include, but are not limited to, statements about the operations, business lines, financial condition, risk management, priorities, targets, ongoing objectives, strategies, the regulatory environment in which we operate and outlook of CIBC for calendar year 2016 and subsequent periods. Forward-looking statements are typically identified by the words believe, expect, anticipate, intend, estimate, forecast, target, object, similar expressions or future or conditional verbs such as will, should, would and could. By their nature, these statements require CIBC to make assumptions and are subject to inherent risks and uncertainties that may be general or specific. A variety of factors, many of which are beyond CIBC's control, affect the operations, performance and results of CIBC, and could cause actual results to differ materially from the expectations expressed in any of CIBC's forward-looking statements. These factors include: credit, market, liquidity, strategic, insurance, operational, reputation and legal, regulatory and environmental risk; the effectiveness and adequacy of CIBC's risk management and valuation models and processes; legislative or regulatory developments in the jurisdictions where CIBC operates, including the Dodd-Frank Wall Street Reform and Consumer Protection Act and the regulations issued and to be issued thereunder, the Organisation for Economic Co-operation and Development Common Reporting Standard and regulatory reforms in the United Kingdom and Europe, the Basel Committee on Banking Supervision's global standards for capital and liquidity reform and those relating to the payments system in Canada; amendments to, and interpretations of, risk-based capital guidelines and reporting instructions, and interest rate and liquidity regulatory guidance; the resolution of legal and regulatory proceedings and related matters; the effect of changes to accounting standards, rules and interpretations; changes in CIBC's estimates of reserves and allowances; changes in tax laws; changes to CIBC's credit ratings; political conditions and developments; the possible effect on CIBC's business of international conflicts and the war on terror; natural disasters, public health emergencies, disruptions to public infrastructure and other catastrophic events; reliance on third parties to provide components of CIBC's business infrastructure; potential disruptions to CIBC's information technology systems and services; increasing cyber security risks which may include theft of assets, unauthorized access to sensitive information, or operational disruption; social media risk; losses incurred as a result of internal or external fraud; anti-money laundering; the accuracy and completeness of information provided to CIBC concerning clients and counterparties; the failure of third parties to comply with their obligations to CIBC and its affiliates or associates; intensifying competition from established competitors and new entrants in the financial services industry including through internet and mobile banking; technological change; global capital market activity; changes in monetary and economic policy; currency value and interest rate fluctuations, including as a result of market and oil price volatility; general business and economic conditions worldwide, as well as in Canada, the U.S. and other countries where CIBC has operations, including increasing Canadian household debt levels and global credit risks; CIBC's success in developing and introducing new products and services, expanding existing distribution channels, developing new distribution channels and realizing increased revenue from these channels; changes in client spending and saving habits; CIBC's ability to attract and retain key employees and executives; CIBC's ability to successfully execute its strategies and complete and integrate acquisitions and joint ventures; the risk that expected synergies and benefits of the acquisition of PrivateBancorp, Inc. will not be realized within the expected time frame or at all or the possibility that the acquisition does not close when expected or at all because required regulatory, shareholder or other approvals are not received or other conditions to the closing are not satisfied on a timely basis or at all; and CIBC's ability to anticipate and manage the risks associated with these factors.

This list is not exhaustive of the factors that may affect any of CIBC's forward-looking statements. Additional information about these factors can be found in the Management of Risk section of CIBC's Annual Report for the year ended October 31, 2015 which is incorporated by reference in this Prospectus Supplement and the accompanying Short Form Base Shelf Prospectus. **RISK FACTORS**

*An investment in the Notes is subject to certain risks. Before deciding whether to invest in the Notes, investors should carefully consider the risks set out herein, in the accompanying Short Form Base Shelf Prospectus and incorporated by reference in this Prospectus Supplement and the accompanying Short Form Base Shelf Prospectus. These risks are not the only ones the Bank faces. Additional risks not presently known to the Bank or that it currently deems immaterial may also impair its business operations and even the risks described below may adversely affect its business in ways it has not described or does not currently anticipate. The Bank's business, financial condition or results of operations could be materially adversely affected by any of these risks. In such case, you may lose all or part of your original investment.*

***Our credit ratings may not reflect all the risks of your investment in the Notes; downgrades or other changes in our credit ratings could affect our financial results and reduce the market value of the Notes.***

The Bank's credit ratings are an assessment by rating agencies of the Bank's ability to pay its debts and deposit liabilities when due. These credit ratings may not reflect the potential impact of risks relating to the structure or marketing of the Notes; additional factors discussed in this Prospectus Supplement, in the accompanying Short Form Base Shelf Prospectus or in the documents incorporated by reference herein or therein and other factors that may affect the value of the Notes. Ratings are not a recommendation to buy, sell or hold any security; and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

The value of the Notes will be affected by the general creditworthiness of the Bank. Prospective investors should consider the categories of risks identified and discussed in the Bank's annual information form and management's discussion and analysis of results of operations for the year ended October 31, 2015 and the Bank's management's discussion and analysis of results of operations for the three-month and nine-month periods ended July 31, 2016, each of which is incorporated by reference in this Prospectus Supplement and the accompanying Short Form Base Shelf Prospectus, including credit risk, market risk, liquidity risk, operational risk, reputational and legal risk, regulatory risk and environmental risk. There is no assurance that the credit ratings assigned to the Notes or the Bank will remain in effect for any period of time or that they will not be lowered. Real or anticipated changes in credit ratings on the Bank's deposit liabilities may affect the market value of the Notes. In addition, real or anticipated changes in credit ratings can affect the cost at which the Bank can transact or obtain funding, and thereby affect the Bank's liquidity, business, financial condition or results of operations and, therefore, the Bank's ability to make payments on the Notes could be adversely affected.

***The Indenture contains limited covenants and does not limit the Bank's ability to incur future indebtedness, pay dividends, repurchase securities or engage in other activities, which could adversely affect the Bank's ability to pay its obligations under the Notes.***

The Indenture does not contain any financial covenants and contains only limited restrictive covenants. In addition, the Indenture does not limit the Bank's or its subsidiaries' ability to incur additional indebtedness, issue or repurchase securities, pay dividends or engage in transactions with affiliates. Except to the extent regulatory requirements affect the Bank's decisions to issue more senior debt, there is no limit on the Bank's ability to incur additional senior debt. The Bank's ability to incur additional indebtedness and use its funds for any purpose in the Bank's discretion may increase the risk that the Bank will be unable to service its debt, including paying its obligations under the Notes.

***Your ability to transfer the Notes may be limited by the absence of an active trading market, and there is no assurance that an active trading market will develop for the Notes.***

Each series of Notes is a new issue of securities for which there is no established market. The Bank does not intend to apply for listing or quotation of either series of Notes on any securities exchange or automated

## **Table of Contents**

quotation system. While the underwriters have informed the Bank that they intend to make a market in each series of Notes, the underwriters will not be obligated to do so and may stop their market making at any time. In addition, any market-making activities will be subject to limits under U.S. Federal securities laws. These factors may affect the pricing of each series of Notes in any secondary market, the transparency and availability of trading prices and the liquidity of either series of Notes. There can be no assurance that an active trading market will develop for either series of Notes after the offering, or if developed, that such a market will be sustained at the offering price of such Notes.

***Future trading prices of the Notes of each series will depend on many factors and the Notes may trade at a discount from their initial offering price.***

Future trading prices of the Notes of each series will depend on many factors, including prevailing interest rates, foreign exchange movements, the market for similar securities, general economic conditions and the Bank's financial condition, performance, prospects and other factors. If any of the Notes are traded after their initial issuance, they may trade at a discount from their initial offering price.

