CHAIRMAN'S STATEMENT (unaudited)

Dear Stockholders,

As we enter the month of December we can look back on a very eventful year of investing in Greater China which saw continued volatility in returns.

As described in greater detail in the Investment Manager's Statement, while the China equity market has done very well versus developed markets to date, our Fund has lagged the benchmark, mainly due to our longer term investment focus which is not designed to adjust for short term, sentiment driven market movements.

Since my last statement, the six months ended October 31, 2016 saw the Fund returning 11.28%. Although this puts us at the top of our peer group, we underperformed the benchmark which returned 14.18%. We are clearly disappointed that the Fund is behind the MSCI Golden Dragon Index by 6.1% year to date and we have had detailed discussions with our portfolio manager about this.

We would like to reassure you that we believe our portfolio is well positioned for sustainable long term returns and we will continue to work closely with our manager to return the Fund to the positive pattern of returns to which you have been accustomed.

We thank you for entrusting us with your investments and look forward to your continued support.

Yours sincerely,

Joe O. Rogers

Chairman

INVESTMENT MANAGER'S STATEMENT (unaudited)

Market Environment

Over the last few months, investors have been encouraged by positive economic data coming out of China including improved import figures, better corporate earnings as well as improvement in the official Purchasing Managers' Index. In comparison, the Chinese equity markets have experienced much more dramatic movements over the past year. The MSCI Golden Dragon Index (Index) experienced one of the worst starts to a calendar year with a correction of 9.98% in January 2016 mainly due to the newly introduced circuit breaker rule in the China A-Shares market. From mid-February, Chinese equities started to recover their lost ground and as at October 31, 2016, the Index has returned 11.82% in US dollar (USD) terms for the first 10 months of 2016, outperforming major developed markets such as United States, Europe and Japan.

It is worth noting that the current rally started gaining momentum after Brexit in June. Growing political risk in Europe, concerns over elevated valuations in the United States and the potential for a lower for longer interest rate environment have combined to drive fund flows back into emerging market equities. In particular, we have observed a strong pick up in passive fund flows, pushing up many index heavy, mega cap stocks. For example, Tencent Holdings Ltd., Taiwan Semiconductor Manufacturing Co. Ltd. and Alibaba Group Holdings Ltd., the largest Index constituents, have each returned 25.13% in USD terms year-to-date, and now account for 20.48% of the index. In contrast, mid and small cap China stocks have underperformed large caps by 3.03% and 9.91% respectively year-to-date.

Portfolio Review

The Fund typically has a bias towards mid and small caps where we find the higher potential long term growth opportunities for the region. However, the investment style has been a headwind this year. For example, the top two detractors over the last 12 months have been two mid cap industrial stocks, Beijing Enterprises Holdings Ltd., a natural gas distributor, and China Everbright International Ltd., a waste treatment solution provider. We have held both names in the Fund for over five years, with a positive view on the rising usage of natural gas and the increasing need for waste treatment in China. Over the year, both names were negatively impacted by concerns of potential natural gas price cuts and subsidy reductions on alternative energy. We believe the longer term structural growth trend for both companies remains intact.

Among the top contributors was Digital China Holdings Ltd., a small cap IT service provider. During the past year, the company has managed to gradually transition from an IT distributor to concentrate fully on internet services, focusing on more value added businesses such as cloud, big data, agricultural IT and smart city initiatives. The company also used the funding of an IT distribution divestment to pay a special dividend of HK\$3.20 per share in April. We believe the successful transition of business should take time and gradually lead to a further re-rating of the company's share price going forward.

INVESTMENT MANAGER'S STATEMENT (unaudited) (continued)

Market Outlook

The overcapacity issues in traditional manufacturing, commodities and materials show disappointingly few signs of meaningful reform. Companies in these sectors continue to face significant headwinds. Where we do see better growth prospects are in service-related industries and high end manufacturing. The powerful long term trends encompassing consumption and manufacturing upgrade cycles should provide decent opportunities for companies with the right positioning and execution ability. Often these opportunities are in the mid and small cap space where growth potential is yet to be reflected in valuations.

