**1. SUMMARY:**

During the quarter ended June 30, 2008 ( 2Q08 ), BANCOLOMBIA recorded net income of Ps. 375.3 billion, an increase of 55.6% as compared to the pro forma Ps. 241.3 billion for the quarter ended June 30, 2007 ( 2Q07 ). Net income for the first six months of 2008 ( 1H08 ) totaled Ps. 629.2 billion, increasing 40.6% as compared to the same period of 2007.

As of June 30, 2008, BANCOLOMBIA s gross loans totaled Ps. 39,327 billion, increasing 22.0% as compared to 2Q07. Loan growth pace, although lower than recent years levels, increased from the 21.5% year over year loan growth presented in the quarter ended March 31, 2008 ( 1Q08 ).

BANCOLOMBIA s ratio of past due loans to total loans as of June 30, 2008 increased slightly to 3.5% from 3.4% in 1Q08. Charge-offs for 2Q08 totaled Ps. 104 billion and coverage ratio, measured as the ratio between allowances for loan and accrued interest losses and past due loans, increased to 120.1% from 115.2% in 1Q08.

BANCOLOMBIA s efficiency ratio, measured as the ratio between operating expenses and net operating income, reached 45.8% for 2Q08 compared to the 56.7% pro forma efficiency ratio for 2Q07.

BANCOLOMBIA s annualized average return on equity for 2Q08 was 29.5% increasing considerably from 19.7% for 1Q08. The Bank s earnings per share for 2Q08 were Ps. 476.43 or US\$0.99 per ADR.

The Bank s positive performance in 2Q08 was mainly driven by strong growth in the main lines of revenue, such as:

Net interest income that totaled Ps. 857.8 billion in 2Q08, resulting in an increase of 24.6% as compared to the pro forma figures for 2Q07.

Fees and income from services that amounted to Ps. 346.5 billion in 2Q08, representing an increase of 18.0% as compared to the pro forma figures for 2Q07.

Other operating income that amounted to Ps. 195.8 billion in 2Q08, representing an increase of 314.0% as compared to the pro forma figures for 2Q07.

The Bank s performance in 2Q08 was partially off-set by:

Total net provisions that amounted to Ps. 241.7 billion for 2Q08, representing an increase of 96.2% when compared to the pro forma figures for 2Q07.

Fees and other service expenses that amounted to Ps 47.6 billion, increasing 113.9% as compared to the pro forma figures for 2Q07.

During 2Q08 BANCOLOMBIA executed an agreement to sell 100% of its interest in Multienlace S.A, company that provides business process outsourcing and contact center services to corporate clients. As a partial result of this deal, the Bank had non-recurring net income of Ps. 21 billion in 2Q08. In addition, the Bank recorded Ps. 19.7 billion as non-recurring net income as a consequence of the VISA IPO as explained in section 3.6 below.

**2. CONSOLIDATED BALANCE SHEET**

**2.1. Assets**

BANCOLOMBIA s assets totaled Ps. 54,311 billion as of June 30, 2008, representing an increase of 5.0% compared to Ps. 51,735 billion as of March 31, 2007 and an increase of 20.7% compared to Ps. 45,011 billion as of June 30, 2007.

**2.1.1. Loan Portfolio**

Loan growth increased slightly during 2Q08, reaching 3.3% as compared to 1Q08 and 22.0% as compared to 2Q07, mostly due to an increase in credit activity in June and to a higher Colombian Peso conversion rate for U.S. dollar denominated loans as a result of the depreciation of the Colombian Peso against the U.S. Dollar towards the end of 2Q08.

The composition of the loan portfolio reflected minor changes in 2Q08; corporate loans, BANCOLOMBIA's largest segment, represented 46.8% of the loan portfolio, decreasing from 47.5% at the end of 1Q08. The Retail and SME's segment reached 32.3% of the loan portfolio, increasing from 31.8% in 1Q08. Financial leases increased their share on the loan portfolio to 13.0%, an increase compared to a share of 12.6% in 1Q08. Finally, mortgage loans maintained their relative size in the loan portfolio, representing 8.0% of the gross loan portfolio, mainly as a result of continuous securitization processes.