***Investors in the United States may have difficulty bringing actions and enforcing judgments against the Bank and others based on securities law civil liability provisions.***

The Bank is organized under the federal laws of Canada and its principal executive office is located in the Province of Ontario. Many of the directors and officers of the Bank and some of the experts named in this Prospectus Supplement, the accompanying Short Form Base Shelf Prospectus and the documents incorporated by reference herein and therein are residents of Canada or otherwise reside outside the United States, and a substantial portion of their assets and those of the Bank are located outside the United States. As a result it may be difficult for investors in the United States to bring an action against such directors, officers or experts or to enforce against those persons or the Bank a judgment obtained in a United States court predicated upon the civil liability provisions of federal securities laws or other laws of the United States.

***Increased regulatory oversight and changes in the method pursuant to which the LIBOR rates are determined may adversely affect the value of the Floating Rate Notes.***

Beginning in 2008, concerns were raised that some of the member banks surveyed by the British Bankers' Association (the "BBA") in connection with the calculation of LIBOR across a range of maturities and currencies may have been under-reporting or otherwise manipulating the inter-bank lending rate applicable to them. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR, and investigations were instigated by regulators and governmental authorities in various jurisdictions. If manipulation of LIBOR or another inter-bank lending rate occurred, it may have resulted in that rate being artificially lower (or higher) than it otherwise would have been.

In September 2012, the U.K. government published the results of its review of LIBOR (commonly referred to as the "Wheatley Review"). The Wheatley Review made a number of recommendations for changes with respect to LIBOR including the introduction of statutory regulation of LIBOR, the transfer of responsibility for LIBOR from the BBA to an independent administrator, changes to the method of compilation of lending rates and new regulatory oversight and enforcement mechanisms for rate-setting. Based on the Wheatley Review, final rules for the regulation and supervision of LIBOR by the Financial Conduct Authority (the "FCA") were published and came into effect on April 2, 2013 (the "FCA Rules"). In particular, the FCA Rules include requirements that (1) an independent LIBOR administrator monitor and survey LIBOR submissions to identify breaches of practice standards and/or potentially manipulative behavior, and (2) firms submitting data to LIBOR establish and maintain a clear conflicts of interest policy and appropriate systems and controls. In addition, in response to the Wheatley Review recommendations, ICE Benchmark Administration Limited (the "ICE Administration") has been appointed as the independent LIBOR administrator, effective February 1, 2014.

## **Table of Contents**

It is not possible to predict the effect of the FCA Rules, any changes in the methods pursuant to which the LIBOR rates are determined and any other reforms to LIBOR that will be enacted in the U.K. and elsewhere, which may adversely affect the trading market for LIBOR-based securities. In addition, any changes announced by the FCA, the ICE Administration or any other successor governance or oversight body, or future changes adopted by such body, in the method pursuant to which the LIBOR rates are determined may result in a sudden or prolonged increase or decrease in the reported LIBOR rates. If that were to occur, the level of interest payments on and the trading value of the Floating Rate Notes may be adversely affected. Further, uncertainty as to the extent and manner in which the Wheatley Review recommendations will continue to be adopted and implemented and the timing of such changes may adversely affect the current trading market for LIBOR-based securities and the value of the Floating Rate Notes.

***Changes in laws and regulations, including how they are interpreted and enforced in applicable jurisdictions, could have an impact on holders of our outstanding debt securities.***

In August 2014, Canada's Department of Finance issued a consultation paper on a Canadian bank resolution framework, including the Canadian bail-in regime and Higher Loss Absorbency requirements that would apply to Canadian domestic systemically important banks that are designated by the Office of the Superintendent of Financial Institutions Canada ( OSFI ), including the Bank. On April 20, 2016, the Government of Canada introduced legislation to implement a bail-in regime, in accordance with regulations to the Canada Deposit Insurance Corporation Act that have not yet been prescribed (the CDIC Act Regulations ). While such legislation does not indicate which instruments will be subject to the bail-in regime, as such details will be set forth in the CDIC Act Regulations, the 2014 consultation paper indicated that instruments subject to the bail-in conversion regime would include newly issued unsecured, tradable, transferable senior debt with an original term to maturity of greater than or equal to 400 days ( Bail-In Debt ), and that all Bail-In Debt would be convertible into common shares. The timing planned for implementation of the regime has not yet been determined.

Assuming that, as indicated in the 2014 consultation paper, only Bail-In Debt will be subject to the bail-in conversion regime, the Notes issued under this pricing supplement are not expected to be subject to the bail-in regime.

**Table of Contents**

**USE OF PROCEEDS**

The net proceeds to the Bank from the sale of the Notes, after deducting the expenses of the offering and the underwriting discount, are estimated to be approximately US\$1,495.8 million. The net proceeds will be added to the Bank's funds and will be used for general corporate purposes.

#### **General**

The following is a description of the terms of the (i) US\$1,000,000,000 aggregate principal amount of Fixed Rate Notes and (ii) US\$500,000,000 aggregate principal amount of Floating Rate Notes offered by this Prospectus Supplement (which are referred to in this Prospectus Supplement collectively as the "Notes" and, in the accompanying Short Form Base Shelf Prospectus, as "Debt Securities"). The Notes will constitute our unsecured and unsubordinated obligations and will constitute deposit liabilities of the Bank for purposes of the Bank Act and will rank equally with all of our other unsecured and unsubordinated debt including deposit liabilities, other than certain governmental claims in accordance with applicable law, and prior to all of our subordinated debt.

Payment of principal and interest on the Notes will be made in U.S. dollars. We will pay interest, principal and any other money due on the Notes at the corporate trust office of The Bank of New York Mellon or such other office as may be agreed upon. Holders of Notes must make arrangements to have their payments picked up at or wired from that office or such other office as may be agreed upon. We may also choose to pay interest by mailing checks.

The Notes are not entitled to the benefits of any sinking fund.

The Notes of each series will be issued in denominations of US\$2,000 and integral multiples of US\$1,000 in excess of such amount. Upon issuance, each series of Notes will be represented by one or more fully registered global notes. Each global note will be deposited with, or on the behalf of, DTC, as depository. Beneficial interests in the Notes will be shown on, and transfers thereof will be affected only through the book-entry records maintained by DTC and its direct and indirect participants, including Euroclear and Clearstream. See "Legal Ownership and Book-Entry Issuance" in the accompanying Short Form Base Shelf Prospectus.

#### **Maturity**

The Fixed Rate Notes will mature on September 6, 2019 and the Floating Rate Notes will mature on September 6, 2019.

#### **Interest**

##### *Fixed Rate Notes*

The Fixed Rate Notes will bear interest from and including September 6, 2016 at a rate of 1.600% per annum. We will pay interest semi-annually in arrears on March 6 and September 6 of each year, commencing on March 6, 2017 (each, a "Fixed Rate Notes Interest Payment Date"). Interest will be payable on each Fixed Rate Notes Interest Payment Date to the persons in whose names the Fixed Rate Notes are registered at the close of business on the preceding February 19 or August 22, as the case may be, whether or not a business day. However, we will pay interest on the maturity date to the same persons to whom the principal will be payable. If any Fixed Rate Notes Interest Payment Date or the maturity date falls on a day that is not a business day, the

## Table of Contents

interest will be paid on the next following business day (and no interest will be paid in respect of the delay). A business day means any day other than a Saturday or Sunday that is neither a legal holiday nor a day on which banking institutions are authorized or obligated by law or executive order to close in the city of New York, New York or Toronto, Ontario.

Interest on the Fixed Rate Notes will accrue from and including their issue date to, but excluding, the first Fixed Rate Notes Interest Payment Date and then from and including each Fixed Rate Notes Interest Payment Date to which interest has been paid or duly provided for to, but excluding, the next Fixed Rate Notes Interest Payment Date or the maturity date, as the case may be.

