ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
 OF 1934

For the fiscal year ended December 31, 2015

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
 OF 1934

For the transition period from _____ to _____
 Commission file number 001-32426

WEX INC.
 (Exact name of registrant as specified in its charter)
 Delaware 01-0526993
 (State or other jurisdiction of (I.R.S. Employer
 incorporation or organization) Identification No.)

97 Darling Avenue 04106
 South Portland, Maine
 (Address of principal executive offices) (Zip Code)
 (207) 773-8171

(Registrant's telephone number, including area code)
 Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$0.01 par value	New York Stock Exchange
Securities registered pursuant to Section 12(g) of the Act:	
None	
(Title of class)	

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
 Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
 Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to

submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant (assuming for the purpose of this calculation, but without conceding, that all directors, officers and any 10 percent or greater stockholders are affiliates of the registrant) as of June 30, 2015, the last business day of the registrant's most recently completed second fiscal quarter, was \$4,347,908 (based on the closing price of the registrant's common stock on that date as reported on the New York Stock Exchange).

There were 38,644,041 shares of the registrant's common stock outstanding as of February 24, 2016.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Company's Proxy Statement for the 2016 Annual Meeting of Stockholders are incorporated by reference in Part III. With the exception of the sections of the 2016 Proxy Statement specifically incorporated herein by reference, the 2016 Proxy Statement is not deemed to be filed as part of the 10-K.

Table of Contents

Unless otherwise indicated or required by the context, the terms “we,” “us,” “our,” “WEX,” or the “Company,” in this Annual Report on Form 10-K mean WEX Inc. and all of its subsidiaries that are consolidated under Generally Accepted Accounting Principles.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for statements that are forward-looking and are not statements of historical facts. This Annual Report includes forward-looking statements including, but not limited to, statements about management’s plan and goals, and the “Strategy” section of this Annual Report in Item 1. Any statements in this Annual Report that are not statements of historical facts are forward-looking statements. When used in this Annual Report, the words “may,” “could,” “anticipate,” “plan,” “continue,” “project,” “intend,” “estimate,” “believe” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words. Forward-looking statements relate to our future plans, objectives, expectations and intentions and are not historical facts and accordingly involve known and unknown risks and uncertainties and other factors that may cause the actual results or performance to be materially different from future results or performance expressed or implied by these forward-looking statements. The following factors, among others, could cause actual results to differ materially from those contained in forward-looking statements made in this Annual Report and in oral statements made by our authorized officers: the effects of general economic conditions on fueling patterns as well as payment and transaction processing activity; the impact of foreign currency exchange rates on the Company’s operations, revenue and income; changes in interest rates; the impact of fluctuations in fuel prices; the effects of the Company’s business expansion and acquisition efforts; the Company’s failure to successfully integrate the businesses it has acquired or plans to acquire; the Company’s failure to successfully operate and expand ExxonMobil’s European commercial fuel card program, or Esso Card; the failure of corporate investments to result in anticipated strategic value; the impact and size of credit losses; the impact of changes to the Company’s credit standards; breaches of the Company’s technology systems and any resulting negative impact on our reputation, liabilities or relationships with customers or merchants; the Company’s failure to maintain or renew key agreements; failure to expand the Company’s technological capabilities and service offerings as rapidly as the Company’s competitors; the actions of regulatory bodies, including banking and securities regulators, or possible changes in banking or financial regulations impacting the Company’s industrial bank, the Company as the corporate parent or other subsidiaries or affiliates; the impact of the Company’s outstanding notes on its operations; the impact of increased leverage on the Company’s operations, results or capacity generally, and as a result of potential acquisitions specifically; financial loss if the Company determines it necessary to unwind its derivative instrument position prior to the expiration of a contract; the incurrence of impairment charges if our assessment of the fair value of certain of our reporting units changes; the uncertainties of litigation; as well as other risks and uncertainties identified in Item 1A of this Annual Report and in connection with such forward-looking statements. Our forward-looking statements and these factors do not reflect the potential future impact of any alliance, merger, acquisition, disposition or stock repurchases. The forward-looking statements speak only as of the date of the initial filing of this Annual Report and undue reliance should not be placed on these statements. We disclaim any obligation to update any forward-looking statements as a result of new information, future events or otherwise.

PART I

ITEM 1. BUSINESS

Our Company

WEX Inc. is a leading provider of corporate payment solutions. WEX Inc. began operations in 1983 as a Maine corporation and was acquired in February 1996 by an entity that subsequently merged with HFS Incorporated to form Cendant Corporation in December 1997. In June 1999, our predecessor, Wright Express, was sold to Avis Group Holdings, Inc., which was acquired by Cendant Corporation in March 2001. In anticipation of our initial public offering, the Company’s operations were transferred to a Delaware LLC, which was converted into a Delaware corporation in 2005 in conjunction with our initial public offering. Over the past 30 years, we have expanded the scope of our business from a fleet payment provider into a multi-channel provider of corporate payment solutions. WEX Inc. has been publicly traded since February 16, 2005 (NYSE:WEX) and beginning in the fourth quarter of 2015, operates in three business segments: Fleet Solutions, Travel and Corporate Solutions and Health and Employee

Benefit Solutions. Previously, the Company had reported two business segments, Fleet Payment Solutions and Other Payment Solutions. Fleet Solutions remains on the same basis as the historical Fleet Payment Solutions business segment. Travel and Corporate Solutions includes the Travel business as well as other verticals. Health and Employee Benefit Solutions includes the Healthcare and Employee related businesses. This change will enhance the Company's transparency and align our reporting with how we now operate our business. Financial reporting under this new structure is included within this report on Form 10-K and historical financial segment information has been recast to conform to this new presentation.

Table of Contents

Our business model enables us to provide exceptional payment security and control across a wide spectrum of payment sectors. The Fleet Solutions segment provides customers with fleet vehicle payment processing services specifically designed for the needs of commercial and government fleets. During the year ended December 31, 2015, Fleet Solutions revenue represented approximately 63 percent of our total revenue. As of December 31, 2015, the Fleet Solutions segment services over 9.4 million vehicles. Management estimates that WEX fleet cards are accepted at over 90 percent of fuel locations in each of the United States and Australia. With the acquisition of ExxonMobil's European commercial fleet card portfolio ("Esso portfolio in Europe") in December 2014, WEX fleet cards are now accepted at all ExxonMobil stations throughout Europe. The Travel and Corporate Solutions segment focuses on the complex payment environment of business-to-business payments, providing customers with payment processing solutions for their corporate payment and transaction monitoring needs. Travel and Corporate Solutions revenue, which represented approximately 23 percent of our total revenue during the year ended December 31, 2015, is generated primarily in the online travel market. The Travel and Corporate Solutions segment has operations in North America, Europe, South America and Asia-Pacific. The Health and Employee Benefit Solutions segment, which represented approximately 14 percent of our total revenue during the year ended December 31, 2015, is generated primarily from the healthcare payment products and our software as a service ("SaaS") consumer directed platform. The Health and Employee Benefit Solutions segment also provides payroll related benefits to customers in Brazil. The Company's U.S. operations include WEX Inc. and our wholly-owned subsidiaries WEX Bank, WEX FleetOne, Evolution1 and Benaissance. Our international operations include our wholly-owned subsidiaries, WEX Fuel Cards Australia, WEX Prepaid Cards Australia, WEX New Zealand, WEX Europe Limited, formerly CorporatePay Limited, UNIK S.A., a Brazil-based company, and a majority equity position in WEX Europe Services Limited and its subsidiaries.

Prior to our initial public offering in 2005, the Company's growth had primarily been organic. Our growth in the past several years has been supplemented by acquisitions. Our acquisitions over the last few years include:

On November 18, 2015, our wholly-owned subsidiary Evolution1 acquired Benaissance, a leading provider of integrated SaaS technologies and services for healthcare premium billing, payment and workflow management, to complement our healthcare payments products and services.

On August 31, 2015, we acquired the remaining 49 percent ownership in UNIK S.A., a majority-owned subsidiary prior to this transaction.

- On December 1, 2014, our majority owned subsidiary, WEX Europe Services Limited, acquired the assets of ExxonMobil's European commercial fuel card program, which includes operations, funding, pricing, sales and marketing in nine countries in Europe.

On July 16, 2014, we acquired Evolution1, a leading provider of payment solutions within the healthcare industry.

On October 15, 2013, our subsidiary UNIK S.A. acquired FastCred, a provider of fleet cards to the heavy truck or over-the-road segment of the fleet market in Brazil.

On October 4, 2012, we acquired FleetOne, a provider of fleet cards and fleet-related payment solutions to the over-the-road segment of the fleet market.

On August 30, 2012, we acquired a 51 percent controlling interest in UNIK S.A., a provider of payroll cards, private label and processing services in Brazil, specializing in the retail, government and transportation sectors.

On May 11, 2012, we acquired CorporatePay Limited, located in London, England, a provider of corporate prepaid solutions to the travel industry in the United Kingdom. CorporatePay offers direct, co-branded and private label solutions including virtual cards, currency cards and expense management solutions.

In addition to the transactions described above, on October 18, 2015, we entered into a purchase agreement to acquire Electronic Funds Source LLC ("EFS"), a provider of customized corporate payment solutions for fleet and corporate customers with a focus on the large and mid-sized fleet segments. Pursuant to the purchase agreement, and subject to the terms and conditions contained therein, at the closing of this acquisition, the Company will acquire all of the outstanding membership interests of WP Mustang Topco LLC, the indirect parent of EFS, and Warburg Pincus Private Equity XI (Lexington), LLC, an affiliated entity, from investment funds affiliated with Warburg Pincus LLC (the "EFS Sellers") for an aggregate purchase price comprised of \$1.1 billion in cash and 4,011,672 shares of the

Company's common stock, subject to certain working capital and other adjustments as described in the purchase agreement. The parties' obligations to consummate the acquisition are subject to customary closing conditions, including the expiration or termination of the applicable antitrust waiting period under the Hart-Scott Rodino Antitrust Improvements Act of 1976, as amended.

On July 29, 2014, we sold our Pacific Pride subsidiary for \$49.7 million, which resulted in a pre-tax book gain of \$27.5 million. The Company decided to sell the operations of Pacific Pride as it did not align with the long-term strategy of the core

Table of Contents

fleet business. The Company has entered into a multi-year agreement with the buyer that will continue to allow WEX branded card acceptance at Pacific Pride locations.

On January 7, 2015, we sold the operations of rapid! PayCard for \$20.0 million, which resulted in a pre-tax book gain of \$1.2 million. Our primary focus in the U.S. continues to be in the fleet, travel, and healthcare industries. As such, we divested the operations of rapid! PayCard, which were not material to our annual revenue, net income or earnings per share.

WEX Bank, a Utah industrial bank incorporated in 1998, is a Federal Deposit Insurance Corporation (“FDIC”) insured depository institution. The functions performed at WEX Bank contribute to the operations of the Fleet Solutions and Travel and Corporate Solutions segments by providing a funding mechanism, among other services. With our ownership of WEX Bank, we have access to low-cost sources of capital. WEX Bank raises capital primarily through the issuance of brokered deposit accounts and provides the financing and makes credit decisions that enable the Fleet Solutions and Travel and Corporate Solutions segments to extend credit to customers. WEX Bank approves customer applications, maintains appropriate credit lines for each customer, is the account issuer, and is the counterparty for the customer relationships for most of our programs. Operations such as sales, marketing, merchant relations, customer service, software development and IT are performed as a service within our organization but outside of WEX Bank. WEX Bank’s primary regulators are the Utah Department of Financial Institutions and the FDIC. WEX Bank is required to maintain elements of independence from the rest of our business to comply with its charter and applicable banking regulations, and is required to file separate financial statements with the FDIC. The activities performed by WEX Bank are integrated into the operations of our Fleet Solutions and Travel and Corporate Solutions segments.

Competitive Strengths

We believe the following strengths distinguish us from our competitors:

Our closed-loop fuel networks in the U.S. and Australia are among the largest in each country. We describe our fleet payment processing networks as “closed-loop” as we have a direct contractual relationship with both the merchant and the fleet, and only WEX transactions can be processed on these networks. We have built networks that management estimates to provide coverage to over 90 percent of fuel locations in the U.S. and Australia, as well as wide acceptance in Canada and Brazil. This provides our customers with the convenience of broad acceptance.

Our proprietary closed-loop fuel networks provide us with access to a higher level of fleet-specific information and control as compared to what is typically available on an open-loop network. This allows us to improve purchase controls at the point of sale and to refine the information reporting we provide to our fleet customers and customers of our strategic relationships.

Our proprietary closed-loop network is a competitive strength because it enables us to establish a direct relationship with each of the merchants that comprise our network.

We offer a differentiated set of products and services, including security and purchase controls, to allow our customers and the customers of our strategic relationships to better manage their vehicle fleets. We provide customized analysis and reporting on the efficiency of fleet vehicles and the purchasing behavior of fleet vehicle drivers. We make this data available to fleet customers through both traditional reporting services and sophisticated web-based data analysis tools.

Our proprietary software facilitates the collection of information and provides us with a high level of control and flexibility in allowing fleets to restrict purchases and receive automated alerts.

Our long-standing strategic relationships, multi-year contracts and high contract renewal rates have contributed to the stability and recurring nature of our revenue base. We believe that we offer a compelling value to our customers relative to our competitors given the breadth and quality of our products and services and our deep understanding of our customers’ operational needs. We have a large installed customer base, with more than 9.4 million vehicles serviced as of December 31, 2015 and co-branded strategic relationships with six of the largest U.S. fleet management providers and with numerous oil companies that use our private label solutions. Our wide site acceptance, together with our private-label portfolios and value-added product and service offerings, drive high customer satisfaction levels, with a U.S. fleet retention rate in excess of 97 percent (based on the 2015 rate of voluntary customer attrition).

Our capabilities in the over-the-road segment of the market enhance our ability to serve fleet customers who operate both heavy duty trucks and cars or light duty vehicles in the U.S. and Canada as well as to blend the small fleet and private label businesses for greater scale.

3

Table of Contents

- Our purchase of ExxonMobil's commercial fuel card program which uses a closed-loop network in Europe, combined with the long term supply agreement to serve the current and future Esso portfolio in Europe, provides us with a strong foundation in the large European fleet market.

Our travel and corporate payment products offer corporate customers enhanced security and control for complex payment needs. Our strategic relationships include three of the largest U.S. based online travel agencies, and our operations in the United Kingdom provide corporate payment solutions to the travel and healthcare industries. We continue to expand our online travel payment solution capabilities and geographies, which currently include North America, Europe, South America and Asia-Pacific. As of December 31, 2015, we settle transactions in 21 different currencies.

The demand for our payment processing, account servicing and transaction processing services combined with significant operating scale has historically driven strong revenue growth and earnings potential. We have an extensive history of organic revenue growth driven by our various marketing channels, our extensive network of fuel and service providers, and our growth in transaction volume. Further, we have completed a number of strategic acquisitions to expand our product and service offerings, which have contributed to our revenue growth and diversification.

We have an enterprise-wide risk management program that helps us to effectively address inherent risks related to funding and liquidity, our extension of credit and interest rates. Our ownership of WEX Bank provides us with access to low cost sources of capital, which provide liquidity to fund our short-term card receivables. We have maintained a long record of low credit losses due to the short-term, non-revolving credit issued to our customer base. Our credit risk management program is enhanced by our proprietary scoring models, managing credit lines and early suspension policy. Interest rate risk is managed through diversified funding sources at WEX Bank with significant non-interest bearing liabilities and merchant contracts that include some ability to raise rates if interest rates rise.

We have become a leading provider of cloud-based healthcare payments technology through the acquisitions of Evolution1 in 2014 and Benaissance in 2015. Our large partner network expands our opportunities in a growing healthcare payments market.

We have an experienced and committed management team that has substantial industry knowledge and a proven track record of financial success. The team has been successful in driving strong growth with consistent operating performance. We believe that our management team positions us well to continue successfully implementing our growth strategy and capture operating efficiencies.

Strategy

Our Company's path forward will be shaped by the following three strategic priorities:

Accelerating growth in our core verticals. We have built a robust set of products and services within our Fleet, Travel, and Health verticals. We will continue to grow our business organically in these core verticals through excellence in our marketing and sales force as well a focus on our revenue management practices. Our acquisition strategy will complement our organic growth by both enhancing scale and adding differentiation to our current offerings.

Capturing efficiencies and new scaling opportunities across the organization. We will build new product functionality while rationalizing our technology platforms to enable us to deliver greater customer value and enhanced margins. We are also focused on streamlining our delivery model to ensure we have the flexibility to meet a diversity of customer needs as well as efficiently integrate our acquisitions.

Develop and drive market leading offerings globally. Within our Fleet, Travel, and Health verticals, we are focusing on rapidly growing our presence in attractive geographies and enhancing our product suite. Revenue originated from non-US markets increased to 19% of 2015 total revenue, driven largely by our successful entry into Europe and Brazil. We will continue to target new regions such as Asia, where we see the potential for long-term growth. We are also focused on innovating with new products such as data analytics, which harness the power of our proprietary closed loop data network in our Fleet vertical.

Table of Contents

FLEET SOLUTIONS SEGMENT

Overview

The Fleet Solutions segment provides customers with fleet vehicle payment processing services specifically designed for the needs of commercial and government fleets. We are a leading provider of fleet vehicle payment processing services with over 9.4 million vehicles at year end using our fleet payment solutions to purchase fuel and maintenance services. Our competitive advantages in the fleet market include brand strength and product offerings, commitment to customer satisfaction and a unique financing model with attractive credit terms. Our fleet products are based upon proprietary technology with closed-loop networks in the U.S., Australia and Europe, and wide site acceptance domestically and abroad.

As part of our value proposition, we deliver security through individualized driver identification and real-time transaction updates, purchase controls and sophisticated reporting tools. We collect a broad array of information at the point of sale, including the amount of the expenditure, the identity of the driver and vehicle, the odometer reading, the identity of the fuel or vehicle maintenance provider and the items purchased. We use this information to provide customers with analytical tools to help them effectively manage their vehicle fleets and control costs. We deliver value to our customers by providing customized offerings for accepting merchants, processing payments and providing information management products and services to fleets.

Our proprietary closed-loop networks allow us to provide our customers with highly detailed, fleet-specific information and customized controls that are not typically available on open-loop networks, such as limiting purchases to fuel only and restricting the time of day and day of the week when fuel is purchased. Our network also enables us to avoid dependence on third-party processors. In addition, our relationships with both fleets and merchants enable us to provide security and controls and provide customizable reporting.

The following illustrates our proprietary closed-loop network:

Payment processing transactions represent a majority of the revenue stream in the Fleet Solutions segment. In a payment processing transaction, we extend short-term credit to the fleet customer and pay the purchase price for the fleet customer's transaction, less the payment processing fees we retain, to the merchant. Revenue from our WEX Europe Services operations is primarily generated by transactions where our revenue is derived from the difference between the negotiated price of the fuel from the supplier and the price charged to the fleet customer. We collect the total purchase price from the fleet customer, normally within 30 days from the billing date.

Table of Contents

The following illustration depicts our business process for a typical domestic fuel payment processing transaction:

Products and Services

Payment processing fees are based on a percentage of the aggregate dollar amount of the customer's purchase, a fixed amount per transaction or a combination of both. Additionally, payment processing revenue related to our WEX Europe Services operations is specifically derived from the difference between the negotiated price of the fuel from the supplier and the agreed upon price paid by the fleets. In 2015, we processed approximately 343 million payment processing transactions, compared to 311 million payment processing transactions in 2014. Additionally, we receive revenue from account servicing fees, factoring receivables and finance fees.

We offer the following services:

Customer service, account activation and account retention: We offer customer service, account activation and account retention services to fleets and fleet management companies and the fuel and vehicle maintenance providers on our network. Our services include promoting the adoption and use of our products and programs and account retention programs on behalf of our customers and partners.

Authorization and billing inquiries and account maintenance: We handle authorization and billing questions, account changes and other issues for fleets through our dedicated customer contact centers, which are available 24 hours a day, seven days a week. Fleet customers also have self-service options available to them through our websites.

Premium fleet services: We assign designated account managers to businesses and government agencies with large fleets. These representatives have in-depth knowledge of both our programs and the operations and objectives of the fleets they service.

Credit and collections services: We have developed proprietary account approval, credit management and fraud detection programs. Our underwriting model produces a proprietary score, which we use to predict the likelihood of an account becoming delinquent within 12 months of activation. We also use a credit maintenance model to manage ongoing accounts, which helps us to predict the likelihood of account delinquency over an ongoing 18-month time horizon. We have developed a collections scoring model that we use to rank and prioritize past due accounts for collection activities. We also employ fraud specialists who monitor accounts, alert customers and provide case management expertise to minimize losses and reduce program abuse.

Table of Contents

Merchant services: Our representatives work with fuel and vehicle maintenance providers to enroll these providers in our network, test all network and terminal software and hardware, and to provide training on our sale, transaction authorization and settlement processes.

Information Management

We provide standard and customized information to customers through monthly vehicle analysis reports, custom reports and our websites. We also alert customers of unusual transactions or transactions that fall outside of pre-established parameters. Customers, through our website, can access their account information, including account history and recent transactions, and download the related details. In addition, fleet managers can elect to be notified by email when limits are exceeded in specified purchase categories, including limits on transactions within a time range and gallons per day.

Marketing Channels

We market our fleet products and services directly to commercial and government vehicle fleet customers with small, medium and large fleets, and over-the-road, long haul fleets. Our product suite includes payment processing and transaction processing services, WEX branded fleet cards in North America and Motorpass/Motorcharge-branded fleet cards in Australia. Our direct line of business services approximately 3.8 million vehicles.

We also market our products and services indirectly through co-branded and private label relationships. With a co-branded relationship product, we market our products and services for, and in collaboration with, both fuel providers and fleet management companies using their brand names and our logo on a co-branded fleet card. These companies seek to offer our payment processing and information management services as a component of their total offering to their fleet customers. Our co-branded marketing channel services approximately 1.8 million vehicles. Our private label programs market our product and services for, and in collaboration with, fuel retailers, using only their brand names. The fuel retailers with which we have formed strategic relationships offer our payment processing and information management products and services to their fleet customers in order to establish and enhance customer loyalty. These fleets use these products and services to purchase fuel at locations of the fuel retailer with whom we have the private label relationship. Our private label marketing channel services approximately 3.8 million vehicles.

Fuel Price Derivatives

Management estimates that approximately 25 percent of our company-wide revenue in 2015 resulted from fees paid to us by fuel providers based on a negotiated percentage of the purchase price of fuel purchased by our customers. Accordingly, this revenue is impacted by fuel prices. To address fluctuations in fuel prices, we have previously hedged a portion of our U.S. fuel-price related earnings exposure to improve the management of potential cash flow volatility created by changes in U.S. fuel prices and to enhance the visibility and predictability of our anticipated future cash flows.

During the fourth quarter of 2014 we suspended purchases under our fuel derivatives program due to unusually low prices in the commodities market. We continue to hold fuel price derivative instruments for the first quarter of 2016 that were executed in the third quarter of 2014 for approximately 20 percent of the anticipated quarterly exposure to domestic earnings based on assumptions at time of purchase. After the first quarter of 2016, we will no longer be hedged for changes in fuel prices. Management will continue to monitor the fuel price market and evaluate our alternatives as it relates to this hedging program.

Our fuel price derivative instruments are in the form of put and call option contracts with monthly settlement provisions that create a “costless collar” based upon both the U.S. Department of Energy’s weekly diesel fuel price index and the NYMEX unleaded gasoline contracts. When entering into these options, our intent was to effectively lock in a range of prices during any given quarter on a portion of our U.S. forecasted earnings that are subject to fuel price variations. Differences between the indices underlying the options and actual retail prices could create a disparity between the effects of price changes on the actual revenues we earn and the gains or losses realized on the options. Our derivative instruments do not qualify for hedge accounting under accounting guidance. Accordingly, gains and losses on our fuel price-sensitive derivative instruments, whether they are realized or unrealized, affect our current period earnings.

Table of Contents

The options are intended to limit the impact fuel price fluctuations have on our cash flows. The options that we have entered into:

Create a floor price. When the current month put option contract settles, we receive cash payments from the counterparties if the average price for the current month (as defined by the option contract) is below the strike price of the put option.

Create a ceiling price. When the current month call option contract settles, we make cash payments to the counterparties if the average price for the current month (as defined by the option contract) is above the strike price of the call option.

When the current month put and call option contracts settle and the average price for the current month (as defined by the option contract) is between the strike price of the put option contract and the strike price of the call option contract, no cash is exchanged between the counterparties and us.

The following table presents information about the options as of December 31, 2015. The approximate percentage of hedged fuel price-sensitive earnings exposure is based on assumptions at time of purchase and includes the earnings from our U.S. operations only.

