FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements, including statements in the "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this report. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from that expressed or implied by the forward-looking statements. In particular, you should consider the risks and uncertainties described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC.

While we believe we have identified the risks that are material to us, these risks and uncertainties are not exhaustive. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include:

- the loss of our right to exclusively list and trade certain index options and futures products;
- increasing price competition in our industry;
- compliance with legal and regulatory obligations, including our obligations under the Consent Order;
- decreases in trading volumes or a shift in the mix of products traded on our exchanges;
- legislative or regulatory changes;
- increasing competition by foreign and domestic entities;
- our dependence on third party service providers;
- our index providers' ability to perform under our agreements;
- our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights;
- our ability to accommodate trading volume and transaction traffic, including significant increases, without failure or degradation of performance of our systems;
  - our ability to protect our systems and communication networks from security risks, including cyber-attacks;
- the accuracy of our estimates and expectations;
- economic, political and market conditions;
- our ability to maintain access fee revenues;
- our ability to meet our compliance obligations, including managing potential conflicts between our regulatory responsibilities and our for-profit status;
- our ability to attract and retain skilled management and other personnel;
- our ability to manage our growth effectively; and
- the ability of our compliance and risk management methods to effectively monitor and manage our risks.

We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this filing. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

CBOE HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended June 30, 2015 and 2014

(Unaudited)

NOTE 1 —DESCRIPTION OF BUSINESS

CBOE Holdings, Inc. is the holding company for Chicago Board Options Exchange, Incorporated, CBOE Futures Exchange, LLC, C2 Options Exchange, Incorporated and other subsidiaries.

The Company's principal business is operating markets that offer for trading options on various market indexes (index options) and futures contracts, mostly on an exclusive basis, as well as on non-exclusive "multiply-listed" options, such as options on the stocks of individual corporations (equity options) and options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options). The Company operates three stand-alone exchanges, but reports the results of its operations in one reporting segment. CBOE is our primary options market and offers trading in listed options through a single system that integrates electronic trading and traditional open outcry trading on our trading floor in Chicago. This integration of electronic trading and traditional open outcry trading into a single exchange is known as our Hybrid trading model. CFE, our all-electronic futures exchange, offers trading of futures on the VIX Index and other products. C2 is our all-electronic exchange that also offers trading for listed options, and may operate with a different market model and fee structure than CBOE. All of our exchanges operate on our proprietary technology platform known as CBOE Command.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. In addition, the ASU provides guidance on accounting for certain revenue-related costs including when to capitalize costs associated with obtaining and fulfilling a contract. ASU 2014-09 provides companies with two implementation methods. Companies can choose to apply the standard retrospectively to each prior reporting period presented (full retrospective application) or retrospectively with the cumulative effect of initially applying the standard as an adjustment to the opening balance of retained earnings of the annual reporting period that includes the date of initial application (modified retrospective application). This guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The FASB deferred the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. Early adoption of the standard is permitted, but not before the original effective date of December 15, 2016. The Company is in the process of evaluating this guidance, though we do not expect it will materially impact our consolidated balance sheets, statements of income, comprehensive income or cash flows.

NOTE 2 — BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and reported amounts of revenues and expenses. On an ongoing basis, management evaluates its estimates based upon historical experience, observance of trends, information available from outside sources and

various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different conditions or assumptions.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

Table of Contents

Effective January 1, 2015, we updated certain line item descriptions on our condensed consolidated statement of income. The table below highlights the changes:

Prior description	Current description
Employee costs	Compensation and benefits
Data processing	Technology support services
Outside services	Professional fees and outside services
Trading volume incentives	Order routing

With the exception of the change in line item descriptions, there have been no other material changes in the manner or basis for presenting the items.

**NOTE 3 — SHARE REPURCHASE PROGRAM**

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

Under the program, for the six months ended June 30, 2015, the Company repurchased 1,330,507 shares of unrestricted common stock at an average cost per share of \$59.10, totaling \$78.6 million.

Since inception of the program through June 30, 2015, the Company has repurchased 9,185,577 shares of unrestricted common stock at an average cost per share of \$42.35, totaling \$389.0 million.

**NOTE 4 — NET INCOME PER COMMON SHARE**

The computation of basic net income allocated to common stockholders is calculated by reducing net income for the period by dividends paid or declared and undistributed net income for the period that are allocated to participating securities to arrive at net income allocated to common stockholders. Net income allocated to common stockholders is divided by the weighted average number of common shares outstanding during the period to determine net income per share allocated to common stockholders.

The computation of diluted earnings per share is calculated by dividing net income allocated to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. The dilutive effect is calculated using the more dilutive of the two-class or treasury stock method.

The following table reconciles net income allocated to common stockholders and the number of shares used to calculate the basic and diluted net income per common share for the three and six months ended June 30, 2015 and 2014:

**NOTE 5 — STOCK-BASED COMPENSATION**

Stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period.

On February 19, 2015, the Company granted 158,661 restricted stock units ("RSUs"), each of which entitles the holders to one share of common stock upon vesting, to certain officers and employees at a fair value of \$61.96 per share. The RSUs vest ratably over three years, with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested restricted stock units will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The restricted stock units have no voting rights but entitle the holder to receive dividend equivalents.

