(a Sino-foreign joint stock limited company incorporated in the People's Republic of China)
(Stock Code: 902)

POWER GENERATION
IN THE FIRST HALF YEAR of 2009

This announcement is made pursuant to Rules 13.09(1) and (2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announces its domestic power generation for the first half year of 2009.

According to the Company's preliminary statistics, as of 30 June 2009, the Company's total domestic power generation on consolidated basis amounted to 86.107 billion kWh, representing a decrease of 5.84% over the same period in 2009.

The decrease in the Company's power generation was mainly due to:-

1. Under the influence of the international financial crisis, power demand in the domestic market declined.
2. New generating units are put into operation continuously, thereby leading to the decline in the average utilization hours of power generation in majority of regions and a negative growth in the Company's power generation.

The power generation of each of the Company's domestic power plants in the first half year of 2009 was listed below (in billion kWh):

Domestic Power Plant	Power generation in the first half year of 2009	Power generation in the first half year of 2008	Change
Liaoning Province			
Dalian	3.739	4.688	-20.24%
