ABOUT THIS PROSPECTUS SUPPLEMENT

Unless otherwise stated or the context otherwise requires, the terms "HealthSouth," "we," "us," "our," and the "Company" refer to HealthSouth Corporation and its subsidiaries.

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of common stock. The second part is the accompanying prospectus, which provides more general information. Generally, when we refer to the prospectus, we are referring to both parts of this document combined. If the description of this offering varies between this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement. This prospectus supplement contains information about the common stock offered in this offering and may add, update or change information in the accompanying prospectus. Before you invest in our common stock you should carefully read this prospectus supplement along with the accompanying prospectus, in addition to the information contained in the documents we refer to under the heading "Where You Can Find More Information" in the accompanying prospectus.

You should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. We have not authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information in this prospectus supplement and the accompanying prospectus is accurate only as of the date on its cover page and that any information we have incorporated by reference is accurate only as of the date of the document incorporated by reference. Our business, financial position, results of operations and prospects may have changed since such dates.

S-1

RISK FACTORS

We urge you to carefully consider the risks described below, the risks beginning on page 3 of the accompanying prospectus and the risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as well as the other information we have provided in this prospectus supplement, the accompanying prospectus, and the documents we incorporate by reference, before reaching a decision regarding an investment in our common stock.

Risks Related to this Offering and Our Common Stock

The price of our common stock historically has experienced significant price and volume fluctuations, which may make it difficult for you to resell the common stock.

The market price of our common stock historically has experienced and may continue to experience significant price and volume fluctuations similar to those experienced by the broader stock market in recent years. In addition, the price of our common stock may fluctuate significantly in response to various factors, including, but not limited to: (1) variations in annual or quarterly financial results; (2) changes by financial research analysts in their estimates of our earnings or the earnings of our competitors; and (3) conditions in the economy in general or the healthcare industry in particular, including increased competitive pressures and dependence on, and pricing pressures from, the industry and its customers.

Significant sales of common stock, or the perception that significant sales may occur in the future, could adversely affect the market price for our common stock and may significantly dilute stockholder value.

The sale of substantial amounts of our common stock could adversely affect its price. We are required to issue approximately 5.0 million shares of common stock and warrants to purchase approximately 8.2 million shares of common stock pursuant to our agreement to settle litigation filed against us, certain of our former directors and officers and certain other parties relating to financial reporting and related activity that occurred at HealthSouth during periods ended in March 2003. Distribution of the common stock and warrants to purchase shares of common stock cannot occur until the order related to this settlement becomes a final, non-appealable order. At this time, an appeal is outstanding with the Eleventh Circuit Court of Appeals. We cannot predict when, or if, the order will become final and non-appealable. You should review the information in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 which we are incorporating herein by reference for additional information regarding the litigation and related settlement. The availability of a large block of stock for sale in relation to our normal trading volume could result in a decline in the market price of our common stock and may have a dilutive effect on our existing stockholders.

USE OF PROCEEDS

We expect the net proceeds from this offering to be approximately \$150.0 million, after deducting underwriting discounts and commissions and the estimated expenses of the offering. Under the terms of our Credit Agreement (as defined in our Form 10-K for the year ended December 31, 2007), we are required to use 25% of the net proceeds from this offering to repay borrowings under our Term Loan Facility (as also defined in our Form 10-K for the year ended December 31, 2007). Our Term Loan Facility, which matures in March 2013, bears interest at a rate of LIBOR plus 2.5%. We also intend to retire approximately \$30.3 million of 10.750% Senior Subordinated Notes due to mature on October 1, 2008. The remainder of the net proceeds will be used for general corporate purposes including redemption and repayment of other short- and long-term borrowings, acquisitions of, or investments in, businesses or assets, capital expenditures and working capital. Pending the application of the net proceeds, we may temporarily invest the net proceeds in short-term marketable securities.

THE OFFERING

Common stock we are offering.....	8,800,000
Common stock outstanding after this offering, net of treasury shares.....	87,974,141 ¹

1. Excludes approximately 13.4 million potential shares of common stock, including dilutive stock options, restricted stock awards, restricted stock units, and convertible perpetual preferred stock. Approximately 13.1 million of the potential shares relates to the Company's convertible perpetual preferred stock.

