04.01 NOTES TO THE FINANCIAL STATEMENTS

1 Operations

(a) Telemig Celular Participações S.A. is a publicly-held corporation, acting as the holding company of Telemig Celular S.A. Its stake in this operator on June 30 and on March 31, 2006 is of 89.18% of the voting capital and 83.25% of the total capital.

The objective of the subsidiary is to provide cellular mobile services and all the activities necessary or useful to carry out these services, in conformity with the authorizations granted.

The services offered and the tariffs charged by the subsidiary are regulated by the National Telecommunications Agency (ANATEL), the regulatory authority for the Brazilian telecommunications industry, according to the General Law of Telecommunications and respective regulations.

On February 19, 2004, the subsidiary and ANATEL signed an Authorization Instrument for migration to the Personal Mobile Service (SMP), which took effect as from the publication of ACT 42,672 in the Federal Official Gazette on March 1, 2004.

The SMP authorizations granted to the subsidiary are effective for an undefined term. The radio frequency authorizations have the following maturities:

Region / Sector	Radio frequencies	Maturity
Region 1		
Sector 2 Minas Gerais (except Triângulo Mineiro region)	800 MHz, 900 MHz and 1800 MHz	April 2008
Sector 3 Triângulo Mineiro	900 MHz and 1800 MHz	April 2020

The radio frequency authorizations may be renewed for an additional 15-year term, with extensions subject to obligations.

(b) In April 2005, the bidding process to obtain the Authorization for the SMP exploitation in the radio frequency sub-band E , in the municipalities comprising Sector 3 of Region I (Triângulo Mineiro) of the Authorization General Plan (PGO), was concluded.

The subsidiary signed the Authorization Instrument on April 28, 2005 and started operations in the Triângulo Mineiro region on May 30, 2005. Since then, the coverage area of the subsidiary comprised all the State of Minas Gerais.

(c) At the Extraordinary General Meeting held on March 20, 2006, the shareholders resolved to remove from office certain members of the Board of Directors. On the same date, the Board of Directors resolved by unanimous vote to remove from office the Board of Executive Officers, electing, in replacement, Mr. Oscar Thompson to occupy the positions

of Chief Executive Officer and Investor Relations Officer, cumulating the duties of Chief Financial Officer, and Mr. Marcus Roger Meireles Martins da Costa, to the position of Human Resources Officer. The new members of the Board of Executive Officers were invested in office on March 20, starting then to manage the corporate businesses.

As part of the resources sharing agreement signed in March 2003 and mentioned in Note 3(b), all the Company's bookkeeping services and execution of financial activities are carried out by professionals allocated at the headquarters of the subsidiary, Telemig Celular S.A.. Therefore, the present quarterly information was substantially prepared based on the information provided by Telemig Celular S.A.

2 Significant Accounting Practices (company and consolidated)

(a) Presentation of the quarterly information and consolidation criteria

The quarterly information was prepared and is being presented in accordance with the accounting practices adopted in Brazil, which are based on the provisions of the Corporate Law, the rules set forth by the Brazilian Securities and Exchange Commission (CVM) and rules applicable to the telecommunications operators.

The consolidated quarterly information includes the quarterly information of the parent company Telemig Celular Participações S.A., of its direct subsidiary Telemig Celular S.A. and of the special purpose entities mentioned in Note 19, proportionally to the stake held in these entities. The consolidation process of equity and results accounts corresponds to the sum of balances of assets, liabilities, revenues and expenses accounts of the companies, according to the nature of each balance, supplemented by eliminations (i) of capital interest, reserves and results accumulated maintained among companies; (ii) balances of current accounts and other balances composing assets and/or liabilities, maintained among companies and; (iii) identification of minority shareholders' interest.

In the preparation of quarterly information it is necessary to use estimates to account for certain assets, liabilities and other transactions. The Company's and its subsidiary's quarterly information includes, therefore, estimates referring to the selection of useful lives of property, plant and equipment, accounts receivable of services rendered and not invoiced until balance sheet date, necessary provisions for contingent liabilities, determination of provisions for income tax, provisions for doubtful accounts and other similar items. The actual results may differ from the estimates.

The quarterly information is being presented in thousands of reais, except as otherwise indicated.

(b) Cash and cash equivalents

Mainly comprise highly liquid temporary investments. The investment funds are stated based on the quota value of each fund on the balance sheet date. The other investments are stated at cost, plus income earned up to the balance sheet date.

(c) Accounts receivable

Mainly represented by services and products billed to customers, by services rendered up to the balance sheet date but not yet billed, and by amounts arising from the use of the subsidiary's operations network by subscribers from other telecommunications carriers.

(d) Allowance for doubtful accounts

Management, based on its most recent experience, periodically evaluates the estimated loss percentages in order to record an allowance for doubtful accounts when the recovery of a receivable is considered unlikely.

