**Basis of Presentation and General Information**

Euroseas Ltd. (the Company) was formed on May 5, 2005 under the laws of the Republic of the Marshall Islands to consolidate the beneficial owners of the ship owning companies listed below. On June 28, 2005, the beneficial owners exchanged all their shares in the ship-owning companies for shares in Friends Investment Company Inc., a newly formed Marshall Islands company. On June 29, 2005, Friends Investment Company Inc. then exchanged all the shares in the ship-owning companies for shares in Euroseas Ltd., thus becoming the sole shareholder of Euroseas Ltd. The transaction described above constitutes a reorganization of companies under common control, and has been accounted for in a manner similar to a pooling of interests, as each ship-owning company was under the common control of the Pittas family prior to the transfer of ownership of the companies to Euroseas Ltd. Accordingly, the accompanying unaudited condensed consolidated financial statements have been presented as if the ship-owning companies were consolidated subsidiaries of the Company for all periods presented and using the historical carrying costs of the assets and the liabilities of the ship-owning companies listed below.

On August 25, 2005, Euroseas Ltd. sold 2,342,331 common shares at \$9.00 (after adjusted for the 1-for-3 reverse stock split effected on October 6, 2006) each in an institutional private placement, together with 0.25 of detachable warrants for each common share to acquire up to 585,581 common shares. The total proceeds, net of issuance costs of \$3,500,309, amounted to \$17,510,400. The warrants allow their holders to acquire one share of Euroseas stock at a price of \$10.80 per share and are exercisable for a period of five years from the issue of the warrant. [See Note 12 for final issuance costs adjustments.]

On August 25, 2005, as a condition to the institutional private placement described above, the Company and Cove Apparel, Inc. (Cove, an unrelated party and public shell corporation) signed an Agreement and Plan of Merger (the Merger Agreement). The Merger Agreement provides for the merger of Cove and Euroseas Acquisition Company Inc., a Delaware corporation and a wholly-owned subsidiary of Euroseas Ltd. formed on June 21, 2005, with the current stockholders of Cove receiving 0.0034323 shares (after adjusted for the 1-for-3 reverse stock split) of Euroseas Ltd. common stock for each share of Cove common stock they presently own. Euroseas Ltd., as part of the merger,

Edgar Filing: EUROSEAS LTD. - Form 6-K

filed a registration statement with the Securities and Exchange Commission to register the shares issued in the merger to the Cove stockholders.

The SEC declared effective on February 3, 2006 the Company's registration statement on Form F-4 that registered the Euroseas Ltd. common shares issued to Cove shareholders. The SEC also declared effective on February 3, 2006 the Company's registration statement on Form F-1 that registered the re-sale of the 2,342,331 Euroseas Ltd. common shares and 585,581 Euroseas Ltd. common shares issuable upon the exercise of the warrants issued in connection with the institutional private placement as well as 272,868 shares to be issued to certain Cove's shareholders as part of the merger with Cove.

The Company submitted on February 10, 2006 an application to list the Euroseas Ltd. common shares on the OTC Bulletin Board

On March 27, 2006, Euroseas Ltd. consummated the merger with Cove and, as a result, Cove merged into Euroseas Acquisition Company Inc., and the separate corporate existence of Cove ceased. The Cove stockholders received Euroseas Ltd. common shares and received dividends totaling to \$140,334 related to dividends previously declared by Euroseas Ltd. (the difference of 15 shares is due to rounding-up fractional shares during the exchange). Euroseas Acquisition Company Inc. changed its name to Cove Apparel, Inc. Also, following the completion of the merger, the common stock of Cove has been de-listed and no longer trades on the OTC Bulletin Board. On the date of the merger, Cove had cash of \$10,000, had no other assets and had no liabilities.

Euroseas was approved to trade on March 2, 2006 and started trading on the OTC Bulletin Board on May 5, 2006. On October 6, 2006, the Company effected a 1-for-3 reverse split of its common stock (see also Note 12).

The operations of the vessels are managed by Eurobulk Ltd. (the manager), a corporation controlled by members of the Pittas Family -- the controlling shareholder of Friends Investment Company Inc.

**Significant Accounting Policies**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Accordingly, they do not include all the information and notes required by U.S. generally accepted accounting principles for complete financial statements and, in the opinion of management, reflect all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation of the Company's financial position, results of operations and cash flow for the periods presented. Operating results for the nine month period ended September 30, 2006 are not necessarily indicative of the results that might be expected for the fiscal year ending December 31, 2006.

The unaudited condensed consolidated financial statements as of and for the three and nine months periods ended September 30, 2006 and 2005 should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2005 as filed with the SEC on Form 20-F.