THE CHINA FUND, INC.

NOTES TO FINANCIAL STATEMENTS

October 31, 2016

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The China Fund, Inc. (the Fund) was incorporated under the laws of the State of Maryland on April 28, 1992, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is long-term capital appreciation which it seeks to achieve by investing primarily in equity securities (i) of companies for which the principal securities trading market is the People's Republic of China (China), (ii) of companies for which the principal securities trading market is outside of China, or constituting direct equity investments in companies organized outside of China, that in both cases derive at least 50% of their revenues from goods and services sold or produced, or have at least 50% of their assets, in China and (iii) constituting direct equity investments in companies organized in China (Direct Investments). The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The Fund's Investment Manager is Allianz Global Investors (Investment Manager).

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standard Codification Topic 946 Financial Services Investment Companies.

The financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates. Management has evaluated the impact of all events or transactions occurring after year end through the date these financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure. The following summarizes the significant accounting policies of the Fund:

Security valuation: Portfolio securities listed on recognized United States or foreign security exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, from brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are not readily available or are deemed unreliable are valued at fair value in good faith by or at the direction of the Board of Directors considering relevant factors, data and information including, if relevant, the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded. Direct Investments, if any, are valued at fair value as determined by or at the direction of the Board of Directors based on financial and other information supplied by the Investment Manager regarding each Direct Investment. Forward currency contracts are valued at the current cost of offsetting the contract. Equity linked securities are valued at fair value primarily based on the value(s) of the underlying security (or securities), which normally follows the same methodology as the valuation of securities listed on recognized exchanges.

Factors used in determining fair value may include, but are not limited to, the type of security, the size of the holding, the initial cost of the security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, the availability of

quotations from broker-dealers, the availability of values of third parties other than the Investment Manager, information obtained from the issuer, analysts, and/or the appropriate stock exchange (if available), an analysis of the company's financial statements, an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination, and the movement of the market in which they trade.

Repurchase Agreements: In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, realization of the collateral by the Fund may be delayed or limited.

Repurchase Agreements					
U.S. Treasury and agency securities	\$ 6,175,000	\$	\$	\$	\$ 6,175,000
Total Borrowings	\$ 6,175,000	\$	\$	\$	\$ 6,175,000

Securities Lending: The Fund may lend up to 33 1/3% of the Fund's total assets held by State Street Bank and Trust Company (State Street) as custodian to certain qualified brokers, except those securities which the Fund or the Investment Manager specifically identifies as not being available. By lending its investment securities, the Fund attempts to increase its net investment income through the receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur and any interest or dividends declared during the term of the loan would accrue to the account of the Fund. Risks of delay in recovery of the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the collateral decreases below the value of the securities loaned. Upon entering into a securities lending transaction, the Fund receives cash or other securities as collateral in an amount equal to or exceeding 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, 102% of the current market value of the loaned securities with respect to U.S. securities and 105% of the current market value of the loaned securities with respect to foreign securities. Any cash received as collateral is generally invested by State Street, acting in its capacity as securities lending agent (the Agent), in the State Street Navigator Securities Lending Government Money Market Portfolio. The non-cash collateral received consists of short term investments, long term bonds and equities, and is held for the benefit of the Fund at the Fund's custodian. Non-cash collateral is not disclosed in the Fund's Statement of Assets and Liabilities as it is held by the lending agent on behalf of the Fund and the Fund does not have the ability to re-hypothecate those securities. A portion of the dividends received on the collateral may be rebated to the borrower of the securities and the remainder is split between the Agent and the Fund.

As of October 31, 2016, the Fund had loaned securities which were collateralized by cash, short term investments, long term bonds and equities. The value of the securities on loan and the value of the related collateral were as follows:

Value of Securities	Value of Cash Collateral	Value of Non-Cash Collateral*	Total Collateral
\$28,845,129	\$ 1,028,930	\$ 30,108,216	\$ 31,137,146

Foreign currency translations: The records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses are translated on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from the disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments. Net unrealized foreign currency gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates.