(e) Inventories

Mainly comprise mobile telephone handsets stated at average acquisition cost, net of a provision to adjust to market value for handsets and accessories out of line or whose acquisition costs are higher than the replacement cost or realization value.

(f) Investment in subsidiary

Recorded by the equity accounting method, calculated on the net income for the year and other equity variations of the subsidiary.

(g) Property, plant and equipment

Are stated at acquisition and/or construction cost, less accumulated depreciation. Depreciation is calculated on the straight-line method when assets enter into operation, at the rates mentioned in Note 11.

The subsidiary reviews the recovery value of property, plant and equipment by means of its future operations, when there are facts that may affect them. The purpose of this procedure is to verify if the recovery value is lower than the net book value. When this occurs, the subsidiary reduces the net book value to the recovery value. No provision was deemed necessary on June 30 and March 31, 2006.

Interest and financial charges on loans and financing obtained for investment in construction in progress (Assets and Facilities in Progress) are capitalized until such assets start to operate. Costs incurred with maintenance and repair are capitalized when they represent an increase in installed capacity or of the useful life of the asset. In the first half of 2006 and 2005, no interest and financial charges were capitalized.

(h) Deferred charges

Are recorded at acquisition or formation cost, net of accumulated amortization, which is calculated on the straight-line method at rates which take into account the expectation of recovery of the expenditures.

The balance on June 30 and on March 31, 2006 refers to expenditures incurred to explore mobile cellular services in the Triângulo Mineiro region (Note 1, b) and is being amortized over 5 years as from the start of operations.

(i) Other assets

Other current assets and long-term receivables are stated at cost or realizable values, including, when applicable, earnings, foreign exchange rate variations and monetary variations accrued.

(j) Foreign currency transactions

These are recorded at the rate prevailing on the date of transactions and restated based on the foreign exchange rate effective at the balance sheet date. Foreign exchange gains/losses are immediately recognized in the results.

(k) Income tax and social contribution

Income tax and social contribution on net income are calculated pursuant to prevailing laws. Deferred tax credits and liabilities are calculated based on the expected value of tax benefit realization related to the goodwill acquired from the company by means of a reorganization process, and on temporary differences arising mainly from the provision for contingencies, provision for accounts payable, allowance for doubtful accounts receivable and provision for profit sharing, as shown in Note 4.

(l) Provision for contingencies

Provisions for contingencies are recorded, based on the opinion of the legal advisors and of management, to cover probable losses resulting from tax, civil and labor claims.

(m) Other liabilities

Other current and long-term liabilities are stated at known or estimated amounts, plus, when applicable, corresponding charges, foreign exchange rate variations and monetary variations incurred.

(n) Determination of income and revenue recognition

Income is determined on the accrual basis. Revenues from telecommunications services are recorded at the tariff prevailing on the date the services are rendered. Revenues from mobile telephony services comprise fees of subscription, usage, network usage, maintenance and other services rendered to subscribers. All services are billed monthly. Services rendered between the invoicing date and the end of each month are calculated and recorded as revenue in the month services are rendered. Revenues from credit recharge of prepaid cell phones are deferred and recorded in income as services are effectively rendered. Revenues from sales of handsets and accessories are recorded when products are delivered and accepted by consumer or distributor.

(o) Pension plan

The subsidiary participates in pension plans offering its employees pensions and other post-employment benefits. Actuarial liabilities were calculated and recorded based on the projected unit credit method, pursuant to CVM Resolution 371/2000.

(p) Employees profit sharing

The Company and the subsidiary record profit sharing based on the achievement of goals established for the year, subject to approval at the Shareholders Meeting.

The Company carries out transactions with its subsidiary and other related parties concerning certain services, described below. Related-party transactions are carried out under conditions agreed among parties.

The amounts related to revenue from sharing of resources correspond to amounts calculated by Telemig Celular S.A. and Amazônia Celular S.A. However, such amounts are object of divergence between the Company and such Related Parties, being therefore subject to adjustments.

(a) Roaming Agreements

The subsidiary is a member of the Brazilian roaming committee of mobile operators, which includes the subsidiary of the affiliated company Tele Norte Celular Participações S.A. (Amazônia Celular S.A.). The purpose of this committee is to oversee technical and system aspects to ensure the high quality of the roaming service. As required by

Brazilian regulations, the subsidiary, Amazônia Celular S.A. and other mobile operators facilitate roaming to their respective subscribers.

Accounts receivable and payable, as well as service revenues (consolidated) with Amazônia Celular S.A., refer to the pass-through of the additional call and transfer of the operators' subscribers in roaming mode.