	Q1
	2016
Average low end of range of fuel prices per gallon	\$3.28
Average top end of range of fuel prices per gallon	\$3.34
Approximate % of exposure locked in	20%

TRAVEL AND CORPORATE SOLUTIONS SEGMENT

Overview

Our Travel and Corporate Solutions segment is comprised of our virtual and prepaid products with which we provide innovative corporate purchasing and payment capabilities that can be integrated with our customers' internal systems to streamline their corporate payments, accounts payable and reconciliation processes.

Products and Services

The Travel and Corporate Solutions segment allows businesses to centralize purchasing, simplify complex supply chain processes and eliminate the paper check writing associated with traditional purchase order programs. Our product suite includes virtual and prepaid products.

Our virtual card is used for transactions where no card is presented, including, for example, transactions conducted over the telephone, by mail, by fax or on the Internet. Our virtual card also can be used for transactions that require pre-authorization, such as hotel reservations. Under our virtual card programs, each transaction is assigned a unique account number with a customized credit limit and expiration date. These controls are in place to limit fraud and unauthorized spending. The unique account number limits purchase amounts and tracks, settles and reconciles purchases more easily, creating efficiencies and cost savings for our customers. The virtual card products offer both credit and debit options.

Our prepaid and gift card products are offered through WEX Prepaid Card Australia and WEX Europe Services to companies throughout Australia and Europe. These products provide secure payment and financial management solutions with single card options, access to open or closed loop redemption, load limits and variable expirations.

Table of Contents

The following illustration depicts our business process for a typical travel virtual card product transaction:
®, a popular line of children's software programs involving interactive adventures with biblical themes.

Although our prices are subject to change from time to time, our children's CD-Rom products range in price from \$5.95 to \$22.98 per unit. In the aggregate, and for the fiscal year ended December 31, 2004, less than 1% of our revenues were derived from sales of these products.

-6-

Table of Contents

Language Tutorial Products

We currently produce tutorial software programs for learning Greek and Hebrew, languages frequently studied in conjunction with a Bible-study curriculum or by biblical scholars. Each of these two programs covers all of the essential language development skills, including letters, vocabulary and grammar. Although our prices are subject to change from time to time, our language tutorial products range in price from approximately \$10.00 to approximately \$69.95 per unit. In the aggregate, and for the fiscal year ended December 31, 2004, 3% of our revenues were derived from sales of these products.

Other Products

In addition to our own software products, we resell certain titles and title versions that we purchase at a discount and that are published by others, including IMSI®, Veggie Tales, and Webroot®. These are non-exclusive, purchase-order only type arrangements in connection with which we carry only limited inventory. Sales from these titles are derived exclusively online through our Website and, apart from on our Website, we do not promote these products. Although prices are subject to change from time to time, these software products range in price from approximately \$5.99 to approximately \$39.99 per unit. In the aggregate, and for the fiscal year ended December 31, 2004, 2% of our revenues were derived from sales of these products.

OUR MARKET

According to a Gallup poll released in March 2004, 49.4% of Americans identified themselves as Protestant, while 23.7% identified themselves as Catholic, and 9.1% identified themselves as “Other Christian”. According to the same survey, more than 60% of Americans say that religion is very important to them in their own lives, and another 24% say that religion is fairly important in their lives.

A survey released in July 2003 by the Christian Bookseller’s Association (“CBA”) indicated that Christian-product sales for the year 2002 were \$4.2 billion. The survey also revealed that \$2.4 billion of the \$4.2 billion total was sold through Christian retail, with \$1.1 billion sold through general retail, and \$725 million sold direct-to-consumer, and through ministry sales channels. The 3,500-store CBA segment includes several different chains, Family Christian Stores being the largest with 325 stores. As faith-based retailing increases, secular stores are offering more faith-based products as evidenced by the \$1.1 billion sales figure in 2002 as reported by the CBA. It is this faith-based demographic that we seek to target.

MARKETING AND ADVERTISING

In developing a marketing strategy for our consumer software products, we seek brands or titles and title versions that we believe will appeal to the interests of our target consumers. We strive to create marketing campaigns which are consistent with this strategy and generally market our software through:

- Our Website (www.quickverse.com) and the Internet sites of others;
- Print advertising;
- Opt-in e-mail campaigns;
- Product sampling through demonstration software;
- In-store promotions, displays and retailer assisted co-operative advertising;
- Publicity activities; and
- Trade shows.

Table of Contents

SALES

Direct Marketing / Online Sales

Direct sales accounted for approximately 65% of our 2004 fiscal year revenue. Over the past two years, we have devoted significant and increasing resources to the development of our direct-marketing program. Through this program, we market our products directly to consumers and Church and “para-church” organizations through a combination of direct-mailings and opt-in e-mailings of our product title catalogs and brochures. An important aspect of this initiative is our online sales. In May of 2004, we launched a full-service online store with many of the kinds of features and capabilities that online shoppers have come to expect from cutting-edge Internet retailers. We are currently marketing our products online through multiple sources including our own www.quickverse.com Internet Website, other Internet Websites such as www.amazon.com, as well as several widely used search engines such as Google® and Yahoo®. While we market our products through these other Internet Websites and search engines, we are not substantially dependent upon these marketing relationships and have no written agreements with any one or more of them. The revenue generated from these Internet Websites and search engines, excluding our own www.quickverse.com Internet Website, accounted for less than approximately 1% of our 2004 fiscal year revenue.

We anticipate online orders will continue to increase as we expand our software product base and enhance our marketing efforts in this area.

Retail Sales

Retail sales accounted for approximately 35% of our 2004 fiscal year revenue. Our domestic retail sales involve thousands of retail stores across the United States through which our products are sold, many of which are members of the CBA. These stores vary from small, family-owned Christian bookstores to large chain bookstores such as LifeWay Christian Stores, Family Christian Stores® and Berean Christian Stores. We face the continuing challenge of reaching these stores on a consistent basis to keep them informed of new releases, promotional offers, etc. In addition to advertising in trade publications and maintaining visibility at CBA trade shows and events, we believe that it is critical to be in direct personal contact with each customer routinely in order to maintain or increase our market position. Towards that end, our sales representatives are expected to contact each of our customers as well as each of the independent stores that are not yet our customers regularly and present them with the latest in our products and promotions. We believe our personalized approach to marketing provides us with an edge over our competition, which we believe rely predominantly on advertising to maintain and develop their relations with CBA customers.

In the secular retail market, which includes chains such as Best Buy,TM CompUSA®, and OfficeMax,TM we believe that we continue to be a top seller of Bible study software and we are developing additional product offerings and promotions to grow our market share.

Table of Contents

International Sales

International sales accounted for approximately 2% of our 2004 fiscal year revenue. We currently sell to distributors and retailers in Canada, New Zealand, Australia, Philippines, Hong Kong, the United Kingdom, and Singapore. These distributors and retailers, in turn, sell our products into both Christian and large, secular retail outlets that sell off-the-shelf consumer software packages.

Returns and Price Concessions

At the time we ship our products we establish reserves, including reserves that estimate the potential for future product returns and price concessions. Management makes these estimates and assumptions based on actual historical experience regarding allowances for estimated price concessions and product returns. In determining the percentage of sales for product return reserves, management considers a number of different statistical factors. First, it reviews the rate of actual product returns (in total) for the period. Second, it reviews return rates for the same period(s) of prior years. Third, it reviews its sales by individual retail customers to assess any unusual return exposure. Fourth, it reviews actual return rates of specific title and title versions to determine if there are any unusual trends taking place. Fifth, the potential for an increase in actual returns resulting from upcoming new title or title version releases is reassessed. Sixth, and finally, management reviews the actual returns from the balance sheet date to the date of calculation to determine if anything unexpected has taken place.

We give all of our distributors and retail customers a written product return policy providing for returns, upon written request, within nine months of the invoice date for credit only. If a new title or title version release falls within that nine month time span, a distributor has 60 days from the announced release date to return the old title or title version in exchange for the new title or title version only. We provide our end-user consumers with a 45 day satisfaction guarantee, allowing them to return a title or title version within that time frame if for any reason unsatisfied. Our warranty policy for defective software is to provide replacement or repair for a period of 45 days from the invoice date. We believe that these measurement dates provide a consistent period for assessment and the opportunity to adequately estimate channel inventory levels for appropriately estimating our return reserves.

We generally grant price concessions to our wholesale retail customers when we deem those concessions necessary to maintain our relationships with those retailers and maintain continued access to their retail channel customers. Further, if consumer demand for a specific title falls below expectations or significantly declines below previous rates of wholesale retail sell-through, then a price concession or credit may be requested by our retail customers to spur further retail channel sell-through.

Trends that our returns typically follow include (i) the seasonality of sales, and (ii) the fact that, generally, relatively higher return rates occur during periods of new title or title version releases. Historically, actual returns have been within management's prior estimates, however, we cannot be certain that any future write-offs exceeding reserves will not occur or that amounts written off will not have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations. Management continually monitors and adjusts these allowances to take into account actual developments and sales results in the marketplace. In the past, particularly during title and title version transitions, we have had to increase price concessions to our retail customers.

MANUFACTURING AND FULFILLMENT

We prepare a set of master program copies, documentation and packaging materials for each platform on which a title or title version is available. All of our software products are manufactured through third-party subcontractors, with orders for PC-based titles and title versions generally taking seven to ten days, and reorders taking three to five days. Packaging, printing and assembly are also performed by third-party subcontractors. To date, we have not experienced

any material returns due to product defects.

We currently fulfill all of our direct-to-consumer sales out of our own warehouse located in Omaha, Nebraska and a third-party fulfillment company, also located in Omaha, Nebraska, fulfills our bulk retail sales.

-9-

Table of Contents

SIGNIFICANT CUSTOMERS AND SUPPLIERS

During the years ended December 31, 2004 and 2003, we had no major customers that individually accounted for 10% or more of annual sales. As we introduce new and enhanced software titles into the market, we anticipate our sales to a single customer, as a percentage of gross consolidated revenue, will continue to remain below 10%.

Also for the years ended December 31, 2004 and 2003, product and material purchases from IsoDisc accounted for 29% and 3%, respectively, Midlands Packaging Corporation accounted for 18% and 14%, respectively, Frogs Copy and Graphics accounted for 17% and 10%, respectively, MicroBytes, Inc. accounted for 12% and 39%, respectively, and Cedar Graphics accounted for 7% and 17%, respectively, of the total product and material purchases made by us. We currently have no long-term written agreements with any of these suppliers. The payment terms are generally net 30 days, and we are not substantially dependent upon any one or more of them; all are easily replaceable with any locally available supplier.

REGULATION

We are not currently subject to direct regulation by any government agency, other than regulations applicable to businesses generally.

COMPETITION

The market for our products is rapidly evolving and intensely competitive as new software products and platforms are regularly introduced. Competition in the software industry is based primarily upon:

- brand name recognition;
- availability of financial resources;
- the quality of titles;
- reviews received for a title from independent reviewers who publish reviews in magazines, Websites, newspapers and other industry publications;
- publisher's access to retail shelf space;
- the price of each title; and
- the number of titles then available.

We face competition from other software publishers, all of which generally sell through the same combination of channels that we do, including chain store, secular, CBA, direct and online sales.

Specifically, and in relation to our QuickVerse® products, we believe are the market leader in our category. We currently compete with the following companies and products, among others:

- Logos Research Systems, Inc. - Logos Series X®
- BibleSoft, Inc. - BibleSoft PC Bible Study® Version 4
- Thomas Nelson, Inc. - Nelson eBible®
- WordSearch Bible Publishers - WordSearch® 7
- Zondervan - Zondervan Bible Study Library®

Although each of these companies publishes software packages in several different variations, generally in a range that includes a standard package, an expanded package, and a deluxe package (the same way that we do), in each of these respective categories we believe that we tend to be the least expensive but the most comprehensive in terms of the number of Bibles and reference titles included. We believe QuickVerse's® reputation to be among the most

well-respected in its category.

-10-

Table of Contents

In relation to our Membership Plus[®] products, we currently compete with the following companies and comparable products, among others:

- ACS Technologies[®]
- CCIS Church Software[®]
- Church Data Master Plus[®]
- Church Windows/Computer Helper[®]
- Church Office[®]
- Logos Management Software[®]
- Power Church Software[®]
- Servant PC[®]
- Shelby Systems[®]
- Shepherd's Staff[®] (Concordia Publishing House)
- Specialty Software[®]

We believe that Membership Plus[®] is the market leader by a margin of over 100% in the church management software publishing category in terms of registered users. Our Membership Plus[®] packages are also among the least expensive products in the category.

We rely upon our product quality, marketing and sales abilities, proprietary technology and product development capability, the depth of our retail distribution channels and management experience to compete in the software industry. Although we believe that we are among the market leaders in each of our two primary product categories, some of our competitors have longer operating histories, larger customer bases and greater financial, marketing, service, support, technical and other resources than we do. Due to these greater resources, certain of our competitors have the ability to undertake more extensive marketing campaigns, adopt more aggressive pricing policies, pay higher fees to licensors and pay more to third-party software developers than we can. Moreover, we believe that competition from new entrants will increase as the market for faith-based products and services expands.

INTELLECTUAL PROPERTY

Overview

We rely for our business on a combination of copyrights, trademarks, and trade secrets to protect our intellectual property. Our copyrighted software content and the brand recognition associated with our related product trademarks are among the most important assets that we possess in our present ability to generate revenues and profits, and we rely very significantly on these intellectual property assets in being able to effectively compete in our market. Our intellectual property rights derive from a combination of licenses from third parties, internal development and confidentiality and non-disclosure agreements.

We cannot be certain that the precautions we have taken will provide meaningful protection from unauthorized use by others. If we must pursue litigation in the future to enforce or otherwise protect our intellectual property rights, or to determine the validity and scope of the proprietary rights of others, we may not prevail and will likely have to make substantial expenditures and divert valuable resources in the process. Finally, we may not have adequate remedies if our proprietary content is appropriated, our proprietary rights are violated or our trade secrets are disclosed.

Copyrights

Our copyrights, some of which have been registered and others of which remain unregistered, derive from a combination of program and source code embodied in software titles that we license from third parties, as well as

program and source code embodied in software titles that we have internally developed on our own.

We entered into a license agreement in June 1999 with Parsons Technology, Inc. which forms the basis of our copyright protection for products that accounted for approximately 97% of our revenues in 2004, including those generated from sales of QuickVerse® and Membership Plus®, by far our two largest selling software titles. A copy of the license that we obtained from Parsons Technology, which has since been assigned to Riverdeep, Inc., the latest licensor-assignee in a succession of assignments by Parsons Technology that have occurred since June 1999, is incorporated by reference into this annual report on Form 10-KSB/A as Exhibit 10.3. At the time, it was acquired as part of a combination of related transactions involving ourselves, Parsons Technology, then a wholly-owned subsidiary of Mattel, Inc., and TLC Multimedia Inc., then also a wholly-owned subsidiary of Mattel, Inc. Aside from the license, the transactions involved an asset sale, a product distribution agreement, and a related services agreement. Taken as a whole, and essentially, we had acquired from TLC Multimedia a software publishing and sales division (known and referred to by many then as the “Parsons Church Group”). In accordance with its terms, we agreed to pay a one-time non-recurring fee of \$5 million to obtain the license, which fee was payable over a subsequent approximate one year period. The related asset sale involved separate consideration.

-11-

Table of Contents

The license that we acquired in 1999 provided us with the right, originally for a term of ten years, to publish, use, distribute, sublicense and sell, exclusively worldwide in non-secular channels and non-exclusively (with continuing right retained by Riverdeep, Inc., successor to Parsons Technology) on an unrestricted basis in secular channels, a collection of 65 individual top-selling Christian-related software titles owned by Parsons Technology, including QuickVerse® and Membership Plus®, among others. The license covered a variety of other add-on content titles (*e.g.*, various Bible translations, study guides and sermon preparation tools). The license also included the right for us to modify the programs (including the source code) in order to prepare derivative works and future versions of the programs, and stated that we would exclusively own all rights associated with any such modifications.

Beginning in 2000, we became involved in a series of mediations arising out of or otherwise in connection with the 1999 license. The first of these involved the payment terms of the \$5 million licensing fee. Rather than making payments in accordance with the fee schedule as originally set forth in the agreement, we entered into an arrangement with Parsons Technology's direct sales group whereby we provided resale products and in turn received an offset credit against the balance due under the fee provision in the license. The dispute centered on the amount of product actually resold, and, therefore, the amount of offset credit to which we were entitled. Prior to the resolution of this contest, a second dispute arose, naming Parsons Technology and ourselves, among others, as parties thereto. The first mediation was set aside, and ultimately resolved in conjunction with the latter proceeding as described in the following paragraph.

In October 2001, due to being in arrears with respect to certain royalty payments owed to The Zondervan Corporation then, a content provider to QuickVerse®, we became party to a second mediation ultimately resulting in a multi-party settlement agreement, on October 20, 2003, the terms of which provided for our payment to Zondervan of \$500,000 plus 5% simple interest in installments, as well as for our destruction of all inventory containing Zondervan-owned content, all of which we satisfied within months thereafter. As part of the settlement agreement, we received a covenant in perpetuity with respect to our rights under the 1999 license, effectively extending it indefinitely with no continuing financial obligations owed by us. A copy of the settlement agreement which resulted in the effective extension is incorporated by reference as Exhibit 10.14 to this Form 10-KSB/A for the year ended December 31, 2004.

Since 1999, the developments, including modifications and improvements, that we have made to the originally acquired copyrighted programs covered by the license have been extensive. We have used both in-house developers and third-party contractors in these modifications and improvements over which we retain the exclusive ownership. Given these developments, which have been made through four subsequent versions and seven new editions of QuickVerse®, four subsequent versions and one new edition of Membership Plus®, and various subsequent versions of some of the other titles to which we acquired rights under the license (including those in each of the print and graphics, pastoral, children's, and language tutorial product categories), we believe that the real value of the copyrights associated with these titles lay almost exclusively at this point in the improvements that we own rather than the base copyrights that we were originally granted and that continue to be owned by Riverdeep, Inc. Moreover, it is our belief that the original source code covered by the license has been effectively rendered valueless by virtue of these subsequent modifications and improvements. Although we do not believe that any third parties have been granted any rights to date in addition to our own to publish or sell these titles into secular channels, and do believe that, even if this has occurred or should occur in the future, the barriers to entry created by the extensive developments that we have made and now own to these otherwise licensed titles would make it practically infeasible for any third party to effectively compete with us in relation to these products in any market, there can be no assurance that one or more competitors will not emerge at some point or that they will not impact on our sales and revenues.

As noted above, our largest-selling title, QuickVerse®, is one from which we originally derived our rights under the 1999 license. One of the features that make QuickVerse® such a popular title is its breadth of content. A very significant percentage of this content is licensed by us from various third-party content providers for inclusion in

QuickVerse®. We are therefore responsible for paying royalties on a regular basis to these providers in connection with our sales of QuickVerse®. In total, we currently have content licensing agreements with 45 different publishers for approximately 765 individual Bible translations and other Biblical or related scholarly works which are incorporated in various editions of our QuickVerse® products, or in some cases sold as stand-alone or add-on content. These licensing agreements are typically non-exclusive and for a fixed duration (*e.g.*, a term of 3 or 5 years). Royalties are generally paid within 30 days following the end of a quarter and are calculated as a percentage of net sales from a work (*e.g.*, ranging from 3% to 10% according to the licensing agreements), based upon factors such as value as a stand-alone product as compared to, for example, value when bundled with other titles within a collective work. These license agreements typically cover content in the context of both stand-alone products and as bundled works. For example, consumers who purchase QuickVerse® pay the suggested retail price and are in part paying for the technology within the program along with the content. QuickVerse® titles sold to new consumers or new users are subject to royalties on all content within each specific QuickVerse® title. However, upgrade sales to existing users are only subject to royalties on new content additions of the upgraded version.

-12-

Table of Contents

In addition to the copyrights associated with the 1999 license described above, copyright protection exists in relation to the software titles that we resell published by others. These copyrights, however, are held by the publishers and/or their respective third-party content providers.

Trademarks

As part of the 1999 license, we acquired the unlimited right to use the registered trademarks associated with the various titles licensed thereunder exclusively worldwide in non-secular channels and non-exclusively in secular channels. Because of the fact that each of QuickVerse® and Membership Plus® had been on the market for approximately ten years by the time we acquired the license, and each had a substantial existing user base, the trademarks for these products alone were deemed at the time to be of great importance and value. We believe that our initiatives in introducing subsequent versions and editions of these titles since then, as well as our having maintained extremely high publishing standards throughout the period that we have been publishing these titles, have served to sustain and enhance the importance and value of these trademarks.

Trade Secrets

Whenever we deem it important for purposes of maintaining competitive advantages, our policy requires parties with whom we share, or who otherwise are likely to become privy to, our trade secrets or other confidential information, including source code, to execute and deliver to us confidentiality and/or non-disclosure agreements prior to their exposure to any such information. Among others, this includes employees, consultants and other advisors, including our in-house and outsourced software developers and collaborators, each of whom we require to execute such an agreement upon commencement of their employment, consulting or advisory relationships. These agreements generally provide that all confidential information developed or made known to the individual by us during the course of the individual's relationship with us is to be kept confidential and not to be disclosed to third parties except in specific circumstances. In the case of employees and consultants, the agreements provide that all inventions conceived by the individual in the course of their employment or consulting relationship shall be our exclusive property.

EMPLOYEES

As of June 7, 2005, we had twenty-eight full-time employees. Of those twenty-eight, four were part of the senior-level executive and financial management team, five were in the product development team, nine were on the sales team, and ten were in fulfillment, administration, and related support positions. For the fiscal year ended December 31, 2004, our annual payroll was \$1,523,332, equivalent to 26% of gross revenues. In addition, we have engaged the services of several consulting firms who are working full or part-time for us in the area of product development and marketing.

We rely heavily on our current officers and directors in operating the business. We are not subject to any collective bargaining agreements and believe that our relationships with our employees are good.

SEASONALITY

Our business is highly seasonal. More than 50% of our annual sales are expected to occur in the five months of September through January; the five months of April through August are generally our weakest, generating only about 29% of our annual sales.

Table of Contents

ITEM 2. DESCRIPTION OF PROPERTY.

Our principal executive offices are located at 11204 Davenport Street, Suite 100, Omaha, Nebraska. We lease this 6,500 square foot premises under a five year lease agreement with 11204, LLC. Our monthly rent is \$7,094.79 and, as of June 7, 2005, there were approximately twenty-three months remaining under the lease.

We maintain additional leased office space in Naperville, Illinois for certain product development activity. We lease this 880 square foot premises under an eighteen month lease agreement with Transwestern Commercial Services. Our monthly rent is \$1,320.00 and there are three months remaining under the lease.

Three of our full-time employees work in home offices located in Cedar Rapids, Iowa. We do not pay for any space associated with these operations.

ITEM 3. LEGAL PROCEEDINGS.

In March 2004, a joint settlement was finalized with The Zondervan Corporation and TLC Multimedia, Inc. in connection with then pending litigation surrounding royalties owed by us. Pursuant to the settlement, we were required to make certain payments to The Zondervan Corporation, which obligations, as of July 2004, were satisfied in full. A stipulation of such settlement has since been duly entered and the matter has been discontinued.

As of the date of this report, there were no pending material legal proceedings to which we were a party and we are not aware that any were contemplated. There can be no assurance, however, that we will not be made a party to litigation in the future. Moreover, there can be no assurance that our insurance coverage will prove adequate to cover all liabilities arising out of any claims that may be initiated against us in the future. Any finding of liability imposed against us coupled with a lack of corresponding insurance coverage is likely to have an adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

On October 15, 2004, we filed a definitive information statement on Schedule 14C with the SEC. The information statement was mailed to our stockholders on or about October 18, 2004 solely for the purpose of informing our stockholders of the approval and unanimous consent by our board of directors, and the affirmative vote on September 9, 2004 of the holders of a majority of the voting power to take the following action:

- (i) amend our articles of incorporation to increase our authorized shares of common stock from 50,000,000 to 120,000,000 shares; and
- (ii) ratify the designation of our incumbent directors among the three classes of directors.

Of our 46,153,189 common shares issued and outstanding at the time, the affirmative vote of the holders of a majority of our voting power was required to approve the amendment and to ratify the designation. Both the amendment and the ratification of designation received the approval of holders owning 32,307,090 shares of our common stock, representing 70% of our then total issued and outstanding common stock (51.97% after adjustment for certain voting restrictions set forth in our articles of incorporation), each by written consent as permitted by the Nevada Revised Statutes and our bylaws. The action approved by the consenting stockholders became effective on November 8, 2004, which was 20 days after we mailed the information statement to our stockholders. The amendment to our articles of incorporation was filed and effective with the Secretary of State of Nevada on November 10, 2004. We did not solicit proxies to vote at a stockholders' meeting in connection with either the amendment or the ratification.

