Companhia de Saneamento Básico do Estado de São Paulo ( SABESP or Company ) is engaged in the operation of public water and sewage systems in the State of São Paulo, Brazil, providing water and sewage services to a broad range of residential, commercial, industrial and government customers. The Company also provides water on a wholesale basis to certain municipalities in the São Paulo Metropolitan Region that do not have water production systems.

SABESP provides water and sewage services in 368 municipalities in the State of São Paulo, nearly all of which are through concessions granted by the municipalities. Most of these concessions have 30-year terms, 12 of which expire in 2005, 132 in 2006, 30 in 2007, 21 in 2008, 32 in 2009, 46 in 2010 and the remainder between 2011 and 2034. Each of these concessions is automatically renewable for a period equal to its initial term, unless the municipality or SABESP exercises the right to terminate the concession, through notification by either party, at least six months prior to its expiration date.

The Company does not hold a formal concession to provide water and sewage services in the City of São Paulo, which accounts for a substantial portion of the sales and services rendered. In Santos, a municipality located in the Santos Coastal Area, which also has a significant population, SABESP operates under a public authorization, like in some other municipalities in the Santos Coastal Area and the Ribeira Valley, where the Company started operating after the merger of the companies that formed SABESP.

The amount is deemed by the Management to be sufficient to cover probable losses, based on an aging analysis of receipts, taking into consideration the expected recovery in the different categories of customers. For accounts receivable balances under R\$ 5 and overdue more than 180 days, such balances are written off through a direct charge to income.

### (d) Inventories

The referred revaluation was stated with a corresponding entry to the revaluation reserve account, in the shareholders equity, and is realized through depreciation, sale, and disposal of the respective assets, with a corresponding entry to retained earnings .

Interest charges on financings raised with third parties for construction in progress are capitalized as part of the cost of assets.

Provisions with respect to such costs are recorded at the time they are considered to be probable and able to be reasonably estimated.

(k) Actuarial liability

The Company sponsors a private defined benefit pension plan. CVM Deliberation 371 of December 13, 2000 determines the recognition of actuarial liabilities exceeding the fair value of the assets of the pension plans. Liabilities ascertained at December 31, 2001 have been recognized over a period of 5 years, as from fiscal year 2002.

The Company does not record an allowance for doubtful accounts for any amounts due from the State Government or entities controlled by the State Government, since it does not expect losses on such receivables.

(i) Water and sewage services

The Company provides water and sewage services to the State Government and its related agencies under terms and conditions that Management believes are equal to those with third parties, except for the settlement of amounts outstanding, as described further below.

(ii) Reimbursement for pensions and benefits paid

Reimbursement for pension and benefits paid represents supplementary pension and leave benefit paid by the Company on behalf of the State Government to former employees of State Government-owned companies, which merged to form SABESP. These amounts should be reimbursed to the Company by the State Government, as the primary obligor, and do not bear interests. The budget proposal of the State of São Paulo Government, as approved by the State House of Representatives, includes funds referring to such obligation.

(iii) GESP Agreement

On December 11, 2001, the Company entered into an agreement with the State Government ( GESP Agreement ), under which the State Government acknowledged a debt, among others, for services rendered by the Company of water supply and sewage collection, totaling R\$ 358,207 on that date, representing services rendered until December 01, 2001, having further agreed to pay the amounts due. Additionally, the State Government acknowledged and agreed to pay amounts owed to the Company in connection with supplemental retirement and pension benefits paid by the Company, on its behalf, in the amount of R\$ 320,623 on that date.

