MEDIA RELEASE

**Two employees fatally injured
in accident at Kloof Gold Mine**

Johannesburg, June 26, 2008: Gold Fields Limited (“Gold Fields”) (NYSE, JSE, DIFX: GFI) regrets to report that two employees of the Kloof Gold Mine near Westonaria on the West Rand lost their lives today in an underground accident.

The employees were carrying out cleaning duties in a stope, approximately 3 000 metres below surface, when there was a fall of ground following a seismic event of 1.2 magnitude. There were no other persons injured. The accident occurred at 02:17am at the No.4 Shaft.

All production at the shaft has been stopped and an investigation by the Department of Minerals and Energy is being carried out.

Nick Holland, chief executive of Gold Fields said today: “We are deeply saddened and shocked by this accident which took place within 24 hours of Kloof achieving a million fatality-free shifts. It only reinforces the need for us to be even more vigilant and remain committed to safe working at all our operations. Safety remains the number one priority of Gold Fields and we will strive to ensure that no harm comes to employees in the workplace.”

The names of the deceased will only be released once the next of kin have been informed.