No other matters were submitted to a vote of our stockholders during the fourth quarter of the fiscal year ended December 31, 2004.

-14-

* Consideration is calculated to be the value of the security at the date of issuance.

1. Stock issued in connection with issuances of stock, warrants, and/or convertible debt.
2. Stock issued in connection with conversion of a promissory note.

A. We relied in each case for these unregistered sales on the private offering exemption of Section 4(2) of the Securities Act and/or the private offering safe harbor provision of Rule 506 of Regulation D promulgated thereunder based on the following factors: (i) the number of offerees or purchasers, as applicable, (ii) the absence of general solicitation, (iii) representations obtained from the acquirors relative to their accreditation and/or sophistication (or from offeree or purchaser representatives, as applicable), (iv) the provision of appropriate disclosure, and (v) the placement of restrictive legends on the

certificates reflecting the securities coupled with investment representations obtained from the acquirors.

B. We relied on Section 3(a)(9) of the Securities Act as the basis for our exemption from registration of these offerings.

There were no underwriters or placement agents involved in any of the issuances set forth above and no commissions were paid.

MARKET INFORMATION

Our common stock is traded on the OTC Bulletin Board, a service provided by the Nasdaq Stock Market Inc., under the symbol, "FIND".

The following table sets forth for the periods indicated the high and low bid prices for our common stock as reported each quarterly period within the last two fiscal years on the OTC Bulletin Board, and as obtained from BigCharts.com. The prices are inter-dealer prices, do not include retail mark-up, markdown or commission and may not necessarily represent actual transactions.

Fourth Quarter	\$0.190	\$0.060

Table of Contents**STOCKHOLDERS**

As of June 6, 2005, there were approximately 800 holders of record of our common stock, with any shares held by persons or companies in street or nominee name counted only under such street or nominee name.

DIVIDENDS

During the last two years, no dividends have been paid on our common stock and we do not anticipate paying any dividends in the foreseeable future. Although it is our intention to utilize all available funds for the development of our business, no restrictions are in place that would limit or restrict our ability to pay dividends.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS**EQUITY COMPENSATION PLAN INFORMATION**

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of Securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	910,000	\$0.11	590,000
Equity compensation plans not approved by security holders	2,800,000	\$0.0879	---
Total	3,710,000	\$0.0933	590,000

Our 1999 Stock Incentive Plan authorizes the issuance of various forms of stock-based awards including incentive and nonqualified stock options, stock appreciation rights attached to stock options, and restricted stock awards to our directors, officers and other key employees. The plan has been approved by our stockholders and as such, provides certain income tax advantages to employees as provided under Sections 421, 422, and 424 of the Internal Revenue Code. Stock options are granted at an exercise price as determined by our board at the time the option is granted and may not be less than the par value of such shares of common stock. Stock options vest quarterly over three years and have a term of up to ten years. The plan authorizes an aggregate of 1,500,000 shares of common stock that may be issued.

Table of Contents

In addition, we issue various forms of stock-based awards including nonqualified stock options and restricted stock awards to directors, officers, other key employees and third-party consultants, outside of the Stock Incentive Plan. Awards granted outside of the plan have been granted pursuant to equity compensation arrangements that have not been approved by our stockholders. These awards are granted at an exercise price as determined by our board at the time of grant and are not less than the par value of such shares of common stock. Stock options granted outside of the plan vest as determined by our board at the time of grant and have a term of up to ten years. Non-employee directors, though treated as employees for financial reporting purposes under Financial Accounting Standards Board Interpretation No. 44, are excluded from the income tax advantages afforded employees by the Internal Revenue Code.

All issued options, whether under the plan or not, create the obligation for stock issuance at the established exercise price.

Table of Contents

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following discussion should be read together with our consolidated financial statements for the period ended December 31, 2004 and the notes to the consolidated financial statements.

CRITICAL ACCOUNTING POLICIES

Our critical accounting policies, including the assumptions and judgments underlying them, are more fully described in the Notes to the Financial Statements. We have consistently applied these policies in all material respects. These policies primarily address matters of expense recognition and revenue recognition, including amortization of software development cost and the calculation of reserve for returns. Investors are cautioned that these policies are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially. Below are the accounting policies that we believe are the most critical in order to gain an understanding of our financial results and condition.

Use of Estimates

The preparation of consolidated financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Significant estimates used in the consolidated financial statements include the estimates of (i) doubtful accounts, sales returns, price protection and rebates, (ii) provision for income taxes and realizability of the deferred tax assets, (iii) the life and realization of identifiable intangible assets, and (iv) provisions for obsolete inventory. The amounts we will ultimately incur or recover could differ materially from current estimates.

Royalty Agreements

We have entered into certain agreements whereby we are obligated to pay royalties for content of software published. We generally pay royalties based on a percentage of sales on respective products or on a fee per unit sold basis. We expense software royalties as product costs during the period in which the related revenues are recorded.

Accounts Receivable

Accounts receivable arise in the normal course of business. It is the policy of management to review the outstanding accounts receivable quarterly, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts. Individual accounts are charged against the allowance when they are deemed uncollectible.

Inventory

Inventory, including out on consignment, consists primarily of software media, manuals and related packaging materials and is recorded at the lower of cost or market value, determined on a first-in, first-out, and adjusted on a per-item, basis.

Intangible Assets

In accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*, intangible assets with an indefinite useful life are not amortized. Intangible assets with a finite useful life are amortized on the straight-line method over the estimated useful lives. All intangible assets are tested for impairment annually during the fourth quarter.

Table of Contents***Software Development Costs***

In accordance with SFAS No. 86, *Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed*, software development costs are expensed as incurred until technological feasibility and marketability has been established, generally with release of a beta version for customer testing. Once the point of technological feasibility and marketability is reached, direct production costs (including labor directly associated with the development projects), indirect costs (including allocated fringe benefits, payroll taxes, facilities costs, and management supervision), and other direct costs (including costs of outside consultants, purchased software to be included in the software product being developed, travel expenses, material and supplies, and other direct costs) are capitalized until the product is available for general release to customers. We amortize capitalized costs on a product-by-product basis. Amortization for each period is the greater of the amount computed using (i) the straight-line basis over the estimated product life (generally from 12 to 18 months), or (ii) the ratio of current revenues to total projected product revenues.

Capitalized software development costs are stated at the lower of amortized costs or net realizable value. Recoverability of these capitalized costs is determined at each balance sheet date by comparing the forecasted future revenues from the related products, based on management's best estimates using appropriate assumptions and projections at the time, to the carrying amount of the capitalized software development costs. If the carrying value is determined not to be recoverable from future revenues, an impairment loss is recognized equal to the amount by which the carrying amount exceeds the future revenues.

SFAS No. 2, *Accounting for Research and Development Costs*, establishes accounting and reporting standards for research and development. In accordance with SFAS No. 2, costs we incur to enhance our existing products after general release to the public (bug fixes) are expensed in the period they are incurred and included in research and development costs.

We capitalize costs related to the development and maintenance of our Website in accordance with Financial Accounting Standard Board's ("FASB's") Emerging Issues Task Force ("EITF") Issue No. 00-2, *Accounting for Website Development Costs*. Under EITF Issue No. 00-2, costs expensed as incurred are as follows:

- planning the Website,
- developing the applications and infrastructure until technological feasibility is established,
- developing graphics such as borders, background and text colors, fonts, frames, and buttons, and
- operating the site such as training, administration and maintenance.

Capitalized costs include those incurred to:

- obtain and register an Internet domain name,
- develop or acquire software tools necessary for the development work,
- develop or acquire software necessary for general Website operations,
- develop or acquire code for web applications,
- develop or acquire (and customize) database software and software to integrate applications such as corporate databases and accounting systems into web applications,
- develop HTML web pages or templates,
- install developed applications on the web server,
-

- create initial hypertext links to other Websites or other locations within the Website, and
- test the Website applications.

We amortize Website development costs on a straight-line basis over the estimated life of the site, generally 36 months.

Revenue Recognition

We derive revenues from the sale of packaged software products, product support and multiple element arrangements that may include any combination of these items. We recognize software revenue for software products and related services in accordance with American Institute of Certified Public Accountants Statement of Position (“SOP”) 97-2, *Software Revenue Recognition*, as modified by SOP 98-9, *Modification of SOP 97-2, With Respect to Certain Transactions*. We recognize revenue when persuasive evidence of an arrangement exists (generally a purchase order), we have delivered the product, the fee is fixed or determinable and collectibility is probable.

Table of Contents

In some situations, we receive advance payments from our customers. We defer revenue associated with these advance payments until we ship the products or offer the support.

In accordance with EITF Issue No. 01-9, *Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Product*, we generally account for cash considerations (such as sales incentives - rebates and coupons) that we give to our customers as a reduction of revenue rather than as an operating expense.

We reduce product revenue for estimated returns and price protections that are based on historical experience and other factors such as the volume and price mix of products in the retail channel, trends in retailer inventory and economic trends that might impact customer demand for our products. We also reduce product revenue for the estimated redemption of end-user rebates on certain current product sales. Our rebate reserves are estimated based on the terms and conditions of the specific promotional rebate program, actual sales during the promotion, the amount of redemptions received and historical redemption trends by product and by type of promotional program.

We record the amounts we charge our customers for the shipping and handling of our software products as product revenue and we record the related costs as cost of sales on our consolidated statements of operations.

Derivatives

We account for warrants issued with shares of common stock in a private placement according to EITF Issue 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*. In accordance with accounting mandate, the derivative liability associated with the warrants has been and shall continue until our registration statement on Form SB-2 originally filed on November 22, 2004 is declared effective to be adjusted to fair value (calculated using the Black Scholes method) at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity. The corresponding fair value adjustment is included in the consolidated statements of operations as other expenses as the value of the warrants increases from an increase in our stock price at the balance sheet date and as other income as the value of the warrants decreases from a decrease in our stock price. At December 31, 2004, the fair value of the derivative liability was approximately \$1,969,000, and a fair value adjustment of approximately \$292,000 has been included in other expenses for the year then ended. An increase in our stock price by 10% from the year ended December 31, 2004 would result in a fair value adjustment of approximately \$197,000 as other expenses, and a decrease in our stock price by 10% from the year ended December 31, 2004 would result in a fair value adjustment of approximately \$197,000 as other income.

Income Taxes

We utilize SFAS No. 109, *Accounting for Income Taxes*. SFAS No. 109 requires the use of the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are provided for the temporary differences between the financial reporting basis and the tax basis of our assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

RESULTS OF OPERATIONS FOR YEARS ENDED DECEMBER 31, 2004 AND DECEMBER 31, 2003

Our income before taxes decreased approximately \$1,525,000 from an income of approximately \$1,473,000 for the twelve months ended December 31, 2003 to a loss of approximately \$52,000 for the twelve months ended December 31, 2004, and our net income decreased approximately \$735,000 from a net income of approximately \$1,699,000 for the twelve months ended December 31, 2003 to a net income of approximately \$964,000 for the twelve months ended December 31, 2004. These decreases are a result of the following items. For the twelve months ended December 31,

2003, we wrote down accrued royalties of approximately \$584,000 and wrote off a note payable of approximately \$650,000 and the interest associated with the note of approximately \$217,000. Both of these write down items are included in other income. We also wrote down a distinct category of obsolete inventory of approximately \$61,000, which is included in cost of sales. For the twelve months ended December 31, 2004, we wrote down the reserve for rebates payable from a change in accounting estimate of approximately \$142,000 and wrote down actual rebates payable of approximately \$61,000 due to an overstatement. Both of these write down items are recognized as an adjustment to revenue. We also wrote down a distinct category of obsolete inventory of approximately \$32,000 which is included in cost of sales, and incurred an expense of approximately \$155,000 related to a settlement with an institutional private equity investor which is included in other adjustments. Furthermore, for the twelve months ended December 31, 2004, we recognized approximately a \$1,000,000 gain from extinguishment of debt which is classified as other income. The extinguishment of debt is a direct result from settling with various vendors and content providers for lump-sum payments at a reduced amount of balances owed. Finally, we recognized a loss of approximately \$292,000 related to the fair value adjustment of derivatives in other expenses for the twelve months ended December 31, 2004. Warrants issued with shares of common stock in a private placement are considered derivative liabilities. The derivative liability associated with the warrants has been adjusted to fair value at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity. See "Derivatives" below.

Table of Contents

Non-cash expenses related to shares of common stock issued for services increased by approximately \$126,000. For the year ended December 31, 2004, we recognized approximately \$149,000 in non-cash expenses related to shares of common stock and warrants issued for services and approximately \$30,000 in non-cash expenses related to shares of common stock issued in a settlement agreement. Comparatively, for the year ended December 31, 2003, we recognized expenses of approximately \$53,000 relating to shares of common stock issued for services. Overall, interest expense for the twelve months ended December 31, 2004 decreased by approximately \$45,000 compared to 2003. This is due to our reducing trade payables and meeting the scheduled terms. Furthermore, the note liabilities interest was reduced due in part to the reclassification of the note payable in the fourth quarter of 2003. Amortization expense for the twelve months ended December 31, 2004 increased by approximately \$15,000 compared to 2003. This reflects the continual amortization of the software license along with the amortization for the launch of our Website, www.quickverse.com, during the second quarter of 2004. Amortization expense related to software development costs, which is included in cost of sales, increased approximately \$220,000 for the twelve months ended December 31, 2004 compared to 2003. This is a direct result from QuickVerse® 8.0 shipping in late December 2003, Membership Plus® 8.0 shipping in January 2004, QuickVerse® PDA 2005 shipping in September 2004, and QuickVerse® 2005 shipping in early December 2004.

Revenues

We derive revenues from the sale of packaged software products, product support and multiple element arrangements that may include any combination of these items. Revenue is recognized when persuasive evidence of an arrangement exists (generally a purchase order), we have delivered the product, the fee is fixed or determinable and collectibility is probable. For our packaged software products, we typically recognize revenue from the sale when we ship the product. We sell some of our products on consignment to a limited number of resellers. We recognize revenue for these consignment transactions only when the end-user sale has occurred. Service revenue resulting from technical support plans is recognized over the life of the plan which is generally one year. Revenue associated with advance payments from our customers is deferred until we ship the product or offer the support service. Revenue for software distributed electronically via the Internet is recognized when the customer has been provided with the access codes that allow the customer to take immediate possession of the software on its hardware and evidence of the arrangements exists. For revenue arrangements involving multiple products or products and services, we allocate and defer revenue for the undelivered products or products and services based on their vendor-specific objective evidence of fair value, which is generally the price charged when that product or product and service is sold separately.

We reduce product revenue for estimated returns and price protections that are based on historical experience and other factors such as the volume and price mix of products in the retail channel, trends in retailer inventory and economic trends that might impact customer demand for our products. Estimated returns are also based upon a percentage of total retail and direct sales. Direct sales accounted for approximately 65% of our 2004 fiscal year revenue. We account for cash considerations (such as sales incentives - rebates and coupons) that we give our customers as a reduction of revenue rather than as an operating expense. Product revenue is also reduced for the estimated redemption of end-user rebates on certain current product sales. We did not have any rebate programs during the twelve months ended December 31, 2003 and 2004, respectively.

Trends that our returns typically follow include (i) the seasonality of sales, and (ii) the fact that, generally, relatively higher return rates occur during periods of new title or title version releases. Historically, actual returns have been within management's prior estimates, however, we cannot be certain that any future write-offs exceeding reserves will not occur or that amounts written off will not have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations. Management continually monitors and adjusts these allowances to take into account actual developments and sales results in the marketplace. In the past, particularly during title and title version transitions, we have had to increase price concessions to our retail customers.

Table of Contents

Product returns from distributors and Christian bookstores are allowed primarily in exchange for new products or for credit towards purchases as part of a stock-balancing program. These returns are subject to certain limitations that may exist in the contract in each case. Under certain circumstances, such as termination or when a product is defective, distributors and bookstores could receive a cash refund if returns exceed amounts owed. Returns from sales made directly to the consumer are accepted within 45 days of purchase and are issued a cash refund. Product returns, price protections or price concessions that exceed our reserves could materially adversely affect our business and operating results and could increase the magnitude of quarterly fluctuations in our operating and financial results.

Software products are sold separately, without an obligation of future performance such as upgrades, enhancements or additional software products, and are sold with post contract customer support services such as customer service and technical support assistance. In connection with the sale of certain products, we provide a limited amount of free technical support assistance to our customers. We do not defer the recognition of any revenue associated with sales of these products, since the cost of providing this free technical support is insignificant. The technical support is provided within one year after the associated revenue is recognized and free product enhancements (bug fixes) are minimal and infrequent. We accrue the estimated cost of providing this free support upon product shipment and include it in cost of sales.

Shipping and handling costs in connection with our software products are expensed as incurred and included in cost of sales.

Twelve Months Ended December 31	2004	% to Gross Sales	2003	% to Gross Sales	Change	%
Gross sales	\$ 5,786,427	100 %	\$ 4,787,545	100 %	\$ 998,882	21%
Add rebate adjustments	203,313	4 %	170,154	4 %	33,159	19%
Less reserve for sales returns and allowances	(567,643)	(10 %)	(396,788)	(8 %)	(170,855)	43%
Net sales	\$ 5,422,097	94 %	\$ 4,560,911	96 %	\$ 861,186	19%

Gross revenues increased approximately \$999,000 from approximately \$4,788,000 for the year ended December 31, 2003 to approximately \$5,787,000 for the year ended December 31, 2004. Such increase is due to our release of an enhanced version of Membership Plus[®], during the first quarter of 2004 and an enhanced version of QuickVerse[®], during the fourth quarter of 2004. However, delays in duplication, packaging and distribution caused our QuickVerse[®] 2005 to begin shipping in early-December 2004, long after the holiday season had been underway. Due to these delays, we believe we experienced reduced revenues of approximately \$500,000 for the year ended December 31, 2004. In addition to the QuickVerse[®] and Membership Plus[®] releases, there were several other new product releases in the year 2004 such as an enhanced version of our QuickVerse[®] PDA. However, the retail value of the products ranged from \$9.95 to \$59.95 compared to \$99.95 to \$349.95 for the QuickVerse[®] and Membership Plus[®] titles. During the year 2003, we only had one major product release, QuickVerse[®] 8.0, which shipped in late December 2003. During the years of 2003 and 2004, our sales efforts were focused on targeting end-users through telemarketing and Internet sales. These efforts resulted in more consistent sales during the two years. Sales into the retail market (both CBA and secular) continue to increase; however, they are not back to the levels of 1999 and 2000.

Table of Contents

Sales returns and allowances increased approximately \$171,000 from approximately \$397,000 for the year ended December 31, 2003 to approximately \$568,000 for the year ended December 31, 2004 and increased as a percentage of gross sales from approximately 8% for the year ended December 31, 2003 to approximately 10% for the year ended December 31, 2004. The upward trend in sales returns and allowances as a percentage is attributable to our release of enhanced versions of QuickVerse® and Membership Plus® in late December of 2003 and January of 2004, respectively. The release of these two enhanced products resulted in an increased quantity of sales returns and allowances of prior versions as distributors and stores made shelf space during the first quarter of 2004. Furthermore, the release of QuickVerse® 8.0 in late December of 2003 was the only enhancement to the product within a three year timeframe. We released QuickVerse® 2005 earlier in the fourth quarter of 2004 with only an eleven month difference from the last enhancement. Due to the earlier release, we anticipated stores would have more time to return the previous version of QuickVerse® than compared to a year ago. Product returns during the other quarters were consistent. We anticipate the sales return and allowances as a percentage to follow a downward trend due to our focused sales efforts to the end-users and our decreased presence in the retail market, because incidents of return are lower for sales direct to the end-user than sales into the retail stores. We also wrote down a reserve for rebates payable due to a change in accounting estimate of approximately \$142,000 and approximately \$124,000 and wrote down actual rebates payable due to an overstatement of approximately \$61,000 and approximately \$46,000, both of which are included as an adjustment to revenue in accordance with EITF Issue No. 01-09 for the twelve months ended December 31, 2004 and 2003, respectively.

Cost of Sales

Twelve Months Ended December 31	2004	% to Gross Sales	2003	% to Gross Sales	Change	%
Direct costs	\$ 579,946	10%	\$ 539,595	11%	\$ 40,351	7%
Amortization of software development costs	575,480	10%	355,283	7%	220,197	62%
Royalties	417,604	7%	264,050	6%	153,554	58%
Fulfillment	74,889	1%	43,375	1%	31,514	73%
Freight-out	172,634	3%	125,680	3%	46,954	37%
Cost of sales	\$ 1,820,553	31%	\$ 1,327,983	28%	\$ 492,570	37%

Cost of sales consists primarily of royalties to third-party providers of intellectual property and the direct costs and manufacturing overhead required to reproduce, package, fulfill and ship the software products. Direct costs and manufacturing overhead also include the amortized software development costs and the non-capitalized technical support wages. The direct costs and manufacturing overhead increased from 22.2% of gross revenues in 2003 to 24.3% of gross revenues in 2004. The increase resulted directly from amortization of software development costs. The amortization recognized during the twelve months ended December 31, 2003 resulted from several new software releases in 2003 including the then newly released QuickVerse® 8.0. However, the shorter timeframe between our product upgrades during the year of 2004 led to an increased amount of amortization recognized. During the twelve months ended December 31, 2004 we continued to amortize the costs associated with QuickVerse® 8.0 along with the newly released Membership Plus® 8.0, the updated release of QuickVerse® PDA 2005 and the release of QuickVerse® 2005. Fulfillment costs from a third-party warehouse and included in the manufacturing overhead costs noted above, increased approximately \$32,000 as we released three major product upgrades beginning late December 2003 through December 2004. Furthermore, the direct costs and manufacturing overhead include the write downs of obsolete inventory of approximately \$61,000 and approximately \$32,000 for the twelve months ended December 31, 2003 and 2004, respectively. The direct costs and manufacturing overhead percentage is expected to continue at the 2004 levels as working capital remains more consistent and as more development projects are implemented in a shortened

timeframe.

Royalties to third-party providers of intellectual property also increased from 5.5% of gross revenues in 2003 to 7.2% of gross revenues in 2004. The increase of royalties reflects the release of the QuickVerse® 8.0 editions in late December 2003 and the release of the QuickVerse® 2005 editions in early December 2004. Furthermore, we sold some of the older QuickVerse® versions to liquidators at a reduced price throughout the year but had no such sales during the year ended 2003. During the year ended 2004, we also renegotiated several royalty contracts which resulted in some cases in a higher royalty rate along with access to more content. The royalty rate as a percentage of gross sales is expected to increase in the future as the new QuickVerse® 2005 is released into the retail market and sales to new users are expected to increase significantly. However, upgrade sales will continue to be subject to royalties only on content additions of the upgraded version.

-23-

Table of Contents

Software development costs are expensed as incurred as research and development until technological feasibility and marketability have been established, at which time development costs are capitalized until the software title is available for general release to customers. Software development is segregated by title and technology platform. Once a product has been successfully released, subsequent revisions and upgrades are considered development and the costs of the revision and upgrade are capitalized. Capitalized costs are amortized on a product-by-product basis using the greater of straight-line amortization over the estimated life of the product or the ratio of current revenues from the product to the total projected revenue over the life of the product. Generally, we consider technological feasibility to have been established with the release of a beta version for testing. Software development costs are summarized in the table below. The software development costs, consisting primarily of direct and indirect labor and related overhead charges, capitalized during the twelve months ended December 31, 2003 and 2004 were approximately \$659,000 and approximately \$692,000, respectively. Accumulated amortization of these development costs included in cost of sales totaled approximately \$355,000 and approximately \$575,000 for the twelve months ended December 31, 2003 and 2004, respectively. The increase in both the capitalization and amortization is a direct result of the increase in the number of development projects.

Twelve Months Ended December 31	2004	2003
Beginning balance	\$ 584,706	\$ 280,502
Capitalized	692,063	659,487
Amortized (cost of sales)	575,480	355,283
Ending balance	\$ 701,289	\$ 584,706
Research and development expense (General and administrative)	\$ 64,653	\$ 128,159

Table of Contents

Operating expenses for 2004 include approximately \$149,000 in non-cash expenses related to shares of common stock and warrants issued for services and approximately \$30,000 in non-cash expenses related to shares of common stock issued in a settlement agreement compared with approximately \$53,000 for 2003. With gross revenues increasing approximately \$999,000 from 2003 to 2004, sales expenses also increased approximately \$465,000 from approximately \$816,000 for 2003 to approximately \$1,281,000 for 2004. Included in sales expenses, commissions to a third-party telemarketing firm increased approximately \$244,000 as our sales focus to the direct consumer increased along with the number of new and enhanced product releases during 2004 compared with that of 2003; advertising, and direct marketing increased approximately \$215,000 as we launched a full-service online store, began marketing our products online through multiple sources, attended more retail conferences, and increased the number of new product upgrades throughout the year; and marketing and customer service costs increased approximately \$5,000 as our sales efforts continue to be more focused towards the consumer instead of the retail store.

