Forward-Looking Statements

This Current Report on Form 8-K (including Exhibit 99.1) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The statements regarding Arbitron Inc. and its subsidiaries in this document that are not historical in nature, particularly those that utilize terminology such as "may," "will," "should," "likely," "expects," "anticipates," "estimates," "believes," or "plans," or comparable terminology, are forward-looking statements based on current expectations about future events, which we have derived from information currently available to us. These forward-looking statements involve known and unknown risks and

uncertainties that may cause our results to be materially different from results implied in such forward-looking statements. These risks and uncertainties include, in no particular order, whether we will be able to:

- absorb costs related to legal proceedings and governmental entity interactions and avoid related fines, limitations, or conditions on our business activities;
- successfully implement the commercialization of our Portable People Meter™ service;
- successfully respond to competition and maintain and promote industry usage of our services, a critical mass of broadcaster encoding, and the proper understanding of our audience measurement services and methodology in light of governmental regulation, legislation, litigation, activism or adverse public relations efforts;
- successfully design, recruit and maintain PPM panels that appropriately balance research quality, panel size and operational cost;
- complete the Media Rating Council ("MRC") audits of our local market PPM ratings services in a timely manner and successfully obtain and/or maintain MRC accreditation for our audience measurement business;
- renew contracts with key customers ;
- successfully execute our business strategies, including entering into potential acquisition, joint-venture or other material third-party agreements;
- effectively manage the impact, if any, of any further ownership shifts in the radio and advertising agency industries;
- respond to rapidly changing technological needs of our customer base, including creating new proprietary software systems and new customer products and services that meet these needs in a timely manner;
- successfully manage the impact on our business of any economic downturn, generally, and in the advertising market, in particular;
- successfully manage the impact on costs of data collection due to lower respondent cooperation in surveys, privacy concerns, consumer trends, technology changes and/or government regulations; and
- successfully develop and implement technology solutions to measure new forms of audio content and delivery, multimedia and advertising in an increasingly competitive environment.

There are a number of additional important factors that could cause actual events or our actual results to differ materially from those indicated by such forward-looking statements, including, without limitation, the risk factors set forth in the caption "ITEM 1A. — RISK FACTORS" in our Annual Report on Form 10-K for the year ended December 31, 2007, our Quarterly Report on Form 10-Q for the period ended September 30, 2008, and elsewhere, and any subsequent periodic or current reports filed by us with the Securities and Exchange Commission.

In addition, any forward-looking statements contained in this document represent our estimates only as of the date hereof, and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.