In addition, on February 19, 2015, the Company granted 45,932 RSUs contingent on the achievement of performance conditions, including 22,966 RSUs, at a fair value of \$61.96 per RSU, related to earnings per share during the performance period and 22,966 RSUs, at a fair value of \$74.00 per RSU, related to total shareholder return during the performance period. The Company used the Monte Carlo valuation model method to estimate the fair value of the total shareholder return RSUs which incorporated the following assumptions: risk-free interest rate (1.02%), three-year volatility (19.9%) and three-year correlation with S&P 500 Index (0.44). Each of these performance shares has a performance condition under which the number of units ultimately awarded will vary from 0% to 200% of the original grant, with each unit representing the contingent right to receive one share of our common stock. The vesting period for the shares contingent on the achievement of performance is three years. For each of the performance awards, the restricted stock units will be settled in shares of our common stock following vesting of the restricted stock unit assuming that the participant has been continuously employed during the vesting period, subject to acceleration in the event of a change of control of the Company or in the event of a participant's earlier death or disability. Participants shall have no voting rights with respect to shares until the issuance of the shares of stock. Dividends are accrued by the Company and will be paid once the RSUs contingent on the achievement of

performance conditions vest.

On May 21, 2015, the Company granted 15,504 shares of restricted stock, at a fair value of \$58.06 per share, to the non-employee members of the board of directors. The shares have a one-year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. Unvested portions of the restricted stock will be forfeited if the director leaves the company prior to the applicable vesting date.

Table of Contents

For the three and six months ended June 30, 2015 and 2014, the Company recognized \$3.1 million and \$4.5 million and \$5.8 million and \$11.4 million in stock-based compensation expense, respectively. The six months ended June 30, 2014 included \$2.5 million of accelerated stock-based compensation expense for certain executives due to provisions contained in their employment arrangements. Stock-based compensation expense is included in compensation and benefits in the condensed consolidated statements of income.

As of June 30, 2015, the Company had unrecognized stock-based compensation of \$21.1 million. The remaining unrecognized stock-based compensation is expected to be recognized over a weighted average period of 24.3 months.

The activity in the Company's restricted stock and restricted stock units for the six months ended June 30, 2015 was as follows:

	Number of Shares	Weighted Average Grant-Date Fair Value

## NOTE 6 — INVESTMENTS IN AND ADVANCES TO AFFILIATES

At June 30, 2015 and December 31, 2014, the investments in affiliates were composed of the following (in thousands):

	June 30, 2015	December 31, 2014
Investment in OCC	\$333	\$333
Advance to OCC (1)	30,000	—
Investment in Signal Trading Systems, LLC	13,074	11,900
Investment in IPXI Holdings, LLC (2)	—	118
Investment in CBOE Stock Exchange, LLC (3)	—	—
Investments in and Advances to Affiliates	\$43,407	\$12,351

(1) In December 2014, OCC announced a newly-formed capital plan. The OCC capital plan was designed to strengthen OCC's capital base and facilitate its compliance with proposed SEC regulations for Systemically Important Financial Market Utilities ("SIFMUs") as well as international standards applicable to financial market infrastructures. On February 26, 2015, the SEC issued a notice of no objection to OCC's advance notice filing regarding the capital plan, and OCC and OCC's existing exchange stockholders, which include CBOE, subsequently executed agreements effecting the capital plan. Under the plan, each of OCC's existing exchange stockholders agreed to contribute its pro-rata share, based on ownership percentage, of \$150 million in equity capital, which would increase OCC's shareholders' equity, and to provide its pro rata share in replenishment capital, up to a maximum of \$40 million, if certain capital thresholds are breached. On March 3, 2015, in accordance with the plan, CBOE contributed \$30 million to OCC. On March 6, 2015, OCC informed CBOE that the SEC had approved OCC's proposed rule filing for the capital plan. The SEC approval order was stayed on March 13, 2015 automatically as a result of the initiation of petitions to review the order. OCC has filed a motion to lift the automatic stay. If the plan does not go forward, OCC

will return each exchange stockholder's capital contribution with interest. The contribution has been recorded under investments in and advances to affiliates in the balance sheet at June 30, 2015.

(2) IPXI Holdings, LLC ceased operations on March 23, 2015.

(3) CBOE Stock Exchange, LLC ceased trading operations on April 30, 2014.

(1) As of June 30, 2015, primarily reflects accrued costs for 2015 incentive compensation expense and self-insurance expenses. At December 31, 2014, primarily reflects 2014 annual incentive compensation expense which was paid in the first quarter of 2015.

(2) Reflects costs primarily for certain regulatory functions and contract programming work related to projects that are in process. For comparability purposes, contract services balances previously reflected in Other as of December 31, 2014 have been included on this line.

(3) Reflects shares purchased at the end of the period that are not settled until three trading days after the trade occurs.

## NOTE 8 — MARKETING FEE

CBOE facilitates the collection and payment of marketing fees assessed on certain trades taking place at CBOE. Funds resulting from the marketing fees are made available to Designated Primary Market Makers and Preferred Market Makers as an economic inducement to route orders to CBOE. Pursuant to ASC 605-45, Revenue Recognition—Principal Agent Considerations, the Company reflects the assessments and payments on a net basis, with no impact on revenues or expenses.

