GEOPETRO RESOURCES COMPANY

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND USE OF ESTIMATES

The interim consolidated financial statements of GeoPetro Resources Company ("we," "us," "our," "GeoPetro" or the "Company") are unaudited and contain all adjustments (consisting primarily of normal recurring accruals) necessary for a fair statement of the results for the interim periods presented. Results for interim periods are not necessarily indicative of results to be expected for a full year or for previously reported periods due in part, but not limited to, the volatility in crude oil and natural gas commodity prices, interest rates, estimates of reserves, drilling risks, geological risks, transportation restrictions, the timing of acquisitions, product demand, market competition, interruption in production and our ability to obtain additional capital. You should read these consolidated interim financial statements in conjunction with the audited consolidated financial statements and notes thereto included in GeoPetro's Annual Report on Form 10-K for the year ended December 31, 2012.

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include the accounts of GeoPetro and its wholly-owned subsidiaries. Intercompany accounts and transactions are eliminated. In preparing the accompanying financial statements, management has made certain estimates and assumptions that affect reported amounts in the financial statements. Actual results may differ from those estimates. Significant assumptions are required in the valuation of proved oil and natural gas reserves, which may affect the amount at which oil and natural gas properties are recorded. The computation of share-based compensation expense requires assumptions such as volatility, expected life and the risk-free interest rate. It is at least reasonably possible these estimates could be revised in the near term, and these revisions could be material.

2. LIQUIDITY

As of September 30, 2013, we had a cash balance of \$102,230 and a working capital deficit of \$7,534,898, and for the nine months ended September 30, 2013, our cash used in operating activities amounted to \$909,855. Our results of operations have resulted in an accumulated deficit of \$52,082,949 from inception through the nine months ended September 30, 2013. If capital is available, we estimate that our investment needs during the remainder of fiscal year 2013 and 2014 will amount to \$6,345,000 related to our natural gas properties within the Madisonville field, our California properties and our Canadian properties.

We hold working interests and overriding royalty interests in undeveloped leases, seismic options, lease options and foreign concessions; and we have participated in seismic surveys and the drilling of test wells on undeveloped properties. We plan further leasehold acquisitions for the remainder of fiscal year 2013 and future periods. Exploratory and developmental drilling is scheduled during the remainder of fiscal 2013 and future periods on our undeveloped properties. We will need additional financing to continue our operations and our planned development activities. If additional financing is not available, we will be compelled to reduce the scope of our business activities. If we are unable to fund our operating cash flow needs and planned capital investments, it may be necessary to farm-out our interest in proposed wells, sell a portion of our interest in prospects, sell a portion of our interest in our producing oil and gas properties, reduce general and administrative expenses, or a combination of all of these factors. Further, we have maturing debt obligations, debt service and lease obligations that will require cash payments.

GeoPetro's ability to meet its contractual obligations and remit payment under its arrangements with its vendors depends on its ability to generate additional financing. GeoPetro's management continues to renegotiate the terms of its existing borrowing arrangements and raise additional capital through debt and equity issuances. These conditions raise doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

As a result of the Company's liquidity issues, it may be required to sell certain assets, including reserves and/or raise capital with terms that may not be as favorable as might otherwise be available.

In April 2012, the Company's wholly-owned subsidiary, Redwood Energy Production, L.P., elected to temporarily shut-in its natural gas production at the Madisonville Field, Madison County, Texas in light of depressed natural gas prices. The Company is monitoring market conditions and will bring its natural gas production back on stream as market conditions warrant. As of September 30, 2013, the Madisonville Field remains shut-in. For the year ended December 31, 2012, 100% of the Company's revenue was derived from the natural gas production in the Madisonville Field.

On February 28, 2013, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”), with MCW Energy Group Limited, an Ontario corporation (“MCW”), and MCW CA SUB, a California corporation and a wholly-owned subsidiary of Parent (“Merger Sub”). On April 4, 2013, the Company entered into an amendment (the “Amendment”) to the Merger Agreement. Pursuant to the Merger Agreement and subject to the terms and conditions set forth therein, Merger Sub will merge with and into the Company (the “Merger”) and the Company will survive the Merger and continue as a subsidiary of MCW. The Merger Agreement has been approved by Boards of Directors of each of the Company, MCW and Merger Sub. The merger is subject to customary closing conditions, including regulatory and shareholder approval. As of September 30, 2013, the parties are continuing to move forward with the Merger.

As of September 30, 2013, Stuart J. Doshi, President and CEO, has advanced to the Company twenty-six loans totaling \$827,000. The notes bear interest at 10% per annum and are payable on demand (Note 5).

3. LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing the net loss attributable to common shareholders by the weighted average number of shares of common stock outstanding during the period.

Diluted net loss per common share is computed in the same manner, but also considers the effect of common stock shares underlying the following:

	As of	
	September	September
	30,	30,
	2013	2012
Stock options	1,055,000	3,445,000
Warrants	6,822,165	5,399,265
Convertible Preferred Stock, Series B	5,370,027	5,423,000

All of the common shares underlying the stock options, warrants and convertible preferred stock, Series B above were excluded from diluted weighted average shares outstanding for the three and nine months ended September 30, 2013 and September 30, 2012 respectively because their effects were considered antidilutive.

4. OIL AND GAS PROPERTIES

There were no material changes to oil and gas properties from those disclosed in the audited annual consolidated financial statements for the year ended December 31, 2012 other than those discussed below.

The Company has proved undeveloped reserves included in the carrying value of its proved properties. The Company is confident capital will be raised to further develop these reserves, however, if such capital is not raised, the Company may be required to impair the Proved property asset in the future.

In April 2012, the Company's wholly-owned subsidiary, Redwood Energy Production, L.P., elected to temporarily shut-in its natural gas production at the Madisonville Field, Madison County, Texas in light of depressed natural gas prices. The Company is monitoring market conditions and will bring its natural gas production back on stream as market conditions warrant. As of September 30, 2013, the Madisonville Field remains shut-in.