The GESP Agreement sets forth that the Water and Electric Power Department ( DAEE ) will transfer, as partial payment to the Company, the title to the Taiacupeba, Jundiaí, Biritiba, Paraitinga and Ponte Nova reservoirs, which

make up the Alto Tietê System, and the amount of such assets will reduce the amounts owed to the Company. The asset value of these reservoirs was ascertained based on the arithmetic average of independent evaluations carried out by CPOS Companhia de Obras e Serviços (a state-owned building company selected by the State Government) and by ENGEVAL Engenharia de Avaliação (an independent appraisal company selected by the Company). The payment of the amounts owed in excess to the fair market value of the reservoirs, as agreed upon between the parties, shall be effected by the State of São Paulo Government in 114 monthly successive installments, monthly adjusted by the IGP-M index, added by interests of 6% per annum, beginning from the maturity date of the first installment. Under the terms of the Agreement, the first original payment should have been effected in July 2002, however it was postponed because the parties did not reach an agreement as for the fair value of the reservoirs and the audit and specific analysis of the amounts due ascertained by the experts appointed by the State Government were not concluded. The evaluation work of the reservoirs have been concluded and approved by the Company's Board of Directors with the arithmetic average in the amount of R\$ 300,880 (base date June 2002), as substantiated in the respective reports.

Additionally, pursuant to the memorandum of understanding and the GESP Agreement, the State Government may authorize the Company to use dividends, including interests on net equity stated by the Company and any other obligation payable to the State Government, for offsetting against accounts receivable for services of water supply and sewage collection rendered to the State Government.

Based on official letter no. 53/2005, the Council for Defense of the State Capitals CODEC, dated March 21, 2005, renegotiations between the Company and the State Government have been resumed with a view to obtain the settlement of the debt relating to the supplementary retirement and pension benefits, under the terms set forth in the GESP agreement, including amounts overdue after November 2001. These renegotiations must be restated in a second amendment to the Agreement between the State Government and Sabesp. The Company retained FIPECAFI to calculate the amounts actually reimbursable by the State Government, taking into consideration the legal advice provided by the State Attorneys Office.

Once the debt amount is calculated and the monetary adjustment criterion is determined, Sabesp will be entitled to take the applicable actions with the DAEE in order to obtain the ownership rights over the Alto Tietê System reservoirs, since no court hindrance exists, having in regard that the State has timely filed an appeal against the judgment rendered in the civil public action and was granted suspension of the effects thereof.

The referred second addendum must provide for the criteria for monthly recovery of future amounts to be disbursed by Sabesp.

Since these negotiations are at their initial stage, it is not possible to ascertain the net effects over the balance sheet arising from such negotiation. The Management does not estimate that it will incur significant net losses relating to the differences ascertained between the amounts deemed to be reimbursable by the State Government and the amounts actually paid by Sabesp.

The balances for water and sewage services were included in the 1<sup>st</sup> amendment as described below (iv).

(iv) First Amendment to the GESP Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original GESP Agreement, thereby (1) consolidating and acknowledging amounts due from the State Government for water and sewage services through February 2004, monetarily adjusted through February 2004; (2) formally providing for the offset of amounts due from the State Government against interest on shareholders' equity declared by the Company and any other debt owed to the State Government at December 31, 2003, which were monetarily adjusted through February 2004; and (3) defining the payment terms of the remaining obligations of the State Government for water and sewage services.

Under the terms of the Amendment, the State Government acknowledged amounts due to the Company for water and sewage services provided through February 2004, of R\$ 581,779, and the Company acknowledged amounts due to the State Government with respect to interests on shareholder's equity in the amount of R\$ 518,732.

The Company and the State Government have agreed to the reciprocal offset of R\$ 404,889 (monetarily adjusted through February 2004), which were settled up to April 30, 2005. The remaining obligation, of R\$ 187,979 at September 30, 2005 is subject to monthly monetary adjustment at the Expanded Consumer Price Index - IPCA/IBGE, plus interests of 0.5%, of which R\$ 140,444 are recorded in long term assets and R\$ 47,535 in current assets.

Management believes that the amounts due from the State Government are collectible and does not expect to incur losses on these accounts receivable.

#### (b) Cash

The Company's balance of cash and financial investments accounts with financial institutions controlled by the State Government was R\$ 195,818 at September 30, 2005 (R\$ 169,434 at June 30, 2005). The financial income from such investments was R\$ 24,582 and R\$ 17,830, in the periods ended on September 30, 2005 and 2004, respectively.