Corporate loans amounted to Ps. 18,395 billion as of June 30, 2008, increasing 1.7% as compared to 1Q08 and 16.2% as compared to 2Q07, where loans funded by domestic development banks were the most dynamic, growing at a pace of 15.5% over the quarter.

Retail and small and medium-sized enterprise (SME) loans amounted to Ps. 12,685 billion as of June 30, 2008. This represents an increase of 4.8% as compared to 1Q08 and 34.3% as compared to 2Q07.

Financial leases amounted to Ps. 5,096 billion, increasing 5.9% as compared to 1Q08 and 27.7% as compared to 2Q07. Financial leases is a segment with a number of growth opportunities, as BANCOLOMBIA can take advantage of the cross selling derived from its client base in this segment, especially SME s which get a tax deduction for their financial lease payouts.

Mortgage loans amounted to Ps. 3,150 billion in 2Q08, increasing 2.7% as compared to 2Q07 and 6.6% as compared to 1Q08. During 2Q08 BANCOLOMBIA securitized mortgage loans amounting to Ps. 268.3 billion. If the outstanding securitized loans are added to the outstanding loans in the Bank s balance sheet, this segment would have recorded an increase of 23.2% compared to 2Q07 and 6.3% as compared to 1Q08.

BANCOLOMBIA has two types of currency denominated loans: those denominated in Colombian Peso which comprise 63% of the loan portfolio and those denominated in U.S. Dollars which comprise the remaining part of the loan portfolio. Loan growth figures are affected by currency conversion, especially in periods of high volatility. Specifically, in 2Q08 the Colombian market experienced currency exchange volatility, particularly in the last week of June, when the Colombian Peso ended the quarter depreciating 4.8% against the U.S. dollar which corrected part of the appreciation trend seen during the first six months of the year. This depreciation had a positive effect on the loan portfolio growth as it impacts U.S. dollar denominated loans when converted to Colombian Pesos for accounting purposes. Even without the currency conversion effect, both the peso denominated and U.S. dollar denominated loans maintained a growth rate of over 20% on a year over year basis. U.S. dollar denominated loans grew 1.2% as compared to 1Q08 and 23.8% as compared to the pro forma figures for 2Q07 when measured in dollars. Colombian Peso denominated loans grew 2.3% as compared to 1Q08 and 22.3% as compared to pro forma figures for 2Q07.

Net loans and financial leases represented 69.4% of the total assets as of June 30, 2008, amounting to Ps. 37,710 billion.

### 2.1.2. Investment Portfolio

As of June 30, 2008, BANCOLOMBIA's net investment securities amounted to Ps. 6,168 billion and represented an increase of 4.5% when compared to the figures as of March 31, 2008, and an increase of 11.8% when compared to the figures as of June 30, 2007.

As of June 30, 2008, investments in debt securities amounted to Ps. 6,014 billion and represented 97.5% of BANCOLOMBIA's net investment securities, maintaining a stable relative size comprising 11.1% of total assets. Debt securities increased 5.7% as compared to March 31, 2008, when debt securities amounted to Ps. 5,687 billion and represented 11.0% of total assets, and an increase of 12.1% as compared to the Ps. 5,363 billion as of June 30, 2007 which represented 11.9% of total assets. The quarter over quarter increase is explained by the Bank's need to maintain its debt securities portfolio relative size for liquidity management purposes and by the 10.8% increase in Colombian mortgage backed securities ( TIPS ) as a result of the repurchase of a portion of the mortgages securitized by the Bank in the same period, of which, a vast majority are backed by mortgages originated by the Bank according to its credit policies and standards.

The following table presents the debt securities portfolio breakdown by type of issuer.