As of June 30, 2015 and December 31, 2014, amounts assessed by the Company on behalf of others included in current assets totaled \$7.6 million and \$10.7 million, respectively, and payments due to others included in current liabilities totaled \$8.4 million and \$11.2 million, respectively.

## NOTE 9 — DEFERRED REVENUE

The following table summarizes the activity in deferred revenue for the six months ended June 30, 2015 (in thousands):

	Balance at December 31, 2014	Cash Additions	Revenue Recognition	Balance at June 30, 2015
Other – net	\$ 1,988	\$ 6,643	\$ (4,891)	) \$ 3,740

NOTE 10 — EMPLOYEE BENEFITS

Employees are eligible to participate in the Chicago Board Options Exchange SMART Plan (“SMART Plan”). The SMART Plan is a defined contribution plan, which is qualified under Internal Revenue Code Section 401(k). In addition, eligible employees may participate in the Supplemental Employee Retirement Plan, Executive Retirement Plan and Deferred Compensation Plan. Each plan is a defined contribution plan that is non-qualified under Internal Revenue Code. The Company contributed \$2.2 million and \$3.0 million to the defined contribution plans for the six months ended June 30, 2015 and 2014, respectively.

The Company has a post-retirement medical plan for former members of senior management. The Company recorded immaterial post-retirement benefits expense for the six months ended June 30, 2015 and 2014.

NOTE 11 — INCOME TAXES

For the three and six months ended June 30, 2015 and 2014, the Company recorded income tax provisions of \$28.8 million and \$26.4 million and \$55.8 million and \$58.9 million, respectively. For the three months ended June 30, 2015 and 2014 the effective tax rate was 39.1% and 38.1%, respectively. The effective tax rate for the six months ended June 30, 2015 and 2014 was 39.0%.

As of June 30, 2015 and December 31, 2014, the Company had \$36.1 million and \$35.4 million, respectively, of uncertain tax positions excluding interest and penalties, which, if recognized in the future, would affect the annual effective income tax rate. Reductions to uncertain tax positions, primarily from the lapse of the applicable statutes of limitations during the next twelve months, are estimated to be approximately \$2.2 million, not including any potential new additions.

Estimated interest costs and penalties, which are classified as part of the provision for income taxes in the Company’s condensed consolidated statements of income, were \$0.9 million and \$0.5 million for the three months ended June 30, 2015 and 2014, respectively, and \$1.8 million and \$1.1 million for the six months ended June 30, 2015 and 2014, respectively. Accrued interest and penalties were \$7.0 million and \$5.3 million as of June 30, 2015 and December 31, 2014, respectively.

The Company is subject to U.S. federal tax, Illinois, New Jersey, and New York state taxes and Washington, D.C. taxes, as well as taxes in other local jurisdictions. The Company has open tax years from 2007 on for New York, 2008 on for Federal, 2010 on for New Jersey, 2011 on for Washington, D.C and 2013 on for Illinois. The Internal Revenue Service is currently auditing 2010 and is looking at specific line items from 2008 to 2013 due to the filing by the Company of amended returns containing the recognition of certain credits and deductions. The New York State Department of Taxation and Finance is currently auditing the 2007 through 2012 tax years and the New Jersey Division of Taxation is currently auditing the 2010 through 2012 tax years.

NOTE 12 — FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company’s own credit risk.

The Company applied FASB ASC 820, Fair Value Measurement and Disclosure (formerly, FASB Statement No. 157, Fair Value Measurements), which provides guidance for using fair value to measure assets and liabilities by defining

fair value and establishing the framework for measuring fair value. ASC 820 applies to financial and non-financial instruments that are measured and reported on a fair value basis. The three-level hierarchy of fair value measurements is based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

• Level 1—Unadjusted inputs based on quoted markets for identical assets or liabilities.

- Level 2—Observable inputs, either direct or indirect, not including Level 1, corroborated by market data or based upon quoted prices in non-active markets.

Table of Contents

Level 3—Unobservable inputs that reflect management’s best assumptions of what market participants would use in valuing the asset or liability.

The Company has included a tabular disclosure for financial assets that are measured at fair value on a recurring basis in the condensed consolidated balance sheet as of June 30, 2015 and December 31, 2014. The Company holds no financial liabilities that are measured at fair value on a recurring basis.

Our investment and equity interest in IPXI as of December 31, 2014 were valued at \$0.1 million and approximately 5.0%, respectively. On March 23, 2015, IPXI ceased operations and we recorded an impairment charge of \$0.1 million which represented our remaining investment balance.

## NOTE 13 — LEGAL PROCEEDINGS

As of June 30, 2015, the end of the period covered by this report, the Company was subject to various legal proceedings and claims, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. For a description of each of these proceedings, please see Note 11 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of June 30, 2015, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

The following information updates the legal proceedings disclosures in our Annual Report on Form 10-K for the year ended December 31, 2014.