Research and development costs include salaries and benefits of personnel and third parties conducting research and development of software products. Software development costs expensed as research and development (see table above) amounted to approximately \$65,000 for the twelve months ended December 31, 2004 compared to approximately \$128,000 incurred for the twelve months ended December 31, 2003. The decrease in 2004 reflects further development of existing products whereas in 2003 we had more research and development costs associated with new titles such as QuickVerse® PDA for both Pocket PC® and Palm OS® operating systems. Research and development expenses are expected to increase in future periods as we add new products and versions to our product mix.

Personnel costs increased approximately \$325,000 from approximately \$986,000 for the twelve months ended December 31, 2003 to approximately \$1,311,000 for the twelve months ended December 31, 2004. This increase is primarily from the increase in our sales and marketing team and technical support staff and the associated health care costs. We also recognized approximately \$14,000 of expense related to 635,000 restricted shares of common stock issued to employees and approximately \$67,000 in expense for upper management year-end bonus accrual. Furthermore, the capitalization of direct and indirect labor and related overhead charges as software development costs and the cost of providing free technical support to our customers (see “Cost of Sales” above) decreased by approximately \$23,000 from approximately \$557,000 for the twelve months ended December 31, 2003 to approximately \$534,000 for the twelve months ended December 31, 2004. This decrease is due to the shortened development time period for the new development projects that began during the year 2004. It is anticipated that personnel costs will continue to increase in future periods as operating capital is available to fund full staffing of our product development team and expansion of the direct marketing staff. In addition, interest and penalty fees related to back payroll taxes increased approximately \$95,000 for the twelve months ended December 31, 2004.

Direct legal costs increased approximately \$38,000 for the twelve months ended December 31, 2004 as the disputes with TLC and Zondervan were finalized in March 2004. However, approximately \$44,000 of legal costs were related to the stock offering costs incurred in July 2004 and the related preparation of a 14C information statement and SB-2 registration statement; and therefore was recorded as a reduction to additional paid-in capital. It is anticipated that legal costs will increase as we hold our first annual meeting of stockholders later this year and pursue our business plan for growth by acquiring companies and software title properties that are synergistic with our current product line and customer base. Rent expense increased approximately \$25,000 as we opened a new product development facility located in Naperville, IL. The increase is also attributed to the capitalization of related overhead charges as software development costs. See “Cost of Sales” above. Telecommunications costs increased approximately \$70,000 as the call volume increased in technical support and customer service due to the release of the three major product upgrades beginning late December 2003 through December 2004. Corporate service fees increased approximately \$94,000 for the twelve months ended December 31, 2004. These fees are related to the recent hire of an outside consultant, the expense for an issuance of a warrant to purchase 600,000 shares of common stock allocated over the term of the consulting contract, and the expense for a previous issuance of a warrant to purchase 250,000 shares of common

stock.

-25-

Table of Contents***Other Income and Adjustments***

We recorded an adjustment to the balance of accrued royalties for the year ended December 31, 2003 in the amount of approximately \$584,000. This adjustment was a result of our having reached a settlement with TLC regarding the offset credit to which we were entitled against the balance due on the 1999 license. The offset credit was related to sales made to TLC that remained in dispute until verified by an independent third-party audit of the sales and related royalty calculations. The royalty liabilities had been accrued based on our sales to TLC as originally reported and were part of the calculation of the June 30, 2001 bad debt provision totaling \$2,391,000. This has been included in other income.

We also reclassified as other income proceeds totaling \$650,000, and the corresponding accrued interest payable totaling approximately \$217,000, that were previously recorded as an unsecured note payable. The determination to reclassify the obligation was made on the basis of the combined facts that (i) the obligation exists, if at all, solely pursuant to an oral loan agreement made over three years ago in the State of North Carolina with a representative of the party to whom the obligation was believed to have been owed, (ii) no party has ever made any demand for repayment thereof despite the fact that no payments have ever been made on the obligation, (iii) the party believed to be owed the obligation, upon inquiry, claims no record of any such obligation, and (iv) the State of North Carolina Statute of Limitations applicable to oral agreements, believed to govern the continued enforceability of the obligation, has expired.

During the year ended December 31, 2004, we recognized an approximately \$1,000,000 gain from extinguishment of debt which is included in other income. The extinguishment of debt is a direct result from one-time settlement arrangements with various vendors and content providers for lump-sum payments ranging from approximately 17% to approximately 60% of balances owed at the time. Vendors who were offered the settlement had previously provided services and/or goods to us, and the content providers were owed royalties from us. We do not anticipate this to be a recurring event in the future. Below is a list of the vendors and content providers who we settled with:

- American Bible Society (content provider)
- David Epstein (content provider)
- Depository Trust Company (corporate services)
- Explorer's Bible Study (content provider)
- Genesis Marketing Group (sales services)
- Historical Exegetical Electronic Publishing (content provider)
- Innovative Church Marketing Group (advertising services)
- Interactive Pictures Corporation (content provider)
- InterVarsity Press (content provider)
- Ivy Hill/Warner Media Services (manufacturing services)
- Lernout & Hauspie Speech Products (content provider)
- MicroBytes, Inc. (CD duplication services)
- Moody Publishers (content provider)
- National Council of the Churches of Christ in the United States of America (content provider)
- NavPress Publishing Group (content provider)
- Oxford University Press (content provider)
- Pillsbury, Madison & Sutro LLP (legal services)
- Rutledge Hill Press (content provider)
- Sonopress (manufacturing services)
- Standard Publishing (content provider)
- The Lockman Foundation (content provider)

- World Publishing (content provider)

Furthermore during the year ended December 31, 2004, we incurred approximately \$155,000 in expenses related to a settlement agreement with Swartz Private Equity, an institutional private equity investor, for early termination of the agreement. As part of a settlement agreement, we issued 295,692 shares of common stock and paid a cash lump sum of \$125,000. The shares were valued at \$0.10 per share. This has been included in other adjustments.

-26-

Table of Contents***Derivatives***

In November 2004, we issued two warrants to purchase an aggregate of 21,875,000 shares of our common stock in connection with a certain Stock Purchase Agreement completed with Barron Partners, LP, on July 19, 2004. The first warrant entitles the holder to purchase up to 10,937,500 shares of our common stock at a price of \$0.18 per share, and the second warrant entitles the holder to purchase up to 10,937,500 additional shares of our common stock at a price of \$0.60 per share. Each warrant is subject to standard adjustment provisions and each provides for settlement in registered shares of our common stock and may, at the option of the holder, be settled in a cashless, net-share settlement. These warrants have been accounted for as a liability according to the guidance of EITF 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*. In accordance with accounting mandate, the derivative liability associated with these warrants has been and shall continue until our registration statement on Form SB-2 originally filed on November 22, 2004 is declared effective to be adjusted to fair value at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity. The fair value of each warrant was initially assessed at \$2,187,500 (\$4,375,000 total) using the Black-Scholes valuation method. At December 31, 2004, the fair value of the derivative liability was approximately \$1,969,000, and a fair value adjustment of approximately \$292,000 has been included in other expenses for the year then ended.

Amortization

Amortization expense increased approximately \$15,000 for the twelve months ended December 31, 2004. The software license acquired from TLC in July of 1999 is amortized over a 10 year useful life. Amortization expense for 2004 reflects the continual amortization of the software license along with the amortization for the launch of our new Website, www.quickverse.com, during the second quarter of 2004.

Income Tax Benefits

Our effective tax rate differs from the statutory federal rate due to differences between income and expense recognition prescribed by the Internal Revenue Code and Generally Accepted Accounting Principles. We utilize different methods and useful lives for depreciating property and equipment. Changes in estimates (reserves) are recognized as expense for financial reporting but are not deductible for income tax purposes.

We have recognized a net deferred tax asset whose realization depends on generating future taxable income. At December 31, 2003, management established the valuation allowance equal to the total deferred tax assets due to the uncertainty about our ability to continue as a going concern. At December 31, 2004, management adjusted the amount of valuation allowance based on the assessment that we will continue as a going concern and will produce sufficient income in the future to realize our net deferred tax asset. The resulting deferred tax liability reflects income taxes payable in future periods on the net deductible differences related to the 1999 license. We currently have net operating loss carryforwards, for income tax purposes, of approximately \$7,648,000. The carryforwards are the result of income tax losses generated in 2000 (\$2,480,000 expiring in 2020) and 2001 (\$5,168,000 expiring in 2021). We will need to achieve a minimum annual taxable income, before deduction of operating loss carryforwards, of approximately \$450,000 to fully utilize the current loss carryforwards. We believe this is achievable through careful expense management and continued introduction of new products and enhanced versions of our existing products.

Although there can be no assurance, management expects the deductible temporary differences (reserves) to reverse sometime beyond the next fiscal year.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

As of December 31, 2004, we had \$1,551,447 in current assets, \$3,351,893 in current liabilities and a retained deficit of \$6,170,831. We had a loss before income taxes of \$51,806 and a net income after income taxes of \$964,053 for the year ended December 31, 2004. Operating expenses for 2004 included approximately \$149,000 in non-cash expenses related to shares of common stock and warrants issued for services and approximately \$30,000 in non-cash expenses related to shares of common stock issued in a settlement agreement. Other income for 2004 included approximately \$1,000,000 from extinguishment of debt, and other expenses for 2004 included a loss of approximately \$292,000 from the fair value adjustment of derivatives. See "Results Of Operations" above.

Cash Flows for Twelve Months Ended December 31	2004	2003	Change
Cash flows provided (used) by operating activities	\$ (643,668)	\$ 882,221	\$ (1,525,889)
Cash flows (used) by investing activities	\$ (746,932)	\$ (814,457)	\$ 67,525
Cash flows provided (used) by financing activities	\$ 1,690,291	\$ (64,747)	\$ 1,755,038

Net cash provided by operating activities was approximately \$882,000 for the year ended December 31, 2003 and net cash used by operating activities was approximately \$644,000 for the year ended December 31, 2004. The increase in cash used was primarily due to an increase in the amounts paid to suppliers and employees which would include all royalty payments to our content providers.

Net cash used in investing activities was approximately \$814,000 and \$747,000 for the years ended December 31, 2003 and 2004, respectively. The decrease in cash used for investing activities results from our merchant banker reserving cash for a potential increase in credit card chargebacks due to increased purchases during the year ended December 31, 2003, and then refunding or holding only half of that original reserve in cash during the year ended December 31, 2004.

Net cash used by financing activities was approximately \$65,000 for the year ended December 31, 2003 and net cash provided by financing activities was approximately \$1,690,000 for the year ended December 31, 2004. Cash used by financing activities reflects final settlement on our accounts receivable line of credit, payments made on debt obligations, and stock offering costs associated with private placement equity financing. Cash provided by financing activities reflects proceeds from issuance of stock and promissory notes.

Table of Contents

On March 19, 2001, we entered into an Accounts Receivable Financing Agreement with Alliance Financial Capital, Inc. Pursuant to this agreement, Alliance agrees to purchase selected accounts receivable on a discounted basis, including, without limitation, full power to collect, compromise, sue for, assign, or in any manner enforce collection thereof. The agreement provides for advances of 60% toward the purchase of the invoices with a credit line of \$250,000. The terms call for 40% to be held in a reserve account from the collection of each invoice. Invoices not paid by the customer within 90 days of shipment are required to be repurchased by us out of the reserve account. The agreement carries a 12 month term with a minimum monthly fee equal to one half of one percent (.5%). The term renews automatically every 12-months unless a written request for termination is received by Alliance at least 30 days before the renewal date. During the twelve months ended December 31, 2004, we transferred accounts receivable totaling \$300,966 to Alliance for cash advances of \$180,580. As accounts are paid, the collected funds (less the amount advanced and appropriate fees) are disbursed to us. The transfer agreement includes a repurchase requirement and, accordingly, the proceeds were accounted for as a secured borrowing. At December 31, 2004, the balance of receivables transferred and included in trade receivables was \$0. The remaining secured borrowing balance included in accrued expenses was \$0. On July 20, 2004, we terminated the Accounts Receivable Financing Agreement with Alliance.

On July 19, 2004, we completed an equity financing in the amount of \$1,750,000 through a private placement with Barron Partners, LP. Under the terms of the agreement, Barron purchased 21,875,000 restricted shares of common stock at a price of \$0.08 per share. In addition, according to the terms of the agreement, Barron received two warrants to purchase common stock. The first warrant entitles Barron to purchase up to 10,937,500 shares of common stock at a price of \$0.18 per share and the second warrant entitles Barron to purchase up to 10,937,500 additional shares of common stock at a price of \$0.60 per share; each warrant is subject to standard adjustment provisions. These warrants have been accounted for as a liability according to EITF 00-19. In accordance with accounting mandate, the derivative liability associated with these warrants has been and shall continue until our registration statement on Form SB-2 originally filed on November 22, 2004 is declared effective to be adjusted to fair value at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity. The fair value of each warrant was initially assessed at \$2,187,500 (\$4,375,000 total) using the Black-Scholes valuation method. At December 31, 2004, the fair value of the derivative liability was approximately \$1,969,000, and a fair value adjustment of approximately \$292,000 has been included in other expenses for the year then ended. See Exhibits 10.10, 10.11, 10.12 and 10.13.

On September 30, 2004, we issued promissory notes to each of two different individuals. Each of these promissory notes was in the principal amount of \$120,000 and, pursuant to a separate side letter agreement in each case, was convertible at the option of the holder into 1,000,000 restricted shares of common stock. On November 16, 2004, the holders of the promissory notes converted those notes into a total of 2,000,000 shares of our common stock.

We were in arrears with the Internal Revenue Service for back payroll taxes and had been paying the payroll taxes in monthly installments previously approved by the Internal Revenue Service. Subsequent to the financing received in July of 2004, we paid all back payroll taxes that were due to the Internal Revenue Service.

In July 2004, we made the final payment to Zondervan for \$100,000 plus 5% simple interest. This payment completed all of our obligations that were previously outlined in the settlement with The Zondervan Corporation and TLC dated October 2003. See Note 16 - Commitments and Contingencies. In addition, according to the settlement agreement, the term of the 1999 license has been effectively extended indefinitely. However, we continue to amortize the license using the original 10 year economic life.

RISK FACTORS

Several of the matters discussed in this document contain forward-looking statements that involve risks and uncertainties. Factors associated with the forward-looking statements that could cause actual results to differ from those projected or forecast are included in the statements below. In addition to other information contained in this report, readers should carefully consider the following cautionary statements and risk factors.

GENERAL BUSINESS RISKS

Our liquidity and capital resources are very limited.

Our ability to fund working capital and anticipated capital expenditures will depend on our future performance, which is subject to general economic conditions, our customers, actions of our competitors and other factors that are beyond our control. Our ability to fund operating activities is also dependent upon (i) the extent and availability of bank and other credit facilities, (ii) our ability to access external sources of financing, and (iii) our ability to effectively manage our expenses in relation to revenues. We believe that the net proceeds received from our 2004 sales of common stock, warrants and convertible promissory notes, together with future cash flow from operations, and funds from external sources of credit-based debt financing, will be adequate to meet our anticipated liquidity requirements over the next twelve months and will provide additional capital for potential acquisitions. Given our initiative towards rapid revenue growth, there can be no assurance, however, that our operations and access to external sources of financing will continue to provide resources sufficient to satisfy our liabilities arising in the ordinary course of business.

Table of Contents

Our accumulated deficit makes it harder for us to borrow funds.

As of June 30, 2005, and as a result of historical losses in prior years, our accumulated deficit was \$5,967,127. The fact that we maintain an accumulated deficit, as well as the extent of our accumulated deficit relative to recent earnings, negatively affects our ability to borrow funds because lenders generally view an accumulated deficit as a negative factor in evaluating creditworthiness. Any inability on our part to borrow funds if and when required, or any reduction in the favorability of the terms upon which we are able to borrow funds if and when required, including amount, applicable interest rate and collateralization, would likely have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

RISKS ASSOCIATED WITH OUR BUSINESS AND INDUSTRY

We face serious competition in our business segment.

The market for our products is rapidly evolving and intensely competitive as new consumer software products and platforms are regularly introduced. Competition in the consumer software industry is based primarily upon:

- brand name recognition;
- availability of financial resources;
- the quality of titles;
- reviews received for a title from independent reviewers who publish reviews in magazines, Websites, newspapers and other industry publications;
- publisher's access to retail shelf space;
- the price of each title; and
- the number of titles then available.

We face competition from other software publishers, all of which generally sell through the same combination of channels that we do, including chain store, secular, CBA, direct and online sales. Specifically, we currently compete with Logos Research Systems, Inc., Biblesoft, Inc., Thomas Nelson, Inc., WordSearch Bible Publishers and The Zondervan Corporation, among others.

To remain competitive in our market segment we rely heavily upon our product quality, marketing and sales abilities, proprietary technology and product development capability. However, some of our competitors have longer operating histories, larger customer bases and greater financial, marketing, service, support, technical and other resources than we do. Due to these greater resources, certain of our competitors have the ability to undertake more extensive marketing campaigns, adopt more aggressive pricing policies, pay higher fees to licensors and pay more to third-party software developers than we can. Only a small percentage of titles introduced into the software market achieve any degree of sustained market acceptance. If our titles, including special editions, are not successful, our business, our financial condition, including liquidity and profitability, and our results of operations will be negatively impacted. Moreover, we believe that competition from new entrants will increase as the market for faith-based products and services continues to expand.

We depend on only two titles for the overwhelming majority of our revenue.

In fiscal year 2004, approximately 91% of our total revenue was derived from two software titles; QuickVerse®, comprising 63% of total revenue, and Membership Plus®, comprising 28% of total revenue. We expect that a very limited number of popular products will continue to produce a disproportionately large amount of our revenue for the foreseeable future. Due to this dependence on a limited number of titles, the failure of one or more titles or title versions to achieve anticipated results would likely have a material adverse effect on our business, our financial

condition, including liquidity and profitability, and our results of operations.

-30-

Table of Contents

We have experienced, and may continue to experience, reduced revenues and fluctuations in our quarterly operating results due to delays in the introduction and distribution of our products.

A significant portion of our revenue for any given quarter is generated by the sale of new titles and title versions introduced during that quarter or shipped in the immediately preceding quarter. Our inability to timely begin volume shipments of a new title or title version in accordance with our internal development schedule, as has repeatedly been the case in the past, will cause earnings fluctuations and will negatively impact our business, our financial condition, including liquidity and profitability, and our results of operations. Timely introduction of a new title or title version is largely contingent upon the timing of a variety of other factors. Included amongst these are development processes themselves, debugging, approval by third-party content licensors and duplication and packaging processes. Furthermore, the complexity of next-generation systems (such as PDA) has resulted in longer development cycles, higher development expenditures and the need to more carefully monitor and plan development processes associated with these products.

We cannot be certain that we will be able to meet planned release dates for some or all of our new titles or title versions. In the past, we have experienced significant delays in our introduction of some new titles and title versions. For instance, delays in duplication, packaging and distribution caused our QuickVerse® 2005 to begin shipping in early-December 2004, long after the holiday season had been underway. As a result, we experienced fewer sales than we might otherwise have had the product been available before the holiday selling season began, which we believe had a material adverse effect on our results of operations for the 2004 fourth quarter. It is likely in the future that delays will continue to occur and that some new title or title versions will not be released in accordance with our internal development schedule or the expectations of public market analysts and investors, having a negative impact on our business, our financial condition, including liquidity and profitability, and our results of operations in that period.

We have experienced, and may continue to experience, reduced revenues and fluctuations in our quarterly operating results due to the limited life cycle of our products.

The average life cycle of a new title ranges anywhere from a few years to indefinitely, and the average life cycle of a new title version ranges anywhere from twelve to upwards of eighteen months. The majority of sales for a new title or title version occur within the first thirty to one hundred and twenty days following release and net revenue associated with the initial introduction generally constitutes a high percentage of the total net revenue over the life of the title or title version. Factors such as competition, market acceptance, seasonality and technological, developmental and/or promotional expenses associated with a title or title version can shorten the life cycle of older titles and title versions and increase the importance of our ability to regularly release new titles and title versions. Consequently, if net revenue in a given period is below expectation, our business, our financial condition, including liquidity and profitability, and our results of operations in that period are likely to be negatively affected, as has repeatedly occurred in the past.

Product returns, price protections or concessions that exceed our anticipated reserves could result in worse than expected operating results.

At the time we ship our products we establish reserves, including reserves that estimate the potential for future product returns and price concessions. In the past, particularly during title version transitions, we have had to increase price concessions to our wholesale retail customers. If consumer demand for a specific title or title version falls below expectations or significantly declines below previous rates of retail sell-through, then a price concession or credit may be requested by our wholesale retail customers to spur further retail channel sell-through. Coupled with more competitive pricing, if product returns, price protections or price concessions exceed our reserves the magnitude of quarterly fluctuations will increase and our operating and financial results will be negatively impacted. Furthermore, if

we incorrectly assess the creditworthiness of any one of our wholesale customers who take delivery of our products on credit, we could be required to significantly increase reserves previously established.

Typically we experience the highest reserves at the end of the first quarter and fourth quarter and the lowest at the end of the third quarter. Historically, actual returns have been within management's prior estimates, however, we cannot be certain that any future write-offs exceeding reserves will not occur or that amounts written off will not have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

Table of Contents

Errors or defects in our software products may cause a loss of market acceptance and result in fewer sales of our products.

Our products are complex and may contain undetected errors or defects when first introduced or as new versions are released. In the past, we have discovered software errors in some of our new products and enhancements after their introduction into the market. Because our products are complex, we anticipate that software errors and defects will be present in new products or releases in the future. To date we have not discovered any material errors, however, future errors and defects could result in adverse product reviews and a loss of, or delay in, market acceptance of our products.

We may not have available funds to develop products that consumers want.

The Bible-study, inspirational content and organizational management software markets are subject to rapid technological developments. Although the life of most of our titles may be quite long, the life of any given version tends to be relatively short, in many cases less than three years. To develop products that consumers, church and other faith-based organizations desire, we must continually improve and enhance our existing products and technologies and develop new products and technologies that incorporate these technological developments. Our inability to do this would likely have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

We focus our development and publishing activities principally on new versions of our existing titles. We cannot, however, be certain that we will have the financial and technical resources available to continue to develop these new title versions particularly since we must undertake these initiatives while remaining competitive in terms of performance and price. This will require substantial investments in research and development, often times well in advance of the widespread release of a product into the market and any revenues these products may generate.

Our cash outlays for product development for the fiscal year ended December 31, 2004 were higher than the fiscal year ended December 31, 2003. Our product development cash outlays may increase in the future as a result of the higher costs associated with releasing more software titles or new title versions across multiple user interface platforms, and the complexity of developing such titles and title versions for next-generation systems, among other reasons. We anticipate that our profitability will continue to be impacted by the levels of research and development expenditures relative to revenue and by fluctuations relating to the timing of development in anticipation of future user interface platforms.

The loss of any of our key executives could have a material adverse effect on our business.

Our success depends to a large degree upon the skills of our three key executives, Steven Malone, Kirk R. Rowland and William Terrill. We presently do not maintain key person life insurance on any of our three key executives. Although we have employment agreements with each of our three key executives, there can be no assurance that we will be able to retain our existing key personnel or attract and retain additional key personnel. The loss of any one of our three key executives would likely have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

The successful development of our products depends on our ability to attract, integrate, motivate and retain highly skilled personnel.

Our success depends to a large extent on our ability to attract, hire and retain skilled software developers, programmers and other highly skilled technical personnel. The software industry is characterized by a high level of employee mobility and aggressive recruiting among competitors for personnel with programming, technical and

product development skills. We may not be able to attract and retain skilled personnel or may incur significant costs in order to do so. If we are unable to attract additional qualified employees or retain the services of key personnel, our business, our financial condition, including liquidity and profitability, and our results of operations could be negatively impacted.

-32-

Table of Contents

Our intellectual property may not be adequately protected from unauthorized use by others, which could increase our litigation costs and adversely affect our sales.

Our copyrighted software content and the brand recognition associated with our related product trademarks are the most important assets that we possess in our ability to generate revenues and profits, and we rely very significantly on these intellectual property assets in being able to effectively compete in our market. There can be no assurance that these intellectual property assets will provide meaningful protection to us from unauthorized use by others, which could result in an increase in competing products and a reduction in our own sales. If we must pursue litigation in the future to enforce or otherwise protect our intellectual property rights, or to determine the validity and scope of the proprietary rights of others, we may not prevail and will likely have to make substantial expenditures and divert valuable resources in any case. This is particularly true given the fact that the copyrights that we own to the source code and other improvements made to our largest-selling products since 1999 have not been registered, which means that we may not rely upon the otherwise existing advantage of a rebuttable presumption of ownership in the event of, and in connection with, any such litigation.

