HAMILTON, Bermuda - Maiden Holdings, Ltd. (Nasdaq: MHLA) today reported second quarter 2012 net operating earnings⁽¹⁾ of \$19.7 million, or \$0.27 per diluted share compared with \$11.2 million, or \$0.15 per diluted share in the comparative quarter in 2011. Net income totaled \$14.5 million, or \$0.20 per diluted share compared with a net loss of \$24.4 million or a loss of \$0.34 per diluted share in the second quarter of 2011.

Commenting on the Company's earnings, Art Raschbaum, Chief Executive Officer of Maiden Holdings, said: "The first half of 2012 further validates Maiden's lower volatility business model, as we continue to support the non-catastrophe reinsurance needs of regional and specialty insurers. Prudent risk selection benefited our results, which were not adversely impacted by the widespread severe weather activity in the U.S. and Europe during the second quarter. Investment income increased along with growth in our invested assets as we found opportunities to put cash to work without significantly extending duration or dampening the high credit quality of our investment portfolio. On the underwriting side, we are receiving indications from clients of rate increases in lines of business such as workers' compensation, personal auto, commercial auto and homeowners. As anticipated, premium growth has moderated, largely reflecting the impact of a non-recurring unearned premium transfer in the second quarter of 2011 and historical seasonality, but our year to date written premium growth remains robust."

Results for the three months ended June 30, 2012

Net operating earnings⁽¹⁾ for the second quarter of 2012 were \$19.7 million, or \$0.27 per diluted share compared with \$11.2 million, or \$0.15 per diluted share in the comparative quarter in 2011. Net income was \$14.5 million, or \$0.20 per diluted share compared with a net loss of \$24.4 million or a loss of \$0.34 per diluted share in the second quarter of 2011. In the comparative second quarter of 2011, Maiden's net income was impacted by a number of non-operating expenses, including charges related to the repurchase of junior subordinated debt with proceeds from the June 2011 Senior Notes offering. Second quarter 2011 results included \$15.1 million of junior subordinated debt repurchase expenses and \$20.3 million of accelerated amortization of subordinated debt discount and issuance costs. The comparative 2011 financial results were also impacted by \$9.5 million in losses related to thunderstorm and tornado activity across the U.S. in the second quarter, net of the Company's quarterly provisions for normalized catastrophe activity.

Net premiums written of \$412.0 million in the second quarter of 2012 decreased 5.7% compared to the second quarter of 2011. The second quarter of 2011 included a one-time unearned premium transfer of \$45.9 million associated with the AmTrust European hospital liability program. Absent that transfer, year on year net written premium increased 5.4% or \$20.9 million. By segment, the Diversified Reinsurance segment net premiums written decreased by 8.9% versus the second quarter of 2011; the AmTrust Quota Share Reinsurance segment net premiums written decreased by

9.6% compared to the second quarter of 2011 (excluding the impact of the one-time unearned premium transfer of \$45.9 million, the net premiums written in the AmTrust Quota Share Reinsurance segment would have increased 14.7% compared to the second quarter of 2011); net premiums written from the ACAC Quota Share increased by 15.8% to \$72.4 million compared to the same period in 2011.

Net premiums earned of \$437.1 million increased 18.9%, or \$69.3 million compared to the second quarter of 2011. Earned premiums increased across all business segments with Diversified Reinsurance up 16.9%, AmTrust Quota Share Reinsurance up 23.1% and ACAC Quota Share up 14.7%.

Net investment income of \$20.1 million increased 1.3% compared to the second quarter of 2011. Compared to the first quarter of 2012, net investment income increased 8.9% as the Company was able to deploy its cash position which had grown to \$273.8 million at the end of the first quarter of 2012 due to cash generated from the business and \$96.6 million in proceeds from the

issuance of 30 year 8.0% senior notes at the end of the first quarter. Total investments increased \$372.9 million to \$2.4 billion or 18.4% versus December 31, 2011. The average yield on the fixed income portfolio (excluding cash) is 3.74% with an average duration of 3.40 years.