NOTES TO FINANCIAL STATEMENTS (continued)

Forward Foreign Currency Contracts: The Fund may enter into forward foreign currency contracts to hedge against foreign currency exchange rate risks. A forward currency contract is an agreement between two parties to buy or sell currency at a set price on a future date. Upon entering into these contracts, risks may arise from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. The U.S. dollar value of forward currency contracts is determined using forward exchange rates provided by quotation services. Daily fluctuations in the value of such contracts are recorded as unrealized gain or loss on the Statement of Assets and Liabilities. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Such gain or loss is disclosed in the realized and unrealized gain or loss on foreign currency in the Fund's accompanying Statement of Operations. At October 31, 2016, the Fund did not hold forward foreign currency contracts.

Option Contracts: The Fund may purchase and write (sell) call options and put options provided the transactions are for hedging purposes and the initial margin and premiums do not exceed 5% of total assets. Option contracts are valued daily and unrealized gains or losses are recorded on the Statement of Assets and Liabilities based upon the last sales price on the principal exchange on which the options are traded. The Fund will realize a gain or loss upon the expiration or closing of the option contract. Such gain or loss is disclosed in the realized and unrealized gain or loss on options in the Fund's accompanying Statement of Operations. When an option is exercised, the proceeds on sales of the underlying security for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of premium received or paid.

The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counter parties to meet the terms of the contract. At October 31, 2016, the Fund did not hold any option contracts.

Equity-Linked Securities: The Fund may invest in equity-linked securities such as linked participation notes, equity swaps and zero-strike options and securities warrants. Equity-linked securities currently held by the Fund are privately issued securities whose investment results are designed to correspond generally to the performance of a specified stock index or basket of stocks, or a single stock. Equity-linked securities may be used by the Fund to gain exposure to countries that place restrictions on investments by foreigners. To the extent that the Fund invests in equity-linked securities whose return corresponds to the performance of a foreign securities index or one or more foreign stocks, investing in equity-linked securities will involve risks similar to the risks of investing in foreign securities. In addition, the Fund bears the risk that the issuer of any equity-linked securities may default on its obligation under the terms of the arrangement with the counterparty. Equity-linked securities are often used for many of the same purposes as, and share many of the same risks with, derivative instruments. In addition, equity-linked securities may be considered illiquid.

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

At October 31, 2016, the Fund held equity-linked securities, in the form of warrants issued by Citigroup Global Markets Holdings (the Issuer), which was a Qualified Foreign Institutional Investor (QFII) in China. Under the terms of the agreement, each warrant entitles the Fund to receive from the Issuer an amount in U.S. dollars linked to the performance of specific equity shares. Under this agreement, the Fund has agreed to pay or provide reimbursement for any taxes imposed on the China A Share investments underlying the equity-linked securities. Non-resident corporate investors in China, such as the Issuer of the equity-linked securities, are subject to a statutory 10% withholding tax on both dividend and interest income sourced from China, absent an applicable tax treaty.

In March 2015, the Ministry of Finance, the China Securities Regulatory Commission and the State Administration of Taxation issued Circular 79 on the tax treatment of gains derived by QFIIs and Renmimbi Qualified Institutional Investors (RQFII) from the trading of equity investments in China. The Circular grants a temporary exemption from Chinese Enterprise Income Tax on gains derived by QFIIs and RQFIIs on or after November 17, 2014 from the transfer of an equity. The Circular also confirmed that realized gains derived by QFIIs and RQFIIs before November 17, 2014 are subject to tax at 10% under the enterprise income tax law. During the year ended October 31, 2016, pursuant to indemnification agreements entered into on October 26, 2005 and May 16, 2008, the Fund incurred a liability to reimburse CLSA Limited, a previous issuer of equity-linked securities held by the Fund, \$400,029 for capital gain taxes paid related to investments in equity-linked securities held by the Fund from the period of November 2009 through November 2014.