In addition to these potential shares, there are also options to purchase approximately 2.5 million shares of the Company's common stock outstanding that are not included in the above potential shares amount because these shares are antidilutive.

In connection with the repayment of certain loan amounts in January 2004, the Company issued warrants to the applicable lender to purchase two million shares of the Company's common stock. Each warrant has a term of ten years from the date of issuance and an exercise price of \$32.50 per share. The warrants are not included in the above number of potential shares because they are currently antidilutive.

In September 2006, the Company agreed to issue approximately 5.0 million shares of common stock and warrants to purchase approximately 8.2 million shares of common stock to settle its class action securities litigation. This agreement received final court approval on January 11, 2007. These shares of common stock and warrants are not included in any amounts presented, currently outstanding or potential shares, as distribution of these shares and warrants cannot occur until the order underlying the securities litigation becomes a final, non-appealable order. At this time, an appeal is outstanding with the Eleventh Circuit Court of Appeals.

PRICE RANGE OF COMMON STOCK

On March 19, 2003, after the United States Securities and Exchange Commission issued an Order of Suspension of Trading, the New York Stock Exchange ("NYSE") suspended trading in our common stock, which was then listed under the symbol HRC. That same day, Standard & Poor's announced that it removed our common stock from the S&P 500 Index. The NYSE continued the trading halt and eventually delisted our common stock. On March 25, 2003, immediately following the delisting from the NYSE, our stock began trading in the over-the-counter "Pink Sheets" market under the symbol HLSH. On August 14, 2006, we announced we had been cleared to submit an application for the listing of our common stock on the NYSE. Shares of our common stock began trading on the NYSE on October 26, 2006, under the symbol "HLS."

The following table sets forth the high and low bid quotations per share of our common stock as reported on the over-the-counter market from January 1, 2006 through October 25, 2006, as well as the high and low sales prices per share for our common stock as reported on the NYSE from October 26, 2006 until the date indicated below. The stock price information is based on published financial sources. Over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down, or commissions, and may not necessarily represent actual transactions. All quotations per share have been adjusted to reflect the reverse stock split that became effective on October 25, 2006.

You are urged to obtain current market quotations for our common stock and to review carefully the other information contained in this prospectus supplement or incorporated by reference into the accompanying prospectus.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock. We currently expect to retain future earnings, if any, to finance the growth and development of our business and reduce debt, and do not anticipate paying any cash dividends in the foreseeable future. The terms of our Credit Agreement place restrictions on our ability to pay dividends. However, our 6.50% Series A Convertible Perpetual Preferred Stock generally provides for the payment of cash dividends subject to certain limitations.

UNDERWRITING

HealthSouth Corporation and J.P. Morgan Securities Inc., who we refer to herein as the underwriter, have entered into an underwriting agreement with respect to the shares of common stock being offered. Subject to certain conditions, the underwriter has agreed to purchase all of the shares being offered hereby.

The underwriting agreement provides that the obligation of the underwriter to purchase the shares of common stock included in this offering is subject to approval of legal matters by counsel and to other conditions. The underwriter is committed to take and pay for all of the shares being offered, if any are taken.

The underwriter proposes to offer some of the shares directly to the public at the public offering price set forth on the cover page of this prospectus supplement and to selected dealers at such offering price less a selling concession not to exceed \$0.10 per share of the principal amount of the shares. After the initial offering of the shares to the public, the underwriter may change the public offering price.

We and all of our directors and each member of our executive management team have agreed that, for a period of 90 days from the date of this prospectus supplement, we and they will not, without the prior written consent of the underwriter, dispose of or hedge any shares of our common stock or any securities convertible into or exchangeable for our common stock, subject to certain exceptions. The underwriter in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

In connection with the offering, the underwriter may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offering. Stabilizing transactions consist of certain bids for or purchases of common stock made by an underwriter in the open market prior to the completion of the offering.

The underwriter may also impose a penalty bid. This occurs when a broker or dealer repays to the underwriter a portion of the underwriting discount or commission received by it because the underwriter has repurchased shares sold by or for the account of such broker or dealer in short covering transactions.