(b) Sharing of resources

On March 20, 2003, Telemig Celular Participações S.A., its subsidiary company (Telemig Celular S.A.) and the affiliated companies, Tele Norte Celular Participações S.A. and Amazônia Celular S.A., entered into a new agreement for sharing human and administrative resources, and established a jointly-owned unit. This agreement was approved at the General Shareholders' Meetings of the respective companies, both held on March 19, 2003.

The balances recorded in long-term receivables are exclusively related to the resource sharing and jointly-owned unit creation agreement mentioned above.

In accordance with Note 3 above, the amounts related to revenue from sharing of resources correspond to amounts calculated by Telemig Celular S.A. and Amazônia Celular S.A. However, such amounts are object of divergence between the Company and such Related Parties, being therefore subject to adjustments.

(c) Brasil Telecom S.A.

As from August 1, 2004, the subsidiary started to offer the Carrier Selection Code (CSP) option to its customers. Consequently, the customers of the subsidiary started to use CSP in domestic (VC2 and VC3) and international long-distance calls from their mobiles, in conformity with the Personal Mobile Service (SMP) rules.

Accounts payable to Brasil Telecom S.A. refer to the pass-through of domestic and international long-distance calls made by the subsidiary's subscribers using the CSP of Brasil Telecom S.A. Accounts receivable and service revenues mainly refer to the interconnection revenues for the use of the subsidiary's network in such long-distance calls.

4 Income tax and social contribution

(a) Deferred income tax and social contribution

Pursuant to CVM Instruction 371/2002, the Company and subsidiary's management, at the end of 2005, prepared technical feasibility studies on the future realization of the deferred tax assets, considering the probable capacity of taxable income generation by the Company and by the subsidiary, in the scope of the main variables of its businesses that may, therefore, undergo changes. These studies were approved by the Company and subsidiary's Board of Directors on March 16 and 15, 2006, respectively, and examined by the Fiscal Council on the same dates.

This study will be reviewed by the end of 2006, and the results of such revision will be reflected in the corresponding financial statements. Management did not identify changes that could cause significant impacts on the conclusion of this study at the end of second quarter 2006.

Credits relating to the temporarily non-deductible provisions, mainly tax contingencies and doubtful accounts, will be realized as the corresponding issues are concluded.

Edgar Filing: TELEMIG CELULAR PARTICIPACOES SA - Form 6-K

According to the projections made by Company's management, long-term deferred income tax and social contribution will be realized in the following years:

	Company
2007	8,790
2008	11,077
2009	42,652
Total	62,519

According to the projections made by the subsidiary's management, the future taxable income will be sufficient for the realization of the long-term deferred tax assets in the amount of R\$135,219 in a period not longer than 10 years.

As the taxable base of the income tax and social contribution arises not only from the profit that may be generated but also from the existence of non-taxable revenues, non-deductible expenses, tax incentives and other variables, there is no immediate correlation between the Company's net income and the tax income and social contribution results. Therefore, the expectation of use of the tax credits must not be taken as the only indication of the Company and its subsidiary's future results.

(b) Reconciliation of income tax and social contribution in the income statement

The amounts of income tax and social contribution shown in the quarterly results are reconciled to their amounts at the nominal rate as below:

On June 30 and on March 31, 2006, the investment funds were mainly represented by investments in an Investment Fund in Quotas of Investment Funds FIC (exclusive), which also invests in quotas of other exclusive Investment Funds, as mentioned in Note 19.

On June 30 and on March 31, 2006, the portfolios of the Investment Funds were substantially comprised of highly liquid federal government securities, recorded at their realization amounts.

The Investment Funds carry out operations with financial instruments with the purpose of reducing the exposure to interest risk, which are also recorded at realization amounts.

On June 30 and on March 31, 2006, there were no guarantees, sureties, mortgages or other guarantees granted in favor of the exclusive funds.

On June 30 and on March 31, 2006, accounts receivable from telecommunications services also included amounts receivable from customers relating to the pass-through of domestic and international long-distance calls made by the subsidiary's subscribers using the Carrier Selection Code (CSP) of the long-distance carriers, according to the Personal

Mobile Service (SMP) rules.

On June 30, 2006, the subsidiary had overdue accounts receivable from telephony operators in the amount of approximately R\$41,792 (March 31, 2006 R\$47,200), resulting from the use of its network. The overdue amounts are in process of collection and negotiation with the operators, which also involve amounts payable offset by the subsidiary in the amount of R\$35,422 (March 31, 2006 R\$30,036), due to the lack of collection in portion of the referred overdue amounts. The subsidiary management considers that the recovery of these overdue amounts is probable.