There can be no assurance that China will not in the future subject capital gains derived by QFIIs and RQFIIs to taxation. If China does subject such gains to taxation the Fund may be required to pay or reimburse for any taxes that the Issuers of the equity-linked securities became subject to.

Direct Investments: The Fund may invest up to 25% of the net proceeds from its offering of its outstanding common stock in Direct Investments; however, the Board of Directors of the Fund has suspended additional investments in Direct Investments. Direct Investments are generally restricted and do not have a readily available resale market. Because of the absence of any public trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Fund. Issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protections requirements applicable to publicly traded securities. At October 31, 2016, the Fund did not hold Direct Investments.

Indemnification Obligations: Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

Security transactions and investment income: Security transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

ex-dividend date, or, in the case of dividend income on foreign securities, on the ex-dividend date or when the Fund becomes aware of its declaration. Interest income is recorded on the accrual basis. All premiums and discounts are amortized/accreted for both financial reporting and federal income tax purposes.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received are taxable at 20% of the par value of the stock dividends received. The Fund records the taxes paid on stock dividends as an operating expense.

Dividends and distributions: The Fund intends to distribute to its stockholders, at least annually, substantially all of its net investment income and any net realized capital gains. Distributions to stockholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Unless the Board of Directors elects to make distributions in shares of the Fund's common stock, the distributions will be paid in cash, except with respect to stockholders who have elected to participate in the Fund's Dividend Reinvestment and Cash Purchase Plan.

Federal Taxes: It is the Fund's policy to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended (Code) and to distribute to stockholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the period ended October 31, 2016, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. For the previous three years the Fund remains subject to examination by the Fund's major tax jurisdictions, which include the United States of America and the State of Maryland. The Fund may be subject to taxes imposed by governments of countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The Fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or gains are earned.

The tax character of distributions the Fund made during the year ended October 31, 2016, was \$10,187,178 from ordinary income and \$13,270,001 from long-term capital gains. For the year ended October 31, 2015, the Fund distributed \$4,676,381 from ordinary income and \$54,368,026 from long-term capital gains.

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under GAAP. Accordingly, for the year ended October 31, 2016, the effects of certain differences were reclassified. The Fund increased undistributed net investment income by \$51,405, decreased additional paid-in-capital by \$1 and increased accumulated net realized loss by \$51,404. These differences were primarily due to the differing tax treatment of foreign currency and distribution redesignations. Net assets of the Fund were unaffected by the reclassifications and the calculation of net investment income per share in the Financial Highlights excludes these adjustments.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

As of October 31, 2016, the components of distributable earnings on a tax basis were \$7,354,136 of undistributed ordinary income and capital loss carryover of \$34,308,004. Capital loss carryovers are available to offset future realized net capital gains for federal income tax purposes. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations. To the extent future gains are offset by capital loss carryover, such gains will not be distributed. As of October 31, 2016, the fund had non-expiring short term capital loss carryover of \$18,956,465 and non-expiring long term capital loss carryover of \$15,351,539. On a book basis, the Fund also had \$29,710,946 of net unrealized appreciation on investments and currency, resulting in a total accumulated earnings of \$2,757,078. Permanent book/tax differences relate to foreign currency gain/losses, distribution re-designations, and wash sales.

At October 31, 2016, the cost of investments for federal income tax purposes was \$265,787,282. Gross unrealized appreciation of investments was \$52,609,595 while gross unrealized depreciation of investments was \$22,898,954, resulting in net unrealized appreciation/depreciation of investments of \$29,710,641.