Any of these activities, as well as other purchases by the underwriter for its own account, may have the effect of preventing or regarding a decline in the market price of the shares of common stock and may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

The underwriter and its affiliates have performed investment banking, commercial banking and advisory services for us from time to time for which they have received customary fees and expenses. The underwriter may, from time to time in the future, engage in transactions with and perform services for us in the ordinary course of its business. We intend to use a portion of the combined net proceeds of this offering to, among other things, repay a portion of our outstanding indebtedness under our existing credit agreements. JPMorgan Chase Bank, N.A., an affiliate of the underwriter, is a lender, an administrative agent and a collateral agent under the existing credit agreements and, accordingly, may receive a portion of the net proceeds of this offering.

We have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act.

Other than in the United States, no action has been taken by us or the underwriter that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such

- in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of securities to the public" in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the same may be varied in that Member State by any measure implementing the EU Prospectus Directive in that Member State and the expression EU Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

- the provisions for a sinking fund, if any, for the preferred stock;
- the voting rights of the preferred stock;
- the provisions for redemption, if applicable, of the preferred stock;
- the terms and conditions, if applicable, upon which the preferred stock will be convertible into our common stock or exchangeable for other securities, including the conversion price, or the manner of calculating the conversion price, and conversion period or the exchange ratio, or manner of calculating the exchange ratio, and exchange period;
- if appropriate, a discussion of the United States federal income tax considerations applicable to the preferred stock;
- the ranking of the preferred stock relative to the common stock and any outstanding series of preferred stock; and
- any other specific terms, preferences, rights, limitations or restrictions of the preferred stock.

Unless otherwise stated in a prospectus supplement relating to the series of preferred stock being offered, holders of our preferred stock will have no preemptive rights.

The issuance of preferred stock could adversely affect the voting power of holders of common stock, as well as dividend and liquidation payments on both common and preferred stock. It also could have the effect of delaying, deferring or preventing a change in control.

The terms, if any, on which the preferred stock may be convertible into common stock or exchangeable for other securities will be detailed in the prospectus supplement. The terms will include provisions as to whether conversion or exchange is mandatory, at the option of the holder, or at our option, and may include provisions pursuant to which the number of shares of common stock or other securities to be received by the holders of preferred stock would be subject to adjustment.

DESCRIPTION OF WARRANTS

We may issue warrants, including warrants to purchase common stock, preferred stock, or other securities of the Company, or any combinations of the foregoing. Warrants may be issued independently or together with any securities and may be attached to or separate from the securities. The warrants will be issued under warrant agreements to be entered into between us and a warrant agent as detailed in the prospectus supplement relating to warrants being offered.

The applicable prospectus supplement will describe the following terms, where applicable, of the warrants in respect of which this prospectus is being delivered:

- the title of the warrants;
- the aggregate numbers of the warrants;
- the price or prices at which the warrants will be issued;
- the currencies in which the price or prices of the warrants may be payable;
- the designation, amount and terms of the offered securities purchasable upon exercise of the warrants;
- the designations and terms of the other offered securities, if any, with which the warrants are issued and the number of the warrants issued with each security;
- if applicable, the date on and after which the warrants and the offered securities purchasable upon exercise of the warrants will be separately transferable;
- the price or prices at which and currency or currencies in which the offered securities purchasable upon exercise of the warrants may be purchased;
- the date on which the right to exercise the warrants shall commence and the date on which the right shall expire;
- the minimum or maximum amount of the warrants which may be exercised at any one time;
- information with respect to book-entry procedures, if any;
- if appropriate, a discussion of the United States federal income tax considerations applicable to the warrants; and
- any other specific terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

PLAN OF DISTRIBUTION

We may sell the securities under this prospectus from time to time. We may sell the securities in one or more of the following ways from time to time:

- to or through one or more underwriters or dealers;
- in short or long transactions;
- directly to investors;
- through agents; or
- through a combination of any of these methods of sale.

If we use underwriters or dealers in the sale, the securities will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including:

- in privately negotiated transactions;
- in one or more transactions at a fixed price or prices, which may be changed from time to time;
- in "at the market offerings," within the meaning of Rule 415(a)(4) of the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;
- at prices related to those prevailing market prices; or
- at negotiated prices.

