## COMPANY SUMMARY

Odyssey Marine Exploration, Inc. ("Odyssey," "we" or "us") is engaged in the archaeologically sensitive exploration and recovery of deep-water shipwrecks throughout the world. We employ advanced state-of-the-art technology including side scan sonar, remotely operated vehicles, or ROVs, and other advanced technology, which enables us to locate and recover shipwrecks at depths that were previously unreachable in an economically feasible manner.

Our corporate offices are located at 3604 West Swann Avenue, Tampa, Florida 33609. Our telephone number is (813) 876-1776.

## RISK FACTORS

Investing in the shares is very risky. You should be able to bear a complete loss of your investment. In deciding whether to purchase the shares, you should carefully consider the following factors, among others, as well as information contained in this prospectus, our most recent annual report on Form 10-KSB and quarterly reports on Form 10-QSB and the other documents incorporated by reference into this Prospectus:

**SPECIAL RISKS OF THE BUSINESS.** An investment in a business such as that of Odyssey should be considered extremely speculative and very risky. Although we have access to a substantial amount of research and data, which has been compiled regarding our various projects, the quality and reliability of such research and data, like all research and data of its nature, is unknown. Even if we are able to plan and obtain permits for our various projects, there is a possibility that the shipwrecks may have been salvaged, or may not have had anything of value on board at the time of the sinking. Furthermore, even if objects of believed value are located and recovered, there is the possibility that others, including both private parties and governmental entities, asserting conflicting claims, may challenge our rights to the recovered objects. Finally, even if we are successful in locating and retrieving objects from a shipwreck and establishing good title thereto, there can be no assurance as to the value that such objects will bring at their sale, as the market for such objects is very uncertain.

**UNCERTAIN RELIABILITY OF RESEARCH AND DATA.** The success of a shipwreck project will be dependent to a substantial degree upon the research and data assimilated by us. By its very nature, however, all such research and data regarding shipwrecks, such as those sought by us, is imprecise, incomplete and unreliable as it is often composed of or affected by numerous assumptions, rumors, legends, historical and scientific inaccuracies and inaccurate interpretations which have become a part of such research and data over time.

**NATURAL HAZARDS.** Underwater recovery operations are inherently difficult and dangerous and may be delayed or suspended by weather, sea conditions or other natural hazards. Further, such operations may be undertaken more safely during certain months of the year than during others. There can be no assurances that we will be able to conduct our search and/or recovery operations only during such favorable periods. In addition, even though sea conditions in a particular search location may be somewhat predictable, the possibility exists that unexpected conditions in a search area may occur and that such unexpected conditions might adversely affect our operations. Further, it is possible that natural hazards may prevent or significantly delay search and/or recovery operations.

## Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 424B3

UNCERTAIN TITLE TO OBJECTS LOCATED. Persons and entities other than Odyssey and entities it is affiliated with (both private and governmental) may claim title to the shipwrecks. Even if we are successful in locating and recovering shipwrecks, there is no assurance that we will be able to establish our rights to property recovered as against governmental entities, prior owners, or other attempted salvors claiming an interest therein.

UNCERTAIN MARKET FOR AND VALUE OF RECOVERED OBJECTS. It is difficult to predict the price that might be realized from the sale of items that have been recovered or may be recovered in the future from shipwrecks. The value of the recovered items will fluctuate with a precious metals market that has been highly volatile in recent years. Moreover, the entrance on the market of a large supply of similar items from shipwrecks located and recovered by others could itself depress the market for these items.

DELAY IN DISTRIBUTION OR SALE OF RECOVERED OBJECTS. The methods and channels, which may be used in the disposition of the recovered items, are uncertain at present and may include one or a combination of several alternatives. Ready access to buyers for disposition of any artifacts or other valuable items recovered, however, cannot be assured and delays in the disposition of such items are very possible.

THEFT. If we locate a shipwreck and assert a valid claim to items of value, there is a risk of theft of such items at sea, both before and after their recovery, by pirates or poachers and while in transit to a safe destination.

COMPETITION. There are a number of competing entities engaged in various aspects of the shipwreck business. One or more of these competing entities may locate and recover the shipwreck that we are planning to locate and recover. In addition, these competing entities may be better capitalized and may have greater resources to devote to their pursuit of the shipwreck than we have.

FAILURE TO OBTAIN PERMITS. It is possible that we will not be successful in obtaining title to, or permission to excavate the shipwrecks. In addition, permits for the projects may never be issued, and if issued, may not be legal or honored by the entities that issued them.