NOTE B ADVISORY FEE AND OTHER TRANSACTIONS

Allianz Global Investors (AGI or Investment Manager) is the investment manager for the Fund s listed assets (Listed Assets) and Direct Investments. AGI receives a fee, computed weekly and payable monthly, at the following annual rates: 0.70% of the first US\$315 million of the Fund s average weekly net assets invested in Listed Assets; and 0.50% of the Fund s average weekly net assets invested in Listed Assets in excess of US\$315 million. For the year ended October 31, 2016, the Listed Assets investment management fee rate was equivalent to an annual effective rate of 0.70% of the Fund s average weekly net assets. AGI also receives a fee computed weekly and payable monthly, at an annual rate of 1.50% of the average weekly value of the Fund s assets invested in Direct Investments, if any. For the year ended October 31, 2016, the Investment Manager was paid no fees for Direct Investments as the Fund held no such investments during the period.

No director, officer or employee of the Investment Manager or any affiliates of those entities will receive any compensation from the Fund for serving as an officer or director of the Fund. The Fund pays the Chairman of the Board, Audit Committee Chairman and each of the directors (who is not a director, officer or employee of the Investment Manager or any affiliate thereof) an annual fee of \$35,000, \$30,000 and \$20,000 respectively, plus \$3,000 for each Board of Directors meeting or Audit Committee meeting or Nominating and Compensation Committee meeting attended in person or by telephone. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with attending Board of Directors meetings.

State Street provides, or arranges for the provision of certain administrative services for the Fund, including preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee that is calculated daily and paid monthly at an annual rate based on aggregate average daily assets of the Fund. The Fund also pays State Street an annual fee for certain legal administration services, including corporate secretarial services and preparing regulatory filings.

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

The Fund has also contracted with State Street to provide custody and fund accounting services to the Fund. For these services, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out-of-pocket expenses.

NOTE C FUND SHARES

At October 31, 2016, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 15,722,675 were issued and outstanding.

NOTE D INVESTMENT TRANSACTIONS

For the year ended October 31, 2016, the Fund's cost of purchases and proceeds from sales of investment securities, other than short-term securities, were \$136,287,168 and \$150,495,648, respectively.

NOTE E INVESTMENTS IN CHINA

The Fund's investments in Chinese companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of Chinese companies trade; (3) currency exchange fluctuations, currency blockage and higher rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized Chinese companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

NOTE F FAIR VALUE MEASUREMENT

The Fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Inputs that are unobservable.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

The following is a summary of the inputs used as of October 31, 2016 in valuing the Fund's investments carried at value:

**REPORT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and The Board of Directors of

The China Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The China Fund, Inc. (the Fund), as of October 31, 2016 and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2016, by correspondence with the custodian and broker. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The China Fund, Inc. as of October 31, 2016, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

CERTIFICATIONS

The Fund's chief executive officer has certified to the New York Stock Exchange that, as of April 25, 2016, he was not aware of any violation by the Fund of applicable New York Stock Exchange corporate governance listing standards. The Fund also has included the certifications of the Fund's chief executive officer and chief financial officer required by Section 302 and Section 906 of the Sarbanes-Oxley Act of 2002 in the Fund's Form N-CSR filed with the Securities and Exchange Commission, for the period of this report.

DIVIDENDS AND DISTRIBUTIONS:

SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund will distribute to stockholders, at least annually, substantially all of its net investment income from dividends and interest earnings and expects to distribute any net realized capital gains annually. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), adopted by the Fund, each stockholder will automatically be a participant (a "Participant") in the Plan unless Computershare Trust Company, N.A., the Plan Agent, is otherwise instructed by the stockholder in writing, to have all distributions, net of any applicable U.S. withholding tax, paid in cash. Stockholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars mailed directly to the stockholder by Computershare Trust Company, N.A., as paying agent. Stockholders who do not wish to have distributions automatically reinvested should notify the Fund by contacting Computershare Trust Company, N.A. c/o The China Fund, Inc. at P.O. Box 43078, Providence, Rhode Island 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.

Whenever the Directors of the Fund declare a capital gains distribution or an income dividend payable only in shares of the Fund's common stock (including such a declaration that provides an option to receive cash), Participants will take such distribution or dividend entirely in shares of common stock to be issued by the Fund, and the Plan Agent shall automatically receive such shares of common stock, including fractions, for the Participant's account.

