through our strategic partnerships around the world we are in a strong position to take advantage of a new wave of customers and international products.

Legislative Issues More than ever, it is important to tell our story to Congress. I have served as Vice-Chairman of the CME PAC and have hosted many of the Congressional visits through the past years. The transaction tax, position limits, allegations of speculators causing volatility and the threat to losing 60/40 tax treatment will be more pressing than ever before.

During my service on the Board, I always attempted to be open-minded, logical, rational, and above all fair. My previous terms on the Board and many various committees have given me the experience and leadership qualities required for the position (see attached resume). I pledge to you my time, dedication, and commitment to serving CME Group. I will continue to live in the city during the week for the term of the directorship. This will make me accessible to you, the shareholder, at any time of the day or night. I can be reached by phone at 312-604-6114 or cell at 312-714-5907.

Sincerely,

David J. Wescott (COT)

Dear IMM Member/Class B-2 Shareholder,

In times of upheaval and uncertainty it is imperative to have solid, experienced leadership with forward-looking vision, influence, and the ability to execute initiatives crucial to our business. An effective leader is unafraid to voice a dissenting opinion and fight for what he believes is right. In the years I have known him, David J. Wescott has continuously proven himself to be such a leader with his incredible dedication, tireless hard work, industry insight and fierce loyalty to his clients, constituents, employees, and friends.

I have known David Wescott since 1982, when we were young traders on the CME floor and I also had the privilege of serving on the CME board with David for four years during the 1990s. I have continued my relationship with him throughout the ensuing years and cleared the trades of my own trading firm through Dowd-Wescott Group, the precursor clearing firm to David's current clearing firm, DWG Futures. In my now 30+ year relationship with David Wescott, I have found him to be incisive, creative, and results-oriented. David has never been in favor of the status quo; his capacity for reinvention and constant drive to innovate, combined with his capability to anticipate trends, is an invaluable asset to the future of CME Group.

We all know how quickly our business moves. Yesterday's losses may be tomorrow's gains if we make the right decisions today. I have absolute confidence that David's leadership is a step toward a prosperous future. I hope you will join me in supporting David Wescott in his bid to serve as our elected Class B-2 director on the CME Group Board of Directors by voting for his re-election.

Sincerely,

David Silverman

Dear Fellow Members,

My name is James Zellinger. I have been in the Futures Industry for 50 Years. In those years I ve held various upper level management positions at Merrill Lynch, Hennessy Associates/Barnes, Globex Corp., Transmarket, Mizuho, Advantage Futures and currently as Senior VP at Wedbush/Crossland. My strengths lie in streamlining and automating operations, and in building a strong diverse customer base. I feel honored to be nominated to serve as a Class B-2 Director on the Board for CME Group. I feel in order to continue to grow volumes and generate overall shareholder value, we need to protect our most precious commodity - our customers - including our Exchange members and FCMs.

My experience at Globex Corp. has given me a unique perspective of both sides of the electronic trading coin. I have been able to see how the ever increasing sophistication of trading platforms can impact the ability of the Globex system to perform its function. On the other side, I ve seen the implications to the users of those platforms when the Exchange imposes new rules and restrictions. My main objective is to help CME Group and the members/FCMs work together to create a harmonious relationship to the betterment of everyone involved.

Some of the issues I feel need to be addressed are listed below:

Fee Structure - Evaluating the fee structure for harmonization and effectiveness to drive volume for the Company and enhance customer satisfaction and looking into ways to streamline the reconciliation process for fees.

Regulatory Obligations Discuss ways to alleviate some of the regulatory burdens on our customer base such as the capital restrictions on prop firms.

Foster Trader Loyalty With new exchanges competing for traders, there is a need to create an atmosphere where the trader feels his concerns are being taken seriously by CME Group.

I have only touched upon the above points that I feel need further discussion. My hope is that I will be able to expound on these topics as an elected member of the Board of Directors for the CME Group.