5. DEBT

As of September 30, 2013 and December 31, 2012 debt consisted of the following:

	September 30,	December 31,
	2013	2012
<i>Current</i>		
Related party notes (a)	\$877,000	\$565,000
Promissory notes (b)	2,845,000	975,000
Less discount on promissory notes	(16,128)	(30,050)
<i>Net current notes payable</i>	3,705,872	1,509,950
<i>Long Term</i>		
Promissory notes (b)	150,000	1,665,000
Less discount on promissory notes	(6,854)	(20,573)
<i>Net long term notes payable</i>	143,146	1,644,427
Total	\$3,849,018	\$3,154,377

(a) In January 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan in the amount of \$5,000. The note bears interest at 10% per annum and is payable on demand. In connection with this note, the Company issued 1,000 warrants to purchase our common stock at \$0.50 per share for a period of three years. The fair value of the warrants issued was \$40 (Note 9)

In March 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$85,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 17,000 warrants to purchase our common stock at \$0.50 per share for a period of three years. The fair value of the warrants issued was \$876 (Note 9).

In April 2013, Stuart J. Doshi, President and CEO, advanced to the Company four loans totaling \$110,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 22,000 warrants to purchase our common stock at \$0.50 per share for a period of three years. The fair value of the warrants issued was \$1,028 (Note 9).

In May 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan in the amount of \$5,000. The note bears interest at 10% per annum and is payable on demand. In connection with this note, the Company issued 1,000 warrants to purchase our common stock at \$0.35 per share for a period of three years. The fair value of the warrants issued was \$48 (Note 9).

In June 2013, a Company Director advanced to the Company a loan in the amount of \$50,000. The note bears interest at 10% per annum and matures in June 2014. In connection with this note, the Company issued 10,000 warrants to purchase our common stock at \$0.35 per share for a period of three years. The fair value of the warrants issued was \$508 (Note 9).

In August 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$40,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 8,000 warrants to purchase our common stock at \$0.10 per share for a period of three years. The fair value of the warrants issued was \$350 (Note 9).

In September 2013, Stuart J. Doshi, President and CEO, advanced to the Company two loans totaling \$17,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 3,400 warrants to purchase our common stock at \$0.10 per share for a period of three years. The fair value of the warrants issued was \$110 (Note 9).

In January 2013, the Company issued a non-interest bearing unsecured promissory note in the amount of \$250,000 (Note 7). The note will mature in July 2014.

In May 2013, the Company issued a promissory note in the amount of \$40,000. The note bears interest at 8% per annum and matures in December 2013. In connection with this note, the Company issued 8,000 warrants to purchase our common stock at \$0.25 per share for a period of three years. The fair value of the warrants issued was \$494 (Note 9).

(b)

In June 2013, the Company issued a promissory note in the amount of \$45,000. The note bears interest at 8% per annum and matures in December 2013. In connection with this note, the Company issued 9,000 warrants to purchase our common stock at \$0.25 per share for a period of three years. The fair value of the warrants issued was \$477 (Note 9).

In September 2013, the Company issued a promissory note in the amount of \$20,000. The note bears interest at 8% per annum and matures in November 2013.

6. INCOME TAXES

The effective income tax rates for the three and nine month periods ending September 30, 2013 and 2012 were negligible, primarily due to the Company's loss position and the deferred tax asset being 100% reserved.

7. STOCKHOLDERS' EQUITY

In January 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$132,500, and represented the sale of 1,325,000 common shares and 662,500 warrants (Note 9). We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In January 2013, we agreed to rescind a unit subscription agreement. Units were originally priced at \$0.25 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant.

Each one whole warrant entitled the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units originally sold was \$250,000, and represented the sale of 1,000,000 common shares and 500,000 warrants. The Company is reacquiring the common shares and warrants in exchange for a non-interest bearing unsecured note for \$250,000 which matures in July 2014 (Note 5).

In February 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,225,000 common shares and 612,500 warrants (Note 9). We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In March 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$50,000, and represented the sale of 500,000 common shares and 250,000 warrants (Note 9). We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In April 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced between \$0.08 and \$0.09 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$110,000, and represented the sale of 1,250,000 common shares and 625,000 warrants (Note 9). We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In June 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,531,250 common shares and 765,625 warrants (Note 9). We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In June 2013, we agreed to issue 360,000 units in exchange for services rendered. Units were valued at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate value for the units issued was \$28,800, and represented the issuance of 360,000 common shares and 180,000 warrants (Note 9) and has been recorded as share-based compensation in the financial statements. We agreed to grant “piggyback” registration rights to the holder with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the holder acquired in the transaction.

In July 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$5,500, and represented the sale of 68,750 common shares and 34,375 warrants (Note 9). We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In September 2013, we completed a common stock sale through a private placement transaction to certain institutional and individual accredited investors. Shares were priced at \$0.05 per share. The total aggregate purchase price for the shares sold was \$132,500, and represented the sale of 2,650,000 common shares. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock.

8. COMMON STOCK OPTIONS

In May 2013, 1,650,000 common stock options with an average exercise price of \$2.00 per share expired.

In June 2013, 740,000 common stock options with an average exercise price of \$0.50 per share expired.

As of September 30, 2013 the Company has 1,055,000 common stock options outstanding with an average exercise price of \$0.46 per share.

For the nine month period ended September 30, 2013 the Company recorded share-based compensation of \$202,965 for stock option expense.

9. COMMON STOCK WARRANTS

In January 2013, we issued 1,000 warrants to purchase our common shares at \$0.50 per share in connection with the issuance of a note payable to Stuart J. Doshi, President and CEO, for \$5,000 (Note 5). The warrants expire in January 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$40. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 137.86%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.38% and an expected life based on the expiration date of the warrants of three years.