Whenever a dividend or distribution is declared payable in cash or shares of the Fund's common stock, the Plan will operate as follows: (i) whenever the market price per share of common stock equals or exceeds the net asset value per share at the time shares of common stock are valued for the purpose of determining the number of shares of common stock equivalent to the dividend or distribution (the "Valuation Date"), Participants will be issued shares of common stock by the Fund valued at net asset value or, if the net asset value is less than 95% of the market price on the Valuation Date, then Participants will be issued shares valued at 95% of the market price; and (ii) whenever the net asset value per share of the common stock on the Valuation Date exceeds the market price of a share of the common stock on the Valuation Date, Participants will receive shares of common stock of the Fund purchased in the open market. The Plan Agent will, as purchasing agent for the Participants, buy shares of common stock in the open market, on the New York Stock Exchange (the "Exchange") or elsewhere, with the cash in respect of such dividend or distribution for the Participants' accounts on, or shortly after, the payment date.

If the Fund should declare an income dividend or capital gains distribution payable only in cash, the Plan Agent will, as purchasing agent for the Participants, buy shares of common stock in the open market, on the Exchange or elsewhere, with the cash in respect of such dividend or distribution for the Participants' accounts on, or shortly after, the payment date.

Participants in the Plan have the option of making additional payments to the Plan Agent annually, in any amount from \$100 to \$3,000 for investment in the Fund's Common Stock. The Plan Agent will use all funds received from participants (as well as any dividends and capital gains distributions received in cash) to purchase Fund shares in the open market on January 15 of each year or the next trading day if January 15th is not a trading day. Participants may make voluntary cash payments by sending a check (in U.S. dollars and drawn on a U.S. Bank) made payable to Computershare along with a completed transaction form which is attached to each statement a Participant receives. The Plan Agent will not accept cash, traveler's checks, money orders or third party checks. Any voluntary

cash payments received more than thirty-five days prior to such date will be returned by the Plan Agent, and interest will not be paid on any such amounts. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, participants should send in voluntary cash payments to be received by the Plan Agent approximately two days before January 15. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be invested. In the event that a Participant's check for a voluntary cash payment is returned unpaid for any reason, the Plan Agent will consider the request for investment of such funds null and void, and shall immediately remove from the Participant's account those shares, if any, purchased upon the prior credit of such funds. The Plan Agent shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale of such shares are insufficient to satisfy the balance of such uncollected amounts, the Plan Agent shall be entitled to sell such additional shares from the Participant's account as may be necessary to satisfy the uncollected balance.

For all purposes of the Plan: (a) the market price of shares of common stock of the Fund on a particular date shall be the last sales price on the Exchange on the close of the previous trading day or, if there is no sale on the Exchange on that date, then the mean between the closing bid and asked quotations for such stock on the Exchange on such date, (b) Valuation Date shall be the dividend or distribution payment date or, if that date is not an Exchange trading day, the next preceding trading day, and (c) net asset value per share of common stock on a particular date shall be as determined by or on behalf of the Fund.

The open-market purchases provided for above may be made on any securities exchange where the shares of common stock of the Fund are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Plan Agent shall determine. In every case the price to the Participant shall be the weighted average purchase price obtained by the Plan Agent's broker, net of fees. Funds held by the Plan Agent will not bear interest. In addition, it is understood that the Plan Agent shall have no liability (other than as provided in the Plan) in connection with any inability to purchase shares of common stock within 30 days after the payment date of any dividend or distribution as herein provided or with the timing of any purchases effected. The Plan Agent shall have no responsibility as to the value of the shares of common stock of the Fund acquired for any Participant's account. Whenever the Plan Agent, as purchasing agent for the Participants, is to buy shares of common stock in the open market, on the Exchange or elsewhere, with the cash in respect of a dividend or distribution, to the extent the Plan Agent is able to do so and, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common stock, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common stock, resulting in the acquisition of fewer shares of common stock than if the income dividend or capital gains distribution had been paid in common stock issued by the Fund. The Plan Agent will apply all cash received as an income dividend or capital gains distribution to purchase shares of common stock on the open market as soon as practicable after the payment date of such dividend or capital gains distributions, but in no event later than 30 days after such date, except where necessary to comply with applicable provisions of the federal securities laws.