ISE -- QRM

On November 12, 2012, CBOE brought suit against International Securities Exchange, LLC ("ISE") in the United States District Court for the Northern District of Illinois alleging that ISE infringes three of its patents (United States Patent Nos. 7,356,498; 7,980,457; and 8,266,044 (the "QRM patents")) related to quote risk monitor ("QRM") technology. CBOE has requested injunctive relief and monetary damages. On February 20, 2013, the court ruled that the case be transferred to the United States District Court for the Southern District of New York. On October 31, 2013, the court stayed the litigation pending resolution of Covered Business Method ("CBM") Patent Reviews at the United States Patent and Trademark Office ("USPTO") that ISE had petitioned for. On March 4, 2014, the USPTO instituted CBM Patent Reviews on CBOE's three QRM patents. On May 22, 2014, the USPTO instituted Inter Parties Review ("IPR") Proceedings, which ISE had petitioned for, on some but not all claims of two of CBOE's QRM patents (United States Patent Nos. 7,356,498 and 7,980,457). On March 2, 2015, the USPTO ruled in the CBM proceedings, finding that the subject matter of the patents is not eligible for patent protection, and in the IPR proceedings, finding for CBOE that the claims were not invalidated by the asserted prior art. On April 30, 2015, ISE filed notice of its appeal of the IPR decisions, and on May 1, 2015, CBOE filed notice of its appeal of the CBM decisions. The appeals will be handled by the United States Court of Appeals for the Federal Circuit.

Lanier Litigation

On May 23, 2014, Harold R. Lanier sued 14 securities exchanges, including CBOE, in the United States District Court for the Southern District of New York on behalf of himself and a putative class consisting of all persons in the United States who entered into contracts to receive market data through certain data plans at any time since May 19, 2008 to the present. The complaint alleged that the market data provided under the CQ Plan and CTA Plans was inferior to the data that the exchanges provided to those that directly receive other data from the exchanges, which the plaintiffs alleged is a breach of their "subscriber contracts" and a violation of the exchanges' obligations under the CQ and CTA Plans. The plaintiffs sought monetary and injunctive relief. On May 30, 2014, Mr. Lanier filed two additional suits in the same Court, alleging substantially the same claims and requesting the same types of relief against the exchanges who participate in the UTP and the OPRA data plans. CBOE was a defendant in each of these suits, while C2 was only a defendant in the suit regarding the OPRA Plan. On April 28, 2015, the Court dismissed Lanier's complaint with prejudice because it was preempted by the federal regulatory scheme and because the claims were precluded by the terms of the applicable subscriber agreements.

NOTE 14 — SUBSEQUENT EVENTS

On July 29, 2015, the Company announced that its board of directors declared a quarterly cash dividend of \$0.23 per share. The dividend is payable September 18, 2015 to stockholders of record at the close of business on September 4, 2015.

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and the notes thereto, included in Item 1 in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, and as contained in that report, the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." This discussion contains forward-looking information. Please see "Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions associated with these statements.

## RESULTS OF OPERATIONS

Three months ended June 30, 2015 compared to the three months ended June 30, 2014

## Overview

The following summarizes our financial performance for the three months ended June 30, 2015 compared to the same period in 2014.

	2015	2014	Inc./ (Dec.)	Percent Change	
	(in millions, except per share amounts)				
Total Operating Revenues	\$148.7	\$143.9	\$4.8	3.3	%

Net income percentage	30.2	% 29.9	%		
Diluted Net Income Per Share Allocated to Common Stockholders	\$0.54	\$0.50			

Total operating revenues increased primarily due to higher transaction fees and an increase in other revenue, partially offset by lower access fees and regulatory fees.

Total operating expenses increased primarily due to higher depreciation and amortization, professional fees and outside services and royalty fees, partially offset by lower compensation and benefits.

## Operating Revenues

Total operating revenues for the three months ended June 30, 2015 were \$148.7 million, an increase of \$4.8 million, or 3.3%, compared with the same period in 2014. The following summarizes changes in total operating revenues for the three months ended June 30, 2015 compared to the same period in 2014.

Other revenue	7.7	3.9	3.8	97.4	%
Total Operating Revenues	\$148.7	\$143.9	\$4.8	3.3	%

## Transaction Fees

Transaction fees totaled \$101.6 million for the three months ended June 30, 2015, compared with \$97.9 million for the same period in 2014, an increase of \$3.7 million, or 3.8%. The increase in transaction fees was due to an increase in average revenue per contract of 14.5%, partially offset by a 9.4% decrease in total trading volume. The increase in average revenue per contract resulted primarily from a shift in the mix of products traded, fee changes implemented in 2015 and lower volume discounts and incentives. As a percent of total trading volume, index options and futures contracts, which generate our highest options and overall average revenue per contract, respectively, accounted for 37.2% of trading volume during the second quarter of 2015 up from 33.9% in the second quarter of 2014.

Average revenue per contract, discussed in more detail below, is impacted by our fee structure, which includes volume based incentive programs, mix of products traded, the account type (customer, firm, market-maker, etc.) and the manner in which a trade is executed (electronic, open-outcry, etc.). The implementation of fee changes, which may increase or decrease our average revenue per contract, is primarily to ensure that we are competitive in the options marketplace and to ultimately improve and continue to drive order flow to our exchanges. We cannot predict the trading patterns of exchange participants, which may be based on factors outside our control, but we can attempt to price our products at levels that are competitive in our market.

Trading volume is impacted by many factors, including: macroeconomic events, market volatility, regulatory actions or considerations, availability of capital, competition and pricing.

The following summarizes transaction fees by product category for the three months ended June 30, 2015 compared to the same period in 2014.