GENERIC PREFERRED STOCK AUTHORIZED. Our Articles of Incorporation authorize the issuance of up to 10,000,000 shares of Preferred Stock. The Board of Directors has the right to establish the terms, preference, rights and restrictions of the Preferred Stock. Other companies on occasion have issued series of such preferred stock with terms, rights, preferences and restrictions that could be considered to discourage other persons from attempting to acquire control of such companies and thereby insulate incumbent management. It is possible we could issue shares of our Preferred Stock for such a purpose. In certain circumstances, the existence of corporate devices that would inhibit or discourage takeover attempts could have a depressant effect on the market value of our Common Stock.

USE OF PROCEEDS

Odyssey will not receive any proceeds from the sale of the common stock by the selling shareholders.

To the extent that any of the warrants held by the selling shareholders are exercised, up to approximately \$9,870,000 may be received by Odyssey. Any net proceeds received from the exercise of the warrants will be used for general corporate purposes.

### PLAN OF DISTRIBUTION

The selling shareholders and their successors, including their transferees, pledgees or donees of their successors, may sell the common stock directly to purchasers or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling holders or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved.

The common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market prices, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions:

- on any national securities exchange on which the common stock may be listed, or U.S. inter-dealer system of a registered national securities association on which the common stock may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market; or
- through the writing of options, whether the options are listed on an options exchange or otherwise.

In connection with the sale of the common stock or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume.

## Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 424B3

The aggregate proceeds to the selling shareholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts and commissions, if any. Each of the selling shareholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

The selling shareholders and any underwriters, broker-dealers or agents that participate in the sale of the common stock may be "underwriters" within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling shareholders who are "underwriters" within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act. The selling shareholders have acknowledged that they understand their obligations to comply with the provisions of the Exchange Act and the rules thereunder relating to stock manipulation, particularly Regulation M.

In addition, any securities covered by this prospectus that qualify for sale pursuant to Rule 144 of the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus. A selling shareholder may not sell any common stock described in this prospectus and may not transfer, devise or gift these securities by other means not described in this prospectus.

To the extent required, the specific common stock to be sold, the names of the selling shareholders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement to, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part.

The registration statement of which this prospectus is a part is being filed pursuant to registration rights that we have provided to the selling shareholders under applicable federal and state securities laws under specific circumstances and at specific times. We will pay all of the expenses incurred in connection with the registration of the common stock.

### COMMON STOCK

As of August 10, 2004, there were 38,455,599 shares of common stock outstanding. All such outstanding shares of common stock are fully paid and non-assessable. Each share of common stock has an equal and ratable right to receive dividends when declared by the Board of Directors of Odyssey out of assets legally available for that purpose and subject to the dividend obligations of Odyssey to holders of any preferred stock then outstanding.

In the event of a liquidation, dissolution or winding up of Odyssey, the holders of common stock are entitled to share equally and ratably in the assets available for distribution after payment of all liabilities, and subject to any prior rights of any holders of preferred stock outstanding at that time.

The holders of common stock have no preemptive, subscription, conversion or redemption rights, and are not subject to further calls or assessments of Odyssey. Each share of common stock is entitled to one vote in the election of directors and on all other matters submitted to a vote of stockholders. Cumulative voting in the election of directors is not permitted.

### PREFERRED STOCK

Preferred stock may be issued from time to time in one or more series, and the board of directors, without further approval of the stockholders, is authorized to fix the dividend rates and terms, conversion rights, voting rights, redemption rights and terms, liquidation preferences and any other rights, preferences, privileges and restrictions applicable to each series of preferred stock. The purpose of authorizing the board of directors to determine such rights, preferences, privileges and restrictions is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of the holders of common stock and, under some circumstances, make it more difficult for a third party to gain control of Odyssey. There are currently no shares of preferred stock outstanding.

### WARRANTS

This Prospectus covers the resale of common stock issuable upon the exercise of certain warrants. As part of a private placement, the conversion of certain notes and the issuance of shares to a consultant that were completed in August 2003, Odyssey issued warrants to purchase 4,917,500 shares of common stock. Of these, warrants for the purchase of 3,917,500 shares remain unexercised. The warrants give the holders the right to purchase shares of common stock at \$2.50 per share. These warrants expire on October 5, 2005.

Also, as consideration for loans to the Company, an individual was issued warrants that expire on March 31, 2005 for the purchase of 21,500 shares at \$2.00 per share and for the purchase of 11,000 shares at \$3.00 per share.