The Plan Agent will confirm in writing, each trade for a Participant's account and each share deposit or share transfer promptly after the account activity occurs. The statement will show the number of shares held, the number

of shares for which dividends are being reinvested, any cash received for purchase of shares, the price per share for any purchases or sales, and any applicable fees for each transaction charged the Participant. In the event the only activity in a Participant's account is the reinvestment of dividends, this activity will be confirmed in a statement on at least a quarterly basis. If the Fund pays an annual dividend and the only activity in a Participant's account for the calendar year is the reinvestment of such dividend, the Participant will receive an annual statement. These statements are a Participant's continuing record of the cost basis of purchases and should be retained for income tax purposes.

The Plan Agent will hold shares of common stock acquired pursuant to the Plan in non-certificated form in the name of the Participant for whom such shares are being held and each Participant's proxy will include those shares of common stock held pursuant to the Plan. The Plan Agent will forward to each Participant any proxy solicitation material received by it. In the case of stockholders, such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the name of such Participants and held for the account of beneficial owners who participate in the Plan. Upon a Participant's Internet, telephone or written request, the Plan Agent will deliver to her or him, without charge, a certificate or certificates representing all full shares of common stock held by the Plan Agent pursuant to the Plan for the benefit of such Participant.

Participants will not be charged a fee in connection with the reinvestment of dividends or capital gains distributions. The Plan Agent's transaction fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, Participants will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions and with purchases from voluntary cash payments made by the Participant. A \$2.50 transaction fee and a per share fee of \$0.15 will also be charged by the Plan Agent upon any request for sale. Per share fees include any brokerage commissions the Plan Agent is required to pay.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax which may be payable on such dividends and distributions. Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

These terms and conditions may be amended or supplemented by the Plan Agent or the Fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to the Stockholders appropriate written notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by the Participants unless, prior to the effective date thereof, the Plan Agent receives written notice of the termination of a Participant's account under the Plan. Any such amendment may include an appointment by the Plan Agent in its place and stead of a successor Plan Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Plan Agent under these terms and conditions. Upon any such appointment of a successor Plan Agent for the purposes of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Agent, for the Participants' accounts, all dividends and distributions

(a)(1) As of December 28, 2016, the portfolio manager of the registrant is as follows:

Christina Chung

Managing Director, Senior Portfolio Manager

Investment experience: 27 Years

Christina joined the firm in 1998 and has been a managing director since January 2010. She is head of the Greater China Equity Team and lead manager of the Hong Kong, China and Greater China equity mandates. The Hong Kong and China Funds that she manages have won industry recognition and awards for consistent strong performance. She has 27 years' experience in managing Asian regional and single country portfolios for both institutional and retail accounts. Before joining the Group, she was a senior portfolio manager with Royal Bank of Canada Investment Management. Prior to that, she was a portfolio manager with Search International and an economist with HSBC Asset Management. Christina was educated in Canada. She attained a Bachelor of Administration from Brock University, followed by an M.A. in Economics from the University of Alberta. She became a Certified Management Accountant in 1992 and qualified as a chartered financial analyst, AIMR, in 1995.

(a)(2)

Christina Chung

As of October 31, 2016, Ms. Chung managed and advised 7 mutual funds with a total of approximately US\$2,630 million in assets and 14 other accounts with a total of approximately US\$2,014 million in assets. Of these other accounts, one account, with a total of approximately US\$235 million in assets, is entitled to performance based fees.

Ms. Chung is also the co-manager of 2 other accounts with a total of approximately US\$306 million in assets.

Table of Contents

Conflicts of Interest:

Equitable treatment of client monies is a fundamental principle of AGI investment management business. AGI believes that the management of potential conflicts of interest is germane to the business, regardless of its client mix and fund types.