Interest on the Fixed Rate Notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

### *Floating Rate Notes*

The Floating Rate Notes will bear interest for each interest period at a rate determined by the calculation agent. The calculation agent is The Bank of New York Mellon until such time as we appoint a successor calculation agent. The interest rate on the Floating Rate Notes for a particular interest period will be a per annum rate equal to three-month USD LIBOR as determined on the applicable interest determination date plus 0.520%. The interest determination date for an interest period will be the second London business day preceding the first day of such interest period. Promptly upon determination, the calculation agent will inform the Trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent shall be binding and conclusive on the holders of the Floating Rate Notes, the Trustee and us. A London business day is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Interest on the Floating Rate Notes will be paid to but excluding the relevant interest payment date. We will make interest payments on the Floating Rate Notes quarterly in arrears on March 6, June 6, September 6 and December 6 of each year, commencing on December 6, 2016. Interest will be payable on each interest payment date to the persons in whose names the Floating Rate Notes are registered at the close of business on the preceding February 19, May 22, August 22 or November 21, as the case may be, whether or not a business day. However, we will pay interest on the maturity date to the same persons to whom the principal will be payable. Interest on the Floating Rate Notes will accrue from and including September 6, 2016, to but excluding the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. We refer to each of these periods as an interest period. The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the Floating Rate Notes then outstanding by an accrued interest factor. This accrued interest factor is computed by adding the interest factor for each day from September 6, 2016, or from the last date we paid interest to you, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. If an interest payment date for the Floating Rate Notes falls on a day that is not a business day, the interest payment date will be postponed to the next succeeding business day unless such next succeeding business day would be in the following month, in which case, the interest payment date will be the immediately preceding business day.

On any interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least US\$1,000,000, as such rate appears on Reuters Page LIBOR01 at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the Reuters Page LIBOR01 as of 11:00 a.m., London time, or if the Reuters Page LIBOR01 is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P. page BBAM.

## **Table of Contents**

If no offered rate appears on Reuters Page LIBOR01 or Bloomberg L.P. page BBAM on an interest determination date at approximately 11:00 a.m., London time, then we will select four major banks in the London interbank market and will request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least US\$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time, which such quotations we will promptly deliver to the calculation agent. If at least two quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, we will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the interest determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least US\$1,000,000 that is representative of single transactions at that time, which such quotations we will promptly deliver to the calculation agent. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of LIBOR for the next interest period will be set equal to the rate of LIBOR for the then current interest period.

Upon request from any holder of Floating Rate Notes, the calculation agent will provide the interest rate in effect for the Floating Rate Notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

All percentages resulting from any calculation of the interest rate on the Floating Rate Notes will be rounded to the nearest one hundred-thousandth of a percentage point with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all U.S. dollar amounts used in or resulting from such calculation on the Floating Rate Notes will be rounded to the nearest cent (with one-half cent being rounded upward). Each calculation of the interest rate on the Floating Rate Notes by the calculation agent will (in absence of manifest error) be final and binding on the holders and us.

The interest rate on the Floating Rate Notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application. In no event will the interest rate on the Floating Rate Notes be less than zero.

## **Further Issues**

The Indenture does not limit the amount of notes, debentures or other evidences of indebtedness that the Bank may issue thereunder and provides that notes, debentures or other evidences of indebtedness may be issued from time to time in one or more series. The Bank may from time to time, without giving notice to or seeking the consent of the holders of the Notes of a series offered hereby, issue additional debt securities having the same terms as the Notes of such series (except for the issue date and, in some cases, the public offering price and the first interest payment date) and ranking equally and ratably with the Notes of such series. Any additional debt securities having such same terms, together with the Notes of the applicable series, will constitute a single series of securities under the Indenture, including for purposes of voting and redemptions. No such additional debt securities of such series may be issued if an event of default (as such term is defined in the accompanying Short Form Base Shelf Prospectus) has occurred and is continuing with respect to the Notes of such series.

## **Payment of Additional Amounts**

Subject to the exceptions described below, all payments of principal or interest made by or on behalf of the Bank under or with respect to the Notes will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or any province or territory thereof or by any authority or agency therein or thereof having power to tax (hereafter Canadian taxes), unless the Bank is required to withhold or deduct Canadian taxes by law or by the official interpretation or administration thereof. If the Bank is so required to withhold or

**Table of Contents**

deduct any amount for or on account of Canadian taxes from any payment of principal or interest made under or with respect to the Notes, the Bank will pay to each holder of Notes as additional interest such additional amounts ( additional amounts ) as may be necessary so that the net amount received by each such holder after such withholding or deduction (and after deducting any Canadian taxes on such additional amounts) will not be less than the amount such holder would have received if such Canadian taxes had not been withheld or deducted, except as described below. However, no additional amounts will be payable with respect to a payment made to a holder (such holder, an excluded holder ) in respect of the beneficial owner thereof:

with which the Bank does not deal at arm's length (for the purposes of the *Income Tax Act* (Canada)) at the time of the making of such payment or which is entitled to the payment in respect of a debt or obligation to pay an amount to a person with which the Bank does not deal at arm's length for the purpose of the *Income Tax Act* (Canada), at the time of making such payment;

which is, or which does not deal at arm's length with a person who is, a specified shareholder (within the meaning of subsection 18(5) of the *Income Tax Act* (Canada)) of the Bank (generally a person will be a specified shareholder for this purpose if that person, either alone or together with persons with whom the person does not deal at arm's length for the purpose of the *Income Tax Act* (Canada), owns or has the right to acquire or control 25% or more of (a) the Bank's voting shares, or (b) the fair market value of all of the Bank's shares);

which is subject to such Canadian taxes by reason of the holder being or having been a resident, domiciliary or national of, engaged in business or maintaining a permanent establishment or other physical presence in or otherwise having some connection with Canada or any province or territory thereof otherwise than by the mere holding of the Notes or the receipt of payments thereunder;

which is subject to such Canadian taxes by reason of the holder's or beneficial owner's failure to comply with any certification, identification, documentation or other reporting requirements if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian taxes;

with respect to any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment, levy, duty, impost or other governmental charge;

which is a fiduciary or partnership or person other than the sole beneficial owner of such payment to the extent that the Canadian taxes would not have been imposed on such payment had such holder been the sole beneficial owner of such Notes; or

which is in respect of any tax imposed under Sections 1471 through 1474 of the United States Internal Revenue Code of 1986 (or any amended or successor provisions), any current or future regulations or official interpretations thereunder or official interpretations thereof, any agreements entered into pursuant to Section 1471(b)(1) of the United States Internal Revenue Code of 1986, any applicable intergovernmental agreement entered into in connection with the implementation of the foregoing and any fiscal or regulatory legislation, rules or official practices adopted pursuant to any such intergovernmental agreement.

The Bank will also:

make such withholding or deduction; and

remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form SUPPL

The Bank will furnish to the Trustee and holders of the Notes, within 60 days after the date the payment of any Canadian taxes is due pursuant to applicable law, certified copies of tax receipts or other documents evidencing such payment by the Bank to the relevant taxation authority.

## **Table of Contents**

The Bank will indemnify and hold harmless each holder of Notes (other than an excluded holder) from and against, and upon written request reimburse each such holder for the amount (excluding any additional amounts that have previously been paid by the Bank with respect thereto) of:

any Canadian taxes so levied or imposed and paid by such holder as a result of payments of principal or interest made by or on behalf of the Bank under or with respect to the Notes;

any penalties and interest arising therefrom or with respect thereto; and

any Canadian taxes imposed with respect to any reimbursement under the preceding two bullet points, but excluding any such Canadian taxes on such holder's net income or capital.

In any event, no additional amounts or indemnity amounts will be payable under the provisions described above in respect of any Note in excess of the additional amounts and the indemnity amounts which would be required if, at all relevant times, the holder of such Note were a resident of the United States for purposes of and was entitled to all of the benefits of the Canada-U.S. Income Tax Convention (1980), as amended, including any protocols thereto. As a result of the limitation on the payment of additional amounts and indemnity amounts discussed in the preceding sentence, the additional amounts or indemnity amounts received by certain holders of Notes may be less than the amount of Canadian taxes withheld or deducted or the amount of Canadian taxes (and related amounts) levied or imposed giving rise to the obligation to pay the indemnity amounts, as the case may be, and, accordingly, the net amount received by such holders of Notes will be less than the amount such holders would have received had there been no such withholding or deduction in respect of Canadian taxes or had such Canadian taxes (and related amounts) not been levied or imposed.