8 PIS and COFINS Recoverable Law 9,718/98 short and long-term

In 2005, the Company and its subsidiary were successful in the Federal Supreme Court actions that questioned the constitutionality of the increase in the calculation basis of PIS and COFINS introduced by paragraph 1, Article 3 of Law 9,718 of November 27, 1998. Accordingly, considering that the decisions are final and unappealable, the Company and the subsidiary recognized, in the last quarter of 2005, the credit of these taxes, in the amounts of R\$16,622 and R\$21,303, respectively. The restated value of these credits on June 30, 2006 is R\$17,275 for the Company (March 31, 2006 R\$16,886) and R\$22,112 for the subsidiary (March 31, 2006 R\$21,634), amounting to R\$39,387 (March 31, 2006 R\$38,520) in the consolidated. The credits are recorded in the item PIS and COFINS Recoverable Law 9,718/98 under Company's long-term receivables and under subsidiary's current assets.

9 ICMS recoverable property, plant and equipment (long-term)

This refers, in the consolidated, to recoverable ICMS installments, to be offset as from July, 2007 at 1/48, relating to the credits arising from the acquisition of equipment by the subsidiary for property, plant and equipment, in conformity with Complementary Law 102 of July 11, 2000.

Due to the technology migration from TDMA standard to GSM standard in 2004, the expected useful life of the equipment, transmission means and switching and control centers of the subsidiary's TDMA network was reduced from 4 years to 3 years. Consequently, in 2004, the depreciation rates of these assets were changed from 25.0% p.a. to 33.3% p.a. In order to support such change, the subsidiary signed a contract with the Ministry of Science and Technology through the National Institute of Technology and obtained an appraisal report on the useful life of these assets.

From the consolidated depreciation of the first half of 2006, R\$61,161 (June 30, 2005 - R\$86,135) was allocated to cost of goods and/or services, R\$5,142 (June 30, 2005 - R\$5,124) to selling expenses and R\$18,156 (June 30, 2005 - R\$18,235) to general and administrative expenses.

The net roll-forward of property, plant and equipment in the quarter may be summarized as below:

	Consolidated
Balance on March 31, 2006	649,959
- Additions	25,025
- Residual value written-off	(2)
- Depreciation	(43,216)
Balance on June 30, 2006	631,766

On June 30, 2006, the subsidiary had equipment, properties and other assets pledged or indicated as attachments in court proceedings, in the residual value of R\$751 (March 31, 2006 R\$588).

	248,630	284,103

(a) Material and service suppliers

On June 30 and on March 31, 2006, the balance includes mainly the liabilities with suppliers for the supply of handsets, equipment, services and execution of civil construction related to the expansion of the GSM/EDGE network.

(b) Interconnection and amounts to transfer - SMP

Includes accounts payable to other mobile, fixed and long-distance telephony carriers related to network usage charge, additional call pass-through, roaming and long-distance calls.

13 Loans and Financing

On June 30 and on March 31, 2006, the principal amount of loans and financing was as below:

	Consolidated	
	06.30.06	03.31.06
Unsecured Senior Notes The outstanding balance is adjusted by the U.S. dollar exchange fluctuation, plus annual interest of 8.750%. Interest is payable semiannually. Principal is repayable in January 2009.	173,144	173,792
Export Development Canada EDC The outstanding balance is adjusted by the U.S. dollar exchange fluctuation, plus annual interest of 4.875% above the London Interbank Offered Rate (LIBOR). Installments are repayable semiannually, with final maturity in April 2006.	-	43,748

Interest on loans and financing in the amounts of R\$7,214 and R\$4,606 on June 30 and on March 31, 2006, respectively, are shown in the account Provisions under current liabilities.

The Unsecured Senior Notes funding program and the financing and loan agreement Export Development Canada - EDC include restrictive covenants regarding the use of funds for the purposes specified in the agreements, certain related-party transactions, merger and takeover transactions, and achievement of certain limits substantially based on balance sheet financial ratios, amongst others.

Should such covenants not be complied with, the installments of the Unsecured Senior Notes may be anticipated. On June 30 and on March 31, 2006, the subsidiary had complied with all the restrictive covenants.

14 Provision for Contingencies

Civil and labor contingencies	5,767	6,063
Court deposits	(741,663)	(713,976)
	18,261	17,939

(a) Tax contingencies

i. Value Added Tax on Sales and Services (ICMS) on monthly subscription, value-added services The subsidiary's management, supported by its legal advisors, understands that ICMS should be levied only on telecommunications services and, therefore, the assessment on monthly subscriptions and value-added services is illegal, since these are not deemed telecommunications services. The subsidiary was granted an injunction that suspended the taxation on monthly subscriptions and value-added services, starting to accrual and deposit in court the amounts involved. The provision recorded on June 30, 2006 was R\$555,895 (on March 31, 2006 R\$529,867) and the corresponding court deposits amounted to R\$551,676 (March 31, 2006 R\$525,491).