## Trading Volume

Our average daily volume ("ADV") for the three months ended June 30, 2015 was 4.38 million contracts, down 9.4% compared with 4.83 million contracts for the same period in 2014. We experienced ADV decreases across all option

product categories. These decreases were partially offset by higher ADV in futures. Total trading days for the three months ended June 30, 2015 and 2014 were sixty-three.

Futures	1.758	1.639	7.3	%
Total average revenue per contract	\$0.368	\$0.322	14.5	%

Factors contributing to the change in total average revenue per contract for the three months ended June 30, 2015 compared to the same period in 2014 include:

**Volume Mix** — We experienced a shift in overall volume mix. As a percentage of total volume, index options and futures contracts accounted for 37.2% of total trading volume, up from 33.9% in the prior year period. Index options and futures contracts represent our highest options average revenue per contract and highest average revenue per contract, respectively.

## Table of Contents

Rate structure — Our rate structure includes sliding scales, volume discounts, volume incentive programs and caps on fees as part of our effort to increase liquidity and market share in multiply-listed options. As a result primarily of fee changes implemented in 2015 and lower volume discounts and incentives, average revenue per contract increased across all product categories.

### Access Fees

Access fees for the three months ended June 30, 2015 and 2014 were \$13.4 million and \$14.8 million, respectively. The decrease in access fees was primarily due to a reduction in the number of trading permits. We expect this variance to continue for the remainder of 2015.

### Market Data Fees

Market data fees for the three months ended June 30, 2015 decreased to \$7.6 million from \$7.8 million for the same period in 2014. Market data fees represent income derived from OPRA as well as our market data services, which for the three months ended June 30, 2015 totaled \$3.6 million and \$4.0 million, respectively, and for the same period in 2014, each totaled \$3.9 million. Revenue generated from our market data services, which provide current and historical options and futures data, increased \$0.1 million. Income derived from OPRA is allocated based on each exchange's share of total cleared options transactions. The Company's share of total cleared options transactions decreased to 23.9% from 24.4% for the same period in 2014 and total distributable OPRA income decreased compared to the prior year period resulting in lower revenue in the three months ended June 30, 2015 compared to the same period in 2014.

### Regulatory Fees

Regulatory fees for the three months ended June 30, 2015 and 2014 were \$8.7 million and \$9.8 million, respectively. Regulatory fees are primarily generated by the options regulatory fee that we charge on all Trading Permit Holder customer volume industry-wide. The options regulatory fee rates in the period were lower than the prior year rates. Additionally, we experienced a decrease in regulatory fees received for other regulatory services.

Under the rules of each of our options exchanges, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes.

### Other Revenue

Other revenue for the three months ended June 30, 2015 and 2014 were \$7.7 million and \$3.9 million, respectively. The increase in other revenue was primarily due to higher regulatory fines assessed for disciplinary actions, partially offset by a decrease in revenue generated from regulatory service agreements, which ceased as of December 31, 2014.

### Concentration of Revenue

All contracts traded on our exchanges must be cleared through clearing members of the OCC. At June 30, 2015, there were approximately one hundred eight Trading Permit Holders that are clearing members of the OCC. Two clearing members accounted for 45% of transaction and other fees collected through the OCC for the three months ended June 30, 2015. The next largest clearing member accounted for approximately 11% of transaction and other fees collected through the OCC. No one Trading Permit Holder using the services of the top two clearing members represented more than 28% of transaction and other fees collected through the OCC, for the respective clearing member, in the three months ended June 30, 2015. Should a clearing member withdraw from CBOE, we believe the Trading Permit Holder portion of that clearing member's trading activity would likely transfer to another clearing

member.

The two largest clearing members mentioned above clear the majority of the market-maker sides of transactions at CBOE, C2 and at all of the U.S. options exchanges. If either of these clearing members were to withdraw from the business of market-maker clearing and market-makers were unable to transfer to another clearing member, this could create significant disruption to the U.S. options markets, including ours.

## Operating Expenses

Total operating expenses increased \$1.1 million, or 1.5%, to \$75.3 million for the three months ended June 30, 2015 from \$74.2 million for the same period in 2014. This increase was primarily due to higher depreciation and amortization, professional fees and outside services and royalty fees, partially offset by lower compensation and benefits.

The following summarizes changes in operating expenses for the three months ended June 30, 2015 compared to the same period in 2014.

	2015	2014	Inc./ (Dec.)	Percent Change

Other expenses	1.3	1.5	(0.2)	(12.3)	)%
Total Operating Expenses	\$75.3	\$74.2	\$1.1	1.5	%

## Compensation and Benefits

For the three months ended June 30, 2015, compensation and benefits were \$24.1 million, or 16.2% of total operating revenues, compared with \$30.3 million, or 21.1% of total operating revenues, for the same period in 2014. This represented a decrease of \$6.2 million, or 20.4%, from the prior period, which primarily resulted from lower stock-based compensation, a reduction in salaries, primarily due to the transition of regulatory services to FINRA which occurred in December 2014, and lower annual incentive compensation, which is aligned with our financial performance relative to our targets.

## Depreciation and Amortization

For the three months ended June 30, 2015, depreciation and amortization costs were \$11.3 million compared with \$9.9 million for the same period in 2014. This represented an increase of \$1.4 million, which primarily resulted from increased capital spending in 2014 to harden and enhance our trading platform and operations and the acceleration of depreciation for certain assets that have a shorter than expected useful life.