Wherever in the Indenture governing the terms of the Notes there is mentioned, in any context, the payment of principal, interest, if any, or any other amount payable under or with respect to a Note, such mention shall be deemed to include mention of the payment of additional amounts to the extent that, in such context, additional amounts are, were or would be payable in respect thereof.

In the event of the occurrence of any transaction or event resulting in a successor to the Bank, all references to Canada in the preceding paragraphs of this subsection shall be deemed to be references to the jurisdiction of organization of the successor entity.

## **Tax Redemption**

The Bank (or its successor) may redeem the Notes at any time, in whole but not in part, at a redemption price equal to the principal amount thereof together with accrued and unpaid interest to the date fixed for redemption, upon the giving of a notice as described below, if:

as a result of any change (including any announced prospective change) in or amendment to the laws (or any regulations or rulings promulgated thereunder) of Canada (or the jurisdiction of organization of the successor to the Bank) or of any political subdivision or taxing authority thereof or therein affecting taxation, or any change in official position regarding the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change or amendment is announced or becomes effective on or after the date of this Prospectus Supplement (or, in the case of a successor to the Bank, after the date of succession), and which in the written opinion to the Bank (or its successor) of legal counsel of recognized standing has resulted or will result (assuming, in the case of any announced prospective change, that such announced change will become effective as of the date specified in such announcement and in the form announced) in the Bank (or its successor) becoming obligated to pay, on the next succeeding date on which interest is due, additional amounts with respect to the Notes as described under *Payment of Additional Amounts*; or

on or after the date of this Prospectus Supplement (or, in the case of a successor to the Bank, after the date of succession), any action has been taken by any taxing authority of, or any decision has been

## **Table of Contents**

rendered by a court of competent jurisdiction in, Canada (or the jurisdiction of organization of the successor to the Bank) or any political subdivision or taxing authority thereof or therein, including any of those actions specified in the paragraph immediately above, whether or not such action was taken or decision was rendered with respect to the Bank (or its successor), or any change, amendment, application or interpretation shall be officially proposed, which, in any such case, in the written opinion to the Bank (or its successor) of legal counsel of recognized standing, will result (assuming, in the case of any announced prospective change, that such announced change will become effective as of the date specified in such announcement and in the form announced) in the Bank (or its successor) becoming obligated to pay, on the next succeeding date on which interest is due, additional amounts with respect to the Notes;

and, in any such case, the Bank (or its successor), in its business judgment, determines that such obligation cannot be avoided by the use of reasonable measures available to it (or its successor).

In the event the Bank elects to redeem the Notes pursuant to the provisions set forth in the preceding paragraph, it shall deliver to the Trustee a certificate, signed by an authorized officer, stating (i) that the Bank is entitled to redeem such Notes pursuant to their terms and (ii) the principal amount of the Notes to be redeemed.

Notice of intention to redeem the Notes will be given to holders of the Notes not more than 45, nor less than 30, days prior to the date fixed for redemption and such notice will specify, among other things, the date fixed for redemption and the redemption price.

## **Defeasance**

The Notes are subject to defeasance under the conditions set forth in the Indenture and described under *Description of Debt Securities Defeasance* in the accompanying Short Form Base Shelf Prospectus.

## **Governing Law**

The Indenture is, and the Notes will be, governed by and construed in accordance with the laws of the State of New York (other than with respect to the ranking of the Notes which will be governed by and construed in accordance with the laws of the Province of Ontario and the applicable laws of Canada).

## **Concerning the Trustee**

The Trustee, in its individual and any other capacity, may make loans to, accept deposits from, and perform services for the Bank as if it were not the Trustee; however, if it acquires any conflicting interest, it must eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

The Indenture provides that in case an event of default shall occur and be continuing (which shall not be cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of the Notes, unless such holder shall have offered to the Trustee security and indemnity reasonably satisfactory to it against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction.

## **Book-Entry System; Delivery and Form**

### *Global Notes*

We will issue the Notes of each series in the form of one or more global notes in definitive, fully registered, book entry form. The global notes will be deposited with or on behalf of DTC and registered in the name of Cede & Co., as nominee of DTC.

## Table of Contents

### *DTC, Clearstream and Euroclear*

Beneficial interests in the global notes will be represented through book entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may hold interests in the global notes through either DTC (in the United States), Clearstream Banking, S.A., Luxembourg, which we refer to as Clearstream, or Euroclear Bank SA/NV, which we refer to as Euroclear, in Europe, either directly if they are participants in such systems or indirectly through organizations that are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers securities accounts in Clearstream s and Euroclear s names on the books of their U.S. depositaries, which in turn will hold such interests in customers securities accounts in the U.S. depositaries names on the books of DTC.

We have obtained the information in this section concerning DTC, Clearstream and Euroclear and the book entry system and procedures from sources that we believe to be reliable, but we take no responsibility for the accuracy of this information.

We understand that:

DTC is a limited purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act ).

DTC holds securities that its participants deposit with DTC and facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book entry changes in participants accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ( DTCC ). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries.

Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks and trust companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly.

The DTC rules applicable to its participants are on file with the SEC.

We understand that Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between its customers through electronic book entry changes in accounts of its customers, thereby eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Section. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream customer either directly or indirectly.

## **Table of Contents**

We understand that Euroclear was created in 1968 to hold securities for participants of Euroclear and to clear and settle transactions between Euroclear participants through simultaneous electronic book entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank SA/NV, which we refer to as the Euroclear Operator, under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation, which we refer to as the Cooperative. All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear participants. Euroclear participants include banks (including central banks), securities brokers and dealers, and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

We understand that the Euroclear Operator is licensed by the Belgian Banking and Finance Commission to carry out banking activities on a global basis. As a Belgian bank, it is regulated and examined by the Belgian Banking and Finance Commission.

We have provided the descriptions of the operations and procedures of DTC, Clearstream and Euroclear in this Prospectus Supplement solely as a matter of convenience, and we make no representation or warranty of any kind with respect to these operations and procedures. These operations and procedures are solely within the control of those organizations and are subject to change by them from time to time. None of the Bank, the underwriters or the Trustee takes any responsibility for these operations or procedures, and you are urged to contact DTC, Clearstream and Euroclear or their participants directly to discuss these matters.

We expect that under procedures established by DTC:

upon deposit of the global notes with DTC or its custodian, DTC will credit on its internal system the accounts of direct participants designated by the underwriters with portions of the principal amounts of the global notes; and

ownership of the Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC or its nominee, with respect to interests of direct participants, and the records of direct and indirect participants, with respect to interests of persons other than participants.

The laws of some jurisdictions may require that purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer interests in the Notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in Notes represented by a global note to pledge or transfer those interests to persons or entities that do not participate in DTC's system, or otherwise to take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee will be considered the sole owner or holder of the Notes represented by that global note for all purposes under the Indenture and under the Notes. Except as provided below, owners of beneficial interests in a global note will not be entitled to have Notes represented by that global note registered in their names, will not receive or be entitled to receive physical delivery of certificated Notes and will not be considered the owners or holders thereof under the Indenture or under the Notes for any purpose, including with respect to the giving of any direction, instruction or approval to the Trustee. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a direct or indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of Notes under the Indenture or a global note.

## **Table of Contents**

Neither the Bank nor the Trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of Notes by DTC, Clearstream or Euroclear, or for maintaining, supervising or reviewing any records of those organizations relating to the Notes.

Payments on the Notes represented by the global notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. We expect that DTC or its nominee, upon receipt of any payment on the Notes represented by a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the global note as shown in the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the global note held through such participants will be governed by standing instructions and customary practice as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. The participants will be solely responsible for those payments.