Our exclusive rights to publish and sell our largest-selling titles are limited to non-secular channels.

Approximately 97% of our revenues in 2004, including those generated from sales of QuickVerse® and Membership Plus®, by far our two largest selling software titles, were derived from the publishing and sales of software titles to which we have only the exclusive license to publish and sell into non-secular channels. Although we do not believe that any third parties have been granted any rights to date in addition to our own to publish or sell these titles into secular channels, and do believe that, even if this has occurred or should occur in the future, the barriers to entry created by the extensive developments that we have made and now own to these otherwise licensed titles would make it practically infeasible for any third party to effectively compete with us in relation to these products in any market, there can be no assurance that one or more competitors will not emerge at some point or that they will not impact on our sales and revenues.

If our products infringe any proprietary rights of others, a lawsuit may be brought against us that could require us to pay large legal expenses and judgments and redesign or discontinue selling one or more of our products.

We are not aware of any circumstances under which our products infringe upon any valid existing proprietary rights of third parties. Any infringement claims, however, whether or not meritorious, could result in costly litigation or require us to enter into royalty or licensing agreements. If we are found to have infringed the proprietary rights of others, we could be required to pay damages, redesign the products or discontinue their sale. Any of these outcomes, individually or collectively, could have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

New Internet access devices may change the way information is displayed requiring us to change our products.

Recent increases in the use of Internet devices to access inspirational content and the continued development of Internet devices as a medium for the delivery of network-based information, content, and services may require us to change our products. Our success depends on our ability to understand the method upon which our search engines operate and our ability to service new and emerging devices to access the Internet, such as browser phones, personal digital assistants, and other wireless devices. To the extent these new Internet access devices change the way that information is displayed to the end-user or causes a change in the medium that is searched, we may be required to revise the methodology of our products. We cannot predict the impact that new devices will have on our services across the entire spectrum of developing technologies, and any required product adaptations may result in loss of revenue and goodwill, increased expenses, and reduced operating margins.

Revenue varies due to the seasonal nature of consumer software purchases.

Our business is highly seasonal. More than 50% of our annual sales are expected to occur in the five months of September through January; the five months of April through August are generally our weakest, generating only about 29% of our annual sales. The seasonal pattern is due primarily to the increased consumer demand for software during the year-end holiday selling season and the reduced demand for software during the summer months. Our earnings vary significantly and are materially affected by releases of popular titles and title versions and, accordingly, may not necessarily reflect the seasonal patterns of the industry as a whole. We expect that operating results will continue to fluctuate seasonally in the future.

Table of Contents

RISKS ASSOCIATED WITH AN INVESTMENT IN OUR COMMON STOCK

We face serious financial penalties for any continuing failure to meet our registration obligations to Barron Partners, LP.

On July 19, 2004, we entered into a certain Stock Purchase Agreement pursuant to which we agreed to issue and sell 21,875,000 restricted shares of our common stock, and warrants to purchase another 21,875,000 shares of our common stock, to Barron Partners, LP, a New York based institutional investor. As part of the financing transaction, we also entered into a certain Registration Rights Agreement with Barron Partners, LP pursuant to which we became committed to registering all of the shares issued as part of such transaction, including those issuable under the warrants. On November 22, 2004, we filed a registration statement on Form SB-2 covering the shares issued to Barron Partners, as well as the shares underlying the warrants issued to Barron Partners. Under the terms of the Registration Rights Agreement, as amended, we had until April 22, 2005 to cause such registration statement to be declared effective by the SEC. In accordance with the terms of the Registration Rights Agreement, any delays in meeting this obligation subject us to liability to Barron Partners, LP in an amount equal to \$1,726 per day for the duration of any such delay.

As of the date of this filing, the registration statement filed on November 22, 2004 had not yet been declared effective. Pursuant to a tentative verbal agreement reached with Barron Partners in April 2005, wherein, in relation to the associated accruing penalties, we agreed to pay Barron Partners an amount in cash equal to \$100,000 to toll the accrual of further penalties until June 21, 2005. Although this amount has been paid in full, in two equal installments of \$50,000 on each of April 22, 2005 and July 8, 2005, penalties in the amount of \$1,726 per day continue to accrue from June 21, 2005 until the registration statement is declared effective. We have experienced ongoing delays in effectiveness of the registration statement due principally to ongoing efforts made necessary by our determination to restate certain of our historical financials information. Although there can be no assurance, management is hopeful that we will be able to cause the registration statement to be declared effective within the next several months and that, because of their interest in our financial prosperity, we will be able to obtain an agreement with Barron Partners with respect to accruing penalties such that any amounts owed by us as of the time the registration statement is declared effective can be paid by us in installments over time on the basis of a schedule that we will be able to meet without undue financial hardship. If we are unsuccessful in causing the registration statement to be declared effective by the SEC in the near future, however, it is likely to have a very material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

We may incur derivative liabilities in an as yet unknown amount in connection with our issuance of two common stock warrants.

In November 2004 we issued two warrants to purchase an aggregate of 21,875,000 shares of our common stock in connection with a certain Stock Purchase Agreement completed with Barron Partners, LP, on July 19, 2004. The first warrant entitles the holder to purchase up to 10,937,500 shares of our common stock at a price of \$0.18 per share, and the second warrant entitles the holder to purchase up to 10,937,500 additional shares of our common stock at a price of \$0.60 per share. Each warrant is subject to standard adjustment provisions and each provides for settlement in registered shares of our common stock and may, at the option of the holder, be settled in a cashless, net-share settlement.

The fair value of each warrant was initially assessed at \$2,187,500 (\$4,375,000 total) using the Black-Scholes valuation method. In accordance with accounting mandate, the derivative liability associated with these warrants has been and shall continue until our registration statement on Form SB-2 originally filed on November 22, 2004 is declared effective to be adjusted to fair value at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity.

At December 31, 2004, the fair value of the derivative liability was approximately \$1,969,000, and a fair value adjustment of approximately \$292,000 has been included in other expenses for the year then ended. The fair value of the derivative liability is directly related and will fluctuate in response to the share price of our common stock. In the event that the fair value of the derivative liability exceeds the amount of any cashless, net-share settlement under the warrants, we may find it necessary to compensate the holder through cash payments, which would have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations, including a corresponding reduction in our net income and the likelihood of a net loss for the year. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Derivatives”.

-34-

Table of Contents

Up to 47,491,666 shares of our common stock are likely to become eligible for public sale as a result of a resale registration statement filing which is likely to depress our stock price.

As of the date of filing of this annual report with the SEC on Form 10-KSB/A, we also have a registration statement filed with the SEC on Form SB-2 which, once declared effective by the SEC, will cause to be eligible for immediate resale on the public market 24,341,666 shares of our common stock and an additional 23,150,000 shares of our common stock underlying warrants (the resale offering of which shall only be made by means of a separate prospectus). As a percentage of our total outstanding common stock, this represents 66.2%. If a significant number of shares are offered for sale simultaneously, which is likely to occur, it would have a depressive effect on the trading price of our common stock on the public market. Any such depressive effect may encourage short positions and short sales, which could place further downward pressure on the price of our common stock. Moreover, all of the shares sold in the offering will be freely transferable thereafter without restriction or further registration under the Securities Act (except for any shares purchased by our “affiliates”, as defined in Rule 144 of the Securities Act), which could place even further downward pressure on the price of our common stock. Furthermore, should a simultaneous sell-off occur, and due to the thinly-traded market for our common stock, stockholders may have difficulty selling shares of our common stock, at or above the price paid, at a fair market value or even at all.

Unless an active trading market develops for our common stock, you may not be able to sell your shares.

We are a reporting company and our common stock is listed on the OTC Bulletin Board (owned and operated by the Nasdaq Stock Market, Inc.), however, there is no active trading market for our common stock. There can be no assurance that an active trading market will ever develop for our common stock or, if it does develop, that it will be maintained. Failure to develop or maintain an active trading market will have a generally negative effect on the price of our common stock, and you may be unable to sell your shares or any attempted sale of such shares may have the effect of lowering the market price, and therefore your investment could be a complete or partial loss.

Since our common stock is thinly traded, it is more susceptible to extreme rises or declines in price, and you may not be able to sell your shares at or above the price you paid.

You may have difficulty reselling shares of our common stock, either at or above the price you paid, or even at a fair market value. The stock markets often experience significant price and volume changes that are not related to the operating performance of individual companies, and because our common stock is thinly traded, it is particularly susceptible to such changes. These broad market changes may cause the market price of our common stock to decline regardless of how well we perform as a company, and, depending on when you determine to sell, you may not be able to obtain a price at or above the price you paid.

Trading in our common stock on the OTC Bulletin Board may be limited thereby making it more difficult for you to resell any shares you may own.

Our common stock trades on the OTC Bulletin Board owned and operated by the Nasdaq Stock Market, Inc. The OTC Bulletin Board is not an exchange and, because trading of securities on the OTC Bulletin Board is often more sporadic than the trading of securities listed on a national exchange or on the Nasdaq National Market, you may have difficulty reselling any of the shares of our common stock that you purchase from the selling stockholders.

Our common stock is subject to the “penny stock” regulations, which is likely to make it more difficult to sell.

Our common stock is considered a “penny stock”, which generally is a stock trading under \$5.00 and not registered on national securities exchanges or quoted on the Nasdaq National Market. The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. This regulation generally has the result of

reducing trading in such stocks, restricting the pool of potential investors for such stocks, and making it more difficult for investors to sell their shares. Prior to a transaction in a penny stock, a broker-dealer is required to:

- deliver a standardized risk disclosure document that provides information about penny stocks and the nature and level of risks in the penny stock market;
- provide the customer with current bid and offer quotations for the penny stock;
- explain the compensation of the broker-dealer and its salesperson in the transaction;
- provide monthly account statements showing the market value of each penny stock held in the customer's account; and
- make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction.

These requirements may have the effect of reducing the level of trading activity in the secondary market for a stock that is subject to the penny stock rules. Since our common stock is subject to the penny stock rules, investors in our common stock may find it more difficult to sell their shares.

Table of Contents

Our stock price could be volatile, and your investment could suffer a decline in value.

The trading price of our common stock is likely to be highly volatile and could be subject to extreme fluctuations in price in response to various factors, many of which are beyond our control, including:

- the trading volume of our shares;
- the number of securities analysts, market-makers and brokers following our common stock;
- changes in, or failure to achieve, financial estimates by securities analysts;
- new products introduced or announced by us or our competitors;
- announcements of technological innovations by us or our competitors;
- our ability to produce and distribute retail packaged versions of our software in advance of peak retail selling seasons;
- actual or anticipated variations in quarterly operating results;
- conditions or trends in the consumer software and/or Christian products industries;
- announcements by us of significant acquisitions, strategic partnerships, joint ventures, or capital commitments;
- additions or departures of key personnel;
- sales of our common stock; and
- stock market price and volume fluctuations of publicly-traded, particularly microcap, companies generally.

The volatility of our common stock is illustrated by reference to the fact that, during fiscal year 2004, our trading price fluctuated from a low of \$0.018 to a high of \$0.40 per share.

The stock market has recently experienced significant price and volume fluctuations. Volatility in the market price for particular companies has often been unrelated or disproportionate to the operating performance of those companies. These broad market and industry factors may seriously harm the market price of our common stock, regardless of our operating performance. In addition, securities class action litigation has often been initiated following periods of volatility in the market price of a company's securities. A securities class action suit against us could result in substantial costs, potential liabilities and the diversion of management's attention and resources from our business. Moreover, and as noted above, our shares are currently traded on the OTC Bulletin Board and, further, are subject to the penny stock regulation. Price fluctuations in such shares are particularly volatile and subject to manipulation by market-makers, short-sellers and option traders.

Future sales of our common stock by our officers or directors may depress our stock price.

Although our officers and directors are contractually obligated to refrain from selling any of their shares until July 20, 2005, following that date, any shares owned by our officers or directors which are registered in another registration statement, or which otherwise may be sold in the future without registration under the Securities Act to the extent permitted by Rule 144 or other exemptions under the Securities Act, may be sold. Because of the perception by the investing public that a sale by such insiders may be reflective of their own lack of confidence in our prospects, the market price of our common stock could decline as a result of a sell-off following sales of substantial amounts of common stock by our officers and directors into the public market, or the mere perception that these sales could occur.

Future issuances of our common or preferred stock may depress our stock price and dilute your interest.

We may want to issue additional shares of our common stock in future financings and may grant stock options to our employees, officers, directors and consultants under our stock incentive plan. Any such issuances could have the effect of depressing the market price of our common stock and, in any case, would dilute the interests of our common stockholders. In addition, we could issue serial preferred stock having rights, preferences and privileges senior to those of our common stock, including the right to receive dividends and/or preferences upon liquidation, dissolution or winding-up in excess of, or prior to, the rights of the holders of our common stock. This could depress the value of our common stock and could reduce or eliminate the amounts that would otherwise have been available to pay dividends on our common stock (which are unlikely in any case) or to make distributions on liquidation.

Table of Contents

If you require dividend income, you should not rely on an investment in our common stock.

Because we have very limited cash resources and a substantial accumulated deficit relative to recent earnings, we have not declared or paid any dividends on our common stock since our inception and we do not anticipate declaring or paying any dividends on our common stock in the foreseeable future. Rather, we intend to retain earnings, if any, for the continued operation and expansion of our business. It is unlikely, therefore, that holders of our common stock will have an opportunity to profit from anything other than potential appreciation in the value of our common stock held by them. If you require dividend income, you should not rely on an investment in our common stock.

The lack of a majority of independent directors on our board of directors may affect our ability to be listed on a national securities exchange or quotation system.

We are not currently subject to the listing requirements of any national securities exchange or quotation system. The listing standards of the national securities exchanges and automated quotation systems require that a company's board of directors consist of a majority of directors who are independent as defined by the Sarbanes-Oxley Act of 2002 and as defined by applicable listing standards, and that the audit committee of the board of directors must consist of at least three members, all of whom are independent. Similarly, the compensation and nominating committees of company boards of directors must also consist of independent directors. Currently, only two of our directors, who are the only members of our audit committee, meet the definition of an "independent" director as defined by the Sarbanes-Oxley Act of 2002 and as defined by listing standards. Further, two of our four directors are currently executive officers and thereby do not satisfy these independence standards. There is no guarantee that we will be able to appoint an additional director who will satisfy these independence requirements. If we are unable to appoint an additional independent director to our board, we will be precluded from listing any of our capital stock on a national securities exchange or quotation system.

The even number of members on each of our board of directors, audit committee and compensation committee could result in a stalemate on important company matters.

The fact that we currently have four members on our board of directors, and two members on each of our board of directors' audit and compensation committees, could result in a tie vote on company matters, including those involving highly material corporate governance issues. Moreover, we do not currently have any duly adopted resolution procedures in place that would provide a means for resolving any stalemate that might occur in this regard. Although we are currently in the process of considering potential alternative procedures in order to be prepared for having to face such a potential situation, our current lack of any such procedure could result in our inability to be able to act under circumstances in which the failure to act or any delay in acting could have a material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

There may exist a potential conflict of interest between us and each of our former and current counsel.

In the past we have issued, and we may continue in the future to issue, warrants to purchase our common stock as equity compensation for legal and other services rendered in connection with the preparation of our securities filings. Specifically, we have issued warrants to the law firm of Membrado & Montell, LLP, and to Michael M. Membrado, our corporate counsel. Due to these issuances, there exists the potential for a conflict of interest between us and each of our current and former counsel insofar as the recipients may have been or may be motivated by personal interests that are not necessarily aligned with our own.

ITEM 7. FINANCIAL STATEMENTS.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Findex.com, Inc.:

We have audited the accompanying consolidated balance sheets of Findex.com, Inc. as of December 31, 2004 and 2003 and the related consolidated statements of operations, stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Findex.com, Inc. as of December 31, 2004 and 2003 and the results of its operations and cash flows for the years then ended in conformity with U.S. Generally Accepted Accounting Principles.

As discussed in Note 19 to the consolidated financial statements, there were errors in reporting the Company's settlement agreement for the software license, errors in reporting some of the classifications, errors in reporting the rebate reserve adjustment, and errors in reporting the warrants issued in connection with a private placement in the balance sheets and the statements of operations that were discovered by management as a result of a regulatory review. Accordingly, the consolidated financial statements have been restated to correct the errors.

Findex.com, Inc.
Notes to Consolidated Financial Statements
December 31, 2004 and 2003

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Restated)

ORGANIZATION

Findex.com, Inc. was incorporated under the laws of the State of Nevada on November 7, 1997, as EJH Entertainment, Inc. On December 4, 1997, we acquired EJH Entertainment, Inc., an Idaho corporation, in a stock-for-stock transaction. EJH Idaho was incorporated on June 21, 1968, as Alpine Silver, Inc. Alpine changed its name to The Linked Companies, Inc. on December 4, 1992. On September 9, 1996, The Linked Companies acquired Worldwide Entertainment, Inc., a Delaware corporation, in a stock-for-stock transaction and changed its name to Worldwide Entertainment, Inc. On June 27, 1997, Worldwide Entertainment changed its name to EJH Entertainment, Inc.

On April 30, 1999, we acquired Findex Acquisition Corporation, a Delaware corporation in a stock-for-stock transaction and our name of was changed to Findex.com, Inc. Findex Acquisition Corporation is a wholly-owned subsidiary without current business operations. It was incorporated on February 19, 1999 and acquired FinSource Ltd., a Delaware corporation in April 1999, in a stock-for-stock transaction. The mergers with Findex Acquisition Corporation and FinSource were treated as reorganization mergers with the accounting survivor being FinSource.

On March 7, 2000, we acquired Reagan Holdings, Inc., a Delaware corporation in a stock-for-stock transaction. Reagan was incorporated on July 27, 1999 and is a wholly-owned subsidiary without current business operations.

We are a retail, wholesale and Internet supplier of personal computer software products to business and religious organizations and individuals around the world. In July 1999, we completed a license agreement with Parsons Technology, Inc., a subsidiary of TLC Multimedia, LLC, formerly Mattel Corporation, for the Parsons Church Division of Mattel. In so doing, we obtained the right to market, sell and continue to develop several Bible study software products. We develop and publish church and Bible study software products designed to simplify biblical research and streamline church office tasks.

ACCOUNTING METHOD

We recognize income and expenses on the accrual basis of accounting.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the company and its wholly-owned subsidiaries after eliminations.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Significant estimates used in the consolidated financial statements include the estimates of (i) doubtful accounts, sales returns, price protection and rebates, (ii) provision for income taxes and realizability of the deferred tax assets, (iii) the life and realization of identifiable intangible assets, and (iv) provisions for obsolete inventory. The amounts we will ultimately incur or recover could differ materially from current estimates.

Table of Contents

CONCENTRATIONS

Financial instruments that potentially subject us to concentrations of credit risk consist of cash and cash equivalents and accounts receivable. We place our cash and cash equivalents at well-known, quality financial institutions. We currently maintain our cash balances in one financial institution located in Omaha, Nebraska. The balances are insured by the Federal Deposit Insurance Corporation up to \$100,000. At December 31, 2004, our uninsured cash balance totaled \$268,380.

We sell a majority of our products to end-users through distributors, Christian bookstores, Internet and direct marketing efforts. Although we attempt to prudently manage and control accounts receivable and perform ongoing credit evaluations in the normal course of business, we generally require no collateral on our product sales. During the years ended December 31, 2004 and 2003, we had no major customers that individually accounted for 10% or more of the annual sales.

During the year ended December 31, 2004, we derived 63% of our total revenue from sales of QuickVerse®, 28% from sales of Membership Plus®, and 9% from sales of other software titles.

During the years ended December 31, 2004 and 2003, five vendors provided purchases individually of 10% or more of the total product and material purchases as follows: Vendor A accounted for 29% and 3%, respectively, Vendor B accounted for 18% and 14%, respectively, Vendor C accounted for 17% and 10%, respectively, Vendor D accounted for 12% and 39%, respectively, and Vendor E accounted for 7% and 17%, respectively. Accounts payable relating to Vendors A, B, C, D, and E were \$40,234 and \$20, \$18,426 and \$14,379, \$34,931 and \$26,194, \$-0- and \$39,431, and \$2,020 and \$-0-, as of December 31, 2004 and 2003 respectively.

ROYALTY AGREEMENTS

We have entered into certain agreements whereby we are obligated to pay royalties for content of software published. We generally pay royalties based on a percentage of sales on respective products or on a fee per unit sold basis. We expense software royalties as product costs during the period in which the related revenues are recorded.

CASH AND CASH EQUIVALENTS

We consider all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

RESTRICTED CASH

Restricted cash represents cash held in reserve by our merchant banker to allow for a potential increase in credit card chargebacks from increased consumer purchases. The cash held in reserve by our merchant banker will be unrestricted when consumer sales and chargeback volumes stabilize.

ACCOUNTS RECEIVABLE

Accounts receivable arise in the normal course of business. It is the policy of management to review the outstanding accounts receivable quarterly, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts. Individual accounts are charged against the allowance when they are deemed uncollectible.

INVENTORY

Inventory, including out on consignment, consists primarily of software media, manuals and related packaging materials and is recorded at the lower of cost or market value, determined on a first-in, first-out, and adjusted on a per-item, basis.

PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost. Furniture, fixtures and computer equipment are depreciated over five years using the straight-line method. Software is depreciated over three years using the straight-line method. Expenditures for maintenance, repairs and other renewals of items are charged to expense when incurred.

F-7

Table of Contents

ACCOUNTING FOR LONG-LIVED ASSETS

We review property and equipment and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability is measured by comparison of our carrying amount to future net cash flows the assets are expected to generate. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds its fair market value. Property and equipment to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

INTANGIBLE ASSETS

In accordance with Statement of Financial Accounting Standards (“SFAS”) No. 142, *Goodwill and Other Intangible Assets*, intangible assets with an indefinite useful life are not amortized. Intangible assets with a finite useful life are amortized on the straight-line method over the estimated useful lives. All intangible assets are tested for impairment annually during the fourth quarter.

SOFTWARE DEVELOPMENT COSTS

In accordance with SFAS No. 86, *Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed*, software development costs are expensed as incurred until technological feasibility and marketability has been established, generally with release of a beta version for customer testing. Once the point of technological feasibility and marketability is reached, direct production costs (including labor directly associated with the development projects), indirect costs (including allocated fringe benefits, payroll taxes, facilities costs, and management supervision), and other direct costs (including costs of outside consultants, purchased software to be included in the software product being developed, travel expenses, material and supplies, and other direct costs) are capitalized until the product is available for general release to customers. We amortize capitalized costs on a product-by-product basis. Amortization for each period is the greater of the amount computed using (i) the straight-line basis over the estimated product life (generally from 12 to 18 months), or (ii) the ratio of current revenues to total projected product revenues. Total cumulative capitalized software development costs were \$1,748,735 and \$1,056,672, less accumulated amortization of \$1,047,446 and \$471,966 at December 31, 2004 and 2003, respectively.

Capitalized software development costs are stated at the lower of amortized costs or net realizable value. Recoverability of these capitalized costs is determined at each balance sheet date by comparing the forecasted future revenues from the related products, based on management’s best estimates using appropriate assumptions and projections at the time, to the carrying amount of the capitalized software development costs. If the carrying value is determined not to be recoverable from future revenues, an impairment loss is recognized equal to the amount by which the carrying amount exceeds the future revenues. To date, no capitalized costs have been written down to net realizable value.

SFAS No. 2, *Accounting for Research and Development Costs*, established accounting and reporting standards for research and development. In accordance with SFAS No. 2, costs we incur to enhance our existing products after general release to the public (bug fixes) are expensed in the period they are incurred and included in research and development costs. Research and development costs incurred prior to determination of technological feasibility and marketability and after general release to the public and charged to expense were \$64,653 and \$128,159 for the years ended December 31, 2004 and 2003, respectively.

We capitalize costs related to the development of computer software developed or obtained for internal use in accordance with the American Institute of Certified Public Accountants Statement of Position (“SOP”) 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. Software obtained for internal use has

generally been enterprise level business and finance software that we customize to meet our specific operational needs. We have not sold, leased, or licensed software developed for internal use to our customers and have no intention of doing so in the future.

F-8

Table of Contents

We capitalize costs related to the development and maintenance of our Website in accordance with FASB's EITF Issue No. 00-2, *Accounting for Website Development Costs*. Under EITF Issue No. 00-2, costs expensed as incurred are as follows:

- planning the Website,
- developing the applications and infrastructure until technological feasibility is established,
- developing graphics such as borders, background and text colors, fonts, frames, and buttons, and
- operating the site such as training, administration and maintenance.