We, and our underwriters, dealers or agents, reserve the right to accept or reject all or part of any proposed purchase of the securities. We will set forth in a prospectus supplement the terms and offering of securities, including:

- the names of any underwriters, dealers or agents;
- any agency fees or underwriting discounts or commissions and other items constituting agents' or underwriters' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers;
- details regarding over-allotment options under which underwriters may purchase additional securities from us, if any;
- the purchase price of the securities being offered and the proceeds we will receive from the sale;
- the public offering price; and
- the securities exchanges on which such securities may be listed, if any.

We may enter into derivative transactions with third parties or sell securities not covered by this prospectus to third parties in privately negotiated transactions from time to time. If the applicable prospectus supplement indicates, in connection with those derivative transactions, such third parties (or affiliates of such third parties) may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, such third parties (or affiliates of such third parties) may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of securities, and may use securities received from us in settlement of those derivative transactions to close out any related open borrowings of securities. The third parties (or affiliates of such third parties) in such sale transactions will be underwriters and will be identified in an applicable prospectus supplement (or a post-effective amendment).

We may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus and an applicable prospectus supplement. Such financial institution or third party may transfer its economic short position to investors in our securities or in connection with a simultaneous offering of other securities offered by this prospectus.

Underwriters, Agents and Dealers. If underwriters are used in the sale of our securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described

above. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by underwriters. Generally, the underwriters' obligations to purchase the securities will be subject to conditions precedent and the underwriters will be obligated to purchase all of the securities if they purchase any of the securities. We may use underwriters with which we have a material relationship. We will describe in the prospectus supplement, naming the underwriter, the nature of any such relationship.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase our securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Underwriters, dealers and agents may contract for or otherwise be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments made by the underwriters, dealers or agents, under agreements between us and the underwriters, dealers and agents.

We may grant underwriters who participate in the distribution of our securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution.

Underwriters, dealers or agents may receive compensation in the form of discounts, concessions or commissions from us or our purchasers, as their agents in connection with the sale of our securities. These underwriters, dealers or agents may be considered to be underwriters under the Securities Act. As a result, discounts, commissions or profits on resale received by the underwriters, dealers or agents may be treated as underwriting discounts and commissions. The prospectus supplement will identify any such underwriter, dealer or agent and describe any compensation received by them from us. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short-covering transactions involve purchases of our securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. We make no representation or prediction as to the direction or magnitude of any effect these transactions may have on the price of our securities. For a description of these activities, see the information under the heading "Underwriting" in the applicable prospectus supplement.

Underwriters, broker-dealers or agents who may become involved in the sale of our securities may engage in transactions with and perform other services for us for which they receive compensation.

Stabilization Activities. In connection with an offering through underwriters, an underwriter may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional securities from us in the offering, if any. If the underwriters have an over-allotment option to purchase additional securities from us, the underwriters may consider, among other things, the price of securities available for purchase in the open market as compared to the price at which they may purchase securities through the over-allotment option. "Naked" short sales are any sales in excess of such option or where the underwriters do not have an over-allotment option. The underwriters must close out any naked short position by purchasing securities in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the securities in the open market after pricing that could adversely affect investors who purchase in the offering.

Edgar Filing: HEALTHSOUTH CORP - Form 424B2

Accordingly, to cover these short sales positions or to otherwise stabilize or maintain the price of the securities, the underwriters may bid for or purchase securities in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to syndicate members or other broker-dealers participating in the offering are reclaimed if securities previously distributed in the offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the securities to the extent that it discourages resale of the securities. The magnitude or effect of any stabilization or other transactions is uncertain.

Direct Sales. We may also sell securities directly to one or more purchasers without using underwriters or agents. In this case, no agents, underwriters or dealers would be involved. We may sell securities upon the exercise of rights that we may issue to our securityholders. We may also sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities.

Trading Market and Listing of Securities. Any common stock sold pursuant to a prospectus supplement will be listed on the New York Stock Exchange. The securities other than common stock may or may not be listed on a national securities exchange. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for any of the securities.