## Professional Fees and Outside Services

Professional fees and outside services for the three months ended June 30, 2015 were \$12.6 million compared with \$7.9 million for the same period in 2014, an increase of \$4.7 million, which primarily resulted from higher contract services related to the transition of regulatory services for CBOE and C2 to FINRA which occurred in December 2014.

## Royalty Fees

Royalty fees for the three months ended June 30, 2015 were \$16.8 million compared with \$14.7 million for the same period in 2014. This represented an increase of \$2.1 million which primarily resulted from a shift in the mix of licensed products traded.

#### Operating Income

As a result of the items above, operating income for the three months ended June 30, 2015 was \$73.4 million compared to \$69.7 million for the same period in 2014, an increase of \$3.7 million.

## Income before Income Taxes

Income before income taxes for the three months ended June 30, 2015 was \$73.7 million compared to \$69.4 million for the same period in 2014, an increase of \$4.3 million.

## Income Tax Provision

For the three months ended June 30, 2015, the income tax provision was \$28.8 million compared to \$26.4 million for the same period in 2014. The effective tax rate was 39.1% and 38.1% for the three months ended June 30, 2015 and 2014, respectively.

## Net Income

As a result of the items above, net income allocated to common stockholders for the three months ended June 30, 2015 was \$44.6 million compared to \$42.6 million for the same period in 2014, an increase of \$2.0 million. Basic and diluted net income per share allocated to common stockholders were \$0.54 and \$0.50 for the three months ended June 30, 2015 and 2014, respectively.

Total operating revenues decreased primarily due to lower transaction fees, access fees and regulatory fees, partially offset by an increase in other revenue.

Total operating expenses decreased primarily due to lower compensation and benefits, partially offset by higher depreciation and amortization and professional fees and outside services.

## Operating Revenues

Total operating revenues for the six months ended June 30, 2015 were \$291.5 million, a decrease of \$10.3 million, or 3.4%, compared with the same period in 2014. The following summarizes changes in total operating revenues for the six months ended June 30, 2015 compared to the same period in 2014.

## Transaction Fees

Transaction fees totaled \$200.3 million for the six months ended June 30, 2015, compared with \$210.7 million for the same period in 2014, a decrease of \$10.4 million, or 4.9%. This decrease was primarily due to a 12.5% decrease in total trading volume, partially offset by an 8.6% increase in average revenue per contract. The Company experienced volume decreases across all options product categories. The volume decrease in indexes was driven by a 31.7% decrease in VIX options. The increase in average revenue per contract resulted primarily from a shift in volume mix of products traded, fee changes implemented in 2015 and lower volume discounts and incentives. As a percent of total trading volume, index options and futures contracts, which generates our highest options and overall average revenue per contract, respectively, accounted for 35.2% of trading volume during the six months ended June 30, 2015 up from 34.3% compared to the same period in 2014.

## Average Revenue Per Contract

Average revenue per contract was \$0.354 for the six months ended June 30, 2015, an increase of 8.6% compared with \$0.326 for the same period in 2014. The following summarizes average revenue per contract by product category for the six months ended June 30, 2015 compared to the same period in 2014.

	2015	2014	Percent Change	
Equities	\$0.085	\$0.080	5.7	%

Futures	1.732	1.627	6.4	%
Total average revenue per contract	\$0.354	\$0.326	8.6	%

Factors contributing to the change in total average revenue per contract for the six months ended June 30, 2015 compared to the same period in 2014, include:

• **Product mix** — Average revenue per contract reflects a shift in the volume mix by product category. Index options and futures accounted for 35.2% of total trading volume as compared to 34.3% in the prior year period.

• **Rate structure** — We experienced increases in average revenue per contract across all product categories resulting primarily from fee changes implemented in 2015 and lower volume discounts and incentives.

## Access Fees

Access fees for the six months ended June 30, 2015 and 2014 were \$27.0 million and \$30.1 million, respectively. The decrease in access fees is primarily due to a reduction in the number of trading permits.

## Exchange Services and Other Fees

Exchange services and other fees for the six months ended June 30, 2015 increased to \$19.5 million from \$19.2 million for the same period in 2014.

## Market Data Fees

Market data fees for the six months ended June 30, 2015 increased to \$15.6 million from \$15.0 million for the same period in 2014. For the six months ended June 30, 2015 and 2014, income derived from our market data services totaled \$8.2 million and \$7.3 million and OPRA income totaled \$7.4 million and \$7.6 million, respectively. Revenue generated from our market data services increased \$0.9 million resulting from an increase in subscribers and fees for

certain market data services. The Company's share of income derived from OPRA increased to 24.6% from 24.4% for the same period in 2014. While our share of total cleared options transactions increased, total distributable OPRA income decreased resulting in a reduction in the six month period ended June 30, 2015 of \$0.3 million.

Table of Contents

## Regulatory Fees

Regulatory fees for the six months ended June 30, 2015 decreased to \$17.1 million from \$19.6 million for the same period in 2014. The decrease is primarily the result of lower rates for the options regulatory fee and a decrease in regulatory fees received for other regulatory services.