Capitalized costs include those incurred to:

- obtain and register an Internet domain name,
- develop or acquire software tools necessary for the development work,
- develop or acquire software necessary for general Website operations,
- develop or acquire code for web applications,
- develop or acquire (and customize) database software and software to integrate applications such as corporate databases and accounting systems into web applications,
- develop HTML web pages or templates,
- install developed applications on the web server,
- create initial hypertext links to other Websites or other locations within the Website, and
- test the Website applications.

We amortize Website development costs on a straight-line basis over the estimated life of the site, generally 36 months. Total cumulative Website development costs, included in other assets on our consolidated balance sheets, were \$86,500 and \$54,662, less accumulated amortization of \$18,795 and \$2,452 at December 31, 2004 and 2003, respectively.

NET REVENUE

We derive revenues from the sale of packaged software products, product support and multiple element arrangements that may include any combination of these items. We recognize software revenue for software products and related services in accordance with SOP 97-2, *Software Revenue Recognition*, as modified by SOP 98-9, *Modification of SOP 97-2, With Respect to Certain Transactions*. We recognize revenue when persuasive evidence of an arrangement exists (generally a purchase order), we have delivered the product, the fee is fixed or determinable and collectibility is probable.

In some situations, we receive advance payments from our customers. We defer revenue associated with these advance payments until we ship the products or offer the support.

In accordance with EITF Issue No. 01-9, *Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Product*, we generally account for cash considerations (such as sales incentives - rebates and coupons) that we give to our customers as a reduction of revenue rather than as an operating expense.

Product Revenue

We typically recognize revenue from the sale of our packaged software products when we ship the product. We sell some of our products on consignment to a limited number of resellers. We recognize revenue for these consignment transactions only when the end-user sale has occurred. Revenue for software distributed electronically via the Internet is recognized when the customer has been provided with the access codes that allow the customer to take immediate possession of the software on its hardware and evidence of the arrangement exists (web order).

We reduce product revenue for estimated returns and price protections that are based on historical experience and other factors such as the volume and price mix of products in the retail channel, trends in retailer inventory and economic trends that might impact customer demand for our products. We also reduce product revenue for the estimated redemption of end-user rebates on certain current product sales. Our rebate reserves are estimated based on the terms and conditions of the specific promotional rebate program, actual sales during the promotion, the amount of redemptions received and historical redemption trends by product and by type of promotional program. We did not offer any rebate programs to our customers during 2004 or 2003 and maintain a reserve for rebate claims remaining unpaid from 2000.

F-9

Table of Contents

Service Revenue

We offer several technical support plans and recognize support revenue over the life of the plans, generally one year.

Multiple Element Arrangements

We also enter into certain revenue arrangements for which we are obligated to deliver multiple products or products and services (multiple elements). For these arrangements, which include software products, we allocate and defer revenue for the undelivered elements based on their vendor-specific objective evidence (“VSOE”) of fair value. VSOE is generally the price charged when that element is sold separately.

In situations where VSOE exists for all elements (delivered and undelivered), we allocate the total revenue to be earned under the arrangement among the various elements, based on their relative fair value. For transactions where VSOE exists only for the undelivered elements, we defer the full fair value of the undelivered elements and recognize the difference between the total arrangement fee and the amount deferred for the undelivered items as revenue (residual method). If VSOE does not exist for undelivered items that are services, we recognize the entire arrangement fee ratably over the remaining service period. If VSOE does not exist for undelivered elements that are specified products, we defer revenue until the earlier of the delivery of all elements or the point at which we determine VSOE for these undelivered elements.

We recognize revenue related to the delivered products or services only if: (i) the above revenue recognition criteria are met; (ii) any undelivered products or services are not essential to the functionality of the delivered products and services; (iii) payment for the delivered products or services is not contingent upon delivery of the remaining products or service; and (iv) we have an enforceable claim to receive the amount due in the event that we do not deliver the undelivered products or services.

Shipping and Handling Costs

We record the amounts we charge our customers for the shipping and handling of our software products as product revenue and we record the related costs as cost of sales on our consolidated statements of operations.

Customer Service and Technical Support

Customer service and technical support costs include the costs associated with performing order processing, answering customer inquiries by telephone and through Websites, e-mail and other electronic means, and providing technical support assistance to our customers. In connection with the sale of certain products, we provide a limited amount of free technical support assistance to customers. We do not defer the recognition of any revenue associated with sales of these products, since the cost of providing this free technical support is insignificant. The technical support is provided within one year after the associated revenue is recognized and free product enhancements (bug fixes) are minimal and infrequent. We accrue the estimated cost of providing this free support upon product shipment and are recorded as cost of sales.

ADVERTISING

Advertising costs, including direct response advertising costs, are charged to operations as incurred. We have determined that direct response advertising costs are insignificant. Total advertising costs for the years ended December 31, 2004 and 2003 were approximately, \$448,000 and \$240,000, respectively.

STOCK-BASED COMPENSATION

As permitted under SFAS No. 123, *Accounting for Stock-based Compensation*, and amended under SFAS No. 148, *Accounting for Stock-based Compensation-Transition and Disclosure*, we have elected to follow the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion (“APB”) No. 25, *Accounting for Stock Issued to Employees*, in accounting for stock-based awards to employees (see Note 13) and, accordingly, does not recognize compensation cost when employee stock-option grants are made at fair-market value.

F-10

Table of Contents

LEGAL COSTS RELATED TO LOSS CONTINGENCIES

We accrue legal costs expected to be incurred in connection with a loss contingency as they occur.

INCOME TAXES

We utilize SFAS No. 109, *Accounting for Income Taxes*. SFAS No. 109 requires the use of the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are provided for the temporary differences between the financial reporting basis and the tax basis of our assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

EARNINGS PER SHARE

We follow SFAS No. 128, *Earnings Per Share*, to calculate and report basic and diluted earnings per share (“EPS”). Basic EPS is computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is computed by giving effect to all dilutive potential shares of common stock that were outstanding during the period. For us, dilutive potential shares of common stock consist of the incremental shares of common stock issuable upon the exercise of stock options and warrants for all periods, convertible notes payable and the incremental shares of common stock issuable upon the conversion of convertible preferred stock.

When discontinued operations, extraordinary items, and/or the cumulative effect of an accounting change are present, income before any of such items on a per share basis represents the “control number” in determining whether potential shares of common stock are dilutive or anti-dilutive. Thus, the same number of potential shares of common stock used in computing diluted EPS for income from continuing operations is used in calculating all other reported diluted EPS amounts. In the case of a net loss, it is assumed that no incremental shares would be issued because they would be anti-dilutive. In addition, certain options and warrants are considered anti-dilutive because the exercise prices were above the average market price during the period. Anti-dilutive shares are not included in the computation of diluted EPS, in accordance with SFAS No. 128.

COMPREHENSIVE INCOME (LOSS)

We have adopted SFAS No. 130, *Reporting Comprehensive Income*. SFAS No. 130 establishes standards of reporting and displaying comprehensive income and its components of net income and “other comprehensive income” in a full set of general-purpose financial statements. “Other comprehensive income” refers to revenues, expenses, gains and losses that are not included in net income, but rather are recorded directly in stockholders’ equity. The adoption of this Statement had no impact on our net income or loss or stockholders’ equity.

TRANSFER OF FINANCIAL ASSETS

We have adopted SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No. 140 provides accounting and reporting standards for transfers and servicing of financial assets and extinguishments of liabilities and provides consistent standards for distinguishing transfers of financial assets that are sales from transfers that are secured borrowings. The adoption of this standard did not have a material effect on our results of operations or financial position.

FAIR VALUE OF FINANCIAL INSTRUMENTS

Unless otherwise indicated, the fair values of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such instruments because of the short maturity of those instruments.

F-11

Table of Contents**DERIVATIVES**

We account for warrants issued with shares of common stock in a private placement according to EITF Issue 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*. In accordance with accounting mandate, the derivative liability associated with the warrants has been and shall continue until our registration statement on Form SB-2 originally filed on November 22, 2004 is declared effective to be adjusted to fair value (calculated using the Black Scholes method) at each balance sheet date and is accordingly reassessed at each such time to determine whether the warrants should be classified (or reclassified, as appropriate) as a liability or as equity. The corresponding fair value adjustment is included in the consolidated statements of operations as other expenses as the value of the warrants increases from an increase in our stock price at the balance sheet date and as other income as the value of the warrants decreases from a decrease in our stock price.

RECLASSIFICATIONS

Certain accounts in the 2003 financial statements have been reclassified for comparative purposes to conform with the presentation in the 2004 financial statements.

NOTE 2 - ACCOUNTS RECEIVABLE

At December 31, 2004 and 2003, accounts receivable consisted of the following (see Note 1 - Concentrations):

	2004	2003
Trade receivables	\$ 584,819	\$ 384,803
Less: Allowance for doubtful accounts	18,000	19,000
Accounts receivable, trade	\$ 566,819	\$ 365,803

During the years ended December 31, 2004 and 2003, we transferred accounts receivable totaling \$300,966 and \$320,533 to Alliance for cash advances of \$180,580 and \$192,320, respectively. As accounts are paid, the collected funds (less the amount advanced and appropriate fees) are disbursed to us. The transfer agreement includes a repurchase requirement and, accordingly, the proceeds were accounted for as a secured borrowing. The agreement was terminated in July 2004. At December 31, 2004 and 2003, the balance of receivables transferred and included in trade receivables was \$-0- and \$34,893, respectively. The remaining secured borrowing balances of \$-0- and \$20,936 are included in accrued expenses at December 31, 2004 and 2003, respectively.

NOTE 3 - INVENTORIES

At December 31, 2004 and 2003, inventories consisted of the following:

	2004	2003
Raw materials	\$ 111,300	\$ 75,000
Finished goods	122,700	197,600
Inventories	\$ 234,000	\$ 272,600

During the years ended December 31, 2004 and 2003, we wrote-off distinctly different categories of obsolete inventory with a carried cost totaling \$32,396 and \$60,792, respectively. These have been recognized in cost of sales.

NOTE 4 - PROPERTY AND EQUIPMENT, NET

At December 31, 2004 and 2003, property and equipment consisted of the following:

	2004	2003
Computer equipment	\$ 84,009	\$ 61,905
Computer software	62,861	41,297
Office equipment	77,947	24,099
Office furniture and fixtures	62,594	51,119
Warehouse equipment	23,150	23,150
	310,561	201,570
Less: Accumulated depreciation	179,542	135,967
Property and equipment, net	\$ 131,019	\$ 65,603

At December 31, 2004, Office equipment contained telephone equipment under a capital lease obligation with a cost basis of \$51,788. See Notes 7 and 14.

Table of Contents**NOTE 5 - SOFTWARE LICENSE, net (Restated)**

In July 1999, we completed an exclusive license agreement with Parsons Technology, Inc., a subsidiary of The Learning Company, Inc. ("TLC"), for the perpetual and fully-paid up right and license to publish, use, distribute and sublicense the programs incorporating the trademarks (i.e. QuickVerse, Membership Plus) throughout the world and also in the licensed media, for sale, resale and/or license to churches or other places of worship, religious schools and companies or individuals for which the majority of sales revenue is derived from sales of religious, Christian or Bible products (the "Church Channel"). In addition, the license agreement provided us the non-exclusive, perpetual and fully-paid up right and license to publish, use, distribute and sublicense the programs incorporating the trademarks throughout the world and also in the licensed media, for sale, resale and/or license into all channels other than the Church Channel. This original license agreement carried a 10 year economic life.

During the year ended December 31, 2002 we reached tentative settlement in a dispute with TLC which called for the extension of the term of the license from 10 years to 50 years.

On October 20, 2003, we reached settlement in a dispute with The Zondervan Corporation and TLC which extended indefinitely the term of the software license agreement.

As required by SFAS No. 142, management periodically evaluates the remaining useful life of the license agreement and revises the amortization period if it is determined that the useful life is longer or shorter than originally estimated. Amortization expense, determined using the straight-line method, has been calculated using the original 10 year economic life. The software license is tested for impairment annually during the fourth quarter.

At December 31, 2004 and 2003, the software license consisted of the following:

	2004	2003
Software license cost	\$ 5,135,574	\$ 5,135,574
Less: Accumulated amortization	2,869,791	2,366,283
Software license, net	\$ 2,265,783	\$ 2,769,291

Amortization expense related to this intangible asset was \$503,508 for both years. Amortization expense for the next five years is expected to be \$503,508 each year through 2008 and \$251,751 for 2009. See Note 19 - Restatement and Reclassification.

NOTE 6 - NOTES PAYABLE

At December 31, 2004 and 2003, notes payable consisted of the following:

	2004	2003
Note payable to a corporation, due May 31, 2003, with interest compounded monthly at 1.5%. Unsecured. Convertible at the option of the holder into 666,667 restricted shares of common stock.	\$ ---	\$ 33,333
	---	33,333

Note payable to a corporation, due May 31, 2003, with interest compounded monthly at 1.5%. Unsecured. Convertible at the option of the holder into 666,667 restricted shares of common stock.

Note payable to a corporation, due May 31, 2003, with interest compounded monthly at 1.5%. Unsecured. Convertible at the option of the holder into 466,666 restricted shares of common stock. See Notes 15 and 18.

		---		23,333
Notes payable	\$	---	\$	89,999

Table of Contents

In September 2004, we borrowed a total of \$240,000 from two individuals. Both notes were unsecured, carried an annual interest rate of 7.5%, were due August 2005, and were convertible at the option of the holder into a total of 2,000,000 restricted shares of common stock. Both notes were converted in November 2004 at the election of the respective holder. See Notes 9 and 15.

During the year ended December 31, 2003, we reclassified as other income (see Note 10) proceeds totaling \$650,000, and the corresponding accrued interest payable, received in late 1999 and early 2000 that were previously recorded as an unsecured note payable.

NOTE 7 - LONG-TERM DEBT

At December 31, 2004 and 2003, long-term debt consisted of the following:

	2004	2003
Unsecured term note payable to a corporation due October 2004 in monthly installments of \$5,285, including interest at 8%.	\$ 26,679	\$ 53,975
Term note payable to a corporation due December 2005 in monthly installments of \$6,833, including interest at 8%. Secured by inventory. See Notes 3 and 10.	---	146,664
Capital lease obligation payable to a corporation due November 2009 in monthly installments of \$1,144, including interest at 11.7%. Secured by telephone equipment. See Notes 4 and 14.	51,788	---
	78,467	200,639
Less: Current maturities	35,495	126,876
Long-term debt	\$ 42,972	\$ 73,763

Principal maturities at December 31, 2004 are as follows:

2005	\$ 35,495
2006	9,186
2007	10,318
2008	11,591
2009	11,877
Total	\$ 78,467

NOTE 8 - INCOME TAXES (Restated)

The provision (benefit) for taxes on income from continuing operations for the years ended December 31, 2004 and 2003 consisted of the following:

	2004	2003
Current:		
Federal	\$ ---	\$ ---
State	1,484	---
	1,484	---
Deferred:		
Federal	(1,009,939)	(185,213)
State	(7,404)	(41,248)
	(1,017,343)	(226,461)
Total tax provision (benefit)	\$ (1,015,859)	\$ (226,461)

F-14

Table of Contents

The reconciliation of income tax computed at statutory rates of income tax benefits is as follows:

	2004	2003
(Benefit) Expense at Federal statutory rate - 25% and 34%	\$ (12,952)	\$ 458,546
State tax effects, net of Federal taxes	(4,069)	(27,224)
Nondeductible expenses	236,009	1,764
Taxable temporary differences	(73,533)	185,213
Deductible temporary differences	356,278	(4,449)
Deferred tax asset valuation allowance	(1,517,592)	(840,311)
Income tax benefit	\$ (1,015,859)	\$ (226,461)

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Our total and net deferred tax assets, deferred tax asset valuation allowances and deferred tax liabilities at December 31, 2004 and 2003 are as follows:

For the year ended December 31, 2004	Federal	State	Total
Current Deferred Income Taxes

Deferred income tax liability, net			\$ (717,151)

A valuation allowance has been recorded primarily related to tax benefits associated with income tax operating loss carryforwards. Adjustments to the valuation allowance will be made if there is a change in management's assessment of the amount of the deferred tax asset that is realizable. At December 31, 2001, in accordance with SFAS No. 109, Accounting for Income Taxes, management established the valuation allowance equal to the total deferred tax assets due to the uncertainty about our ability to continue as a going concern. At December 31, 2004, management adjusted the amount of valuation allowance based on the assessment that we will continue as a going concern and will produce sufficient income in the future to realize our net deferred tax asset. The valuation allowance for deferred tax assets was decreased by \$1,602,090 during the year ended December 31, 2004 and decreased by \$231,911 during the year ended December 31, 2003.

At December 31, 2004, we had available net operating loss carryforwards of approximately \$7,648,000 for federal income tax purposes that expire in 2021. The federal carryforwards resulted from losses generated in 1996 through 2002. We also had net operating loss carryforwards available from various state jurisdictions ranging from approximately \$39,000 to approximately \$841,000 that expire in 2021.

See Note 19 - Restatement and Reclassification.

NOTE 9 - STOCKHOLDERS' EQUITY (Restated)**COMMON STOCK**

In July 2003, we issued 250,000 shares of common stock to an employee as settlement of a 2002 signing bonus. These shares were valued at \$0.04 per share, the value on the date the settlement was accepted by the employee.

In July 2003, we issued a total of 600,000 shares of common stock to the external board of directors in lieu of cash and meeting fees for the period April 2002 through June 2003. These shares were valued at \$0.045 per share.

In July 2003, we issued a total of 150,000 shares of common stock to three independent contractors as a bonus for their performance on our software development projects. These shares were valued at \$0.045 per share.

In July 2003, we issued a total of 200,000 shares of common stock to an independent contractor for past and future performance on preparing written corporate materials. These shares were valued at \$0.045 per share.

F-16

Table of Contents

In April 2004, we issued a total of 1,519,349 restricted shares of common stock to the executive management team as payment of the 2003 accrued performance bonus. These shares were valued at \$0.022 per share.

In April 2004, we resolved to issue 637,500 restricted shares of common stock to the non-executive employees as additional compensation pursuant to an incentive and retention bonus program. In July, 2004, we removed 2,500 restricted shares of common stock from the resolution due to voluntary separation from service by a part-time employee. These shares were valued at \$0.022 per share.

In June 2004, we issued 324,074 restricted shares of common stock to the outside board of directors in lieu of cash and meeting fees for the period from July 2003 through August 2004. These shares were valued at \$0.081 per share.

In July 2004, the holders of 11,400 shares of Series A Preferred Stock and the holders of 40,000 shares of Series B Preferred Stock elected to convert such shares into 218,000 shares of common stock and 266,667 shares of common stock, respectively. In addition, the holders converted \$4,125 unpaid accumulated Series A Preferred Stock dividends into 56,353 shares of common stock.

In July 2004, we issued 295,692 non-restricted shares of common stock in settlement of an agreement with an institutional private equity investor. These shares were valued at \$0.10 per share. A warrant dated March 26, 2001 to purchase 510,000 shares of common stock exercisable at \$0.23 per share was cancelled in the settlement. See Note 10.

In July 2004, we issued 21,875,000 restricted shares of common stock for proceeds of \$1,750,000 through a private placement with a New York based private investment partnership. In connection with this issuance, we incurred \$51,047 in legal and other direct costs. These costs have been recorded as a reduction to additional paid-in capital. In addition, according to the terms of the agreement, the investor received two warrants to purchase shares of common stock. The first warrant entitles the holder to purchase up to 10,937,500 shares of common stock at a price of \$0.18 per share, and the second warrant entitles the holder to purchase up to 10,937,500 additional shares of common stock at a price of \$0.60 per share; each warrant is subject to standard adjustment provisions.

In July 2004, we removed 48,387 previously resolved but un-issued shares of common stock associated with an unexecuted 2001 stock subscription agreement.

In October 2004, we increased the number of our authorized shares of common stock from 50,000,000 to 120,000,000.

In November 2004, we issued 2,000,000 restricted shares of common stock to holders of convertible promissory notes who exercised their options to convert. See Note 6.

COMMON STOCK OPTIONS

In June 2003, we granted an employee 500,000, fully vested stock options with an exercise price of \$0.05 per share. These options expire in June 2013. In addition, 667 unvested stock options with an exercise price of \$1.00 and 6,250 unvested stock options with an exercise price of \$0.11 were forfeited upon termination and 16,250 vested stock options with an exercise price of \$1.00 and 30,000 vested stock options with an exercise price of \$0.11 expired after termination. There was no effect on the financial statements resulting from these transactions. See Note 13.

In July 2004, we cancelled 190,200 vested stock options with an exercise price of \$1.00 per share and 525,000 vested stock options with an exercise price of \$1.03 per share. In addition, 100,000 vested stock options with an exercise price of \$0.11 were voluntarily forfeited by management and 1,333 vested stock options with an exercise price of \$1.00 and 38,750 vested stock options with an exercise price of \$0.11 expired after termination. We apply APB

Opinion No. 25 and related interpretations in accounting for our stock options. Accordingly, no compensation cost has been recognized for these stock options and therefore, there was no effect on the financial statements resulting from these cancellations. See Note 13. We did not grant any options or other stock-based awards to any of the individuals for which the options were canceled, during the six months prior to and after the option cancellation.

F-17

Table of Contents**COMMON STOCK WARRANTS**

In April 2004, we issued a warrant for 150,000 shares of common stock with an exercise price of \$0.022 per share to our corporate counsel as payment for \$3,300 of accrued legal services.

In May 2004, we issued a warrant for 600,000 shares of common stock with an exercise price of \$0.15 per share to a consultant for corporate business planning, financing, and merger and acquisition assistance. This warrant was valued at \$63,215 using the Black-Scholes method and recorded as an expense.

In July 2004, we cancelled a warrant for 510,000 shares of common stock with an exercise price of \$0.23 per share with an institutional private equity investor in connection with a settlement in which 295,692 non-restricted shares of common stock were issued. See Note 10.

In November 2004, we issued two warrants to purchase an aggregate of 21,875,000 shares of our common stock in connection with a certain Stock Purchase Agreement completed with a New York based private investment partnership, on July 19, 2004. The first warrant entitles the holder to purchase up to 10,937,500 shares of our common stock at a price of \$0.18 per share, and the second warrant entitles the holder to purchase up to 10,937,500 additional shares of our common stock at a price of \$0.60 per share. Each warrant is subject to standard adjustment provisions and each provides for settlement in registered shares of our common stock and may, at the option of the holder, be settled in a cashless, net-share settlement. The maximum number of shares of our common stock to be received for each warrant in a net-share settlement would be 10,937,500 but the actual number of shares settled would likely be significantly less and would vary based on the last reported sale price (as reported by Bloomberg) of our common stock on the date immediately preceding the date of the exercise notice. These warrants are accounted for as a liability according to the guidance of EITF 00-19 and the fair value of each warrant was initially assessed at \$2,187,500 (\$4,375,000 total) using the Black-Scholes valuation method. The fair value of each warrant was estimated on the date of commitment with the following assumptions:

	Warrant A	Warrant B
Expected term - years	5	5
Stock price on date of commitment (July 19, 2004)	\$ 0.20	\$ 0.20
Expected dividend yield	0%	0%
Expected stock price volatility	490%	490%
Risk-free interest rate	3.80%	3.80%

We recognized a loss of \$2,697,922 on the commitment of the warrants determined as follows:

Fair value of warrants on commitment date (July 19, 2004)	\$ 4,375,000
Less: Net proceeds received	
Gross proceeds received for stock and warrants	\$ 1,750,000
Par value of common stock issued	(21,875)
Stock offering costs	(51,047)
	\$ 1,677,078
Loss on fair value adjustment of derivatives	\$ 2,697,922

The warrants are revalued at each balance sheet date by using the parameters above, reducing the expected term to reflect the passing of time (4.55 years at December 31, 2004), and using the stock price at the balance sheet date

(\$0.09 at December 31, 2004). A net fair value adjustment of \$291,672 (\$1,968,750, December 31, 2004 fair value, less \$1,677,078, net proceeds received) has been included in other expenses on the consolidated statements of operations for the year ended December 31, 2004.

See Note 19 - Restatement and Reclassification.

F-18

Table of Contents

SERIES A CONVERTIBLE PREFERRED STOCK

The rights, preferences and privileges of our Series A Preferred Stock, none of which currently remain outstanding, were as follows:

Dividends

Holders of Series A Preferred Stock were entitled to receive common stock dividends of \$0.50 per share per annum, in preference to any payment of cash dividends declared or paid on shares of common stock. Dividends on Series A Preferred Stock were fully cumulative and was payable as determined by our board of directors. As of December 31, 2004, no dividends had been declared. Series A Preferred Stock dividends, however, were paid to a stockholder as a conversion incentive.

Liquidation

Holders of Series A Preferred Stock were entitled to liquidation preferences over common stockholders to the extent of \$10.00 per Series A Preferred share, plus all declared but unpaid dividends. If funds were sufficient to make a complete distribution to the preferred stockholders, such stockholders would have shared in the distribution of our assets on a pro rata basis in proportion to the aggregate preferential amounts owed each stockholder. After payment would have been made to the preferred stockholders, any remaining assets and funds would have been distributed equally among the holders of our common stock based upon the number of shares of common stock held by each.