ii. INSS On July 2, 2002, the subsidiary received a tax assessment from the INSS (Brazilian Institute of Social Security) concerning the joint responsibility for the payment of the INSS contribution of service providers and the withholding of 11% as provided for by Law 9,711/98. On June 30 and on March 31, 2006, the subsidiary had a provision of R\$3,547 to cover possible losses arising from this tax assessment, based on the opinion of its legal advisors. The subsidiary made a court deposit of R\$5,799, which is classified in the account Other Assets, under long-term receivables, on June 30 and on March 31, 2006.

iii. Telecommunications Inspection Fee (FISTEL) The subsidiary filed a writ of mandamus questioning the responsibility for the payment of inspection fees on mobile stations, which are not owned by the Company, and started to accrual and deposit in court the amounts related to the Operating Inspection Fee (TFF) and the Installation Inspection Fee (TFI). The provision recorded on June 30, 2006 was R\$184,542 (March 31, 2006 - R\$183,369), with corresponding court deposits in the same amount.

iv. Other tax contingencies The subsidiary is party to other tax proceedings for which a provision of R\$10,173 on June 30, 2006 (March 31, 2006 - R\$9,069) and the corresponding court deposits totaled R\$5,445 (March 31, 2006 - R\$5,116). Management, based on the opinion of its legal advisors, understands that the provision recorded is sufficient to cover losses that might result from these proceedings.

(b) Civil and labor contingencies

The Company and the subsidiary are parties to certain labor and civil proceedings. Civil contingencies refer mainly to proceedings filed by customers and labor contingencies to proceedings filed by former subsidiary employees. Based on the opinion of its legal advisors, management understands that the provision recorded of R\$5,767 (March 31, 2006 - R\$6,063) is sufficient to cover losses that might result from these proceedings.

(c) Universalization Fund of Telecommunications Services - FUST

Based on Article 6 of Law 9.998/2000, which instituted FUST, the subsidiary does not include in the calculation basis of the contribution the revenues obtained from telecommunications services providers as interconnection remuneration and for the use of its network resources.

On December 15, 2005, the Board of ANATEL approved Precedent #7 which determines the inclusion of these revenues in the calculation basis of FUST, with retroactive application to January 2001.

According to the subsidiary's management and its legal advisors, Precedent #7 of ANATEL contravenes the provisions of Law 9,998/2000, as well as several constitutional provisions. In January 2006, the mobile telephony carriers petitioned for a Writ of Mandamus with the purpose of protecting their legitimate rights to continue to pay FUST without any increase in the calculation basis not prescribed by the law.

The injunction pleaded was denied by the lower court judge since she understood the issue to be a complex matter. The Petitioners appealed this decision in the Federal Regional Court of the 1st Region, by means of a Bill of Review, and in a decision given on March 10, 2006, the Superior Court Judge granted the injunction request to remove the application of the second part of Precedent #7 of ANATEL, up to the merit judgment.

According to the subsidiary's management and its legal advisors, there are probable chances of success in this proceeding. Accordingly, a provision for contingency has not been made.

(d) Possible and remote tax contingencies not provisioned

The subsidiary has tax claims involving risks of loss classified by management and its legal advisors as possible or remote amounting to R\$37,157 and R\$63,332 on June 30, 2006 (March 31, 2006 - R\$37,157 and R\$66,573), respectively, for which a provision for contingencies has not been recorded.

15 Shareholders Equity

(a) Paid-in capital stock

On June 30, 2006, paid-in capital stock was R\$456,350 (March 31, 2006 - R\$413,900) and divided into 357,706,555 thousand shares (March 31, 2006 - 353,926,469 thousand), of which 133,037,520 thousand common (March 31, 2006 - 131,631,638 thousand) and 224,669,035 thousand preferred, with no par value (March 31, 2006 - 222,294,831). The authorized capital is of 700,000,000 thousand shares.

Preferred shares are not entitled to vote but are assured priority in capital reimbursement, without premium, and to receive non-cumulative minimum dividends, according to the criteria below, alternatively, considering that which represents the highest amount:

I - 6% p.a. on the amount resulting from the division of the subscribed capital by the total number of shares; or

II - right to receive the compulsory minimum dividend, according to the following criteria:

a) priority to receive minimum and non-cumulative dividends corresponding to 3% of the equity value of the share; and

b) right to receive profit distributions under equal conditions with common shares, after these are assured dividends equal to the minimum priority dividend established in conformity with item a).

The General Shareholders Meeting held on April 27, 2006 approved the capitalization of part of the goodwill tax benefit referring to 2005 in the amount of R\$26,110.

(b) Retained earnings

The General Shareholders Meeting held on April 27, 2006 approved (i) the transfer of the remaining balance of net income for the year 2005 to retained earnings, in the amount of R\$87,617, to cover the Company's capital budget and (ii) the capitalization of R\$16,340 of retained earnings.

(c) Dividends

At the General Shareholders Meeting held on April 27, 2006, the payment of dividends amounting to R\$91,000 was approved, R\$44,655 of which refers to the minimum mandatory dividend of 25% on adjusted net income and R\$46,345 to supplementary dividends, paid as from May 23, 2006.

