NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of and for the three months ended March 31, 2014 and 2013 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”). The financial information as of December 31, 2013 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2013. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2013, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2014, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the period. Potentially dilutive shares from stock options and other potentially dilutive shares are excluded from the computation when their effect is anti-dilutive. At March 31, 2014 and 2013, potentially dilutive shares of 0 and 77,200, respectively, were excluded from the computation as their effect would be anti-dilutive. 100,263 and 32,196 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended March 31, 2014 and 2013, respectively.

Restricted cash – On September 23, 2013 Northwest Farm Credit Services advanced \$1,973,949 of cash as net proceeds, calculated as a \$2,000,000 loan less \$26,051 of associated loan costs, of a loan agreement with the Company for the Hospitality Center remodel and expansion project. These proceeds were held in an account with the lender and were accessible to the Company, upon certifying expenditures in excess of the Company’s commitment of \$2.5 million to the project, with \$450,000 being withheld, at March 31, 2014, until final project completion. The Company has certified expenditures, up to the commitment requirement, and estimates that final expenditure certification will occur by May 31, 2014 and the Company will have access to the remaining funds.

4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company has agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company is due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. The remaining amount to be collected was \$250,000 as of March 31, 2014 and December 31, 2013. The total amount of \$1,000,000 to be received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. For the three months ended March 31, 2014 and 2013, the Company has recognized revenue related to this agreement in the amount of \$35,715 and \$35,715, respectively, recorded to other income.

5) DEBT

Line of Credit Facility – In December of 2005 the Company entered into a revolving line of credit agreement with Umpqua Bank that allows borrowings of up to \$2,000,000 against eligible accounts receivables and inventories as defined in the agreement. The revolving line bears interest at prime, is payable monthly, and is subject to annual renewal. The Company renewed the credit agreement in June of 2013 for a period of 12 months. The interest rate was 3.25% at March 31, 2014 and December 31, 2013. At March 31, 2014 and December 31, 2013 there was an outstanding balance of \$644,424 and \$0, respectively, on this revolving line of credit.

The line of credit agreement includes various covenants, which among other things, requires the Company to maintain minimum amounts of tangible net worth, debt/worth ratio, and debt service coverage as defined. As of March 31, 2014, the Company was in compliance with these covenants.

Long Term Debt - The Company has four long term debt agreements with Farm Credit Services with an aggregate outstanding balance of \$5,735,863 and \$5,812,958 as of March 31, 2014 and December 31, 2013, respectively. These loans require monthly payments of \$53,058 principal and interest for the life of the loans, at an annual fixed interest

rate ranging from 4.75% to 6.70%, with maturity dates ranging from 2024 through 2028. The general purposes of these loans are to make capital improvements to the winery and vineyard facilities.

The Company has a long term debt agreement with Kubota with a balance of \$2,366 and \$3,787 as of March 31, 2014 and December 31, 2013, respectively. This loan requires a monthly payment of \$473 principal only for the life of the loan, at an annual interest rate of 0.0%, maturing in 2014.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

6) STOCK BASED COMPENSATION

The Company has a stock incentive plan, originally created in 1992, and most recently amended in 2001. No additional grants may be made under the plan. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

The following table presents information related to the value of outstanding stock options for the period shown:

	Three months ended March 31, 2014	
	Weighted Average Exercise Shares	Price
Outstanding at beginning of period	260,200	\$ 3.82
Granted	-	-
Exercised	(7,200)	5.00
Forfeited	-	-
Outstanding at end of period	253,000	\$ 3.79

At March 31, 2014, the Company had 61,000 unvested stock options with associated unrecognized compensation cost of \$33,583 that will be recognized over a weighted-average period of 2.48 years. The intrinsic value of the 192,000 stock options exercisable at March 31, 2014 was \$482,640.

In accordance with the current accounting guidance for share-based payments, the Company recognizes compensation expense for options awarded under its stock incentive plans. Current accounting guidance requires the grant-date fair value of all share-based payment awards, including employee stock options, to be recognized as employee compensation expense over the requisite service period. The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes stock option valuation model.

The Company expenses stock options on a straight-line basis over the options' related vesting term. Pretax compensation expense related to stock options for the three months ended March 31, 2014 and 2013 were \$5,292 and \$4,101, respectively.

