February 3, 2016 Welcome to Dominion

Important Note This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 regarding Dominion and Dominion Midstream. The statements relate to, among other things, expectations, estimates and projections concerning the business and operations of Dominion and Dominion Midstream. We have used the words "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "outlook", "predict", "project", "should", "strategy", "target", "will", "potential" and similar terms and phrases to identify forward-looking statements in this presentation. As outlined in our SEC filings, factors that could cause actual results to differ include, but are not limited to: unusual weather conditions and their effect on energy sales to customers and energy commodity prices; extreme weather events and other natural disasters; federal, state and local legislative and regulatory developments; changes to federal, state and local environmental laws and regulations, including proposed carbon regulations; cost of environmental compliance; changes in enforcement practices of regulators relating to environmental standards and litigation exposure for remedial activities; capital market conditions, including the availability of credit and the ability to obtain financing on reasonable terms; fluctuations in interest rates; changes in rating agency requirements or credit ratings and their effect on availability and cost of capital; impacts of acquisitions, divestitures, transfers of assets by Dominion to joint ventures or to Dominion Midstream, and retirements of assets based on asset portfolio reviews; the expected timing and likelihood of completion of the proposed acquisition of Questar, including the ability to obtain the requisite approvals of Questar's shareholders and timing, receipt and terms and conditions of required regulatory approvals; receipt of approvals for, and timing of, closing dates for other acquisitions; the execution of Dominion Midstream's growth strategy; changes in demand for Dominion's services; additional competition in Dominion's industries; changes to regulated rates collected by Dominion; changes in operating, maintenance and construction costs; timing and receipt of regulatory approvals necessary for planned construction or expansion projects and compliance with conditions associated with such regulatory approvals; the inability to complete planned construction projects within time frames initially anticipated; and the ability of Dominion Midstream to negotiate, obtain necessary approvals and consummate acquisitions from Dominion and third-parties, and the impacts of such acquisitions. Other risk factors are detailed from time to time in Dominion's and Dominion Midstream's quarterly reports on Form 10-Q or most recent annual report on Form 10-K filed with the Securities and Exchange Commission. The information in this presentation was prepared as of February 1, 2016. Dominion and Dominion Midstream undertake no obligation to update any forward-looking information statement to reflect developments after the statement is made. This presentation has been prepared primarily for Questar employees in the hope that it will serve as a convenient and useful reference document. The format of this document may change in the future as we continue to try to meet the needs of Questar employees. This document is not intended for use in connection with any sale, offer to sell, or solicitation of any offer to buy securities.

Slide 1 Welcome to Dominion

Notes:

Introduce the team

Slide 4 Our Core Values

Our Core Values are at the heart of everything we do. They are:

Safety: Above all else. Our goal is to send you in the same condition as you arrived

Ethics: There are many aspects to Ethics

How we do business - Abiding by the letter and spirit of the law

How we treat people our employees, our customers, and our communities. The Golden Rule applies

Excellence: We want to be the envy of the industry. We have a long way to go, but we strive for excellence in everything we do.

One Dominion which really means teamwork.

Slide 5 Our History of Safety OSHA Recordable Incidence Rates

Safety is our first core value, so it's important that we measure to keep focused.

Since 2006 our OSHA recordable incidence rate has declined drastically. But we still drive towards zero our goal is no OSHA recordables.

Slide 6 Ethics: Commitment to our Communities Deep roots in the communities we serve

Deep Roots in the Communities we Serve. In addition to creating an environment of public health and safety we have several other areas we focus on.

Charitable Giving - United Way Campaign each year United Way campaign kicks off Feb 15, 2016 for Dominion.

Matching gifts for charitable contributions by employees

The Dominion Foundation the philanthropic arm of Dominion. A 501(c)(3) organization

Educational Partnerships In 2014, the company provided a total of \$3.6 million to support K-12 schools, colleges and universities, and nonprofit educational organizations in eight states where the company operates. Dominion partners with the educational community to strengthen the overall educational experience and help prepare students for tomorrow's workplace. Additionally, they partner to create programs like Project Plant It which is celebrating its 10 anniversary this year.

Volunteerism - Time off for volunteering in the community Our employees are passionate about it. It is part of our culture and we know it is part of yours as well so we align together very well here. We have a longstanding tradition of volunteering in the community in fact we logged nearly 110,000 hours in 2015.

Spend time on projects during working hours and give individuals time to work on the projects that have personal passion around

Energy Assistance Programs

Energy Share - After 33 years, our signature EnergyShare heating and cooling assistance partnership program continues to help eligible customers in Virginia and North Carolina pay their energy bills. 14 years ago this program expanded to East Ohio. In the three-state area, more than 10,700 households received upwards of \$3 million in EnergyShare assistance in 2014

FanCare helping the elderly in Virginia to stay cool in the hot summer months by providing free fans. This program has been around for 20 years.

Slide 9 Combining Our Companies

Many reasons for this combination of companies:

The diversification within the energy industry helps to weather market volatility and geographical impact.

Culturally, we believe that we are similar. We have common areas of focus including safety, reliability, customer service, and community engagement.