16 Insurance Coverage

On June 30 and on March 31, 2006, the subsidiary had insurance coverage against fire and sundry risks for inventories, leased assets, property, plant and equipment and loss of profits, in amounts contracted based on the evaluation of management, considering the risks and amounts involved.

On June 30 and on March 31, 2006, the amounts at risk insured were approximately the following:

Inventories	19,000
Leased assets and property, plant and equipment	1,163,000
Loss of profits	1,107,000
	2,289,000

Also, the subsidiary has insurance for general civil liability and for national transportation.

17 Remuneration based on the stock option plan (consolidated)

On October 5, 2000, the Board of Directors approved two long-term incentive plans, described as below:

Plan A This plan covered key executives who were granted preferred or common shares. The bonuses would be earned and shares would be issued only to the extent that the Company and the subsidiary achieve their performance goals determined by their Board of Directors during a five-year performance period. On June 30, 2006, all the options granted were expired due to the termination of the executive officers included in this plan.

Plan B This plan covers the Company and subsidiary's key-executives and other employees. Options granted in such plan refer to the Company's preferred shares, exercised at the market price at the time they are granted. The option exercise is 20%

during the second year, 60% during the third year and 100% during the fourth year. Up to June 30, 2006, 83,162 share options were granted under this plan. The exercise price of the options granted is R\$4.76 (four reais and seventy-six cents) per thousand Company's preferred shares. Such price is restated by the General Market Price Index (IGP-M) up to the option exercise date. On June 30, 2006, the exercisable call options balance totaled 83,162 options. No options were exercised up to June 30, 2006.

The Board of Directors of the Company and its subsidiary, at meetings held on December 29 and 30, 2003, respectively, approved changes to plan B, introducing new grants.

The plan continues to cover the Company and subsidiary's key-executives and the new stock options granted remain related to the preferred shares. However, these new options have an exercise price corresponding to the market price at the time they are granted, with a discount of 20%. The right to option exercise is 40% as from January 2004, 70% as from January 2005, and 100% as from January 2006. These options may be exercised until January 2008. Up to June 30, 2006, 204,815 options have been granted under this plan. The exercise price of the options is R\$3.84 (three reais and eighty-four cents) per thousand Company's preferred shares. This price is restated by the IGP-M up to the option exercise date. The estimated dilution percentage is 0.05% for the Company over the five-year period of the approved plan. On June 30, 2006, the balance of exercisable call options totaled 204,815 options. No options were exercised up to June 30, 2006.

18 Financial Instruments (consolidated)

The subsidiary participates in transactions involving financial instruments in order to reduce exposure to interest and foreign currency risks and these instruments are not used for speculative purposes. Management of the risks is carried out by defining strategies and determining exposure limits.

(a) Foreign exchange rate and interest rate risk

Foreign exchange rate and interest rate risks relate to the possibility of the subsidiary incurring losses arising from exchange rate and interest rate fluctuations, increasing its debt balance for loans and financing obtained in the market and corresponding interest expenses. In order to reduce such risks, the subsidiary carries out hedge transactions, through currency and interest rate swap contracts.

On June 30, 2006, the restated amount of swap contracts totaled R\$173,144 (March 31, 2006 R\$185,515). The contracts mature in January 2009.

Gains and losses in operations derive from differences in variations of contracted indicators against reference indexes (yield curve) and are accounted for on the accrual basis under interest income or expenses. In the first half of 2006, net losses on swap contracts amounted to R\$31,369 (June 30, 2005, R\$24,975).

On June 30, 2006, the net amount payable relating the swap contracts amounted to R\$31,179 and was recorded in long-term liabilities. On March 31, 2006, the net amount payable relating the swap contracts amounted to R\$32,847, of which R\$7,634 was recorded in current liabilities and R\$25,213 in long-term liabilities.

On June 30, 2006, the Company and its subsidiary had loans and financing in the amount of R\$173,270 (March 31, 2006 - R\$217,708) denominated in foreign currency, of which 100% (March 31, 2006 - 85%) were protected by hedge operations.

(b) Credit risk

Credit risk associated with accounts receivable derives from telecommunications services billed and to be billed, resale of handsets and distribution of prepaid cards. The subsidiary continuously monitors credit granted to its customers and the delinquency level.

Customer access to telecommunications services is blocked when a bill is overdue for more than 15 days, except for telephone services to be maintained for security or national defense reasons. The credit risk of accounts receivable of telecommunications mobile services is diversified. The subsidiary maintains credit limits for handset resellers and prepaid card distributors which are defined based on potential sales, risk history, payment promptness and delinquency levels. On June 30, 2006, the allowance for doubtful accounts amounted to R\$36,120 (March 31, 2006 R\$29,746) - Note 6.