Net loss and loss adjustment expenses of \$300.4 million were up \$49.8 million compared to the second quarter of 2011. The loss ratio⁽⁷⁾ increased by 0.7 percentage points to 68.4% versus the second quarter of 2011.

Commission and other acquisition expenses together with general and administrative expenses of \$129.9 million increased \$11.2 million from the year ago quarter, while the total expense ratio improved to 29.5% in the second quarter of 2012 compared with 32.1% in the same quarter last year. General and administrative expenses for the quarter totaled \$15.2 million compared with \$12.8 million in the second quarter of 2011. The general and administrative expense ratio⁽⁹⁾ improved to 3.4% compared to 3.5% in the second quarter of 2011.

The combined ratio⁽¹⁰⁾ for the second quarter totaled 97.9% compared with 99.8% in the second quarter of 2011. Maiden's underwriting margins in the second quarter of 2011 were impacted by the unprecedented frequency and severity of storms which exceeded Maiden's quarterly provision for normalized catastrophe losses by \$9.5 million.

The impact of the updated accounting guidance issued by the Financial Accounting Standards Board which limits the capitalization of costs incurred to acquire or renew insurance contracts to those that are incremental direct costs of successful contract acquisitions was to decrease second quarter 2012 earnings by approximately \$0.8 million or \$0.01 per diluted share. The impact on the Company's combined ratio was an increase of approximately 0.2%.

Total assets increased 10.5% to \$3.8 billion compared to \$3.4 billion at year-end 2011. Total cash on hand at June 30, 2012, was \$143.3 million, comprised of cash and cash equivalents of \$58.9 million, down 68.7% from the end of 2011, and restricted cash and cash equivalents of \$84.4 million, a decrease of 26.5% versus year-end of 2011. Shareholders' equity was \$824.3 million, an increase of 7.2% compared to December 31, 2011. Book value per share was \$11.41 at the end of the second quarter of 2012 or 7.2% higher than at December 31, 2011.

During the second quarter of 2012, the Board of Directors declared a dividend of \$0.08 per share.

Results for the six months ended June 30, 2012

Net income for the six months ended June 30, 2012 was \$34.9 million compared to a net loss of \$5.0 million in the first half of 2011. Net operating earnings⁽¹⁾ were \$39.1 million, or \$0.53 per diluted share compared to \$31.0 million or \$0.43 per diluted share in the first six months of 2011. Year-to-date annualized operating return on equity⁽¹⁾ was 9.9% compared to 8.3% for the first half of last year.

Net premiums written rose 13.1% or \$116.3 million to \$1.0 billion in the first half of 2012 compared to the same period in 2011. The Diversified Reinsurance segment increased 3.7%. The AmTrust Quota Share Reinsurance segment was up 22.9%. Net premiums written for the ACAC Quota Share rose 17.7% compared to the first six months of 2011.

Net premiums earned of \$875.6 million increased 22.6% or \$161.3 million compared to the first half of 2011. Earned premiums grew in all business segments with Diversified Reinsurance up 17.1%, AmTrust Quota Share Reinsurance up 33.9% and ACAC Quota Share up 14.5%.

Net investment income of \$38.5 million was down 1.1% compared to the same period in 2011. This reflects the decrease in book yield (excluding cash) to 3.74% from 3.98% at the end of June 2011, which was mostly offset by the \$493 million increase in total investments.

Edgar Filing: Maiden Holdings, Ltd. - Form 8-K

Net loss and loss adjustment expenses of \$588.4 million were up \$116.6 million. The loss ratio⁽⁷⁾ increased 1.3 percentage points to 66.7% versus the first six months of 2011.

Commission and other acquisition expenses together with general and administrative expenses of \$276.0 million increased \$37.9 million compared to the first half of 2011 and reflected a total expense ratio of 31.2% compared with 33.0%. General and administrative expenses for the first six months of 2012 totaled \$29.0 million compared with \$25.1 million in the first half of 2011. These results reflected a general and administrative expense ratio⁽⁹⁾ of 3.2% in the first six months of 2012 and 3.5% in the comparative period last year.

The combined ratio⁽¹⁰⁾ for the first half of 2012 was 97.9% versus 98.4% for the first half of last year.