Ms. Chung's simultaneous management of the Fund and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Fund and the other accounts. AGI has adopted procedures and methodology to demonstrate effective conflict management. It believes that sufficient controls, policies and systems are in place to address such conflicts.

Its suite of compliance and investment policies are designed to address those practices within AGI that could cause conflicts of interest across all client funds. The firm has policies, systems and controls in place to identify potential conflicts between itself and its clients, as well as between one client and another, to achieve consistent treatment of conflicts of interest throughout its business. It aims to manage conflicts of interest that may arise with an aim, as far as practicable, that such conflicts do not adversely affect the interests of its clients.

AGI reviews its internal policies regularly and will notify clients of any material changes, as and when they occur.

Compensation:

AGI's compensation system is designed to support its corporate values and culture. While it acknowledges the importance of financial incentives and seek to pay top quartile remuneration for top quartile performance, it also believes that compensation is only one of a number of critically important elements that allow the emergence of a strong, winning culture that attracts, retains and motivates talented investors and teams.

The primary components of compensation are the base salary and an annual discretionary variable compensation payment. This variable compensation component typically comprises a cash bonus that pays out immediately as well as a deferred component, for members of staff whose variable compensation exceeds a certain threshold. The deferred component for most recipients would be a notional award of the Long Term Incentive Programme (LTIP); for members of staff whose variable compensation exceeds an additional threshold, the deferred compensation is itself split 50%/50% between the aforementioned LTIP and a Deferral into Funds programme (DIF). Currently, the marginal rate of deferral of the variable compensation can reach 50% for those in the highest variable compensation bracket. Overall awards, splits and components are regularly reviewed to ensure they meet industry best practice and, where applicable, at a minimum comply with regulatory standards.

Base salary typically reflects scope, responsibilities and experience required in a particular role, be it on the investment side or any other function in our company. Base compensation is regularly reviewed against peers with the help of compensation survey data. Base compensation is typically a greater percentage of total compensation for more junior positions, while for the most senior roles it will be a comparatively small component, often capped and only adjusted every few years.

Discretionary variable compensation is primarily designed to reflect the achievements of an individual against set goals, over a certain time period. For an investment professional these goals will typically be 70% quantitative and 30% qualitative. The former will reflect a weighted average of investment performance over a three-year rolling time period (one-year (25%) and three year (75%) results) and the latter reflects contributions to broader team goals, contributions made to client review meetings, product development or product refinement initiatives. Portfolio managers have their performance metric aligned with the benchmarks of the client portfolios they manage.

Table of Contents

The LTIP element of the variable compensation, cliff vests three years after each (typically annual) award. Its value is directly tied to the operating result of AGI over the three year period of the award.

The DIF element of the variable compensation, cliff vests three years after each (typically annual) award and enables these members of staff to invest in a range of AGI funds (Investment Professionals are encouraged to invest into their own funds or funds where they may be influential from a research or product group relationship perspective). Again, the value of the DIF awards is determined by the growth of the fund(s) value over the three year period covering each award.

Assuming an annual deferral of 33% over a three year period, a typical member of staff will have roughly one year's variable compensation (3x33%) as a deferred component in the bank. Three years after the first award, and for as long as deferred components were awarded without break, cash payments in each year will consist of the annual cash bonus for that current year's performance as well as a pay-out from LTIP/DIF commensurate with the prior cumulative three-year performance.

There exist a small number of revenue sharing arrangements that generate variable compensation for specialist investment teams, as well as commission payments for a limited number of members of staff in distribution. The overwhelming majority of these payments are subject to the same deferral rules and deferred instruments as described above for the discretionary compensation scheme.

Ownership of Securities: The following table sets forth, for each portfolio manager, the aggregate dollar range of the registrant's equity securities beneficially owned as of October 31, 2016.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Directors during the period covered by this Form N-CSR filing.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this Form N-CSR based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the 1934 Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).