## Other Revenue

Other revenue for the six months ended June 30, 2015 and 2014 were \$12.0 million and \$7.2 million, respectively. The increase in other revenue was primarily due to higher regulatory fines assessed for disciplinary actions, partially offset by a decrease in revenue generated from regulatory service agreements, which ceased as of December 31, 2014.

## Operating Expenses

Total operating expenses were \$148.6 million and \$150.1 million for the six months ended June 30, 2015 and 2014, respectively. This decrease was primarily due to lower compensation and benefits, partially offset by higher depreciation and amortization and professional fees and outside services. As a percentage of operating revenues for the six months ended June 30, 2015 and 2014, operating expenses were 51.0% and 49.7%, respectively.

The following summarizes changes in operating expenses for the six months ended June 30, 2015 compared to the same period in 2014.

## Compensation and Benefits

For the six months ended June 30, 2015, compensation and benefits were \$49.6 million, or 17.0% of total operating revenues, compared with \$63.7 million, or 21.1% of total operating revenues, for the same period in 2014. This represented a decrease of \$14.1 million, which primarily resulted from lower stock-based compensation, a reduction in salaries, primarily due to the transition of regulatory functions to FINRA which occurred in December 2014, and lower annual incentive compensation, which is aligned with our financial performance relative to our targets. The six months ended June 30, 2014 included \$2.5 million of accelerated stock-based compensation expense for certain executives due to provisions contained in their employment arrangements.

## Depreciation and Amortization

For the six months ended June 30, 2015, depreciation and amortization costs were \$21.7 million compared with \$18.5 million for the same period in 2014. This represented an increase of \$3.2 million, which primarily resulted from increased capital spending to harden and enhance our trading platform and operations and the acceleration of depreciation for certain assets that have a shorter than expected useful life.

## Table of Contents

### Professional Fees and Outside Services

Expenses related to professional fees and outside services increased to \$24.5 million for the six months ended June 30, 2015 from \$15.2 million in the prior-year period. This represented an increase of \$9.3 million, which primarily resulted from higher contract services related to regulatory services transitioned to FINRA for CBOE and C2.

### Operating Income

As a result of the items above, operating income for the six months ended June 30, 2015 was \$142.9 million compared to \$151.7 million for the same period in 2014, a decrease of \$8.8 million.

### Income before Income Taxes

Income before income taxes for the six months ended June 30, 2015 and 2014 was \$142.9 million and \$150.9 million, respectively, a decrease of \$8.0 million.

### Income Tax Provision

For the six months ended June 30, 2015, the income tax provision was \$55.8 million compared to \$58.9 million for the same period in 2014. The effective tax rate was 39.0% for the six months ended June 30, 2015 and 2014.

### Net Income

As a result of the items above, net income allocated to common stockholders for the six months ended June 30, 2015 was \$86.7 million compared to \$91.1 million for the same period in 2014, a decrease of \$4.4 million. Basic and diluted net income per share allocated to common stockholders were \$1.04 and \$1.06 for the six months ended June 30, 2015 and 2014, respectively.

## LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2015, the Company had \$89.6 million of cash and cash equivalents, a decrease from \$147.9 million as of December 31, 2014. Historically, we have financed our operations, capital expenditures and other cash needs through cash generated from operations. Cash requirements principally consist of funding operating expenses, capital expenditures, actual and anticipated quarterly and special dividend payments and common stock repurchases under the announced program. We expect our cash on hand at June 30, 2015 and funds generated from operations to be sufficient to continue to meet our 2015 cash requirements. From time to time, we consider the possibility of acquisitions, dispositions and strategic alliances that we believe would strengthen our business in the long-term; however, if consummated these transactions may negatively impact our liquidity in the short-term.

### Cash Flows

#### Operating Activities

Net cash flows provided by operating activities totaled \$105.8 million and \$121.2 million for the six months ended June 30, 2015 and 2014, respectively. The decrease in net cash flows provided by operating activities was primarily due to lower net income and a decrease in deferred revenue.

#### Investing Activities

Net cash flows used in investing activities totaled \$48.3 million and \$29.3 million for the six months ended June 30, 2015 and 2014, respectively. The increase in net cash flows used in investing activities was primarily due to an advance to OCC, partially offset by lower expenditures for capital and other assets. As part of the OCC capital plan (discussed in detail below), we advanced our contribution of \$30.0 million during the first quarter of 2015. Expenditures for capital and other assets totaled \$17.6 million and \$28.3 million for the six months ended June 30, 2015 and 2014, respectively, primarily representing purchases of systems hardware and development of software to harden and enhance our trading platform and operations.

#### Financing Activities

## Table of Contents

Net cash flows used in financing activities totaled \$115.8 million and \$168.2 million for the six months ended June 30, 2015 and 2014, respectively. The \$52.4 million decrease in net cash flows used in financing activities was primarily due to the payment of a special dividend in 2014 totaling \$43.8 million and lower stock repurchases in 2015, partially offset by higher quarterly dividend payments.

### Dividends

The Company's expectation is to continue to pay dividends. The decision to pay a dividend, however, remains within the discretion of our board of directors and may be affected by various factors, including our earnings, financial condition, capital requirements, level of indebtedness and other considerations our board of directors deems relevant. Future debt obligations and statutory provisions, among other things, may limit, or in some cases prohibit, our ability to pay dividends.