Distributions on the Notes held beneficially through Clearstream will be credited to cash accounts of its customers in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively referred to herein as the Terms and Conditions). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear participants.

Distributions on the Notes held beneficially through Euroclear will be credited to the cash accounts of its participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

### ***Clearance and Settlement Procedures***

Initial settlement for the Notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds. Secondary market trading between Clearstream customers and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear, as applicable, and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream customers or Euroclear participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by the U.S. depository. Such cross market transactions, however, will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to the U.S. depository to take action to effect final settlement on its behalf by delivering or receiving the Notes in DTC, and making or receiving payment in accordance with normal procedures for same day funds settlement applicable to DTC. Clearstream customers and Euroclear participants may not deliver instructions directly to their U.S. depositories.

**Table of Contents**

Because of time zone differences, credits of the Notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in the Notes settled during such processing will be reported to the relevant Clearstream customers or Euroclear participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of the Notes by or through a Clearstream customer or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures to facilitate transfers of the Notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time.

***Certificated Notes***

The global notes of a series of Notes may be exchanged for Notes of such series in certificated form only if:

- (a) DTC notifies the Bank that it is unwilling, unable or no longer qualified to continue as depository with respect to such series of Notes and the Bank does not appoint another institution to act as depository with respect to such series of Notes within 60 days;
  - (b) if the Bank notifies the Trustee that it wishes to terminate the global note of such series; or
  - (c) if an Event of Default with respect to such series of Notes has occurred and has not been cured or waived.
- Any Notes in certificated form issued in exchange for a global note shall be registered in such names as DTC shall direct.

**Table of Contents****EARNINGS COVERAGE RATIOS**

The table below sets forth CIBC's consolidated ratios of earnings to fixed charges, calculated on the basis of amounts derived from CIBC's consolidated financial results, after giving effect to the issuance of the Notes, and maturities, repurchases and announced redemptions, for the 12-month period ended October 31, 2015, and July 31, 2016, prepared in accordance with IFRS. The ratios reported are not defined by IFRS and do not have any standardized meanings under IFRS and thus may not be comparable to similar measures used by other issuers.

	<b>12-month period ended October 31, 2015</b>	<b>12-month period ended July 31, 2016</b>
Excluding Interest on Deposits	5.98	7.16
Including Interest on Deposits	2.08	2.26

For purposes of computing these ratios, earnings represent net income attributable to equity shareholders before income taxes and income from equity investees. In addition, earnings are adjusted for the distributed income from equity investees and fixed charges (including and excluding interest on deposits). Fixed charges represent (a) estimated interest within rental expense, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, and (c) interest expensed, including or excluding interest on deposits as indicated. For the purposes of the preceding paragraph and chart, interest on deposits comprises interest expense relating to deposits and secured borrowing liabilities.

CIBC's interest requirements based on subordinated indebtedness and deposits underlying capital trust securities outstanding as at July 31, 2016, after giving effect to the issue of the debt securities to be distributed under the Prospectus Supplement, and maturities, repurchases and announced redemptions, would be Cdn\$346 million for the 12-month period ending July 31, 2017. Earnings before income taxes and actual interest requirements on subordinated indebtedness and deposits underlying capital trust securities, and net of non-controlling interests, for the 12-month period ended July 31, 2016, was Cdn\$5,096 million, which was 14.7 times our interest requirements as described above.

In calculating the earnings coverage, non-controlling interests were adjusted to before-tax equivalents using the applicable statutory income tax rates in each of the relevant jurisdictions.

Foreign currency amounts have been converted to Canadian dollars using the appropriate prevailing rates of exchange. As at July 31, 2016, in the case of U.S. dollars, the rate was Cdn\$1.3056 per US\$1.00.

Amounts and ratios reported above are derived from CIBC's consolidated financial results for the 12-month periods ended October 31, 2015 and July 31, 2016, respectively, prepared in accordance with IFRS.

Consolidated ratios of earnings to fixed charges will be filed quarterly with the applicable securities regulatory authorities.

**MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS**

**General**

The following is a summary of certain material U.S. federal income tax consequences of the purchase, ownership and disposition of a Note. This summary applies to holders only if they are a beneficial owner of a Note and acquire the Note in this offering for a price equal to the issue price of the Notes. For purposes of this discussion, a U.S. Holder means a beneficial owner of a Note that, for U.S. federal income tax purposes, is:

a citizen or individual resident of the United States;

a corporation (including for this purpose any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any State thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (i) that is subject to the primary supervision of a court within the United States and under the control of one or more United States persons (as defined for U.S. federal income tax purposes), or (ii) that has a valid election in effect under applicable U.S.

Treasury regulations to be treated as a United States person.

For the purposes of this discussion, a non-U.S. Holder means a beneficial owner of a Note that, for U.S. federal income tax purposes, is an individual, corporation (including for this purpose any other entity treated as a corporation for U.S. federal income tax purposes), trust or estate that is not a U.S. Holder.

This summary is based on provisions of the Internal Revenue Code of 1986, as amended (the Code), Treasury regulations issued thereunder, and administrative and judicial interpretations thereof, all as of the date of this prospectus supplement and all of which are subject to change or differing interpretation (perhaps retroactively), and is for general information only. This summary addresses only beneficial owners of the Notes that hold the Notes as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment purposes), and does not represent a detailed description of the U.S. federal income tax consequences to prospective purchasers of the Notes in light of their particular circumstances. In addition, it does not represent a detailed description of the U.S. federal income tax consequences applicable to prospective purchasers of the Notes that are subject to special treatment under the U.S. federal income tax laws, such as taxpayers subject to the alternative minimum tax or the U.S. federal estate and gift tax, U.S. expatriates, financial institutions, real estate investment trusts, regulated investment companies, partnerships or other pass-through entities, or investors in such entities, individual retirement and other tax deferred accounts, dealers and traders in securities or currencies, insurance companies, tax-exempt organizations, persons holding Notes as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle or synthetic security, and U.S. Holders whose functional currency is other than the U.S. dollar. We cannot assure holders that a change in law will not alter significantly the tax considerations that we describe in this summary.

If a U.S. or non-U.S. partnership (including for this purpose an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the Notes, the tax treatment of a partner generally will depend upon the status of the partner, the activities of the partnership and certain determinations made at the partner level. Non-U.S. partnerships also generally are subject to special tax documentation requirements.

Holders should consult their own tax advisor concerning the particular U.S. federal income tax and other U.S. federal tax (such as U.S. federal estate and gift) consequences to them resulting from their ownership and disposition of the Notes, as well as the consequences to them arising under the laws of any other taxing jurisdiction.

**U.S. Holders**

*Interest.* It is expected and this discussion assumes that either the issue price of the Notes will equal the stated principal amount of the Notes or the Notes will be issued with no more than a de minimis amount of

**Table of Contents**

original issue discount (OID). Interest paid to a U.S. Holder on a Note will be includible in the U.S. Holder's gross income as ordinary interest income in accordance with its usual method of tax accounting. In addition, interest on the Notes will be treated as foreign source income for U.S. federal income tax purposes. Subject to certain conditions and limitations, non-U.S. taxes, if any, withheld on interest payments may be treated as non-U.S. taxes eligible for credit against a U.S. Holder's U.S. federal income tax liability. The limitation on non-U.S. taxes eligible for the U.S. foreign tax credit is calculated separately with respect to specific baskets of income. Interest on the Notes generally will constitute passive category income, or, in the case of certain U.S. Holders, general category income. As an alternative to the tax credit, a U.S. Holder may elect to deduct such taxes (the election would then apply to all non-U.S. income taxes such as U.S. Holder paid in that taxable year). The rules governing the U.S. foreign tax credit are complex. U.S. Holders are urged to consult their tax advisor regarding the availability of the U.S. foreign tax credit under their particular circumstances.

