## NOTIFICATION OF RELATED-PARTY TRANSACTIONS

**Parties**

**Relationship with the issuer**

**Purpose**

Construtora Norberto Odebrecht S.A. (CNO) and Braskem S.A. (Braskem) Braskem and CNO are both subsidiaries of Odebrecht S.A.

The parties entered into an Alliance Agreement on May 26, 2014, which contains the general conditions for the rendering of engineering, construction and design services and other activities (ACTIVITIES) to be executed by CNO during conservation and maintenance shutdowns, as well as expansions or modifications of industrial units.

The services are contracted through Specific Activity Agreements (TAE's), which are signed for each specific demand.

The TAE's are drafted by an Integrated Project Team formed by representatives from both Parties, which defines the conditions for the execution of each ACTIVITY, which provides for: i) the financial schedule of the activities; ii) the composition of the costs, contingency amounts and price of the activities; iii) the responsibilities matrix of the activities; iv) the work instructions related to the activities; v) the assumptions used to determine the costs, prices and completion dates of the activities; vi) the guaranties and responsibilities related to the activities, as well as any other specifications and details related to the execution of the ACTIVITIES.

The amount of each TAE includes all costs to be incurred with the performance of the services to be rendered by CNO, including any costs with third parties that may be contracted to provide materials and services, as well as CNO's remuneration, which must be the subject-matter of a rendering of accounts at the end of each agreement. CNO's remuneration for the execution of the TAE's under the Alliance Agreement is limited to R\$121 million. Such remuneration is calculated as a percentage of the value of the agreement, in accordance with the type of service to be rendered and the payment of a bonus or discount due to penalties that may be determined between the Final Price and the Target-Price.

Based on this system, the total contracted value based on the Alliance Agreement resulting from the sum of the set of TAE's is determined only at the end of the term of the Alliance Agreement. If the ceiling of CNO's remuneration mentioned above is reached before the end of the Alliance Agreement, a new contract must be negotiated between the parties. The scope of the TAE entered into in November is detailed in the following item (Main terms and conditions).

**Main terms and conditions**

**TAE 49:**

Scope: Construction, Assembly and Commissioning of the PVC and Chlor-Alkali plants in Alagoas, including supply of equipment by CNO.

Duration: from Mar. 9, 2016 to Sep. 30, 2016, extended through Feb. 28, 2017 (TAE 49 Amendment).

Price of TAE 49: three million and nine hundred thousand reais (R\$3,900,000.00).

**TAE 55:**

Scope: Services to recover the sides of the coal silos at UNIB 4 RS.

Duration: from Nov. 14, 2016 to Mar. 30, 2018.

Total Price of TAE 55: one million, nine hundred fifty thousand and thirteen reais and eighty-seven centavos (R\$1,950,013.87).

**TAE 61:**

Scope: Ethane Tank Retrofitting Services (27-TQ2101 A) and other equipment and lines comprising the storage and transfer system at TEGAL.

Duration: from Nov. 22, 2016 to Mar. 30, 2018.

Total Price of TAE 61: fifteen million, sixty-five thousand and four hundred ninety-six reais and eighteen centavos (R\$15,065,496.18).

**TAE 62:**

Scope: Construction, Assembly and Commissioning of the Gas Burner at TEGAL, including supply of the equipment.

Duration: from Dec. 1, 2016 to Jul. 31, 2017.

Total Price of TAE 62: five million, fourteen thousand, nine hundred and eight reais and fifty-eight centavos (R\$5,014,908.58).

The main terms and conditions under said Alliance Agreement were approved in PD.CA/BAK-03/2014, during a meeting of the Board of Directors of Braskem held on May 7, 2014.

Execution of the Amendment to TAE 49: Nov. 5, 2016 (TAE 49 was entered into on Mar. 1, 2016)

**Execution date of TAE's**

Execution of TAE 55: Nov. 1, 2016

Execution of TAE 61: Nov. 11, 2016

Execution of TAE 62: Nov. 18, 2016

**Any participation by the counterparty, its partners or managers in the issuer's decision-making process or in the negotiation of the transaction as representatives of the issuer**

The Alliance Agreement, which provides for the execution of the TAE's, was considered and voted on by the Board of Directors of Braskem S.A., whose composition includes three members (one sitting and two alternate members) in common with the Board of Directors of CNO. However, such managers did not participate in the negotiation of the transaction as representatives of the issuer.

**Detailed justification of the reasons why the management of the issuer believes the transaction was carried out on an arm's length basis or involves adequate compensatory payment**

The commercial conditions established by said TAE were based on industry standards, considering the volumes contracted and technical conditions. Braskem conducted a comparative analysis of its routine agreements, maintenance shutdown agreements and market proposals, in particular, an analysis of labor costs, charges, contractual management fees and profit, and the CNO proposal was deemed technically and commercially competitive. Furthermore, the execution of the Services require compliance with rigorous cost and deadline targets, as well as with high quality and productivity technical standards, including rigorous compliance with environmental, health and safety standards, and CNO fulfilled all requirements. CNO holds long experience in executing the Services under other previous alliance agreements, with its performance reviews always very positive.

The decision-making process involved an analysis and negotiation of the proposal prepared by CNO by the respective Executive Officers of Braskem.

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

### **FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