The headquarters of Dominion Questar will remain in Salt Lake City. There will be a local management structure in place. Together, we will work to leverage the best-in-class programs and operations of each company.

Our employees are our greatest asset at Dominion – service and tenure are important to us and you – I'll see that in many of our policies – important for you to know that you will retain all of your service from Questar.

Several of the executive team traveling around the Questar locations today came to Dominion through similar combinations of companies but to us you will be a Dominion employees from day one with the tenure you bring.

Slide 10 Geographic and Asset Profile Energy Combining the Hub of the Mid-Atlantic with the Hub of the West

This combination brings together the Hub of the Mid-Atlantic with the Hub of the West. We are each well positioned.

There is strength in numbers and we can leverage best practices.

Introduce speaker

Slide 17: Our Commitment to Employees

Edgar Filing: QUESTAR CORP - Form DFAN14A

Employees are very important to us at Dominion, and we know how important your benefits are to you. We look forward to working with you and having you join us as part of a larger Dominion team.

There are some things that we know, and some that we don't, but we are committed to telling you what we know as soon as we can.

We have committed to base pay remaining at least equivalent to today's salary.

Your target amounts for bonus plans will remain at equivalent to today's opportunities but may be based on the Dominion performance objectives still to be determined

We have committed that the benefits remain comparable in the aggregate until the later of 1 year following close or 12/31/2017

We assume annual changes to deductibles, employee contributions, changes due to the law, will occur.

Very likely that we would not transition to Dominion plans until 1/1/2018 systems are totally different, takes time to work through these things. Will be talking to you as we get closer.

As we transition different plans and policies to Dominion, it is important to know that your service with Dominion Questar will be recognized as service to Dominion. This holds true both in benefit eligibility as well as policies such as vacation time and sick time.

Retirement benefits are complex this is an area that we are still evaluating. You have groups of employees with a traditional pension, different 401k match structures based on when you were hired, some groups eligible for retiree medical and some not. We have similar programs some are on a traditional plan and some on a cash balance plan, depending on hire date, and different 401k structures. And different retiree medical plans as well. We realize that these are very important to you and we are committed to getting back to you once we've had a chance to evaluate these plans in total. At a minimum, no change through the later of one (1) year following the close or December 31, 2017

Slide 19 The Dominion Total Value Package

Our employees are important to us and so are their families so the total value package at Dominion is something we are very proud of.

We know how important these things are to you, so we wanted to show you some of the detail about our plans to put you at ease that we basically share the same types benefit offerings to our employees and their families important to know that transition is still some time away, so things may tweak some between now and then, but let me talk a little bit about what we offer today

Slide 20 Dominion Benefits Active Employee Health Benefits

You have two medical plans: a CDHP and a PPO, we have three also a CDHP and an additional two PPO plans. All three of our plans cover the same things, the difference is the structure of premiums, out of pocket maximums and deductibles similar to your structure

We also have a very robust wellness program that we are very proud of. We are entering year 5 of that program, and our employees have really embraced it Similar to what you have today combination of a health assessment and health screening to earn a premium credit. Also have wellness challenges a little friendly competition always fun!

Also have a focus on education and providing employees with resources to help them get the help and support they need. Live health online similar to your Teledoc program - ability to see a doctor online (seems odd, I know, our employees who have used it love it). Saves time and \$

Wiser Together is a resource available to help you understand more about certain diagnoses and what to expect; Best Doctors is a service that you can utilize to get a second opinion if you are diagnosed with a medical condition and you want some additional confirmation on treatment options. Parents can also use this service.

With our focus on wellness and spending wisely through our plans, we've managed to really reduce our medical trend over time 4% increase for employees this year lower than the past, and what other companies are generally seeing.

Slide 21 Dominion Benefits Time Off and Work Life

At Dominion we also know that your focus is not always about being at work, but how we provide time for you to spend time away from work doing the things you enjoy with the people important to you.

We offer separate vacation and sick leave policies the more service you have, the greater the benefit. This is where your service with Dominion Questar comes in. Our sick leave policy also provides time off to care for sick dependents

Have a new parental leave policy that gives new parents 3 weeks of bonding time off to spend with newborns or newly adopted children.

We provide 11 holidays plus a personal holiday which can be taken at any time. We realize that you have 9 company holidays that are a little different than ours including Pioneer Day which is very important to you as a tradition, we won't be looking to change that..

Also provide education assistance support our employees furthering their educations. Adoption assistance to help offset some of the financial impact involved with expanding your family in this way. And the extensive list of offerings through our EAP program, including discounts, and also free services like legal assistance, child or elder care services, etc.

Hopefully this gives you a sense that you will be treated fairly in the transition we look very similar to you today with regard to the types of benefits and policies we offer, we'll be back to talk to you in more detail before and during the transition and will bring our experts so all of your questions can be answered. We will also be working closely with your HR team here along the way.

Slide 22 Our Commitment to Communicate Extranet Available

We plan to communicate additional information with you using the extranet site we have set up. This is available from home or work so you can share this information with your family.