#### (c) Agreement for use of reservoirs

The Company uses the Guarapiranga and Billings reservoirs and a portion of some of the reservoirs of the Alto Tietê System, which are owned by another company controlled by the State of São Paulo Government. The Company does not pay any fees with respect to the use of these reservoirs, but is responsible for maintaining and funding their operating costs.

The Company has the right to draw water and exploit the reservoirs for a period of 30 years, counted as from 1997.

## a) Depreciation:

Depreciation is calculated at the following annual rates: buildings - 4%; networks 2%; equipment 10%; water meters 10%; transportation equipment 20%; computer equipment 20%; building connections 5%, and furniture, fixtures and equipment 10%.

Amortization of intangible assets is effected during the term of the concession agreements entered into with the municipalities served by the Company.

## b) Construction in progress

The estimated disbursement as from October 2005, up to 2011, relating to the works already contracted, is approximately R\$ 1,050,000 (not reviewed by the independent auditors).

c) Disposals of property, plant and equipment

For the third quarter of 2005, the Company wrote-off property, plant and equipment in the amount of R\$ 10,337 (2004 R\$ 1,305), of which R\$ 1,165 (2004 R\$ 1,305) are related to the group of properties in use due to obsolescence, theft or disposal and R\$ 9,172 are related to works in progress, related to deactivated works, unproductive wells and unfeasible projects.

d) Expropriations

As a result of the implementation of priority projects related to the water and sewage systems, the Company was forced to expropriate or establish rights of way over third-party properties, in conformity with the relevant legislation. The owners of these properties will be compensated either through negotiated settlements or judicial arbitration. Disbursements to be effected as from the third quarter of 2005, without a date set for the actual disbursement, are estimated to be approximately R\$ 280,200 (not reviewed by the independent auditors), which will be paid out of Company funds. The assets to be received as a result of these negotiations will be recorded as property, plant, and equipment after the transaction is completed. The amount referring to expropriations in the third quarter of 2005 was R\$ 2,464 (2004 R\$ 1,054).

e) Tax effects on assets revaluation

Property, plant and equipment were revaluated in 1990 and 1991 and have been depreciated at annual rates which take into consideration the estimated remaining economic useful lives of the assets as determined in the respective valuation reports that generally do not exceed the original depreciable lives.

As permitted by CVM Instruction 197/93, the Company did not post a provision for the tax effects (deferred taxes) on the revaluation surplus of property, plant and equipment carried out in 1990 and 1991. Had this effect been accounted for, the amount unrealized up to September 30, 2005 would be R\$ 468,696 (Sep/2004 R\$ 499,832). In the period from January to September 2005, the realized revaluation reserve was R\$ 67,031 (January to September 2004 R\$ 79,937).

f) Intangible assets

As from 1998, negotiations relating to new concessions were carried out based on the economic-financial results of the relevant business, as established on appraisal reports issued by independent experts.

The amount provided for in the respective contract, after the transaction is closed with the municipal government and carried out either through subscription of shares in the Company or in cash, is posted to the intangible assets account and amortized over the related concession period.

## 16. COMPENSATION FOR CONCESSION TERMINATION

The Municipalities of Diadema and Mauá terminated the concessions of water supply and sewage collection at the beginning of 1995.

In December 1996, SABESP filed claims to seek payment of amounts owed by the municipality of Diadema. The lower court judge rendered an unfavorable decision to SABESP, against which an appeal was filed in November 2000. No decision had been rendered for the appeal up to now. This claim was followed by several other related legal procedures, which are currently pending decision.

The residual net book value of property, plant and equipment relating to the Municipality of Diadema, written-off in December 1996, amounted to R\$ 75,231, and the claim balance and other receivables from the municipality amounting to R\$ 62,876 are recorded under long-term receivables in Compensation for concession termination .