### 2.1.3. Asset Quality

Asset quality measures deteriorated slightly over 2Q08 as past due loans to total loans ratio reached 3.5% of total loans, increasing from 3.4% recorded by the end 1Q08. After growing at a pace of 17.0% quarterly in 1Q08, past due loans moderated their growth rate to 6.4% in 2Q08, due in part by the write-down of a Ps. 104 billion loan in 2Q08. On the other hand, allowances for loans and accrued interest losses increased 10.9% over the quarter, increasing coverage levels, as the ratio of allowances to past due loans increased to 120.1% from 115.2% in 1Q08, while the ratio of allowances to loans classified as C, D and E (i.e. those of an inferior quality as measured by their number of days past due) at the end of 2Q08 decreased to 125.9% from 131.4% in 1Q08.

As of June 30, 2008, allowances for loan and accrued interest losses represented 4.2% of gross loans and financial leases, while non-performing loans represented 2.0% of gross loans and financial leases.

Increasing interest rates and continuous gradual change on the composition of the loan portfolio have been the main drivers of the Bank's past due loans levels. The Colombian Central Bank was the first in the region to hike interest rates and has done it since April 2006 increasing its overnight lending rate from 6.00% to 10.00%. As a result of this, interest rates along the economy have increased in recent years, affecting asset quality. In addition, the gradual change in the composition of the loan book presented in recent time, as part of the increased participation of banks in the Colombian economy, has translated in higher participation of Retail and SMEs in BANCOLOMBIA's loan book. Historically, Retail and SME's has been a segment with two particular characteristics: (i) higher margins and (ii) higher levels of delinquencies. In conclusion, higher interest rates in the economy plus a higher participation of the SMEs segment in the loan portfolio have been accompanied by a higher level of past due loans and higher margins, which as a result, have helped to compensate the higher provisions charges in recent quarters and to maintain the Bank's profitability.

(1) Performing past due loans are loans upon which the Bank continues to recognize income although interest in respect of such loans has not been received. Mortgage loans cease to accumulate interest on the statement of operations when they are more than 60 days past due. For all

other loans and financial leasing operations of any type, interest is no longer accumulated after they are more than 30 days past due.

- (2) Under Colombian Bank regulations, a loan is past due when it is at least 31 days past the actual due date.

## 2.2. Liabilities

During 2Q08 the Bank began to focus on increasing its deposit base and consolidating its competitive advantage in terms of funding costs. As of June 30, 2008, BANCOLOMBIA had Ps 34,538 billion of total deposits which represents an increase of 3.7% as compared to 1Q08 and an increase of 16.9% as compared to 2Q08. Most of the growth came in interest bearing deposits which increased 4.0% as compared to 1Q08 and 18.9% as compared to 2Q07. Nonetheless, non- interest bearing deposits grew 1.9% over 2Q08 and 5.9% over the year.

Deposit composition has continued to change over the last 12 months; non-interest bearing deposits reached 13.8% of total deposits from 15.2% in 2Q07, while interest bearing deposits increased their share of deposits to 86.2%, coming from 84.8% in 2Q07. These changes were to a large extent driven by the implementation of marginal reserve requirements that have been in place since 2Q07, which are higher for savings and checking accounts (27% marginal reserve requirement) than for time deposits (5% marginal reserve requirement), conditions that affect the funding preferences among Colombian banks. However, Resolution 5 of 2008, issued by the Colombian Central Bank's board of directors, released on June 20, 2008, introduced some changes to the existing reserve requirement, modifying the ordinary reserve requirements to (i) 11.5% for demand deposits (ii) 6% for time deposits under 540 days; (iii) 0% for deposits with maturities above 540 days. This resolution also eliminates the marginal reserve requirements and will be applied beginning on August 13, 2008. The Bank expects these measures to eliminate the deposit cost distortion created by marginal reserve requirements, especially on branch based deposits. In addition, the Bank also expects these measures to draw some market liquidity and affect funding costs. However, the effect on market liquidity is expected to be gradually eased by the U.S. Dollar international reserves accumulation announced by the Colombian Central Bank in the same resolution.