The following are the significant accounting policies adopted by the Company:

***Principles of consolidation***

The accompanying unaudited condensed consolidated financial statements included the accounts of Euroseas Ltd. and its subsidiaries. Inter-company transactions were eliminated on consolidation.

*Use of estimates*

The preparation of the accompanying unaudited condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the stated amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Other comprehensive income*

The Company follows the provisions of Statement of Financial Accounting Standards No. 130, Statement of Comprehensive Income ( SFAS 130 ), which requires separate presentation of certain transactions which are recorded directly as components of stockholders' equity. The Company has no other comprehensive income and, accordingly, comprehensive income equals net income for all periods presented.

**Significant Accounting Policies - continued**

*Foreign currency translation*

The Company's functional currency is the U.S. dollar. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at exchange rates prevailing at the balance sheet date. Income and expenses denominated in foreign currencies are translated into U.S. dollars at exchange rates prevailing at the date of the transaction. Resulting exchange gains and/or losses on settlement or translation are included in the consolidated statements of income.

*Cash equivalents*

Cash equivalents are time deposits or other certificates purchased with an original maturity of three months or less.

*Trade accounts receivable*

The amount shown as trade accounts receivable, at each balance sheet date, includes estimated recoveries from each voyage or time charter, net of a provision for doubtful accounts. At each balance sheet date, the Company provides for doubtful accounts on the basis of specific identified doubtful receivables. At December 31, 2005 and September 30,

2006, no provision for doubtful debts was considered necessary.

*Claims and other receivables*

Claims and other receivables principally represent claims arising from hull or machinery damages, crew salaries claims or other insured risks that have been submitted to insurance adjusters or are currently being compiled. All amounts are shown net of applicable deductibles.

*Inventories*

Inventories consist of bunkers, lubricants and victualling on board the Company's vessels at the balance sheet date and are stated at the lower of cost and market value. Victualling is valued using the first-in-first-out (FIFO) method while bunkers and lubricants are valued on an average cost basis.

*Vessels*

Vessels are stated at cost which comprises the vessels' contract price, costs of major repairs and improvements upon acquisition, direct delivery and other acquisition expenses less accumulated depreciation. Subsequent expenditures for conversions and major improvements are also capitalized when they appreciably extend the life, increase the earning capacity or improve the efficiency or safety of the vessels otherwise these amounts are charged to expense as incurred.

Expenditures for vessel repair and maintenance is charged against income in the period incurred.

**Significant Accounting Policies - Continued**

***Depreciation***

Depreciation is calculated on a straight line basis with reference to the cost of the vessel, age and scrap value as estimated at the date of acquisition. Depreciation is calculated over the remaining useful life of the vessel, which is estimated to range from 25 to 30 years from the completion of its construction. Estimates of remaining useful lives and of the scrap values of property are periodically reviewed and revised to recognize changes in conditions and such revisions, if any, are recognized over current and future periods.

***Revenue and expense recognition***

Revenues are generated from voyage and time charter agreements. Time charter revenues are recorded over the term of the charter as service is provided. Under a voyage charter, the revenues and associated voyage costs are recognized on a pro-rata basis over the duration of the voyage. Probable losses on voyages are provided for in full at the time such losses can be estimated. A voyage is deemed to commence upon the completion of discharge of the vessel's previous cargo and is deemed to end upon the completion of discharge of the current cargo. Demurrage income, which is included in voyage revenues, represents payments received from the charterer when loading or discharging time exceeded the stipulated time in the voyage charter and is recognized when earned.

Charter fees received in advance are deferred and recognized as charter services are rendered.

Vessels operating expenses comprise all expenses relating to the operation of the vessels, including crewing, repairs and maintenance, insurance, stores, lubricants and miscellaneous expenses. Vessels operating expenses are recognized as incurred; payments in advance of services or use are recorded as prepaid expenses. Voyage expenses comprise all expenses relating to particular voyages, including bunkers, port charges, canal tolls, and agency fees.

For the Company's vessels operating in chartering pools, revenues and voyage expenses are pooled and allocated to each pool's participants on a time charter equivalent basis in accordance with an agreed-upon formula.

***Dry-docking and special survey costs***

Dry-docking and special survey costs are deferred and amortized over the estimated period to the next scheduled dry-docking or survey, which are generally two and a half years and five years, respectively. Unamortized dry-docking and special survey costs of vessels that are sold are written-off to income in the year of the vessel's sale.

***Pension and retirement benefit obligations - crew***

The ship-owning companies employ the crews on board the vessels under short-term contracts (usually up to 9 months). Accordingly, they are not liable for any pension or post retirement benefits.

***Financing costs***

Loan arrangement fees are deferred and amortized to interest expense over the duration of the underlying loan using the effective interest method. Unamortized fees relating to loans repaid or refinanced are expensed in the period the repayment or refinancing occurs.

