Yes

No

If  Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):  
82-\_\_\_\_\_.

On September 28, 2017, KEPCO entered into a Joint Development Agreement (JDA) with TADMAX, a Malaysian corporation, in relation to a gas-fired power plant with capacity of 1,200 megawatts in Pulau Indah, Malaysia. KEPCO has obtained approval for this project from Malaysian Energy Commission, the project sponsor.

KEPCO will hold a 25% equity interest in this project, and TADMAX will hold a 75% equity interest in it. The total project cost is expected to be approximately US\$1 billion, and KEPCO expects to invest approximately US\$50 million for the equity interest.

The closing of the financing and construction for this project will begin in the fourth quarter of 2019 following the approval of the applicable tariff rates by the Malaysian Energy Commission, which is currently expected to occur in the fourth quarter of 2018.

This project marks KEPCO's first entry into the Malaysian power generation market. The equity financing for KEPCO is expected to involve Islamic bond financing, which upon completion is expected to be the first such financing for a Korean company. KEPCO also expects to enter into a power purchase agreement with Tenaga Nasional Berhad for a term of 21 years, which is expected to generate a stable revenue stream from this project.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