In January 2013, we issued 662,500 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in January 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$31,768. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 138.39% and 141.45%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.37% and 0.42%, and an expected life based on the expiration date of the warrants of three years.

In January 2013, we cancelled 500,000 warrants to purchase our common shares at \$0.50 per share in connection with the rescission of a unit subscription agreement (Note 7). The warrants would have expired in March 2015. The total fair value of the warrants was \$40,070.

In February 2013, we issued 612,500 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in February 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$39,844. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 140.81% and 140.84%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.38% and 0.42%, and an expected life based on the expiration date of the warrants of three years.

In March 2013, we issued 17,000 warrants to purchase our common shares at \$0.50 per share in connection with the issuance of three notes payable to Stuart J. Doshi, President and CEO, for \$85,000 (Note 5). The warrants expire in March 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$876. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 141.06% and 143.82%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.35% and 0.42%, and an expected life based on the expiration date of the warrants of three years.

In March 2013, we issued 250,000 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in March 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$13,239. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 141.06% and 141.13%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.35% and 0.38%, and an expected life based on the expiration date of the warrants of three years.

In April 2013, we issued 22,000 warrants to purchase our common shares at \$0.50 per share in connection with the issuance of four notes payable to Stuart J. Doshi, President and CEO, for \$110,000 (Note 5). The warrants expire in

April 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$1,028. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 143.58% and 149.38%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.33% and 0.36%, and an expected life based on the expiration date of the warrants of three years.

In April 2013, we issued 625,000 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in April 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$19,402. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 149.03% and 159.99%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.32% and 0.33%, and an expected life based on the expiration date of the warrants of three years.

In May 2013, we issued 1,000 warrants to purchase our common shares at \$0.35 per share in connection with the issuance of a note payable to Stuart J. Doshi, President and CEO, for \$5,000 (Note 5). The warrants expire in May 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$48. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 164.88%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.40% and an expected life based on the expiration date of the warrants of three years.

In May 2013, we issued 8,000 warrants to purchase our common shares at \$0.25 per share in connection with the issuance of a promissory note for \$40,000 (Note 5). The warrants expire in May 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$494. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 174.60%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.41% and an expected life based on the expiration date of the warrants of three years.

In June 2013, we issued 10,000 warrants to purchase our common shares at \$0.35 per share in connection with the issuance of a note payable to a Company Director for \$50,000 (Note 5). The warrants expire in June 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$508. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 174.20%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.52% and an expected life based on the expiration date of the warrants of three years.

In June 2013, we issued 9,000 warrants to purchase our common shares at \$0.25 per share in connection with the issuance of a promissory note for \$45,000 (Note 5). The warrants expire in June 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$477. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 173.52%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.55% and an expected life based on the expiration date of the warrants of three years.

In June 2013, we issued 765,625 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in June 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$37,669. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 171.05% and 171.23%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.73% and 0.74%, and an expected life based on the expiration date of the warrants of three years.

In June 2013, we issued 180,000 warrants to purchase our common shares at \$0.50 per share in conjunction with services rendered (Note 7). The warrants expire in June 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$8,558. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 170.61%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.66%, and an expected life based on the expiration date of the warrants of three years.

In July 2013, we issued 34,375 warrants to purchase our common shares at \$0.50 per share in conjunction with a private placement of our common stock (Note 7). The warrants expire in July 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$1,623. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of 169.76%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of 0.64%, and an expected life based on the expiration date of the warrants of three years.

In August 2013, we issued 8,000 warrants to purchase our common shares at \$0.10 per share in connection with the issuance of three notes payable to Stuart J. Doshi, President and CEO, for \$40,000 (Note 5). The warrants expire in

August 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$350. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 168.17% and 184.61%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.70% and 0.79%, and an expected life based on the expiration date of the warrants of three years.

In September 2013, we issued 3,400 warrants to purchase our common shares at \$0.10 per share in connection with the issuance of two notes payable to Stuart J. Doshi, President and CEO, for \$17,000 (Note 5). The warrants expire in September 2016. The total fair value of the warrants as calculated using the Black-Scholes pricing model was \$110. Key assumptions used in valuing the warrants included: an estimated dividend yield of 0%, volatility based upon the Company's historic volatility of its publicly traded shares of between 184.61% and 189.62%, an estimated risk-free interest rate based on the U.S. Treasury yield curve at the date of grant of between 0.83% and 0.87%, and an expected life based on the expiration date of the warrants of three years.

As of September 30, 2013 we have reserved 6,822,165 shares of common stock for the exercise of our stock purchase warrants.

10. SUBSEQUENT EVENTS

We have evaluated all activity of the Company and concluded that no subsequent events have occurred that would require recognition in the consolidated financial statements or disclosure in the notes to the consolidated financial statements, except as disclosed below.

In November 2013, Stuart J. Doshi, President and CEO, advanced the Company a loan in the amount of \$24,000. The note bears interest at 10% per annum and is payable on demand. In connection with this note, the Company issued 4,800 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.10 for a period of three years.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with accompanying financial statements and related notes included elsewhere in this report. It contains forward looking statements that reflect our future plans, estimates, beliefs and expected performance. The forward looking statements are dependent upon events, risks and uncertainties that may be outside our control. Our actual results could differ materially from those discussed in these forward looking statements.

Factors that could cause or contribute to such differences include, but are not limited to, market prices for natural gas and oil, economic and competitive conditions, regulatory changes, estimates of proved reserves, geological, geophysical, and engineering risks and uncertainties, potential failure to achieve production from development drilling projects, capital expenditures and other uncertainties, as well as those factors discussed below and elsewhere in this report, particularly in "Risk Factors", all of which are difficult to predict and which expressly qualify all subsequent oral and written forward-looking statements attributable to us or persons acting on our behalf. In light of these risks, uncertainties and assumptions, the forward looking events discussed may not occur. We do not have any intention or obligation to update forward-looking statements included in this report after the date of this report, except as required by law.