***Assets held for sale***

It is the Company's policy to dispose of vessels when suitable opportunities occur and not necessarily to keep them until the end of their useful life. The Company classifies assets as being held for sale in accordance with SFAS No. 144, "Accounting for the impairment or the disposal of long-lived assets" when the following criteria are met: management has committed to a plan to sell the asset; the asset is available for immediate sale in its present condition; an active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated; the sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale within one year; the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Long-lived assets classified as held for sale are measured at the lower of their carrying amount or fair value less cost to sell. These assets are not depreciated once they meet the criteria to be held for sale. At December 31, 2005 and September 30, 2006, there were no assets held for sale.

***Impairment of long-lived assets***

The Company follows SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, which requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the asset's carrying amount. In the evaluation of the fair value and future benefits of long-lived assets, the Company performs an analysis of the anticipated undiscounted future net cash flows of the related long-lived assets. If the carrying value of the related asset exceeds the undiscounted cash flows, the carrying value is reduced to its fair value. Various factors including future charter rates and vessel operating costs are included in this analysis. The Company determined that no impairment loss is needed to be recognized for applicable assets for any of the periods presented.

***Fair value of time charter acquired***

The Company records all identified tangible and intangible assets associated with the acquisition of a vessel or liabilities at fair value. Where vessels are acquired with existing time charters, the Company allocates the purchase price to the time charters based on the present value of the difference of the charter rate from the prevailing market rate for a charter of equivalent duration. In discounting the charter rate differences in future periods, the Company uses its Weighted Average Cost of Capital (WACC) adjusted to account for the credit quality of the charterer. The capitalized above-market (assets) and below-market (liabilities) charters are amortized as a reduction and increase, respectively, to voyage revenues over the remaining term of the charter.

*Derivative financial instruments*

SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" as amended establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability measured at its fair value with changes in the instruments' fair value recognized currently in earnings unless specific hedge accounting criteria are met. Pursuant to SFAS No. 133, the transactions did not qualify as a hedge or meet the criteria of hedge accounting. All gains or losses on the derivative financial instruments are reflected in the consolidated statements of income.

For the nine month period ended September 30, 2005, the Company had interest rate swaps outstanding which did not qualify for hedge accounting treatment. Accordingly, all related gains or losses have been recorded in the condensed consolidated statements of income. The fair value at September 30, 2005 of (\$100,029) is included in claims and other receivables. There were no interest rate swaps for the nine month period ended September 30, 2006.

*Earning per common share*

Basic earnings per common share are computed by dividing the net income by the weighted average number of common shares outstanding during the year. Potential common shares that are anti-dilutive, such as the warrants outstanding as of September 30, 2006 since their exercise price exceeds the market value of a Euroseas Ltd. common

share, are excluded from earnings per share.

*Segment reporting*

The Company reports financial information and evaluates its operations by charter revenue and not by the length of ship employment for its customers, i.e. spot or time charters. The Company does not use discrete financial information to evaluate the operating results for each such type of charter. Although revenue can be identified for these types of charters, management cannot and does not identify expenses, profitability or other financial information for these charters. As a result, management, including the chief operating decision maker, reviews operating results solely by revenue per day and operating results of the fleet and thus the Company has determined that it operates under one reporting segment. Furthermore, when the Company charters a vessel to a charterer, the charterer is free to trade the vessel worldwide and, as a result, the disclosure of geographical information is impracticable.

*Recent accounting pronouncements*

In March 2006, the Financial Accounting Standards Board ( FASB ) issued SFAS No. 156 Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140. The Statement provides a single definition of fair value, together with a framework for measuring it, and requires additional disclosure about the use of fair value to measure assets and liabilities. Statement 157 also emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority being quoted prices in active markets. Under the Statement, fair value measurements are disclosed by level within that hierarchy. The Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This statement will be effective for the Company on January 1, 2008. The Company does not believe that this pronouncement will have an effect on its financial position, results of operations or cash flows.

On September 13, 2006, the SEC released staff accounting bulleting ( SAB ) No. 108, which provides guidance on materiality. SAB No. 108 states that registrants should use both a balance sheet (iron curtain) approach and an income statement (rollover) approach when quantifying and evaluating the materiality of a misstatement, contains guidance on correcting errors under the dual approach, and provides transition guidance for correcting errors existing in prior years. If prior-year errors that had been previously considered immaterial (based on the appropriate use of the registrant s prior approach) now are considered material based on the approach in the SAB, the registrant need not restate prior period financial statements. SAB No. 108 is effective for annual financial statements covering the first fiscal year ending after November 15, 2006. This statement will be effective for the Company for the fiscal year ending December 31, 2006. The Company is currently evaluating the effect that adoption of SAB No. 108 will have on its financial position and results of operations.