Transactions with financial institutions (financial investments and swap contracts) are distributed among prime financial institutions, minimizing the credit risk and avoiding concentration.

There is no concentration of funds available that have not been mentioned above, which could, if suddenly eliminated, severely impact the Company and its subsidiary's operations.

(c) Market value of financial instruments

The market values of the financial assets and liabilities are determined based on available market information and appropriate valuation methodologies. The use of different market assumptions and/or estimation methodologies could cause a different effect on the estimated market values.

The account balances of financial investments on June 30, 2006 and on March 31, 2006 are equivalent to market values, as they are recorded at realization value. The market values of loans and financing and of swap operations were calculated according to the present value of these financial instruments, considering the interest rate practiced by the market for operations of similar nature, term and risk, as shown below:

	06.30.06		Consolidated	
	Book value	Market value	Book value	Market value
Financial Investments	515,364	515,364	664,828	664,828
Accounts payable – hedge operations	(31,179)	(32,782)	(32, 847)	(38,635)
Loans and financing	173,270	186,501	217,708	233,544

The hedge operations are recognized on a monthly basis in the income statement, considering the yield curve (Note 18 a). The difference between the value of the instrument by the yield curve and its fair market value represents the unrealized gain (loss).

19 Special Purpose Entities (EPE)

The Company, together with its subsidiary Telemig Celular S.A., and affiliated companies, Tele Norte Celular Participações S.A. and Amazônia Celular S.A, invests in an Investment Fund in Quotas of Investment Funds - FIC (exclusive) in Brazil, managed by Banco Itaú S.A., which, in turn, invests in quotas of other exclusive Financial Investment Funds (Note 5).

The main information on Investment Fund in Quotas of Investment Funds - FIC (exclusive), are summarized as below:

20 Other Information

(a) Proceeding referring to the General Law of Telecommunications

Considering the current Brazilian mobile telephony regulation, in June 2005, the Company and its subsidiary filed a judicial action against Caixa de Previdência dos Funcionários do Banco do Brasil - PREVI and Banco do Brasil S.A., which, under previous management's understanding, are part of the controlling group (through indirect interest) both of the subsidiary and its competitor TNL PCS S.A. ("Oi"). The judicial suit aims at preventing PREVI/Banco do Brasil from exercising their voting rights in the Company and in the subsidiary until the matter concerning the cross shareholding is resolved.

(b) Other judicial actions

On March 4, 2005, Highlake International Business Company Ltd and Futuretel S.A., entities at that time managed by the Opportunity group and directly and indirectly controlled by the Opportunity Fund, CVC/Opportunity Equity Partners LP (currently named Citigroup Venture Capital International Brazil LP) and Investidores Institucionais FIA, announced the beginning of a public offering process for the sale of more than 50% of the voting capital of Telemig Celular Participações S.A.. However, immediately after the announcement, International Equity Investments Inc., sole quotaholder of the investments fund CVC/Opportunity Equity Partners L.P., removed Opportunity from its management, replacing it with Citigroup Venture Capital International Brazil L.L.C.. Subsequently, International Equity Investments, Inc. obtained an injunction to temporarily suspend Telemig Celular Participações S.A.'s share public offering process. Since then, various judicial actions have been filed in Brazil and abroad, involving regulatory and corporate issues that may affect the control of the Company. There is currently no perspective of resolution of the litigation.

21 Subsequent events - ANATEL Resolution #438

On July 13, 2006, ANATEL issued Resolution #438, which approved the Regulation on Remuneration for Network Usage of Personal Mobile Service - SMP Providers, and revoked Resolution #319 of September 27, 2002.

Among other amendments, Resolution #438 establishes new rules for concession, onlending, and disclosure of discounts granted over the Value of Usage of SMP Network (VU-M) and establishes the end of Bill & Keep.

The Company is estimating the impact of these changes in its operations.

The customer base reached 3,403,980 at the ending of quarter, representing a 0.1% increase when compared to the previous quarter. For the quarter, net additions amounted to 2,670.

In the 2Q06, prepaid net additions amounted to 30,360, bringing the total prepaid base to 2,586,864 or 76% of the total base. The postpaid base decreased by 27,690 subscribers, ending the quarter with 817,116 subscribers or 24.0% of the total base. Postpaid decrease is derived from high churn rates registered in the quarter.

Churn rate

The consolidated annualized churn rate reached 35.2% in 2Q06 against 30.2% recorded in 1Q06. When compared to the previous quarter, the annualized prepaid churn rate increased 4.6 p.p. in relation to 1Q06 reaching 37.8% . For the postpaid segment, which accounts for most of the revenues generated, churn rates increased 6.1 p.p. when compared to 1Q06, reaching 27.4% in 2Q06. The significant increase in the annualized postpaid churn rate was due to the clients acquired between the 4Q05 and 1Q06. During 2Q06, the Company paid higher attention on new client entry, with focus on credit analysis and commissioning.