Overview

We are an oil and gas company in the business of exploring and developing oil and natural gas reserves on a worldwide basis. Since inception, we have conducted leasehold acquisition, exploration and drilling activities on our North American and international prospects. These projects consist of mineral leases and exploration permits that give us the right to explore for, develop and produce oil and natural gas. Most of these properties are in the exploration, appraisal or development drilling phase and have not begun to produce revenue from the sale of oil and natural gas.

Since 2003, substantially all of our revenue has been generated from natural gas sales derived from the Magness #1, the Fannin #1, and the Mitchell #1 wells in the Madisonville Field in East Texas under spot gas purchase contracts at market prices. Natural gas sales from the Madisonville Field are expected to account for all of our revenues for 2013, if any. We expect the majority of our capital expenditures for the remainder of 2013 and for 2014 will be for the Madisonville Project and will approximate \$6.1 million. These capital expenditures will only be incurred if additional financing is available.

As a result of the Company's liquidity issues, it may be required to sell certain assets, including reserves and/or raise capital with terms that may not be as favorable as might otherwise be available.

In April 2012, the Company's wholly-owned subsidiary, Redwood Energy Production, L.P., elected to temporarily shut-in its natural gas production at the Madisonville Field, Madison County, Texas in light of depressed natural gas prices. The Company is monitoring market conditions and will bring its natural gas production back on stream as market conditions warrant. As of September 30, 2013, the Madisonville Field remains shut-in.

On February 28, 2013, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement"), with MCW Energy Group Limited, an Ontario corporation ("MCW"), and MCW CA SUB, a California corporation and a wholly-owned subsidiary of Parent ("Merger Sub"). On April 4, 2013, the Company entered into an amendment (the "Amendment") to the Merger Agreement. Pursuant to the Merger Agreement and subject to the terms and conditions set forth therein, Merger Sub will merge with and into the Company (the "Merger") and the Company will survive the Merger and continue as a subsidiary of MCW. The Merger Agreement has been approved by Boards of Directors of each of the Company, MCW and Merger Sub. The merger is subject to customary closing conditions, including regulatory and shareholder approval. As of September 30, 2013, the parties are continuing to move forward with the Merger.

Results of Operations

The financial information with respect to the three and nine months ended September 30, 2013 and 2012 as discussed below is unaudited. In the opinion of management, such information contains all adjustments (consisting primarily of normal recurring accruals) necessary for a fair presentation of the results for such periods. The results of operations for interim periods are not necessarily indicative of the results of operations for the full fiscal years.

Revenue and Operating Trends

For the three and nine months ended September 30, 2013, we did not generate sufficient revenues to cover the plant operating expenses and lease operating expenses in our Madisonville Project. This was due to the continued temporary shut-in of the Madisonville Field due to low natural gas prices. The Company is monitoring market conditions and intends to restore its natural gas production when market conditions warrant.

Subject to capital availability, we plan to workover the Mitchell #1 well and to frac and connect via gathering line the Wilson #1 well during the remainder of fiscal 2013 and 2014. Once the above production enhancements are completed, the Company expects the combined Rodessa formation production to increase. The Company hopes to continue to realize both intermediate and long term cost and operating efficiencies generated by consolidating the upstream and midstream portions of Madisonville under common ownership. We will continue to explore other long term cost savings and efficiency measures at the natural gas treatment plant. Future plans are to expand the plant

capacity from the current design capacity of 18 MMcf/d to 30 MMcf/d.

Industry Overview for the three and nine months ended September 30, 2013

Fluctuations in the price for natural gas are closely associated with customer demand relative to the volumes produced and the level of inventory in underground storage. Increased production from shale gas will continue to impact natural gas pricing for the foreseeable future.

Company Overview for the three and nine months ended September 30, 2013

Our net loss applicable to common shareholders for the three and nine months ended September 30, 2013 was \$658,292 and \$2,353,336, respectively. From our inception through mid-2003, we only received nominal revenues from our oil and natural gas activities, while incurring substantial acquisition and exploration costs and overhead expenses which have resulted in an accumulated deficit through September 30, 2013 of \$52,082,949. The Company did not generate any revenue for the three and nine months ended September 30, 2013 due to the continued temporary shut-in of the Madisonville Field as a result of low natural gas prices.

Comparison of Results of Operations for the three months ended September 30, 2013 and 2012

We had no natural gas revenues for the three months ended September 30, 2013 and 2012. This was due to the continued temporary shut-in of the Madisonville Field as a result of low natural gas prices.

Plant operating expenses for the three months ended September 30, 2013 were \$106,459 as compared to \$95,638 for the three months ended September 30, 2012. The increase in plant operating expenses of \$10,821 or 11% was primarily attributable to an increase in ad valorem taxes. When operations resume at the plant, expenses will increase from current levels.

Lease operating expenses for the three months ended September 30, 2013 were \$32,061. Lease operating expenses for the three months ended September 30, 2012 were \$24,177. The increase in total lifting cost of \$7,884 or 33% was primarily attributable to an increase in ad valorem taxes and other lease operating costs.

General and administrative expenses ("G&A") for the three months ended September 30, 2013 were \$346,349 as compared to \$443,427 for the three months ended September 30, 2012. The decrease in G&A of \$97,078 or 22% was primarily attributable to a decrease in share-based compensation due to expiring options.

Depreciation, depletion and amortization expense ("DD&A") for the three months ended September 30, 2013 was \$2,699 as compared to \$82,051 for the three months ended September 30, 2012. The 97% decrease was primarily attributable to reduced depreciation as a result of the continued temporary shut-in of the Madisonville Field. During the shut-in of the Madisonville facility, depreciation is suspended.

The loss from operations for the three months ended September 30, 2013 was \$487,568 as compared to \$1,265,949 for the three months ended September 30, 2012. The decrease in the comparable loss from operations was primarily attributable to the impairment of oil and gas properties in 2012 and lower G&A costs in 2013.