SABESP executed a memorandum of intent with the municipality of Mauá when the concession was terminated; through which Mauá agreed to pay the amounts owed to the Company for the reversal of the water and sewage systems. However, the Mauá City Hall has never paid any amount whatsoever. SABESP filed a collection proceeding in December 1996 against Mauá. By way of indemnity, the judgment rendered in 2004 sentenced Mauá City Hall and SAMA to pay the amount of R\$ 153.2 million, duly adjusted in accordance with the practical table of the São Paulo State Justice Court, as from March 2000, added by interests since the service of process, legal costs and expenses and 20% attorneys' fees. This award was converted into judgment, subject to double jurisdiction. An appeal was filed by Mauá City Hall and SAMA and SABESP has recently filed its counterarguments against the appeal. This appeal is currently pending decision before the São Paulo court of Justice.

The residual value of property, plant and equipment relating to the Municipality of Mauá, written off in fiscal year 1999, amounted to R\$ 103,763, and the claim balance, in the amount of R\$ 85,918, is recorded in long term assets, under Compensation for concession termination.

Both claims are pending court decision (Mauá and Diadema), and the legal advisor conducting the litigation considers that a favorable outcome for the Company is probable.

#### 05.01 - COMMENTS ON COMPANY S PERFORMANCE IN THE QUARTER PERIOD

1. SABESP reports growth of 12.5% in the net revenue, and 8.8% in the EBITDA

	(R\$ million)		
Financial Highlights	3Q04	3Q05	Change
Net Operating Revenue	1,086.8	1,222.6	12.5%

(\*) Earnings before interests, income tax and social contribution taxes, depreciation and amortization

SABESP recorded net operating revenue of R\$ 1,222.6 million, with EBITDA of R\$ 547.9 million in the 3Q05. The final result for the period, a profit of R\$ 191.1 million, reflects part of the rate readjustment of 9.0% on August 30, 2005. The slower pace of appreciation of the real of 5.5% during the quarter (8.0% in 3Q04) reflects lower income for the quarter.

## 2. Gross operating revenue 12.5% growth

The net operating revenue recorded an increase of R\$ 135.8 million, or 12.5%, which is a result of the 9.0% tariff adjustment impact as from August 30, 2005, of the 3.5% increase in billed water and sewage services, migration of consumers to consumption levels with higher tariff, and end of the reasonable use of water program. However, such increase was minimized by the increase of R\$ 38.9 million resulting from the changes occurred in the COFINS-PASEP legislation.

The charts below show volumes of water and sewage services billed to the retail and wholesale market broken down by user category and region in the third quarters of 2004 and 2005:

### 3.1. Salaries and Payroll Charges

These reported an 8.0% increase of R\$ 21.2 million. Such increase is mainly due to the 7.94% salary, benefits and charges increase, as from May 2005.

### 3.2. General Supplies

These reported a R\$ 7.2 million or 32.1% increase, mainly due to maintenance of operating systems, maintenance of residential water connections and networks, and fuels and lubricating oils for the Company's vehicles and conservation of premises and installations.

### 3.3. Treatment Supplies

These posted a R\$ 1.8 million or 9.1% increase, caused by variation in the following materials: aluminum sulphate in the amount of R\$ 1.0 million and lye in the amount of R\$ 0.7 million. There was a mix in the increased consumption of some products and decrease in the consumption of others coupled with the price fluctuations.

### 3.4. Services

These recorded a R\$ 9.1 million or 8.9% increase, due to mainly Global Sourcing Program, substantially affecting the service expenses in maintenance of residential water connections, in the amount of R\$ 5.6 million and maintenance of the networks, in the amount of R\$ 3.9 million.

### 3.5. Electric Power

This recorded a R\$ 14.5 million or 15.4% increase, caused by the average growth of 12.5% in electric power tariffs and the estimated increase in electrical power expenses owed to the increase volumes of water produces and sewage treated during the quarter compared to 1.2%.

### 3.6. General Expenses

These increased by R\$ 16.8 million or 64.6%, a result, mainly, of: indemnities for damages to third parties in the amount of R\$ 1.7 million and provisions for civil and labor contingencies, in the amount of R\$ 12.9 million.