### 2.3. Shareholders Equity

BANCOLOMBIA's shareholders' equity amounted to Ps. 5,292 billion at the end of 2Q08, which represents an increase of 7.5% as compared to 1Q08, mostly explained by the operating results of the Bank in 2Q08. As compared to 2Q07, this represents an increase of 48.3%, mainly due to the Bank's stock issuance in 3Q07.

At the end of 2Q08, the Bank's consolidated ratio of technical capital to risk-weighted assets was 11.8%, a slight decrease from the 11.9% recorded in 1Q08, but still 282 basis points above the minimum established by Colombian regulators.

Unrealized losses on debt securities amounted to Ps 63.7 billion as of June 30, 2008, increasing from Ps. 49.1 billion presented by the end of 1Q08 and explained by higher interest rates on Colombia's bonds secondary market, which affect the valuation of our available for sale and held to maturity debt securities.

Technical capital is the sum of basic capital and additional capital.

- (2) Capital Adequacy is technical capital divided by risk weighted assets.

### **3. INCOME STATEMENT**

BANCOLOMBIA's net income amounted to Ps. 375.3 billion for 2Q08, increasing 55.6% as compared to the pro forma figures for 2Q07, driven by double digit growth in the net interest income, fees and other operating income, and partially off-set by higher provisions. On a quarterly basis, net income for 2Q08 increased 47.9% as compared to the Ps. 253.9 billion for 1Q08.

Net income totaled Ps. 629.2 billion for the first six months of 2008, increasing 40.6% as compared to the same period of 2007. Return on average shareholders' equity for 2Q08 was 29.5% which represents an increase from the 27.0% in the pro forma figures for 2Q07.

### 3.1. Net Interest Income

During 2Q08, interest on loans reached Ps. 1,174 billion, increasing 3.6% as compared to 1Q08 and 35.5% as compared to the Ps. 867 billion recorded in the pro forma figures for 2Q07, mainly driven by higher interest rates as a result of the continuous re-pricing of the loan portfolio.

Despite a weak quarter for Colombia's bond market, interest on investment securities increased 39.4% in 2Q08 to Ps. 111,136 million, explained by a lower duration and a higher participation of variable rate instruments in the debt securities portfolio, which helped to mitigate the losses produced by mark to market valuation of the Bank's trading portfolio.

Overall, total interest income increased 5.3% as compared to 1Q08, while total interest expense grew at a lower rate of 2.2%. As a result, net interest income increased 7.7% as compared to 1Q08 and net interest margin increased from 7.0% in 1Q08 to 7.5% in 2Q08 due to higher margin in the loan portfolio (loans interest margin increased to 8.3% from 8.0% in 1Q08) and higher debt investment interest margin (2.1% in 2Q08 compared to 0.1% in 1Q08).

### 3.2. Provisions

Total net provisions for 2Q08 amounted to Ps. 241.7 billion, increasing 96.2% as compared to the pro forma figures for 2Q07 and increasing 39.5% as compared to 1Q08. Specifically, provisions for loans and accrued interest losses increased 70.3% in 2Q08 as compared to pro forma 2Q07 driven by higher levels of past due loans. On the other hand, recoveries on provisions for foreclosed assets and other assets decreased 35.8% over the same period, also contributing to the higher level of net provisions.

### 3.3. Fees and Income from Services

Net fees and income from services totaled Ps. 299.0 billion during 2Q08, increasing 10.2% as compared to the pro forma figures for 2Q07 and decreasing 2.6% as compared to 1Q08. Net fees and income from services are being affected by the sale of Multienlace S.A., which occurred during 2Q08, as fees and other service expenses related to contact center services used by the Bank and provided by Multienlace S.A. are no longer considered an intercompany transaction. As a result, expenses related to contact center services were not eliminated as intercompany transactions from the 2Q08 numbers. Consequently, fees and other services expenses increased 89.7% as compared to 1Q08 and 113.9% as compared to proforma 2Q07, explaining the lower net fees and income from services rate of growth in yearly basis.