Conversion

Each share of Series A Preferred Stock would have been convertible into shares of common stock at the rate of 10 shares of common stock for each share of Series A Preferred Stock, subject to adjustment.

During the year ended December 31, 2004, all shares of Series A Preferred Stock were converted into shares of common stock.

Redemption

At the election of our board of directors, we were able to redeem all or part of the shares of the Series A Preferred Stock at any time (pro rata based upon the total number of shares of the Preferred Stock held by each holder) by paying in cash a sum per share equal to \$10.00 plus accrued and unpaid dividends per annum.

Voting Rights

The holder of each share of Series A Preferred Stock was not entitled to vote except as required by law.

SERIES B CONVERTIBLE PREFERRED STOCK

The rights, preferences and privileges of our Series B Preferred Stock, none of which currently remains outstanding, were as follows:

Dividends

The holders of Series B Preferred Stock were entitled to receive cumulative cash dividends at the rate of \$1.60 per annum per share. As of December 31, 2004, no dividends had been declared.

Liquidation

The Series B Preferred stockholders were entitled to a liquidation preference in an amount equal to the dividends accrued and unpaid, whether or not declared, without interest, and a sum equal to \$20.00 per share before any payment was to be made or any assets distributed to the holders of our common stock or any other class or series of our capital stock ranking junior as to liquidation rights to the Series B Preferred Stock.

F-19

Table of Contents

Conversion

Each share of Series B Preferred Stock had been convertible into shares of common stock at the rate of 1 share of common stock for each share of Series B Preferred Stock, subject to adjustment.

During the year ended December 31, 2004, all shares of Series B Preferred Stock were converted into shares of common stock.

Redemption

Subject to restrictions, shares of the Series B Preferred Stock were redeemable at our option at any time at the redemption price of \$20.00 per share plus, in each case, an amount equal to the dividends accrued and unpaid thereon to the redemption date. We did not have the right to redeem any shares of Series B Preferred Stock unless the current market value of our common stock immediately prior to the redemption date was not less than \$18.00 per share.

Voting Rights

The holder of each share of Series B Preferred Stock was not entitled to vote, except as required by law and as a class. Voting as a class, the holders were entitled to elect one director to fill one directorship.

NOTE 10 - OTHER INCOME AND ADJUSTMENTS (Restated)

We recorded an adjustment to the balance of accrued royalties for the year ended December 31, 2003 in the amount of \$583,628. This adjustment was a result of our having reached a settlement with TLC regarding the offset credit to which we were entitled against the balance due on the 1999 license. The offset credit was related to sales made to TLC that remained in dispute until verified by an independent third-party audit of the sales and related royalty calculations. The royalty liabilities had been accrued based on our sales to TLC as originally reported and were part of the calculation of the June 30, 2001 bad debt provision totaling \$2,391,000. This has been included in other income.

During the year ended December 31, 2003, we reclassified as other income - proceeds totaling \$650,000, and the corresponding accrued interest payable totaling \$216,516, that were previously recorded as an unsecured note payable. The proceeds were originally recorded as an unsecured note payable based upon an oral understanding with an employee of a third-party consultant in 1999. We had historically accrued interest on the outstanding balance at 9%, the rate deemed reasonable by management at the time of the oral agreement. We continued to accrue interest on the proceeds until we made the determination to reclassify the proceeds and accumulated accrued interest (from December 1999 through September 2003). The determination to reclassify the obligation, and related accrued interest, was made on the basis of the combined facts that (i) the obligation exists, if at all, solely pursuant to an oral loan agreement made over three years ago (in 1999) in the State of North Carolina with a representative of the party to whom the obligation was believed to have been owed, (ii) no party has ever made any demand for repayment thereof despite the fact that no payments have ever been made on the obligation, (iii) the party believed to be owed the obligation, upon inquiry, claims no record of any such obligation, and (iv) the State of North Carolina Statute of Limitations applicable to oral agreements, believed to govern the continued enforceability of the obligation, has expired. This transaction has been reflected in the Consolidated Statements of Cash Flows as "Debt forgiveness" and "(Decrease) in other current liabilities".

During the year ended December 31, 2004, we settled with various vendors and content providers for lump-sum payments ranging from approximately 17% to approximately 60% of balances owed. The difference between the balance owed and the settlement amount, totaling \$1,002,090, has been treated as gain from extinguishment of debt and included in other income.

Table of Contents

During the year ended December 31, 2004, we settled an agreement with Swartz Private Equity, an institutional private equity investor, for early termination of the agreement. We issued 295,692 shares of common stock valued at \$0.10 per share and paid a cash lump sum of \$125,000. A total of \$154,569 has been treated as expenses incurred in a withdrawn public offering. See Note 9. This has been included in other adjustments.

See Note 19 - Restatement and Reclassification.

NOTE 11 - REBATE RESERVE ADJUSTMENT (Restated)

During the years ended December 31, 2004 and 2003, we recorded adjustments to our rebates reserve in the amounts of \$142,039 and \$124,262, respectively; \$266,301 in the aggregate. Our reserve balance properly reflects open rebate programs and the estimated balance of each that management expects to pay. These adjustments are the result of, among other things, an internal review of the amount owed and of our ability to reach intended rebate recipients, as properly reflected by historical response rates. These adjustments to our rebate reserves have been recognized as an adjustment to revenue in accordance with EITF Issue No. 01-09.

See Note 19 - Restatement and Reclassification.

NOTE 12 - EARNINGS PER COMMON SHARE (Restated)

Earnings per common share are computed by dividing net income by the weighted average number of shares of common stock and common stock equivalents outstanding during the year. Common stock equivalents are the net additional number of shares that would be issuable upon the exercise of the outstanding common stock options (see Note 13), assuming that we reinvested the proceeds to purchase additional shares at market value.

The following table shows the amounts used in computing earnings per common share and the effect on income and the average number of shares of dilutive potential common stock:

For the Year Ended December 31	2004	2003
Net Income	\$ 964,053	\$ 1,699,387
Common stock dividend on Preferred Series A	(4,125)	---
Net income available to common shareholders	\$ 959,928	\$ 1,699,387
Basic weighted average shares outstanding	34,520,754	20,411,438
Dilutive effect of:		
Stock options	429,824	---
Convertible notes payable	---	1,800,000
Convertible Preferred Series A	---	114,000
Convertible Preferred Series B	---	40,000
Warrants	245,262	---
Diluted weighted average shares outstanding	35,195,840	22,365,438

A total of 24,315,000 and 4,075,273 dilutive potential securities for the years ended December 31, 2004 and 2003, respectively, have been excluded from the computation of diluted earnings per common share, as their inclusion

would be anti-dilutive.

See Note 19 - Restatement and Reclassification.

NOTE 13 - STOCK-BASED COMPENSATION (Restated)

Our 1999 Stock Incentive Plan authorizes the issuance of various forms of stock-based awards including incentive and nonqualified stock options, stock appreciation rights attached to stock options, and restricted stock awards to our directors, officers and other key employees. The plan has been approved by our stockholders and as such, provides certain income tax advantages to employees as provided under Sections 421, 422, and 424 of the Internal Revenue Code. Stock options are granted at an exercise price as determined by our board at the time the option is granted and may not be less than the par value of such shares of common stock. None of the options granted under the plan have been granted with an exercise price less than fair value of the common stock on the date of grant. Stock options vest quarterly over three years and have a term of up to ten years. The plan authorizes an aggregate of 1,500,000 shares of common stock may be issued. We did not grant any options under the plan during 2004 or 2003.

F-21

Table of Contents

In addition, we issue various forms of stock-based awards including nonqualified stock options and restricted stock awards to directors, officers, other key employees and third-party consultants, outside of the plan. Awards granted outside of the plan have been granted pursuant to equity compensation arrangements that have not been approved by our stockholders. These awards are granted at an exercise price as determined by our board at the time of grant and are not less than the par value of such shares of common stock. None of the options granted outside of the plan have been granted with an exercise price less than fair value of the common stock on the date of grant. Stock options granted outside of the plan vest as determined by our board at the time of grant and have a term of up to ten years. Non-employee directors, though treated as employees for financial reporting purposes under FASB Interpretation No. 44, are excluded from the income tax advantages afforded employees by the Internal Revenue Code. We did not grant any options outside of the plan during 2004 and granted 500,000 nonqualified, fully vested stock options outside of the plan to an officer during 2003.

We apply APB Opinion No. 25 and related interpretations in accounting for our stock options. Accordingly, no compensation cost has been recognized for outstanding stock options. Had compensation cost for our outstanding stock options been determined based on the fair value at the grant date (calculated using the Black-Scholes Option-Pricing Model) for those options consistent with SFAS No. 123, our net income and primary and diluted earnings per share would have differed as reflected by the pro forma amounts indicated below:

	2004	2003
Net income, as reported	\$ 964,053	\$ 1,699,387
Pro Forma compensation charge under SFAS No. 123	---	(59,722)
Pro Forma net income	\$ 964,053	\$ 1,639,665
Earnings per share:		
Basic - as reported	\$ 0.03	\$ 0.08
Basic - pro forma	\$ 0.03	\$ 0.08
Diluted - as reported	\$ 0.03	\$ 0.08
Diluted - pro forma	\$ 0.03	\$ 0.07

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Expected dividend yield	0%
Expected stock price volatility	490%
Risk-free interest rate	3.80%

Table of Contents

Activity under our stock option plans is summarized as follows:

	Outstanding Options	
	Number of Shares	Weighted-Average Exercise Price
Balance at December 31, 2002	2,843,450	\$ 0.33
Granted	500,000	\$ 0.05
Exercised	---	---
Expired or forfeited	(53,167)	\$ 0.39
Canceled	---	---
Balance at December 31, 2003	3,290,283	\$ 0.29
Granted	---	---
Exercised	---	---
Expired or forfeited	(140,083)	\$ 0.12
Canceled	(715,200)	\$ 1.02
Balance at December 31, 2004	2,435,000	\$ 0.09

No stock options, or any other form of stock-based awards, were granted to the individuals for whom the options were cancelled, during the six months prior to and after the cancellation.

The following table summarizes information about stock options outstanding at December 31, 2004:

Range of Exercise Prices	Outstanding Options		Exercisable Options		
	Outstanding at December 31, 2004	Weighted-Average Remaining Contractual Life (Years)	Weighted-Average Exercise Price	Exercisable at December 31, 2004	Weighted-Average Exercise Price
\$0.00 to \$0.11	2,435,000	7.1	\$ 0.0854	2,435,000	\$ 0.0854

The following table summarizes other equity instruments issued during 2004 to acquire goods and services (see Note 9):

	Number of Shares	Weighted-Average Exercise Price
Common stock	2,774,115	\$ 0.0372
Common stock warrants	750,000	\$ 0.1244

See Note 19 - Restatement and Reclassification.

NOTE 14 - RENTAL AND LEASE INFORMATION**OPERATING LEASES**

We lease office space/warehouse facilities in Omaha, Nebraska under an operating lease with a third-party with terms extending through 2007. We are responsible for all taxes, insurance and utility expenses associated with this lease. There is no lease renewal option contained in the lease.

We lease office space in Naperville, Illinois under an operating lease with a third-party with terms extending through September 2005. We are responsible for all insurance expenses associated with this lease.

Rental expense for the years ended December 31, 2004 and 2003 amounted to \$75,555 and \$51,039, respectively. Rental expenses are included in capitalized software development costs. See Note 1 - Software Development Costs.

At December 31, 2004, the future minimum rental payments required under these leases are as follows:

2005	\$ 77,261
2006	65,491
2007	27,288
Total future minimum rental payments	\$ 170,040

Table of Contents**CAPITAL LEASES**

We lease telephone equipment under a capital lease expiring in November 2009. The asset and liability under the capital lease are recorded at the present value of the minimum lease payments. The asset is depreciated over a 5 year life. Depreciation of the asset under the capital lease is included in depreciation expense for 2004.

The following table summarizes property held under capital leases at December 31, 2004:

Office equipment	\$ 51,788
Less: Accumulated depreciation	1,726
Net property and equipment under capital lease	\$ 50,062

Minimum future lease payments under capital leases as of December 31, 2004 for each of the next five years and in the aggregate, are:

2005	\$ 14,870
2006	13,726
2007	13,726
2008	13,726
2009	12,582
Total minimum lease payments	68,630
Less: Amount representing interest	16,842
Total obligations under capital lease	51,788
Less: Current installments of obligations under capital lease	8,816
Long-term obligation under capital lease	\$ 42,972

NOTE 15 - SUPPLEMENTAL CASH FLOW INFORMATION (Restated)

We incurred the following non-cash investing and financing activities during the years ended December 31, 2004 and 2003, respectively:

	2004	2003
Property and equipment acquired under capital lease	\$ 51,788	\$ ---
Conversion of notes payable into common stock. See Note 6.	\$ 263,334	\$ ---
Common stock dividend on Preferred Series A	\$ 4,125	\$ ---
Preferred stock converted into common stock	\$ 470	\$ ---
Common stock and warrants issued for services	\$ 178,929	\$ 52,750

See Note 19 - Restatement and Reclassification.

NOTE 16 - COMMITMENTS AND CONTINGENCIES (Restated)

We are subject to legal proceedings and claims that arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect our financial statements taken as a whole.

We entered into a license agreement in June 1999 with Parsons Technology, Inc., a copy of which has since been assigned to Riverdeep, Inc., the latest licensor-assignee in a succession of assignments that have occurred since the original agreement. The license, as we acquired it in 1999, provided us with the right, for a term of ten years, to publish, use, distribute, sublicense and sell, exclusively worldwide in non-secular channels and non-exclusively in secular channels, a collection of top-selling Christian-related software titles and content owned by Parsons Technology, including certain intellectual properties owned by The Zondervan Corporation.

F-24

Table of Contents

In October 2001, due to a shortage in working capital, we fell in arrears with certain royalty payments due under the Parsons Agreements. Thereafter we became party with, among others, Zondervan, Parsons and Riverdeep, to a court supervised mediation arising out of a content royalty claim. A multi-party settlement was reached on October 20, 2003, providing for our payment to Zondervan of \$500,000 plus 5% simple interest in installments over a period of nine months from November 2003 to July 2004, as well as for the destruction of all inventory containing Zondervan-owned content. We have fully complied with the terms of the agreement and, upon satisfaction, received a covenant in perpetuity with respect to our rights under the Parsons Agreement, effectively extending the agreement indefinitely.

We were in arrears with the Internal Revenue Service for back payroll taxes and had been paying the payroll taxes in monthly installments previously approved by the Internal Revenue Service. In July of 2004, we paid all back payroll taxes that were due to the Internal Revenue Service and remain current with all payroll tax deposits and filings.

Our employment agreements with our management team each contain a provision for an annual bonus equal to 1% of our net income (3% total). We accrue this bonus on a quarterly basis. Our management team consists of our Chief Executive Officer (with a base annual salary of \$150,000), our Chief Financial Officer (with a base annual salary of \$110,000), and our Chief Technology Officer (with a base annual salary of \$150,000). In addition to the bonus provisions and annual base salary, each employment agreement provides for payment of all accrued base salaries, bonuses (\$66,575 included in Other current liabilities at December 31, 2004), and any vested deferred compensation (\$30,349 included in Other current liabilities at December 31, 2004) for termination by reason of disability. The agreements also provide for severance compensation equal to the then base salary until the later of (i) the expiration of the term of the agreement as set forth therein or (ii) one year, when the termination is other than for cause (including termination by reason of disability). There is no severance compensation in the event of voluntary termination or termination for cause.

In 2003 and 2004, we reduced our reserve for rebates payable based, in part, on our ability to meet the financial obligation of claims carried forward from our last rebate program in 2001. As such, we may have a legal obligation to pay rebates in excess of the liability recorded.

On July 19, 2004, we entered into a certain Stock Purchase Agreement pursuant to which we agreed to issue and sell 21,875,000 restricted shares of our common stock to Barron Partners, LP, a New York based institutional investor, at a price of \$0.08 per share. Under the terms of transaction, Barron received two of our common stock purchase warrants. The first warrant entitles the holder, for a period of up to five years, to purchase up to 10,937,500 common shares at a price of \$0.18 per share, subject to standard adjustment provisions. The second warrant entitles the holder, also for a period of up to five years, to purchase up to 10,937,500 additional common shares at a price of \$0.60 per share, subject to standard adjustment provisions.

As part of the financing transaction, we also entered into a certain Registration Rights Agreement with Barron pursuant to which we became committed to registering all of the shares issued as part of such transaction, including those issuable under the warrants. On November 22, 2004, we filed a registration statement on Form SB-2 covering the shares issued to Barron, as well as the shares underlying the warrants issued to Barron. Under the terms of the Registration Rights Agreement, as amended, we had until April 22, 2005 to cause such registration statement to be declared effective by the SEC. In accordance with the terms of the Registration Rights Agreement, any delays in meeting this obligation subjected us to liability to Barron in an amount equal to \$1,726 per day for the duration of any such delay. We continue to accrue \$1,726 (\$630,000 per year/365 days) per day in penalties until the registration statement is declared effective. If we are unable to cause the registration statement to be declared effective by December 31, 2005, we will incur total penalties of approximately \$437,000 (April 23, 2005 through December 31, 2005) which will directly decrease our net income and possibly cause a net loss for the December 31, 2005 year then ending.

See Note 19 - Restatement and Reclassification.

NOTE 17 - RISKS AND UNCERTAINTIES

Our future operating results may be affected by a number of factors. We are dependent upon a number of major inventory and intellectual property suppliers. If a critical supplier had operational problems or ceased making material available to us, operations could be adversely affected.

F-25

Table of Contents

NOTE 18 - SUBSEQUENT EVENTS

Subsequent to December 31, 2004 we restored a stale check (outstanding more than six months) in the amount of \$23,333 to unrestricted cash. The stale check was issued to a corporation as payment in full of a note payable (see Note 6). Communication with the payee resulted in conversion of the note into 466,666 shares of common stock. The transaction has been reflected in unrestricted cash, common stock and paid-in capital at December 31, 2004. We have stopped payment on the check.

As of the date of this filing, the registration statement filed on November 22, 2004 had not yet been declared effective. Pursuant to an agreement reached with the New York based private investment partnership in relation to the associated accruing penalties, we have agreed to pay the New York based private investment partnership an amount in cash equal to \$100,000 in two equal installments of \$50,000 between April 22, 2005 and May 22, 2005 (paid April 22, 2005 and July 8, 2005), with no additional penalty obligations accruing for at least 60 days from April 22, 2005. Although there can be no assurance, management believes that the prospects of our being able to cause the registration statement to be declared effective by June 21, 2005 are good. If we are unsuccessful in causing the registration statement to be declared effective by the SEC by June 21, 2005, however, and depending on how long any such delay in causing effectiveness to be declared by the SEC continues thereafter, it is likely to have a very material adverse effect on our business, our financial condition, including liquidity and profitability, and our results of operations.

NOTE 19 - RESTATEMENT AND RECLASSIFICATION

We have restated our financial statements for the year ended December 31, 2004 to reflect issues identified during a regulatory review of our financial statements associated with a certain registration statement filed with the SEC on November 22, 2004 on Form SB-2. Management and the board of directors concluded these restatements were necessary to reflect the changes described below.

Revisions affecting the consolidated statements of operations:

- During the quarter ended June 30, 2002, we reached a tentative settlement agreement in our arbitration with TLC. The tentative settlement agreement forgave the final, unpaid installment due on a certain software license we originally acquired in July 1999 and extended the 1999 license term from 10 years to 50 years. We originally recorded the final, unpaid installment of \$1,051,785 under the 1999 license as an offset against the recorded historical cost of that 1999 license and recalculated the amortization based on this reduced amount and the extension of the useful life to 50 years. Although paragraph 6 of SFAS No. 141, *Business Combinations*, which guides the recognition and measurement of intangible assets, provides that the measurement of assets in which the consideration given is cash are measured by the amount of cash paid, management has concluded that too much time had passed between the date of the agreement (June 1999) and the date of the tentative settlement (May 2002) for such an offset to be proper. Therefore, we recognized the extinguishment of the liability owed to TLC as income (\$1,051,785) in the statement of operations for the year ended December 31, 2002. This adjustment reduced the retained deficit by \$856,685, net of additional amortization and related income taxes, at December 31, 2003 and 2004 from that originally reported and had no effect on the consolidated statements of operations or consolidated statements of cash flows for the years then ended.
- During the quarter ended December 31, 2003, we reached a final settlement agreement in our dispute with Zondervan and TLC. This final settlement extended the life of the 1999 license, and the trademarks included therein, indefinitely. We originally reassessed the useful life of the 1999 license to be indefinite, based on the guidelines provided by paragraphs 53 and 11 of SFAS No. 142, *Goodwill and Other Intangible Assets*. Management has now concluded a 10 year life is appropriate based on our going concern opinion for 2002 and 2003. Therefore, we restored the estimated economic useful life to the original 10 years and have recalculated annual amortization

accordingly. This adjustment increased the retained deficit at December 31, 2003 (for the prior years' amortization and related income tax effects) and decreased net income by \$856,685, net of additional amortization and related income taxes, for the year ended December 31, 2004. There was no net effect on the consolidated statements of cash flows for the years ended December 31, 2003 and 2004, respectively.

F-26

Table of Contents

- We erroneously treated the 2004 rebates reserve adjustment of \$266,301 as an expense recovery in operating expenses. The correct presentation is as an adjustment to revenue, as provided by EITF Issue No. 01-09, *Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products)*. In addition, we reassessed the adequacy of our rebates reserve at December 31, 2003 and allocated \$124,262 of the total adjustment to fiscal year 2003 with the remaining \$142,039 allocated to fiscal year 2004. See Note 11 - Rebate Reserve Adjustment.
- We erroneously treated the warrants issued to a New York based private investment partnership in connection with a private placement as equity. The correct presentation is as a liability adjusted for changes in fair value, at each balance sheet date, through the consolidated statements of operations, as provided by EITF 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*. We reclassified the initial fair value of the warrants (\$4,375,000 at July 19, 2004) as a current liability (\$1,968,750 at December 31, 2004) and have included the net change in fair value through December 31, 2004 (\$291,672) in Other Expenses on the consolidated statements of operations. See Note 9 - Stockholders' Equity.

Revisions resulting in reclassifications or clarification with no net effect on the consolidated statements of operations:

- During the year ended December 31, 2003, we made the decision to no longer provide support for certain of our products and destroyed all remaining inventory of those products. We originally recorded this as a non-recurring item in the "Other income (expense)" section of the consolidated statements of operations. We revised the consolidated statement of operations for the year ended December 31, 2003 to reflect this obsolete inventory (\$60,792) in cost of sales.
- During the year ended December 31, 2003, we reached a final settlement agreement in our dispute with Zondervan and TLC. As part of the settlement process, we conducted an internal audit (verified by an independent auditor provided by TLC) of the accrued royalties owed Zondervan. The audit provided that accrued royalties were overstated due to the 2001 bad debt recognition of the trade accounts receivable balance of TLC, which had been accumulated since July 1999. The amount overstated had remained part of the dispute with Zondervan and remained in our liabilities until the final settlement was reached in 2003 due to the uncertainty of the settled amount. We originally reported the adjustment of \$583,628 as a non-recurring item in the "Other income (expense)" section of the consolidated statement of operations. The revised consolidated statement of operations for the year ended December 31, 2003 reflects the adjustment as "Other income" in the "Other income (expense)" section.
- During the year ended December 31, 2003, we reclassified loan proceeds, and the corresponding accrued interest payable, that were previously recorded as an unsecured note payable. The proceeds were initially recorded as an unsecured note payable based on an oral understanding with an employee of a third-party consultant in 1999. We had historically accrued interest on the outstanding balance at 9%, the rate deemed reasonable by management at the time of the oral agreement. We continued to accrue interest on the proceeds until we made the determination to reclassify the proceeds and accumulated accrued interest. The determination to reclassify the obligation, and related accrued interest, was made on the basis of the combined facts that (i) the obligation exists, if at all, solely pursuant to an oral loan agreement made in 1999 in the State of North Carolina with a representative of the party to whom the obligation was believed to have been owed, (ii) no party has ever made any demand for repayment thereof despite the fact that no payments have ever been made on the obligation, (iii) the party believed to be owed the obligation, upon inquiry, claims no record of any such obligation, and (iv) the State of North Carolina Statute of Limitations applicable to oral agreements, believed to govern the continued enforceability of the obligation, had expired. We originally reported the reclassification as a non-recurring item of \$866,516 in the "Other income (expense)" section of the consolidated statement of operations. The revised consolidated statement of operations for the year ended December 31, 2003 reflects the adjustment as "Other income" in the "Other income (expense)" section.