### 3.7. Depreciation and Amortization

This recorded a R\$ 5.0 million or 3.3% reduction, mainly owed to the decrease in transfers of works in progress of the property, plant and equipment in operation in 3T05 of R\$ 175 million compared to 584 million during the same quarter last year.

### 3.8. Credit Write-off

These recorded a R\$ 18.3 million or 39.6% increase, owed mainly to the greater volume in the settlement of collection suits of wholesale supply clients offset in part by the growth in debt recovery.

### 3.9. Tax expenses

These recorded a R\$ 2.7 million or 44.3% increase, owed mainly to the CPMF tax arising from the advanced purchase of dollars for the payment of the Euro Bonus in the amount of US\$ 275 million.

## 4. Financial Expenses and Inflation and Exchange Losses on Monetary Items

### 4.1 Financial Expenses These recorded a R\$ 9.5 million reduction, as a result of:

- Interest on loans and internal financing and the increase of R\$ 27.6 million related to new Debenture issues 6, 7 and 8 (September 2004, March 2005 and June 2005, respectively) offset by the closing of the third issue (September 2004) and by the decrease in the IGPM which took place in the third quarter of 2005, compared to the third quarter 2004;
- Provisions referring to financial contingencies with R\$ 13.3 million increase, the nature of which is related to interests and updating of estimates of lawsuits in course;
- Interests on foreign loans and financing, with R\$ 24,2 million decrease, related to the lower US dollar quotation and payment of the Euro Bonus (US\$ 275 million) which took place in July, 2005, impacting the interest provided on the respective balances;
- Income tax on foreign remittances, (a R\$ 3.6 million decrease) as a result of payment of interest which occurred in the 3Q04, greater than 3Q05;
- Other Financial Expenses, with R\$ 3.6 million decrease.

### 4.2 Inflation and Exchange Losses on Monetary Items

Inflation and exchange losses on monetary items recorded a variation of R\$ 127.4 million, mainly due to the 5.5% appreciation of reais in relation to the North-American Dollar in 3Q05, against the 8.0% devaluation occurred in 3Q04.

## 16.01 OTHER INFORMATION DEEMED BY THE COMPANY TO BE RELEVANT

### Supplementary Information

In order to improve the information provided to the market, the Company is presenting, as supplementary information, the financial statements in a constant purchasing power currency.

#### 1. SUPPLEMENTARY INFORMATION IN CONSTANT PURCHASING POWER CURRENCY

##### (a) Monetary indexation

The monetary indexation of the operations relating to the permanent assets, shareholders' equity, income statement accounts and ascertainment of profits and losses in monetary items was measured based on the variation of the Accounting Monetary Unit - UMC, taking for basis the variation of the General Market Prices Index - IGP-M in the 3<sup>rd</sup> quarter, of -1.51% and year-to-date, of 0.21% .

##### (b) Balance sheet accounts

Amounts related to monetary assets and liabilities presented in constant purchasing power currency are identical to those presented in accordance with the corporate legislation, except for accounts receivable from customers, accounts payable to suppliers and contractors, deferred income tax and social contribution in long-term liabilities, which are adjusted to reflect the purchasing power or currency realization at September 30, 2005, taking for basis the rate determined by the National Association of Investment Banks - ANBID.

Permanent assets and shareholders' equity were adjusted based on the monthly variation of the UMC, updated by the IGP-M up to September 30, 2005.

##### (c) Income statement accounts

All the income statement accounts were indexed for inflation based on the variation of the UMC, as from the month when they were booked, adjusted in accordance with inflation gains and losses ascertained on the balances at the beginning and end of every month for monetary assets and liabilities, and which generated financial or nominal inflationary expenses and income, which were considered to reduce the respective income statement accounts to which they were attached.

##### (d) Deferred taxes and contributions

Deferred income tax and social contribution were calculated based on the rates of 15% plus additional 10% and 9%, respectively, on the surplus value of the properties and rights in the permanent assets generated by the result of their monetary adjustment, in conformity with the instructions of the CVM, as provided for in Communication no. 99/006 issued by the IBRACON – Brazilian Institute of Independent Accountants.