### Share Repurchase Program

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

Under the program, for the six months ended June 30, 2015, the Company repurchased 1,330,507 shares of unrestricted common stock at an average cost per share of \$59.10, totaling \$78.6 million.

Since inception of the program through June 30, 2015, the Company has repurchased 9,185,577 shares of unrestricted common stock at an average cost per share of \$42.35, totaling \$389.0 million.

As of June 30, 2015, the Company had \$111.0 million of availability remaining under its existing share repurchase authorizations.

### OCC Capital Plan

In December 2014, OCC announced a newly-formed capital plan. The OCC capital plan was designed to strengthen OCC's capital base and facilitate its compliance with proposed SEC regulations for Systemically Important Financial Market Utilities ("SIFMUs") as well as international standards applicable to financial market infrastructures. On February 26, 2015, the SEC issued a notice of no objection to OCC's advance notice filing regarding the capital plan, and OCC and OCC's existing exchange stockholders, which include CBOE, subsequently executed agreements effecting the capital plan. Under the plan, each of OCC's existing exchange stockholders agreed to contribute its pro-rata share, based on ownership percentage, of \$150 million in equity capital, which would increase OCC's shareholders' equity, and to provide its pro rata share in replenishment capital, up to a maximum of \$40 million, if certain capital thresholds are breached. On March 3, 2015, in accordance with the plan, CBOE contributed \$30 million to OCC. On March 6, 2015, OCC informed CBOE that the SEC had approved OCC's proposed rule filing for the capital plan. The SEC approval order was stayed on March 13, 2015 automatically as a result of the initiation of petitions to review the order. OCC has filed a motion to lift the automatic stay. If the plan does not go forward, OCC will return each exchange stockholder's capital contribution with interest. The contribution has been recorded under investments in and advances to affiliates in the balance sheet at June 30, 2015.

### Commercial Commitments and Contractual Obligations

The Company currently leases office space, including a remote network operations center and data center, with remaining lease terms ranging from 2 months to 121 months as of June 30, 2015. In December 2014, we entered into an agreement with FINRA to provide certain regulatory services to the CBOE and C2 options markets. The agreement included the assignment of the office space CBOE leased for regulatory operations.

Total rent expense related to current and former lease obligations for the six months ended June 30, 2015 and 2014 were \$1.9 million and \$1.8 million, respectively. Future minimum payments under our operating leases and contractual obligations were as follows at June 30, 2015 (in thousands):

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the three months ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The following information updates the legal proceedings disclosures in our Annual Report on Form 10-K for the year ended December 31, 2014.

ISE -- QRM

On November 12, 2012, CBOE brought suit against International Securities Exchange, LLC ("ISE") in the United States District Court for the Northern District of Illinois alleging that ISE infringes three of its patents (United States Patent Nos. 7,356,498; 7,980,457; and 8,266,044 (the "QRM patents")) related to quote risk monitor ("QRM") technology. CBOE has requested injunctive relief and monetary damages. On February 20, 2013, the court ruled that the case be transferred to the United States District Court for the Southern District of New York. On October 31, 2013, the court stayed the litigation pending resolution of Covered Business Method ("CBM") Patent Reviews at the United States Patent and Trademark Office ("USPTO") that ISE had petitioned for. On March 4, 2014, the USPTO instituted CBM Patent Reviews on CBOE's three QRM patents. On May 22, 2014, the USPTO instituted Inter Parties Review ("IPR") Proceedings, which ISE had petitioned for, on some but not all claims of two of CBOE's QRM patents (United States Patent Nos. 7,356,498 and 7,980,457). On March 2, 2015, the USPTO ruled in the CBM proceedings, finding that the subject matter of the patents is not eligible for patent protection, and in the IPR proceedings, finding for CBOE that the claims were not invalidated by the asserted prior art. On April 30, 2015, ISE filed notice of its appeal of the IPR decisions, and on May 1, 2015, CBOE filed notice of its appeal of the CBM decisions. The appeals will be handled by the United States Court of Appeals for the Federal Circuit.

Lanier Litigation

On May 23, 2014, Harold R. Lanier sued 14 securities exchanges, including CBOE, in the United States District Court for the Southern District of New York on behalf of himself and a putative class consisting of all persons in the United States who entered into contracts to receive market data through certain data plans at any time since May 19, 2008 to the present. The complaint alleged that the market data provided under the CQ Plan and CTA Plans was inferior to the data that the exchanges provided to those that directly receive other data from the exchanges, which the plaintiffs alleged is a breach of their "subscriber contracts" and a violation of the exchanges' obligations under the CQ and CTA Plans. The plaintiffs sought monetary and injunctive relief. On May 30, 2014, Mr. Lanier filed two additional suits in the same Court, alleging substantially the same claims and requesting the same types of relief against the exchanges who participate in the UTP and the OPRA data plans. CBOE was a defendant in each of these suits, while C2 was only a defendant in the suit regarding the OPRA Plan. On April 28, 2015, the Court dismissed Lanier's complaint with prejudice because it was preempted by the federal regulatory scheme and because the claims were precluded by the terms of the applicable subscriber agreements.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K and subsequent Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The table below shows the purchases of equity securities by the Company in the three months ended June 30, 2015, reflecting the purchase of unrestricted common stock under the Company's share repurchase program:

Totals	819,556	\$57.61	819,556	

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the (1) Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.