Interest expense for the three months ended September 30, 2013 was \$89,512 as compared to \$77,658 for the three months ended September 30, 2012. The increase in interest expense was primarily attributable to the increase in related party notes.

Comparison of Results of Operations for the nine months ended September 30, 2013 and 2012

We had no gross natural gas revenues for the nine months ended September 30, 2013. Gross natural gas revenues for the nine months ended September 30, 2012 were \$351,082. During this 2012 period, the sales of natural gas from our wells amounted to 161,377 Mcf and our average natural gas price realized was \$2.18 per Mcf. The decrease in revenues was due to the continued temporary shut-in of the Madisonville Field as a result of low natural gas prices.

Plant operating expenses for the nine months ended September 30, 2013 were \$266,922 as compared to \$967,187 for the nine months ended September 30, 2012. The decrease in plant operating expenses of \$700,265 or 72% was primarily attributable to the suspension of plant operations as a result of the continued temporary shut-in of the Madisonville Field. Since the Company planned for an extended shut down, it was able to significantly reduce expenses. When operations resume at the plant, expenses will increase from current levels.

Lease operating expenses for the nine months ended September 30, 2013 were \$126,333. Lease operating expenses for the nine months ended September 30, 2012 were \$165,402. Our net average lifting cost for this 2012 period was \$1.02 per Mcf. The decrease in total lifting cost of \$39,069 or 24% was primarily attributable to the suspension of operations as a result of the continued temporary shut-in of the Madisonville Field.

General and administrative expenses ("G&A") for the nine months ended September 30, 2013 were \$1,456,442 as compared to \$1,405,590 for the nine months ended September 30, 2012. The increase in G&A of \$50,852 or 4% was primarily attributable to legal costs associated with the MCW merger.

Depreciation, depletion and amortization expense ("DD&A") for the nine months ended September 30, 2013 was \$8,641 as compared to \$349,029 for the nine months ended September 30, 2012. The 98% decrease was primarily attributable to reduced depreciation and depletion as a result of the continued temporary shut-in of the Madisonville Field. During the shut-in of the Madisonville facility, depreciation is suspended.

The loss from operations was \$1,858,338 for the nine months ended September 30, 2013 as compared to \$3,156,782 for the nine months ended September 30, 2012. The decrease in the comparable loss from operations was primarily attributable to lower plant operating expenses as a result of the continued temporary shut-in of the Madisonville Field and the impairment of oil and gas properties in 2012.

Interest expense for the nine months ended September 30, 2013 was \$257,754 as compared to \$217,616 for the nine months ended September 30, 2012. The increase in interest expense was primarily attributable to the increase in related party notes.

Recent Developments

In January 2013, the Company engaged Burr Pilger Mayer, Inc. as its independent registered public accounting firm to audit the Company's financial statements for the fiscal year ended December 31, 2012.

In January 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan for \$5,000. The note bears interest at 10% per annum and is payable on demand. In connection with this note, the Company issued 1,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In January 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$132,500, and represented the sale of 1,325,000 common shares and 662,500 warrants. We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In January 2013, we agreed to rescind a unit subscription agreement. Units were originally priced at \$0.25 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitled the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units originally sold was \$250,000, and represented the sale of 1,000,000 common shares and 500,000 warrants. The Company is reacquiring the common shares and warrants in exchange for a non-interest bearing unsecured note for \$250,000 which matures in July 2014.

In February 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,225,000 common shares and 612,500 warrants. We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

On February 28, 2013, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”), with MCW Energy Group Limited, an Ontario corporation (“MCW”), and MCW CA SUB, a California corporation and a wholly-owned subsidiary of Parent (“Merger Sub”). Pursuant to the Merger Agreement and subject to the terms and conditions set forth therein, Merger Sub will merge with and into the Company (the “Merger”) and the Company will survive the Merger and continue as a subsidiary of MCW. The Merger Agreement has been approved by Boards of Directors of each of the Company, MCW and Merger Sub. The merger is subject to customary closing conditions, including regulatory and shareholder approval.

In March 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$85,000. The notes bear interest at 10% per annum and are payable on demand. In connection with this note, the Company issued 17,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In March 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$50,000, and represented the sale of 500,000 common shares and 250,000 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

On April 4, 2013, the Company entered into an amendment (the “Amendment”) to the Merger Agreement with MCW and Merger Sub dated February 28, 2013.

On April 10, 2013, the Company received notice from the NYSE MKT LLC (the “NYSE MKT” or the “Exchange”) indicating that after a review of the Plan, and the request by the Company to extend the Plan Period until July 31, 2013, the Exchange determined that the Company has not made sufficient progress consistent with the Plan in order to regain compliance with Section 1003(a)(iv) of the Company Guide by July 31, 2013 and that its securities are, therefore, subject to being delisted from the Exchange. In the April 10, 2013 notice, the Exchange also informed the Company that, in accordance with Sections 1203 and 1009(d) of the Company Guide, the Company had a right to appeal the Exchange’s determination by requesting an oral hearing or a hearing based on a written submission before the Exchange’s Listing Qualifications Panel (the “Panel”). The Company appealed the Exchange’s determination by requesting an oral hearing before the Panel, which request stayed the delisting determination until at least such time as the Panel rendered a determination following the hearing. The hearing was held on June 13, 2013.

In April 2013, Stuart J. Doshi, President and CEO, advanced to the Company four loans totaling \$110,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 22,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In April 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced between \$0.08 and \$0.09 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$110,000, and represented the sale of 1,250,000 common shares and 625,000 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In May 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan in the amount of \$5,000. The note bears interest at 10% per annum and is payable on demand. In connection with this note, the Company issued 1,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.35 for a period of three years.

In May 2013, the Company issued a promissory note in the amount of \$40,000. The note bears interest at 8% per annum and matures in December 2013. In connection with this note, the Company issued 8,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.25 for a period of three years.