*Sale, Exchange, Retirement or Other Disposition.* Upon the sale, exchange, retirement or other disposition of a Note, a U.S. Holder will recognize taxable gain or loss equal to the difference, if any, between the amount realized on the sale, exchange, retirement or other disposition, other than accrued but unpaid interest which will be taxable as interest, and such U.S. Holder's adjusted tax basis in the Note. A U.S. Holder's adjusted tax basis in a Note generally will equal the cost of the Note to such U.S. Holder, and any such gain or loss will generally be capital gain or loss. For a non-corporate U.S. Holder, under current law, the maximum marginal U.S. federal income tax rate applicable to the gain will be generally lower than the maximum marginal U.S. federal income tax rate applicable to ordinary income if the U.S. Holder's holding period for the Notes exceeds one year (i.e., such gain is long-term capital gain). Any gain or loss realized on the sale, exchange, retirement or other disposition of a Note generally will be treated as U.S. source gain or loss, as the case may be. Consequently, a U.S. Holder may not be able to claim a credit for any non-U.S. tax imposed upon a disposition of a Note. The deductibility of capital losses is subject to limitations.

A tax of 3.8% is also imposed on the net investment income of certain individuals, trusts and estates. Among other items, net investment income generally includes gross income from interest and net gain attributable to the disposition of certain property, including debt instruments, less certain deductions. U.S. Holders should consult their own tax advisors regarding the possible implications of this legislation in their particular circumstances.

**Non-U.S. Holders**

Subject to the discussion below under *Backup Withholding and Information Reporting*, and under FATCA, a non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on interest paid in respect of the Notes, or gain recognized upon the sale, retirement or other taxable disposition of the Notes, unless (i) the interest or gain is effectively connected with the conduct by the non-U.S. Holder of a trade or business within the United States (and, if a tax treaty applies, is attributable to a permanent establishment in the United States), or (ii) in the case of gain, the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the relevant taxable year and certain other conditions are met.

**Backup Withholding and Information Reporting**

Backup withholding and information reporting requirements apply to certain payments of principal of, and interest (including OID, if any) on, an obligation and to proceeds of the sale or redemption of an obligation, to certain holders of the Notes. Information reporting generally will apply to all such payments within the United States, or by a U.S. payor or U.S. middleman, to a U.S. Holder (other than an exempt recipient). The payor will be required to withhold on payments made within the United States, or by a U.S. payor or U.S. middleman, to a U.S. Holder, if the holder fails to furnish its correct taxpayer identification number or otherwise establish an exemption from, backup withholding. Payments within the United States, or by a U.S. payor or U.S. middleman, of principal and interest to a non-U.S. Holder will not be subject to backup withholding and information reporting requirements if an appropriate certification is provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect. The backup withholding rate is currently 28%.

## **Table of Contents**

Backup withholding is not an additional tax. Holders generally will be entitled to credit any amounts withheld under the backup withholding rules against their U.S. federal income tax liability provided the required information is furnished to the IRS in a timely manner.

Additionally, U.S. Holders that are individuals (and, to the extent provided in future regulations, certain entities) may be required to disclose information about their Notes on Form 8938 Statement of Specified Foreign Financial Assets if the aggregate value of their Notes and their specified financial assets exceeds US\$50,000 (or other thresholds depending on the individual's exact circumstances). Significant penalties can apply if a U.S. Holder fails to disclose its specified foreign financial assets.

## **FATCA**

Pursuant to Sections 1471 through 1474 of the Code and regulations promulgated thereunder (commonly referred to as the Foreign Account Tax Compliance Act or FATCA), a foreign financial institution may be required to withhold on certain payments it makes (foreign passthru payments) to persons (including such persons that are not beneficial owners of such payments) that fail to meet certain certification, reporting, or related requirements. CIBC is a foreign financial institution for these purposes. A number of jurisdictions (including Canada) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (IGAs), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of the Canadian IGA, a foreign financial institution in Canada would generally not be required to withhold under FATCA on payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or the Canadian IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or the Canadian IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to January 1, 2019 and Notes issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. However, if additional notes (as described under Description of the Notes Further Issues) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

**MATERIAL CANADIAN FEDERAL INCOME TAX CONSIDERATIONS**

The following is a summary of the principal Canadian federal income tax considerations generally applicable at the date hereof to a purchaser who acquires ownership of a Note pursuant to this Prospectus Supplement and who for the purposes of the *Income Tax Act* (Canada) and Regulations thereto (collectively, the Act) and at all relevant times: (a) is neither resident nor deemed to be resident in Canada; (b) deals at arm's length with the Bank, and any transferee resident (or deemed to be resident) in Canada to whom the purchaser disposes of the Note; (c) does not use or hold and is not deemed to use or hold the Note in, or in the course of, carrying on a business in Canada; (d) is entitled to receive all payments (including any interest and principal) made on the Note, and (e) is not a, and deals at arm's length with any, specified shareholder of the Bank for purposes of the thin capitalization rules in the Act (a Non-Resident Holder). A specified shareholder for these purposes generally includes a person who (either alone or together with persons with whom that person is not dealing at arm's length for the purposes of the Act) owns or has the right to acquire or control or is otherwise deemed to own 25% or more of the Bank's shares determined on a votes or fair market value basis. Special rules which apply to non-resident insurers carrying on business in Canada and elsewhere are not discussed in this summary.

This summary is based upon the current provisions of the Act and an understanding of the current administrative policies and assessing practices published in writing by the Canada Revenue Agency prior to the date hereof. This summary takes into account all specific proposals to amend the Act publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the Proposals) and assumes that all Proposals will be enacted in the form proposed. However, no assurance can be given that the Proposals will be enacted as proposed or at all. This summary does not otherwise take into account any changes in law or in administrative policies or assessing practices, whether by legislative, administrative or judicial action, nor does it take into account any provincial, territorial or foreign income tax considerations, which may differ from those discussed herein.

**This summary is of a general nature only and is not intended to be, legal or tax advice to any particular purchaser. This summary is not exhaustive of all Canadian federal income tax considerations. Accordingly, prospective purchasers should consult their own tax advisors with respect to their particular circumstances.**

No Canadian withholding tax will apply to interest or principal paid or credited to a Non-Resident Holder by the Bank or to proceeds received by a Non-Resident Holder on the disposition of a Note, including on a redemption, payment on maturity, repurchase or purchase for cancellation or on a disposition of Notes to any other person with whom such holder deals at arm's length for purposes of the Act. Non-Resident Holders should consult their own advisors regarding the consequences to them of a disposition of Notes to a person with whom they are not dealing at arm's length for purposes of the Act.

No other tax on income or gains will be payable by a Non-Resident Holder on interest or principal or on proceeds received by such a holder on the disposition of a Note, including on a redemption, payment on maturity, repurchase or purchase for cancellation.

The Notes are being offered by the underwriters subject to approval of legal matters by counsel for the underwriters and other conditions. The underwriting agreement provides that the underwriters are obligated to purchase all of the Notes if any are purchased. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of the non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters propose initially to offer the Notes to the public at the public offering prices on the cover page of this Prospectus Supplement. The underwriters may offer the Fixed Rate Notes to dealers at the public offering price for the Fixed Rate Notes less a concession not in excess of 0.150% of the principal amount per Fixed Rate Note. The underwriters may allow, and the dealers may reallow, a discount not in excess of 0.100% of the principal amount of the Fixed Rate Notes to other dealers. The underwriters may offer the Floating Rate Notes to dealers at the public offering price for the Floating Rate Notes less a concession not in excess of 0.150% of the principal amount per Floating Rate Note. The underwriters may allow, and the dealers may reallow, a discount not in excess of 0.100% of the principal amount of the Floating Rate Notes to other dealers. After the initial public offering of the Notes, the underwriters may change the public offering prices and discounts to broker/dealers.

The expenses of the offering, not including the underwriting discount, are estimated to be US\$250,000 and are payable by the Bank.