During the three months ended March 31, 2014, 7,200 stock options were exercised as part of this plan. During the three months ended March 31, 2013, there were no transactions related to stock option exercise activity.

7) INTEREST AND TAXES PAID

Income taxes – The Company paid \$114,550 and \$87,400 in income taxes for the three months ended March 31, 2014 and 2013, respectively.

Interest - The Company paid \$82,788 and \$59,342 for the three months ended March 31, 2014 and 2013, respectively, in interest on the long-term debt and revolving credit line.

8) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

8) SEGMENT REPORTING (CONTINUED)

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three month periods ending March 31, 2014 and 2013. Sales figures are net of related excise taxes.

ITEM 2:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaim any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Such policies were unchanged during the three months ended March 31, 2014.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club memberships increased by approximately 273 members for the three months ending March 31, 2014. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this activity is not a

significant part of the Company's activities or part of the long term business plan.

The Company sold approximately 21,704 and 23,349 cases of produced wine during the three months ended March 31, 2014 and 2013, respectively, a decrease of 1,645 cases, or 7.0% in the current year period over the prior year period. The decrease in wine sales was primarily the result of reduced sales to distributors. Management believes that severe weather conditions in certain key markets contributed to the decline in cases sold to distributors. Additionally, the Company made sales to a large chain in California in 2013 that were not repeated in 2014.

Cases sold in 2014 include approximately 75 cases of "futures", where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue, until shipped, and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs. The Company expects cost of sales to increase, over the next several years, as lower yield vintages are released.

At March 31, 2014, wine inventory includes approximately 73,000 cases of bottled wine and 231,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 31,000 cases during the three months ended March 31, 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Net income for the three months ended March 31, 2014 and 2013 was \$174,915 and \$296,593, respectively, a decrease of \$121,678, or 41.0%, in the current year period over the prior year period. Overall gross profit for the three months ended March 31, 2014 and 2013 was \$1,721,989 and \$1,756,662, respectively, a decrease of \$34,673, or 2.0%, in the current year period over the prior year period. Gross profit percent for the three months ended March 31, 2014 and 2013 was 57.9% and 57.8%, an increase of 0.1 percentage points, in the current year period over the prior year period.

The Company generated \$0.04 and \$0.06 in basic earnings per share during the three months ended March 31, 2014 and 2013, respectively, a decrease of \$0.02, or 33.3%, in the current year period over the prior year period.

Willamette Valley Vineyards continues to receive positive recognition through local competitions, publications and national magazines.

In late December of 2013, Robert Parker's Wine Advocate recognized the Company's 2011 Elton Pinot Noir with 90 points.

The 9th annual Portland Seafood & Wine Festival Competition was held in January where the 2012 Riesling was awarded a Gold Medal.

Editor at Large, Harvey Steiman, recognized the Company's 2012 Whole Cluster Pinot Noir with 89 points in Wine Spectator's February issue stating, "Smooth and generous, with a green edge to the dark plum and wet earth flavors, finishing with a silky texture and deft balance."

In March, Oregon Business magazine named Willamette Valley Vineyards on the "2014 100 Best Green Companies to Work For in Oregon." Editor Linda Baker said, "This ranking shows that your workplace has implemented a variety of green policies, and that your employees place a high value on sustainable practices and believe your commitment to them is exceptional."

Founder and CEO Jim Bernau was named "First Citizen of Salem" for 2013 by the Salem Area Chamber of Commerce. This award recognized Jim for his outstanding "leadership and community service".

RESULTS OF OPERATIONS

Revenue

Sales for the three months ended March 31, 2014 and 2013 were \$2,971,879 and \$3,041,559, respectively, a decrease of \$69,680, or 2.3%, in the current year period over the prior year period. This is caused by a decrease in sales through distributors of \$200,073, partially offset by an increase in direct sales of \$130,393, in the current year period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club sales and increased kitchen and hospitality sales associated with the remodeled Hospitality Center. Management believes that the decrease in sales to distributors is partially attributable to adverse weather conditions that existed in key markets as well as sales to a large California retailer in 2013 that were not repeated in 2014.

Cost of Sales

Cost of Sales for the three months ended March 31, 2014 and 2013 were \$1,249,890 and \$1,284,897, respectively, a decrease of \$35,007, or 2.7%, in the current period over the prior year period. This change was primarily the result of variations in wine sales.