In June 2013, a Company Director advanced to the Company a loan in the amount of \$50,000. The note bears interest at 10% per annum and matures in June 2014. In connection with this note, the Company issued 10,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.35 for a period of three years.

In June 2013, the Company issued a promissory note in the amount of \$45,000. The note bears interest at 8% per annum and matures in December 2013. In connection with this note, the Company issued 9,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.25 for a period of three years.

On June 21, 2013, the Company received written notification regarding the results of its appeal hearing held on June 13, 2013, before the Panel of the Exchange regarding the Company's continued listing on the Exchange in light of the listing standards. After considering the presentations at the hearing, the Corporate Compliance Department of NYSE Regulation, Inc. Staff's (the "Staff") prior written submission and the Company's submission presented at the hearing, the Panel unanimously decided to defer further action on the appeal pending the Panel's receipt of a report from the Staff (the "Staff's Report") regarding the results of the Company's operations through July 15, 2013. On August 2, 2013, the Staff filed a report indicating that the Company should be delisted and the Company filed a response on August 6, 2013 requesting continued listing.

In June 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,531,250 common shares and 765,625 warrants. We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In June 2013, we agreed to issue 360,000 units in exchange for services rendered. Units were valued at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate value for the units issued was \$28,800, and represented the issuance of 360,000 common shares and 180,000 warrants and has been recorded as share-based compensation in the financial statements. We agreed to grant "piggyback" registration rights to the holder with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the holder acquired in the transaction.

In July 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$5,500, and represented the sale of 68,750 common shares and 34,375 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

On August 12, 2013, the Company received a letter from the Exchange stating that the Panel is denying the Company's appeal. Accordingly, the Exchange suspended trading in the Company's common stock on August 20, 2013, in accordance with Section 1204(d) of the Company Guide. The Company's common stock commenced trading on the OTCQB marketplace on August 21, 2013 under the trading symbol “GEOR”.

In August 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$40,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 8,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.10 for a period of three years.

In September 2013, Stuart J. Doshi, President and CEO, advanced to the Company two loans totaling \$17,000. The notes bear interest at 10% per annum and are payable on demand. In connection with these notes, the Company issued 3,400 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.10 for a period of three years.

In September 2013, we completed a common stock sale through a private placement transaction to certain institutional and individual accredited investors. Shares were priced at \$0.05 per share. The total aggregate purchase price for the shares sold was \$132,500, and represented the sale of 2,650,000 common shares. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock.

In September 2013, the Company issued a promissory note in the amount of \$20,000. The note bears interest at 8% per annum and matures in November 2013.

Liquidity and Capital Resources

We had a working capital deficit of \$7,534,898 at September 30, 2013 versus \$4,200,568 at December 31, 2012. Our working capital deficit increased during nine months ended September 30, 2013 due primarily to the reclassification of debt from long term to current and increases in our trade payables. Due to the continued temporary shut-in of the Madisonville Field, the results of our operations amounted to a loss of \$1,858,338 for the nine months ended September 30, 2013.

Our cash balance at September 30, 2013 was \$102,230 as compared to \$59,432 at December 31, 2012. The change in our cash balance is summarized as follows:

Cash balance at December 31, 2012	\$59,432
Sources of cash:	
Cash provided by financing activities	1,092,500
Total sources of cash including cash on hand	1,151,932
Uses of cash:	
Cash used in operating activities	(909,855)
Cash used in investing activities	(139,847)
Total uses of cash	(1,049,702)
Cash balance at September 30, 2013	\$102,230

Net cash used in operating activities of \$909,855 and \$1,665,222 for the nine months ended September 30, 2013 and 2012 respectively are attributable to our net loss adjusted for non-cash charges as presented in the consolidated statements of cash flows and changes in working capital as discussed above.

We have historically financed our business activities principally through issuances of common shares, preferred shares, promissory notes and common share purchase warrants issued in private placements. These financings are summarized as follows:

	Nine Months Ended	
	September	September
	30,	30,
	2013	2012
Proceeds from sale of common shares	\$675,500	\$ 250,000
Proceeds from promissory notes	105,000	—
Proceeds from related party notes	312,000	475,000
Net cash provided by financing activities	\$1,092,500	\$ 725,000

The net proceeds of our equity and note financings have been primarily used to satisfy working capital requirements and invest in oil and natural gas properties and the gas treatment plant. These investments totaled \$203,122 and \$138,863 for the nine months ended September 30, 2013 and 2012, respectively.

Our current cash and cash equivalents and anticipated cash flow from operations will not be sufficient to meet our working capital, and capital expenditure requirements for the foreseeable future. Additional financing is required to carry out our business plan. See "Outlook for 2013/2014 Capital" for a description of our expected capital expenditures for the remainder of 2013 and for 2014. If we are unable to generate revenues necessary to finance our operations over the long-term, we may have to seek additional capital through the sale of our equity or borrowing. We periodically borrow funds through the issuance of short and long term promissory notes to finance our activities.

We hold working interests and overriding royalty interests in undeveloped leases, seismic options, lease options and foreign concessions and we have participated in seismic surveys and the drilling of test wells on undeveloped properties. We plan further leasehold acquisitions for the remainder of fiscal year 2013 and future periods. Exploratory and developmental drilling is scheduled during the remainder of fiscal 2013 and future periods on our undeveloped properties. We will need additional financing to continue our operations and our planned development activities. If additional financing is not available, we will be compelled to reduce the scope of our business activities. If we are unable to fund our operating cash flow needs and planned capital investments, it will be necessary to farm-out our interest in proposed wells, sell a portion of our interest in prospects, sell a portion of our interest in our producing oil and gas properties, sell all or a portion of our gas plant, reduce general and administrative expenses, or a combination of all of these factors. Further, we have maturing debt obligations, debt service and lease obligations that will require cash payments.