Each series of Notes is a new issue of securities with no established trading market. We do not intend to list the Notes of either series on any securities exchange or automated quotation system. The underwriters have advised us that they intend to make a secondary market for the Notes of each series. However, they are not obligated to do so and may discontinue making a secondary market for the Notes of either series at any time without notice. If a trading market develops, no assurance can be given as to how liquid that trading market for such Notes will be.

## **Table of Contents**

The Bank has agreed to indemnify the underwriters against liabilities under the U.S. Securities Act of 1933, as amended, or contribute to payments that the underwriters may be required to make in that respect.

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Over-allotment involves sales by the underwriters of Notes in excess of the principal amount of the Notes of a series the underwriters are obligated to purchase, which creates a syndicate short position. Syndicate covering transactions involve purchases of the Notes in the open market after the distribution has been completed in order to cover syndicate short positions. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Notes of a series in the open market after pricing that could adversely affect investors who purchase such series of Notes in the offering. Penalty bids permit the underwriters to reclaim a selling concession from a broker/dealer when the Notes originally sold by such broker/ dealer are purchased in a stabilizing or covering transaction to cover short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the Notes of a series or preventing or retarding a decline in the market price of the Notes of a series. As a result, the price of the Notes of a series may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

In the ordinary course of business, the underwriters and their affiliates have provided financial advisory, investment banking and general financing and banking services for the Bank for customary fees. The underwriters and/or their affiliates may provide such services to the Bank in the future.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and instruments of ours or our affiliates. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or financial instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

We expect that delivery of the Notes will be made against payment therefor on or about September 6, 2016, which is five business days following the date of pricing of the Notes (this settlement cycle being referred to as T+5 ). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade their Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Notes who wish to trade their Notes on the date of pricing or the next succeeding business day should consult their own advisor.

## **Conflicts of Interest**

Because CIBC World Markets Corp. is an affiliate of the Bank and is participating in the distribution of the Notes in this offering as an underwriter, CIBC World Markets Corp. has a conflict of interest as defined in FINRA Rule 5120. Consequently, this offering is being conducted in compliance with FINRA Rule 5120. Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering, as the offering is of a class of securities rated investment grade by a nationally recognized statistical rating organization acceptable to FINRA. CIBC World Markets Corp. is not permitted to sell Notes in this offering to accounts over which discretionary control is exercised without the prior specific written authority of the account holder.

This Prospectus Supplement has been prepared on the basis that any offer of Notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Notes. ### **Canadian Imperial Bank of Commerce**

CIBC is a diversified financial institution governed by the Bank Act. CIBC's registered and head office is located in Commerce Court, Toronto, Canada, M5L 1A2. CIBC was formed through the amalgamation of The Canadian Bank of Commerce (originally incorporated in 1858) and Imperial Bank of Canada (originally incorporated in 1875).

### **Description of Debt Securities**

The following describes the material terms of the Debt Securities. The Senior Debt Securities will be issued under the Indenture which is incorporated by reference as an exhibit to the Registration Statement of which this Prospectus forms a part. The Subordinated Debt Securities will be issued under an indenture (the "subordinated indenture"), between CIBC and a trustee, the form of which is incorporated by reference as an exhibit to the Registration Statement of which this Prospectus forms a part. The Indenture and the subordinated indenture are sometimes referred to in this Prospectus collectively as the "indentures" and each individually as an "indenture". The specific terms applicable to a particular issuance of Debt Securities and any variations from the terms set forth below will be set forth in the applicable Prospectus Supplement.

The following is a summary of the material terms and provisions of the indentures and the Debt Securities. You should refer to the Indenture and the form of the subordinated indenture and the Debt Securities for

complete information regarding the terms and provisions of the indentures and the Debt Securities. The indentures are subject to and governed by the U.S. Trust Indenture Act of 1939, as amended, and applicable Canadian trust indenture legislation. The indentures are substantially identical, except for the events of default, which are more limited in the subordinated indenture, and the provisions relating to subordination.

### ***Ranking***

Neither the Senior Debt Securities nor the Subordinated Debt Securities will be secured by any of our property or assets or the property or assets of our subsidiaries. Thus, by owning a Debt Security, you are one of our unsecured creditors.

The Senior Debt Securities will be unsubordinated obligations that rank equally with all of our other unsecured and unsubordinated debt, including deposit liabilities, other than certain governmental claims in accordance with applicable law. The Subordinated Debt Securities will be subordinate in right of payment to all of our senior indebtedness, as defined in the subordinated indenture. If a NVCC Automatic Conversion (as defined herein) occurs, the rights, terms and conditions of the Subordinated Debt Securities, including with respect to priority and subordination, will no longer be relevant as all the Subordinated Debt Securities will have been converted into Common Shares which will rank on parity with all other outstanding Common Shares.

In the event we become insolvent, our governing legislation provides that priorities among payments of our deposit liabilities (including payments in respect of the Senior Debt Securities) and, for so long as a trigger event has not occurred as contemplated under the specific Non-Viability Contingent Capital Provisions, payments of all of our other liabilities (including payments in respect of the Subordinated Debt Securities issued hereunder) are to be determined in accordance with the laws governing priorities and, where applicable, by the terms of the indebtedness and liabilities. In addition, our right to participate in any distribution of the assets of our banking or non-banking subsidiaries, upon a subsidiary's dissolution, winding-up, liquidation or reorganization or otherwise, and thus your ability to benefit indirectly from such distribution, is subject to the prior claims of creditors of that subsidiary, except to the extent that we may be a creditor of that subsidiary and our claims are recognized. There are legal limitations on the extent to which some of our subsidiaries may extend credit, pay dividends or otherwise supply funds to, or engage in transactions with, us or some of our other subsidiaries. Accordingly, the Debt Securities will be structurally subordinated to all existing and future liabilities of our subsidiaries, and holders of Debt Securities should look only to our assets for payments on the Debt Securities.

**Neither the Senior Debt Securities nor the Subordinated Debt Securities will constitute deposits insured under the *Canada Deposit Insurance Corporation Act (Canada)* or by the United States Federal Deposit Insurance Corporation or any other Canadian or United States governmental agency or instrumentality.**

When we refer to Debt Securities or Debt Security in this section, we mean both the Senior Debt Securities and the Subordinated Debt Securities.

### ***General***

We may issue as many distinct series of Debt Securities under either indenture as we wish. The provisions of the Indenture and the subordinated indenture allow us not only to issue Debt Securities with terms different from those previously issued under the applicable indenture, but also to re-open a previous issue of a series of Debt Securities and issue additional Debt Securities of that series. We may issue Debt Securities in amounts that exceed the total amount specified on the cover of your applicable Prospectus Supplement at any time without your consent and without notifying you. In addition, we may issue additional Debt Securities of any series at any time without your consent and without notifying you. Subject to regulatory capital requirements applicable to CIBC, there is no limit on the amount of Senior Debt Securities or Subordinated Debt Securities that CIBC may issue. We may also issue other securities at any time without your consent and without notifying you. The

indentures do not limit our ability to incur other indebtedness or to issue other securities, and we are not subject to financial or similar restrictions under the indentures.

This section summarizes the material terms of the Debt Securities that are common to all series, subject to any modifications contained in an applicable Prospectus Supplement. Most of the specific terms of your series will be described in the applicable Prospectus Supplements accompanying this Prospectus. The specific terms of your Debt Security as described in the applicable Prospectus Supplements will supplement and, if applicable, may modify or replace the general terms described in this section. If there are any differences between the information in the applicable Prospectus Supplements and this Prospectus, the information in the most recent applicable Prospectus Supplement will control. Accordingly, the statements we make in this section may not apply to your Debt Securities. Because this section is a summary, it does not describe every aspect of the Debt Securities. This summary is subject to and qualified in its entirety by reference to all the provisions of the indentures and the applicable series of Debt Securities, including definitions of certain terms used in the indentures and the applicable series of Debt Securities. In this summary, we describe the meaning of only some of the more important terms. You must look to the indentures or the applicable series of Debt Securities for the most complete description of what we describe in summary form in this Prospectus.