In fact, fees and other service income before expenses grew 4.4% and 18.0% as compared to 1Q08 and 2Q07 respectively, mostly driven by a dynamic year for credit and debit card related fees, trust management, collection and payment fees, electronic services and ATM fees.

In the last year BANCOLOMBIA has undertaken a series of initiatives to become Colombia's credit card business leader, and as a result, the Bank's accumulated unconsolidated credit card billing increased 26.8% when compared to the pro forma 2Q07, resulting in a 25.6% market share of the Colombian credit card business. In addition, the Bank's number of outstanding credit cards increased 26.1%, resulting in a 17.9% market share of the Colombian total outstanding credit cards at the end of 2Q08.

### 3.4. Other Operating Income

Total other operating income amounted to Ps. 195.8 billion for 2Q08, positively affected by the sale of Multienlace S.A. during the quarter. According to Colombian GAAP, the gain or loss on sale of equity securities can only be recorded when the consideration involved in the transaction is effectively received by the seller. As part of the Multienlace S.A. transaction, the Bank has only received 44% of the consideration in 2Q08 equating Ps. 37 billion, which has been accounted as part of other operating income. In addition, the Bank also received a dividend income from Multienlace S.A. totaling Ps. 15 billion during the quarter. The remaining part of the consideration for the Multienlace S.A. transaction is expected to be received in the quarter ending December 31, 2008.

Notwithstanding the non-recurring events described above, the Bank's other operating income continues to perform in a dynamic way as foreign exchange gains and income derived from forward contracts in foreign currency continue to outperform historic results. The positive performance is explained by the competitive position the Bank has in this market, its broad base of customers and the higher activity in the forward market this year.

### 3.5. Operating expenses

Personnel expenses (the sum of salaries and employee benefits, bonus plan payment and compensation) for 2Q08 increased 10.9% as compared to 1Q08 and 16.9% as compared to the pro forma figures for 2Q07, explained by higher payouts under the bonus plan and variable compensation due to the Bank's improved 1H08 results as compared to 1H07.

Administrative and other expenses increased 1.5% as compared to 1Q08 and 7.5% as compared to the pro forma figures for 2Q07.

During 2Q08, the revenues growth rate was higher than that posted by operating expenses which totaled Ps. 609.6 billion, increasing 4.4% as compared to 1Q08 and 9.6% as compared to the pro forma figures for 2Q07. As a result, BANCOLOMBIA's efficiency, measured by the ratio of operating expenses to net operating income improved during 2Q08, reached 45.8%, which compares favorably to 56.7%, recorded in the 2Q07 pro forma figures. The Bank's efficiency, measured as operating expenses over average total assets, was 4.7% for 2Q08, a decline as compared to 5.1% in the pro forma figures for 2Q07, but a slight increase compared to the 4.6% for 1Q08.

### 3.6. Non Operating Income / Expense

During 2Q08 total non-operating income totaled Ps 29.9 billion, of which Ps. 26.1 billion were related to the compensation received in connection with the membership rights recognized by Visa International Service Association ( Visa International ) as a result of the initial public offering of VISA Inc., which took place in 2007 (the VISA IPO ). Under the restructuring of Visa International, financial institutions that were members of Visa International were entitled to receive compensation for their membership rights once VISA Inc. underwent its initial public offering. As a result of this, non-operating income increased 155.9% as compared to 1Q08 and 164.2% as compared to the pro forma figures for 2Q07.

### 3.7. Income tax expense

Income tax expense for 2Q08 amounted to Ps 145.4 billion decreasing 7.4% as compared to 1Q08 and increasing 75.8% as compared to the pro forma figures for 2Q07. Income tax expense for 1H08 totaled Ps. 302.3 billion increasing 72.1% as compared to the same period of 2007.