As discussed in the "Outlook for 2013/2014 Capital", we are forecasting capital expenditures of \$6.3 million during the remainder of 2013 and in 2014. We will need to obtain adequate sources of cash to fund these anticipated capital

expenditures, to fund ongoing operations and to follow through with our plans for continued investments in oil and gas properties. Our success, in part, depends on our ability to generate additional financing and/or farmout certain of our projects.

GeoPetro's ability to meet its contractual obligations and remit payment under its arrangements with its vendors depends on its ability to generate additional financing. GeoPetro's management continues to renegotiate the terms of its existing borrowing arrangements and raise additional capital through debt and equity issuances. These conditions raise doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

As a result of the Company's liquidity issues, it may be required to sell certain assets, including reserves and/or raise capital with terms that may not be as favorable as might otherwise be available.

On February 28, 2013, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement"), with MCW Energy Group Limited, an Ontario corporation ("MCW"), and MCW CA SUB, a California corporation and a wholly-owned subsidiary of Parent ("Merger Sub"). On April 4, 2013, the Company entered into an amendment (the "Amendment") to the Merger Agreement. Pursuant to the Merger Agreement and subject to the terms and conditions set forth therein, Merger Sub will merge with and into the Company (the "Merger") and the Company will survive the Merger and continue as a subsidiary of MCW. The Merger Agreement has been approved by Boards of Directors of each of the Company, MCW and Merger Sub. The merger is subject to customary closing conditions, including regulatory and shareholder approval. As of September 30, 2013, the parties are continuing to move forward with the Merger.

Contractual Obligations

We have assumed various contractual obligations and commitments in the normal course of our operations and financing activities. We have described these obligations and commitments in our "Management's Discussion and Analysis of Financial Condition and Results of Operations" section in our Annual Report on Form 10-K for the year ended December 31, 2012. There were no material changes to our contractual obligations since December 31, 2012 except items described in "Recent Developments".

Off Balance Sheet Arrangements

None.

Financial Instruments

We currently have no natural gas price financial instruments or hedges in place. Our natural gas marketing contracts use "spot" market prices. Given the uncertainty of the timing and volumes of our natural gas production this year, we do not currently plan to enter into any long term fixed-price natural gas contracts, swap or hedge positions, or other gas financial instruments in 2013.

Outlook for 2013/2014 Capital

Depending on capital availability, we are forecasting capital spending of up to approximately \$6,345,000 during the remainder of fiscal 2013 and 2014, allocated as follows:

1. Madisonville Project, Madison County, Texas - Approximately \$6,095,000 may be expended in the Madisonville 1. Field area as follows: \$650,000 for the Mitchell well workover, \$1,445,000 towards the fracture stimulation and hook up costs of the Wilson well and \$4,000,000 for the expansion of the gas treatment plant.
2. California - Approximately \$100,000 to be utilized for land and permitting costs.
3. Canada - Approximately \$150,000 to be utilized for land and permitting costs.

We may, in our discretion, decide to allocate resources towards other projects in addition to or in lieu of those listed above should other opportunities arise and as circumstances warrant. We currently do not have sufficient working capital to fund all of the capital expenditures listed above. We may, in our discretion, fund the foregoing planned expenditures from operating cash flows, asset sales, potential debt and equity issuances and/or a combination of all four. The Madisonville Project forecasted capital expenditures will play an important part in the Company achieving its 2013 and 2014 cash flow projections. See "Liquidity and Capital Resources."

We expect commodity prices to be volatile, reflecting the current supply and demand fundamentals for North American natural gas and world crude oil. Political and economic events around the world, which are difficult to predict, will continue to influence both oil and gas prices. Significant price changes for oil and gas often lead to changes in the levels of drilling activity which in turn lead to changes in costs to explore, develop and acquire oil and gas reserves. Significant change in costs could affect the returns on our capital expenditures.

Impact of Inflation & Changing Prices

We are highly dependent upon natural gas pricing. A material decrease in current and projected natural gas prices could impair our ability to raise additional capital on acceptable terms. Likewise, a material decrease in current and projected natural gas prices could also impact our revenues and cash flows. This could impact our ability to fund future activities.

Changing prices have had a significant impact on costs of drilling and completing wells, particularly in the Madisonville Field area where we are currently the most active. These higher costs have impacted and will continue to impact our income from operations in the form of higher depletion expense.

Critical Accounting Estimates

Our consolidated financial statements have been prepared by management in accordance with U.S. GAAP. We refer you to the corresponding section in Part II, Item 7 and the notes to the consolidated financial statements of our Annual Report on Form 10-K for the year ended December 31, 2012 for the description of critical accounting policies and estimates.

Risks and Uncertainties

There are a number of risks that face participants in the U.S., Canadian and international oil and natural gas industry, including a number of risks that face us in particular. Accordingly, there are risks involved in an ownership of our securities. See "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012 for a description of the principal risks faced by us.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks arising from fluctuating prices of crude oil, natural gas and interest rates as discussed below.

Commodity Risk. Our major commodity price risk exposure is to the prices received for our natural gas production. Realized commodity prices received for our production are the spot prices applicable to natural gas in the East Texas region. Prices received for natural gas are volatile and unpredictable and are beyond our control.

Currency Translation Risk. Because our revenues and expenses are primarily in U.S. dollars, we have little exposure to currency translation risk, and, therefore, we have no plans in the foreseeable future to implement hedges or financial instruments to manage international currency changes.

Interest Rate Risk. Interest rates on future debt offerings could be higher than current levels, causing our financing costs to increase accordingly. We do not currently utilize hedging contracts to protect against interest rate risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our President, Chief Executive Officer and Chairman and our Vice President of Finance, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of September 30, 2013. Based on this evaluation, we have

concluded that, as of September 30, 2013, our disclosure controls and procedures were effective, in that they ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) accumulated and communicated to our management, including our President and Chief Executive Officer and our Vice President of Finance, as appropriate to allow timely decisions regarding required disclosure.