Operating Revenues

Net service revenues totaled R\$242,9 million in 2Q06, a decrease of R\$7,1 million or 2,8% when compared to the previous quarter. This decrease was driven by a seasonal decrease of 1.5% in incoming traffic and to increased promotional minutes offered in the quarter. When compared to 2Q05, net service revenues went down by R\$21.6 million, or 8.2% . 2Q05 revenues is impacted by high volumes of incoming roaming revenues.

Data revenues in the period represented 9.8% of net services revenues in 2Q06, 1.4 p.p. higher than previous quarter levels and 4.6 p.p. higher than 2Q05.

Net equipment revenues for the quarter totaled R\$25.2 million in the quarter, 10.7% lower than the R\$28.3 million recorded in 1Q06. This decrease was due to by lower prices charged this quarter, in view of the promotional campaigns of the period.

As a result, total net revenues were R\$268.1 million for the quarter, 3.7% lower when compared to 1Q06, and 7.0% lower when compared to the same quarter of the previous year.

In 2Q06, handset subsidies for new client acquisitions reached R\$12.1 million or R\$94.1 per gross addition, compared to the R\$10.6 million and R\$95.7 per gross addition recorded in the previous quarter. This increase was driven by promotional campaigns in the period.

Operating costs and expenses

Cost of services for the second quarter of 2006 amounted to R\$60.5 million, 1.1% lower than 1Q06. This reduction is primarily related to the decrease of expenses with Fistel activation taxes as a result of lower net additions in this quarter.

Selling and marketing expenses for the quarter totaled R\$62.8 million, up 4.0% quarter-over-quarter, mainly due to higher expenses with promotions and marketing related to launch of Pra Falar Mais and Pra Falar Fácil promotions and Mother's and Valentine's Day campaigns.

Customer acquisition cost for the second quarter of 2006 increased to R\$171 from the R\$166 in the previous quarter. This increase was driven by higher subsidy levels recorded in the second quarter, due to promotional campaigns in the period.

Retention costs reached 17.7% of net service revenues in 2Q06, posting an increase of 2.3 p.p. when compared to the 1Q06. This increase was due to the intensification of new institutional campaigns (Do jeito que tem que ser) in the quarter.

General and administrative expenses went up by 8.0% when compared to the previous quarter, totaling R\$21.0 million. This raise is explained by the increase in personnel expenses, related to higher severance payment expenditures in the quarter.

Other operating revenues in the amount of R\$18.9 million recorded in 2Q06, refer to the reversal of ICMS provision.

Bad debt in 2Q06 as a percentage of net service revenues reached 5.5% against 4.7% in the previous quarter. When calculated against total net revenues, bad debt reached 4.9% during 2Q06 compared to 4.2% in 1Q06. This increase is related to the credit profile of clients acquired through Christmas campaigns and during part of 1Q06.

Average revenue per user (ARPU)

Postpaid MOU (minutes of use) per user for 2Q06 totaled 179, a 1.7% increase compared to the 176 minutes of the previous quarter. Despite the slight increase of postpaid MOU, average revenue per user decreased by 1.1%, reaching R\$63.3 in the second quarter, against R\$64.0 in 1Q06. The reduction in ARPU is primarily associated with the change from fixed-to-mobile to mobile-to-mobile traffic, higher volumes of promotional discounts and seasonal effects (lower number of working days during April and June - World Cup games).

For the second quarter of the year, prepaid MOU reached 26, remaining at the same level of the previous quarter. As a result, prepaid ARPU also remained stable, around R\$9.5, despite seasonal effects of the period.

As a result, blended ARPU went down from R\$23.3 in 1Q06 to R\$22.5 in 2Q06.

Market share estimated at 34.5% in the quarter

Total market share was estimated at 34.5% in 2Q06. Excluding the *Triângulo Mineiro* region, market share was estimated at 36.6%, compared to 38.9% reported in the previous quarter. Telemig Celular continues to expand its market share in the *Triângulo Mineiro* region at a strong pace. After one year of the start of operations, market share is already estimated at 16.0% .

Total gross sales share for 2Q06 was estimated at 25% against the 29% registered in 1Q06. For the *Triângulo Mineiro* region, gross sales share was estimated at 29%.

EBITDA margin of 37.9% over net service revenues for the quarter

EBITDA and EBITDA margin (excluding handsets revenues) for the first quarter of 2006 reached R\$92.1 million and 37.9%, respectively, compared to the R\$86.6 million and 34.6% registered in the previous quarter.

Depreciation and amortization

In 2Q06, depreciation and amortization expenses reached R\$48.6 million, an increase of 4.3% compared to the R\$46.6 million in the previous quarter.