Sincerely yours,

James Zellinger

Dear Fellow CME Member and Class B-3 Shareholder,

I am writing to you to ask for your support in the upcoming IOM Member/Class B-3 Shareholder election to serve on the CME Group Board of Directors.

I have the experience, skills and integrity to serve as your Class B-3 director

During my 28 years as an equity owner, I have worked within CME Group in numerous capacities. I filled orders in the S&P 500 from 1986 – 2001 and have made my living as a floor and electronic trader in the S&P 500 since 2001. My financial, professional, and personal interests are tied to the continuing success of the CME. I was a former member of the CME PAC Committee and I presently serve on the Business Conduct Committee. I have a strong background in electronic platforms, order execution, and order routing and clearing. Throughout my years at CME, I have proven that I have the experience, integrity and intuition necessary to successfully carry out the duties and responsibilities of a CME Group Board Director.

***I am focused on creating opportunities for market participants and
concentrating on ways to lessen the regulatory burdens***

If elected to serve as one of your Board Directors, my areas of focus will be developing opportunities and incentives for individual traders and trading firms to become members of CME Group as well as enhancing shareholder value (Class A and Class B). It also is my opinion that the futures industry has become over regulated which has impacted liquidity and significantly increased costs for market participants. I am committed to working with CME Group as it navigates the new regulatory environment with the goal that the markets are safe and sound but not subject to burdensome regulations.

***I want to engage in active dialogue with the Board and Senior Management
about the interests of the trading community***

I believe I have the background, experience and skills to effectively communicate to the Board and senior management the interests and concerns of our trading community. I have always strived to be honest and just in my dealings with people which will contribute to increased transparency and dialogue between the trading community and the Board and senior management.

I thank you in advance for your time and consideration of my candidacy for a position on the CME Group Board of Directors. Please feel free to reach out to me with any of your questions, comments, or concerns.

Best,

Thomas J. Esposito

Dear Fellow CME Member and B-3 Shareholder,

With your support I have been elected to the CME Group Board of Directors for the past two years. I thank you. I am seeking re-election to continue serving on behalf of all members and shareholders.

This election is about having a Board member with the experience and background who:

Understands the issues concerning our member community

Communicates and raises such issues to the Board and senior management

Continues to focus on generating shareholder and membership value

Works with other Board members to improve the trading environment and create opportunities for FCMs, brokers and traders.

As an equity owner and trader for 37 years (21 years on the trading floor), we share the same goals.

I will remain accessible; actively seek your input; and keep you updated on important issues. During this past year, CME Group generated significant value for its members, shareholders and trading community, but **more can be done to make CME Group an even greater institution. This year I served on the Audit committee which is**

responsible for overseeing the financial statements, outside auditors and internal controls. **I want to continue to contribute in this vital area.**

Goals: I am optimistic about the future and our growth in Europe and Asia. I will continue to strive to increase shareholder and membership value by: 1) working to reduce the cost of doing business for traders, brokers and FCMs including revisiting data fee charges; 2) opposing excessive government regulations that restrict trading and increase costs to FCMs, brokers and traders, 3) seeking ways to increase volume and 4) exploring ideas leading to greater profitability.

As you know, CME Group is closing all futures pits, except the S&P futures. As a long time member having spent 21 years on the trading floor, I will miss the energy and excitement, but the future is brighter than ever with new opportunities for global expansion to increase shareholder and membership values. Others agree as CME Group was just named the best Global Exchange in 2015 by Markets Media Magazine.

Experience: As a former Vice Chairman and Treasurer of CME, attorney, futures industry expert witness, and NFA and FINRA arbitrator, I have the experience, leadership skills, knowledge and independent perspective to meet the challenges ahead to accomplish our goals.

Your vote is important and can make a difference. It is your creativity, entrepreneurial spirit and expertise that helped propel CME Group's growth. Thank you for your consideration and I welcome your contacting me with any questions or to discuss any issues.

Sincerely,

Steven E. Wollack