During the most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are party to litigation or other legal and administrative proceedings that we consider to be a part of the ordinary course of our business. Currently, we are not involved in any legal proceedings nor are we party to any pending or threatened claims that could, individually or in the aggregate, reasonably be expected to have a material adverse effect on our financial condition, cash flow or results of operations.

Item 1A. Risk Factors

As of the date of this filing, there have been no material changes from the risk factors previously disclosed in our "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012, referred to as our 2012 Annual Report. An investment in our securities involves various risks. When considering an investment in our company, you should consider carefully all of the risk factors described in our 2012 Annual Report. These risks and uncertainties are not the only ones facing us and there may be additional matters that we are unaware of or that we currently consider immaterial.

Item 2. Unregistered Sales of Securities and Use of Proceeds

Unregistered Sales of Securities

In January 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan for \$5,000. In connection with this note, the Company issued 1,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In January 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$132,500, and represented the sale of 1,325,000 common shares and 662,500 warrants. We agreed to grant "piggyback" registration rights to the investor with respect to the shares of common stock and common stock

issuable upon exercise of the warrants which the investor acquired in the transaction.

In January 2013, we agreed to rescind a unit subscription agreement. Units were originally priced at \$0.25 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitled the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units originally sold was \$250,000, and represented the sale of 1,000,000 common shares and 500,000 warrants. The Company is reacquiring the common shares and warrants in exchange for a non-interest bearing unsecured note for \$250,000 which matures in July 2014.

In February 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,225,000 common shares and 612,500 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In March 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$85,000. In connection with this note, the Company issued 17,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In March 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.10 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$50,000, and represented the sale of 500,000 common shares and 250,000 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In April 2013, Stuart J. Doshi, President and CEO, advanced to the Company four loans totaling \$110,000. In connection with these notes, the Company issued 22,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years.

In April 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced between \$0.08 and \$0.09 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$110,000, and represented the sale of 1,250,000 common shares and 625,000 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In May 2013, Stuart J. Doshi, President and CEO, advanced to the Company a loan for \$5,000. In connection with this note, the Company issued 1,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.35 for a period of three years.

In May 2013, the Company issued a promissory note in the amount of \$40,000. In connection with this note, the Company issued 8,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.25 for a period of three years.

In June 2013, a Company Director advanced to the Company a loan for \$50,000. In connection with this note, the Company issued 10,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.35 for a period of three years.

In June 2013, the Company issued a promissory note in the amount of \$45,000. In connection with this note, the Company issued 9,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.25 for a period of three years.

In June 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$122,500, and represented the sale of 1,531,250 common shares and 765,625 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In June 2013, we agreed to issue 360,000 units in exchange for services rendered. Units were valued at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate value for the units issued was \$28,800, and represented the issuance of 360,000 common shares

and 180,000 warrants and has been recorded as share-based compensation in the financial statements. We agreed to grant “piggyback” registration rights to the holder with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the holder acquired in the transaction.

In July 2013, we completed a unit sale through a private placement transaction to certain institutional and individual accredited investors. Units were priced at \$0.08 per unit, and each unit consisted of one share of no par value common stock, and a one-half common share purchase warrant. Each one whole warrant entitles the holder to acquire one common share at a price of \$0.50 for a period of three years. The total aggregate purchase price for the units sold was \$5,500, and represented the sale of 68,750 common shares and 34,375 warrants. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock and common stock issuable upon exercise of the warrants which the investor acquired in the transaction.

In August 2013, Stuart J. Doshi, President and CEO, advanced to the Company three loans totaling \$40,000. In connection with these notes, the Company issued 8,000 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.10 for a period of three years.

In September 2013, Stuart J. Doshi, President and CEO, advanced to the Company two loans totaling \$17,000. In connection with these notes, the Company issued 3,400 warrants to purchase our common stock. Each warrant entitles the holder to acquire one common share at a price of \$0.10 for a period of three years.

In September 2013, we completed a common stock sale through a private placement transaction to certain institutional and individual accredited investors. Shares were priced at \$0.05 per share. The total aggregate purchase price for the shares sold was \$132,500, and represented the sale of 2,650,000 common shares. We agreed to grant “piggyback” registration rights to the investor with respect to the shares of common stock.

GeoPetro issued the aforementioned common shares and warrants in reliance on the exemption from registration provided for under Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"), and Rule 506 of Regulation D thereunder. GeoPetro relied on the exemption from registration provided for under Section 4(2) of the Securities Act based in part on the representations made by the purchasers, including the representations with respect to each purchaser's status as an accredited investor, as such term is defined in Rule 501(a) of the Securities Act, and each purchaser's investment intent with respect to the securities purchased. In addition, the Securities, which were taken for investment purposes and not for resale, were subject to restrictions on transfer. We did not engage in any public advertising or general solicitation in connection with this transaction, and we provided the investors with disclosure of all material aspects of our business, including providing the investor with our reports filed with the Securities and Exchange Commission and other financial, business and corporate information. Based on our investigation, we believed that the accredited investors obtained all information regarding the Company that they requested, received answers to all questions posed and otherwise understood the risks of accepting our Securities for investment purposes.

Use of Proceeds

Proceeds realized will be spent in the following order of priority by the Company:

- 1) General Working Capital
- 2) Debt Service
- 3) Madisonville Project, Madison County
- 4) California Project

We do not know if, or how many, of the warrants or options will be exercised. This is our best estimate of our use of proceeds generated from the possible exercise of warrants or options based on the current state of our business operations, our current plans and current economic and industry conditions. Any changes in the projected use of proceeds will be made at the sole discretion of our board of directors.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

On November 11, 2013, David V. Creel resigned as Vice President of Exploration. Mr. Creel did not reference any disagreement with GeoPetro on any matter. Mr. Creel indicated that he needed to resign for health reasons. Mr. Creel will continue to serve on the Company's Board of Directors.