We may issue the Debt Securities as original issue discount securities, which will be offered and sold at a substantial discount below their stated principal amount. An applicable Prospectus Supplement relating to the original issue discount securities will describe U.S. federal and other relevant income tax considerations and other special considerations applicable to them. The Debt Securities may also be denominated in foreign currencies or currency units, as described in more detail in an applicable Prospectus Supplement relating to any of the particular Debt Securities. An applicable Prospectus Supplement relating to specific Debt Securities will also describe any special considerations and any material U.S. and Canadian tax considerations applicable to such Debt Securities, including whether and under what circumstances we will pay additional amounts on or for any tax, assessment or governmental charge withheld or deducted and, if so, whether we will have the option to redeem the Debt Securities rather than pay the additional amounts.

When we refer to a series of Debt Securities, we mean a series issued under the indenture pursuant to which the Debt Securities will be issued. Each series of Debt Securities is a single distinct series under the indenture pursuant to which they will be issued and we may issue Debt Securities of each series in such amounts, at such times and on such terms as we wish. The Debt Securities of each series may differ from one another, and from any other series, in their terms, but all Debt Securities of a series together will constitute a single series for all purposes under the indenture pursuant to which they will be issued.

We may issue Debt Securities up to an aggregate principal amount as we may authorize from time to time. The applicable Prospectus Supplements will describe the terms of any series of Debt Securities being offered, including:

the title of the series of Debt Securities;

any limit on the aggregate principal amount of the series of Debt Securities;

the person to whom interest on a Debt Security is payable, if other than the holder on the regular record date;

the date or dates on which the series of Debt Securities will mature;

the rate or rates (which may be fixed or variable) per annum, at which the series of Debt Securities will bear interest, if any, and the date or dates from which that interest, if any, will accrue;

the dates on which such interest, if any, will be payable and the regular record dates for such interest payment dates;

the place or places where the principal of, premium, if any, and interest on the Debt Securities is payable;

if applicable, the terms and conditions upon which the Debt Securities may be repayable prior to final maturity at the option of the holder thereof (which option may be conditional);

the currency of payment of principal, premium, if any, and interest on the series of Debt Securities;

if the currency of payment for principal, premium, if any, and interest on the series of Debt Securities is subject to our election or that of a holder, the currency or currencies in which payment can be made and the period within which, and the terms and conditions upon which, the election can be made;

***Market-Making Transactions***

## Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form SUPPL

One or more of our subsidiaries may purchase and resell Debt Securities in market-making transactions after their initial issuance. We may also, subject to applicable law and any required regulatory approval, purchase Debt Securities in the open market or in private transactions to be held by us or cancelled.

### *Covenants*

Except as otherwise provided in an applicable Prospectus Supplement with respect to any series of Debt Securities, we are not restricted by the indentures from incurring, assuming or becoming liable for any type of debt or other obligations, from paying dividends or making distributions on our capital stock or purchasing or redeeming our capital stock. The indentures do not require the maintenance of any financial ratios or specified levels of net worth or liquidity, nor do they contain any covenants or other provisions that would limit our or our subsidiaries' right to incur additional indebtedness, enter into any sale and leaseback transaction or grant liens on

our or our subsidiaries' assets. The indentures do not contain any provisions that would require us to repurchase or redeem or otherwise modify the terms of any of the Debt Securities upon a change in control or other events that may adversely affect the creditworthiness of the Debt Securities, for example, a highly leveraged transaction, except as otherwise specified in this Prospectus or any applicable Prospectus Supplement.

### ***Mergers and Similar Events***

Each of the indentures provide that we are permitted to merge, amalgamate, consolidate or otherwise combine with another entity or to sell or lease substantially all of our assets to another entity, as long as the following conditions are met:

When we merge, amalgamate, consolidate or otherwise are combined with another entity, or sell or lease substantially all of our assets, the surviving, resulting or acquiring entity is a duly organized entity and is legally responsible for and assumes, either by agreement, operation of law or otherwise, our obligations under such indenture and the Debt Securities issued thereunder.

The merger, amalgamation, consolidation, other combination, or sale or lease of assets, must not result in an event of default under such indenture. A default for this purpose would include any event that would be an event of default if the requirements for giving us default notice or our default having to exist for a specified period of time were disregarded.

If the conditions described above are satisfied, we will not need to obtain the consent of the holders of the Debt Securities in order to merge, amalgamate, consolidate or otherwise combine with another entity or to sell or lease substantially all of our assets.

We will not need to satisfy the conditions described above if we enter into other types of transactions, including:

any transaction in which we acquire the stock or assets of another entity but in which we do not merge, amalgamate, consolidate or otherwise combine;

any transaction that involves a change of control but in which we do not merge, amalgamate, consolidate or otherwise combine; and

any transaction in which we sell less than substantially all of our assets.

It is possible that this type of transaction may result in a reduction in our credit rating, may reduce our operating results or may impair our financial condition. Holders of Debt Securities, however, will have no approval right with respect to any transaction of this type.

### ***Modification and Waiver of the Debt Securities***

There are four types of changes we can make to the indenture and the Debt Securities issued under that indenture.

*Changes Requiring Consent of Each Holder.* First, there are changes that cannot be made to the indenture or the Debt Securities without the consent of each holder of a series of Debt Securities affected by the change under a particular indenture. Following is a list of those types of changes:

change the stated maturity of the principal or reduce the interest on a Debt Security;

reduce any amounts due on a Debt Security;

Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form SUPPL

reduce the amount of principal payable upon acceleration of the maturity of a Debt Security (including the amount payable on an original issue discount security) following a default;

change the currency of payment on a Debt Security;

change the place of payment for a Debt Security;

impair a holder's right to sue for payment;

impair a holder's right to require repurchase on the original terms of those Debt Securities that provide a right of repurchase;

reduce the percentage of holders of Debt Securities whose consent is needed to modify or amend the indenture;

reduce the percentage of holders of Debt Securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults; or

modify any other aspect of the provisions dealing with modification and waiver of the indenture.

*Changes Requiring a Majority Consent.* The second type of change to the indenture and the Debt Securities is the kind that requires the consent of holders of Debt Securities owning not less than a majority of the principal amount of the particular series affected. Most changes fall into this category, except for clarifying changes and certain other changes that would not adversely affect in any material respect holders of the Debt Securities. We may also obtain a waiver of a past default from the holders of Debt Securities owning a majority of the principal amount of the particular series affected. However, we cannot obtain a waiver of a payment default or any other aspect of the indenture or the Debt Securities described above under "Changes Requiring Consent of Each Holder" unless we obtain the individual consent of each holder of Debt Securities of the affected series to the waiver.

*Changes Not Requiring Consent.* The third type of change to the indenture and the Debt Securities does not require the consent by holders of Debt Securities. This type is limited to the issuance of new series of Debt Securities under the indenture, clarifications and certain other changes that would not adversely affect in any material respect the interests of the holders of the Debt Securities of any series.

*Modification of Subordination Provisions.* The fourth type of change to the indenture and the Debt Securities is the kind that requires the consent of the holders of a majority of the principal amount of all affected series of Subordinated Debt Securities, voting together as one class. We may not modify the subordination provisions of the subordinated indenture in a manner that would adversely affect in any material respect the outstanding Subordinated Debt Securities of any one or more series without the consent of the holders of a majority of the principal amount of all affected series of Subordinated Debt Securities, voting together as one class.

*Further Details Concerning Voting.* When seeking consent, we will use the following rules to decide the principal amount to attribute to a Debt Security:

For original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of the Debt Securities were accelerated to that date because of a default.

For Debt Securities whose principal amount is not known, we will use a special rule for that Debt Security described in the ap