Table of Contents

- During the three months ended March 31, 2004, and as a direct result of the settlement with Zondervan and TLC, we wrote-off inventory containing content from Zondervan. Though not technologically obsolete, we were unable to sell the inventory under the terms of the settlement. We originally recorded the \$32,396 as a non-recurring item in the “Other income (expense)” section of the consolidated statement of operations. The revised condensed consolidated statement of operations for the year ended December 31, 2004 reflects this inventory adjustment in cost of sales.
- During the three months ended September 30, 2004, we settled an agreement with Swartz Private Equity for early termination. In connection therewith, we issued 295,692 shares of common stock valued at \$0.10 per share and paid a cash lump sum of \$125,000. We originally recorded this transaction as expenses incurred in a withdrawn public offering and reflected it as a non-recurring item of \$154,569 in the consolidated statement of operations. The revised condensed consolidated statement of operations for the year ended December 31, 2004 reflects this transaction as “Other expenses” in the “Other income (expense)” section.
- During the three months ended September 30, 2004, we negotiated settlement with several of our creditors. The debt extinguishment (\$1,002,090 total) was originally reported as an extraordinary item, net of income tax effects (\$601,216), on the consolidated statement of operations. The revised condensed consolidated statement of operations for the year ended December 31, 2004 includes this transaction in “Other income”.

We also expanded footnote disclosures for stockholders’ equity (major assumptions used in valuation of the warrants using the Black-Scholes valuation method), supplemental cash flow information (property and equipment acquired under capital lease) and commitments and contingencies (employment agreements and potential additional rebate liability).

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

There were no reportable events under this Item 8 during the year ended December 31, 2004.

ITEM 8A. CONTROLS AND PROCEDURES.

(a) Formation of Disclosure Controls and Procedures Officer Committee

Our Disclosure Controls and Procedures Officer Committee (the “Disclosure Policy Committee”) was formed in September 2002 and reports directly to our Chief Executive Officer and Chief Financial Officer. The Disclosure Policy Committee has implemented disclosure controls and procedures that meet the standards established by Rule 13a-15 of the Exchange Act. These controls and procedures have been reviewed and adopted by the audit committee of our board of directors.

Disclosure Controls and Procedures

The Disclosure Policy Committee is primarily responsible for establishing and maintaining disclosure controls and procedures designed to ensure that the information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported in a timely manner as specified in the rules and forms set forth by the United States SEC. These controls and procedures are designed to ensure that the information required to be disclosed in our reports is accumulated and communicated to our management, including our principal executive and principal financial officers, or other persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

The Disclosure Policy Committee is also responsible for establishing and maintaining our internal controls over financial reporting. These controls are effectuated by our board of directors, management and other company personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with Generally Accepted Accounting Principles. These internal controls and procedures pertain to: (i) the maintenance of reasonably detailed records that accurately and fairly reflect transactions with respect to and the disposition of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary so as to permit the preparation of financial statements in accordance with Generally Accepted Accounting Principles; (iii) provide reasonable assurance that receipts and expenditures are being made in accordance with the authorization of our board of directors and management; and (iv) provide reasonable assurance regarding the prevention or timely detection of the unauthorized acquisition, use or disposition of our assets, that could have a material effect on our financial statements.

(b) Evaluation of Disclosure Controls and Procedures and Annual Report on Internal Control over Financial Reporting

The Disclosure Policy Committee meets quarterly within one week of the last day of the period in which a given report is due. Members provide information that is documented in the Quarterly Control and Procedures Report for the period in which a quarterly 10-QSB or annual 10-KSB report is due. This report contains attestations and documentation in regard to the following:

- The fact that internal controls have been reviewed as of the end of the period covered by a given report;

- Any concerns regarding weaknesses in internal control;
- Any concerns relating to events that may require disclosure;
- Any concerns relating to internal fraud/defalcation;
- Potential material losses;
- New off-balance sheet arrangements;
- Material amounts not reflected on the general ledger.

Table of Contents

The Quarterly Control and Procedures Report is completed, signed and presented to the CEO and CFO prior to completion of the first draft of each 10-QSB and 10-KSB. Because material issues may occur between regularly scheduled quarterly meetings, this report is to be generated by the disclosure policy appropriate officers at anytime warranted. The CEO and CFO will consult with our Disclosure Policy Committee to determine any action that is necessary.

Our CEO and CFO have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the fiscal quarter covered by this annual report on Form 10-KSB/A. Based on this evaluation, our CEO and CFO have concluded that these disclosure controls and procedures are effective and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Exchange, is recorded, processed, summarized and reported within the requisite time periods.

Our CEO and CFO have evaluated the effectiveness of the design and operation of our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) as of the end of the fiscal year covered by this annual report on Form 10-KSB/A. Based on this evaluation, our CEO and CFO have concluded that these internal controls over financial reporting are effective and provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with Generally Accepted Accounting Principles.

During the course of their evaluation our CEO and CFO did not discover any fraud involving management or any other personnel who play a significant role in our disclosure controls and procedures or internal controls over financial reporting. Furthermore, because there were no significant deficiencies and/or material weaknesses discovered no remedial measures were necessary or taken during the period covered by this report to correct any such deficiencies.

(c) Changes in Internal Control over Financial Reporting

No changes in our disclosure controls and procedures, internal controls over financial reporting or other factors have occurred during the fiscal quarter covered by this report that would materially affect or be reasonably likely to materially affect our disclosure controls and procedures or internal controls over financial reporting.

ITEM 8B. OTHER INFORMATION.

There were no reportable events under this Item 8B during the year ended December 31, 2004.

PART III**ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT.**

Our directors and executive officers and their ages as of June 7, 2005 were as follows:

Name	Age	Position
Steven Malone	38	Director, Chairman of the Board and President
Henry M. Washington, Ph.D.	61	Director

John A. Kuehne, CA	48	Director
Kirk R. Rowland, CPA	45	Director and Chief Financial Officer
William Terrill	48	Chief Technology Officer
Brittian Edwards	42	Vice President, CBA Sales and Licensing
Chad Grosse-Rhode	35	Vice President, Sales and Marketing

Table of Contents

Steven Malone - Chairman of the Board of Directors, President and Chief Executive Officer

Mr. Malone has served as our President and Chief Executive Officer since March 2001 and as a director and Chairman of the Board since February 2002. Between July 2000 and March 2001, Mr. Malone was Senior Vice President and between June 1999 and July 2000 he was a Vice President. Mr. Malone possesses over seventeen years of experience in the computer industry, with the last eleven focused on software sales. As a National Account Manager from 1992 to 1996 for Grolier Interactive, he was responsible for their largest retail and distribution accounts. As Director of Corporate Sales from 1996 to 1998 for Software Publishing Corporation, he was responsible for the on-going sales growth of premiere corporate products, such as the award winning Harvard Graphics, as well as the introduction of several new products to the corporate marketplace. As Director of Sales from 1998 to 1999 for InfoUSA, he was responsible for sales and marketing of InfoUSA's products to retail, distribution, OEM and corporate accounts.

Henry M. Washington, Ph.D. - Director

Dr. Washington has served as one of our directors since December 2000. He is also presently President of Wren Enterprises Corporation, a position that he has held since January 2005. Wren Enterprises is a private manufacturing solutions company working with automotive, non-automotive, agricultural markets, utilities and government agencies providing plastic, metal and fabrication. Prior to his position with Wren, Dr. Washington served as the interim President for Jamestown Plastic Molders Corporation from January 2001 to April 2004. During the year of 2000, Dr. Washington served as Managing Director of Rilas & Rogers, LLC, an international consulting firm located in Detroit. Dr. Washington has held short-term assignments with the U.S. Department of Commerce, where he was Executive Director from 1995 to 1998 of the Department's Minority Business Opportunity Committee. He currently serves on several national organizations including the American Association of Christian Counselors, The Black Caucus International Think Tank, and the International Trade and Development Organization dealing with global security issues. Dr. Washington holds a Bachelor of Management and Metaphysics degree, a Masters of Metaphysics and Theology degree, and a Doctorate degree in Metaphysical Counseling, in each case from the University of Metaphysics, and in each case which are accredited by The International Metaphysical Ministry for use by its Ministry and for membership in The American Metaphysical Doctors Association.

John A. Kuehne, CA - Director

Mr. Kuehne has served as one of our directors since December 2000. He is also currently a management consultant and the President of SmallCap Corporate Partners Inc., (www.smallcap.ca), a corporate finance and investor communications advisory firm for microcap public companies. He has held this position since August 2003. Prior to SmallCap, Mr. Kuehne served as a management consultant with Alliance Corporate Services Inc. from July 2000 through to June 2003. Mr. Kuehne worked in finance and accounting for Deloitte & Touche for eight years. He also has industry experience, including over seven years with Doman Industries Limited (1990 to 1999), a large private Canadian forest products company, where he eventually became Chief Financial Officer. As the CFO of Doman Industries, Mr. Kuehne gained practical experience in corporate finance and mergers and acquisitions, completing a US \$125 million senior note issue through Bear Stearns and the \$140 million acquisition of Pacific Forest Products. Mr. Kuehne holds a Bachelor of Commerce degree from the University of Alberta (1984) and a Masters of Management from the J.L.Kellogg Graduate School of Management at Northwestern University (1990). From June 2000 to May 2004 he served as a director of Prospector Consolidated Resources Inc., a Canadian public company. From January 2003 to November 2004 he served as a director of Beau Pre Explorations Ltd., also a Canadian public company. Mr. Kuehne qualified as a Canadian Chartered Accountant in 1983 and as an American Certified Public Accountant in 1985.

Kirk R. Rowland, CPA - Chief Financial Officer

Mr. Rowland has served as our Chief Financial Officer and as one of our directors since April 2002. He served as our Vice President of Finance from March 2001 to April 2002, and as our Director of Finance from December 1999 through March 2001. Mr. Rowland has over seventeen years of experience in public accounting working in a multitude of industries, including insurance, manufacturing, and agriculture. Most recently, and from 1992 to 1999 he was a partner in Manning & Associates, P.C. a local Nebraska accounting firm. From 1984 to 1988, Mr. Rowland was a Senior Staff Accountant with KMG Main Hurdman (now KPMG), an international accounting firm, and from 1988 to 1992 he was an Audit Supervisor with Sommer, Magnuson, & Dawson, P.C.

-40-

Table of Contents

William Terrill - Chief Technology Officer

Mr. Terrill rejoined us in July 2002 as our Chief Technology Officer after having been involved with us from July 1999 to July 2000. He has over 25 years of experience managing software divisions and technology efforts for us, The Learning Company, Mindscape, and The Software Toolworks. As Vice President of the Parsons Church Division for The Learning Company, from January 1999 to July 1999, Mr. Terrill managed a 30% annual revenue increase and shared responsibilities in the transaction that resulted in our acquiring that division. Mr. Terrill was the Senior Vice President Reference Products Division for Mindscape from 1989 to 1995 managing revenues exceeding \$14 million. He has extensive experience managing international software development teams in China, Singapore, United Kingdom, India, and Russia. Mr. Terrill has experience with joint ventures, spin-offs, mergers, IPOs, and corporate acquisitions. In addition, Mr. Terrill has lead software product marketing teams and content/media acquisition efforts for over ten years. As a consultant from 1996 to 1998, Mr. Terrill has extensive experience leading large-scale product development and information technology efforts for Navistar, Nalco Chemical, American Express, Motorola, and IBM Global Services. From July 2000 to July 2002, Mr. Terrill served as the IT Integration Program Manager for Blue Diamond Joint Venture between Ford Motor Company and International Truck and Engine Corporation.

Brittian Edwards - Vice President of CBA Sales and Licensing

Mr. Edwards has served as our Vice President of CBA Sales and Licensing since July 2004. Mr. Edwards served as our Vice President of Sales from April 2002 to July 2004 and director of Christian Booksellers Association Sales from July 1999 to April 2002. Mr. Edwards has been in the Christian Booksellers Association marketplace for more than 17 years. He began his career in 1988 with LifeWay Christian Resources as LifeWay Christian Stores retail manager. He then worked successfully for Genesis Marketing Group from 1994 to 1995 as a Sales Manager for Texas, Oklahoma, Louisiana and New Mexico. From there he served as a Product Manager for the largest Christian distributor, Spring Arbor, which is now owned by Ingram Book Group. He left Spring Arbor as National Sales Manager in 1988 to become the National Sales Manager for Parsons Technology, then owned by Broderbund.

Chad Grosse-Rhode - Vice President of Sales and Marketing

Mr. Grosse-Rhode joined us in August 2004 as our Vice President of Sales and Marketing. Mr. Grosse-Rhode was most recently with Summitsoft Corporation, (www.summitsoftcorp.com), from July 2003 to July 2004, where he served as the Vice President of Sales and Marketing. Summitsoft produces a full line of small business software products, which are available in both PC and Macintosh® platforms and are sold in most major secular retail outlets. Prior to Summitsoft, Mr. Grosse-Rhode was General Manager of NewLeadsUSA from April 1995 to June 2003, which is a subsidiary of InfoUSA. In this role, Mr. Grosse-Rhode managed the compilation, production, marketing and sales of multiple direct marketing databases. Mr. Grosse-Rhode has over 10 years of senior management experience in both sales and marketing.

Board of Directors Committees

There are currently two standing committees comprised of members of our board of directors. These include the audit committee and the compensation committee.

Since December 2000, we have had an audit committee. The current members of our audit committee include John A. Kuehne and Dr. Henry M. Washington. We currently have one member, John A. Kuehne, who is a “financial expert” (as defined in Regulation 228.401(e)(1)(i)(A) of Regulation S-B) serving on our audit committee. Mr. Kuehne and Dr. Washington both qualify as “independent” directors under Item 7(d)(3)(iv) of Schedule 14A of the Securities Exchange Act of 1934.

Table of Contents

Since July 2003, there have been two members on our board of directors standing compensation committee. The current members of our compensation committee include Dr. Henry M. Washington and John A. Kuehne.

The fact that we currently have four members on our board of directors, and two members on each of our board of directors' audit and compensation committees, could result in a tie vote on company matters, including those involving highly material corporate governance issues. We do not currently have any duly adopted resolution procedures in place that would provide a means for resolving any stalemate that might occur in this regard, but are currently in the process of considering potential alternative procedures in order to be prepared for having to face such a potential situation.

Disclosure Policy Committee

Since September 2002, we have had a Disclosure Controls and Procedure Officer Committee (the "Disclosure Policy Committee"). The current members of the Disclosure Policy Committee include Steven Malone, John A. Kuehne, and Kirk R. Rowland. The Disclosure Policy Committee has implemented disclosure controls and procedures that meet the standards established by Rule 13a-15 of the Securities Exchange Act.

Code of Ethics

We have adopted the Code of Ethics attached as Exhibit 14.1 to this Form 10-KSB/A for our senior financial officers and the principal executive officer.

Compliance with Section 16(a)

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than ten percent of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities of ours. Officers, directors and greater than ten percent stockholders are required by the SEC's regulations to furnish us with copies of all Section 16(a) forms they filed.

The following table sets for the compliance reporting under Section 16(a) during the last fiscal year.

	Number of Late Reports	Number of Transactions Not Timely Reported	Failure to File
Henry M. Washington	1	1	---
William Terrill Barron Partners, LP	1 ---	1 ---	---

ITEM 10. EXECUTIVE COMPENSATION.**SUMMARY COMPENSATION TABLE**

The following table sets forth the total compensation paid to each of our executive officers who earned compensation of \$100,000 or more during any such year. Steven Malone has served as our President and Chief Executive Officer since March 2001. William Terrill has served as our Chief Technology Officer since July 2002. Kirk R. Rowland has served as our Chief Financial Officer and director since April 2002. No other individuals employed by us earned a

salary and bonus in excess of \$100,000 during 2004.

Name and Principal Position	Year	Annual Compensation		Long Term Compensation Awards	
		Salary	Bonus	Restricted Stock Awards	Securities Underlying Options/SARs (#)
Steven Malone, President and Chief Executive Officer	2004	\$150,000	\$22,192	-0-	-0-
	2003	\$150,000	\$18,079	-0-	-0-
	2002	\$150,000	\$2,203	\$37,306	-0-
William Terrill Chief Technology Officer	2004	\$150,000	\$22,192	-0-	-0-
	2003	\$150,000	\$18,079	\$14,536	500,000
	2002	\$72,115	\$2,203	-0-	500,000
Kirk R. Rowland Chief Financial Officer	2004	\$108,846	\$22,192	-0-	-0-
	2003	\$82,306	\$18,079	-0-	-0-
	2002	\$80,000	-0-	\$31,807	-0-

Table of Contents**INFORMATION CONCERNING STOCK OPTIONS**

Our Stock Incentive Plan, adopted in 1999, authorizes the issuance of various forms of stock-based awards including incentive and nonqualified stock options, stock appreciation rights attached to stock options, and restricted stock awards to our directors, officers and other key employees. In accordance with the terms of the Stock Incentive Plan, stock options are granted at an exercise price as determined by our board of directors at the time any such option is granted but which may not be less than the par value of our common shares (\$0.001).

We did not grant stock options during the fiscal year ended December 31, 2004. No executive exercised any stock options during the fiscal year 2004.

Option/SAR Grants in Last Fiscal Year

Name	Number of Securities Underlying Options/SARs Granted (#)	Percent of Total Options/SARs Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh)	Expiration Date
Steven Malone	-0-	-0-	-0-	N/A
William Terrill	-0-	-0-	-0-	N/A
Kirk R. Rowland	-0-	-0-	-0-	N/A

The following table sets forth the number of stock options/SARs held by the executive officers named in the Summary Compensation Table as of December 31, 2004 and the value of unexercised "in-the-money" options/SARs held which represents the positive difference between the exercise price and the market price at fiscal year end. No such executive exercised any options/SARs during the fiscal year 2004.

Aggregated Option/SAR Exercises in Last Fiscal Year and FY-End Option/SAR Values

Name	Shares Acquired on Exercise (#)	Value Realized (\$)	Number of Unexercised Options/SARs at Fiscal Year End (#)	Value of Unexercised "In-the-Money" Options/SARs at Fiscal Year End (\$)
Steven Malone	-0-	-0-	250,000	-0-
William Terrill	-0-	-0-	1,000,000	\$15,000
Kirk R. Rowland	-0-	-0-	150,000	-0-

Table of Contents

DIRECTOR COMPENSATION

Pursuant to authority granted under our Article III, Section 13 of our bylaws, non-officer directors are entitled to such compensation as our board of directors shall from time to time determine. On July 25, 2003, we resolved to issue each of our outside directors 300,000 shares of common stock valued at \$0.045 per share in lieu of cash and meeting fees, for the period April 1, 2002 through June 30, 2003. On June 4, 2004, we resolved to issue our outside directors a total of 324,074 shares of common stock valued at \$0.081 per share in lieu of cash and meeting fees, for the period July 1, 2003 through August 31, 2004. These shares were issued on September 9, 2004. We have accrued \$7,500 for our outside directors' fees, for the period September 1, 2004 through December 31, 2004.

EMPLOYMENT AGREEMENTS

Mr. Malone is employed pursuant to a three-year employment agreement, which commenced on July 25, 2003. The agreement provides for a base annual salary equal to \$150,000 and an annual bonus equal to 1% of our net income. In the event Mr. Malone is terminated by us, other than for cause, we are required to pay him his then base salary until the later of (i) the expiration of the employment agreement or (ii) one year. Mr. Malone has agreed to refrain from competing with us for a period of one year following the termination of his employment.

Mr. Terrill is employed pursuant to a three-year employment agreement, which commenced on June 7, 2002. The agreement provides for a base annual salary equal to \$150,000, an annual bonus equal to 1% of our net income, 500,000 stock options upon his start date at an exercise price of \$0.05 per share, and an additional 500,000 stock options upon the one year anniversary of his start date based on performance criteria outlined in a separate agreement. The agreement also included a signing cash bonus of \$10,000, which was converted on July 25, 2003 into 250,000 shares of common stock at the market price of \$0.04 per share, the value on the date the settlement was accepted. In the event Mr. Terrill is terminated by us, other than for cause, we are required to pay him his then base salary until the later of (i) the expiration of the employment agreement or (ii) one year. Mr. Terrill has agreed to refrain from competing with us for a period of one year following the termination of his employment.

Mr. Rowland is employed pursuant to a two-year employment agreement, which commenced on July 25, 2003. The agreement provides for a base annual salary equal to \$110,000 and an annual bonus equal to 1% of our net income. In the event Mr. Rowland is terminated by us, other than for cause, we are required to pay him his then base salary until the later of (i) the expiration of the employment agreement or (ii) one year. Mr. Rowland has agreed to refrain from competing with us for a period of one year following the termination of his employment.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The tables below set forth information regarding the beneficial ownership of our common stock as of June 7, 2005. The information in these tables provides the ownership information for:

- each person known by us to be the beneficial owner of more than 5% of our common stock;
- each of our directors and executive officers; and
- all of our directors and executive officers as a group.

Table of Contents

Beneficial ownership has been determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to our common stock and those rights to acquire additional shares within sixty days. Unless otherwise indicated, the persons named in the table below have sole voting and investment power with respect to the number of shares of common stock indicated as beneficially owned by them, except to the extent such power may be shared with a spouse. Common stock beneficially owned and percentage ownership are based on 71,769,855 shares of common stock currently outstanding (reflects a 1-for-50 reverse stock-split of our common stock that occurred in 1997 and a 1-for-20 reverse stock-split of our common stock that occurred on March 18, 1998) and 23,150,000 additional shares potentially acquired within sixty days. The address of each person listed is in care of Findex.com, Inc., 11204 Davenport Street, Suite 100, Omaha, Nebraska 68154.

Name of Beneficial Owner	Amount and Nature of Beneficial Owner	Percent of Class
Barron Partners, LP (1)	43,750,000	61.0%

(1) Consists of warrants to acquire up to 21,875,000 shares of common stock and 21,875,000 shares of common stock directly owned.

Name of Beneficial Owner	Amount and Nature of Beneficial Owner	Percent of Class
Steven Malone (1)	2,143,111	3.0%
Henry M. Washington (2)	1,583,025	2.2%
John A. Kuehne (3)	1,691,849	2.4%
Kirk R. Rowland (4)	1,819,111	2.5%
William Terrill (5)	1,751,127	2.4%
All officers and directors as a group (5 persons)	8,988,223	12.5%

(1) Consists of stock options to acquire up to 250,000 shares of common stock, all of which are presently exercisable, 1,719,111 shares of common stock directly owned, and stock options to acquire up to 50,000 shares of common stock all of which are presently exercisable and 124,000 shares of common stock indirectly owned through spouse.

(2) Consists of stock options to acquire up to 175,000 shares of common stock, all of which are presently exercisable and 1,408,025 shares of common stock directly owned.

(3) Consists of stock options to acquire up to 175,000 shares of common stock, all of which are presently exercisable and 1,516,849 shares of common stock directly owned.

(4) Consists of stock options to acquire up to 150,000 shares of common stock, all of which are presently exercisable and 1,669,111 shares of common stock directly owned.

(5) Consists of stock options to acquire up to 1,000,000 shares of common stock, all of which are presently exercisable and 751,127 shares of common stock directly owned.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

On July 19, 2004, we entered into a certain Stock Purchase Agreement pursuant to which we agreed to issue and sell 21,875,000 restricted shares of our common stock to Barron Partners, LP, a New York based institutional investor, at a price of \$0.08 per share. Under the terms of transaction, Barron Partners, LP received two of our common stock purchase warrants. The first warrant entitles the holder, for a period of up to five years, to purchase up to 10,937,500 common shares at a price of \$0.18 per share, subject to standard adjustment provisions. The second warrant entitles the holder, also for a period of up to five years, to purchase up to 10,937,500 additional common shares at a price of \$0.60 per share, subject to standard adjustment provisions.

As part of the financing transaction, we also entered into a certain Registration Rights Agreement with Barron Partners, LP pursuant to which we became committed to registering all of the shares issued as part of such transaction, including those issuable under the warrants. On November 22, 2004, we filed a registration statement on Form SB-2 covering the shares issued to Barron Partners, as well as the shares underlying the warrants issued to Barron Partners. Under the terms of the Registration Rights Agreement, as amended, we had until April 22, 2005 to cause such registration statement to be declared effective by the SEC. In accordance with the terms of the Registration Rights Agreement, any delays in meeting this obligation subjected us to liability to Barron Partners, LP in an amount equal to \$1,726 per day for the duration of any such delay. As of the date of this filing, we had accrued a total of \$100,000 in registration rights penalties for not causing the registration statement to be declared effective by the SEC.

Table of Contents

As of the date hereof, Barron Partners, LP owns 45.43% of our outstanding common stock and, subject to the restrictions contained in Article VII, subsection B of our articles of incorporation, controls the vote associated with such shares.
