Item 1.01 Entry into a Material Definitive Agreement.

See Item 2.03 below.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On March 24, 2006 the Company executed a commitment letter for a \$700 million secured credit facility (the "New Credit Facility") from National City Bank and Credit Suisse. The New Credit Facility provides for a five-year, \$300 million multi-currency senior revolving credit facility and a six-year, \$400 million term loan facility. The new revolving credit facility will be used for working capital and general corporate purposes and the term loans, if drawn, will be used to refinance the Company's existing indebtedness.

The New Credit Facility will replace the Company's existing revolving credit facility which was due to expire in September 2006. The Company obtained a waiver from the lenders in its existing revolving credit facility to extend reporting requirements for up to 90 days for the 2004 period and to the expiration of the facility for the periods 2005 and 2006. The extension will give the Company time to put the New Credit Facility in place. In addition, the Company indicated it expects to continue its current asset securitization program.

The revolving credit facility will bear interest at a rate equal to, at the Company's option, either (1) LIBOR or (2) the Alternate Base Rate ("ABR") which is the higher of the Prime Rate and the Federal Funds Effective Rate plus 0.5%; plus, in each case, applicable margins based on the Company's index debt rating. The New Credit Facility will be secured by substantially all of the Company's assets, including the stock of 65% of the Company's material foreign subsidiaries and the stock and assets of material domestic subsidiaries, excluding trade receivables and related collateral sold pursuant to the Company's accounts receivable securitization program and certain inventory subject to its metals consignments. The New Credit Facility will contain certain operating covenants, the details of which are subject to negotiation, and customary financial covenants, including a leverage ratio and a fixed charge coverage ratio.

The New Credit Facility is subject to, among other conditions, the negotiation, execution and delivery of definitive documentation with respect to the New Credit Facility; completion of lender's due diligence procedures; the absence of a disruption or adverse change in the financial, banking or capital markets; the nonoccurrence of events that have a material adverse effect on the Company's business (for such purposes, the restatement of the Company's financial statements or the NYSE's delisting of the Company's common shares will not be considered a material adverse effect); and compliance with certain financial measures at the closing date.

Item 7.01 Regulation FD Disclosure.

On March 30, 2006 the Company issued a press release announcing the financing commitments. A copy of the press release is attached hereto as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.

Exhibit 10.1: Ferro Corporation Senior Credit Facilities Commitment Letter

Exhibit 99.1: Press Release
